Arms of
THE UNIVERSITY OF
NEW SOUTH WALES

Granted by the College of Heralds, London, 3 March 1952
In 1994 the University title was added to the Arms to create the new University Symbol shown.

Heraldic Description of the Arms

Argent on a Cross Gules a Lion passant guardant between four Mullets of eight points Or a Chief Sable charged with an open Book proper thereon the word SCIENTIA in letters also Sable.

The lion and the four stars of the Southern Cross on the Cross of St George have reference to the State of New South Wales which brought the University into being; the open book with SCIENTIA across its page reminds us of its original purpose. Beneath the shield is the motto ‘Manu et Mente’ (‘with hand and mind’), which was the motto of the Sydney Technical College, from which the University has developed. The motto is not an integral part of the Grant of Arms and could be changed at will; but it was the opinion of the University Council that the relationship with the parent institution should in some way be recorded.
Vision

Our vision is to be Australia’s leading international research university with a reputation for excellence in scholarship, learning and the student experience.

Purpose

To excel in research as a contribution to a productive and sustainable economy, the prosperity of our nation, the health and well-being of its people, and the protection of our environment.

To advance human knowledge through our research, teaching, and scholarship and our engagement with the community.

To contribute to the development, the well-being and stability of our region of South-East Asia through scholarship, collaboration, consultation, training and exchange.

To enable all our students to have an outstanding learning experience to ensure they reach their full potential and assure the quality of their contribution to our society as citizens, employees and future leaders.

To be a dynamic point of contact for the life-long learning and social engagement of our alumni.

To think ahead.

UNSW

The University of New South Wales occupies 38 hectares in Kensington, an inner south-eastern suburb of Sydney. It also has campuses in Canberra and Paddington as well as a number of research stations and teaching hospitals in other parts of New South Wales. In addition, plans began in August 2005 to establish a new campus in Singapore, to be known as UNSW Asia.

The University consists of eight faculties: Arts and Social Sciences; the Built Environment; Commerce and Economics; Engineering; Law; Medicine; Science; and the College of Fine Arts. The Australian Graduate School of Management is a joint venture between the University of New South Wales and the University of Sydney. UNSW also provides undergraduate and graduate courses through the University College at the Australian Defence Force Academy (UNSW@ADFA).

UNSW offers a wide range of first degrees, higher degrees, graduate diplomas and other programs and possesses substantial research facilities.

The total number of students in 2005 was 38,915 made up of 23,915 Bachelors, 10,332 higher degrees, 3,077 graduate diplomas, graduate certificates and postgraduate qualifying programs and 1,591 in non-award or cross-institutional studies.

The number of staff supporting these students was 6,215 of whom 3,213 were academic staff and 3,002 were general staff.

The University Library contains 2.7 million items. The library website receives more than 11.3 million hits per year and provides access to almost 40,000 electronic journal titles.

Governance

The University is governed by a Council of no more than twenty two members including Parliamentary and ex-officio members, members elected by staff, students and graduates of the University, and members appointed by the NSW Minister for Education and Training or by Council itself. The principal academic body is the Academic Board which receives advice on academic matters from the faculties and UNSW@ADFA. The faculties are responsible for the teaching and examining of degree programs within their scope and the Academic Board coordinates and furthers their work.

The principal executive officer of the University is the Vice-Chancellor and President. The Deputy Vice-Chancellors and Pro-Vice-Chancellor are responsible for the provision of student services, research policy and management, education policy, educational enterprise, international enterprise, development, and resources and infrastructure. The Chief Financial Officer is responsible for strategic business advice and the provision of financial services. The Chief Information Officer is responsible for developing and implementing strategies for maintaining and enhancing infrastructure systems and telecommunications to support information management. There are eight full-time Faculty Deans as well as the Dean of Graduate Research, the Rector of UNSW@ADFA and the Dean and Director of the Australian Graduate School of Management. The Deans have considerable delegated authority in relation to their areas.

University Organisation

The University’s academic organisation includes eight faculties based in Sydney, NSW, the University College at the Australian Defence Force Academy in Canberra, ACT (UNSW@ADFA) and the Australian Graduate School of Management. The faculties are groupings of schools, according to academic disciplines, through which the academic staff conduct teaching at undergraduate, postgraduate and higher degree level, and pursue research and scholarly investigations.

Faculty Boards are established under the University Rules. They are responsible for supervising teaching, conducting examinations and encouraging scholarship and research in relevant areas of study. Each Faculty Board comprises professors, associate professors, senior lecturers, and associate lecturers in the relevant departments, ex officio members, elected students, and other persons whom Council appoint as members. Faculty Boards and their committees meet several times each year on scheduled dates.

Each Faculty has a Dean who is appointed by Council to direct the activities of the faculty. The Dean is responsible to the Vice-Chancellor for administration, financial and academic affairs.

The University also provides teaching and research activities at its teaching hospitals; field stations; the Manly Vale Water Research Laboratory; the Randwick Campus, where some of the schools have facilities and the Institute of Languages is located; and the Clifffield campus, where Atax is located.

Detailed information on each faculty and school and the programs offered at UNSW is available in the Undergraduate and Postgraduate Handbooks and in the Online Handbook [www.handbook.unsw.edu.au](http://www.handbook.unsw.edu.au).

Australian Graduate School of Management

The Australian Graduate School of Management (AGSM) is regularly rated as Australia’s pre-eminent graduate management school, internationally renowned for its research-based and highly relevant management education. In 1998, the University of New South Wales and the University of Sydney formed a joint venture to merge the AGSM at UNSW with the Graduate School of Business at the University of Sydney to form a new Australian Graduate School of Management. From 1999, the AGSM became a School of both universities. Its students become graduates of both universities.

The AGSM offers a full-time Master of Business Administration (MBA). The full-time MBA program is undertaken over 15 or 18 months. In addition to the courses offered at the UNSW campus, the full-time MBA offers a student exchange program with leading international business schools and management projects for students to work with external organisations. The part-time MBA (Executive) Program is offered nationally and may be completed in a minimum of three years. The first stage is a modular sequence of courses by distributed learning with weekly classes synchronised in major mainland Australian cities. The first stage leads to a Graduate Diploma in Management. Students may then elect to take the second stage, the Executive Year, focusing on strategy and general management, leading to the award of MBA (Executive). Eligible Sydney-based students are also able to transfer from the Graduate Diploma in Management to the elective phase of the full-time MBA. This option allows students to tailor their studies by choosing a sub-set of electives from the full-time program and leads to the award of MBA. An on-line Graduate Certificate in Change Management is also offered.

The AGSM admits students to a PhD program. This research doctorate is designed for those who seek to develop their research skills and establish a deep understanding in one of the key disciplines of management.

The AGSM provides executive and corporate training through AGSM Executive Programs. Internationally renowned experts teach a range of courses that include leadership, communications, marketing, finance, brands and e-commerce in a range of intensive residential courses for experienced managers. These extend from short advanced courses in specialised fields of management to extended general management programs of two-weeks duration. Specially designed programs are also delivered for corporate clients.

The AGSM operates from sites at the UNSW campus in Kensington and at its campus based in the Sydney CBD. The AGSM also offers its MBA in Hong Kong on a part-time basis.

University College, Australian Defence Force Academy

The University College is located at the Australian Defence Force Academy (ADFA) in Canberra and was established in 1981. Academic programs are delivered through the University College (UNSW@ADFA), a faculty of the University of New South Wales, in a range of degree discipline areas. UNSW@ADFA provides programs of study leading to the award of degrees of Bachelor of Arts, Bachelor of Business, Bachelor of Science and Bachelor of Engineering at Pass and Honours level, and Bachelor of Technology at Pass level.

Entry to UNSW@ADFA’s undergraduate programs is by selection. Candidates must have reached an approved academic standard and have met the particular requirements of the branch of the Services to which they have been recruited. UNSW@ADFA undergraduate programs are restricted to Midshipmen and Officer Cadets; certain other members of the Regular Armed Services, and approved members of the armed forces of other countries.

Institutes

Garvan Institute of Medical Research

In 1963, the establishment of the Garvan Institute of Medical Research fulfilled a long held desire of St Vincent’s Hospital to contribute to the international body of scientific knowledge in addition to its role as a provider of medical care. Incorporated as an autonomous Institute under its own Act of Parliament in 1984, the Garvan is NSW’s premier research institute. It is the only Institute in NSW to receive ‘Centre of Excellence’ status with block funding from the National Health and Medical Research Council and is formally affiliated with St Vincent’s Hospital and UNSW.

The Garvan Institute of Medical Research seeks to relieve human pain and suffering through intensive research into the molecular basis of health and disease. The Garvan integrates its basic and clinical resources to target five main areas:

- cancer;
- diabetes, obesity and cardiovascular disorders;
- neurobiology;
- osteoporosis;
- arthritis and Inflammation;
- pituitary disease.

These are all complex diseases with enormous social and financial costs for Australia and which depend on the application of a wide variety of sophisticated medical research techniques.

The Garvan is internationally recognised for its research achievements. Significant findings over the last few years have included:

- the exciting discovery of neurotransmitter receptors which may provide keys to unlock the secrets of how the brain controls appetite, anxiety, bone synthesis and hormone levels;
- development of an understanding of the relationship between the levels of different growth factor and hormone receptors in breast cancer;
- identification of new genetic markers that predict disease outcome in prostate, ovarian and pancreatic cancer;
- the finding that certain types of fat are closely related to the effectiveness of insulin - this discovery not only has significance for diabetes sufferers but also for those afflicted with functional metabolic problems related to obesity, high blood pressure and heart disease;
- the identification of a gene responsible for determining bone density, and hence the risk of developing osteoporosis;
- mapping of a gene responsible for susceptibility to manic depressive illness.

With over 300 staff, including 45 PhD students and over 60 highly specialised post-doctoral researchers, the Garvan believes that medical research is a vital part of the Australian health care system where it can be integrated with both educational and full community service programs.

UNSW Centres
The University has established a range of centres to encourage research, teaching and community service in areas not readily covered by individual schools and faculties. Most centres concentrate on multidisciplinary or interdisciplinary fields and bring together cognate groups of academics, researchers and students, traversing traditional faculty-school boundaries, to collaborate and deliver valuable, mutually beneficial activities in research and development. The amalgamation of expertise and resources to build up critical mass in centres has been essential in many of UNSW’s areas of research strength. Centres also provide a common and easily identifiable “brand” external to UNSW. Most centres focus on themes where research or teaching excellence has been developed and are supported by substantial and continuing funding independent of the University’s operating grant.

A listing of UNSW centres can be found in the ‘Centres, Institutes and Associate Organisations’ section earlier in the Calendar. For further information on UNSW centres please contact the relevant centre director.

International Exchange Program
UNSW actively encourages all students to undertake part of their study overseas through one of our formal reciprocal exchange agreements. Students have over 170 different exchange opportunities to choose from in 32 countries. In 2005, around 350 students studied overseas at one of our partner universities and UNSW is committed to the active expansion of its international exchange program.

Under the program, students can spend one or two semesters at a partner university in Asia, Europe, USA, India, Canada, or Latin America. Studies completed at the overseas university are credited towards the student’s UNSW degree. This means that no extra time is required to complete the degree.

Local and international undergraduate and postgraduate students with a satisfactory academic record may apply to participate in the exchange program after one semester of study at UNSW. During their period of exchange, students remain enrolled at UNSW and pay normal activity fees and HECS, local or international fees. The overseas university waives tuition fees for exchange students, but students are responsible for their own travel, accommodation and living expenses.

To assist students to gain overseas experience, the University has numerous International Exchange Scholarships available, valued at $1,800 each; more than 80 were made available in 2005. In addition, students with demonstrated financial need may apply for an exchange Bursary of up to $5,000 to assist them during their exchange. Students who receive Youth Allowance or another types of scholarships may usually continue to receive these benefits while on exchange.

The International Exchange Program is part of UNSW International and is located on Level 2, East Wing The Red Centre H16, Engineering Road. Telephone (02) 9385 7276, fax (02) 9385 5027, email intex@unsw.edu.au, website www.international.unsw.edu.au.

International Student Services
International Student Services (ISS) helps international students adjust to living and studying in Australia and promotes understanding between people from different cultures through a wide range of social and cultural activities.

Students can have a personal and confidential discussion with an advisor on any matter of concern, including decisions students have to make (study, finances, personal), assistance with practical difficulties (housing, health, finance, bureaucracy), personal relationships or issues affecting the student’s dependants in Australia. Where necessary advisors can act as advocates for students on administrative and academic matters or mediate with the University and government departments.

Specialised programs offered by ISS include: pre-departure information; airport reception and arrangement of temporary accommodation; personal assistance in finding long-term accommodation; comprehensive orientation program and handbook for new students; academic preparation program for postgraduates; workshops focusing on specific issues related to study or personal matters; returning home seminars and valedictory function for graduands.

Throughout the year various social and cultural activities are organised to help students mix with Australians or other international students. Volunteering opportunities and community events are organized for students to gain a better understanding of the Australian culture. These activities include social sports meets, sight-seeing trips, Sydney social and community events, fund raising events, local council community projects, and cultural exchange talks by students in nearby schools and hospitals.

Support for dependants of international students is also provided by ISS. Special orientation briefing and information are provided on school education, English classes for dependants and community support services.

In particular, ISS is committed to fostering the activities of international student groups and organisations on campus so that they can assist one another. ISS offers a peer mentor program for senior international students to assist new students. Students from individual countries are also linked up with students from the same country to help each other.

A printed newsletter is sent to students once a session, an e-bulletin is updated monthly on the ISS web page and an electronic mailing list is set up to facilitate communication amongst international students and to keep them informed of relevant developments and activities of interest.

An online trading facility for students to buy/sell/exchange furniture and books is also accessible on the ISS web page. An events album of photos of various student activities is also on the web page for students.

Advisers are available Monday to Friday from 9.00am - 5.00pm throughout the year. During February and July, the office is open from 8.00am - 5.00pm weekdays and from 9.00am - 12 noon Saturday mornings to receive new students. International Student Services is part of UNSW International and is located on the first floor, East Wing of the Red Centre, H16, Engineering Road. - criminal record;
• medical record;
• national extraction or social origin; and
• trade union activity.

However, discrimination on these grounds is not made unlawful by the Act, and the grounds do not apply where the discrimination is necessary because of the inherent requirements of a particular job. The only avenue of redress for a complaint under this Act is conciliation.

Equal Opportunity in Education Policy

Statement

Under the Federal Racial Discrimination Act 1975, the Sex Discrimination Act 1984, and the Disability Discrimination Act 1992 and the NSW Anti-Discrimination Act 1977, the University is required not to discriminate against students or prospective students on the grounds of age, disability, homosexuality (male or female), marital status, pregnancy, race (including colour, nationality, descent, ethnic, ethno-religious or national origin, and immigration), religious or political affiliation, views or beliefs, sex, and transgender or transsexuality. Under The University of New South Wales Act 1989, the University declares that it will not discriminate on the grounds of religious or political affiliations, views or beliefs.

University Commitment to Equal Opportunity in Education

As well as recognising its statutory obligations as listed, the University will eliminate discrimination on any other grounds which it deems to constitute disadvantage. The University is committed to providing a place to study free from harassment and discrimination, and one in which every student is encouraged to work towards her/his maximum potential. The University further commits itself to course design, curriculum content, classroom environment, assessment procedures and other aspects of campus life which will provide equality of educational opportunity to all students.

Special Admissions Schemes

The University will encourage the enrolment of students who belong to disadvantaged groups through programs such as the University Preparation Program and the ACCESS Scheme. Where members of disadvantaged groups are particularly under-represented in certain disciplines, the responsible faculties will actively encourage their enrolment.

Support of Disadvantaged Students

The University will provide support to assist the successful completion of studies by disadvantaged group members through such means as the Aboriginal Education Program and the Learning Centre. It will work towards the provision of other resources, such as access for students with impaired mobility, assistance to students with other disabilities, the provision of a parents’ room on the upper campus, and increased assistance with English language and communication.

Course Content, Curriculum Design, Teaching and Assessment, and Printed Material

Schools and faculties will monitor course content (including titles), teaching methods, assessment procedures, written material (including study guides and Handbook and Calendar entries) and audiovisual material to ensure that they are not discriminatory or offensive and that they encourage and facilitate full participation in education by disadvantaged people.

Equal Opportunity Advisor Scheme

The University will continue its Equal Opportunity Advisor Scheme for students who feel that they have been harassed or who consider they have been disadvantaged in their education by practices and procedures within the University.

Harassment Policy

The University is committed to ensuring freedom from harassment for all people working or studying within the institution. It will continue to take action, including disciplinary action, to ensure that freedom from harassment is achieved.

Government Policies

The NSW Health Department and the NSW Department of Education and Training have special requirements and policies of which students of health-related and education programs should be aware. The requirements relate to:

- clinical/internship placements which must be undertaken as part of your program
- procedures for employment after you have completed the program

Health-related Programs

Criminal record checks:

The NSW Department of Health has a policy to carry out criminal record checks on all students undertaking clinical placements or who require access in any capacity to facilities operated by the Department. (This includes all the Teaching Hospitals used by UNSW in its Medicine program.) It undertakes these checks, as it has a duty of care to all patients and clients receiving services from the Department. The check is conducted by the NSW Police Service and is coordinated by the Department of Health and the University. Further details can be obtained from your program authority.

Infectious diseases:

Students required to complete clinical training in the NSW hospital system will be subject to various guidelines and procedures laid down for health workers by the NSW Department of Health relating to immunisation, infection and blood-borne viruses. Further details can be obtained from your program authority.

Education Programs

Criminal record checks:

It is a requirement that a check of police records be conducted for all teacher education students applying for an unsupervised internship placement in a NSW government school. Contact your program coordinator for further details.

Working with Children

Under the Commission for Children and Young People Act 1998 and the Child Protection (Prohibited Employment) Act 1998, students who are part of their enrolment are required to work with children must declare whether they are a ‘prohibited person’, that is they have been convicted of a serious sex offence. It is an offence for a ‘prohibited person’ to work with children.

International Students (ESOS Act)

The Education Services for Overseas Students (ESOS) Act 2000 is Commonwealth Government legislation that ensures providers of education and training are regulated in the delivery of education services to international students.

All providers and programs available to international students are required to be registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). A National Code of Practice has been established which provides for consistent standards for the registration and conduct of registered providers and the conduct of persons who deliver educational services on behalf of registered providers.

The Act also provides for obligations and restrictions on students to comply with the conditions of their student visa. Under the Act, the University is required to monitor and report on some of these conditions to the Department of Immigration, Multicultural and Indigenous Affairs (DIMIA).

The ESOS Management Unit at UNSW is responsible for coordinating the monitoring and reporting requirements under the Act and is available for advice to students on any of these requirements. For further information, please refer to the following website or contact the Unit via phone (+61 2) 9385 3065 or email esos@unsw.edu.au: https://my.unsw.edu.au/student/resources/ESOS/ESOS.html

UNSW staff should refer to the following website for information: https://my.unsw.edu.au/student/staff/ESOStaff.html

2006 Tuition Fee Schedule

Identification of Courses and Course Fees 2006

A course is defined by the Academic Board as ‘a unit of instruction approved by the University as being a discrete part of the requirements for a program offered by the University’.

Each approved course of the University is identified by a sequence of eight characters, consisting of a four character alphabetical prefix which identifies the subject area, and a four digit numeric suffix which identifies the course. Each course has a unit of credit value defined.

Course identifiers are approved by the Registrar and the system of allocation is based on the following guidelines:

1. A four character alphabetical prefix is used to indicate the subject areas. This usually correlates with the authority offering the course (normally a School of the University), but in some cases identifies subject specialisations or cross-disciplinary subject areas.
2. Each course identifier is unique and is not used for more than one course title.

Courses taught are listed in full in the Undergraduate and Postgraduate Handbooks and in the Online Handbook. The subject areas and organisational units for each identifying alphabetical prefix are also described in the Handbooks and the specialisation pages in the Online Handbook.

Course Prefixes and Associated Fees Per Unit of Credit

A standard session academic load is 24 units of credit (48 UOC per annum).

Fees for courses are charged by unit of credit according to the classification of the course (that is undergraduate, postgraduate, research) and then the classification of the student.

To calculate the charge for a course - refer to the course prefix, appropriate course classification, and student classification to determine the fee per unit of credit.

Non-award courses will also be charged according to the classification of the course as above.

For Example: An International student is enrolling in a Faculty of Commerce and Economics course, ACCT3563, which has a value of 6 units of credit and the course is classified as undergraduate.

The fee for this course will be 6 x $400 = $2400.00

The fees listed are applicable to students who commenced study from Summer Session 2003 onwards.

General Education Program

UNSW requires that undergraduate students undertake a structured program in General Education as an integral part of studies for their degree. The University believes that a general education complements the more specialized learning undertaken in a student’s chosen field of study and contributes to the flexibility which graduates are increasingly required to demonstrate. Employers repeatedly point to the complex nature of the modern work environment and advise that they highly value graduates with the skills provided by a broad general education, as well as the specialized knowledge provided in more narrowly defined degree programs. As well, over many years graduates of this University have reported that they greatly valued their General Education studies, which are found to be relevant to both career and personal development.

The General Education Program at UNSW intends to broaden and deepen students’ understanding of the environment in which they live and work and to enhance their skills of critical analysis. Above all, the program presents students with interesting, challenging and enjoyable opportunities to pursue their own intellectual curiosity.

Objectives of the General Education Program

The following objectives were approved by the Council of the University in December 1994. (Minor changes were approved by Council in 2005).

1. To provide a learning environment in which students acquire, develop, and deploy skills of rational thought and critical analysis.
2. To enable students to evaluate arguments and information.
3. To empower students to systematically challenge received traditions of knowledge, beliefs and values.
4. To enable students to acquire skills and competencies, including appropriate written and spoken communication skills.
5. To ensure that students examine the purposes and consequences of their education and experience at University, and to foster acceptance of professional and ethical action and the social responsibility of graduates.
6. To foster among students the competence and the confidence to contribute creatively and responsibly to the development of their society.
7. To provide structured opportunities for students from disparate disciplines to interact cooperatively within a learning situation.
8. To provide opportunities for students to explore discipline and paradigm bases other than those of their professional or major disciplinary specialisation through non-specialist courses offered in those other areas.
9. To provide an environment in which students are able to experience the benefits of moving beyond the knowledge boundaries of a single discipline and explore cross and interdisciplinary connections, and cross-cultural contexts.
10. To provide a learning environment and teaching methodology in which students can bring the approaches of a number of disciplines to bear on a complex problem or issue.

General Education Requirements

The University’s basic requirements are the same for students in all single degree programs. Students must:

(a) satisfactorily complete a minimum of 12 units of credit in General Education courses or their equivalent (unless otherwise entitled to exemption). Combined undergraduate degrees offered with another faculty and leading to the award of two degrees satisfy the first requirement (12 units of credit in General Education) within the program.

(b) undertake additionally 56 hours of study which examines the purposes and consequences of their university education and which fosters socially, ethically and professionally responsible behaviour. The extent to which individual programs meet this requirement varies from program to program. In the Faculty of Arts and Social Sciences, for example, this requirement is satisfied in the BA degree through an ARTS3000 course.

In some other degrees of the Faculty of Arts, it is distributed throughout the program. Most programs in the Faculty of the Built Environment fulfil the latter requirement as part of the normal program curriculum. However, in the case of both the BBCM and BSc(Arch) programs, students are required to take BENV1382, Social Responsibility and Professional Ethics.

Because the objectives of General Education require students to explore discipline and paradigm bases other than those of their professional or major disciplinary specialisation, all students are excluded from counting courses toward the fulfillment of the General Education requirement, which are similar in content or approach to subjects required in their degree program.

Each faculty has responsibility for deciding what courses are not able to be counted towards the General Education requirement for their students. This may mean that courses offered by the faculty in which a student is enrolled, or courses which are a required part of a degree program even though offered by another Faculty, are not able to be counted toward the General Education requirement.

The Undergraduate Handbook, Online Handbook, faculty brochures and booklets provide information about what courses may and may not be taken to fulfill the General Education requirements for each degree program offered by that faculty.
The University, in common with other large organisations, has established rules and procedures which are designed for the benefit of all members of the University. In some cases, there are penalties (e.g. fines or exclusion from examinations) for non-compliance.

Students should refer to the front section of the 2006 Undergraduate and Postgraduate Handbooks where University policies and procedures are listed in detail.

Outright and Deferred Gifts and Bequests for Beneficial and Endowment Purposes

Since its foundation in 1949 the University of New South Wales has contributed to the prosperity and development of industry and commerce in Australia through its teaching, research and community outreach. While it receives a measure of support from governments, the University relies to a considerable extent on funds from a diverse range of other sources in order to continue its vital role of high-level teaching, scholarship and research on which so much of society’s development and ongoing success depends.

In 1988, the University established the University of New South Wales Foundation Limited as the principal vehicle for its fundraising activities. The UNSW Foundation gives particular emphasis to growing its endowment, while the capital base generates funds for use in perpetuity. An endowed gift today will still deliver benefits into the next century, whether by supporting scholarships, enabling research or rewarding other aspects of the University’s aspiration and mission.

The Endowment Fund has grown from $3m in the mid 1990’s to almost $40m in 2005. The Foundation annually distributes over $3 million in earnings from the endowment and from current use gifts for the specific purposes intended by its donors. Over the same period, resources have also been generated for immediate and specific projects (the Beneficial Fund). These have totalled over $23m since 1996. The UNSW Foundation ensures that the highest standards of financial probity and accountability are applied to its activities.

Individuals and private foundations, corporations and organizations that wish to foster the University’s advancement through philanthropic support are encouraged to contribute to the Foundation, which can be contacted through the Director Marketing and Development who is also CEO of the Foundation. Visit the website at www.dvicie.unsw.edu.au or telephone 61 2 9385 3277.

The UNSW Foundation is a registered Charity (Charity No 12473) and gifts to the Foundation are tax deductible.
The University administers a number of scholarships for full-time study. Many of these have been made available by the generous donations and bequests of private donors and organisations.

Further details and the latest scholarship listings can be obtained by visiting the Scholarships@UNSW website (www.scholarships.unsw.edu.au) or by contacting the Scholarships, Loans and Research Office; Tel: +61 2 9385 1078, Fax: +61 2 9385 3732, or email: scholarships@unsw.edu.au

New scholarships are advertised on the Scholarships website, in the University publication news@unsw (www.newspaper.unsw.edu.au) and on notice boards in schools and outside UNSW Student Central. To receive newsletters on the latest Scholarships information, please subscribe to our mailing list by visiting the Scholarships@UNSW website (www.scholarships.unsw.edu.au).

We wish to thank all donors for their generous support of scholarships and UNSW students.

1. The degree of Doctor of Philosophy may be awarded by the Council on the recommendation of the Faculty Research Committee or Higher Degree Committee of the appropriate faculty or board (hereinafter referred to as the Committee) to a candidate who has made an original and significant contribution to knowledge.

Qualifications

2. (1) A candidate for the degree shall have been awarded an appropriate degree of Bachelor with Honours from the University of New South Wales or a qualification considered equivalent from another university or tertiary institution at a level acceptable to the Committee.

(2) In exceptional cases an applicant who submits evidence of such other academic and professional qualifications as may be approved by the Committee may be permitted to enrol for the degree.

(3) If the Committee is not satisfied with the qualifications submitted by an applicant the Committee may require the applicant to undergo such assessment or carry out such work as the Committee may prescribe, before permitting enrolment as a candidate for the degree.

Enrolment

3. (1) An application to enrol as a candidate for the degree shall be lodged with the Registrar at least one month prior to the date at which enrolment is to begin.

(2) In every case before making the offer of a place the Committee shall be satisfied that initial agreement has been reached between the School and the applicant on the topic area, supervision arrangements, provision of adequate facilities and any coursework to be prescribed and that these are in accordance with the provisions of the guidelines for promoting postgraduate study within the University.

(3) The candidate shall be enrolled either as a full-time or a part-time student.

(4) A full-time candidate will present the thesis for examination no earlier than three years and no later than five years from the date of enrolment and a part-time candidate will present the thesis for examination no earlier than four years and no later than six years from the date of enrolment, except with the approval of the Committee.

(5) The candidate may undertake the research as an internal student i.e. at a campus, teaching hospital, or other research facility with which the University is associated, or as an external student not in attendance at the University except for periods as may be prescribed by the Committee.

(6) An internal candidate will normally carry out the research on a campus or at a teaching or research facility of the University except that the Committee may permit a candidate to spend a period in the field, within another institution or elsewhere away from the University provided that the work can be supervised in a manner satisfactory to the Committee. In such instances the Committee shall be satisfied that the location and period of time away from the University are necessary to the research program.

(7) The research shall be supervised by a supervisor and where possible a co-supervisor who are members of the academic staff of the School or under other appropriate supervision arrangements approved by the Committee. Normally an external candidate within another organisation or institution will have a co-supervisor at that institution.

Progression

4. The progress of the candidate shall be considered by the Committee following report from the School in accordance with the procedures established within the School and previously noted by the Committee.

(i) The research proposal will be reviewed as soon as feasible after enrolment. For a full-time student this will normally be during the first year of study, or immediately following a period of prescribed coursework. This review will focus on the viability of the research proposal.

(ii) Progress in the course will be reviewed within twelve months of the first review. As a result of either review the Committee may cancel enrolment or take such other action as it considers appropriate. Thereafter, the progress of the candidate will be reviewed annually.

Thesis

5. (1) On completing the program of study a candidate shall submit a thesis embodying the results of the investigation.

(2) The candidate shall give in writing to the Registrar two months notice of intention to submit the thesis.

(3) The thesis shall comply with the following requirements:

(a) it must be an original and significant contribution to knowledge of the subject;

(b) the greater proportion of the work described must have been completed subsequent to enrolment for the degree;

(c) it must be written in English except that a candidate in the Faculty of Arts and Social Sciences may be required by the Committee to write a thesis in an appropriate foreign language;

(d) it must reach a satisfactory standard of expression and presentation;

(e) it must consist of an account of the candidate's own research but in special cases work done conjointly with other persons may be accepted provided the Committee is satisfied about the extent of the candidate's part in the joint research.

(4) The candidate may not submit as the main content of the thesis any work or material which has previously been submitted for a university degree or other similar award but may submit any work previously published whether or not such work is related to the thesis.

(5) Four copies of the thesis shall be presented in a form which complies with the requirements of the University for the preparation and submission of theses for higher degrees.

(6) It shall be understood that the University retains the four copies of the thesis submitted for examination and is free to allow the thesis to be consulted or borrowed. Subject to the provisions of the Copyright Act, 1968, the University may issue the thesis in whole or in part, in photostat or microfilm or other copying medium.

Examination

6. (1) There shall be not fewer than three examiners of the thesis, appointed by the Committee, at least two of whom shall be external to the University.

(2) At the conclusion of the examination each examiner shall submit to the Committee a concise report on the thesis and shall recommend to the Committee that one of the following:
(a) The thesis merits the award of the degree.
(b) The thesis merits the award of the degree subject to minor corrections as listed being made to the satisfaction of the head of school.
(c) The thesis requires further work on matters detailed in my report. Should performance in this further work be to the satisfaction of the higher degree Committee, the thesis would merit the award of the degree.
(d) The thesis does not merit the award of the degree in its present form and further work as described in my report is required. The revised thesis should be subject to re-examination.
(e) The thesis does not merit the award of the degree and does not demonstrate that resubmission would be likely to achieve that merit.

3. If the performance in the further work recommended under (2)(c) above is not to the satisfaction of the Committee, the Committee may permit the candidate to submit the thesis for re-examination as determined by the Committee within a period determined by it but not exceeding eighteen months.

4. After consideration of the examiners' reports and the results of any further examination of the thesis, the Committee may require the candidate to submit to written or oral examination before recommending whether or not the candidate be awarded the degree. If it is decided that the candidate be not awarded the degree, the Committee shall determine whether or not the candidate be permitted to resubmit the thesis after a further period of study and/or research.

Fees

7. A candidate shall pay such fees as may be determined from time to time by the Council.

*School* is used here and elsewhere in these conditions to mean any teaching unit authorised to enrol research students and includes a department where that department is not within a school, a centre given approval by the Academic Board to enrol students, and an interdisciplinary unit within a faculty and under the control of the Dean of the Faculty. Enrolment is permitted in more than one such teaching unit.

Preparation and Submission of Master by Research and Doctoral Theses for Examination

Candidates are required to give two months notice, in writing, of the expected date on which the thesis will be submitted.

1. Every candidate for the degree of Master by research* is required to submit 2 paper copies of the thesis for examination. Every candidate for the degree of Doctor is required to submit 3 paper copies of the thesis for examination. These may be submitted in temporary binding such that the thesis can be forwarded to examiners without the possibility of disarrangement. This temporary binding shall preferably be a spiral-bound format. Theses stapled or presented in ring-binder folders will not be accepted. At the completion of the examination and prior to graduation, every candidate who has satisfied requirements for the award of the degree will submit a final bound paper copy and a digital copy for deposit and preservation in the University Library [see 13]. School procedures may also require students to submit a final bound copy to their supervisor and/or Head of School.

Where examiners have previously agreed to examine a digital copy of the thesis, the candidate may, with the approval of the supervisor, submit a combination of paper and digital copies as appropriate.

*candidates for the degree of Master of Surgery are required to submit 3 paper copies of the thesis for examination.

Students enrolled in research degrees at the College of Fine Arts or the Australian Defence Force Academy are required to give notice of intention to submit to the Student Centre at the College or Academy. Students enrolled in research degrees at Kensington are required to give notice of intention to submit to UNSW Student Central. The paper copies of the thesis are to be submitted to the same Student Centre.

2. All copies shall contain in the preliminary pages, preceding the Table of Contents, an Abstract of not more than 350 words which shall indicate the problem investigated, the procedures followed, the general results obtained and the major conclusions reached, but shall not contain any illustrative matter.

3. All copies will include the following statement:

Originality Statement

‘I hereby declare that this submission is my own work and to the best of my knowledge it contains no materials previously published or written by another person, or substantial proportions of material which have been accepted for the award of any other degree or diploma at UNSW or any other educational institution, except where due acknowledgment is made in the thesis. Any contribution made to the research by others, with whom I have worked at UNSW or elsewhere, is explicitly acknowledged in the thesis. I also declare that the intellectual content of this thesis is the product of my own work, except to the extent that assistance from others in the project’s design and conception or in style, presentation and linguistic expression is acknowledged.’

4. The following statements will be agreed to during the digital submission process and will be included in the Library deposit copy.

(a) Copyright Statement

I also authorise University Microfilms to use the abstract of my thesis in Dissertations Abstract International (this is applicable to doctoral theses only).

I have either used no substantial portions of copyright material in my thesis or I have obtained permission to use copyright material; where permission has not been granted I have applied will apply for a partial restriction of the digital copy of my thesis or dissertation.’

(b) Authenticity Statement

‘I certify that the Library deposit digital copy is a direct equivalent of the final officially approved version of my thesis. No emendation of content has occurred and if there are any minor variations in formatting, they are the result of the conversion to digital format.’

5. All copies shall contain a title page showing the title, author's name, degree and year of submission.
6. All copies shall be in either 1.5 or double-spaced typescript. Font size shall be not less than 11-point (and 10-point for footnotes) in a legible font and printed using a high quality laser printer or equivalent.

Visual records submitted in a text-based thesis may also be included. Other material submitted with the thesis must be marked with the candidate's name so that it can be linked readily with the thesis. All additional material submitted with the paper copies shall be digitised, where possible, and submitted as an attachment to the digital Library deposit copy.

9. Where the work presented for examination contains artifacts, such as a film, sculpture or painting, which remain the possession of the candidate, a full visual documentary record of the work shall be submitted in an appropriate format. All the work presented in the exhibition of work must be fully catalogued. **Note: Policy with Respect to the Use of Higher Degree Theses**

The University holds that the deposit copies of a thesis submitted for a higher degree and retained in the Library should be retained not only for record purposes but also, within copyright privileges of the author, should be public property and accessible for consultation at the discretion of the University Librarian. As digital theses are freely available to the public, candidates must obtain permission for use of copyright material and signoff accordingly. Otherwise such material will need to be restricted. The University also recognises that there may be other exceptional circumstances requiring restrictions on copying or conditions of use of paper copies, and restrictions or partial restrictions of digital copies. Another option is that digital theses may be restricted to the UNSW campus domain. It is expected that restricted digital theses will still be submitted with metadata, such as the abstract, being publicly available. There may be exceptional circumstances when even the metadata will not be made available.

Requests for restriction of access to a thesis for a period of up to two years must be made in writing to the Registrar, prior to deposit of the final copies in the Library. Requests for a longer period of restriction may be considered in exceptional circumstances if accompanied by a letter of support from the supervisor or Head of School.

(3) The voter is to send or deliver to the Returning Officer the ballot paper enclosed (without anything else) and sealed in the envelope marked “Ballot Paper”, which must be enclosed and sealed in the other envelope addressed to the Returning Officer, with the form of declaration as to identity and entitlement to vote duly completed.

30. **Candidate with absolute majority of votes elected**

(1) The Returning Officer is to count the number of first preference votes for each candidate.

(2) The Returning Officer is to declare elected the candidate who has received the largest number of first preference votes, if that number constitutes an absolute majority of votes.

31. **Procedure if no candidate has absolute majority of votes**

(1) If no candidate has received an absolute majority of first preference votes, the candidate who has received the fewest first preference votes is to be excluded and each of the ballot papers counted to that candidate is to be counted to the continuing candidate next in order of the voter's preference.

(2) The Returning Officer is to declare elected any candidate who, on completion of the count under subclause (1), has received an absolute majority of votes.

(3) If 2 or more candidates have an equal number of votes at the time that it is necessary to exclude one of them, the candidate to be excluded is to be determined as follows:

   (a) the names of the candidates concerned must be written on separate and similar slips of paper,
   (b) the slips must be folded so as to prevent identification and mixed and drawn at random,
   (c) the candidate whose name is first drawn must be excluded.

32. **Process to continue until candidate elected**

The process of excluding the candidate who has the fewest first preference votes and counting each of the ballot papers counted to that candidate to the continuing candidate next in order of the voter's preference is to be continued until:

(a) one continuing candidate has an absolute majority of votes, in which case the Returning Officer is to declare that candidate elected, or

(b) there are only 2 continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes is to be declared elected, even if the number of votes is below an absolute majority of votes, or

(c) there are only 2 continuing candidates who have an equal number of votes, in which case the candidate elected must be determined as follows:

   (i) the names of the candidates concerned must be written on separate and similar slips of paper,

The Returning Officer is to determine a quota by:

(a) counting the number of first preference votes, and

37. **Candidate who meets or exceeds quota elected**

(2) The Returning Officer is to declare elected each candidate who has received a number of first preference votes that is equal to or greater than the quota.

   (b) the total number of ballot papers of the elected candidate showing the next available preference for a particular continuing candidate is to be multiplied by the transfer value,
   (c) the number so obtained (disregarding any fraction) is to be added to the number of first preference votes of the particular continuing candidate,
   (d) all those ballot papers are to be transferred to the particular continuing candidate.
(2) The Returning Officer is to declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.

39. Procedure if insufficient candidates have reached quota
(1) If, after the counting of first preference votes or the transfer of surplus votes (if any) of elected candidates, no candidate has (or fewer than the number of candidates required to be elected have) received a number of votes equal to or greater than the quota, the candidate who has the fewest first preference votes is to be excluded and the count is to proceed in accordance with this clause.
(2) All ballot papers showing a first preference vote for an excluded candidate and the next available preference for a particular continuing candidate are to be transferred, each ballot paper at a transfer value of 1, to the particular continuing candidate and added to the number of votes of the particular continuing candidate.
(3) Any ballot papers obtained by an excluded candidate by means of a transfer to that candidate are to be transferred (beginning with the ballot papers received by that candidate at the highest transfer value and ending with the ballot papers received at the lowest transfer value) as follows:
   (a) the total number of ballot papers received by the excluded candidate at a particular transfer value from a particular candidate and showing the next available preference for a particular continuing candidate are to be multiplied by that transfer value,
   (b) the number so obtained (disregarding any fraction) is to be added to the number of votes of the particular continuing candidate,
   (c) all those ballot papers are to be transferred to the particular continuing candidate.
(4) The Returning Officer is to declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.
(5) However, the surplus votes of the candidate so elected are not to be transferred until all the ballot papers of the excluded candidate have been transferred.

If a continuing candidate has received a number of votes equal to or greater than the quota on the completion of the transfer of:

   (a) any vote it shows for the candidate concerned were a first preference vote, and
   (b) the name of any other candidate previously elected or excluded had not been on the ballot paper, and
   (c) the numbers indicating subsequent preferences had been altered accordingly.

42. Procedures to continue until positions filled
The procedure of transferring the remaining candidates to the surplus votes of elected candidates, and the procedure of excluding the candidates with the fewest first preference votes, are to continue in accordance with this Division until:
   (a) the number of continuing candidates is equal to the number of positions remaining to be filled, in which case the Returning Officer is to declare those candidates elected, or
   (b) there is only one position remaining to be filled and only 2 continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes is to be declared elected, even if the number of votes is below the quota, or
   (c) there is only one position remaining to be filled and only 2 continuing candidates who have an equal number of votes, in which case the candidate elected must be determined as follows:
      (i) the names of the candidates concerned must be written on separate and similar slips of paper,

   (b) each ballot paper received for the 2 year term election is to be dealt with as if:
      (i) the name of any candidate excluded under paragraph (a) has not been on the ballot paper, and
(ii) the numbers indicating subsequent preferences (that is, subsequent to the preference indicated for any excluded candidate) had been altered accordingly.

(4) In addition to the grounds for informality provided for in clause 25, a ballot paper received for the 2 year term election is informal if the voter’s preferences relate only to candidates excluded under subclause (3) (a).
