This Handbook is primarily for undergraduate students in the Faculty of Arts and aims to provide in convenient form information concerning

(i) the subject matter of the different courses offered, including text and reference books.

(ii) the requirements for admission.

(iii) enrolment and re-enrolment.

(iv) the requirements for the degree of Bachelor of Arts and the various programmes available for fulfilling them.

An endeavour has been made to provide answers to those problems which students are most likely to encounter. *It is important that each student in the Faculty becomes well acquainted with the information presented here.* If problems remain unanswered, enquiries may be referred to the Faculty office, Room LG 5, which is situated on the lower ground floor of the Morven Brown Building (Arts/Maths), near the top of Basser Steps.

It is possible that changes may be made affecting the information presented in this Handbook, especially concerning subjects offered and prescribed reading. Students are strongly advised to consult frequently the notice-boards of the different Schools as well as the official notice-boards of the University, to keep abreast of any changes as well as to keep informed of pertinent announcements from time to time.

COURSES AVAILABLE FOR DEGREE OF
BACHELOR OF ARTS

SCHEDULE A

The following is a list of the subjects that may be studied in the Faculty of Arts, at Kensington. The subjects show the courses of each subject together with the distinguishing number of each course.

The Honours syllabus of a course incorporates the Pass syllabus of that course plus additional work; thus the hours shown for an Honours syllabus include the hours shown for the pass course syllabus.* For example, the Honours course 57.223 Drama IIIA is made up of 4 hours per week in 57.213 Drama IIIA plus 3 hours per week additional work to make up the total of 7 hours indicated in the table below.

Further information on the content of each of the courses may be found in the following “Description of Subjects” and in Section D of the Calendar—Description of Subjects.

FACULTY OF ARTS

SCHEDULE B

Programmes approved by the Faculty which make Mathematics or the Theory of Statistics a major area of study are set out in this Schedule. Other programmes may also be approved—those shown shall be taken as typical rather than exhaustive. Subjects indicated by the letters A, B, C, D and Z must be chosen so that any particular requirements relating to them are satisfied.

DRAMA

Drama courses offered within the Faculty of Arts are not primarily intended to equip a student for the profession of theatre. The National Institute of Dramatic Art, established in the University, is concerned with vocational training and with the practice of the theatre arts. The School of Drama is concerned with liberal education and with the evaluation of those arts. The National Institute of Dramatic Art and the Old Tote Theatre Company, however, provide practical and professional theatre on the campus and the School of Drama benefits greatly from their activities.

57.211 Drama I

Serves both as an introduction to other drama courses and as a study of world drama complete in itself. Most lectures and tutorials are concerned with the understanding of the dramatic medium and of its contemporary relevance, and with a survey of theatre history from Aeschylus to the dramatists of the twentieth century.

Additional lectures are included on stage and theatre design, music in the theatre, Japanese drama, and television. Tutorials concentrate on the theatrical aspects of the plays studied.

TEXTBOOKS

Ibsen, H. Ghosts and Other Plays. Penguin.
Ionesco, E. Plays. Penguin.
Shakespeare, W. Hamlet. Signet.
Stoppard, T. Rosencrantz and Guildernstern are Dead. Faber.
Strindberg, A. Six Plays. Doubleday Anchor.
Noh Plays. Texts will be supplied.

15.342 Economic History II (Honours)
As for 15.332 Economic History II with additional work.

15.343 Economic History III (Honours)
As for 15.333 Economic History III with additional work.
15.101 Economics I

A foundation course in economic analysis—that is, the basic principles, techniques and methodology of economics. Economic theory; how theory can be used to explain, understand and predict economic phenomena in the real world. The Australian economic system: the determination of prices and output of goods and services under various market situations, the labour market and the determination of wages, the determination of the aggregate level of output (gross national product), aggregate employment and the general level of prices, the role of money and the banking system.

In the first session the class is divided into two groups. In Group A, which attends three lectures and one tutorial a week, no previous knowledge of economics will be assumed. In the first session this group will cover the syllabus in microeconomics plus an introduction to macroeconomics. Any student enrolled in Economics I may enter Group A. In Group B, which attends two lectures and one tutorial a week, a previous knowledge of economics is assumed. Material is presented at a faster rate, it is assumed that students do not need the introductory work on macroeconomics, and there is a more extensive treatment of microeconomics, including applications to contemporary problems. The minimum qualification for entry into Group B is a pass at second level or better in Economics in the Higher School Certificate, but students who have passed at this level with no margin to spare would be more at home in Group A. Students are advised, when enrolling, which group is appropriate for them.

PRELIMINARY READING
Robinson, M. A., Morton, H. C., Calderwood, J. D. & Lamberton, D. M. 

TEXTBOOKS
Australian National Accounts. 1971 ed.

15.151 Economics IT (Arts)

During the first session students attend three lectures weekly along with Group A of Economics I, but two separate lectures are provided in the second session. The subject is more suited than Economics I to the needs of those who wish to study economics for one year only. However, students passing Economics IT must achieve Credit standard or better to be eligible to enrol in Economics II. As in the case for all Arts students, they must also have passed the Higher School Certificate examination in Mathematics Short Course at Level 2, or hold an equivalent or better qualification, before they can enrol in Economics II.

PRELIMINARY READING
Robinson, M. A., Morton, H.C., Calderwood, J. D. & Lamberton, D. M. 

TEXTBOOKS

15.102 Economics II
An extension in depth and application of the economic analysis developed in Economics I. Macroeconomics: fluctuations in national income and employment, economic growth, inflation, monetary theory and policy, fiscal policy and incomes policy. Microeconomics: theoretical and applied aspects of consumer behaviour, demand, production and cost, behaviour of firms, market structures, profits, technological change and investment decisions. Some aspects of welfare economics, including public control of industry and analysis of some contemporary economic problems.

TEXTBOOKS
Runcie, N. Economics of Instalment Credit. Univ. of London Pub., 1969.

15.112 Economics II (Honours)
The content of this subject includes that of 15.102 Economics II but will involve additional and more advanced work in micro- and macroeconomic analysis.

TEXTBOOKS
Runcie, N. Economics of Instalment Credit. Univ. of London Pub., 1969.

15.133 Economics IIIA
Consists of two parts. The first part is compulsory and corresponds to 15.103 Economics III in the Faculty of Commerce.

Theory and empirical evidence relating to international trade and investment, and the balance of international payments. Particular attention will be given to international aspects of importance to Australia, including external balance, the international monetary system, the Australian tariff system, foreign investment and the multinational corporation, aspects of
economic development and international trade and investment, multilateral and regional approaches to the expansion of international trade.

Part 1

TEXTBOOKS

Part 2

For the second part students must choose one of the following seven options:

These options correspond to the subjects 15.213, 15.223, 15.233, 15.243, 15.253, 15.263 and 15.443 in the Faculty of Commerce.

Option 1: History of Economic Thought

The development of economic ideas from the mid-eighteenth to the twentieth century. The origin and evolution of modern economic analysis. The part played by the social and philosophical ideas in the formation of economic thought. The influence of economic events on the development of economic ideas and vice versa.

PRELIMINARY READING

TEXTBOOKS

Option 2: Comparative Economic Systems

Analysis of different economic systems and the way in which the basic economic problems are solved. Efficiency of resources allocation in different economies. The economic systems of U.S.S.R., Japan and Yugoslavia. The extent to which institutional and historical differences affect the process of national decision making, the choice of overall objectives, the instruments of policy and the nature of economic planning.

TEXTBOOKS
Option 3: Public Finance and Financial Policy

The economics of both the government sector and the finance sector, with special reference to Australia. Half the course deals with public finance: the actual and optimal role of government in the economy; economic and welfare effects of different types of taxes; public debt; use of fiscal policy for stabilization; federalism and centralism. The other half deals with advanced monetary theory and policy, and the development of selected financial institutions: the economics of banking and non-banking financial intermediaries; the capital market and the role of financial intermediaries in saving and investment; flow-of-funds accounts: financial intermediaries and monetary policy.

PRELIMINARY READING

TEXTBOOKS

Option 4: Economic Development

The gap between the welfare of the developed and of the poorer or underdeveloped nations. Earlier theories of development as a basis for a better appreciation of the various economic and non-economic theories of under-development, such as social and technological dualism, balanced and unbalanced growth. The influence of international trade on potential economic development. The general principles of development planning, techniques in planning models and their application in particular countries.

TEXTBOOKS

Option 5: Economics of Industry and Labour*

Theoretical aspects of industry and labour and applications to the Australian situation. One session—the labour market: supply of and demand for labour; work force structure, technological change; education: wage theory and wage systems, with particular reference to Australia. The other session examines the impact of technological change on the structure and growth of firms: Government influence on the structure of industry (for example, by control over mergers and restrictive trade practices, the limitation of capital inflow and the planning of social costs and benefits) leading to an evaluation of planning for development.

TEXTBOOKS

*May not be offered in 1972.
Option 6: International Economics**

Economic theory relating to international trade and investment, the balance of international payments and policies directed towards achieving external balance, the efficient allocation of resources, and other aims. Developments in international trade, investment and aid, including empirical tests of theories and trends in the Australian balance of payments. Contemporary problems analysed—proposed reforms to the international monetary system, the desirability of forming regional trading blocs, and other policies relevant to the current problems confronting Australia and the less developed countries.

TEXTBOOKS

Option 7: Mathematical Economics

The use of mathematics in economic analysis. Various mathematical optimization techniques, including calculus and linear programming, together with the theory of linear equations and inequalities will be used to examine and relate various branches of economic theory, including the theory of consumer demand, the theory of the firm, market stability, inter-industry economics, economic growth and fluctuations, and macro-economic policy.

A list of recommended references is made available to enrolled students.

TEXTBOOKS

15.143 Economics IIIA (Honours) (Arts)

As for 15.133, plus further work in the compulsory section on economic policy. (For Honours students the compulsory section corresponds to 15.113 in the Faculty of Commerce.)

TEXTBOOKS

Part 2

For options see 15.133.

**Will not be offered in 1972.
15.153 Economics IIIB (Honours) (Arts)

This course is open to Honours students only. It includes quantitative methods and an additional option to be chosen from the list in 15.133. Students are advised of text and reference books at the beginning of the year.

15.124 Economics IV (Honours)

(i) A survey of advanced economic theory; (ii) A thesis.

Note: Students are expected to do a substantial amount of work on their thesis before the commencement of the academic year. They must have a topic approved by the Head of the School of Economics before the end of the August Recess in the year preceding their entry into Economics IV.
English is not a compulsory subject within the Faculty of Arts: the courses are therefore planned for students who have both a genuine interest in the subject and some special ability in it. (The Language work in English I may present some difficulty to a student who has not studied a foreign language at school.)

Students who wish to take a Special (Honours) degree in English are strongly advised to include in their programme courses in a foreign language and Philosophy.

It will be assumed that all students before beginning the course have read a standard history of English literature and are familiar with the main outlines of English history; and the right is reserved to examine on these.

(c) Prose
Selected prose by Bacon, Donne, Burton, Milton, Browne, Bunyan, Walton, Pepys and Evelyn; and selected works of prose-fiction.
Courses offered by the School are made up of studies in three areas:

1. The French language;
2. French literature and thought;
3. French civilization and society.

Some study of each is compulsory in all courses, so as to give students a balanced picture of the French contribution, both past and present, to world culture. The three areas are correlated as closely as possible in each year through the simultaneous study of the language, literature, intellectual and socio-political history of a given period. Classes are mainly of the tutorial type.

In the teaching of the language, an attempt is again made to integrate the various linguistic skills of understanding, speaking, reading and writing through correlated programmes involving oral practice in the language laboratory and later in discussion groups as well as written exercises. More advanced courses are also offered in theoretical aspects of language study.

In the sections of the syllabus devoted to literature, training is given from first year onwards in the techniques of literary analysis and criticism through the close study of individual texts, and is extended in the Honours courses into an investigation of more general methodological questions.

Students' attention is drawn throughout the course to the wealth of ideas to be found in French literature, and they are asked to express their opinions on the value of these ideas and their relevance to present-day problems. The French preoccupation with psychological analysis, moral and philosophical problems, and the exploration of human relationships, both personal and social, receives special attention. At the same time, important literary works are studied in depth, with a view to investigating purely aesthetic problems and the working of the creative imagination.

Advice to New Students

Entrance requirements: at least a Second Level pass in French in the New South Wales Higher School Certificate, or an equivalent pass in another Australian or foreign examination. This equivalence must be determined by the School before a student can be admitted.

Coding of Courses

To clarify the pattern of the courses, the following code has been used:

A refers to Session 1, and B to Session 2; 1 refers to the sections of a course devoted to language, 2 to those concerned with literature and thought, 3 to those concerned with civilization and society, and 4 to the electives.

Continuation of A1.

B2. Literature and Thought
Continuation of A2.

Thesis
A short thesis to be written in French on an approved subject in the area of either language, literature or civilization.
17.001 General and Human Biology I

TEXTBOOKS

REFERENCE BOOKS

17.002 Biology II

Consists of 43/45.101A Genetics and Biometry, together with any one of the following units: 43.101B Plant Evolution and Ecology, 43.101C Plant Physiology, 45.101B Invertebrate Zoology, 45.101C Vertebrate Zoology.

43.101A and 45.101A Genetics and Biometry

Analysis of the mitotic cycle; replication of DNA and its organization in the chromosomes, linkage, non-meiotic recombination; mutation, structural changes, polyploidy, aneuploidy; population genetics; cytoplasmic inheritance; episomes; gene structure and function. An introduction to statistical methods and their application to biological data, including an introduction to analysis of variance and experimental design.

TEXTBOOKS

43.101B Plant Evolution and Ecology

A study of the evolution of vegetative form and structure of vascular plants: an examination of their organization into terrestrial communities; identification, evolution and distribution of elements of the Australian flora. Field excursions are an integral part of the course.
TEXTBOOKS

43.101C Plant Physiology
Photosynthesis and selected aspects of plant metabolism. Nitrogen fixation; translocation and uptake of inorganic ions; the physiology of growth and development in plants; plant growth hormones and herbicides.

TEXTBOOKS

45.101B Invertebrate Zoology
A comparative study of the major invertebrate phyla and emphasis on morphology, systematics and phylogeny. Practical work to illustrate the lecture course. Obligatory field camp.

TEXTBOOK

45.101C Vertebrate Zoology
A comparative study of the Chordata. Morphology, systematics, evolution, natural history, with reference to selected aspects of physiology and reproduction. Practical work to supplement the lecture course. Field excursions as arranged. Obligatory field camp.

GEOGRAPHY

Geography is the study of variations from place to place on the earth's surface arising from the spatial relationships of the phenomena which make up man's world. Geography courses in Arts will emphasize human geography—the study of where and how man lives and of his activities in relation to his environment.

27.041 Geography IA

Part I. *An Introduction to Physical Geography*: Controls of landform development, cyclic and equilibrium approaches to landform study; processes and factors of soil formation; the mature soil profile; vegetation structure; factors affecting vegetation distribution; plant and soil succession and the ecosystem; particular reference to the Sydney area. The radiation budget and atmospheric circulation; climatic distribution.

Laboratory classes include: Weather recording and analysis of climatic data; use of maps and air photos; soil profile description. Two field tutorials.

As for 27.063 Geography IIIB, plus a series of seminars averaging one hour per week, which will include additional and more advanced work in Parts I and II.
27.054 Geography IV (Honours) (Arts)

(a) Honours students in their final year are required to prepare a thesis of not more than 20,000 words, which must be submitted before the Final Examinations in November.

The Thesis topic must be approved by the Head of the School during the second half of the year preceding their entry into Geography IV.

(b) Students are required to attend lectures and seminars in Advanced Economic Geography in the First Session. Topics include the formulation of economic models within an interregional framework, linear programming and activity analysis, growth models, growth-pole concepts, the spatial transmission of economic growth, and the spatial pattern or short-term economic interaction, with emphasis on North America.

(c) Students attend work-in-progress seminars conducted jointly with postgraduate students in related fields.

(d) In Session 2, students attend a series of seminars on the development of geographic thought and ideas.

FACULTY OF ARTS

GEOSCIENCE

25.111 Geoscience I

Physical Geology

Crystallography and Mineralogy

Introduction to crystal symmetry, systems, forms, habit twinning. Occurrence, form and physical properties of minerals. Descriptive mineralogy; mineral classification. Principal rock forming minerals.

Petrology

Igneous, sedimentary and metamorphic rocks—their field occurrence, lithological characteristics and structural relationships. Introduction to coal, oil and ore deposits.

Stratigraphy and Palaeontology

The basic principles of stratigraphy; introductory palaeontology. The geological time scale. An outline of the geological history of the Australian continent with more specific reference to New South Wales.

Practical Work

The preparation and interpretation of geological maps and sections. Map reading and use of simple geological instruments. The study of simple crystal forms and symmetry. The identification and description of common minerals and rocks in hand specimen. The recognition and description of examples of important fossil groups.

The course is supplemented by three field tutorials, attendance at which is compulsory.

**Field Work**
Approximately twelve days will be spent on field tutorials throughout the year. Attendance is compulsory.

**TEXTBOOKS**

**REFERENCE BOOKS**
Courses offered by the School cover the language, literature and culture of Germany, Austria and Switzerland.

The linguistic part of the syllabus is designed to give a solid foundation of grammar, syntax, and vocabulary, and lays particular stress on proficiency in comprehension (listening and reading) and speech (pronunciation and conversation). German literature is studied both extensively, in survey courses, and intensively, in small seminar groups. Parallel developments in the visual arts and in music will also be discussed. Stress will be laid on cultural developments in present-day Germany, and a survey will be made of the intellectual contribution Germany has made in the last two centuries, particularly in philosophy and political thought.

64.001 German IZ

For students who have little or no knowledge of the language but who have attained at least a second level pass in the Higher School Certificate examination in a language other than English. In special cases other students may be admitted on the recommendation of the Head of School.

The course is intended to provide students with a sound basis of spoken and written German and to introduce them to German literature and culture. Students wishing to proceed to German IIZ are required to complete a study programme during the long vacation prior to enrolment.

TEXTBOOKS

HISTORY

A pass student may take no more than four courses in the School of History, and may not take both first year courses. A student may therefore take two second year and one third year course, or one second year and two third year courses. Permission to take more than three courses must be given by the Head of the School.

A second year honours student must take either of the two honours courses, but not both, and his honours course must be related to his second year pass course.

A third year honours student must take two of the three third year honours courses, in addition to the two pass courses.

A fourth year honours student must take History IVA and either History IVB or History IVC.

51.111 History IA—European Expansion and Asian Resurgence: 1500-1950

The world-wide expansion of European nations, through their exploration, colonization and cultural influence. Particular attention is given to the European relationship with non-European people, and to an examination of Asian nationalism, as a case study of the rejection of colonialism and the rise of self assertion amongst Asian peoples.

Consists of two equal parts: (a) aspects and examples of European expansion from c. 1500 to c. 1900, and (b) aspects and examples of Asian Nationalism from c. 1850 to c. 1950.

An introduction to social and political developments in the subcontinent of India during the two centuries which preceded the birth of the new States of India and Pakistan.

The organization of society on the eve of the British conquest of India. The policies and institutions introduced by the British Government, and the objectives with which these policies and institutions were introduced in the subcontinent. The Indian response to the British Raj: in the realm of ideas, in social values and political institutions and in the economic organization of society.

The modernization of India during the period under review. The decay of traditional society; the rise of nationalism; the growth of modern political institutions; the changes in the intellectual horizons of the peoples of India under the British Raj.

51.132 History IIB—Australia 1788-1970

Part 1: Australia: The Colonial Period. The transformation of the penal colony into a self-consciously federated commonwealth. Emphasis on an examination of the origins and growth of ideas regarding distinctive Australian characteristics and the relation of these ideas to the development of social and political institutions within the framework of an expanding economy.

Part 2: Australia and the Pacific, 1901-70. Australia's national evolution since federation in 1901, its internal political and economic development and especially its emergence first as an autonomous member of the British Commonwealth and then as an independent entity in world politics. Emphasis on Australia's relations with New Zealand and the impact of decolonization on its Pacific and Asian diplomacy.

51.122 History II (Honours)—Indian History

Alternative to 51.142 History II (Honours)—Australian History, and required in addition to either 51.112 History IIA or 51.132 History IIB.

The rise and growth of nationalism in India since the middle of the 19th century. Relates the politics of nationalism to the aspirations of different classes and communities in the country, and explores the relations between those classes and communities, and how those relations were affected by the British Raj.

51.142 History II (Honours)—Australian History

Alternative to 51.122 History II (Honours)—Indian History, and required in addition to either 51.112 History IIA or 51.132 History IIB.

A series of additional special seminars for Honours students running concurrently with the pass course, where the emphasis will be on the sources for primary research in Australian domestic history rather than on secondary reading. Students must submit a major essay incorporating some of this primary material and sit for an additional examination.

51.113 History IIIA—Southeast Asian History

SESSION 1: Southeast Asian Societies, and the European Impact

The major features of the societies of Southeast Asia before and during the early stages of European contact, concluding in the early 19th century. Their historical development, religions, and political and economic structures, and the changes occurring with the advent of the Europeans.

SESSION 2: Southeast Asian Societies, and European Colonial Rule

The social changes, and the development and nature of nationalist movements in Southeast Asian societies under British, Dutch and French colonial rule in the 19th and 20th centuries. Includes Burma, Indonesia, Malaya and Vietnam.

*Available in paperback editions.

### 51.133 History IIIB—A History of the United States

The modern historical development of the United States. The history of the country during the colonial period, with emphasis upon political, social and economic developments since 1776, and analysis of how, why, when and with what results thirteen English Colonies were consolidated into the single, powerful, industrial nation of today.

#### REFERENCE BOOKS

51.143 History IIIB (Honours)—The American Revolution and the Federal Constitution: 1764-1788

A special study of the American Revolution and its aftermath, reinforcing the History IIIB Pass Course.

51.153 History IIIC (Honours)—Indian History

Subject matter as for 51.122.

51.163 History IIID (Honours)—European Revolutions and Revolutionary Ideologies: 1871-1939

Revolutions in Europe since the Paris Commune, the main interpretations placed upon them and the political thought of the leading revolutionaries. Emphasis on Russia, as well as Germany and France.

51.114 History IV (Honours)

(a) Honours students in their final year are required to prepare a thesis of not more than 20,000 words, which must be submitted before the Final Examinations in November.

(b) Students will be required to take Historiography (History IVA), and either Ireland, Russia (History IVB) or International History (History IVC).

History IVA Historiography: A series of seminars on Historical Theory and Practice

2. Croce. History as the Story of Liberty
3. Bury. The Idea of Progress
5. Acton. Essays on Freedom and Power
7. Collingwood. The Idea of History
8. Berlin. Historical Inevitability
9. Stretton. The Political Sciences
10. Geyl. Napoleon: For and Against
12. Toynbee. A Study of History (Somerville abridgement)

History IVB Ireland and Russia: 1905-1923

A comparative study of revolutionary movements and parties. Examines two contemporaneous revolutionary situations, that which produced rebel-
lion in Ireland in Easter 1916, and that which produced revolutions in Russia in February and October 1917. The revolutionary parties, their nature, leaders and tactics, and the problems faced and policies pursued by these parties in their initial years of power.

**History IVC International History: Zionism and Middle Eastern Conflict: 1917-1967**

The effects of Zionism on Middle Eastern politics from the Balfour Declaration of 1917 to the Israeli victory of 1967. Attention principally on pre-1920 Palestinian nationalist reaction to Turkish rule; on British attempts under its League of Nations mandate to reconcile the dominant Arab and rapidly growing Jewish elements in Palestine; on United Nations resolution to partition; on Jewish survival against international Arab attack in 1948, establishment of the state of Israel and the Arab exodus; on subsequent great power diplomacy, the Israeli campaigns of 1956 and 1967 and the Israeli issue in the politics of the Arab international system.
HISTORY AND PHILOSOPHY OF SCIENCE

The School offers a sequence of three pass courses; a sequence of five leading to a Special Honours degree; and participates also in the provision of courses leading to Combined Honours degrees.

Students contemplating the Honours degree in Special Studies in the History and Philosophy of Science are advised that, unless the Head of the School determines otherwise, they will be required to include a course in one of the sciences among their subsidiary courses, and that their Honours work in third year will, as a rule, include further work in the same science.

Students who may be attracted by the possibility of an Honours degree in Combined Special Studies are advised that it is possible fruitfully to combine History and Philosophy of Science with advanced studies in several other disciplines: for example, with Philosophy or Sociology or History or with most other Arts subjects.

62.111 History and Philosophy of Science I

An account of the development of theories of the universe at large, and especially of planetary theory, from its beginnings in Babylonia and Greece to its fuller flowering in the eighteenth and nineteenth centuries.

The course begins with a descriptive, non-theoretical, account of the apparent motions of the stars, the Sun, the Moon, and the naked-eye planets: motions that are easily observed without the help of any instruments. The Greek theories of these motions are presented, along with a sketch of the philosophical background of Greek science, and the synthesis of Aristotelian cosmology with Christian doctrine is portrayed.

Then the work of Copernicus is described, with some account of the impact of the heliocentric view. Tycho Brahe is looked at cursorily, Kepler and Galileo more in detail. The idea of an infinite Copernican universe, suggested by Digges and Bruno, is presented, along with an outline of the work of Newton on motion and gravitation and the mechanistic philosophy of nature.

The course concludes with an account of the discovery of the planets Uranus and Neptune, and the cosmological work, whether speculative, theoretical or observational, of investigators such as Thomas Wright, Kant and William Herschel on the structure of the Milky Way.

The historical case studies are used to provide a first introduction to some issues in the philosophy of science, such as the methods and goals of science, the nature of scientific theories and explanations and the dynamics of scientific development and change.

62.112 History and Philosophy of Science II

A study of the Darwinian Revolution, its origins in the development of geology and biology, and its impact on European thought.

An outline of the elementary principles of geology, illustrated by field studies of the Sydney Basin area, is used to assist the understanding of the history of geology, which is traced to the middle of the 19th century. The influence of geological thought on biology is considered, and ideas on evolution, culminating in the Darwinian Revolution, are treated. The work of Mendel, and some of its consequences is considered.

The historical treatment is used to illustrate the structure of scientific theory, scientific method, and the interrelations of scientific, philosophical, religious, social and political ideas.

62.113 *History and Philosophy of Science IIIA*  
*The Social History of Science*

An account of the growth of the scientific movement, from the early 17th to the 20th century, in relation to: (a) its social and cultural environment and the effects of social structures and social changes upon it; (b) its internal organization; (c) its effects, intellectual and (via technology) material, upon society. The course deals with such topics as: the different national contexts of the scientific movement; its social composition at various times; its relations with the state in different countries at different times, with the universities and other teaching institutions, and with the professions of medicine and engineering; the communications system in science; the nature and functions of scientific societies and academies; the effects of science on technology and of technology on science: the institutionalization and professionalization of science. The intellectual influence of science on society, already treated
in H.P.S. I and II in connection with the Copernican and Darwinian Revolutions, is further discussed in other connections. In the early part of the course there is a discussion of the influence of the ideas of Bacon and Descartes in the formation of the scientific tradition.

62.123 History and Philosophy of Science IIIA (Honours)

62.133 History and Philosophy of Science IIIB (Honours)

The components of these two courses are to be selected, as described below, from the following options (each of two hours per week):
1. A general course in the Philosophy of Science. The course includes some treatment of elementary mathematical logic. Special stress is laid on the formal structure of theories; the status of scientific laws; the function of models; the relationships between theory and observation; the nature and logic of scientific explanation; the metaphysical foundations of theories and methodological principles. Reference is made throughout the course to suitable examples taken from the history of science, with a special emphasis on seventeenth century science.

2. Bibliography and research methods. An introduction to the literature and bibliography of (a) science before 1900 and (b) history of science. Besides lectures and seminars the course includes a number of exercises designed to develop a knowledge of these two bodies of literature together with practical experience in the use of bibliographies, reference books, and research methods.

3. The history of the philosophy and methodology of science from the seventeenth century to the early twentieth century.

4. Selected topics in the history of the physical sciences from the seventeenth century to the mid-nineteenth century.

5. Selected topics in the history of experimental biology from the seventeenth century to the mid-nineteenth century.

Candidates for a degree in Special Studies must take, for the IIIA (Honours) course, the pass course (62.113) and Option 1. For the IIIB (Honours) course they must take Option 2 and, with the concurrence of the Head of the School, either two other options, or one other option and further work in the science subject already taken.

Candidates for a degree in Combined Special Studies must take, for the IIIA (Honours) course, either the pass course (62.113) and one of the options, or three of the options.

Text and reference books will be notified in class.

62.114 History and Philosophy of Science IV (Honours)

In addition to lectures and seminars an original investigation is to be undertaken and the results presented in the form of a dissertation. Students intending to take the fourth-year course should have the topic of their investigation approved by the Head of the School before the end of the third year.

For the formal class-work there is a range of options available (each of one hour per week or the equivalent) including options in advanced philosophy of science and in historiography of science.

Candidates for the honours degree in Special Studies must take the options in advanced philosophy of science and in historiography of science and either two other options or one of the third-year options which they have not previously taken. In the latter case the approval of the Head of the School must be obtained; additional reading will be required in the third-year course and a high standard of performance expected.

Candidates for the honours degree in Combined Special Studies must take two of the options. If they have not taken either option 1 or option 3 in third year they must take, as one of their fourth-year options, a special course in philosophy of science.

Text and reference books will be notified in class.
INDUSTRIAL RELATIONS

15.502 INDUSTRIAL RELATIONS I

Social, economic, legal, and other aspects of employment. PHILOSOPHY

The study of philosophy is partly the study of perennial problems of common interest to everyone; for example, the foundations of morality, the grounds of religious belief, the source and reliability of knowledge, and the relation between body and mind. Philosophy also leans out to and illuminates other fields of study. Consequently courses in philosophy are designed to make it possible for students to pursue a philosophical interest related to their other interests.

The first year course in philosophy is a wide-ranging course which is intended to give a broad introduction to the subject and assumes no previous acquaintance with it. It is broken into two sessions, with an examination at the end of each session, but Arts students take it as a whole and other students are advised to do so. There is no distinction between Pass and Honours.

From the second year onwards, Pass courses are presented and examined in session-length units. This arrangement makes it possible to offer a wide range of units from which students may select freely, subject only to certain stipulations regarding prerequisites. There is no sharp distinction into second and third years.

In a normal course, students take two course units in each session. A full Pass course in Philosophy consists of Introductory Philosophy A and B, followed by eight further course-units spread over four sessions.

SELECTION OF UNITS

The pattern of courses after the first year is intended to give students a wide range. Constraints are imposed by, firstly, the prerequisites of the various subjects; secondly, the distribution of courses as between Sessions 1 and 2; and to some extent, timetabling. The following details will assist students with their initial choice.

The course-units available in Session 1 having no prerequisite apart from Introductory Philosophy A and B, are:

- Predicate Logic;
- Descartes;
- British Empiricism;
- Greek Philosophy;
- Scientific Method.

Of these, Predicate Logic is prerequisite to a range of advanced logic courses, and Descartes and British Empiricism are also prerequisites, alone or as alternatives, to certain other subjects. Students who plan to take a full Pass course in Philosophy are especially advised to take at least one of these three. Honours students should expect to include Predicate Logic in their course at some stage.

Provision is made for a full sequence of courses in logic, namely, Predicate Logic, Set Theory, Metamathematics and Foundations of Mathematics. The course-unit Argument caters for those with a less mathematically-orientated interest in the subject.

Historical studies are catered for by the course-units Greek Philosophy, Descartes, British Empiricism, Spinoza and Leibniz, History of Modern Logic, History of Traditional Logic, and Logical Atomism, which can be arranged into sequences in various ways.

The remaining course-units deal mainly with particular issues or philosophical views.
HONOURS COURSES

There is no division of students into Pass and Honours during the first year. From the second year special additional course-units are provided for Honours students.

The Special Studies course is for those who intend to devote themselves wholly to the subject, and permits the student to take a wide range of all the courses offering. Students are advised to decide, if possible, at the beginning of their second year whether they intend to take the Special Studies course, and to consult the School about their choice of units in this connection.

52.111 Philosophy I

The course-units Introductory Philosophy A and Introductory Philosophy B as detailed below. There will be examinations at the end of each session but for Arts students the course will be treated as an integrated whole-year one.

52.112 Philosophy II

Four course-units, normally two in each session.

52.122 Philosophy II (Honours)

As for Pass course, plus Honours Seminars A and B.

52.113 Philosophy IIIA

Four course-units, normally two in each session.

52.123 Philosophy IIIA (Honours)

As for Pass course, plus Honours Seminar C.

52.133 Philosophy IIIB (Honours)

This subject represents the additional work taken by Special Studies students in their third year, and consists of four additional course-units.

52.114 Philosophy IV

A research thesis on a subject to be approved by the School, and two seminar courses.

In 1972, the courses offered will be: (1) Philosophy of Language: in the works of Russell, Strawson, Austin, Quine, Chomsky and others. (2) Kant (Combined with Honours Seminar C).

NOTE ON PREREQUISITES

"Introductory Philosophy A and B" is equivalent to "Philosophy I".

Where "Predicate Logic" is shown as a prerequisite it may be regarded as equivalent to the Logic unit of Philosophy II (in courses up to 1970).

Where "British Empiricism" is shown as a prerequisite it may be regarded as equivalent to the British Empiricism unit of Philosophy II (in courses up to 1970).

In other cases, students wishing to substitute an old course as prerequisite should consult the School.
COURSE UNITS

Introductory Philosophy A (Session 1)

A first course for students new to the subject. The course divides into three parts: 1. Plato: An introduction to ethics by way of some dialogues of Plato. 2. Hume: A study of those sections of Hume's Enquiry concerned with the existence of God and with miracles. 3. Informal Logic: An approach to logic by way of language, treating such topics as the uses of utterances, the truth and significance conditions of statements, the non-formal analysis of arguments, and the logical relations of propositions.

Introductory Philosophy B (Session 2)

A continuation of Introductory Philosophy A. The three parts of the course will be: 1. Plato: The further study of some dialogues of Plato, with special reference to the theory of definition, and to questions of conceptual analysis as these arise from attempts to define virtue and to prove the immortality of the soul. 2. Hume: The further study of Hume's Enquiry, with special reference either to the mind-body problem and personal identity, or else to the freedom of the will. 3. Formal Logic: An introduction to a system of Natural Deduction sufficient for the symbolization of such ordinary language arguments and the construction of such proofs as lie within the field of propositional logic and simple predicate logic.

Predicate Logic (Session 1)
Prerequisite: Introductory Philosophy A and B.
A system of natural deduction is presented for the first order predicate calculus, including identity and definite descriptions. Emphasis is upon construction of formal derivations, methods of showing the invalidity of formal arguments, and the evaluation of informal arguments by symbolization.

TEXTBOOK

REFERENCE BOOK
Church, A. Introduction to Mathematical Logic. Princeton.

Descartes (Session 1)
Prerequisite: Introductory Philosophy A and B.
A study of the main issues raised in the philosophy of Descartes and their importance for the development of modern philosophy. Emphasis is on the cogito ergo sum argument, the Cartesian method and the search for rational certainty, his theory of ideas, the body-mind problem, and his account of freedom.

**Philosophy of Psychology (Session 2)**

Prerequisite: Scientific Method.

A critical examination of some aspects of fundamental theory of psychology, with special emphasis on classical and contemporary behaviourism and behaviourist orientated psychology, and on the general conceptions of 'behaviour' and 'purpose'.

While Psychology I is not a prerequisite for this course, a preparatory survey of the introductory chapters of J. O. Whittaker's *Psychology* will be of value to students.

**Philosophy of Biology (Session 2)**

Prerequisite: Introductory Philosophy A and B.

An introduction to some of the problems associated with the philosophy of biology. Main consideration is the autonomy of biology; i.e., whether biology is in principle reducible to the physical sciences and, ultimately, to physics, or whether the biologist necessarily employs types of description and explanation that have no application in the explanation and description of merely physical phenomena. No prior knowledge of biology is assumed but candidates will be expected to familiarize themselves with the attitudes of various biologists to these issues.

RUSSIAN Courses offered by the School will cover the language, literature and
culture of the Russian people from the eleventh century to the present day.

This year five courses are offered: Russian IZ, Russian I, Russian IIIZ, Russian
IIIZ (Honours), and Russian IIIA. Four additional courses, Russian II, Russian II
(Honours), Russian IIIA (Honours), and Russian IIIB (Honours), may also be offered, subject to availability of the necessary
teaching staff.

59.001 Russian IZ

Unless the Head of School rules otherwise in special cases, a course
available only to students who have not qualified to enter Russian I and
who have obtained a second level pass or higher in a language other than
English, at the Higher School Certificate.

The course aims at providing students with a sound elementary knowledge
of spoken and written Russian as a basis for further intensive language
study in Russian IIIZ. Students who pass at the annual examination and
wish to continue their study of the language will be required to complete a
programme of written exercises and prescribed reading during the long
vacation. Admission to Russian IIIZ will be dependent on the satisfactory
completion of this programme.

Russian IZ is a semi-intensive course, with a total of seven hours of
instruction per week, consisting of two lectures, three tutorials and two
sessions in the language laboratory. An equal amount of time should be
devoted to preparation and private study if the course is to be pursued
successfully.

SOCIOLOGY

The major aim of sociology, as taught by the School, is to impart some understanding of the human condition. In particular, this involves three teaching objectives:

(a) Developing a critical sense towards social reality and human behaviour.
(b) Developing skills for the collection and interpretation of social data.
(c) Developing a "sociological imagination", i.e. sensitivity to the relations between social phenomena and human actions.

53.111 Sociology I

For students who propose to take sociology as one of their major subjects. Introduces sociology as perspective for understanding society and human interaction with emphasis on theoretical and methodological questions. Students who do not intend to pursue the subject for more than one year should enrol in 53.121 Sociology II.

The Uses of Sociology

53.121 Sociology IT

For students taking only one year of sociology. The course deals with
basic issues of theory and method in the discipline. It will endeavour to
impart an understanding of the sociological perspective, the methods used
by sociologists to collect information, and to introduce students to the
major areas of sociological research. Any student who decides, after
completing this course, that he wishes to do further work in sociology, must
obtain the permission of the Head of the School of Sociology and will be
required to do extra work before permission is granted.

Basic issues of theory and method in Sociology are illustrated. The
course aims to impart an understanding of the sociological perspective and
the methods used by sociologists to collect information, and to introduce
students to the major areas of sociological research.

TEXTBOOKS
There will be two sections:

**Part A: Theory and Research in Sociology**

An introduction to sociological theory and methods of sociological research, with particular reference to key problems confronting the sociologist in both areas. Each area will receive its own special emphasis but the relationship between the two will be stressed throughout.

6. Culture and Society

Culture and Society is a one session course which will deal with a number of manifestations of modern western technological society and the alternatives that are being offered to it. It will concentrate on a few particular fields, relating them to the general question of changing consciousness and the non-linear tradition.

TEXTBOOKS

7. Film and Society

Film represents a formalization of the symbolic interchange that makes up the culture of a society. The course looks at film as an industry, a cultural extension and as a communication system. Offers opportunities for the production by students of films of their own devising, as well as analysis and discussion of current movies. Students are expected to attend movies related to the course.

TEXTBOOKS

Both the Studio Vista Dutton and Cinema One series provide works on individual directors or schools. Jarvie's book provides a full bibliography, and course participants should try to read it before the course begins.
The films to be studied include those by directors such as Fritz Lang, John Ford, Orson Welles, Jerry Lewis, Jean-Luc Godard, Charlie Chaplin and Francois Truffaut.

8. Music and Society

A course presented jointly by the School of Sociology and the Department of Music.

No specialized knowledge of music is required as a prerequisite. The course deals primarily with the present-day relationship of musical practice and the society of which it is both an expression and a product, introduced through historical and cross-cultural comparisons. Topics include: Societal definitions of music; the social role of music in ceremonial, public, educational and domestic situations; music and social stratification; the interaction between music, technology and changing economic conditions; the organization and sociological significance of the popular music industry; music as an outlet for social, political, racial, religious, national and philosophical ideas.

REFERENCE BOOKS

Students taking the course will have access to factual information gathered for:

9. Sociology of Education

The application of sociological principles and concepts to education, by reference to research reports and literature. Session 2: a comparative analysis of aspects of the education system in various societies, allowing students practice in applying sociological theory to education.

Political and economic sub-systems in relation to education; the process of acculturization; the effects of stratification on educational opportunities; the learning process in the educational system and the classroom group; educational goals.

Designed for both educators and those with a more general interest in education.

10. Race Relations
The study of inter-group relations based on 'racial' and 'ethnic' differences. The development and character of 'racist' theories. Racial prejudice: its nature and origins. The structure of racial discrimination in modern societies, including Australia.

TEXTBOOKS

REFERENCE BOOKS

11. Sociology of Religion B

Integrates the theological content of religion with its social practices. Emphasis on a case-study of a modern Western chiliastic religion: Jehovah's Witnesses. The Adventist movement. The historical treatment includes the major personalities involved, the organizational and doctrinal development.

As one of the most thorough modern-day exponents of fundamentalism, Jehovah's Witnesses are considered for the light they can cast on early protestantism. The link between Jehovah's Witnesses and Weber's theory of the protestant ethic; recent re-statements of the Weberian account by Eisenstadt and McClelland in particular.

Practical: a sociological study of Jehovah's Witnesses, subject to the difficulties expected in interviewing a representative sample of adherents (previous investigators report that Jehovah's Witnesses are in many ways a secret society).

REQUIREMENTS FOR ADMISSION

A person who seeks to become a candidate for any degree of Bachelor of the University must first have qualified for matriculation and have satisfied the requirements for admission to the particular Faculty, Course or Subject chosen.

In addition to complying with these conditions candidates must be selected before being permitted to enrol in a course. In 1972 it will be necessary for the University to limit the number of students enrolling in all undergraduate courses.

A candidate who has satisfied the conditions for matriculation and for admission to a course of study shall be classed as a “matriculated student” of the University, after enrolment.

A person who has satisfactorily met the conditions for admission may be provided with a statement to that effect on the payment of the prescribed fee.

SECTION A

GENERAL MATRICULATION AND ADMISSION REQUIREMENTS

1. A candidate may qualify for matriculation by attaining in recognised matriculation subjects at one New South Wales Higher School Certificate Examination or at one University of Sydney Matriculation Examination a level of performance determined by the Professorial Board from time to time.

2. The level of performance required to qualify for matriculation shall be:
   
   (a) passes in at least five recognised matriculation subjects, one of which shall be English and three of which shall be at Level 2 or higher;

   and

   (b) the attainment of an aggregate of marks, as specified by the Professorial Board, in not more than five recognised matriculation subjects, such marks being co-ordinated in a manner approved by the Board.
3. The following subjects, and such other subjects as may be approved by the Professorial Board from time to time, shall be recognised matriculation subjects:

4. A candidate who has qualified to matriculate in accordance with the provisions of Clauses 1, 2 and 3 may be admitted to a particular Faculty, course or subject provided that:

(a) his qualification includes a pass at the level indicated in the subject or subjects specified in Schedule A as Faculty, course or subject prerequisites;

or

(b) the requirements regarding these particular Faculty, course or subject prerequisites, as specified in Schedule A have been met at a separate Higher School Certificate or University of Sydney Matriculation Examination.

5. Notwithstanding any of the provisions of Clauses 1 to 4, the Professorial Board may grant matriculation status to any candidate at the Higher School Certificate or University of Sydney Matriculation Examination who has reached an acceptable standard and may admit him to any Faculty, course or subject.

Note:

1. For the purposes of Clause 2(a), Mathematics and Science BOTH PASSED at first level or second level full course shall together count as three subjects.

2. For the purposes of Clause 2(b), Mathematics and Science TAKEN either singly or together at first level or second level full course shall each count as one and one-half subjects.

SECTION B

Supplementary Provisions for Matriculation

1. Notwithstanding the provisions of Section A above, candidates may be accepted as "matriculated students" of the University under the following conditions subject to the approval of the Professorial Board:

(a) Any person who holds a diploma from the New South Wales Department of Technical Education, or any other Technical College which may from time to time be recognised by the University, may be admitted to the University as a "matriculated student" with such status as the Board may determine, provided that, in the opinion of the Board, the applicant's qualifications are sufficient for matriculation to the Faculty nominated.

(b) The Board may admit as a "matriculated student" in any Faculty with such status as the Board may determine in the circumstances;

(i) A graduate of any approved University.

(ii) An applicant who presents a certificate from a University showing that he has a satisfactory record and is qualified for entrance to that University, provided that in the opinion of the Board there is an acceptable correspondence between the qualifying conditions relied upon by the applicant and conditions laid down for matriculation to the nominated Faculty of the University of New South Wales.

(c) (i) Any person who has completed the first year of the course at the Royal Military College of Australia and submits a certificate from the Commandant to that effect may be admitted as a "matriculated student" of the University.

(ii) Any person who has completed a full course of at least three years' prescribed study at the Royal Military College of Australia and produces a certificate from the Commandant to that effect may be admitted as a "matriculated student" of the University with such status as the Board may determine.

(d) Any person who has completed satisfactorily the passing out examination of the Royal Australian Naval College and submits a certificate from the Commanding Officer may be admitted as a "matriculated student" of the University.

(e) (i) Any person who has completed the first year of the course at the Royal Australian Air Force College and submits a certificate from the Commandant to that effect, may be admitted as a "matriculated student" of the University.
(ii) Any person who has completed two years of the course at the Royal Australian Air Force College and submits a certificate from the Commandant to that effect, may be admitted as a "matriculated student" of the University with such status as the Board may determine.

(f) An applicant who presents a certificate from another University showing that he is qualified for entrance to that University and setting out the grounds of such qualification, provided that in the opinion of the Professorial Board, there is an acceptable correspondence between the qualifying conditions relied upon by the applicant and the conditions laid down for matriculation to the nominated Faculty of the University of New South Wales.

2. (a) The Professorial Board may, in special cases, including cases concerning persons of other than Australian education, declare any person qualified to enter a Faculty as a "provisionally matriculated student" although he has not complied with the requirements set out above, and in so doing may prescribe the completion of certain requirements before confirming the person's standing as a "matriculated student". Students who satisfactorily complete these requirements will be permitted to count the courses so passed as qualifying for degree purposes.*

(b) Persons over the age of twenty-five years may be admitted to provisional matriculation status provided that—
   (i) they have satisfactorily completed an approved course of systematic study extending over at least three years after passing the School Certificate Examination, or
   (ii) they satisfy the Professorial Board that they have reached a standard of education sufficient to enable them profitably to pursue the first year of the proposed course.

(c) Any applicant for provisional status may be required to take such examination as the Professorial Board may prescribe before such status is granted.

3. The Professorial Board may at its discretion permit a person, who does not satisfy the requirements for admission, to attend lectures in a subject or subjects at the University, on payment of the prescribed fees provided that such person shall not necessarily have the privileges of "matriculated students" and shall not be eligible to proceed to a degree.

* The Professorial Board has determined that normally confirmation of standing as a "matriculated student" will require the successful completion of not less than half the normal programme in the first year of enrolment.
ADMISSIONS AND ENROLMENT PROCEDURE

ADMISSIONS PROCEDURE

Details of the procedure to be followed by students seeking entry to first year courses at the University may be obtained from the Admissions Office or the Metropolitan Universities Admissions Centre.

Persons seeking entry to first year courses in one or more of the three Universities in the Sydney Metropolitan Area (Macquarie University, the University of New South Wales and the University of Sydney) are required to lodge a single application form with the Metropolitan Universities Admissions Centre, Third Floor, 13-15 Wentworth Avenue, Sydney (near Liverpool Street). Postal address: Box 7049, G.P.O., Sydney, 2001. Telephone: 26 6301. On the application form provision is made for applicants to indicate preferences for courses available in any of the three Universities. Students are notified individually of the result of their applications and provided with information regarding the procedures to be followed in accepting the offer of a place at this University and completing their enrolment at the Enrolment Bureau, Unisearch House, 221 Anzac Parade, Kensington.

ADMISSIONS OFFICE

The Admissions Office, which is located in the Chancellery on the upper campus, provides intending students (both local and overseas) with information regarding courses, admission requirements, scholarships and enrolment. Office hours are from 9.00 a.m. to 1.00 p.m. and 2.00 p.m. to 5.00 p.m. Monday to Friday. During the enrolment period an evening service is also provided. Applications for special admission, admission with advanced standing and from persons relying for admission on overseas qualifications should be lodged with the Admissions Office.

ENROLMENT PROCEDURE

In 1972 it will be necessary for the University to impose quotas in each Faculty and Board of Studies.

The enrolment procedure for the different classes of undergraduate students is as follows:—
First Enrolments

(a) New South Wales residents already qualified for admission and persons who are applying for enrolment on the basis of qualifications gained or about to be gained outside New South Wales must lodge an application for enrolment with the Metropolitan Universities Admissions Centre, 13-15 Wentworth Avenue, Sydney (P.O. Box 7049 G.P.O., Sydney) by 29th October, 1971.

(b) New South Wales residents qualifying for admission by the 1971 New South Wales Higher School Certificate Examination or the 1972 Sydney University Matriculation Examination and those who have attended a university in New South Wales in 1971 must apply for enrolment to the Metropolitan Universities Admissions Centre, 13-15 Wentworth Avenue, Sydney (P.O. Box 7049 G.P.O., Sydney) by 21st January, 1972.

Students whose applications for enrolment are accepted will be required to complete their enrolment at a specified appointment time before the beginning of Session 1. Fees must be paid on the day of the appointment. However, in special circumstances and provided class places are still available, students may be allowed to complete their enrolment after the prescribed week subject to the payment of a late fee.

Failure in First Year

First year students who failed more than half their programme at the 1971 Annual Examinations and who were not granted any deferred examinations will NOT follow the above procedure. They are required to 'show cause' why they should be allowed to continue in the course, and should await instructions in writing from the Registrar as to the procedure.

Later Year Enrolments

Preliminary re-enrolment forms will be obtainable from the Faculty of Arts Office, Room LG5, Arts/Maths Building, from 18th October, 1971. Each student must obtain his or her personal enrolment form (FORM UE3) and Form Arts/72 plus the instruction form from the Faculty Office. After notification of the annual examination results the student should set out a proposed programme for 1972 on the Arts/72 form and forward or deliver this together with the enrolment FORM UE3 completed as far as possible to the Faculty Office, Room LG5, Morven Brown Building (Arts/Maths) not later than Friday, 21st January, 1972.

Students who fail to lodge their enrolment forms before 21st January will be required to attend one of the late enrolment sessions in order to collect their authorised enrolment form.
Students should collect their re-enrolment form (UE3) from Room LG6, Morven Brown Building (Arts/Maths) in accordance with the following timetable:

**Year II**
Students with surnames A-F

Monday, 28th February.
2.30 p.m. to 5.00 p.m.

G-L

Tuesday, 29th February.
9.30 a.m. to 12.30 p.m.

M-R

Tuesday, 29th February.
2.30 p.m. to 5.00 p.m.

S-Z

Wednesday, 1st March.
9.30 a.m. to 12.30 p.m.

**Year III and Year IV**
Students with surnames A-D

Wednesday, 1st March.
2.30 p.m. to 5.00 p.m.

E-K

Thursday, 2nd March.
9.30 a.m. to 12.30 p.m.

L-R

Thursday, 2nd March.

New or Transfer Students with Advanced Standing and Miscellaneous Students

Friday, 3rd March.
2.30 p.m. to 5.00 p.m.
and 6.00 p.m. to 7.30 p.m.

Students who are unable to attend personally at the specified time should send a representative with a letter of authority to collect their form for them.

Students who fail to do this or fail to attend personally will be required to attend one of the late enrolment sessions (see relevant section).

**Students must attend classes from the first day of each session although they have not formally completed their enrolment.**

**Miscellaneous Subjects (students NOT proceeding to a degree or diploma)**

Students may be accepted for enrolment in miscellaneous subjects provided the University considers that the subject/s will be of benefit to the student and there is accommodation available. Only in exceptional circumstances will subjects taken in this way count towards a degree or diploma.
Students seeking to enrol in miscellaneous subjects should obtain a letter of approval from the Head of the appropriate School or his representative permitting them to enrol in the subject concerned. The letter should be given to the enrolling officer at the time of enrolment. Where a student is under exclusion he may not be enrolled in miscellaneous subjects unless given approval by the Professorial Board.

Students who have obtained permission to enrol should attend for enrolment at Room L.G6, Morven Brown Building, on:
Friday, 3rd March ........................................... 2.00 p.m. to 4.30 p.m.
6.00 p.m. to 7.30 p.m.

Final Dates for Completion of Enrolment
No enrolments will be accepted from new students after the end of the second week of Session 1 (17th March, 1972) except with the express approval of the Registrar and the Head of the School concerned: no later year enrolments will be accepted after 31st March without the express approval of the Registrar, which will be given in exceptional circumstances only.

Enquiries Concerning Course Regulations
Students requiring assistance should consult the Faculty of Arts Office, Tel.: 663-0351, extn. 2248, Room I.G5, Morven Brown Building.

UNIVERSITY UNION CARD
All students other than miscellaneous students are issued with a University Union membership card. This card must be carried during attendance at the University and shown on request.

The number appearing on the front of the card above the student's name is the student registration number used in the University's records. This number should be quoted in all correspondence.

The card must be presented when borrowing from the University libraries, when applying for Travel Concessions and when notifying a change of address. It must also be presented when paying fees on re-enrolment each year when it will be made valid for the year and returned. Failure to present the card could result in some inconvenience in completing re-enrolment.

A student who loses a Union Card must notify the University Union as soon as possible.

New Students will be issued with University Union cards at the University Union Enquiry Desk as soon as practicable after payment of fees. In the meantime, fees receipt form should be carried during attendance at the University and shown on request. A period of at least three weeks should be allowed to elapse after payment of fees before making application for the card. Cards will not be posted under any circumstances.
UNDERGRADUATE COURSE FEES

FEES

Fees are current at the time of publication, and may be amended by Council without notice.

Late lodgment of corrected enrolment details forms (late applications will be accepted for three weeks only after the prescribed dates) .................................................. $7

Withdrawal from Course
Students withdrawing from a course are required to notify the Registrar in writing. Fees for the course accrue until a written notification is received.
Where notice of withdrawal from a course is received by the Registrar before the first day of Session 1 a refund of all fees paid other than the matriculation fee will be made.

Where a student terminates for acceptable reasons a course of study before half a session has elapsed, one-half of the session's course fees may be refunded. Where a student terminates a course of study after half a session has elapsed, no refund may be made in respect of that session's fees.

The Library fee is an annual fee and is not refundable where notice of withdrawal is given after the commencement of Session 1.

On notice of withdrawal a partial refund of the University Union Entrance Fee is made on the following basis: any person who has paid the entrance fee in any year and who withdraws from membership of the University Union after the commencement of Session 1 in the same year, or who does not renew his membership in the immediately succeeding year may, on written application to the Warden, receive a refund of half the entrance fee paid.

On notice of withdrawal a partial refund of the Student Activities Fees is made on the following basis:—

University Union—$7.50 in respect of each half-session.
University of New South Wales Students' Union—where notice is given prior to the end of the fifth week of Session 1, $3, thereafter no refund.
University of New South Wales Sports Association—where notice is given prior to 30th April a full refund is made, thereafter no refund.
Miscellaneous—where notice is given prior to 30th April, $8.50, thereafter no refund.

**PAYMENT OF FEES**

**Completion of Enrolment**

All students are required to attend the appropriate enrolment centre during the prescribed enrolment period* for authorization of course programme. Failure to do so will incur a late fee of $8.

First year students (including students repeating first year) must complete enrolment (including fee payment) before they are issued with class timetables or permitted to attend classes. A first year student who has been offered a place in a course to which entry is

---

* The enrolment periods for Sydney students are prescribed annually in the leaflets "Enrolment Procedure for New Students" and "Enrolment Procedure for Students Re-enrolling".
restricted and fails to complete enrolment (including fee payment) at the appointed time may lose the place allocated.

Fees should be paid during the prescribed enrolment period, but will be accepted during the first two weeks of Session 1. (For late fees, see above.) No student is regarded as having completed an enrolment until fees have been paid. Fees will not be accepted (i.e., enrolment cannot be completed) from new students after the end of the second week of Session 1 (i.e., 17th March, 1972), and after 31st March, from students who are re-enrolling, except with the express approval of the Registrar, which will be given in exceptional circumstances only.

Payment of Fees by Session

Students who are unable to pay their fees by the year may pay by the session, in which case they are required to pay the first session's course fees and other fees for the year, within the first two weeks of Session 1. Students paying under this arrangement will receive accounts from the University for Session 2 fees. These fees must be paid within the first two weeks of Session 2.

Assisted Students

Scholarship holders or Sponsored Students who have not received an enrolment voucher or appropriate letter of authority from their sponsor at the time when they are enrolling should complete their enrolment paying their own fees. A refund of fees will be made when the enrolment voucher or letter of authority is subsequently lodged with the Cashier.

Extension of Time

Any student who is unable to pay fees by the due date may apply in writing to the Registrar for an extension of time. Such application must give year or stage, whether full-time or part-time and the course in which the applicant wishes to enrol, state clearly and fully the reasons why payment cannot be made and the extension sought, and must be lodged before the date on which a late fee becomes payable. Normally the maximum extension of time for the payment of fees is until 31st March for fees due in Session 1 and for one month from the date on which a late fee becomes payable in Session 2.

Where an extension of time is granted to a first year student in Session 1, such student may only attend classes on the written authority of the Registrar, but such authority will not normally be given in relation to any course where enrolments are restricted.
**Failure to Pay Fees**

Any student who is indebted to the University and who fails to make a satisfactory settlement of his indebtedness upon receipt of due notice ceases to be entitled to membership and privileges of the University. Such a student is not permitted to register for a further session, to attend classes or examinations, or to be granted any official credentials.

No student is eligible to attend the annual examinations in any subject where any portion of his course fees for the year is outstanding after the end of the fourth week of Session 2 (18th August, 1972).

In very special cases the Registrar may grant exemption from the disqualification referred to in the two preceding paragraphs upon receipt of a written statement setting out all relevant circumstances.

**Cashier’s Hours**

The cashier’s office is open for the payment of fees from 9.30 a.m. to 1.00 p.m., and from 2.00 p.m. to 4.30 p.m. Monday to Friday. It is open for additional periods during the first three weeks of each session.
RULES RELATING TO STUDENTS

GENERAL CONDUCT

Acceptance as a member of the University implies an undertaking on the part of the student to observe the regulations, by-laws and other requirements of the University, in accordance with the declaration signed at the time of enrolment.

In addition, students are expected to conduct themselves at all times in a seemly fashion. Smoking is not permitted during lectures, in examination rooms or in the University Library. Gambling is also forbidden.

ATTENDANCE AT CLASSES

Students are expected to be regular and punctual in attendance at all classes in the course or subject in which they are enrolled. All applications for exemption from attendance at lectures or practical classes must be made in writing to the Registrar.

In the case of illness or of absence for some other unavoidable cause a student may be excused by the Registrar from non-attendance at classes for a period of not more than one month, or on the recommendation of the Dean of the appropriate Faculty for any longer period.

Applications to the Registrar for exemption from re-attendance at classes, either for lectures or practical work, may only be granted on the recommendation of the Head of the appropriate School. The granting of an exemption from attendance does not carry with it exemption from payment of fees.

Application forms for exemption from lectures are available at the Admissions Office and should be lodged there (with a medical certificate where applicable). If session examinations have been missed this fact should be noted in the application.

Where a student has failed a subject at the annual examinations in any year and re-enrolls in the same course in the following year, he must include in his programme of studies for that year the subject in which he has failed. This requirement will not be applicable if the subject is not offered the following year; is not a compulsory component of a particular course; or if there is some other cause,
which is acceptable to the Professorial Board, for not immediately repeating the failed subject.

Where a student has attended less than eighty per cent of the possible classes, he may be refused permission to sit for the examination in that subject.

INDEBTEDNESS TO THE UNIVERSITY

Any student who is indebted to the University and who fails to make a satisfactory settlement of his indebtedness upon receipt of due notice ceases to be entitled to membership and privileges of the University. Such a student is not permitted to register for a further session, to attend classes or examinations, or to be granted any official credentials.

In very special cases the Registrar may grant exemption from the disqualification referred to in the preceding paragraph upon receipt of a written statement setting out all relevant circumstances.

CHANGES IN COURSE PROGRAMMES AND WITHDRAWAL FROM SUBJECTS

Students seeking approval to substitute one subject for another, add one or more subjects to their programme or discontinue part of their programme must make application to the Head of the School responsible or the Dean of the Faculty. Forms are available at the Faculty office.

Any addition or substitution of subjects after 31st March will be accepted only with the express approval of the Registrar on the recommendation of the appropriate Head of School, and will be given in exceptional circumstances only. In the case of students wishing to terminate their enrolment the application must be lodged at the Examinations and Student Records Section.

The Registrar will inform students of the decision. Approval of withdrawal from subjects is not automatic, each application being determined after considering the circumstances advanced as justifying withdrawal.

It is emphasized that:

1. Withdrawal from a subject, tuition in which extends over the academic year, at any time after the May recess;

2. withdrawal from a subject, tuition in which extends over only one session, at any time after one month from the commencement of the subject; or
(3) failure to sit for the examinations in any subject in which the student has enrolled shall be regarded as failure to satisfy the examiners in the subject, unless written approval to withdraw without failure has been obtained from the Registrar.

RESTRICTION UPON STUDENTS RE-ENROLLING IN UNIVERSITY COURSES

The University Council has adopted the following rules governing re-enrolment with the object of requiring students with a record of failure to show cause why they should be allowed to re-enrol and retain valuable class places. These rules apply retrospectively from 1st January, 1971.

1. (i) A student shall show cause why he should be allowed to repeat a subject in which he has failed more than once. (Failure in a deferred examination as well as in the annual examination counts, for the purpose of this regulation, as one failure.) Where such subject is prescribed as a part of the student's course he shall be required to show cause why he should be allowed to continue the course.

Notwithstanding the provisions of Clause 1 (i)

(ii) A student enrolled in the first year or first stage of any course, other than the Medical course, who has failed in more than half the programme in which he is enrolled for that year or stage shall be required to show cause why he should be allowed to continue in the course.

(iii) A student enrolled in the first year of the Medical course who has failed in more than one subject of that year shall be required to show cause why he should be allowed to continue in the Medical course.

(iv) The provisions of sections (ii) and (iii) of this rule shall be deemed to apply to any student on transfer from another course or institution whose programme of studies in the first year of enrolment immediately following transfer is comprised of subjects so chosen that half or more of such subjects are listed in the University Calendar as first year subjects.

2. Notwithstanding the provisions of Clause 1, a student shall be required to show cause why he should be allowed to continue a course which he will not be able to complete in the time set down in the following schedule:
Number of years in course | Total time allowed from first enrolment to completion (Years)
---|---
3  | 5  
4  | 6  
5  | 8  
6  | 9  
7  | 11 
8  | 12 

3. No full-time student shall, without showing cause, be permitted to continue a course unless all subjects of the first year of his course are completed by the end of his second year of attendance. **No student in the Faculty of Arts** shall, without showing cause, be permitted to continue a course unless he completes four subjects by the end of his second year of attendance.

No full-time student in the Bachelor of Social Work course shall without showing cause be permitted to continue with the course unless he completes the equivalent of four full subjects by the end of his second year of attendance.

No part-time student shall, without showing cause, be permitted to continue a course unless all subjects of the first two stages of his course are completed by the end of his fourth year of attendance and all subjects of the third and fourth stages of his course by the end of his seventh year of attendance.

No student in the Faculty of Medicine shall, without showing cause, be permitted to continue with the medical course unless he completes the second year of the course by the end of his third year of attendance, and the third year of the course by the end of his fourth year of attendance.

4. A student who has a record of failure in a course at another University shall be required to show cause why he should be admitted to this University. A student admitted to a course at this University following a record of failure at another University shall be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations in his first year of attendance at this University.

5. Any student excluded under any of the Clauses 1-3 may apply for re-admission after two academic years and such application shall be considered in the light of any evidence submitted by him.
6. A student wishing "to show cause" under these provisions shall do so in writing to the Registrar. Any such application shall be considered by a committee, hereinafter referred to as the Re-enrolment Committee, appointed by the Professorial Board, which shall determine whether the cause shown is adequate to justify his being permitted to continue his course or re-enrol, as the case may be.

7. The Vice-Chancellor may on the recommendation of the Re-enrolment Committee exclude from attendance in a course or courses any student who has been excluded from attendance in any other course under the rules governing re-enrolment and whose record at the University demonstrates, in the opinion of the Re-enrolment Committee and the Vice-Chancellor, the student's lack of fitness to pursue the course nominated.

8. A student who has failed, under the provisions of Clause 6 of these rules, to show cause acceptable to the Re-enrolment Committee why he should be permitted to continue in his course, and who has subsequently been permitted to re-enrol in that course or to transfer to another course, shall also be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations immediately following the first year of resumption or transfer of enrolment as the case may be.

9. Any student who is excluded from attendance in any course or subject under the provisions of these rules may appeal to an Appeal Committee constituted by Council for this purpose. The decision of the Appeal Committee shall be final.

10. The notification to any student of a decision by the Re-enrolment Committee to exclude the student from attendance in any course or subject shall indicate that the student may appeal against the decision to an Appeal Committee. In lodging such application the student shall ensure that a complete statement is furnished of all grounds on which the application is based and shall indicate whether or not the student wishes to appear in person before the Appeal Committee.

In considering an appeal, the Appeal Committee, on the basis of the student's academic record and the stated grounds for review, shall decide:

(i) whether there are grounds which justify the Committee seeing the student in person, or

(ii) whether there is sufficient information available to the Committee to allow decision without seeing the student in person and so proceed to determine the application accordingly.
RE-ADMISSION AFTER EXCLUSION

Applications for re-admission must be made on the standard form and lodged with the Registrar not later than 30th June of the year prior to that for which re-admission is sought. An application should include evidence of appropriate study in the subjects (or equivalents) on account of which the applicant was excluded. In addition, evidence that circumstances which were deemed to operate against satisfactory performance at the time of exclusion are no longer operative or are reduced in intensity should be furnished. An applicant may be required to take the annual examinations in the relevant subjects as qualifying examinations in which case re-admission does not imply exemption from the subject. Late applications cannot be considered where, in the opinion of the University, insufficient time will be available for the student to prepare himself for any qualifying examinations which may be required.

It should be noted that a person under exclusion may not be enrolled in miscellaneous subjects unless he has received the approval of the Admissions Committee of the Professorial Board.

Persons who intend applying for re-admission to the University at a future date may seek advice as to ways in which they may enhance their prospects of qualifying for re-admission. Enquiries should be made on a form obtainable from the Examinations Branch, and lodged with the Registrar.

PARKING WITHIN THE UNIVERSITY GROUNDS

Because of the limited amount of parking space available, only the following categories of students may apply for a permit: higher degree students (limited issue, annual fee $7.80); postgraduate, and senior undergraduate students who have completed three years of a full-time or part-time course. Permit will allow access to campus between 5 p.m. and 11 p.m. on weekdays and during library hours on Saturdays, Sundays and public holidays (annual fee $3.90).

Applications should be made to the Property Section. It should be noted that increasing demand for parking space may require the imposition of further restrictions.

APPLICATION OF RULES

General

Any student who requires information on the application of these rules or any service which the University offers, may make enquiries from the Admissions Office, the Student Counselling Unit or the Registrar.
Appeals

Section 5(c) of Chapter III of the By-laws provides that "Any person affected by a decision of any member of the Professorial Board (other than the Vice-Chancellor) in respect of breach of discipline or misconduct may appeal to the Vice-Chancellor, and in the case of disciplinary action by the Vice-Chancellor, whether on appeal or otherwise, to the Council".
STUDENT SERVICES

LIBRARY SERVICES

The University Library is located on the Upper Campus adjacent to the Chancellery, the Commerce Building and the Arts Building.

The Library's Undergraduate Collection covers the teaching and research interests of the Faculty, and students are expected to read widely and critically from it.

It is recommended that students attend the Introduction to the Library which is held at advertised times during Orientation Week and the first week of Session 1. The Introduction uses audio-visual aids to describe the physical layout of the Undergraduate Library and the services available to readers.

Copies of the booklet Guide to the Library are available on request.

Students who are interested in the subject approach to information may attend a course which outlines methods of searching for information in libraries. This course runs for eight hours over a period of one week.

Individual assistance for readers with specific library problems is provided by the Reader Assistance Unit which is located in the foyer.

Staff and students must use a machine readable identification card to borrow from the main University Library. Personal identification is required in the other libraries listed. For students a current union card is acceptable. Staff must apply to the Library for a library card.

THE UNIVERSITY UNION

Warden—A. T. Cuningham, ED, BEc Syd.

The University Union, housed in the circular building and joined by a courtyard to an adjacent rectangular building, is located near the entrance to the Kensington campus from Anzac Parade. The third building in the Union complex was completed in 1971. Membership of the Union is compulsory for all registered students of the University and is also open to all members of staff and graduates of the University.

The full range of facilities provided by the Union includes a cafeteria service and other dining facilities, a large shopping centre, cloak room, banking and hairdressing facilities, showers, a women's lounge, common rooms, games rooms, reading rooms, etc.
STUDENT COUNSELLING AND RESEARCH UNIT

The Student Counselling and Research Unit offers a free, confidential counselling service to help students, individually or in groups, to deal with problems, and to make plans and decisions associated with their personal, academic, and vocational progress.

Interviews and group programmes are available between 9 a.m. and 8 p.m. each week-day. Appointments may be made at the Unit, which is located at the foot of Basser Steps, or by ringing 663-0351, extensions 2600-2605 between 9 a.m. and 5 p.m.

FINANCIAL ASSISTANCE TO STUDENTS

The Students' Union and the University have co-operated to provide assistance to students who are in financial difficulties which are considered likely to prejudice their progress with their studies.

In all cases assistance is limited to students with reasonable academic records and whose financial circumstances warrant loans. Students granted assistance of either kind are required to give an undertaking to repay the loan under the conditions agreed upon.

Applications may be made personally to the Deputy Registrar (Student Services).

UNIVERSITY CO-OPERATIVE BOOKSHOP LTD.

Membership is open to all students, on payment of a fee of $5, refundable when membership is terminated. Members receive an annual rebate on purchases of books.
Students undertaking courses in the Faculty of Arts are eligible to apply for the following scholarships.

Except where otherwise specified, applications on the forms obtainable from the Admissions Office (phone: 663-0351, ext. 2485) must be lodged with the Registrar, the University of New South Wales, P.O. Box 1, Kensington, within seven days of the publication of the award of Commonwealth University Scholarships. A separate application must be lodged for each category of scholarship.

University Scholarships

The University annually awards up to fifteen scholarships tenable in degree courses to students who have matriculated at the Higher School Certificate Examination; ten scholarships to students who have completed certificate courses (Department of Technical Education); ten scholarships to students who have completed Trade Courses (Department of Technical Education); and ten scholarships to part-time students who have taken the Diploma Entrance course of the Department of Technical Education. The scholarships exempt the holder from payment of course fees during the currency of the scholarship. Scholarships will be awarded in order of merit on Higher School Certificate Examination results. They may be held only by persons who do not hold another award and whose parents are permanent residents of Australia.

Commonwealth Scholarships

Students enrolling in first degree courses are eligible. Benefits include payment of all tuition fees and other compulsory fees, and living allowances (the latter being subject to a means test). Full particulars and application forms may be obtained from the Department of Education and Science, La Salle Building, 70 Castlereagh Street, Sydney, or Box 3987, G.P.O., Sydney, 2001. Phone number: 2-0323.

Teachers' College Scholarships

Full particulars and application forms may be obtained from the Officer-in-charge, Teacher Training Division, N.S.W. Department of Education, Blackfriars Street, Chippendale. 2008. Phone number: 211-4566.
Bursaries

A number of Bursaries tenable at the University are awarded to candidates of merit at the Higher School Certificate Examination whose family income falls within certain limits prescribed by the Bursary Endowment Board. Applications should be made to the Secretary, Bursary Endowment Board, P.O. Box R42, Royal Exchange, N.S.W. 2000.

The Fell Scholarship (University Residential Colleges)

The Fell Scholarship is available to any undergraduate who is or will be in residence at one of the Colleges under the administration of Kensington Colleges Ltd. during the year of the award. The annual value of the Scholarship is $100. It may be held concurrently with Commonwealth and other scholarships.

In awarding the scholarship the academic merit and financial need of the applicant will be taken into consideration.

Applications must be made on the appropriate form and lodged with the Master, Kensington Colleges Ltd., Box 24. P.O., Kensington 2033 (telephone 663-0651).

The Olivetti Australia Pty. Ltd. Scholarship

Olivetti Australia Pty. Ltd. offers annually a $500 scholarship to a student enrolled in the third year of an honours degree course in arts or science. The scholarship may be held together with a Commonwealth Scholarship.

An award shall be made in one of the fields of Mathematics (including Numerical Analysis) or Statistics, with preference being given to Statistics.

Applications shall be lodged on the prescribed forms with the Registrar within seven days of the notification of second year examination results of the University.
STUDENT ACTIVITIES

The Arts Faculty Society

The Arts Faculty Society is primarily concerned with fostering a closer and more intimate relationship between students and staff of the Faculty as well as pursuing a greater involvement of students in its functioning and operation.

Social occasions have included several successful balls and staff-student cocktail parties. A regular newsletter and handouts relating to immediate society activities are produced.

Membership of the society is automatic on enrolment in the Faculty and it is hoped that students will take advantage of the benefits it provides. This can be done by participation and interest in society activities.

Associated clubs and societies within the faculty should note that financial and advisory support will be gladly given upon request.

Anyone desiring further information should write to Box 38, The Union.

Dramsoc (University of N.S.W. Dramatic Society)

Dramsoc is one of the oldest and most widely respected of the University Societies. We hope to have a most comprehensive programme of plays, play-readings, and revues. We wish to encourage many active new members. For further information on Dramsoc, write c/o Box 69, University Union.

Historical Society

The Historical Society was formed to assist students of History to develop an interest in the subject outside their formal studies.

In pursuit of this objective the Society presents guest speakers, holds film showings, and holds cocktail parties, and arranges other functions. It is hoped, in 1972, to expand the programme to include as wide a variety of activities as possible to cater for the interests of as many students as possible.

All students and staff in the School of History are members of the Historical Society, and with the payment of a small activities fee qualify to attend social functions either at a reduced price or no charge at all.
Please address all enquiries to the School of History, or to: The Secretary, UNSW Historical Society, School of History, The University of New South Wales. P.O. Box 1, Kensington, N.S.W., 2033.

Regular meetings of the Historical Society are held in the History Seminar Room (350) in the Arts/Maths Building every Tuesday at 1 p.m. All students are welcome to attend.

The Politics Club

The Politics Club is an independent political club not aligned or associated with any political party or faction. Its membership is open to all students of the University and its aim is to provide an opportunity for students interested in politics in general or in the study of some particular field of politics to meet to discuss varying political issues and ideas. The club holds discussion groups and seminars interposed with public meetings which are addressed by students, staff and speakers from outside the university.

The Club is associated with the School of Political Science and any inquiries, which would be welcomed, should be directed to Mrs. Josephine Hill, Secretary to the School of Political Science. (Phone: 663 0351, ext. 2239.)

The French Society

The French Society aims mainly to be the focal point for students of French. There are no prescribed limits to its activities which are generally cultural, social or political, and its membership is open to anyone, student or non-student, who is interested.

The Society is particularly oriented to developing informal relations between students and staff. At present an excellent liaison exists permitting close co-operation on course structures and related areas as well as on less formal aspects of French studies. At regular meetings, frank discussion has helped establish in the School a friendly and informal atmosphere.

Social and cultural activities are wide in range, including dinners (especially Bastille Day), wine and cheese soirées, films, discussions and theatre parties. This year a residential weekend is planned for early in Session 1, where French language and ideas will be put into action. All new students are encouraged to attend.

The Society meets regularly one day a week, during the lunch break. (Meetings are nearly always conducted in English.) Pre-term enquiries should be addressed to the French Society through the School of French.
Socratic Society

The purpose of the Socratic Society is to promote discussion on controversial and intellectually stimulating topics.

The Society has no views, except that discussion is a good thing: its members have a diversity of views and find that its seminars and meetings provide an excellent opportunity to express them.

Membership of the Society is not in any way limited to one School or Faculty and the matters discussed cover a very wide field. The Society organises regular public meetings, private meetings and seminars. It also publishes a magazine, Cogito. The first number enjoyed a considerable critical success; copies however, are still available at the School of Philosophy (price: 25 cents).

Private meetings and seminars are open to members only (annual subscription: 50c). Seminars have been held on a wide variety of topics, including the origin of society, religious belief, sexual morality and existentialism. At private meetings, papers have been read on such diverse topics as philosophy of science, the state of the Catholic Church in Australia and the Student Power movement.

Public meetings are open to all members of the University. One very successful meeting consisted of a round table discussion on the right of students to criticise the University. Participants included the Vice-Chancellor, a Member of Parliament, the editor of Tharunka and various academics. Public meetings have also been held on Marxism, euthanasia, and the difference between St. Augustine and D. H. Lawrence.

Further information may be obtained from the School of Philosophy.

The Julian Society

Concerned to provide the opportunity for interesting discussions on all types of literature, the Julian Society, the literary society of the University, meets fortnightly, currently, on Thursday nights. With a predominantly student membership, the society engages in informal meetings, generally taking the form of a short paper followed by discussion. Wine and supper are provided at each meeting. Topics for papers are by no means confined to topics on the English syllabus. Topics ranging from Rhythm and Random Number Poetry, through Peter Weiss—Author of Marat-Sade, to Bob Dylan—Poet have been discussed. Members of staff and such distinguished speakers as Dr. Clement Semmler, critic Harry Kippax and novelists Thea Astley and Margaret Dick have given papers.

All those interested are urged to come along. Further information may be obtained from Professor H. Heseltine (School of English), ext. 2247.
The German Society

The German Society idealistically aims to provide media at which students of German (and others) can meet each other and so be able to exchange views on their subject/s, teachers, weather and sometimes Germany and its achievements—cultural and other.

The Society tries to achieve this through film nights, informal meetings, term dinners, or other means which students may wish to suggest.

Further details may be obtained from the Secretary of the School of German.

Scientia

Scientia is the Society of the School of History and Philosophy of Science. Its aims are to develop interest in history and philosophy of science, both in general and as an academic discipline, to further the unification of the sciences and the humanities, and to provide an opportunity for informal meetings of staff and students. Activities centre on a programme of lectures by visiting speakers and seminars at which members' papers are read and discussed. In 1972 the Society hopes to publish the second issue of its journal, first produced last year.

In addition, parties are held several times a year and films of interest to members are screened. Wine and cheese are served.

Membership is open to all members of the University and is free to students enrolled in courses in the School of History and Philosophy of Science.

The Geographical Society

It is hoped that students taking geography as a subject will participate in the activities organized by the Geographical Society. The Society is relatively new and is therefore open to new ideas and to people who are concerned with fostering an interest in the subject. Lectures and informal discussion groups are organized so that students can have the opportunity of listening to experts in the various fields of geography.

Social activities have always been an important part of the Society and they have provided more than adequate opportunities for students to get to know each other and for students and staff to improve communications.
The Psychology Society

The Psychology Society aims to provide activities both educational and social for students of psychology, and, more generally, to act as an intermediary body between students and staff. While psychology is one of the most popular subjects available to Arts students, many students have only a vague conception of psychology and are unsure exactly where their courses will lead them.

One of the aims of the Psychology Society is to provide information relevant to these matters. Last year two highly successful careers seminars were held, in which speakers from various areas of psychological practice discussed, to the accompaniment of wine and cheese, requirements and opportunities in these areas.

The Society aims to rescue students from the impersonal, voiceless ranks of anonymity in a school which is so large that any meaningful degree of personal contact between students of different years and students and staff is difficult to achieve. It attempts to provide opportunities for such contact, to foster staff-student relations, acting in the interest of psychology students as a whole. Accordingly activities include such items as regular parties, staff-student luncheons, theatre parties, and an annual horse-riding weekend in the Blue Mountains. On the educational side there are weekly film showings and occasional talks and seminars (e.g. on careers, course requirements, etc.). An activities fee of 50 cents allows free entry to the films and substantial reductions in the costs of other activities.

The Society is situated in Hut 201, Western Campus (immediately behind the Parade Theatre). All students interested in joining the committee, or simply in becoming members, are urged to contact members at the Hut, or to phone Roger Lowe (349-3157) or Reg Davis (389-1753).
The Schools of the Faculty of Arts offer undergraduate courses to Honours level in the fields of Drama, Economic History, Economics, English, French, Geography, German, History, History and Philosophy of Science, Mathematics, Philosophy, Political Science, Psychology, Russian, Sociology, Spanish and Latin American Studies, and Statistics.

The undergraduate courses offered lead to the degree of Bachelor of Arts (BA) at either Pass or Honours level.

Students seeking information about the combined Arts/Law degree should consult the Faculty of Law Handbook or apply to the Faculty of Law office.

The graduate courses offered for qualified students lead to the degree of Master of Arts (MA) (pass or honours), or Doctor of Philosophy (PhD). In addition, the Faculty may recommend the award of the degree of Doctor of Letters (DLitt) for an original contribution of distinguished merit to Letters. Not all Schools are offering the MA degree at Pass and Honours level. Prospective postgraduate students should seek further information from the Head of the School concerned.

Details of the requirements and the conditions governing the award of these graduate degrees and diplomas are contained in Section C of the Calendar.

THE DEGREE OF BACHELOR OF ARTS

Courses qualifying for this degree are available in the University of New South Wales at Kensington for full-time day students only. The University College at Wollongong, however, offers a restricted range of qualifying courses which are available to both full-time and part-time students and reference should be made to the handbook of the College for further information about these courses.

For a student who wishes to study one or more of German, Spanish or Russian at university level, but who has not taken the particular language or languages to matriculation level, special first and second year university courses are available. These special courses are
designated IZ first year course and IIZ (second year course) and
the completion of Courses IZ and IIZ of the particular subject
together with such vacation reading and study as may be prescribed,
will qualify a student to proceed, if he so desires, to the normal
Course III of that subject.

PSYCHOLOGY SUBJECTS IN THE FACULTY OF ARTS

Prospective and current students in the Faculty of Arts are advised
of new provisions for progression in Psychology subjects in the
Bachelor of Arts degree course which came into effect in 1970.

The existing rules relating to Honours courses in Psychology are
unchanged, but new provisions govern admission to two different
Psychology II subjects and to a new Psychology III (Pass) subject.

Pass degree candidates taking Psychology II will have an opportunity
to follow an Advanced Psychology II (Pass) course if their perform-
ance in Psychology I has qualified them for admission to it. To qualify
to admission to the Advanced Psychology II course, students must
reach a clearly satisfactory level in Psychology I, as a whole, and also
in those parts of it which are relevant to advanced studies, especially
the statistics, methodology, and practical class work. Completion of the
advanced second year course is a prerequisite for admission to the
Psychology III Pass course.

Alternatively, students who do not qualify for the Advanced course,
and students who, notwithstanding their qualifying, do not wish to
enrol in the Advanced course but nevertheless wish to complete two
years of Psychology may enrol in the normal Psychology II (Pass)
course. All such students should note that this latter course does not
carry eligibility for subsequent admission to Psychology III, no matter
how well they do in it.

See Descriptions of Subjects section for information about each
second and third year Psychology subject and a table summarising
forms of progression from grades of passes in Psychology I subjects.

PROGRAMMES FOR THE DEGREE OF
BACHELOR OF ARTS

One of four different programmes may be followed by a student
studying for the degree. The first is the programme for the Pass
Degree which consists of nine qualifying courses studied in particular
sequences over a period of three years. The second is the programme
for the General Honours Degree which is designed to enable a Pass
Degree student with special merit to proceed to a fourth year of study.
The third is the programme in Special Studies, which is designed to
enable a student to undertake, over a period of four years, specialized study in one subject, although a certain number of courses of subsidiary subjects must also be taken. The fourth is the programme in Combined Special Studies which is designed to enable a student to undertake, over a period of four years, specialized study in two subjects together with courses of one or two subsidiary subjects. These four programmes are explained in detail in the following pages.

A student who is accepted for the Special Studies or Combined Special Studies programme will be regarded as a candidate for an Honours Degree.

The Rules governing the award of the degree are set out in the following pages and consist of:

Section A — Rules 1 to 11, which are applicable to all candidates for the degree and to the four programmes of study.

Section B — Rules 12 and 13, which apply specifically to the programme leading to the Pass degree.

Section C — Rules 14 to 19, which apply specifically to the programme leading to the General Honours degree.

Section D — Rules 20 to 26, which apply specifically to the Special Studies programme.

Section E — Rules 27 to 34, which apply specifically to the Combined Special Studies programme.

Section F — Rules 35 to 37, which relate to the recognition of courses completed outside the Faculty of Arts.

Section G — Rules 38 and 39, which are Saving Clauses.

Schedule A — which sets out the subjects available for study, the qualifying courses of each subject, and other information. See page A18.

Schedule B — which sets out approved sequences of courses in Mathematics and Theory of Statistics.

These Rules apply to candidates who enrolled for the first time in the Faculty after 1st January, 1967. Candidates who were enrolled in the Faculty prior to 1st January, 1967, are required to comply with the old Rules, copies of which may be obtained in Room LG5 in the Morven Brown Building.
RULES GOVERNING THE AWARD OF THE DEGREE OF BACHELOR OF ARTS

SECTION A

Rules Applicable to all Candidates and to all Programmes of Study

1. The degree of Bachelor of Arts may be conferred as a Pass Degree or as a General Honours Degree or as an Honours Degree in Special Studies or as an Honours Degree in Combined Special Studies. There shall be three classes of Honours, namely, Class I, Class II in two Divisions and Class III.

2. No person shall be permitted to enrol in any qualifying course for the Degree of Bachelor of Arts at the same time as he is enrolled for any other degree or diploma in this University or elsewhere.

3. A person on whom the Pass Degree of Bachelor of Arts has been conferred shall not be admitted to candidature for the Honours Degree of Bachelor of Arts.

4. Where, in the following Clauses, reference is made to the requirement that a candidate shall complete a course, the requirement shall be construed as meaning that the candidate shall

   (a) attend such lectures, seminars and tutorials as may be prescribed in that course;

   (b) perform satisfactorily in such exercises, laboratory work, essays and thesis (if any), as may be prescribed in that course and undertake any prescribed reading relating to that course; and

   (c) pass the examination or examinations in that course.

5. A candidate for the degree of Bachelor of Arts shall complete qualifying courses of subjects to the number, and in the sequences, prescribed in the following Clauses. Unless otherwise indicated, the subjects available for study, and the qualifying courses of each subject are as set out in Schedule A to these rules.

6. (a) A candidate shall pursue his studies as a full-time day student and, during his first year of study, shall enrol in at least three of the courses listed in Schedule A.

   (b) A candidate may not enrol in more than four courses in any one year.
(c) A candidate may not enrol in Course II of a subject until he has completed Course I of that subject.

(d) A candidate may not enrol in Course IIIZ of a subject until he has completed Course IZ of that subject.

(e) A candidate may not enrol in Course IIIA of a subject until he has completed Course II or Course IIIZ of that subject.

(f) A candidate may not enrol in Course IIIB of a subject until he has completed Course II or Course IIIZ of that subject and has the approval of the Head of the School concerned.

(g) A candidate may not enrol in Course IV of a subject until he has completed the appropriate Course IIIA or IIIB (or both) of that subject and has the approval of the Head of the School concerned.

7. (a) Prerequisite Courses

A candidate may not enrol in any course listed in the left-hand column below unless he has completed the corresponding course listed as a prerequisite in the right-hand column:

8. (a) Course I or Course IZ of a subject, when completed, shall count as one qualifying course towards the degree.

(b) Course I of a subject followed by Course II of that subject, or Course IZ of a subject followed by Course IIZ of that subject, shall be two consecutive courses of that subject. When both courses have been completed, they shall count as two qualifying courses towards the degree and shall be an approved sequence of two courses.

(c) Course I of a subject followed by Course II of that subject followed by Course IIIA or IIIB of that subject, or Course IZ of a subject followed by Course IIZ of that subject followed by Course IIIA or IIIB of that subject, shall be three consecutive courses of that subject. When the three courses have been completed, they shall count as three qualifying courses towards the degree and shall be an approved sequence of three courses.

(d) Course I of a subject followed by Course II of that subject followed by Courses IIIA and IIIB of that subject, or Course IZ of a subject followed by Course IIZ of that subject, followed by Courses IIIA and IIIB of that subject, shall be a special major sequence of four courses of that subject. When the four courses have been completed, they
shall count as four qualifying courses towards the degree and shall be an approved special major sequence of four courses.

9. The following courses shall be regarded as consecutive courses of a subject and, when completed, shall count as two or three, as the case may be, qualifying courses towards the degree and shall be regarded as an approved sequence of two or three, as the case may be, courses:

10. A course may not be counted more than once for the purpose of forming an approved sequence of courses.

11. A candidate who wishes to study Mathematics or Theory of Statistics beyond the Course I level shall follow one of the approved sequences set out in Schedule B or consult the School of Mathematics concerning alternatives.

SECTION B

Rules Relating to the Programme for the Degree of Bachelor of Arts—Pass Degree

12. A candidate shall complete over a period of not fewer than three years nor more than five years nine qualifying courses of subjects chosen from those listed in Schedule A.
13. The nine qualifying courses so chosen shall comply with the following conditions:—

They shall consist of:

(a) an approved sequence of three courses of one subject and an approved sequence of two courses of each of three other subjects;

OR

(b) an approved sequence of three courses of each of two subjects, an approved sequence of two courses of one other subject and Course I of one other subject.

OR

(c) an approved sequence of three courses of each of two subjects and Course I of each of three other subjects;

OR

(d) an approved special major sequence of four courses of one subject, an approved sequence of two courses of each of two other subjects and Course I of one other subject;

OR

(e) an approved special major sequence of four courses of one subject, an approved sequence of three courses of one other subject and an approved sequence of two courses of one other subject;

OR

(f) an approved special major sequence of four courses of one subject, an approved sequence of three courses of one other subject and Course I of each of two other subjects.

SECTION C

Rules Relating to the Programme for the Degree of Bachelor of Arts—General Honours Degree

14. A student seeking Honours shall complete eleven qualifying courses of subjects over a period of not fewer than four years nor more than five years. The eleven qualifying courses shall be chosen from Schedule A and shall be completed in accordance with Clauses 15 to 18.

15. (a) Nine of the eleven courses shall be completed in such a way as to fulfil the requirements for the Pass degree in accordance with Clauses 12 and 13. If the student has obtained a pass at Credit level or better in at least five of the nine courses by which he qualified for the Pass degree, he may apply to Faculty for formal recognition as a candidate for Honours.
(b) The remaining two of the eleven courses shall be completed in the Honours year and shall comprise Course IIIA or IIIB of each of two subjects of which only Courses I and II (or Courses IZ and IIZ) have so far been completed and each of these two courses shall be completed with a pass at Credit level or better.

16. A candidate in his Honours year may be required to take both the Pass and Honours syllabuses in the Course IIIA or IIIB of either or both of the two Honours year subjects. Alternatively, he may be required to take additional studies in either or both of the two Honours year subjects.

17. A student seeking recognition as a candidate for Honours, who has fulfilled the requirements for the Pass degree in accordance with Clause 13(a), (b), (c), (e) or (f) and who has obtained a pass at Credit level or better in at least five of the nine courses so completed, may, with Faculty approval, complete Course II (or Course IIZ) of one or two (as the case may be) subjects of which only Course I (or Course IZ) has so far been completed. He may then apply to Faculty for formal recognition as a candidate for Honours and shall then proceed in accordance with the provisions of Clauses 15(b) and 16.

18. The award of Honours and grade of Honours shall be based upon a consideration of the full record of a candidate and, where Honours in any grade are awarded, they shall be listed as General Honours and not as Honours in a particular School or Schools.

19. Where a candidate for Honours has failed to meet the necessary standards of competence in his Honours year, no further examination shall be granted but the student may proceed to graduation with a Pass Degree, the requirements for which shall already have been met.

SECTION D

Rules Relating to the Programme for the Degree of Bachelor of Arts in Special Studies—Honours Degree

20. The degree of Bachelor of Arts in Special Studies shall be awarded at Honours level only and a recognised candidate for Honours shall complete nine qualifying courses of subjects in four years of study. The nine qualifying courses, which shall include Course IV of the subject for Special Studies, shall be chosen from Schedule A and shall be completed in accordance with the provisions of Clauses 21 to 24. There shall be no re-examination in Course IV of the subject for Special Studies.
21. A student seeking recognition as a candidate for Honours shall choose one subject from Schedule A as his subject for Special Studies.

22. If a student obtains in his first year of study a pass at Credit level or better in Course I or Course IZ of the subject for Special Studies, he may apply to the appropriate Head of School for formal recognition as a candidate for Honours.

23. A candidate for Honours shall complete the nine prescribed qualifying courses in accordance with the following:—

(a) Course I (or Course IZ) of the subject for Special Studies shall be completed in the first year of study; Course II (or Course IIZ) shall be completed in the second year of study; Courses IIIA and IIIB shall be completed in the third year of study; and Course IV shall be completed in the fourth year of study. Candidates shall complete Courses II (or IIZ), IIIA and IIIB in both Pass and Honours syllabuses.

(b) In addition, a candidate, by the end of his second year of study, shall have completed four subsidiary courses which shall be required to include an approved sequence of two courses.

(c) Subject to these Rules, the Head of the School of the subject for Special Studies may prescribe the subjects of which the four subsidiary courses shall be completed as required by sub-Clause (b) of this Clause.

24. A candidate must obtain a pass at Credit level or better in the examinations of all courses of his Special Studies subject.

25. In special circumstances a candidate for the Honours degree who does not fulfil the requirements of Clauses 20 to 24 or who seeks to withdraw from the Special Studies programme may be considered by Faculty for the award of the Pass Degree of Bachelor of Arts provided that he has completed at least eight courses in the Special Studies programme (including Courses IIIA and IIIB of the subject for Special Studies) and has obtained a pass at Credit level or better in at least two of them beyond the first year level.

26. A candidate who at any stage fails to meet the necessary standards of competence and who does not fall within the provisions of Clause 25 may be required by Faculty to transfer to the programme for the Pass Degree and shall then comply with Clauses 12 and 13 to be eligible for the award of the Pass Degree. Alternatively, Faculty may prescribe an additional course or courses the completion of which shall render the student eligible for the award of the Pass Degree.
SECTION E

Rules Relating to the Programme for the Degree of Bachelor of Arts in Combined Special Studies—Honours Degree

27. The degree of Bachelor of Arts in Combined Special Studies shall be awarded at the Honours level only and a recognised candidate for Honours shall complete nine qualifying courses of subjects in four years of study. The nine qualifying courses shall comprise eight of those listed in Schedule A plus a special Course IV which shall be concerned with study at an Honours level of two appropriate subjects and all nine courses shall be completed in accordance with the provisions of Clauses 28 to 32. There shall be no re-examination in the special Course IV.

28. A student seeking recognition as a candidate for Honours shall choose as his subjects for Combined Special Studies two from Schedule A provided that the combination of subjects so chosen is approved by the Heads of the Schools concerned.

29. If a student obtains in his first year of study a pass at Credit level or better in Course I or Course IZ of each of the subjects for Combined Special Studies, he may apply to the appropriate Heads of Schools for formal recognition as a candidate for Honours.

30. A candidate for Honours shall complete the nine prescribed qualifying courses in accordance with the following:

(a) Course I (or Course IZ) of each of the subjects for Combined Special Studies shall be completed in the first year of study; Course II (or Course IIZ) of each of these subjects shall be completed in the second year of study; Course IIIA (or, in any special case, Course IIIB) of each of these subjects shall be completed in the third year of study; and a special Course IV relating to these two subjects and comprising studies jointly prescribed by the Heads of the Schools concerned shall be completed in the fourth year of study. Candidates shall complete Courses II (or IIZ) and IIIA (or IIIB) in both Pass and Honours syllabuses.

(b) In addition, a candidate, by the end of his second year of study, shall be required to have completed two subsidiary courses of subjects chosen from Schedule A.

(c) Subject to these Rules, the Heads of the Schools of the subjects for Combined Special Studies may prescribe the courses specified in sub-Clause (b) of this Clause.

31. Where a Course IIIB of one of the subjects for Combined Special Studies involves a Pass as well as an Honours component, that Course may, with the approval of the Head of the School
concerned, be substituted for a Course IIIA in satisfying the relevant requirement of sub-Clause (a) of Clause 30.

32. A candidate must obtain a pass at Credit level or better in the examinations of all courses of both his subjects of Combined Special Studies and in the Special Course IV.

33. In special circumstances a candidate for the Honours degree who does not fulfil the requirements of Clauses 27 to 32 or who seeks to withdraw from the Combined Special Studies programme may be considered by Faculty for the award of the Pass Degree of Bachelor of Arts provided that he has completed at least eight courses in the Combined Special Studies programme (including the Course III of each of the subjects for Combined Special Studies) and has obtained a pass at Credit level or better in at least two of them beyond the first year level.

34. A candidate who at any stage fails to meet the necessary standards of competence and who does not fall within the provisions of Clause 33 may be required by Faculty to transfer to the programme for the Pass Degree and shall then comply with Clauses 12 and 13 to be eligible for the award of the Pass Degree. Alternatively, Faculty may prescribe an additional course or courses the completion of which shall render the student eligible for the award of the Pass Degree.

SECTION F

Rules Relating to the Recognition of Courses Completed Outside the Faculty of Arts

35. Subject to the provisions of Clause 37,

(a) A graduate or undergraduate in another Faculty of this University may be granted advanced standing in a programme in the Faculty of Arts with credit for not more than four of the courses listed in Schedule A which have already been completed in the other Faculty. Where credit is granted, under these provisions, for courses forming a major sequence of three, the candidate shall be required to complete, inter alia, an approved sequence of three courses or an approved special major sequence of four courses in the Faculty before becoming eligible for the award of the degree.

(b) A candidate who, before enrolment in the Faculty, has completed a course or courses at another University may, at the discretion of Faculty, be granted credit towards the degree of Bachelor of Arts for not more than four such courses, provided that credit shall not be granted for Course III of a subject.
36. Subject to the provisions of Clause 37, a candidate in attendance at the University of New South Wales may, in special circumstances, be permitted by Faculty to complete concurrently at another University not more than three courses and to count such courses as partially fulfilling the requirements for the Degree, provided that permission shall not be granted to count courses which are taken externally at the other University or which are available in the University of New South Wales.

37. An applicant seeking to take advantage of any of the provisions of Clauses 35 or 36 shall first submit in writing to Faculty a statement setting out a list of the courses for which he seeks credit or which he wishes to complete at the other University, and a list of the remaining courses that he proposes to complete within the Faculty in order to qualify for the degree. Faculty shall then determine the course or courses, if any, for which credit is to be granted or the course or courses which the applicant may complete at the other University and count towards the degree, and shall also determine the remainder of the applicant's programme within the Faculty.

SECTION G

Saving Clauses

38. Upon sufficient cause being shown, Faculty may, in a particular case or cases*, vary the requirements of any of the preceding clauses for the award of the degree of Bachelor of Arts provided that any proposed variation to Clauses 22, 23, 24, 28, 29, 30 or 32, shall be initiated by a report to the Faculty from the Head or Heads of Schools concerned recommending the proposed variation.

39. For any student who was enrolled as a candidate in the Faculty before 1st January, 1967. Faculty may, in exceptional circumstances, determine a programme in accordance with these Rules to be followed after 1st January, 1967, in order that the student may satisfy the requirements for the degree.

* Note: Faculty has determined that, for the time being, students at Wollongong University College who are enrolled as part-time candidates for the degree need not meet the requirements of Clause 6 (a).
Most annual examinations take place in November-December, although some are held in the mid-year recess. Timetables showing time and place at which individual examinations will be held are posted on the central notice boards in the Bio-Medical Building, Central Lecture Theatre Block, Chancellery, Dalton Building, Main Building and Western Grounds Area. Misreading of the timetable is not an acceptable excuse for failure to attend an examination. Examination results are posted to the term address of students. No result will be given by telephone.

Examination results may be reviewed for a fee of $8 a subject, which is refundable in the event of an error being discovered. Applications for review must be submitted on the appropriate form, together with the necessary fee by the date indicated on the notification of results.

In the assessment of a student's progress in University courses, consideration is given to work in laboratory and class exercises and to any term or other tests given throughout the year, as well as to the annual examination results.

A student who through serious illness or other cause outside his control is unable to attend an examination is required to bring the circumstances (supported by a medical certificate or other evidence) to the notice of the Registrar not later than seven days after the date of the examination.

A student who believes that his performance at an examination has been affected by serious illness during the year or by other cause outside his control, and who desires these circumstances to be taken into consideration in determining his standing is required to bring the circumstances (supported by a medical certificate or other evidence) to the notice of the Registrar not later than seven days after the date of the examination.

All medical certificates should be as specific as possible concerning the severity and duration of the complaint and its effect on the student's ability to take the examinations.

A student who attempts an examination, yet claims that his performance is prejudiced by sickness on the day of the examination, must notify the Registrar or Examination Supervisor before, during, or immediately after the examination, and may be required to submit to medical examination.
A student suffering from a physical disability which puts him at a disadvantage in written examinations may apply to the Registrar for special provision when examinations are taken. The student may be required to support his request with medical evidence.

All students will receive an enrolment details form by 30th August. It is not necessary to return this form, unless any information recorded there is incorrect. Amended forms must be returned to the Examinations Branch by 15th September. Amendments notified after the closing date will not be accepted unless exceptional circumstances exist and approval is obtained from the Registrar. Where a late amendment is accepted, a late fee of $6.00 will be payable. Amended forms returned to the Registrar will be acknowledged in writing within fourteen days.

Examinations are conducted in accordance with the following rules and procedure:

(a) Candidates are required to obey any instruction given by an examination supervisor for the proper conduct of the examination.

(b) Candidates are required to be in their places in the examination room not less than ten minutes before the time for commencement.

(c) No bag, writing paper, blotting paper, manuscript or book, other than a specified aid, is to be brought into the examination room.

(d) No candidate shall be admitted to an examination after thirty minutes from the time of commencement of the examination.

(e) No candidate shall be permitted to leave the examination room before the expiry of thirty minutes from the time the examination commences.

(f) No candidate shall be re-admitted to the examination room after he has left it unless during the full period of his absence he has been under approved supervision.

(g) A candidate shall not by any improper means obtain, or endeavour to obtain, assistance in his work, give, or endeavour to give, assistance to any other candidate, or commit any breach of good order.

(h) Smoking is not permitted during the course of examination.

(i) A candidate who commits any infringement of the rules governing examinations is liable to disqualification at the particular examination, to immediate expulsion from the examination room, and to such further penalty as may be determined in accordance with the By-laws.
Deferred Examinations

Deferred examinations may be granted in the following cases:—

(i) When a student through illness or some other acceptable circumstance has been prevented from taking the annual examination or has been placed at a serious disadvantage during the annual examinations.

Applications for deferred examinations in the first category must be lodged with the Registrar with appropriate evidence of the circumstances (e.g., medical certificate) not later than seven days after the examination concerned.

All such applications shall be reported to the Head of the School responsible for the subject. Before a deferred examination is granted on medical grounds, regard shall be paid to the students’ class and assignment work in the subject, to his general performance in the year, and to the significance of the annual examination in compiling the composite mark.

(ii) To help resolve a doubt as to whether a student has reached the required standing in a subject.

(iii) To allow a student by further study to reach the required standard in a subject. The granting of a deferred examination in such cases will be based on the general quality of the student’s performance.

(iv) Where a student’s standing at the annual examinations is such that his progression or graduation could depend on his failure in one subject only, then his position in that subject shall be again reviewed with a view to determining whether a deferred examination may be granted notwithstanding his failure otherwise to qualify for such concession.

Deferred examinations must be taken at the centre in which the student is enrolled, unless he has been sent on compulsory industrial training to remote country centres or interstate. An application to take an examination away from the centre in which enrolled must be lodged with the Registrar immediately examination results are received. Normally, the student will be directed to the nearest University for the conduct of the deferred examination.

A student eligible to sit for a deferred examination must lodge with the Accountant an application accompanied by the fee of $6 per subject, by the date indicated on the notification of results.

Except on medical or compassionate grounds, no deferred examination may be granted in the Arts degree course in the subjects offered by the Schools of Drama, Economics, English, French, History, Philosophy, Russian and Sociology.

**FACULTY OF ARTS TIMETABLE 1972**

This timetable is subject to alteration. Students must consult the notice-boards early in 1972 for changes, and for room locations. If a subject is not listed, students should consult the school.
