PREFACE

This Handbook is primarily for undergraduate students in the Faculty of Arts and aims to provide in convenient form information concerning

(i) the subject matter of the different courses offered, including text and reference books,

(ii) the requirements for admission,

(iii) enrolment and re-enrolment,

(iv) the requirements for the degree of Bachelor of Arts and the various programmes available for fulfilling them.

An endeavour has been made to provide answers to those problems which students are most likely to encounter. It is important that each student in the Faculty becomes well acquainted with the information presented here. If problems remain unanswered, enquiries may be referred to the Faculty office, Room G1, which is situated on the ground floor of the Morven Brown Building (Arts), near the top of Basser Steps.

It is possible that changes may be made affecting the information presented in this Handbook, especially concerning subjects offered and prescribed reading. Students are strongly advised to consult frequently the notice-boards of the different Schools as well as the official notice-boards of the University, to keep abreast of any changes as well as to keep informed of pertinent announcements from time to time.

COURSES AVAILABLE FOR DEGREE OF BACHELOR OF ARTS

SCHEDULE A

The following is a list of the subjects that may be studied in the Faculty of Arts, at Kensington. The subjects show the courses of each subject together with the distinguishing number of each course.

The Honours syllabus of a course incorporates the Pass syllabus of that course plus additional work; thus the hours shown for an Honours syllabus include the hours shown for the pass course syllabus.* For example, the Honours course 57.222 Drama II is made up of 4 hours per week in 57.212 Drama II plus 2 hours per week additional work to make up the total of 6 hours indicated in the table below.

Further information on the content of each of the courses may be found in the following “Description of Subjects” and in Section D of the Calendar—Description of Subjects.

SCHEDULE B

Programmes approved by the Faculty which make Mathematics or the Theory of Statistics a major area of study are set out in this Schedule. Other programmes may also be approved—those shown should be taken as typical rather than exhaustive. Subjects indicated by the letters A, B, C, D and Z must be chosen so that any particular requirements relating to them are satisfied.

DESCRIPTIO NS OF SUBJECTS

CHEMISTRY

2.001 Chemistry I

Classification of matter and theories of the structure of matter. Atomic structure, the periodic table and chemical behaviour. Chemical bonds and molecular structure. Equilibrium and change in chemical systems. The structure, nomenclature and properties of organic compounds. Reactions of organic compounds.

TEXTBOOKS

REFERENCE BOOKS

2.002 Chemistry II

Divided into three units, 2.002A, 2.002B, 2.002C.
2.002A Chemistry II (Physical Chemistry)
Quantum mechanics; molecular energy and thermodynamics; chemical application of thermodynamics; surface and colloid chemistry.

TEXTBOOKS

REFERENCE BOOKS

2.002B Chemistry II (Organic Chemistry)
Chemistry of the more important functional groups: aliphatic hydrocarbons, monocyclic aromatic hydrocarbons, halides, alcohols, phenols, aldehydes, ketones, ethers, carboxylic acids and their derivatives, nitro compounds, amines, and sulphonic acids.

TEXTBOOKS
(Only if proceeding to do 2.003B Chemistry III (Organic Chemistry)):

2.002C Chemistry II (Inorganic/Analytical Chemistry)
Chemistry of non-metals; chemistry of typical metals; transition metals, lanthanides and actinides; introduction to nuclear chemistry. Quantitative inorganic analysis.

TEXTBOOKS

REFERENCE BOOKS
DRAMA

Drama courses offered within the Faculty of Arts are not primarily intended to equip a student for the profession of theatre. The National Institute of Dramatic Art, established in the University, is concerned with vocational training and with the practice of the theatre arts. The School of Drama is concerned with liberal education and with the evaluation of those arts. The National Institute of Dramatic Art and the Old Tote Theatre Company, however, provide practical and professional theatre on the campus and the School of Drama benefits greatly from their activities.

57.211 Drama I

This double unit course serves both as an introduction to the other drama courses and as a survey of world drama complete in itself. Lectures cover the span of theatre from the Greeks to the present, and are concerned with drama as a theatrical form and as an expression of society. Additional lectures are included on stage and theatre design, music in the theatre, Japanese drama, and television. Tutorials concentrate on the theatrical aspects of the plays studied.

No set text.

In addition, students must write a thesis, on which they are expected to do a substantial amount of work before the commencement of the academic year. They must have a topic approved by the Head of the School of Economics before the end of the August Recess in the year preceding their entry into Economics IV.
ENGLISH

English is not a compulsory subject within the Faculty of Arts: the courses are therefore planned for students who have both a genuine interest in the subject and some special ability in it. (The Language work in English I may present some difficulty to a student who has not studied a foreign language at school.) The only prerequisite, however, is a pass at level two or level one in the Higher School Certificate Examination, or an equivalent acceptable to the University.

Students who wish to take a Special (Honours) degree in English are strongly advised to include in their programme courses in a foreign language.

It will be assumed that all students before beginning the course have read a standard history of English literature and are familiar with the main outlines of English history; and the right is reserved to examine on these. The Literature textbooks should also be read if possible before lectures begin.

English I

Students take either English IA, 50.111, or English IB, 50.141. The B course may be the more suitable for students whose reading at school has been mainly in modern literature.

50.111 English IA

A course of 84 lectures with compulsory tutorials.

(i) Language and earlier literature (28 lectures):
   (a) the structure of Modern English;
   (b) the history of the English language;
   (c) selected works by Chaucer.

(ii) An introduction to twentieth-century literature in English (56 lectures):
   (a) drama;
   (b) the novel;
   (c) poetry.

TEXTBOOKS

(i) LANGUAGE AND EARLIER LITERATURE

      MacLeish. J.B. Sentry edition, Houghton.
      Bond. *Saved*. Methuen.
      Stoppard. *Jumpers*. Faber.
(b) **The Novel**
Conrad. *Heart of Darkness*.
Furphy. *Such is Life*.
Joyce. *A Portrait of the Artist as a Young Man*.
Lawrence, D. H. *The Rainbow*.
Faulkner. *The Sound and the Fury*.
Ellison. *Invisible Man*.
(Each of these in any unabbreviated edition.)

(c) **Poetry**
Doubleday Anchor.
Auden. *Selected Poems*. Faber.

A course of approximately 150 hours of lectures and seminars on (i) Old English, (ii) Middle English, (iii) Linguistics.
(i) *OLD ENGLISH*
Textual and critical study of Old English literature, particularly poetry. Students will be expected to read extensively in the relevant critical literature and to be acquainted with significant studies of Anglo-Saxon social and cultural life.

(ii) *MIDDLE ENGLISH*
A further study of Middle English literature from the twelfth to the fifteenth century with special emphasis on the development of lyrical poetry and the romances as well as on the major writers of the fourteenth century.

(iii) *LINGUISTICS*
There will be three main concerns in this course (a) phonological, grammatical and semantic theory as developed by Ferdinand de Saussure, the Prague School, the glossematicists, the American structuralists, and Chomsky and the transformationalists; (b) current linguistic controversy concerning, for example, generative semantics and stratificational grammar; (c) acoustic phonetics and elementary field-work.
FRENCH

Courses offered by the School are made up of studies in three areas:

1. The French language;
2. French literature and thought;
3. French civilization and society.

Some study of each is compulsory in all courses, so as to give students a balanced picture of the French contribution, both past and present, to world culture. The three areas are correlated as closely as possible in each year through the simultaneous study of the language, literature, intellectual and socio-political history of a given period. Classes are mainly of the tutorial type.

In the teaching of the language, an attempt is again made to integrate the various linguistic skills of understanding, speaking, reading and writing through correlated programmes involving oral practice in the language laboratory and later in discussion groups as well as written exercises. More advanced courses are also offered in theoretical aspects of language study.

In the sections of the syllabus devoted to literature, training is given from first year onwards in the techniques of literary analysis and criticism through the close study of individual texts, and is extended in the Honours courses into an investigation of more general methodological questions.

Students' attention is drawn throughout the course to the wealth of ideas to be found in French literature, and they are asked to express their opinions on the value of these ideas and their relevance to present-day problems. The French preoccupation with psychological analysis, moral and philosophical problems, and the exploration of human relationships, both personal and social, receives special attention. At the same time, important literary works are studied in depth, with a view to investigating purely aesthetic problems and the working of the creative imagination.

Advice to New Students

Entrance requirements: at least a Second Level pass in French in the New South Wales Higher School Certificate, or an equivalent pass in another Australian or foreign examination. This equivalence must be determined by the School before a student can be admitted.

Coding of Courses

To clarify the pattern of the courses, the following code has been used:

A refers to Session 1, and B to Session 2; 1 refers to the sections of a course devoted to language, 2 to those concerned with literature and thought, 3 to those concerned with civilization and society, and 4 to the electives.

56.111 French I

All work in this course is concerned with the modern period.

SESSION 1

A1. Language

An intensive series of integrated tutorials and language laboratory sessions, designed primarily to develop and consolidate fundamental skills in understanding, speaking and writing everyday modern French and made up of: (i) aural comprehension and phonetics (language laboratory); (ii) oral and written language practice, using tapes and visual aids.

TEXTBOOKS

Capelle, J. & G. La France en direct (Book 3). Hachette.

56.121 French IT

This course is designed for students from the Faculty of Arts or from other Faculties who wish to study French for one year only. Its aim is to develop students' ability to comprehend spoken French and to read French texts for professional or general educational purposes, while at the same time providing an introduction to modern French literature and civilization. Students may not proceed from French IT to French II except with the special permission of the Head of School and after completing a summer recess programme of study based on the work of French I, A1(ii), to be tested at the end of the recess.

The content is the same as that of 56.111 French I in the Literature and Thought and Civilization and Society sections. In the Language section, the same work is done in A1(i) and B1(i): aural comprehension and phonetics in the language laboratory and in B1(iii): stylistic analysis of selected passages from plays, novels and poems studied during the year. All written language work, however, (A1(ii) and B1(ii)), is replaced by more intensive reading practice, as follows:

SESSION 1
A1 (ii): Reading and linguistic analysis of contemporary French texts.

TEXTBOOKS
Nachtmann, F. W. French Review for Reading Improvement. Macmillan.

SESSION 2
B1 (ii): Reading and selected material from the contemporary French press. In addition, students will be required to read and discuss an approved book or collection of articles in French dealing with their individual fields of interest (e.g. medicine, law, the social sciences, history or literary criticism).

56.112 French II

SESSION 1
A1. Language

More advanced language study, consisting of 2 hours of integrated grammatical, oral-aural and written work.

TEXTBOOK

REFERENCE BOOKS
Strongly recommended for purchase.

GENERAL BIOLOGY AND BIOLOGICAL SCIENCES

Biology I
Consists of 17.011 Human Biology and 17.021 Comparative Functional Biology.

17.011 Human Biology
Mankind evolving: primate evolution; background of early man.
Evolution of technological man: biological problems associated with communication and tool-making; development of man as a hunting predator.
Development of utilization of natural resources: development of man as a pastoralist and farmer; animal and plant domestication.
Evolution of urban man, culture, society: reproductive biology and genetics of man; population growth, fluctuation, control; natural history of disease, background of medical and industrial microbiology.
Effects of modern society: biology of social stress; effect of society in contemporary environments, planning and control.

TEXTBOOKS

REFERENCE BOOKS

17.021 Comparative Functional Biology
Maintenance of the organism: gas exchange systems in plants and animals; transport inside organisms; uptake, digestion, absorption; enzyme structure and function. Photosynthesis: process and structural relationships; metabolic systems, energy yields and pathways.
Developing organisms: sexual reproduction in plants and animals, general life cycle patterns; cell development and differentiation in flowering plants and mammals.
Control and co-ordination in organisms: organisms and water, uptake and effects; control mechanisms, urinary systems and kidney structure and function. Stimuli and responses: plant hormones, hormones in vertebrate animals, muscle activity and muscle structure, eye structure and vision.
mechanism; ear structure and hearing mechanism; nerves, central nervous system, nerve action, brain structure and functioning.

TEXTBOOKS

REFERENCE BOOKS

Requirements for Practical Work
A list of equipment required for practical work is posted on the notice board in the ground floor of the Biological Sciences Building. Students must purchase this material *before* the first practical class.

Biology II
Any two units of Botany or Zoology for which the student has the required prerequisite(s). Units from which students can choose are: 43.101A Genetics and Biometry, 43.101B Plant Evolution and Ecology, 43.101C Plant Physiology, 43.102D Mycology, 43.102E Environmental Botany, 43.102F Plant Pathology, 45.101B Invertebrate Zoology, 45.101C Vertebrate Zoology, 45.102A Marine Ecology, 45.102F Invertebrate Behaviour.

Descriptions of these units, together with their text and reference books, are published in the Faculty of Biological Sciences handbook.

43.101A and 45.101A Genetics and Biometry
Analysis of the mitotic cycle; replication of DNA and its organization in the chromosomes, linkage, non-meiotic recombination; mutation, structural changes, polyploidy, aneuploidy; population genetics; cytoplasmic inheritance; episomes; gene structure and function. An introduction to statistical methods and their application to biological data, including an introduction to analysis of variance and experimental design.

TEXTBOOKS

43.101B Plant Evolution and Ecology
A study of the evolution of vegetative form and structure of vascular plants; an examination of their organization into terrestrial communities; identification, evolution and distribution of elements of the Australian flora. Students are required to attend field excursions all of which form an integral part of the course.

TEXTBOOKS
43.101C Plant Physiology
A general introduction to the physiology of the whole plant including a consideration of photosynthesis, inorganic nutrition, transport, translocation, physiology of growth and development, and plant growth substances and their application in agriculture.

TEXTBOOKS

43.102D Mycology

TEXTBOOKS

43.102E Environmental Botany
An introduction to the soil and atmospheric environment in which terrestrial plants exist and a study of the behaviour and response of the flowering plant to its environment, both in nature and agriculture. Students are required to attend field excursions all of which form an integral part of the course.

43.102F Plant Pathology
History of plant pathology; pathogenic organisms; symptoms of disease. Specific diseases caused by fungi, nematodes, bacteria and viruses. Host-pathogen relationships including stages of infection, evolution of host-pathogen relationships, adaptation for successful parasitism, resistance and mechanisms and genetics of resistance. Control of diseases by the use of fungicides, nematicides, crop rotation and breeding for resistance.

TEXTBOOKS

45.101B Invertebrate Zoology
A comparative study of the major invertebrate phyla with emphasis on morphology, systematics and phylogeny. Practical work to illustrate the lecture course. Obligatory field camp.

TEXTBOOK
REFERENCE BOOKS

45.101C Vertebrate Zoology
A comparative study of the Chordata. Morphology, systematics, evolution, natural history, with reference to selected aspects of physiology and reproduction. Practical work to supplement the lecture course. Field excursions as arranged.

TEXTBOOKS

REFERENCE BOOKS

45.102A Marine Ecology
A study of the metabolic, regulatory and reproductive activities of marine organisms with particular reference to the physical, chemical and biological environment in which they occur. Both field and laboratory practical work are included.

TEXTBOOK

REFERENCE BOOKS
**45.102F Invertebrate Behaviour**

Phylogenetic examination of behaviour in relation to the increasing complexity of invertebrates, with emphasis on orientation and movement; feeding, defensive, reproductive, social and rhythmic behaviour. Involves both exogenous and endogenous contributions to invertebrate behaviour.

GEOGRAPHY

Geography is the study of variations from place to place on the earth's surface arising from the spatial relationships of the phenomena which make up man's world. Geography courses in Arts will emphasize human geography—the study of where and how man lives and of his activities in relation to his environment.

27.041 Geography IA

Part I. Economic Geography: The geographic problems of scale and distance. The relevance of theory and quantitative methods. Economic landscape systems. Patterns and structures of systems of agriculture, manufacturing and tertiary production. Geographic significance of population growth components in modernising and advanced countries; natural increase, fertility and mortality patterns and internal and international migration. Includes an urban field tutorial of one day. Laboratory classes will consist of the application of statistical methods to areal and point data.

Taaffe, E. J. Geography. Prentice-Hall. Paperback.

Part II. An Introduction to Physical Geography: Controls of landform development, cyclic and equilibrium approaches to landform study; processes and factors of soil formation; the mature soil profile; vegetation structure; factors affecting vegetation distribution; plant and soil succession and the ecosystem; particular reference to the Sydney area. The radiation budget and atmospheric circulation; climatic distribution.
Laboratory classes include: Weather recording and analysis of climatic data; use of maps and air photos; soil profile description. Two field tutorials.

27.042 Geography IIA

SESSION 1

Part I. *Physical Geography*: Emphasizing inter-dependence of climate, hydrology, landform, soils and vegetation in major zones. Studies of selected zones with particular reference to the Australasian region. Laboratory classes will involve climatic analysis and mapping and analysis of natural landscapes including airphoto interpretation. A compulsory two-day field tutorial.

27.073 Geography IIIB (Honours)
As for 27.063 Geography IIIB, plus a series of seminars averaging one hour per week, which will include additional and more advanced work in Parts I and II.

27.054 Geography IV (Honours) (Arts)
(a) Honours students in their final year are required to prepare a thesis of not more than 20,000 words, which must be submitted before the Final Examinations in November.

The Thesis topic must be approved by the Head of the School during the second half of the year preceding their entry into Geography IV.

(b) Students are required to attend lectures and seminars in Session 1 in either Advanced Economic Geography or Advanced Physical Geography.

Advanced Economic Geography covers analytical approaches to the study of the space economy with emphasis on spatial problems of economic growth and development. Problems raised are viewed from a planning perspective.

Topics in Advanced Physical Geography include the monitoring of process and the application of model and analytical studies to hillslope, shoreline, fluvial and dune environments. Glacial and periglacial geomorphology. Absolute dating of landforms and soils and determination of rates of denudation and pedogenesis. Soil erosion and its control. The history of geomorphology and pedology and related current problems. Soil stratigraphy, mineralogy, micro-morphology and fabric analysis. Laboratory classes include the study of correlative sediments and depositional environments, soil mineralogy and soil physical properties.

(c) Students attend work-in-progress seminars conducted jointly with postgraduate students in related fields.

(d) Students attend a series of seminars on the development of geographic thought and ideas.

GEOSCIENCE

25.111 Geoscience I

Physical Geology

Crystallography and Mineralogy

Introduction to crystal symmetry, systems, forms, habit twinning. Occurrence, form and physical properties of minerals. Descriptive mineralogy; mineral classification. Principal rock forming minerals. Basic structures of silicate minerals.

Petrology

Igneous, sedimentary and metamorphic rocks—their field occurrence, lithological characteristics and structural relationships. Introduction to coal, oil and ore deposits.

Stratigraphy and Palaeontology

The basic principles of stratigraphy; introductory palaeontology. The geological time scale. An outline of the geological history of the Australian continent with more specific reference to New South Wales.

Practical Work

The preparation and interpretation of geological maps and sections. Map reading and use of simple geological instruments. The study of simple crystal forms and symmetry. Applied stereoscopic projection. Identification and description of common minerals and rocks in hand specimen. The recognition and description of examples of important fossil groups.

The course is supplemented by three field tutorials, attendance at which is compulsory.

REFERENCE BOOKS

Petrology (Igneous, Metamorphic and Sedimentary)

Igneous Petrology

Metamorphic Petrology
Principles, concepts and theories relating to the occurrence, origin and classification of metamorphic rocks. ACF and AKF diagrams. Metamorphic facies. Practical: megascopic and microscopic examination of selected metamorphic rocks. Field Work: at least one field trip to illustrate the above course.

Sedimentary Petrology
The influence of transportation, deposition and diagenesis on the composition, texture and structure of the sedimentary rocks. The classification of detrital sediments. The non-elastic sediments.

TEXTBOOKS

REFERENCE BOOKS
The School of German offers two distinct first year courses, German I (for students who have already studied the language to Second Level, Higher School Certificate examination), and German IZ (for students with no previous knowledge of German). The normal progression for a German IZ student is IZ, IIZ, IIIA; such students may also take an extra unit in third year (IIIB) or even proceed to an honours degree in the normal four years.

In German I and IIZ the course contains equal proportions of language and literature work; in German II, IIA, IIIB and IV, however, the School offers a wide variety of options which give the student the opportunity to specialize in either field, if he so wishes.

64.001 German IZ

This course is intended to provide students who have no previous knowledge of the language with a sound basis of spoken and written German and to introduce them to German literature and culture. Students wishing to proceed to 64.002 German IIZ must successfully complete a study programme during the long vacation prior to enrolment.

TEXTBOOKS
Russon, L. J. Complete German Course for First Examinations. Longman.

64.111 German I

For students who have gained at least a Second Level pass in German at the Higher School Certificate Examination or its equivalent.

The course consists of three hours per week language work and three hours per week literature (a survey of German literature and detailed study of a number of prose texts, mainly from the twentieth century).

TEXTBOOKS

REFERENCE BOOKS

The following books will be useful to students at all stages of the course and it is strongly recommended that they should purchase them for their own use:

*Cassell's German/English, English/German Dictionary.*
*Duden. Stilwörterbuch.* Bibliographisches Institut.
*Farrell, R. B. A Dictionary of German Synonyms.* C.U.P.
*Pasley, J. M. S. Germany. A Companion to German Studies.* Methuen.
*Pfeffer, J. A. Basic (Spoken) German Dictionary for Everyday Usage.* Prentice-Hall.
*Russon, L. J. Complete German Course for First Examinations.* Longman.

**64.002 German IIIZ**

For students who have passed 64.001 German IZ and who have completed the vacation study programme. Literary work will be as for 64.111 German I; language work is similar to that for German I, but an additional voluntary tutorial is held throughout the year. Students wishing to proceed to 64.113 German IIIA must complete a vacation study programme.

64.122 German II (Honours)
Students wishing to specialize in language must select a further option in linguistics or Medieval German from those offered under German II: students wishing to specialize in literature must attend an additional honours hour in each of their literature seminars.

64.113 German IIIA
A core language course of two hours per week plus four additional hours to be chosen from the list of options in language, literature and culture offered under German II.

TEXT AND REFERENCE BOOKS
See list of options under German II.

64.123 German IIIA (Honours)
Students wishing to specialize in language must select a further option in linguistics or Medieval German from those offered under German IIIA; students wishing to specialize in literature must attend an additional honours hour in each of their literature seminars.

64.133 German IIIB
A Literature Course, available only to students who are also taking, or have already passed, 64.113 German IIIA. They must choose four additional literature seminar topics and an additional language option.

TEXT AND REFERENCE BOOKS
See list of options under German II.
64.143 German IIIB (Honours)
Additional work on the four seminars selected for the Pass Course (64.133).

64.114 German IV (Honours)
Language
Four 28-hour courses on Linguistics and Medieval German, plus a short thesis and two hours per week practical language work.

Literature
Three 21-hour courses on specific literary topics, plus a staff-student seminar on critical method, a short thesis and two hours per week practical language work.

Combinations of language and literature units may be permitted in individual cases.
HISTORY

A pass student may take no more than four courses in the School of History, and may not take more than one first year course. A student may therefore take two second year and one third year course, or one second year and two third year courses. Permission to take more than three courses must be given by the Head of the School.

A second year honours student must take either of the two honours courses, but not both, and his honours course must be related to his second year pass course.

A third year honours student must take two of the three third year honours courses, in addition to the two pass courses.

A fourth year honours student must take History IVA and either History IVB or History IVC.

51.111 History IA—Tradition and Society in Asia

An introduction to the structure and values of selected pre-modern Asian societies together with certain historiographical theories concerning the nature of traditional societies. 51.122 History II (Honours)—Indian History

Alternative to 51.142 History II (Honours)—Australian History, and required in addition to either 51.112 History IIA or 51.132 History IIB.

A series of seminars which examine the roots of social and political conflict in South Asia over the period 1935-1972, and the manner in which this conflict was reflected in politics in the region.

51.142 History II (Honours)—Australian History

Alternative to 51.122 History II (Honours)—Indian History, and required in addition to either 51.112 History IIA or 51.132 History IIB.

A series of additional special seminars for Honours students running concurrently with the pass course, where the emphasis will be on the sources used by Australian historians and on problems of historiography. Students must submit a major essay (the subject of which is chosen in consultation with the lecturer in charge of the course) and sit for an additional examination.

51.113 History IIIA—Southeast Asian History

SESSION 1: Southeast Asian Societies, and the European Impact

The major features of the societies of Southeast Asia up to the early 19th century. Their historical development, religions, and political and economic structures, and the changes occurring with the advent of the Europeans.

SESSION 2: Southeast Asian Societies, and European Colonial Rule

The social changes, and the development and nature of nationalist movements in Southeast Asian societies under British, Dutch and French colonial rule in the 19th and 20th centuries. Includes Burma, Indonesia, Malaya and Vietnam.

NOTE: Students are required to take two of the following honours courses, in addition to 51.113 History IIIA and 51.133 History IIIB.

**51.143 History III B (Honours)—The American Revolution and the Federal Constitution: 1764-1788**

A special study of the American Revolution and its aftermath.

**51.163 History III D (Honours)—Contemporary International History**

A study of the principal trends in world history since 1945, with emphasis on nationalism in the light of decolonization, European integration, the communist inter-state system and the United Nations.

**51.173 History III E (Honours)—Peking-Moscow Relations in the 20th Century**

An examination of Sino-Russian/Soviet relations to determine origins of conflict—geographical, political and ideological—and the effect of this conflict on world power realignments.

**51.114 History IV (Honours)**

(a) Honours students in their final year are required to prepare a thesis of not more than 20,000 words, which must be submitted before the Final Examinations in November.

(b) Students are required to take Historiography (History IVA) and either Anglo-Irish Relations (History IVB) or Revolution in Twentieth Century Peasant Societies (History IVC).

*History IVA Historiography: A series of seminars on Historiographic Themes*

Students should consult list posted on the School notice board.

*History IVB Anglo-Irish Relations since 1916*

*History IVC Revolution in Twentieth Century Peasant Societies: Russia, China and India*
The division in educational curricula between science and the humanities obscures the fact that throughout history the natural sciences have been an integral component of general intellectual and cultural development. Until the nineteenth century, for example, the term “philosophy” included science. It is no accident that science has flourished in times and places of dynamic cultural life—classical Greece, Renaissance Italy, eighteenth-century France, nineteenth-century Germany. One of the aims of H.P.S. courses in the Faculty of Arts is to acquaint students generally with this relationship between science and cultural development.

Two alternative first-year double units are offered, each in a different way serving as a general introduction to the subject. Both are wide-ranging courses, paying special attention to various aspects of the seventeenth century, “the century of genius”, which laid the foundations of modern science and philosophy and at the same time profoundly changed the world-view of European civilization. The second-year course treats the Darwinian Revolution and the growth of historical consciousness in the nineteenth century, while the third-year course deals with the social history of science.

Besides the pass courses the School offers a sequence leading to the Special Honours degree in the subject and participates in the provision of courses leading to Combined Honours degrees. Because of its many-sided character, H.P.S. can be combined with most subjects in the Faculty of Arts in programmes for the Combined Honours degree.

Students contemplating the Special Honours degree in the subject are advised that, unless the Head of the School determines otherwise by virtue of special circumstances, they will be required to include a course in one of the sciences among their subsidiary courses, and that their honours work in third year will, as a rule, include further work in the same science.

Employment opportunities for graduates in H.P.S. are to be found in teaching, science reporting, curatorial work in museums, and in positions in industry and the public service concerned with science policy and the administration of science.

62.111 History and Philosophy of Science IA
SESSIONS 1 and 2
The History of Western Cosmology

A study of the formative influences that have shaped the mid-twentieth century revolution in our knowledge and understanding of the universe at large.

A general survey of contemporary theories of the structure and history of the observable universe, and an evaluation of the challenging problems confronting cosmology, problems which have their parallels in the mythology of the Babylonians, the astronomy of the Greeks, and the beginnings of modern cosmology following upon the Copernican revolution.

Historical case studies are used to provide an introduction to some issues in the philosophy of science such as the nature of scientific theories and explanations, the dynamics and rationality of scientific development and change.
SESSION 1
Modern Cosmology

General consideration of the problem of cosmology and cosmogony. The conceptual and factual background to the present situation including the work, whether speculative, theoretical or observational, of investigators such as Wright, Kant and Herschel on the structure of the Milky Way, which followed from the work of Newton on motion and gravitation and the development of the mechanistic philosophy of nature. The assimilation of Copernican astronomy. The "new astronomy" of Kepler, the "new physics" of Galileo and the confrontation of theology and cosmology.

SESSION 2
Ancient Cosmology

Prerequisite: Modern Cosmology.

The heavens in early cosmologies. The astrology and mythology of the Babylonians and the achievements of the pre-Socratic philosophers in their attempt to understand nature. The dawn of mathematical and physical science, the Pythagorean school. Plato and the "problem of the planets". The metaphysics and cosmology of Aristotle. Ptolemaic astronomy. Oriental and medieval cosmology and the synthesis of Aristotelian cosmology with Christian doctrine. The Copernican revolution and its influence on the development of Western thought.

SESSION 1 and 2
The Seventeenth Century Intellectual Revolution

The intellectual revolution, centred upon science, which took place in the seventeenth and early eighteenth centuries and led on to the Enlightenment. The major achievements of science in this period, such as Harvey's physiology, Galileo's and Newton's dynamics, the development of theories of light and of concepts such as air pressure and the vacuum. The intellectual background to these achievements and the consequent changes in Western thought.

SESSION 1
The Foundations of the 'New Philosophy'

The Medieval and Renaissance Background. Bacon and Baconianism: Empiricism; Experimentation and the Virtuosi; the Idea of Progress. The Mechanization of the World Picture: Descartes and Cartesianism; Rationalism; the Revival of Atomism: Materialism.

SESSION 2
The Impact of the Copernican and Scientific Revolutions

Prerequisite: The Foundations of the 'New Philosophy'.

Newton and Newtonianism: the 'New Philosophy': the Implications of the New Dynamics and Astronomy; the Mathematization of Science. Science and Religion: the Decline of Superstition and the Growth of Scepticism: the Physico-Theologists; Deism and the Argument from Design. General Topics: Philosophy and Methodology of Science; the Problem of Certainty; Literature, Language and Science: the Battle of the Ancients and Moderns; the Advent of the Age of Reason.

62.112 History and Philosophy of Science II

SESSION I

The Discovery of Time

The course traces the evolution of ideas concerning the age and history of the earth, treating the period from the seventeenth century to the present. In addition, consideration is given to such questions as: changing attitudes towards the authority of the scriptures, the Romantic movement and the concept of Nature, social theories, and the growth of historical consciousness in the eighteenth and nineteenth centuries, thereby providing an appreciation of the intellectual setting within which the development of geological theory occurred.

The Darwinian Revolution

A study of the scientific and philosophical antecedents and consequences of Darwin's theory of evolution. The prevailing ideas in biology before Darwin are studied in the context of the general climate of ideas to show why the revolution that the theory effected in biology resulted in changes in such diverse fields of thought as religion, literature, political theory, ethics and the social and behavioural sciences.

62.113 History and Philosophy of Science IIIA

*The Social History of Science*

An account of the growth of the scientific movement, from the early 17th to the 20th century, in relation to: (a) its social and cultural
environment and the effects of social structures and social changes upon it; (b) its internal organization; (c) its effects, intellectual and (via technology) material, upon society. The course deals with such topics as: the different national contexts of the scientific movement; its social composition at various times; its relations with the state in different countries at different times, with the universities and other teaching institutions, and with the professions of medicine and engineering; the communications system in science; the nature and functions of scientific societies and academies; the effects of science on technology and of technology on science; the institutionalization and professionalization of science. The intellectual influence of science on society, already treated in H.P.S. I and II in connection with the Copernican and Darwinian Revolutions, is further discussed in other connections. In the early part of the course there is a discussion of the influence of the ideas of Bacon and Descartes in the formation of the scientific tradition.

62.123 History and Philosophy of Science IIIA (Honours)
62.133 History and Philosophy of Science IIIB (Honours)

The components of these two courses are to be selected, as described below, from the following options (each of two hours per week):

1. A general course in the Philosophy of Science. The course includes some treatment of elementary mathematical logic. Special stress is laid on the formal structure of theories; the status of scientific laws; the function of models; the relationships between theory and observation; the nature and logic of scientific explanation; the metaphysical foundations of theories and methodological principles. Reference is made throughout the course to suitable examples taken from the history of science, with a special emphasis on seventeenth century science.

2. Bibliography and research methods. An introduction to the literature and bibliography of (a) science before 1900 and (b) history of science. Besides lectures and seminars the course includes a number of exercises designed to develop a knowledge of these two bodies of literature together with practical experience in the use of bibliographies, reference books, and research methods.

3. The history of the philosophy and methodology of science from the seventeenth century to the early twentieth century.

4. Selected topics in the history of the physical sciences from the seventeenth century to the mid-nineteenth century.

5. Selected topics in the history of experimental biology from the seventeenth century to the mid-nineteenth century.

Candidates for a degree in Special Studies must take, for the IIIA (Honours) course, the pass course (62.113) and Option 1. For the IIIB (Honours) course they must take Option 2 and, with the concurrence of the Head of the School, either two other options, or one other option and further work in the science subject already taken.

Candidates for a degree in Combined Special Studies must take, for the IIIA (Honours) course, either the pass course (62.113) and one of the options, or three of the options.

Text and reference books will be notified in class.

62.114 History and Philosophy of Science IV (Honours)

In addition to lectures and seminars an original investigation is to be undertaken and the results presented in the form of a dissertation. Students intending to take the fourth-year course should have the topic of their investigation approved by the Head of the School before the end of the third year.

For the formal class-work there is a range of options available (each of one hour per week or the equivalent) including options in advanced philosophy of science and in historiography of science.
Candidates for the honours degree in Special Studies must take the options in advanced philosophy of science and in historiography of science and either two other options or one of the third-year options which they have not previously taken. In the latter case the approval of the Head of the School must be obtained; additional reading will be required in the third-year course and a high standard of performance expected.

Candidates for the honours degree in Combined Special Studies must take two of the options. If they have not taken either option 1 or option 3 in third year they must take, as one of their fourth-year options, a special course in philosophy of science.

Text and reference books will be notified in class.
INDUSTRIAL RELATIONS

15.502 Industrial Relations I

SESSION 1
An examination of industrial relations in Australia; the nature, causes and implications of industrial conflict; the structure, development and future of trade unions, employers associations and industrial tribunals within the context of change (economic, political, technological, social, organizational).

PHILOSOPHY

The study of philosophy is partly the study of perennial problems of common interest to everyone; for example, the foundations of morality, the grounds of religious belief, the source and reliability of knowledge, and the relation between body and mind. Philosophy also leans out to and illuminates other fields of study. Consequently courses in philosophy are designed to make it possible for students to pursue a philosophical interest related to their other interests.

The first year course in philosophy is a wide-ranging course which is intended to give a broad introduction to the subject and assumes no previous acquaintance with it. It is broken into two sessions, with an examination at the end of each session, but Arts students take it as a whole and other students are advised to do so. There is no distinction between Pass and Honours.

From the second year onwards, Pass courses are presented and examined in session-length units. This arrangement makes it possible to offer a wide range of units from which students may select freely, subject only to certain stipulations regarding prerequisites. There is no sharp distinction into second and third years.

In a normal course, students take two course units in each session. A full Pass course in Philosophy consists of Introductory Philosophy A and B, followed by eight further course-units spread over four sessions.

SELECTION OF UNITS

The pattern of courses after the first year is intended to give students a wide range. Constraints are imposed by, firstly, the prerequisites of the various subjects; secondly, the distribution of courses as between Sessions 1 and 2; and to some extent, timetabling. The following details will assist students with their initial choice.

The course-units available in Session 1 having no prerequisite apart from Introductory Philosophy A and B are:

Predicate Logic;
Descartes;
British Empiricism;
Greek Philosophy;
Scientific Method;
Philosophy of Biology;
Existentialism.

Of these, Predicate Logic is prerequisite to a range of advanced logic courses, and Descartes and British Empiricism are also prerequisites, alone or as alternatives, to certain other subjects. Students who plan to take a full Pass course in Philosophy are especially advised to take at least one of these three. Honours students should expect to include Predicate Logic in their course at some stage.

Provision is made for a full sequence of courses in logic, namely, Predicate Logic, Set Theory, Model Theory and Foundations of Mathematics. The course-unit Argument caters for those with a less mathematically-orientated interest in the subject.

Historical studies are catered for by the course-units Greek Philosophy, Plato, Descartes, British Empiricism, Spinoza and Leibniz, History of Modern Logic, History of Traditional Logic, Logical Atomism, and Wittgenstein, which can be arranged into sequences in various ways.
The course-units not so far mentioned deal with particular issues or philosophical views. They are: Philosophy of Psychology, Aesthetics, Philosophy of Perception, and Privacy and Other Minds. In certain cases Pass students with a Credit record may be admitted to seminar courses conducted for Honours students and may substitute them for Pass-level course-units.

HONOURS COURSES

There is no division of students into Pass and Honours during the first year. From the second year special additional course-units are provided for Honours students.

The Special Studies course is for those who intend to devote themselves wholly to the subject, and permits the student to take a wide range of all the courses offering. Students are advised to decide, if possible, at the beginning of their second year whether they intend to take the Special Studies course, and to consult the School about their choice of units in this connection. Honours students are strongly recommended to include Predicate Logic among their second and third year course-units; and, as a prerequisite to the study of Kant in fourth year, the course-units British Empiricism, Descartes, and Spinoza and Leibniz.

52.111 Philosophy I

The course-units Introductory Philosophy A and Introductory Philosophy B as detailed below. There will be examinations at the end of each session but the course will be treated as an integrated whole-year one.

52.112 Philosophy II

Four course-units, normally two in each session.

52.122 Philosophy II (Honours)

Three course-units in Session 1 and two in Session 2, plus Honours Seminar A.

52.113 Philosophy IIIA

Four course-units, normally two in each session.

52.123 Philosophy IIIA (Honours)

As for Pass course, plus Honours Seminar B.

52.133 Philosophy IIIB (Honours)

This subject represents the additional work taken by Special Studies students in their third year, and consists of four additional course-units.

52.114 Philosophy IV

A research thesis on a subject to be approved by the School, and two seminar courses.

In 1974, the courses offered will be: (1) Philosophy of Language: in the works of Russell, Strawson, Austin, Quine, Chomsky and others. (2) Kant: a study, in particular, of his metaphysics and epistemology. (Prerequisites: British Empiricism; Spinoza and Leibniz.)
COURSE UNITS

Introductory Philosophy A (Session 1)

A first course for students new to the subject. The course divides into two strands: 1. Plato: A study of some dialogues of Plato, paying special attention to Socratic Definition and to Plato’s Theory of Forms. 2. Informal Logic: An approach to logic by way of language, treating such topics as the uses of utterances, the truth and significance, conditions of statements, the non-formal analysis of arguments, and the logical relations of propositions.

Students who would like to read some philosophy before starting the course might look at Problems of Philosophy by Bertrand Russell or Philosophy Made Simple by R. H. Popkin and A. Stroll.

Introductory Philosophy B (Session 2)

A continuation of Introductory Philosophy A. The course divides into two strands: 1. Hume: A study of some sections of Hume’s Enquiry. Topics to be discussed may include: the miraculous and the existence of God, the mind-body problem and personal identity, the freedom of the will. 2. Formal Logic: An introduction to a system of Natural Deduction sufficient for the symbolization of such ordinary language arguments and the construction of such proofs as lie within the field of propositional logic and simple predicate logic.

**Predicate Logic (Session 1)**

Prerequisite: Introductory Philosophy A and B.

A system of natural deduction is presented for the first order predicate calculus, including identity and definite descriptions. Emphasis is upon construction of formal derivations, methods of showing the invalidity of formal arguments, and the evaluation of informal arguments by symbolization.

TEXTBOOK

REFERENCE BOOK

**Descartes (Session 1)**

Prerequisite: Introductory Philosophy A and B.

A study of the main issues raised in the philosophy of Descartes and their importance for the development of modern philosophy. Emphasis is on the *cogito ergo sum* argument, the Cartesian method and the search for rational certainty, his theory of ideas, the body-mind problem, and his account of freedom.

Scientific Method (Session 1)
Prerequisite: Introductory Philosophy A and B.
A study of the nature of empirical knowledge as exemplified in the physical and social sciences and in history, with emphasis on the concept of explanation, the nature of induction and scientific laws, counterfactual statements, and the paradoxes of confirmation.

**Philosophy of Biology (Session 1)**

Prerequisite: Introductory Philosophy A and B.

An introduction to some of the problems associated with the philosophy of biology. Main consideration is the autonomy of biology; i.e., whether biology is in principle reducible to the physical sciences and, ultimately, to physics, or whether the biologist necessarily employs types of description and explanation that have no application in the explanation and description of merely physical phenomena. No prior knowledge of biology is assumed but candidates will be expected to familiarize themselves with the attitudes of various biologists to these issues.

Logical Atomism (Session 2)
Prerequisite: Introductory Philosophy A and B.
A survey of the logical atomism of Russell and Wittgenstein and of the logical positivist movement.

TEXTBOOKS

REFERENCE BOOKS
References will be given in lectures.

Philosophy of Psychology (Session 2)
Not offered in 1974.
Prerequisite: Scientific Method.
A critical examination of some aspects of fundamental theory of psychology, with special emphasis on classical and contemporary behaviourism and behaviourist orientated psychology, and on the general conceptions of 'behaviour' and 'purpose'.

While Psychology I is not a prerequisite for this course, a preparatory survey of the introductory chapters of J. O. Whittaker's *Psychology* will be of value to students.

Honours Seminar B (Sessions 1 and 2)

A course of seminars for Honours students in their Third Year. The content of the course varies from year to year and consists of a number of topics of contemporary interest treated mainly through the study of journal articles. Students are expected to contribute original papers.
PHYSICS

1.001 Physics I

Aims and nature of physics and the study of motion of particles under the influence of mechanical, electrical, magnetic and gravitational forces. Concepts of force, inertial mass, energy, momentum, charge, potential, fields. Application of the conservation principles to solution of problems involving charge, energy and momentum. Electrical circuit theory, application of Kirchoff's Laws to AC and DC circuits. Uniform circular motion, Kepler's Laws and Rotational mechanics.

The application of wave and particle theories in physics. A review of the atomic theory of matter and the structure and properties of atomic nuclei. A molecular approach to energy transfer, kinetic theory, gas laws and calorimetry. The wave theories of physics, transfer of energy by waves, properties of waves. Application of wave theories to optical and acoustical phenomena such as interference, diffraction and polarization. Interaction of radiation with matter, photoelectric effect, Compton effect, spectroscopy. Resolution of the wave—particle paradox by means of wave mechanics and the uncertainty principle.

POLITICAL SCIENCE

Courses in the School of Political Science are concerned with the study of political ideas, institutions and activity in such a way as to encourage a critical understanding of the problems and processes of government and politics in different societies and at different times, and of some of the main theories that have been developed to account for, and sometimes advocate, these governmental forms and actions.

54.111 Political Science I

SESSION 1
The study of Australian Government and Politics.

SESSION 2
Students are to choose one of the following two courses:

(a) Some Major Political Theories, illustrated by some 'great debates' on important general political issues.

(b) Comparative Politics: an introductory study of various systems of government, with special reference to such issues as the selection of rulers and the sources of their power and authority, political influence and its distribution in various types of societies, forms of political participation, etc.

RUSSIAN

Courses offered by the School will cover the language, literature and culture of the Russian people from the eleventh century to the present day.

This year ten courses are offered: Russian IZ, Russian I, Russian IIZ, Russian IIZ (Honours), Russian II, Russian II (Honours), Russian IIIA, Russian IIIA (Honours), Russian IIB and Russian IIB (Honours). An additional course, Russian IV (Honours) may also be offered, subject to availability of the necessary teaching staff.

59.001 Russian IZ

Unless the Head of School rules otherwise in special cases, a course available only to students who have not qualified to enter Russian I and who have obtained a second level pass or higher in a language other than English, at the Higher School Certificate.

The course aims at providing students with a sound elementary knowledge of spoken and written Russian as a basis for further intensive language study in Russian IIZ. Students who pass at the annual examination and wish to continue their study of the language will be required to complete a programme of written exercises and prescribed reading during the long vacation. Admission to Russian IIZ will be dependent on the satisfactory completion of this programme.

Russian IZ is a semi-intensive course, with a total of seven hours of instruction per week, consisting of one lecture, four tutorials and two sessions in the language laboratory. An equal amount of time should be devoted to preparation and private study if the course is to be pursued successfully.

20. *Culture and Society*

Culture and Society is a one session course which will deal with a number of manifestations of modern western technological society and the alternatives that are being offered to it. It will concentrate on a few particular fields, relating them to the general question of changing consciousness and the non-linear tradition.

**TEXTBOOKS**

21. *Film and Society*

Film represents a formalization of the symbolic interchange that makes up the culture of a society. The course looks at film as an industry, a cultural extension and as a communication system. Offers opportunities for the production by students of films of their own devising, as well as analysis and discussion of current movies. Students are expected to attend movies related to the course.

**TEXTBOOKS**

Both the Studio Vista/Dutton and Cinema One series provide works on individual directors or schools. Jarvie's book provides a full bibliography, and course participants should try to read it before the course begins.

The films to be studied include those by directors such as Fritz Lang, John Ford, Orson Welles, Jerry Lewis, Jean-Luc Godard, Charlie Chaplin and Francois Truffaut.

22. *Music and Society*

A course presented jointly by the School of Sociology and the Department of Music.

No specialized knowledge of music is required as a prerequisite. The course deals primarily with the present-day relationship of musical practice and the society of which it is both an expression and a product, introduced through historical and cross-cultural comparisons. Topics include: Societal definitions of music; the social role of music in ceremonial, public, educational and domestic situations; music and social stratification; the inter-action between music, technology and changing economic conditions; the
organization and sociological significance of the popular music industry; music as an outlet for social, political, racial, religious, national and philosophical ideas.

25. Sociology of Religion B

Integrates the theological content of religion with its social practices. Emphasis on a case-study of a modern Western chiliastic religion: Jehovah's Witnesses. The Adventist movement. The historical treatment includes the major personalities involved, the organizational and doctrinal development.

As one of the most thorough modern-day exponents of fundamentalism, Jehovah's Witnesses are considered for the light they can cast on early protestantism. The link between Jehovah's Witnesses and Weber's theory of the protestant ethic; recent re-statements of the Weberian account by Eisenstadt and McClelland in particular.

Practical: a sociological study of Jehovah's Witnesses, subject to the difficulties expected in interviewing a representative sample of adherents (previous investigators report that Jehovah's Witnesses are in many ways a secret society).

26. Sociology of Migration

Migration as a special case of heightened social change. Theoretical concepts and methods potentially useful for analysing the phenomenon of mass migration. Empirical material drawn from African, Melanesian and Israeli studies, and from the U.S., Britain and Canada, with emphasis on immigration to Australia.

**Session 1**
Theoretical approaches offered by Eisenstadt, Gordon and others considered in the light of:
(a) empirical studies in Australia and elsewhere; and
(b) possibilities offered by a “relational” method, i.e., the exploration of networks and community affiliations.

**Session 2**
Australian migration at greater depth.

28. Measurement in Social Science

Certain fundamental problems and techniques, initially in a non-sociological framework, including the assumptions underlying measurement and some of its associated concepts such as validity and reliability, as well as elementary probability theory and the delineation of sample spaces. The empirical roots of generalized distributions of measurements of various phenomena.

Measurement and types of sampling as sociological acts essential to the process of theory testing and refinement: parametric and non-parametric statistics and the development of their underlying concepts, with some arithmetic working.

REFERENCE BOOKS

29. Advanced Sociological Research

For students who have completed the Methods of Social Research option. Students must complete a research project during the year, and working closely with individual members of staff who offer instruction at an advanced level in techniques of social research (such as survey design, questionnaire construction, scaling, interviewing, observation, participant observation, content analysis) and techniques of analysis (statistics, Fortran IV programming). Students have some choice of methods to fit their research interests.
30. Advanced Sociological Theory
A study of the development of sociological theory, with particular emphasis on main currents in sociological thought and modern theorists.

65.211 Latin American Studies I

For students who have passed at least one of the following: 51.111 History IA, 51.121 History IB, 54.111 Political Science I, 53.111 Sociology I. Students enrolled in 65.002 Spanish IIZ, 65.022 Spanish IIZ (Honours), 65.112 Spanish II and 65.122 Spanish II (Honours) in 1974 or who passed 65.001 Spanish IZ or 65.111 Spanish I in 1973 may not enrol in this course. Other students may be admitted to the course by Faculty on the recommendation of the Head of School.

An introduction to the study of Latin American history and society. In Session 1 the relationship between Spain and its empire in America is examined, attention being concentrated on the development of the social, political and economic institutions of the colonies. In Session 2 it is shown that, having gained independence of Spanish and Portuguese rule, the nations of Latin America became enmeshed in other networks of political and economic dependence from which they have been trying to extricate themselves during the last thirty years.

REQUIREMENTS FOR ADMISSION

A person who seeks to become a candidate for any degree of Bachelor of the University must first have qualified for matriculation and have satisfied the requirements for admission to the particular Faculty, Course or Subject chosen.

In addition to complying with these conditions candidates must be selected before being permitted to enrol in a course. In 1974 it will be necessary for the University to limit the number of students enrolling in all undergraduate courses.

Special Assistance for Aboriginal Students

The University may admit suitably qualified persons of Aboriginal descent outside of any quota restrictions.

Upon receipt of an application under this provision, the University will assess the applicant's potential to cope with University studies, and will make Student Counsellors available to discuss the choice of a course and subsequent career opportunities.

All enquiries relating to this scheme should be directed to the Registrar.

Matriculated Student

A candidate who has satisfied the conditions for matriculation and for admission to a course of study shall be classed as a "matriculated student" of the University, after enrolment.

A person who has satisfactorily met the conditions for admission may be provided with a statement to that effect on the payment of the prescribed fee.

SECTION A

GENERAL MATRICULATION AND ADMISSION REQUIREMENTS

1. A candidate may qualify for matriculation by attaining in recognised matriculation subjects at one New South Wales Higher School Certificate Examination or at one University of Sydney Matriculation Examination a level of performance determined by the Professorial Board from time to time.
2. The level of performance required to qualify for matriculation shall be:

(a) passes in at least five recognised matriculation subjects, one of which shall be English and three of which shall be at Level 2 or higher;

and

(b) the attainment of an aggregate of marks, as specified by the Professorial Board, in not more than five recognised matriculation subjects, such marks being co-ordinated in a manner approved by the Board.

3. The following subjects, and such other subjects as may be approved by the Professorial Board from time to time, shall be recognised matriculation subjects:—

4. A candidate who has qualified to matriculate in accordance with the provisions of Clauses 1, 2 and 3 may be admitted to a particular Faculty, course or subject provided that:

(a) his qualification includes a pass at the level indicated in the subject or subjects specified in Schedule A as Faculty, course or subject prerequisites;

or

(b) the requirements regarding these particular Faculty, course or subject prerequisites, as specified in Schedule A have been met at a separate Higher School Certificate or University of Sydney Matriculation Examination.

5. Notwithstanding any of the provisions of Clauses 1 to 4, the Professorial Board may grant matriculation status to any candidate at the Higher School Certificate or University of Sydney Matriculation Examination who has reached an acceptable standard and may admit him to any Faculty, course or subject.

Note:

1. For the purposes of Clause 2(a), Mathematics and Science BOTH PASSED at first level or second level full course shall together count as three subjects.

2. For the purposes of Clause 2(b), Mathematics and Science TAKEN either singly or together at first level or second level full course shall each count as one and one-half subjects.

SECTION B

Supplementary Provisions for Matriculation

Notwithstanding the provisions of Section A above, candidates may be accepted as "matriculated students" of the University under the conditions which are listed in the University Calendar.
ADMISSIONS AND ENROLMENT PROCEDURE

ADMISSIONS PROCEDURE

Details of the procedure to be followed by students seeking entry to first year courses at the University may be obtained from the Admissions Office or the Metropolitan Universities Admissions Centre.

Persons seeking entry to first year courses in one or more of the three Universities in the Sydney Metropolitan Area (Macquarie University, the University of New South Wales and the University of Sydney) are required to lodge a single application form with the Metropolitan Universities Admissions Centre, Third Floor, 13-15 Wentworth Avenue, Sydney (near Liverpool Street). Postal address: Box 7049, G.P.O., Sydney, 2001. Telephone: 26 6301. On the application form provision is made for applicants to indicate preferences for courses available in any of the three Universities. Students are notified individually of the result of their applications and provided with information regarding the procedures to be followed in accepting the offer of a place at this University and completing their enrolment at the Enrolment Bureau, Unisearch House, 221 Anzac Parade, Kensington.

ADMISSIONS OFFICE

The Admissions Office, which is located in the Chancellery on the upper campus, provides intending students (both local and overseas) with information regarding courses, admission requirements, scholarships and enrolment. Office hours are from 9.00 a.m. to 1.00 p.m. and 2 p.m. to 5 p.m. Monday to Friday and an evening service is provided during the enrolment period.

Applications for special admission, admission with advanced standing and from persons relying for admission on overseas qualifications should be lodged with the Admissions Office. The Office also receives applications from students who wish to transfer from one course to another, resume their studies after an absence of twelve months or more, or seek any concession in relation to a course in which they are enrolled. It is essential that the closing dates for lodgment of applications are adhered to, and, for further details the sections on "Rules Relating to Students" and "Enrolment Procedure for Undergraduate Courses" should be consulted.
Applications for admission to undergraduate courses from students who do not satisfy the requirements for admission (see section on "Requirements for Admission"), from students seeking admission with advanced standing, and from students who have had a record of failure at another University, are referred by the Admissions Office to the Admissions Committee of the Professorial Board.

Students seeking to register as higher degree candidates should discuss their proposals initially with the Head of the School in which they wish to register. An application is then lodged on a standard form and the Admissions Office, after obtaining a recommendation from the Head of the School, refers the application to the appropriate Faculty or Board of Studies Higher Degree Committee.

ENROLMENT PROCEDURE

In 1974 it will be necessary for the University to limit entry into each Faculty and Board of Studies.

The enrolment procedure for the different classes of undergraduate students is as follows:—

First Enrolments

(a) New South Wales residents already qualified for admission and persons who are applying for enrolment on the basis of qualifications gained or about to be gained outside New South Wales must lodge an application for enrolment with the Metropolitan Universities Admissions Centre, 13-15 Wentworth Avenue, Sydney (P.O. Box 7049 G.P.O., Sydney) by 26th October, 1973.

(b) New South Wales residents qualifying for admission by the 1973 New South Wales Higher School Certificate Examination or the 1974 Sydney University Matriculation Examination and those who have attended a university in New South Wales in 1973 must apply for enrolment to the Metropolitan Universities Admissions Centre, 13-15 Wentworth Avenue, Sydney (P.O. Box 7049 G.P.O., Sydney) by 18th January, 1974.

Students whose applications for enrolment are accepted will be required to complete their enrolment at a specified appointment time before the beginning of Session 1. Compulsory fees must be paid on the day of the appointment. However, in special circumstances and provided class places are still available, students may be allowed to complete their enrolment after the prescribed week subject to the payment of a late fee.

Application forms for enrolment and details of the application procedures may be obtained on application to the Registrar, P.O. Box 1, Kensington 2033.
Failure in First Year

First year students who failed more than half their programme at the 1973 Annual Examinations and who were not granted any deferred examinations will NOT follow the above procedure. They are required to 'show cause' why they should be allowed to continue in the course, and should await instructions in writing from the Registrar as to the procedure.

Later Year Enrolments

Preliminary Enrolment

Re-enrolment forms and form Arts/73 will be obtainable from the Faculty Office, Room G1, Arts Building, from 22nd October. Each student must collect these forms and return them completed to the Faculty Office no later than 18th January, 1974. Students who are unable to pick up their own forms should send a representative to do so for them with a letter of authority. Any students requiring advice on their 1974 programme can make an appointment to discuss it by telephoning 663 0351, extension 2248, or calling at the Faculty Office, Room G1, Arts Building.

Students who fail to comply with the above instructions will be required to attend one of the late enrolment periods on either Wednesday, 6th, or Wednesday, 13th March, between 2.00 p.m. and 6.00 p.m.

Enrolment Timetable

Having complied with the preliminary enrolment instructions students should return to complete their re-enrolment in Room G3, Arts Building, in accordance with the following timetable:

**Enrolment Centre**

Room G3  
Morven Brown Building (Arts)

It is important that students attend the first lectures in all of their courses as announcements regarding arrangements for tutorials and other administrative matters are made then. This applies even if enrolment has not been formally completed.

**Miscellaneous Subjects (students NOT proceeding to a degree or diploma)**

Students may be accepted for enrolment in miscellaneous subjects provided the University considers that the subject/s will be of benefit to the student and there is accommodation available. Only in exceptional circumstances will subjects taken in this way count towards a degree or diploma.

Students seeking to enrol in miscellaneous subjects should obtain a letter of approval from the Head of the appropriate School or his representative permitting them to enrol in the subject concerned. The letter should be given to the enrolling officer at the time of enrolment. **Where a student is under exclusion he may not be enrolled in miscellaneous subjects unless given approval by the Professorial Board.**

Students who have obtained written permission to enrol should attend the Unisearch House enrolment centre on:

Friday 1st March  2.00 p.m. to 6.00 p.m.

Students unable to enrol at the above time may enrol by attending the Admissions Office, Chancellery, at the times shown below, with a written permission to enrol from the Head of School.

**Week commencing 4th March:** Monday to Friday  
9.30 a.m. to 1.00 p.m.  
2.00 p.m. to 4.30 p.m.  
5.30 p.m. to 8.00 p.m.

**Week commencing 11th March:** Monday to Friday

2.00 p.m. to 4.30 p.m.  
Wednesday & Friday  
5.30 p.m. to 8.00 p.m.
Final Dates for Completion of Enrolment

No enrolments will be accepted from new students after the end of the second week of Session 1 (15th March, 1974) except with the express approval of the Registrar and the Head of the School concerned; no later year enrolments will be accepted after 31st March without the express approval of the Registrar, which will be given in exceptional circumstances only.

Enquiries Concerning Course Regulations

Students requiring assistance should consult the Faculty of Arts Office, Tel.: 663-0351, extn. 2248, Room G1, Morven Brown Building.

UNIVERSITY UNION CARD

All students other than miscellaneous students are issued with a University Union membership card. This card must be carried during attendance at the University and shown on request.

The number appearing on the front of the card above the student's name is the student registration number used in the University's records. This number should be quoted in all correspondence.

The card must be presented when borrowing from the University libraries, when applying for Travel Concessions and when notifying a change of address. It must also be presented when paying fees on re-enrolment each year when it will be made valid for the year and returned. Failure to present the card could result in some inconvenience in completing re-enrolment.

A student who loses a Union Card must notify the University Union as soon as possible.

New Students will be issued with University Union cards at the University Union Enquiry Desk as soon as practicable after payment of fees. In the meantime, fees receipt form should be carried during attendance at the University and shown on request. A period of at least three weeks should be allowed to elapse after payment of fees before making application for the card. Cards will not be posted under any circumstances.
Payment of Fees

As from 1st January, 1974, no fees for tuition will be payable. Other fees and charges will still be payable. These include those charges raised to finance the expenses incurred in operating student activities such as the University Union, the Students' Union, the Sports Association and the Physical Education and Recreation Centre. Late fees are also charged where a student fails to observe required procedures by the appropriate time. Charges may also be payable, sometimes in the form of a deposit, for the hiring of kits of equipment which are lent to students for their personal use during attendance in certain subjects. Accommodation charges and costs of subsistence on excursions, field work, etc., and for hospital residence (medical students) are payable in appropriate circumstances. In order to become a student member of the University in any particular course of study it is necessary to meet the entrance requirements for the course and to enrol formally in it. To effect enrolment it is necessary to present a duly completed and authorised enrolment form to the University cashier together with where payable, either the appropriate fees, or an authority authorising those fees to be charged to some other person or institution.

Completion of Enrolment

All students are required to attend the appropriate enrolment centre during the prescribed enrolment period* for authorisation of course programme. Failure to do so will incur a late fee of $10.

First year students (including students repeating first year) must complete enrolment (including fee payment) before they are issued with class timetables or permitted to attend classes. A first year student who has been offered a place in a course to which entry is restricted and who fails to complete enrolment at the appointed time may lose the place allocated.

Fees should be paid during the prescribed enrolment period but will be accepted during the first two weeks of Session 1. (For late fees see below.) No student is regarded as having completed an enrolment until fees have been paid. Fees will not be accepted (i.e., enrolment cannot be completed) from new students in year-long courses after the end of the second week of Session 1 (i.e., 15th March, 1974),

* The enrolment periods for Sydney students are prescribed annually in the leaflets on enrolment procedures.
and after 31st March from students who are re-enrolling, except with the express approval of the Registrar, which will be given in exceptional circumstances only.

Students enrolling for the first time in any year at the commencement of Session 2 are required to pay all fees due within the first two weeks of that Session. Students Activities fees due will be one half of the annual fees.

These arrangements also apply to medical students and although the structure of the academic year in the later years of the course in Medicine differs from that followed in other courses, medical students are required to observe the same dates for payment as apply to students in other courses.

Assisted Students

Scholarship holders or sponsored students who have not received an enrolment voucher or appropriate letter of authority from their sponsor at the time when they are enrolling should complete their enrolment paying their own fees. A refund of fees will be made when the enrolment voucher or letter of authority is subsequently lodged with the Cashier.

Extension of Time

Any student who is unable to pay fees by the due date may apply in writing to the Deputy Registrar (Student Services) for an extension of time. Such application must state year or stage, whether full-time or part-time and the course in which enrolment is sought, describe clearly and fully the reasons payment cannot be made and the extension is required. The application must be lodged before the date on which a late fee becomes payable. Normally the maximum extension of time for the payment of fees is one month for fees due in Session 1 and for one month from the date on which a late fee becomes payable in Session 2.

Where an extension of time is granted to a first year student in Session 1, such student may only attend classes on the written authority of the Registrar, but such authority will not normally be given in relation to any course where enrolments are restricted.

Failure to Pay Fees or Other Debts

Any student who fails to pay prescribed fees or charges or is otherwise indebted to the University and who fails to make a satisfactory settlement of his indebtedness upon receipt of due notice ceases to be entitled to the use of University facilities. Such a student is not permitted to register for a further session, to attend classes or examinations, or to be granted any official credentials.
No student is eligible to attend the annual examinations in any subject where any portion of his fees for the year is outstanding after the end of the fourth week of Session 2 (16th August, 1974).

In very special cases the Registrar may grant exemption from the disqualification referred to in the two preceding paragraphs upon receipt of a written statement setting out all relevant circumstances.

**STUDENT FEES***

All undergraduate students and students taking miscellaneous subjects (with the exception of External students) will be required to pay—

- **University Union**—$20.00—entrance fee

**Student Activities Fees**
- **University Union**—$30.00—annual subscription
- **Sports Association**—$4.00—annual subscription
- **Students’ Union**—$7.00—annual subscription
- **Miscellaneous**—$17.00—annual fee

(The miscellaneous fee is used to finance expenses generally of a capital nature relating to student activities. Funds are allocated to the various student bodies for projects recommended by the Student Affairs Committee and approved by the University Council.)

Depending on the subject being taken, students may also be required to pay—

- **Psychology Kit Hiring Charge**—$2 per kit.
  Additional payment for breakages and losses in excess of $1.

- **Biochemistry Kit Hiring Charge**—$4 per kit.
  Additional payment for breakages and losses in excess of $1 may be required.

- **Chemistry Kit Hiring Charge**—$4 per kit.
  Additional payment for breakages and losses in excess of $1 may be required.

- **Anatomy Dissection Manual and Histology Slides deposit**—$10.
  (Refundable on return in satisfactory condition.)

- **Pathology Instrument Kit**—$10.
  (Refundable on return in satisfactory condition.)

* Fees quoted in the schedule are current at the time of publication and may be amended by the Council without notice.

** Life members of these bodies are exempt from the appropriate fee or fees.
Special Examination Fees
Examinations conducted under special circumstances — $11 for each subject
Review of examination result — $11 for each subject

LATE FEES

Session 1—First Enrolments
Fees paid in the late enrolment period and before commencement of Session 1 — $10
Fees paid during the 1st and 2nd weeks of Session 1 — $20

Session 1—Re-enrolments
Failure to attend enrolment centre during enrolment week — $10
Fees paid after the commencement of the 3rd week of Session 1 to 31st March — $20
Fees paid after 31st March where accepted with the express approval of the Registrar — $40

Session 2—All Enrolments
Fees paid in 3rd and 4th weeks of Session 2 — $20
Fees paid thereafter — $40

WITHDRAWAL FROM COURSE

1. Students withdrawing from a course are required to notify the Registrar in writing.

2. Where notice of withdrawal from a course is received by the Registrar before the first day of Session 1 a refund of all fees paid will be made.

3. On notice of withdrawal:
   (a) a partial refund of the University Union Entrance Fee will be made on the following basis: any person who has paid the entrance fee in any year and who withdraws from membership of the University Union after the commencement of Session 1 in the same year, or who does not renew his membership in the immediately succeeding year may on written application to the Warden receive a refund of half the entrance fee paid.
(b) A partial refund of other Student Activities Fees will be made on the following basis:

University Union—$7.50 in respect of each half session.

University of New South Wales Students' Union—where notice is given prior to the end of the fifth week of Session 1, $3.50; thereafter no refund.

University of New South Wales Sports Association—where notice is given prior to the 5th week a full refund is made; thereafter no refund.

Miscellaneous Student Activities Fee—$4.25 in respect of each half session.

4. Where initial enrolment is made at commencement of Session 2 in any year and the student subsequently withdraws, a refund of fees based on the above rules may be made.

Cashier's Hours

The cashier's office is open for the payment of fees from 9.30 a.m. to 1.00 p.m., and from 2.00 p.m. to 4.30 p.m. Monday to Friday. It is open for additional periods during the first four weeks of Session 1. Students are advised to consult notice boards for details.
GENERAL CONDUCT

Acceptance as a member of the University implies an undertaking on the part of the student to observe the regulations, by-laws and other requirements of the University, in accordance with the declaration signed at the time of enrolment.

In addition, students are expected to conduct themselves at all times in a seemly fashion. Smoking is not permitted during lectures, in examination rooms or in the University Library. Gambling is also forbidden.

Members of the academic staff of the University, senior administrative officers, and other persons authorised for the purpose, have authority, and it is their duty, to check and report on disorderly or improper conduct or any breach of regulations occurring in the University.

ATTENDANCE AT CLASSES

Students are expected to be regular and punctual in attendance at all classes in the course or subject in which they are enrolled. All applications for exemption from attendance at lectures or practical classes must be made in writing to the Registrar.

In the case of illness or of absence for some other unavoidable cause a student may be excused by the Registrar from non-attendance at classes for a period of not more than one month, or on the recommendation of the Dean of the appropriate Faculty for any longer period.

Applications to the Registrar for exemption from re-attendance at classes, either for lectures or practical work, may only be granted on the recommendation of the Head of the appropriate School. The granting of an exemption from attendance does not carry with it exemption from payment of fees.

Application forms for exemption from lectures are available at the Admissions Office and should be lodged there (with a medical certificate where applicable). If session examinations have been missed this fact should be noted in the application.
Where a student has failed a subject at the annual examinations in any year and re-enrols in the same course in the following year, he must include in his programme of studies for that year the subject in which he has failed. This requirement will not be applicable if the subject is not offered the following year; is not a compulsory component of a particular course; or if there is some other cause, which is acceptable to the Professorial Board, for not immediately repeating the failed subject.

Where a student has attended less than eighty per cent of the possible classes, he may be refused permission to sit for the examination in that subject.

INDEBTEDNESS TO THE UNIVERSITY

Any student who is indebted to the University and who fails to make a satisfactory settlement of his indebtedness upon receipt of due notice ceases to be entitled to membership and privileges of the University. Such a student is not permitted to register for a further session, to attend classes or examinations, or to be granted any official credentials.

In very special cases the Registrar may grant exemption from the disqualification referred to in the preceding paragraph upon receipt of a written statement setting out all relevant circumstances.

COURSE TRANSFERS

Students wishing to transfer from one course to another must apply on an application form obtainable from the Admissions Office, Chancellery, by Friday, 18th January. As the number of places in each course is limited, failure to apply by 18th January, 1974, will probably result in the application for transfer being unsuccessful.

Students whose applications to transfer are successful are required to comply with the enrolment procedures for the year/stage of the new course in which they expect to enrol. Unless otherwise instructed they must present the letter granting approval of the transfer to the enrolling officer.

Students who have not received advice regarding their application to transfer before the date on which they are required to enrol should check with the Admissions Office.

Students should also advise the Enrolling Officer of the School in which they are enrolled of their intention to transfer.
ADMISSION WITH ADVANCED STANDING

Any person who makes application to register as a candidate for any degree or other award granted by the University may be admitted to the course of study leading to such degree or award with such standing on the basis of previous attainments as may be determined by the Professorial Board.

Students should consult the University Calendar for complete details regarding "Admission with Advanced Standing".

CHANGES IN COURSE PROGRAMMES AND WITHDRAWAL FROM SUBJECTS

Students seeking approval to substitute one subject for another (including change of session), add one or more subjects to their programme or discontinue part or all of their programme must make application to the Registrar through the Head of the School responsible for the course on forms available from School offices. The Registrar will inform students of the decision. Application to enrol in additional subjects must be submitted by 31st March.

Approval of withdrawal from subjects is not automatic, each application being determined after considering the circumstances advanced as justifying withdrawal.

It is emphasized that:

(1) Withdrawal from a subject, tuition in which extends over the academic year, at any time after the May recess;

(2) withdrawal from a subject, tuition in which extends over only one session, at any time after one month from the commencement of the subject; or

(3) failure to sit for the examinations in any subject in which the student has enrolled.

shall be regarded as failure to satisfy the examiners in the subject, unless written approval to withdraw without failure has been obtained from the Registrar.

If a student applies after the following dates to withdraw from a subject he will most likely be awarded a failure in the subject:

Subject taken over Session 1 only 4th April 1974
Subject taken over Session 2 only 22nd August 1974
Subject taken over both sessions 26th May 1974
STUDENT RECORDS

All students will receive enrolment details forms by 30th April and 2nd September. It is not necessary to return the forms unless any information recorded thereon is incorrect. Amended forms must be returned to the Examinations and Student Records Section by 14th May and 16th September respectively. Amendments notified after the closing date will not be accepted unless exceptional circumstances exist and approval is obtained from the Registrar. Amended forms returned to the Registrar will be acknowledged in writing within fourteen days.

RESUMPTION OF COURSES

Students wishing to resume their studies after an absence of twelve months or more are required to apply to the Admissions Office for permission to re-enrol by 18th January, 1974. Students re-enrolling in this way will normally be required to satisfy conditions pertaining to the course at the time of re-enrolment. This condition applies also to students who have been re-admitted to a course after exclusion under the rules restricting students re-enrolling.

APPLICATION FOR ADMISSION TO DEGREE OR DIPLOMA

Applications for admission to a degree or diploma of the University must be made on the appropriate form by 30th September, in a student's final year. Applicants should ensure that they have completed all requirements for the degree or diploma, including industrial training where necessary. Any variation such as cancelling of application in order to proceed to an honours degree or submission of an application following discontinuation of honours programme, must be submitted in writing to the Registrar no later than 30th January.

RESTRICTION UPON STUDENTS RE-ENROLLING IN UNIVERSITY COURSES

The University Council has adopted the following rules governing re-enrolment with the object of requiring students with a record of failure to show cause why they should be allowed to re-enrol and retain valuable class places. These rules apply retrospectively from 1st January, 1971.

1. (i) A student shall show cause why he should be allowed to repeat a subject in which he has failed more than once. (Failure in a deferred examination as well as in the initial examination counts, for the purpose of this regulation, as
one failure.) Where such subject is prescribed as a part of
of the student's course he shall be required to show cause
why he should be allowed to continue the course.

Notwithstanding the provisions of Clause 1 (i)

(ii) A student enrolled in the first year or first stage of any
course, other than the Medical course, who has failed in
more than half the programme in which he is enrolled for
that year or stage shall be required to show cause why he
should be allowed to continue in the course.

(iii) A student enrolled in the first year of the Medical course
who has failed in more than one subject of that year shall
be required to show cause why he should be allowed to
continue in the Medical course.

(iv) The provisions of sections (ii) and (iii) of this rule shall be
deemed to apply to any student on transfer from another
course or institution whose programme of studies in the first
year of enrolment immediately following transfer is com-
prised of subjects so chosen that half or more of such
subjects are listed in the University Calendar as first year
subjects.

2. Notwithstanding the provisions of Clause 1, a student shall be
required to show cause why he should be allowed to continue
a course which he will not be able to complete in the time set
down in the following schedule:

<table>
<thead>
<tr>
<th>Number of years in course</th>

3. No full-time student shall, without showing cause, be permitted
to continue a course unless all subjects of the first year of his
course are completed by the end of his second year of attend-
ance. No student in the Faculty of Arts shall, without showing
cause, be permitted to continue a course unless he completes
four subjects by the end of his second year of attendance.

No full-time student in the Bachelor of Social Work course
shall without showing cause be permitted to continue with the
course unless he completes the equivalent of four full subjects
by the end of his second year of attendance.
No part-time student in a course in which progression is by stage shall without showing cause be permitted to continue a course in which he will not be able to complete all subjects of the first two stages by the end of his fourth year of attendance and all subjects of the third year and fourth stages of his course by the end of his seventh year of attendance.

No part-time student in the Science course shall without showing cause be permitted to continue a course in which he will not be able to complete level one Mathematics and six other level one units by the end of his fourth year of attendance and fourteen units inclusive of at least three at level two of his course by the end of his seventh year of attendance.

No student in the Faculty of Medicine shall, without showing cause, be permitted to continue with the medical course unless he completes the second year of the course by the end of his third year of attendance, and the third year of the course by the end of his fourth year of attendance.

4. A student who has a record of failure in a course at another University shall be required to show cause why he should be admitted to this University. A student admitted to a course at this University following a record of failure at another University shall be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations in his first year of attendance at this University.

5. Any student excluded under any of the Clauses 1-3 may apply for re-admission after two academic years and such application shall be considered in the light of any evidence submitted by him.

6. A student wishing "to show cause" under these provisions shall do so in writing to the Registrar. Any such application shall be considered by a committee, hereinafter referred to as the Re-enrolment Committee, appointed by the Professorial Board, which shall determine whether the cause shown is adequate to justify his being permitted to continue his course or re-enrol, as the case may be.

7. The Vice-Chancellor may on the recommendation of the Re-enrolment Committee exclude from attendance in a course or courses any student who has been excluded from attendance in any other course under the rules governing re-enrolment and whose record at the University demonstrates, in the opinion of the Re-enrolment Committee and the Vice-Chancellor, the student's lack of fitness to pursue the course nominated.
8. A student who has failed, under the provisions of Clause 6 of these rules, to show cause acceptable to the Re-enrolment Committee why he should be permitted to continue in his course, and who has subsequently been permitted to re-enrol in that course or to transfer to another course, shall also be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations immediately following the first year of resumption or transfer of enrolment as the case may be.

9. Any student who is excluded from attendance in any course or subject under the provisions of these rules may appeal to an Appeal Committee constituted by Council for this purpose. The decision of the Appeal Committee shall be final.

10. The notification to any student of a decision by the Re-enrolment Committee to exclude the student from attendance in any course or subject shall indicate that the student may appeal against the decision to an Appeal Committee. In lodging such application the student shall ensure that a complete statement is furnished of all grounds on which the application is based and shall indicate whether or not the student wishes to appear in person before the Appeal Committee.

In considering an appeal, the Appeal Committee, on the basis of the student’s academic record and the stated grounds for review, shall decide:

(i) whether there are grounds which justify the Committee seeing the student in person, or

(ii) whether there is sufficient information available to the Committee to allow decision without seeing the student in person and so proceed to determine the application accordingly.

RE-ADMISSION AFTER EXCLUSION

Applications for re-admission must be made on the standard form and lodged with the Registrar not later than 30th June of the year prior to that for which re-admission is sought. An application should include evidence of appropriate study in the subjects (or equivalents) on account of which the applicant was excluded. In addition, evidence that circumstances which were deemed to operate against satisfactory performance at the time of exclusion are no longer operative or are reduced in intensity should be furnished. An applicant may be required to take the annual examinations in the relevant subjects as qualifying examinations in which case re-admission does not imply exemption from the subject. Late applications cannot be considered
where, in the opinion of the University, insufficient time will be available for the student to prepare himself for any qualifying examinations which may be required.

It should be noted that a person under exclusion may not be enrolled in miscellaneous subjects unless he has received the approval of the Professorial Board on the recommendation of the Admissions Committee.

Persons who intend applying for re-admission to the University at a future date may seek advice as to ways in which they may enhance their prospects of qualifying for re-admission. Enquiries should be made on a form obtainable from the Examinations and Student Records Section, and lodged with the Registrar.

**OWNERSHIP OF STUDENTS' WORK**

The University reserves the right to retain at its own discretion the original or one copy of any drawings, models, designs, plans and specifications, essays, theses or other work executed by students as part of their courses, or submitted for any award or competition conducted by the University.

**CHANGE OF ADDRESS**

Students are requested to notify the Student Records Section of the Registrar's Division of any change in their address, as soon as possible. Failure to do this could lead to important correspondence not reaching students. The University cannot accept responsibility if official communications fail to reach students who have not notified their change of address. A Change of Address Advice form is available at Faculty and School offices and at the Enquiry Counters on the Ground Floor of the Chancellery Building.

**NOTICES**

Official University notices are displayed on the notice boards and students are expected to be acquainted with the contents of those announcements which concern them.

**LOST PROPERTY**

All enquiries concerning lost property should be made to the Superintendent on Extension 2503 or to the Lost Property Office at the Union.
PARKING WITHIN THE UNIVERSITY GROUNDS

Because of the limited amount of parking space available, only the following categories of students may apply for a permit; motor cycle owners (annual fee $3.90); higher degree students (limited issue, annual fee $7.80); postgraduate, and senior undergraduate students who have completed three years of a full-time or part-time course (annual fee $3.90). A permit will allow access to the campus between 5 p.m. and 11 p.m. on weekdays and during library hours on Saturdays, Sundays and public holidays. Enquiries should be made to the Property Section, Room 240, The Chancellery Building, or phone 663 0351, extension 2920. It should be noted that increasing demand for parking space may require the imposition of further restrictions.

APPLICATION OF RULES

General

Any student who requires information on the application of these rules or any service which the University offers, may make enquiries from the Admissions Office, the Student Counselling Unit or the Registrar.

Appeals

Section 5(c) of Chapter III of the By-laws provides that “Any person affected by a decision of any member of the Professorial Board (other than the Vice-Chancellor) in respect of breach of discipline or misconduct may appeal to the Vice-Chancellor, and in the case of disciplinary action by the Vice-Chancellor, whether on appeal or otherwise, to the Council”.
STUDENT SERVICES

THE LIBRARY

The University library is on the upper campus and adjacent to the Chancellery, and the Arts and Commerce Buildings. The Bio-Medical Library is in the Biological Sciences Building with a branch at Prince Henry Hospital (phone: 661 0111). The Law Library is temporarily housed on the 4th Floor of the Science Building on the upper campus.

The Library’s Undergraduate Collection covers the teaching and research interests of the Faculty, and students are expected to read widely and critically from it.

It is recommended that students attend the Introduction to the Library which is held at advertised times during Orientation Week and the first week of Session I. The Introduction uses audio-visual aids to describe the physical layout of the Undergraduate Library and the services available to readers.

Copies of the booklet Guide to the Library are available on request.

Students who are interested in the subject approach to information may attend a course which outlines methods of searching for information in libraries. This course runs for eight hours over a period of one week.

Individual assistance for readers with specific library problems is provided by the Reader Assistance Unit which is located in the foyer.

Staff and students must use a machine readable identification card to borrow from the main University Library. Personal identification is required in the other libraries listed. For students a current union card is acceptable. Staff must apply to the Library for a library card.

THE UNIVERSITY UNION

The University Union, housed in the circular building and joined by a courtyard to an adjacent rectangular building, is located near the entrance to the Kensington campus from Anzac Parade. The third building in the Union complex was completed in 1971. Membership of the Union is compulsory for all registered students of the University and is also open to all members of staff and graduates of the University.
On the lower campus the range of facilities provided by the Union includes a cafeteria service and other dining facilities, a large shopping centre, cloak room, banking and hairdressing facilities, showers, a women's lounge, common, games, reading, meeting, music, practice, craft and dark rooms. Photocopying, sign printing, and stencil cutting services are also available.

On the upper campus there is a cafeteria and coffee bar on the ground floor of the Sciences Building, a vending area and lounge off the Science Plaza, a similar facility off the Commerce Courtyard and a Snack Bar at the Golf House on the corner of High and Botany Streets.

The Union also sponsors and conducts courses in many facets of the arts including weaving, photography, creative dance and yoga.

STUDENT ACCOMMODATION

Residential Colleges

The Kensington Colleges

Accommodation for students is provided within the group of The Kensington Colleges which comprise Basser College, Goldstein College and Philip Baxter College. The group houses 450 men and women students, as well as staff members. Tutors in residence provide tutorial assistance in a wide range of subjects.

Board and residence fees, which are payable on a session basis, amount to $336 per session. Intending students should apply in writing to the Master, Box 24, Post Office, Kensington, N.S.W. 2033, from whom further information is available.

International House

International House accommodates over 180 students of whom half are Australian; the remaining half is made up of students from some 20 different countries. First-year students who have come to the University straight from school are not eligible for residence because preference is given to mature undergraduates and postgraduate students. Fees are $24 per week.

Students should apply as soon as possible if they wish to reside at International House at a later date. They should write to the Warden, International House, P.O. Box 88, Kensington, N.S.W. 2033 for information.

New College

This Church of England College is the first of the independent Colleges on the Campus of the University. There are no religious tests,
and accommodation is available for 220 men and women in single study-bedrooms. Fees are $25 per week and may change in 1974.

Enquiries should be addressed to The Master, New College, Anzac Parade, Kensington, N.S.W. 2033.

Warrane College

This College, an affiliated Roman Catholic residential college, was completed in 1970, and provides accommodation for 200 students and fourteen resident tutors.

Basic fees are $28 per week for board and residence, payable on a session basis, and a registration fee of $20. Fees may change in 1974. Intending students should write to The Master, Warrane College, Box 123, P.O. Kensington, N.S.W. 2033.

Shalom College

Shalom College, first occupied in 1973, provides accommodation for 86 men and women. The basic fee for residents is $28 a week, although this may change in 1974. Non-resident membership is available to students who wish to avail themselves of the Kosher dining room and tutorial facilities.

Applications for residence and further information should be addressed to The Master, Shalom College, The University of New South Wales, Box 1, P.O. Kensington, N.S.W. 2033.

Other Accommodation

Students requiring other than Residential College accommodation may make personal application to the Housing Officer (Ext. 3260) at the Student Amenities Unit. Current lists are kept of accommodation available at recognised boarding houses, private homes, and in serviced and unserviced apartments.

STUDENT AMENITIES UNIT

The Amenities Unit is concerned with student welfare and its activities are associated with sport and recreation, travel and student accommodation. It works in close liaison with the Sports Association, assisting the various clubs, and administers sporting facilities for both grade and social competitions. The Unit also has the added responsibility of the Physical Education and Research Centre where attractive recreational programmes for students and staff are provided. Concessional application forms for all types of travel may also be obtained at the Enquiry Desk in the Chancellery or at the Student Amenities Unit. A Housing Officer is also available to assist students with any off-campus accommodation problems.
Location: The Student Amenities Unit is located in Hut B at the foot of Basser Steps.

Phone: 663 0351, Extension 2235 Sports Association; 3271 Physical Education and Recreation Centre; 3261 Travel; and 3260 Accommodation.

STUDENT EMPLOYMENT UNIT

The Student Employment Unit offers assistance with career employment for final year students and graduates of the University. This service includes the mailing of regular job vacancy notices to registered students and a campus interview programme for final year students. Careers advice and assistance is also available to undergraduates. Assistance is offered in finding vacation employment which gives either course related experience or industrial training experience where this is a course requirement. Information and advice regarding cadetships, undergraduate and postgraduate scholarships is also available.

The Service is located in the Chancellery on the ground floor. Telephone: 663 0351 ext. 3259 for employment and careers advice or 663 0351 ext. 2086 for cadetships and industrial training information.

CHAPLAINCY SERVICE

This service is provided for the benefit of students and staff by five Christian Churches and by the Jewish congregation. Chaplains are in attendance at the University at regular times. A Chapel is also available for use by all denominations.

The University Chapel and full-time chaplains are located in Hut F near the Chemistry Building. They may be contacted by phone at the following extensions: Anglican, 2684; Jewish, 3273; Roman Catholic, 2379; Churches of Christ, Methodist and Seventh Day Adventist, 2683.

STUDENT HEALTH UNIT

A student health and first aid centre is situated within the University. It is staffed by two qualified medical practitioners, assisted by a nursing sister and two secretaries. The medical service, although therapeutic, is not intended to replace private or community health services. Thus, where chronic or continuing conditions are revealed or suspected, the student is referred to a private practitioner or to an appropriate hospital for specialist opinion and/or treatment. The health service is not responsible for fees incurred in these instances. The service is confidential and students are encouraged to attend for advice on matters pertaining to health.
The service is available to all enrolled students by appointment, free of charge, between 9 a.m. and 5 p.m. Mondays to Fridays, and additionally to part-time students from 6 p.m. to 8 p.m. on Tuesdays and Thursdays during session. For staff members, immunisations are available, and first aid service in the case of injury or illness on the campus.

The centre is located in Hut E on the northern side of the campus in College Road.

Appointments may be made by calling at the centre or by telephoning extension 2679 or 3275 during the above hours.

STUDENT COUNSELLING AND RESEARCH UNIT

The Student Counselling and Research Unit offers a free, confidential counselling service to help students, individually or in groups, to deal with problems, and to make plans and decisions associated with their personal, academic, and vocational progress.

Interviews and group programmes are available between 9 a.m. and 8 p.m. each week-day. Appointments may be made at the Unit, which is located at the foot of Basser Steps, or by ringing 663-0351, extensions 2600-2605 between 9 a.m. and 5 p.m.

FINANCIAL ASSISTANCE TO STUDENTS

In addition to the Tertiary Allowances Scheme financed by the Australian Government (see Scholarships for details), the following forms of assistance are available:

(a) The Students' Union and the University have co-operated to provide assistance to students who are in financial difficulties which are considered likely to prejudice their progress with their studies.

Three main forms of assistance are available:

1. **Deferment of Payment of Fees**

   Deferments may be granted for a short period, usually one month, without the imposition of a late fee penalty, provided the deferment is requested prior to the due date for fee payments.

   In exceptional circumstances the University may consider granting deferments for up to twelve months or even longer. In cases where payment is deferred to 31st December, examination results will not be published or made available until such time as the outstanding fees are paid. Where deferments are granted to a date beyond 31st December, the University may require the student to enter into a formal agreement to repay the fees.
2. **Short Term Cash Loans**

Donations from the Students' Union, the University Union and other sources have made funds available for urgent cash loans not exceeding $100. These loans are normally repayable within one month.

3. **Long Term Cash Loans**

An amount of up to $300 is available from this fund, repayable usually after twelve months or within twelve months of graduation or upon withdrawal from the course. This scheme is funded jointly by the University and the Students' Union. Students are required to enter into a formal agreement with the University to repay such a loan.

(b) Early in 1973 the Australian Government made funds available to the University to provide loans to students in financial difficulty. The loans are to provide for living allowances and other approved expenses associated with attendance at University. Under this scheme allowances are paid approximately monthly during the academic year. Repayment usually commences after twelve months of graduation or upon withdrawal from the course. Students are required to enter into a formal agreement with the University to repay the loan.

From the same source of funds as mentioned in the preceding paragraph students who are in extremely difficult financial circumstances may apply for assistance by way of non-repayable grant. In order to qualify for a grant a student must generally show that the financial difficulty has arisen from misfortune beyond his control.

Applications for all forms of assistance may be made personally to the Deputy Registrar (Student Services).

**FINANCIAL ASSISTANCE TO ABORIGINAL STUDENTS**

Financial assistance is available from a number of sources to help Aboriginal students. Apart from the Australian Government's Tertiary Allowances Scheme, to be introduced in 1974, there is a Commonwealth Aboriginal Study Grant Scheme. Furthermore, the University may assist Aboriginal students with some essential living expenses in exceptional circumstances.

All enquiries relating to this Scheme should be directed to the Deputy Registrar (Student Services).

**UNIVERSITY CO-OPERATIVE BOOKSHOP LTD.**

Membership is open to all students, on payment of a fee of $5, refundable when membership is terminated. Members receive an annual rebate on purchases of books.
UNDERGRADUATE SCHOLARSHIPS
AND PRIZES

SCHOLARSHIPS

Students undertaking courses in the Faculty of Arts are eligible to apply for the following scholarships. Not all scholarships are offered each year. Towards the end of December prospective applicants should enquire from the Student Employment and Scholarships Unit which scholarships are available.

Except where otherwise specified, applications on the forms obtainable from the Admissions Office (phone: 663-0351, ext. 2485) must be lodged with the Registrar, the University of New South Wales, P.O. Box 1, Kensington 2033. A separate application must be lodged for each category of scholarship.

TERTIARY ALLOWANCES SCHEME

In 1974, no new Awards will be offered under the Commonwealth University Scholarship Scheme. Instead a new system of Australian Government Assistance for tertiary students, called the Tertiary Allowances Scheme, will operate. This scheme will apply to students who commence approved courses in 1974 as well as those who commenced their courses earlier.

Means-tested living and other allowances will be available to full-time students enrolled in an approved course who satisfy certain academic and residence requirements, are unbonded and who do not receive assistance in excess of $350 from other scholarships. No age limit will apply.

Students enrolled in the following types of university courses will be eligible for assistance:

- Undergraduate and Postgraduate Bachelor degree courses
- Postgraduate diplomas
- Combined bachelor degree courses offered by institutions
- Master's qualifying courses
Benefits

*Means-tested Living Allowance:* The maximum rates of living allowance are $850 per annum (for students living at home) and $1400 per annum for students living away from home.

The maximum rates of living allowance will be paid where the adjusted family income is equal to or less than $5,300 per annum. The adjusted family income is assessed by subtracting from the gross income of both parents business expenses and an amount of $450 for each dependent child other than the student.

When the adjusted family income exceeds $5,300 p.a. the amount of living allowance will be reduced by $2 for every $10 of income until the family income exceeds $10,600 per annum. After this level, the living allowance will be reduced by $3 for every $10 of income.

A concession may be made where there are other children in the family undertaking tertiary education with scholarship assistance from schemes other than the Tertiary Allowances Scheme of less than $350 p.a.

*Students qualifying for living allowance will also receive the following allowances, where appropriate:*

*Incidentals Allowance:* The Incidentals Allowance of $100 is designed to help the students meet the cost of those fees which have not been abolished — the Students' Union, University Union and sports fees — and other expenses associated with their studies.

*Travel Allowance:* Students whose home is in the country may be reimbursed the cost of three return trips per year, during vacation time.

*Dependent's Allowance:* This is made up of allowances of $8 per week for a dependent spouse and $4.50 per week for each child.

**How to apply:** Higher School Certificate students will be able to obtain application forms from their school. Students who do not already hold a scholarship may obtain forms from the Admissions Office, or from The Regional Director, New South Wales State Office, Department of Education, Sydney Plaza Building, 59 Goulburn Street, Sydney, N.S.W. 2000. (Telephone 2 0929).

**N.B.:** Current Commonwealth Scholarship holders will have application forms posted to them. All forms should be returned to the above address as soon as possible.
AUSTRALIAN POSTGRADUATE AWARDS

Australian Postgraduate Course Awards

The Australian Government provides a number of awards for full-time postgraduate study in courses leading to the degree of Master by formal course work. Persons permanently domiciled in Australia who are under 45 years of age on 1st January of the year in which the award is to be taken up and who are University graduates or will graduate in the current academic year, are eligible for the awards. Award holders receive a living allowance of $2,900 paid over the academic year. Other allowances may also be paid in certain cases.

Application for awards tenable at the University must be lodged with the Registrar by 30th September each year.

Australian Postgraduate Research Awards

The Australian Government also provides each year a number of awards for full-time postgraduate study and research. The awards are renewable annually up to a maximum duration of two years in the case of a candidate for a Masters degree or three years in the case of a PhD candidate. In special circumstances, a PhD candidate may be granted an extension of tenure into a fourth year. Persons permanently domiciled in Australia who are under 35 years of age on 1st January of the year in which the award is to be taken up and who are University graduates or will graduate in the current academic year, are eligible for the awards. Award holders receive a living allowance of $3,050 per annum. Other allowances may also be paid in certain cases. The closing date for applications is 31st October each year.

OTHER AWARDS

Bursaries

A number of Bursaries tenable at the University are awarded to candidates of merit at the Higher School Certificate Examination whose family income falls within certain limits prescribed by the Bursary Endowment Board. Applications should be made to the Secretary, Bursary Endowment Board, Box 7077, G.P.O., Sydney 2001.

Teachers' College Scholarships

Full particulars and application forms may be obtained from the Officer-in-charge, Teacher Training Division, N.S.W. Department of Education, Blackfriars Street, Chippendale, 2008. Phone number: 211-4566.
The Fell Scholarship (University Residential Colleges)

The Fell Scholarship is available to any undergraduate who is or will be in residence at one of the Colleges under the administration of Kensington Colleges Ltd. during the year of the award. The annual value of the Scholarship is $100. It may be held concurrently with other scholarships.

In awarding the scholarship the academic merit and financial need of the applicant will be taken into consideration.

Applications must be made on the appropriate form and lodged with the Master, Kensington Colleges Ltd., Box 24, P.O., Kensington 2033 (telephone 663-0651).

STUDENT ACTIVITIES

THE STUDENTS' UNION

The Students' Union was formed in 1952 as an organization, duly recognized by the University Council, to represent the student body and to provide a central organization for the administration of student activities. In the words of its constitution, "The Students' Union is formed for the purpose of advancing the interests of University men and women, facilitating their general scientific and technical education, and fostering a University spirit among them".

The Union affords a recognized means of communication between the student body and the University administration, and represents its members in all matters affecting their interests. It aims to promote the cultural, educational and recreational life of the University and to encourage a permanent interest among graduates in the life and progress of the University.

Membership of the Union is compulsory for all registered students of the University and the annual subscription is $7.

The Students' Union is governed by a Council consisting of student representatives from the various faculties of the University, representatives of Life Members, overseas students, and of the University and the Sports Association. The Council is elected annually.

THE SPORTS ASSOCIATION

The Sports Association is a student organization within the University, and it caters for a variety of competitive sports for both men and women.

In December 1952 the University Council approved the establishment of the Sports Association which consisted of five clubs. As the University has grown, the Association has expanded, and today includes over thirty clubs.

The controlling body of the Association is the General Committee which consists of a President, Secretary, Treasurer, eight Vice-Presidents and two delegates from each of the affiliated clubs.

Membership of the Association is compulsory for all registered students, and the annual subscription is $4.
PHYSICAL EDUCATION AND RECREATION CENTRE

The Physical Education and Recreation Centre consists of eight squash courts and a main building. The latter has a large gymnasium and ancillary practice rooms for fencing, table tennis, judo and weight-lifting. The Supervisor of Physical Recreation is responsible for this Centre and provides a recreational programme for both students and staff. Those who desire to participate in the recreational programmes should contact the Supervisor on Extension 3271.

THE UNIVERSITY REGIMENT

Enquiries should be made to the Adjutant at the Regimental Depot in Day Avenue just west of Anzac Parade.

THE N.S.W. UNIVERSITY SQUADRON

Enquiries should be made to the Commanding Officer at Squadron Headquarters at the corner of City and Darlington Streets, Darlington 2008.

ROYAL AUSTRALIAN NAVY

Enquiries should be made to the Royal Australian Naval Liaison Officer, Professor J. S. Ratcliffe, Commander, R.A.N.V.R., at the School of Chemical Engineering. Phone 663 0351, ext. 2406.

STUDENT CLUBS AND SOCIETIES

Students have the opportunity of joining a wide range of clubs and societies. Affiliated with the Students’ Union are the School and Faculty associations, and the numerous religious, social and cultural clubs. There are also many sporting clubs (33) affiliated with the Sports Association.

Clubs and societies seeking to use the name of the University in their title, or seeking University recognition, must submit their constitutions either to the Students’ Union or the Sports Association if they wish to be affiliated with either of these bodies, or to the Registrar for approval by the University Council.

The Arts Faculty Society

The Arts Faculty Society is primarily concerned with fostering a closer and more intimate relationship between students and staff of the Faculty as well as pursuing a greater involvement of students in its functioning and operation.
Social occasions have included several successful balls and staff-student cocktail parties. A regular newsletter and handouts relating to immediate society activities are produced.

Membership of the society is automatic on enrolment in the Faculty and it is hoped that students will take advantage of the benefits it provides. This can be done by participation and interest in society activities.

Associated clubs and societies within the faculty should note that financial and advisory support will be gladly given upon request.

Anyone desiring further information should write to Box 38, The Union.

**Dramsoc (University of N.S.W. Dramatic Society)**

Dramsoc is one of the oldest and most widely respected of the University Societies. We hope to have a most comprehensive programme of plays, play-readings, and revues. We wish to encourage many active new members. For further information on Dramsoc, write c/o Box 69, University Union.

**Historical Society**

The Historical Society was formed to assist students of History to develop an interest in the subject outside their formal studies.

In pursuit of this objective the Society presents guest speakers, holds film showings, and holds cocktail parties, and arranges other functions. It is hoped, in 1974, to expand the programme to include as wide a variety of activities as possible to cater for the interests of as many students as possible.

All students and staff in the School of History are members of the Historical Society, and with the payment of a small activities fee qualify to attend social functions either at a reduced price or no charge at all.

Please address all enquiries to the School of History, or to: The Secretary, UNSW Historical Society, School of History, The University of New South Wales, P.O. Box 1, Kensington, N.S.W. 2033.

Regular meetings of the Historical Society are held in the History Seminar Room (350) in the Arts/Maths Building every Wednesday at 1 p.m. All students are welcome to attend.

**The Politics Club**

The Politics Club is an independent political club not aligned or associated with any political party or faction. Its membership is open to all students of the University and its aim is to provide an opportunity for students interested in politics in general or in the study of some particular field of politics to meet to discuss varying political
issues and ideas. The club holds discussion groups and seminars inter-
posed with public meetings which are addressed by students, staff and
speakers from outside the university.

The Club is associated with the School of Political Science and any
inquiries, which would be welcomed, should be directed to the Secre-
tary to the School of Political Science. (Phone: 663 0351, ext. 2239.)

The French Society

The French Society aims mainly to be the focal point for students
of French. There are no prescribed limits to its activities which are
generally cultural, social or political, and its membership is open to
anyone, student or non-student, who is interested.

The Society is particularly oriented to developing informal relations
between students and staff. At present an excellent liaison exists per-
mitting close co-operation on course structures and related areas as
well as on less formal aspects of French studies. At regular meetings,
frank discussion has helped establish in the School a friendly and
informal atmosphere.

Social and cultural activities are wide in range, including dinners
(especially Bastille Day), wine and cheese soirées, films, discussions
and theatre parties. This year a residential weekend is planned for
early in Session 1, where French language and ideas will be put into
action. All new students are encouraged to attend.

The Society meets regularly one day a week, during the lunch break.
(Meetings are nearly always conducted in English.) Pre-term enquiries
should be addressed to the French Society through the School of
French.

Socratic Society

The purpose of the Socratic Society is to promote discussion on
controversial and intellectually stimulating topics.

The Society has no views, except that discussion is a good thing: its
members have a diversity of views and find that its seminars and
meetings provide an excellent opportunity to express them.

Membership of the Society is not in any way limited to one School
or Faculty and the matters discussed cover a very wide field. The
Society organises regular public meetings, private meetings and
seminars.

Further information may be obtained from the School of Philosophy.

The Julian Society

Concerned to provide the opportunity for interesting discussions on
all types of literature, the Julian Society, the literary society of the
University, meets fortnightly, currently, on Thursday nights. With a
predominantly student membership, the society engages in informal meetings, generally taking the form of a short paper followed by discussion. Wine and supper are provided at each meeting. Topics for papers are by no means confined to topics on the English syllabus. Topics ranging from *Rhythm and Random Number Poetry*, through *Peter Weiss—Author of Marat-Sade*, to *Bob Dylan—Poet* have been discussed. Members of staff and such distinguished speakers as Dr. Clement Semmler, critic Harry Kippax and novelists Thea Astley and Margaret Dick have given papers.

All those interested are urged to come along. Further information may be obtained from Professor R. G. Geering (School of English), ext. 2246.

**The German Society**

The German Society idealistically aims to provide media at which students of German (and others) can meet each other and so be able to exchange views on their subject/s, teachers, weather and sometimes Germany and its achievements—cultural and other.

The Society tries to achieve this through film nights, informal meetings, term dinners, or other means which students may wish to suggest.

Further details may be obtained from the Secretary of the School of German.

**Scientia**

Scientia is the Society of the School of History and Philosophy of Science. Its aims are to develop interest in history and philosophy of science, both in general and as an academic discipline, to further the unification of the sciences and the humanities, and to provide an opportunity for informal meetings of staff and students. Activities centre on a programme of lectures by visiting speakers and seminars at which members' papers are read and discussed. The Society's journal, first produced in 1971, will continue to be published.

In addition, parties are held several times a year and films of interest to members are screened. Wine and cheese are served.

Membership is open to all members of the University and is free to students enrolled in courses in the School of History and Philosophy of Science.

**The Geographical Society**

It is hoped that students taking geography as a subject will participate in the activities organized by the Geographical Society. The Society is relatively new and is therefore open to new ideas and to people who are concerned with fostering an interest in the subject. Lectures and informal discussion groups are organized so that students
can have the opportunity of listening to experts in the various fields of geography.

Social activities have always been an important part of the Society and they have provided more than adequate opportunities for students to get to know each other and for students and staff to improve communications.

The Psychology Society

The Psychology Society aims to provide activities both educational and social for students of psychology, and, more generally, to act as an intermediary body between students and staff. While psychology is one of the most popular subjects available to Arts students, many students have only a vague conception of psychology and are unsure exactly where their courses will lead them.

One of the aims of the Psychology Society is to provide information relevant to these matters. Last year two highly successful careers seminars were held, in which speakers from various areas of psychological practice discussed, to the accompaniment of wine and cheese, requirements and opportunities in these areas.

The Society aims to rescue students from the impersonal, voiceless ranks of anonymity in a school which is so large that any meaningful degree of personal contact between students of different years and students and staff is difficult to achieve. It attempts to provide opportunities for such contact, to foster staff-student relations, acting in the interest of psychology students as a whole. Accordingly activities include such items as regular parties, staff-student luncheons, theatre parties, and an annual horse-riding weekend in the Blue Mountains. On the educational side there are weekly film showings and occasional talks and seminars (e.g. on careers, course requirements, etc.). An activities fee of 50 cents allows free entry to the films and substantial reductions in the costs of other activities.

The Society is situated in Room 810, Science Building (next to the Library). All students interested in joining the committee, or simply in becoming members, are urged to contact members at the Hut, or to phone Tom Jones (57 7573).
In the Faculty of Arts undergraduate courses to Honours level are offered in the fields of Drama, Economic History, Economics, English, French, Geography, German, History, History and Philosophy of Science, Industrial Relations, Mathematics, Philosophy, Political Science, Psychology, Russian, Sociology, Spanish and Latin American Studies, and Statistics.

The undergraduate courses offered lead to the degree of Bachelor of Arts (BA) at either Pass or Honours level.

Students seeking information about the combined Arts/Law degree should consult the Faculty of Law Handbook or apply to the Faculty of Law office.

The graduate courses offered for qualified students lead to the degree of Master of Arts (MA) (pass or honours), or Doctor of Philosophy (PhD). In addition, the Faculty may recommend the award of the degree of Doctor of Letters (DLitt) for an original contribution of distinguished merit to Letters. Not all Schools are offering the MA degree at Pass and Honours level. Prospective postgraduate students should seek further information from the Head of the School concerned.

Details of the requirements and the conditions governing the award of these graduate degrees and diplomas are contained in Section C of the Calendar.

THE DEGREE OF BACHELOR OF ARTS

Courses qualifying for this degree are available in the University of New South Wales at Kensington for full-time day students only. The University College at Wollongong, however, offers a restricted range of qualifying courses which are available to both full-time and part-time students and reference should be made to the handbook of the College for further information about these courses.

For a student who wishes to study one or more of German, Spanish or Russian at university level, but who has not taken the particular language or languages to matriculation level, special first and second year university courses are available. These special courses are designated IZ first year course and IIZ (second year course) and
the completion of Courses IZ and IIIZ of the particular subject together with such vacation reading and study as may be prescribed, will qualify a student to proceed, if he so desires, to the normal Course III of that subject.

PROGRAMMES FOR THE DEGREE OF BACHELOR OF ARTS

One of four different programmes may be followed by a student studying for the degree. The first is the programme for the Pass Degree which consists of nine qualifying courses studied in particular sequences over a period of three years. The second is the programme for the General Honours Degree which is designed to enable a Pass Degree student with special merit to proceed to a fourth year of study. The third is the programme in Special Studies, which is designed to enable a student to undertake, over a period of four years, specialized study in one subject, although a certain number of courses of subsidiary subjects must also be taken. The fourth is the programme in Combined Special Studies which is designed to enable a student to undertake, over a period of four years, specialized study in two subjects together with courses of one or two subsidiary subjects. These four programmes are explained in detail in the following pages.

A student who is accepted for the Special Studies or Combined Special Studies programme will be regarded as a candidate for an Honours Degree.

The Rules governing the award of the degree are set out in the following pages and consist of:

Section A — Rules 1 to 11, which are applicable to all candidates for the degree and to the four programmes of study.

Section B — Rules 12 and 13, which apply specifically to the programme leading to the Pass degree.

Section C — Rules 14 to 19, which apply specifically to the programme leading to the General Honours degree.

Section D — Rules 20 to 26, which apply specifically to the Special Studies programme.

Section E — Rules 27 to 34, which apply specifically to the Combined Special Studies programme.

Section F — Rules 35 to 37, which relate to the recognition of courses completed outside the Faculty of Arts.

Section G — Rules 38 and 39, which are Saving Clauses.
Schedule A — which sets out the subjects available for study, the qualifying courses of each subject, and other information. See page A18.

Schedule B — which sets out approved sequences of courses in Mathematics and Theory of Statistics.

These Rules apply to candidates who enrolled for the first time in the Faculty after 1st January, 1967. Candidates who were enrolled in the Faculty prior to 1st January, 1967, are required to comply with the old Rules, copies of which may be obtained in Room G1 in the Morven Brown Building.
RULES GOVERNING THE AWARD OF THE DEGREE OF BACHELOR OF ARTS

SECTION A

Rules Applicable to all Candidates and to all Programmes of Study

1. The degree of Bachelor of Arts may be conferred as a Pass Degree or as a General Honours Degree or as an Honours Degree in Special Studies or as an Honours Degree in Combined Special Studies. There shall be three classes of Honours, namely, Class I, Class II in two Divisions and Class III.

2. No person shall be permitted to enrol in any qualifying course for the Degree of Bachelor of Arts at the same time as he is enrolled for any other degree or diploma in this University or elsewhere.

3. A person on whom the Pass Degree of Bachelor of Arts has been conferred shall not be admitted to candidature for the Honours Degree of Bachelor of Arts.

4. Where, in the following Clauses, reference is made to the requirement that a candidate shall complete a course, the requirement shall be construed as meaning that the candidate shall

   (a) attend such lectures, seminars and tutorials as may be prescribed in that course;
   
   (b) perform satisfactorily in such exercises, laboratory work, essays and thesis (if any), as may be prescribed in that course and undertake any prescribed reading relating to that course; and
   
   (c) pass the examination or examinations in that course.

5. A candidate for the degree of Bachelor of Arts shall complete qualifying courses of subjects to the number, and in the sequences, prescribed in the following Clauses. Unless otherwise indicated, the subjects available for study, and the qualifying courses of each subject are as set out in Schedule A to these rules.

6. (a) A candidate shall pursue his studies as a full-time day student and, during his first year of study, shall enrol in at least three of the courses listed in Schedule A.

   (b) A candidate may not enrol in more than four courses in any one year.
(c) A candidate may not enrol in Course II of a subject until he has completed Course I of that subject.

(d) A candidate may not enrol in Course IIZ of a subject until he has completed Course IZ of that subject.

(e) A candidate may not enrol in Course IIIA of a subject until he has completed Course II or Course IIZ of that subject.

(f) A candidate may not enrol in Course IIIB of a subject until he has completed Course II or Course IIZ of that subject and has the approval of the Head of the School concerned.

(g) A candidate may not enrol in Course IV of a subject until he has completed the appropriate Course IIIA or IIIB (or both) of that subject and has the approval of the Head of the School concerned.

7. (a) **Prerequisite Courses**

8. (a) Course I or Course IZ of a subject, when completed, shall count as one qualifying course towards the degree.

(b) Course I of a subject followed by Course II of that subject, or Course IZ of a subject followed by Course IIZ of that subject, shall be two consecutive courses of that subject. When both courses have been completed, they shall count as two qualifying courses towards the degree and shall be an approved sequence of two courses.

(c) Course I of a subject followed by Course II of that subject followed by Course IIIA or IIIB of that subject, or Course IZ of a subject followed by Course IIZ of that subject followed by Course IIIA or IIIB of that subject, shall be three consecutive courses of that subject. When the three courses have been completed, they shall count as three qualifying courses towards the degree and shall be an approved sequence of three courses.

(d) Course I of a subject followed by Course II of that subject followed by Courses IIIA and IIIB of that subject, or Course IZ of a subject followed by Course IIZ of that subject, followed by Courses IIIA and IIIB of that subject, shall be a special major sequence of four courses of that subject. When the four courses have been completed, they shall count as four qualifying courses towards the degree and shall be an approved special major sequence of four courses.
9. The following courses shall be regarded as consecutive courses of a subject and, when completed, shall count as two or three, as the case may be, qualifying courses towards the degree and shall be regarded as an approved sequence of two or three, as the case may be, courses:

10. A course may not be counted more than once for the purpose of forming an approved sequence of courses.

11. A candidate who wishes to study Mathematics or Theory of Statistics beyond the Course I level shall follow one of the approved sequences set out in Schedule B or consult the School of Mathematics concerning alternatives.

## SECTION B

### Rules Relating to the Programme for the Degree of Bachelor of Arts—Pass Degree

12. A candidate shall complete over a period of not fewer than three years nor more than five years nine qualifying courses of subjects chosen from those listed in Schedule A.

13. The nine qualifying courses so chosen shall comply with the following conditions:
They shall consist of:

(a) an approved sequence of three courses of one subject and an approved sequence of two courses of each of three other subjects;

OR

(b) an approved sequence of three courses of each of two subjects, an approved sequence of two courses of one other subject and Course I of one other subject.

OR

(c) an approved sequence of three courses of each of two subjects and Course I of each of three other subjects;

OR

(d) an approved special major sequence of four courses of one subject, an approved sequence of two courses of each of two other subjects and Course I of one other subject;

OR

(e) an approved special major sequence of four courses of one subject, an approved sequence of three courses of one other subject and an approved sequence of two courses of one other subject;

OR

(f) an approved special major sequence of four courses of one subject, an approved sequence of three courses of one other subject and Course I of each of two other subjects.

SECTION C

Rules Relating to the Programme for the Degree of Bachelor of Arts—General Honours Degree

14. A student seeking Honours shall complete eleven qualifying courses of subjects over a period of not fewer than four years nor more than five years. The eleven qualifying courses shall be chosen from Schedule A and shall be completed in accordance with Clauses 15 to 18.

15. (a) Nine of the eleven courses shall be completed in such a way as to fulfil the requirements for the Pass degree in accordance with Clauses 12 and 13. If the student has obtained a pass at Credit level or better in at least five of the nine courses by which he qualified for the Pass degree, he may apply to Faculty for formal recognition as a candidate for Honours.
(b) The remaining two of the eleven courses shall be completed in the Honours year and shall comprise Course IIIA or IIIB of each of two subjects of which only Courses I and II (or Courses IZ and IIZ) have so far been completed and each of these two courses shall be completed with a pass at Credit level or better.

16. A candidate in his Honours year may be required to take both the Pass and Honours syllabuses in the Course IIIA or IIIB of either or both of the two Honours year subjects. Alternatively, he may be required to take additional studies in either or both of the two Honours year subjects.

17. A student seeking recognition as a candidate for Honours, who has fulfilled the requirements for the Pass degree in accordance with Clause 13(a), (b), (c), (e) or (f) and who has obtained a pass at Credit level or better in at least five of the nine courses so completed, may, with Faculty approval, complete Course II (or Course IIZ) of one or two (as the case may be) subjects of which only Course I (or Course IZ) has so far been completed. He may then apply to Faculty for formal recognition as a candidate for Honours and shall then proceed in accordance with the provisions of Clauses 15(b) and 16.

18. The award of Honours and grade of Honours shall be based upon a consideration of the full record of a candidate and, where Honours in any grade are awarded, they shall be listed as General Honours and not as Honours in a particular School or Schools.

19. Where a candidate for Honours has failed to meet the necessary standards of competence in his Honours year, no further examination shall be granted but the student may proceed to graduation with a Pass Degree, the requirements for which shall already have been met.

SECTION D

Rules Relating to the Programme for the Degree of Bachelor of Arts in Special Studies—Honours Degree

20. The degree of Bachelor of Arts in Special Studies shall be awarded at Honours level only and a recognised candidate for Honours shall complete nine qualifying courses of subjects in four years of study. The nine qualifying courses, which shall include Course IV of the subject for Special Studies, shall be chosen from Schedule A and shall be completed in accordance with the provisions of Clauses 21 to 24. There shall be no re-examination in Course IV of the subject for Special Studies.
21. A student seeking recognition as a candidate for Honours shall choose one subject from Schedule A as his subject for Special Studies.

22. If a student obtains in his first year of study a pass at Credit level or better in Course I or Course IZ of the subject for Special Studies, he may apply to the appropriate Head of School for formal recognition as a candidate for Honours.

23. A candidate for Honours shall complete the nine prescribed qualifying courses in accordance with the following:

(a) Course I (or Course IZ) of the subject for Special Studies shall be completed in the first year of study; Course II (or Course IIZ) shall be completed in the second year of study; Courses IIIA and IIIB shall be completed in the third year of study; and Course IV shall be completed in the fourth year of study. Candidates shall complete Courses II (or IIZ), IIIA and IIIB in both Pass and Honours syllabuses.

(b) In addition, a candidate, by the end of his second year of study, shall have completed four subsidiary courses which shall be required to include an approved sequence of two courses.

(c) Subject to these Rules, the Head of the School of the subject for Special Studies may prescribe the subjects of which the four subsidiary courses shall be completed as required by sub-Clause (b) of this Clause.

24. A candidate must obtain a pass at Credit level or better in the examinations of all courses of his Special Studies subject.

25. In special circumstances a candidate for the Honours degree who does not fulfil the requirements of Clauses 20 to 24 or who seeks to withdraw from the Special Studies programme may be considered by Faculty for the award of the Pass Degree of Bachelor of Arts provided that he has completed at least eight courses in the Special Studies programme (including Courses IIIA and IIIB of the subject for Special Studies) and has obtained a pass at Credit level or better in at least two of them beyond the first year level.

26. A candidate who at any stage fails to meet the necessary standards of competence and who does not fall within the provisions of Clause 25 may be required by Faculty to transfer to the programme for the Pass Degree and shall then comply with Clauses 12 and 13 to be eligible for the award of the Pass Degree. Alternatively, Faculty may prescribe an additional course or courses the completion of which shall render the student eligible for the award of the Pass Degree.
SECTION E

Rules Relating to the Programme for the Degree of Bachelor of Arts in Combined Special Studies—Honours Degree

27. The degree of Bachelor of Arts in Combined Special Studies shall be awarded at the Honours level only and a recognised candidate for Honours shall complete nine qualifying courses of subjects in four years of study. The nine qualifying courses shall comprise eight of those listed in Schedule A plus a special Course IV which shall be concerned with study at an Honours level of two appropriate subjects and all nine courses shall be completed in accordance with the provisions of Clauses 28 to 32. There shall be no re-examination in the special Course IV.

28. A student seeking recognition as a candidate for Honours shall choose as his subjects for Combined Special Studies two from Schedule A provided that the combination of subjects so chosen is approved by the Heads of the Schools concerned.

29. If a student obtains in his first year of study a pass at Credit level or better in Course I or Course IZ of each of the subjects for Combined Special Studies, he may apply to the appropriate Heads of Schools for formal recognition as a candidate for Honours.

30. A candidate for Honours shall complete the nine prescribed qualifying courses in accordance with the following:

(a) Course I (or Course IZ) of each of the subjects for Combined Special Studies shall be completed in the first year of study; Course II (or Course IIZ) of each of these subjects shall be completed in the second year of study; Course IIIA (or, if in any special case, Course IIIB) of each of these subjects shall be completed in the third year of study; and a special Course IV relating to these two subjects and comprising studies jointly prescribed by the Heads of the Schools concerned shall be completed in the fourth year of study. Candidates shall complete Courses II (or IIZ) and IIIA (or IIIB) in both Pass and Honours syllabuses.

(b) In addition, a candidate, by the end of his second year of study, shall be required to have completed two subsidiary courses of subjects chosen from Schedule A.

(c) Subject to these Rules, the Heads of the Schools of the subjects for Combined Special Studies may prescribe the courses specified in sub-Clause (b) of this Clause.

31. Where a Course IIIB of one of the subjects for Combined Special Studies involves a Pass as well as an Honours component, that Course may, with the approval of the Head of the School
concerned, be substituted for a Course IIIA in satisfying the relevant requirement of sub-Clause (a) of Clause 30.

32. A candidate must obtain a pass at Credit level or better in the examinations of all courses of both his subjects of Combined Special Studies and in the Special Course IV.

33. In special circumstances a candidate for the Honours degree who does not fulfil the requirements of Clauses 27 to 32 or who seeks to withdraw from the Combined Special Studies programme may be considered by Faculty for the award of the Pass Degree of Bachelor of Arts provided that he has completed at least eight courses in the Combined Special Studies programme (including the Course III of each of the subjects for Combined Special Studies) and has obtained a pass at Credit level or better in at least two of them beyond the first year level.

34. A candidate who at any stage fails to meet the necessary standards of competence and who does not fall within the provisions of Clause 33 may be required by Faculty to transfer to the programme for the Pass Degree and shall then comply with Clauses 12 and 13 to be eligible for the award of the Pass Degree. Alternatively, Faculty may prescribe an additional course or courses the completion of which shall render the student eligible for the award of the Pass Degree.

SECTION F

Rules Relating to the Recognition of Courses Completed Outside the Faculty of Arts

35. Subject to the provisions of Clause 37,

(a) A graduate or undergraduate in another Faculty of this University may be granted advanced standing in a programme in the Faculty of Arts with credit for not more than four of the courses listed in Schedule A which have already been completed in the other Faculty. Where credit is granted, under these provisions, for courses forming a major sequence of three, the candidate shall be required to complete, inter alia, an approved sequence of three courses or an approved special major sequence of four courses in the Faculty before becoming eligible for the award of the degree.

(b) A candidate who, before enrolment in the Faculty, has completed a course or courses at another University may, at the discretion of Faculty, be granted credit towards the degree of Bachelor of Arts for not more than four such courses, provided that credit shall not be granted for Course III of a subject.
36. Subject to the provisions of Clause 37, a candidate in attendance at the University of New South Wales may, in special circumstances, be permitted by Faculty to complete concurrently at another University not more than three courses and to count such courses as partially fulfilling the requirements for the Degree, provided that permission shall not be granted to count courses which are taken externally at the other University or which are available in the University of New South Wales.

37. An applicant seeking to take advantage of any of the provisions of Clauses 35 or 36 shall first submit in writing to Faculty a statement setting out a list of the courses for which he seeks credit or which he wishes to complete at the other University, and a list of the remaining courses that he proposes to complete within the Faculty in order to qualify for the degree. Faculty shall then determine the course or courses, if any, for which credit is to be granted or the course or courses which the applicant may complete at the other University and count towards the degree, and shall also determine the remainder of the applicant's programme within the Faculty.

SECTION G

Saving Clauses

38. Upon sufficient cause being shown, Faculty may, in a particular case or cases*, vary the requirements of any of the preceding clauses for the award of the degree of Bachelor of Arts provided that any proposed variation to Clauses 22, 23, 24, 28, 29, 30 or 32, shall be initiated by a report to the Faculty from the Head or Heads of Schools concerned recommending the proposed variation.

39. For any student who was enrolled as a candidate in the Faculty before 1st January, 1967, Faculty may, in exceptional circumstances, determine a programme in accordance with these Rules to be followed after 1st January, 1967, in order that the student may satisfy the requirements for the degree.

* Note: Faculty has determined that, for the time being, students at Wollongong University College who are enrolled as part-time candidates for the degree need not meet the requirements of Clause 6 (a).
ANNUAL EXAMINATIONS

Formal examinations in most faculties are held in June-July and November-December. Provisional timetables including the dates and times of examinations are posted on the central notice boards in the Wallace Wurth Medical School, Biological Sciences Building, the Chancellery, Central Lecture Theatre Block, Dalton (Chemistry) School, Main Building (Mining and Physics), outside the Science Theatre and in the Western Grounds Area on 7th May and 10th September. Students must advise the Examinations Unit (Chancellery) of clash of examinations by 20th May and 23rd September. Final timetables will be displayed and individual copies available for students, on 4th June and 29th October.

Misreading of the timetable is not an acceptable excuse for failure to attend an examination.

A student suffering from a physical disability which puts him at a disadvantage in written examinations should apply to the Registrar in writing, as early as possible, for special provisions to be made for him to take examinations. The request should be supported by medical or other evidence.

Examinations are conducted in accordance with the following rules and procedure:

(a) Candidates are required to obey any instruction given by an examination supervisor for the proper conduct of the examination.

(b) Candidates are required to be in their places in the examination room not less than ten minutes before the time for commencement.

(c) No bag, writing paper, blotting paper, manuscript or book, other than a specified aid, is to be brought into the examination room.

(d) No candidate shall be admitted to an examination after thirty minutes from the time of commencement of the examination.

(e) No candidate shall be permitted to leave the examination room before the expiry of thirty minutes from the time the examination commences.

(f) No candidate shall be re-admitted to the examination room after he has left it unless during the full period of his absence he has been under approved supervision.
(g) A candidate shall not by any improper means obtain, or endeavour to obtain, assistance in his work, give, or endeavour to give, assistance to any other candidate, or commit any breach of good order.

(h) Smoking is not permitted during the course of examination.

(i) All answers must be in English unless otherwise directed. Foreign students who have the written approval of the Officer-in-Charge of Examinations may use standard translation dictionaries.

(j) A candidate who commits any infringement of the rules governing examinations is liable to disqualification at the particular examination, to immediate expulsion from the examination room and to such further penalty as may be determined in accordance with the By-laws.

A student who through serious illness or other cause outside his control is unable to attend an examination is required to bring the circumstances (supported by a medical certificate or other evidence) to the notice of the Registrar not later than seven days after the date of the examination, and may be required to submit to medical examination.

A student who attempts an examination yet claims that his performance is prejudiced by sickness on the day of the examination, must notify the Registrar or Examination Supervisor, before, during or immediately after the examination and may be required to submit to medical examination.

A student who believes that his performance at an examination has been affected by serious illness during the year or by other cause outside his control, and who desires these circumstances to be taken into consideration in determining his standing is required to bring the evidence (supported by medical certificates or other evidence) to the notice of the Registrar not later than seven days after the date of the examination.

In the assessment of a student’s progress, consideration is given to work in laboratory and class exercises and to any term or other tests given throughout the year, as well as to the results of written examinations.

Final examination results are posted to the term addresses of students and it is therefore essential that any change of address be advised to the Examinations and Student Records Section. Results are also posted on School notice boards and in the foyer of the Library. No examination results will be given by telephone.

Examination results may be reviewed for a fee of $11.00 a subject, which is refundable in the event of an error being discovered. Such a review will consist primarily in ensuring that all questions attempted
by candidates have been marked and that the total of all marks awarded are correct. Applications for review must be submitted on the appropriate form to the Examinations and Student Records Section, together with the necessary fee by the date indicated on the notification of results.

**EXAMINATION RESULTS**

**Graded Passes**

Passes will be graded as follows:
- High Distinction (indicates a quite superior performance).
- Distinction (indicates a superior performance).
- Credit (indicates a good, but not superior performance).
- Pass (indicates the achievement of an acceptable minimum level of competence in relation to the course objectives.)

**Pass Conceded**

A pass conceded may be granted to students where the mark in the subject is slightly below the required standard and whose overall performance warrants it.

**Terminating Pass**

A terminating pass may be granted where the mark for the subject is below the required standard. A terminating pass will not permit a student to progress further in the subject or to enrol in any other subject for which a pass in the subject is a co-requisite or prerequisite. A student granted a terminating pass may attempt a deferred examination, if available, to improve his performance, but if the student fails the deferred examination, the terminating pass will stand.

**DEFERRED EXAMINATIONS**

Deferred examinations may be granted in the following cases:—

(i) When a student through illness or some other acceptable circumstance has been prevented from taking the annual examination or has been placed at a serious disadvantage during the annual examinations.

Applications for deferred examinations in the first category must be lodged with the Registrar with appropriate evidence of the circumstances (e.g., medical certificate) not later than seven days after the examination concerned.

All such applications shall be reported to the Head of the School responsible for the subject. Before a deferred examination is granted on medical grounds, regard shall be paid to the
students' class and assignment work in the subject, to his general performance in the year, and to the significance of the annual examination in compiling the composite mark.

(ii) To help resolve a doubt as to whether a student has reached the required standing in a subject.

(iii) To allow a student by further study to reach the required standard in a subject. The granting of a deferred examination in such cases will be based on the general quality of the student's performance.

(iv) Where a student's standing at the annual examinations is such that his progression or graduation could depend on his failure in one subject only, then his position in that subject shall be again reviewed with a view to determining whether a deferred examination may be granted notwithstanding his failure otherwise to qualify for such concession.

Deferred examinations must be taken at the centre in which the student is enrolled, unless he has been sent on compulsory industrial training to remote country centres or interstate. In this case the student must advise the Registrar, on a form available from his school or the Enquiry Desk, Chancellery, of relevant particulars, before leaving for his destination, in anticipation that deferred examination papers may have to be forwarded to him. Normally, the student will be directed to the nearest University for the conduct of the deferred examination.

A student eligible to sit for a deferred examination must lodge with the Accountant an application accompanied by the fee of $8 per subject, by the date indicated on the notification of results.

(i) Except in exceptional circumstances, deferred examinations may only be granted in Commerce degree courses in subjects taught by schools of the Faculty or by those schools in the Faculty of Arts listed in (ii) below, or in Arts degree courses in subjects offered by the School of Economics, when a student through illness or for some other acceptable reason has been prevented from taking the examination or has been placed at a serious disadvantage during the examination;

(ii) Except on medical or compassionate grounds, no deferred examination may be granted in the Arts degree course in the subjects offered by the Schools of Drama, English, French, History, Philosophy, Russian and Sociology.

Conceded Deferred Examination

A conceded deferred examination, may be granted to a student where the mark in the subject is below the standard at which deferred examinations have been granted in the subject but whose overall performance warrants such a concession.
### FACULTY OF ARTS TIMETABLE 1974

This timetable is subject to alteration. Students should consult Faculty and School noticeboards for changes, and for lecture locations prior to enrolment. If a subject is not listed, students should consult the relevant School.

HELP IMPROVE YOUR HANDBOOK

It is important to the University and to yourself that you understand its conventions and regulations. The University Calendar and faculty handbooks are means by which the University attempts to convey, amongst other things, information regarding the facilities it has to offer, and the rules and regulations which govern the conduct and progress of students.

You can help us assess the efficacy of the handbooks by completing this questionnaire, and thereby help yourself and your fellow students in the years to come.

1. Name of faculty Course Yr./Stage

A. CONTENTS

2. What information in your handbook did you find most useful? .............................................................................................................

3. (a) What information did you find least useful? .........................................................................................................................

   (b) Why was the information of so little use to you? .................................................................................................................

4. How would you rate the following information areas for inclusion in the handbook? (Tick appropriate square)

   Calendar of dates ........................................................................... ☐ ☐ ☐
   List of academic staff ..................................................................... ☐ ☐ ☐
   Course outlines or rules governing course .................................... ☐ ☐ ☐
   Descriptions of subjects ................................................................... ☐ ☐ ☐
   Textbook lists .................................................................................. ☐ ☐ ☐
   Reference book lists ........................................................................ ☐ ☐ ☐
   Requirements for admission .............................................................. ☐ ☐ ☐
   Admission and enrolment procedures ............................................. ☐ ☐ ☐
   Course fees ..................................................................................... ☐ ☐ ☐
   Rules relating to students ................................................................. ☐ ☐ ☐
   Student services ................................................................................ ☐ ☐ ☐
   Scholarships .................................................................................... ☐ ☐ ☐
   Student activities .............................................................................. ☐ ☐ ☐
   Examination procedures ................................................................. ☐ ☐ ☐
   Timetables ....................................................................................... ☐ ☐ ☐

5. Please comment on any aspect of the information areas listed in Question 4 and particularly, if you think necessary, on the form of presentation i.e., its content, layout, position

.............................................................................................................

.............................................................................................................
6. If there is any section which you feel might be expanded, please list and state why you feel it should be expanded. ..............................................................

7. Would you like any of the following included in the handbook?

Photographs of senior academic and administrative personnel .................. ...
Prices of textbooks .........................................................................................
Names of lecturers listed alongside subject descriptions ..............................
Timetables ...........................................................................................................
Map of the Campus ...........................................................................................
Any other items .................................................................................................

YES NO

8. Do you use the textbook lists in your handbook when buying your books? .......................................................... ..........................................................

If 'NO', please state where you obtained a list of the required textbooks .......................................................... ..........................................................

9. Do you use your handbook when selecting reference books? ..........................

If 'NO', please state where you obtained your list of reference books ..........................

10. The handbooks are generally available at the latest by mid-December. Is this date early enough for your purposes? ..........................................................

If 'NO', please nominate a month when you feel they should be on sale ..........................

11. Have you ever sought information from the University Calendar because it was not available in the handbook? ..........................................................

If 'YES', please indicate which information ..........................

12. If you had any difficulty in obtaining a copy of your handbook, please outline problem ..........................................................

B. FORMAT

13. Is the handbook a convenient size? ..........................................................

14. Would you prefer some of the information to be presented differently, e.g., in tabular form, or expressed in a less complex manner or perhaps communicated in some other way? ..........................................................

If 'YES', please give examples of what you would like changed, and how you would change it ..........................

15. Have you any comments which you would like to make on either the contents or format? ..........................................................

When you have completed this form, please either return it personally to Marianne Devin, Publications Officer, Room 307, The Chancellery, or post it via the internal mail system. Thank you for your co-operation.
