Faculty Information

Arts Subject Timetable

The timetable for Arts subjects is published in a separate booklet and will be distributed to new students on final enrolment. Later year students will receive a copy of the timetable with their re-enrolment forms, which will be distributed before the end of the current year of study. Other students enrolling in Arts subjects may collect a copy from the Faculty of Arts Office, Room G1, Morven Brown Building.

Students in Years 2, 3 and 4 are reminded that alterations to the published timetable are occasionally made before the beginning of session. A check should be made with the appropriate school/department during late February for times of Upper Level subjects.

Textbooks

Text and reference books are not listed in this Handbook. The University publishes a separate Text and Recommended Book List for each faculty, which is available free of charge from the Faculty Office Room G1, Morven Brown Building from January each year.

Faculty of Arts Library Facilities

Although any of the University Libraries may meet specific needs, staff and students of the Faculty of Arts are mainly served by the Social Sciences and Humanities Library.

The Social Sciences and Humanities Library

This library is designed to serve the specialized reference and research needs of staff, graduate students and undergraduate students.

All students are welcome to use the library and to borrow books from it. The main entrance to the Social Sciences and Humanities Library can be reached by taking the lift to Level 4 of the library building.

Undergraduate Services

• The Open Reserve Section houses books and other materials which are required reading. Level 2.
• The Audio-Visual Section contains multimedia, videos and cassette tapes of lectures. The Audio-Visual Section
Arts has wired study carrels and cassette players for student use. The map collection is also housed here. Level 3.

- The Reader Education program provides orientation tours and introductory library research method lectures to students.

**Technical Resources Centre**

The TRC supports teaching and research activities that require technical facilities such as film, video tape, audio tape and computing.

The Language Laboratories are located in the complex on the first floor of the Morven Brown Building, and classrooms equipped for AV-assisted teaching are situated on both the first and second floors.

The Computer Laboratories are managed by the TRC.

**Computer Laboratories**

The Faculty has three computer laboratories for use by students and academic staff. There are two labs with Macintosh computers and a smaller lab with MS-DOS machines. These facilities are equipped with a range of basic software, and more specialised packages may be borrowed from the Technical Resources Centre. Depending on availability, students may book time on a machine in any of the labs. Help is available from a Technical Officer and a Laboratory Assistant.

Several subjects are offered that deal with the use of computers in an Arts environment, including a single session First Year unit titled Introduction to Computer Applications and Quantitative Methods (SLSP1001) which, depending on the demand on the facilities, is open to all students in the Faculty.

**Student Clubs and Societies**

Students have the opportunity of joining a wide range of clubs and societies. Many of these are affiliated with the Students’ Union. There are numerous religious, social and cultural clubs and also many sporting clubs which are affiliated with the Sports Association.

Clubs and societies seeking to use the name of the University in their title, or seeking University recognition, must submit their constitutions to either the Students’ Union or the Sports Association if they wish to be affiliated with either of these bodies, or to the Registrar for approval by the University Council.

For information about the following Societies see under each School’s entry in the Subject Descriptions section:

- The Collegium Musicum Choir of UNSW
- The English Society
- The French Society
- The Geographical Society
- The German Society
- The Hispania Society
- The History Students Association
- The Indonesian Study Society
- The Psychological Society
- The Scientia Society
- The Socratic Society (School of Philosophy)
- The Student Association of Social Sciences

**Student Representatives**

Each year six student members are elected to the Faculty to represent all students studying Arts subjects. These students have full voting rights at Faculty meetings and committees and hence a direct input in decisions affecting Arts students. Student representatives can be contacted through the Arts Faculty Office, Room G1, Morven Brown Building.

**Students With Disabilities**

The University of New South Wales has a policy of equal opportunity in education and seeks wherever possible to ensure maximum participation of students with disabilities. The University offers a range of assistance: examination support; specialized equipment; educational support; parking provisions; library assistance.

A Resource Guide for students and staff with disabilities and a map showing wheelchair access is available from the Adviser to Students with Disabilities, the EEO Unit, the Library and the Students’ Union.

It is advisable to make contact with the Adviser to Students with Disabilities prior to, or immediately following enrolment, to discuss your support needs.

The Adviser can be contacted on 697-5418 or at Building F15 (Careers & Counselling Unit).

**General Education Requirement**

The University requires that all undergraduate students undertake a structured program in General Education as an integral part of studies for their degree.

Among its objectives, the General Education program provides the opportunity for students to address some of the key questions they will face as individuals, citizens and professionals.

The program requires students to undertake studies in three categories of the program:
CATEGOR B. An introduction to, and a critical reflection upon, the cultural bases of knowledge, belief, language, identity and purpose.

CATEGOR C. An introduction to the development, design and responsible management of the systems over which human beings exercise some influence and control. This category is required only of students in four-year professional and honours programs.

The key questions addressed by the Program are:

CATEGOR A: The External Context
Course requirement: 2 x 28 hr subjects

1. How do we, can we, generate wealth? (Australia and the Development of the World Economy)
2. How can we, ought we, distribute wealth, status and power? (Human Inequality)
3. What steps should we take, and what policies should we adopt, in science and technology? (Science and Civilization)
4. What effects do our wealth generating and techno-scientific activities have on the environment? (Ecosystems, Technology and Human Habitation)
5. What are the effects of the new mass media of communication? (Mass Media and Communication)
6. What are the key social and cultural influences on Australia today? (Australian Society and Culture)

Will these abilities be used, for example:
(i) in a creative and innovative way?
(ii) to widen the circle of human participation in the benefits they bring?
(iii) to break down the barriers of exclusion and discrimination?
(iv) to enhance the prospects for survival of the human species?
(v) to enhance the capacity of the planet earth to sustain life?

The exact form in which Category C will be satisfied is still being decided and should be finalized during 1991. This could involve, however, a slight change to the later years of each of the courses. There are differing requirements for students commencing before, in, and after 1988. Students must complete a program of general education in accordance with the requirements in effect when they commenced their degree program. Students should consult the appropriate course authority or the Centre for Liberal and General Studies in Morven Brown Building, Room G58.

CATEGOR B: The Internal Context of Assumptions and Values
Course requirement: 2 x 28 hr subjects

1. How do we define ourselves in relation to the larger human community? (The Self and Society)
2. How do our conceptions of human nature and well being influence both individual and social behaviour? (Changing Conceptions of Human Nature and Well-Being)
3. What are the prevailing conceptions of and challenges to human rationality? (The Pursuit of Human Rationality)
4. How do language, images and symbols function as means and media of communication? (The Use of Language, Images and Symbols)
5. What is the impact of the computer on human society and culture? (The Computer: Its Impact, Significance and Uses)
6. Which systems of belief and configurations of values are most conducive to the survival and enhancement of the human species and the planet earth? (Beliefs, Values and the Search for Meaning)

CATEGOR C: An Introduction to the Design and Responsible Management of the Human and Planetary Future

The central question to be addressed by students in a systematic and formal way is:
For what purpose or purposes will I use my intellectual skills, my expertise, or my technological prowess?
How to Use This Handbook

In planning your program for the BA, BSocSc, BMus, BA (Asian Studies) or BSocSc (Asian Studies) degrees, you should first read the section Subject Areas in the Faculty, which will give you an overview of subjects in the areas that interest you, even if they are taught by schools you might not have thought of looking at initially. Schools and programs offering a major sequence are identified by a four-letter code (eg AUST, Australian Studies Program, THST, Department of Theatre Studies). This code will help you find the details of the subjects later in the Handbook, as it appears in the top corner of each page in the section Summary of Subjects, which gives you all the basic information about subjects and sequences in schools and programs, and the section Subject Descriptions, which includes full details on content, assessment, major sequences and Honours level entry.

Then read the section How to Structure Your Degree Program, to familiarise yourself with the requirements for the program in which you are enrolling. In most cases, you will need to read Rules Governing the Award of the Degree only if you have special problems related to, for instance, advanced standing or interruptions to your study program; they are the University’s official regulations, and set down in ‘legal’ language what is and is not possible within the degree programs.

If you have problems deciding on your subjects, it is often a good idea to talk them over with a staff member from the school/program in which you want to specialise; the staff in the Faculty Office will also be glad to help you with the ‘nuts and bolts’. At the head of each section in Summary of Subjects you will find the official person to contact for advice about the subjects offered.

It is your responsibility to ensure that your program satisfies the requirements for the degree for which you are studying, and the Faculty can accept no responsibility for incorrect enrolments. The staff of the Faculty Office Room G1, Morven Brown Building are, however, happy to check your program at any time and advise you of any apparent anomalies.
The following subject areas are listed alphabetically in this section.

How to Structure Your Degree Program

1. Bachelor of Arts

The basic requirements for the degree are:

1. a total of 108 credit points. Each subject offered by the Faculty has a credit point rating, depending on the number of hours taught and the type of subject.
2. no more than 48, and no fewer than 36, credit points obtained in Level 1 subjects i.e. subjects designed for students in their first year of study. Of these, no more than 24 may be taken in subjects offered by the Faculty of Commerce and Economics, and no more than 12 in any one school or department.
3. a major sequence in one of the following:

A major sequence is an approved progression of subjects in a school or program: you will find details under the relevant entry in Subject Descriptions.

4. either an additional major sequence offered in any other school/department/program within the BA course or at least 54 credit points gained in subjects outside the school/department in which you are majoring, so that your program does not become too one-sided.

How to Choose Your First Year Program

You should include the first year requirements for at least two major sequences in schools or departments in your program, as you must complete at least one to qualify for the degree. Find the subjects you need from the corresponding entries in Subject Descriptions: this will normally account for 24 credit points of your first year program. In deciding what other subjects to enrol in, look again at Subject Areas within the Faculty, to see which subjects best complement the ones you have chosen. These may not necessarily be 'close relations'; for instance, a foreign language may be extremely useful for a history major, and vice versa. Unless you are a part-time or mature age student, you should enrol in subjects carrying at least 36 credit points. Students often start off with 48; it is quite possible and easy to drop the extra subjects if you find the program too heavy for you, or one of the subjects does not match your expectations.

Upper Level and Honours Entry

In structuring your program for second and third year Upper Level, it is essential that you fulfil the requirements for a major sequence in the school(s) or department(s) in which you are specialising. If you have any doubts about them, make sure you consult a member of staff before enrolling in second year. Try to complement your majors with subjects which will provide you with skills and perspectives which will contribute to a broader and more critical approach to your special area of interest. Major sequences offered by programs eg AUST Australian Studies are designed to provide this kind of context. Although, in most cases, they cannot be taken as the only major in your degree, they offer an interdisciplinary alternative to a second school-based major, or simply a way of giving more coherence to your other subjects. Comparisons and connections are often the best way of bringing the particular problems of an area of study into clearer focus. Here again, you will find Subject Areas in the Faculty useful; members of staff may be able to recommend particular subjects in other schools which will help you in the direction you wish to take.

While it is desirable that all Upper Level students seek advice on their program from their home school, it is essential for intending Honours students. If you want to proceed to fourth year Honours Level in one or two schools or programs, you should work out a program which fulfils the requirements for Honours Level entry with the Head of School or course coordinator concerned as early as possible in second year; with Combined Honours Honours in two schools programs in particular, this can avoid many later problems eg missing prerequisites. Details of requirements for Honours entry can be found under the relevant entry in Subject Descriptions.

General Education Requirement

Following a resolution of the University's Council, students enrolling for the first time for undergraduate degrees within the Faculty of Arts from 1989 onwards are required to complete subjects from the University's General Education Program, normally in the second and third year of study. For details consult the Handbook of the Centre for Liberal and General Studies.

MAJOR SEQUENCE, 36 Credit Points

Total required for BA: 108 credit points
2. Bachelor of Social Science

The basic requirements for the degree are:

1. A total of 108 credit points. Each subject offered by the Faculty has a credit point rating, depending on the number of hours taught and the type of subject.

2. No more than 48, and no fewer than 36, credit points obtained in Level 1 (first year) subjects, including the two core subjects and the first year subjects of your major sequence.

The basic requirements for the degree are:

1. A total of 108 credit points. Each subject offered by the Faculty has a credit point rating, depending on the number of hours taught and the type of subject.

2. No more than 48, and no fewer than 36, credit points obtained in Level 1 (first year) subjects, including the two core subjects and the first year subjects of your major sequence.

How to Choose Your First Year Program

Enrol in the core subjects SLSP1000 and SLSP1001 (see 2. above); then choose one area from 3. above you would like to major in, and enrol in the necessary first year (Level 1) subjects. Then select additional subjects from Subject Areas in the Faculty to make up your total of between 36 and 48 credit points.

Upper Level and Honours Entry

In second, and third year, enrol in the prescribed core subjects (see 2. above) and the necessary subjects for your major sequence. The additional credit points can be taken either in the area you chose as a possible second major or in other Upper Level subjects. Try to spread your workload evenly over the four sessions of study.

In addition, students who intend to apply for entry to the Honours year should enrol in the non-credit subject: SLSP3003 Internship Program in the third year of study.

For entry to Honours in the BSocSc degree course: you must have demonstrated, over the three years of the course, that you have reached a sufficient standard, and apply to the Head of Department for admission. If you wish to go on to Honours, you should ask staff in the program for advice on planning your course and defining your research interests at an early stage, perhaps during second year.

The BSocSc Honours Degree may be taken in three ways:

1. BSocSc Honours, with a Major in an approved area;
2. Combined BSocSc / approved area Honours. This program is undertaken in co-operation with a school offering a Combined Honours program.
3. BSocSc Honours Psychology

For details see the relevant entries under Subject Descriptions and Undergraduate Study: 3420 Bachelor of Social Science Degree Course.

Note: In their first year of study, students may not enrol in subjects carrying more than 24 credit points in the Faculty of Commerce and Economics.

General Education Requirement

Following a resolution of the University’s Council, students enrolling for the first time for undergraduate degrees within the Faculty of Arts from 1989 onwards are required to complete subjects from the University’s General Education Requirement, normally in the second and third year of study. For details consult the Handbook of the Centre for Liberal and General Studies.

3. Bachelor of Music

The Department of Music offers a postgraduate Master of Music (MMus) degree by coursework and an undergraduate major sequence for the BA. The BMus degree equips students with an undergraduate degree with vocational qualifications, while providing a method of entry to the MMus course additional to that supplied by the Arts major in Music. It is also available as an Honours degree.

Enrolment in the BMus signifies a greater degree of specialisation in music. It requires successful completion of additional Music units and the development of vocational interests and skills beyond those already expected of all undergraduates pursuing a major sequence in Music. In doing so it builds on the experience common to all students up to the end of the first year of the BA major in Music. Entry to the BMus is made directly in first year, or by conversion from the BA Music major at the end of first year at a standard acceptable to the Department, normally Credit level or higher.

This degree differs from BMus degrees offered at some other institutions in placing its first emphasis on musicology and musicianship, while also allowing for assessment of formal performance in special cases.

The basic requirements for the degree are:

1. either of the major sequences listed below.

2. further credit points to a total for the degree of at least 108, chosen in accordance with Arts degree undergraduate regulations.

Major sequence A

First Year
MUSI1002 Music 1C (12 credit points)

Second Year
MUSI2002 Music 2C (12 credit points)

Third Year
MUSI3002 Music 3C (12 credit points)

Plus
MUSI2101 History of Performance Conventions (Performance Practice) (3 credit points)

Plus
MUSI2102 Orchestration and Arrangement (3 credit points)

Honours level

Prerequisite: Completion of all requirements for the Pass degree with an average of at least Credit level in Music subjects.

MUSI4000 Bachelor of Music Honours

Major sequence B

First Year
MUSI1000 Music 1A (6 credit points)

Plus
MUSI1001 Music 1B (6 credit points)

Second Year
MUSI2001 Music 2B (12 credit points)

Third Year
MUSI3001 Music 3B (An extra year is normally required for Music 3C and the special BMus subjects. In exceptional circumstances, and with special approval, it may be possible to complete Music 3B and the subjects listed under Fourth Year in Third Year.)

Plus
MUSI2101 History of Performance Conventions (Performance Practice) (3 credit points)

Plus
MUSI2102 Orchestration and Arrangement (3 credit points)

Fourth Year
MUSI3002 Music 3C (12 credit points)

Plus
MUSI3004 BMus Seminar in Musicology (6 credit points)

Plus
MUSI3005 Special Project: either a musicological research paper (12 credit points) or an annotated recital (an option requiring the approval of the Head of the Music Department) (12 credit points) or another approved Special Project (12 credit points).

General Education Requirement

Following a resolution of the University's Council, students enrolling for the first time for undergraduate degrees within the Faculty of Arts from 1989 onwards are required to complete subjects from the University's General Education Program, normally in the second and third year of study. For details consult the Handbook of the Centre for Liberal and General Studies.

4. Bachelor of Arts (Asian Studies)

The Bachelor of Arts (Asian Studies) degree is designed as an integrated program combining language, a social science discipline and Asia-related study.

The study of Asian societies and Asian languages is increasingly important for Australia. Australia is located in the Asian region, most of its trade is with Asia and Asian countries are becoming important sources of investment in Australia. They are also becoming important areas for investment by Australian companies. Australia's future lies in increasing social, economic and political interaction with Asian countries. Graduates who combine proficiency in an Asian language and knowledge of one or more Asian countries with a discipline or professional qualification will be in increasing demand by both private and public employers.

The basic requirements for the degree are:

1. a total of 108 credit points. Each subject offered by the Faculty has a credit point rating, depending on the number of hours taught and the type of subject.
2. at least 60 credit points in Asian language and Asia-related subjects in accordance with Program A or B.

Program A

(i) 36 credit points in one of the following languages:
   - Chinese
   - Indonesian
   - Japanese

(ii) 24 credit points in Asia-related subjects prescribed for the Bachelor of Arts (Asian Studies) degree, of which at least 12 credit points must be at Upper Level.

Program B

(i) 24 credit points in one of the following languages:
   - Chinese
   - Indonesian
   - Japanese

(ii) 36 credit points in Asia-related subjects prescribed for the Bachelor of Arts (Asian Studies) degree, of which at least 24 credit points must be at Upper Level.

3. a major sequence (12 Level 1 and at least 24 Upper Level credit points) in one of the following schools or departments:
   - Economic History
   - Economic
   - History
   - Industrial Relations and Organizational Behaviour
   - Political Science
   - Science and Technology Studies
   - Sociology

   If you want to take your major sequence in an area other than those above, you may apply to the course coordinator for special permission.

4. no more than 48, and no fewer than 36, credit points obtained in Level 1 subjects (i.e. subjects designed for students in their first year of study.)

Details of the Chinese, Indonesian and Japanese language subjects can be found in the Subject Descriptions section of this handbook under the individual language.

Details of these Asia-related subjects can be found in the Subject Descriptions section of this Handbook under the entry for the relevant school or department. Some subjects have pre- or co-requisites.

Honours Level

Students are encouraged to consider a fourth Honours year of study. In order to be eligible you must have completed the prerequisites for Honours study in a school or department in the Faculty of Arts. Each school and department has individual requirements. You should consult the entry in the Handbook for the school or department in which you intend to focus your study. If you are considering proceeding to Honours Level study you should consult the BA (Asian Studies) course adviser before enrolling in your second year in order to ensure that you complete the necessary prerequisites.

General Education Requirement

Following a resolution of the University's Council, students enrolling for the first time for undergraduate degrees within the Faculty of Arts from 1989 onwards are required to complete subjects from the University's General Education Program, normally in the second and third year of study. Summary of Subjects

Undergraduate Courses

The following is a list of subjects, arranged alphabetically by subject discipline, which are available for study in the Faculty of Arts. The list shows details of prerequisites, co-requisites and exclusions (subjects which cannot be counted in addition to the subject listed) as well as the number of credit points allotted to each subject and the session(s) when it is taught. The amount of class contact time per week for each subject (in lectures, tutorials, practices) is shown in the column headed CCH (class contact hours).

Abbreviations Used

- SS: Single Session
- S1 or S2: Session 1 or Session 2 (le choice of either session)
- CR: Credit Grade
- DN: Distinction Grade
- HD: High Distinction Grade
- I: Level I
- II, III, IV: Upper Level
- H: Honours Level
- CCH: Class Contact Hours

HSC Exam Prerequisites

Subjects which require prerequisites for enrolment in terms of the HSC Examination percentile range refer to the 1978 and subsequent Examinations.

Candidates for enrolment who obtained the HSC in previous years or who hold other high school matriculation should check with the appropriate school on what matriculation status is required for admission to a subject.

1. Admission to Higher Pure Mathematics 2 normally requires completion of MATH1042 Higher Mathematics 1; students who gain a superior pass in Year 1 may, subject to the approval of the Head of the School of Mathematics, be permitted to proceed to Higher Pure Mathematics 2 subjects. MATH1061 Discrete Mathematics is also advised.

2. Students considering doing Higher Pure Mathematics in Years 3 or 4 should take MATH2601, MATH2610, MATH2110 or MATH2110 and MATH2130 and MATH2400 Finite Mathematics A and B are also advised.

***Normal prerequisites for attempting Level III Pure Mathematics subjects are at least eight credit points in Level II Mathematics subjects including any subject prerequisites. For any listed prerequisite or co-requisite subject an appropriate higher subject may be substituted.

### Pure Mathematics Honours Level

MATH4603 Pure Mathematics 4 H F See Subject Descriptions: Mathematics MATH 10.123

†MATH3570 is strongly recommended as a co-requisite.
†††Students wishing to enrol in Level III Higher Pure Mathematics should consult with the Department before enrolling. Normal prerequisites for attempting Level III Higher Pure Mathematics subjects are at least eight credit points in Level II Mathematics subjects including any subject prerequisites, at an average of credit level, or their equivalents. Subject to the approval of the Head of Department, these may be relaxed.

***Normal prerequisites for attempting Level III Pure Mathematics subjects are at least eight credit points in Level II Mathematics subjects including any subject prerequisites. For any listed prerequisite or co-requisite subject an appropriate higher subject may be substituted.

* MATH3601 is strongly recommended as a co-requisite.
††Offered in odd numbered years.
†‡‡Offered in even numbered years.

Subject Descriptions

Identification of Subjects

A subject is defined by the Academic Board as ‘a unit of instruction approved by the University as being a discrete part of the requirements for a course offered by the University’.

In 1991 a new system of subject identification is introduced. Each approved subject of the University is identified by a sequence of eight characters, consisting of a four character alphabetical prefix which identifies the organizational unit responsible for administering the subject, and a four digit numeric suffix identifies the subject.

Subject identifiers are approved by the Registrar and the system of allocation is based on the following guidelines:

1. The authority offering the subject, normally a School of the University, is indicated by the four character alphabetical prefix.
2. Each subject identifier is unique and is not used for more than one subject title.
3. Subject numbers which have previously been used are not used for new subject titles.

Subjects taught are listed in full in the handbook of the faculty of board of studies responsible for the particular course within which the subjects are taken. Subject descriptions are contained in the appropriate section in the handbooks.

Appropriate subjects for each school appear at the end of each school section.

The identifying alphabetical prefixes for each organizational unit are set out on the following pages.

Servicing Subjects are those taught by a school or department outside its own faculty. Their subject descriptions are published in the handbook of the faculty which originates the subject and are also published in the handbook of the faculty in which the subject is taught. The following pages contain descriptions for most of the subjects offered for the courses described in this book, the exception being General Education subjects. For General Education subjects see the General Education Handbook which is available free of charge.

HSC Exam Prerequisites

Subjects which require prerequisites for enrolment in terms of the HSC Examination percentile range, refer to the 1978 and subsequent Examinations.

Candidates for enrolment who obtained the HSC in previous years or hold other high school matriculation should check with the appropriate school on what matriculation status is required for admission to a subject.

Information Key

The following is the key to the information which may be supplied about each subject:

S1 Session 1, S2 Session 2
P Session 1 plus Session 2, ie full year
S1 or S2 Session 1 or Session 2, ie choice of either session
SS single session, but which session taught is not known at the time of publication
CCN class contact hours
P/T part-time
L Lecture, followed by hours per week
T Laboratory/tutorial, followed by hours per week
hpw hours per week
wks weeks of duration

Australian Studies

The Australian Studies program groups subjects in which aspects of Australia are studied from the perspective of several different disciplines. A major sequence is offered, which must be accompanied by a major sequence in a home-based School or Department of the Faculty as specified in the Rules for the BA degree. Subjects may not be counted towards more than one major sequence. If you wish to major in Australian Studies, you should make sure that you include in your degree program any necessary prerequisites for the subjects you wish to take.

Check school/department for subject availability.

Major Sequence

Level 1 Prerequisite: 24 Level 1 credit points in Arts

Upper Level

The core subjects

AUST2000 Time, Space and Community in Australia

AUST2001 Encountering Aborigines: The Disciplinary Encounter and the Construction of Aboriginality

plus 18 credit points obtained as follows:

At least 6, and not more than 12, credit points in the following subjects:

Group A: Australian Arts and Culture

AUST2100 A Social History of Australian Jazz and Popular Music

AUST2102 Australian Political Fictions

ENGL3350 The 1890’s in Australia

ENGL3351 Black Writing in Australia

ENGL3353 Australian Female Author

ENGL3401 Contemporary Australian Women Writers

MUSI2207 Australian Traditional Music

MUSI2208 Australian Steps Towards Musical Self-Recognition 1840-1982

THST2032 Contemporary Australian Drama and Theatre

THST2061 Early Australian Theatre and Film

THST2072 Australian Cinema since 1970

At least 6 credit points in the following subjects:

Group B: Australian History and Social Sciences

AUST2101 Australian Legal Issues: The Relevance of Gender

AUST2103 Australia and the South Pacific

AUST2104 Aboriginal Australia

AUST2105 The Australian City

ECOH2315 The Economic History of Urbanization

ECOH3304 Australian Economic Development in the 19th Century

ECOH3305 Modern Australian Capitalism

GEOG1051 Global Environmental Problems and Processes

GEOG1062 Australia and Global Development

GEOG2081 Australian Environmental Problems

GEOG2092 Australian Social and Economic Landscapes

GEOG2102 Environmental Issues in Australia

GEOG3042 Environmental Impact Assessment

GEOG3051 Soils and Landforms

GEOG3152 Social Welfare and Urban Development

GEOG3172 Spatial Population Analysis

GEOG3192 Urban and Regional Development

HIST2019 Ireland and Australia in the 20th Century

HIST2027 Australia: 1901-49

HIST2028 Australia since World War II

HIST2029 Australian Perceptions of Asia: An Historical Perspective

HIST2033 Consensus and Conflict in Modern Australia

HIST2034 Gender and Frontier

SOCI3710 Readings of Australian Society

SOCI3801 Patterns of Persuasion

SOCI3808 The Sociology of Mass Communications

Subject Descriptions

Core Subjects

AUST2000 Time, Space and Community in Australia

B. Ashcroft

Prerequisite: 24 Level 1 credit points in Arts.

A study of the ways in which Australian culture has emerged through different discourses. Themes include views of the past, the writing of Australian histories, notions of cultural difference, the constitution of 'place' as a cultural phenomenon and principles of exclusion such as gender and race. (Old No. 60.070.)
AUST2001 Encountering Aborigines: S2 3CCH C6
The Disciplinary Encounter and the Construction of Aboriginality
J. von Sturmer, A. McGrath
Prerequisite: 24 Level 1 credit points in Arts.
An examination of the ways in which western intellectual traditions and concerns have responded to the encounter with Australian peoples, and of the impact of this relationship on the development of various disciplinary studies within Australia, as well as on Australian art, literature, film and the media. Students are asked to engage in close reading of primary texts, including films and media reports. (Old No. 60.071.)

AUST2000 A Social History of Australian Jazz and Popular Music S1 3CCH C6
B. Johnson
Prerequisite: 24 Level 1 credit points in Arts.
The history of Australian jazz in relation to the cultural context, including its connection with popular music and entertainment, with the other arts, and with the changing socio-economic climate. Discussion of the relevance of early forms of feminism and the intellectual avant-garde as exemplified in such movements as the Angry Penguins and the Contemporary Arts Society will examine the thesis that Australian jazz has frequently been allied with a radical stream in our culture. The relationship between jazz in Australia and other countries. (Old No. 60.090.)

AUST2102 Australian Political Fictions S1 3CCH C6
R. Smith, B. Ashcroft
Prerequisite: 24 Level 1 credit points in Arts.
This subject studies Australian politics through literary works. It examines the Australian political environment at various times since the 1880's, by exploring the relationship between explicitly political literary works and the society at the time. Issues include the emergence of working class politics, socialist realism, the Cold War, nationalism, the Whitlam dismissal, bureaucracy and Australian colonial relations.

AUST2104 Aboriginal Australia S1 3CCH C6
P. Behrendt
Prerequisite: 24 Level 1 credit points in Arts.
An Aboriginal perspective on Aboriginal society in the past, present and future. The subject presents a brief overview of Australia from antiquity to the contemporary Aboriginal reality. It deals with issues such as land rights, political movements and relationships between Aborigines and the law.

AUST2101 Australian Legal Issues 3CCH C6:
The Relevance of Gender
G. Lloyd, R. Graycar
Prerequisite: 24 Level 1 credit points in Arts.
An interdisciplinary subject, taught jointly by staff from the School of Philosophy and the School of Law, examining some of the issues of contemporary legal significance in Australian society, and of the ways in which gender is relevant to them, including: abortion, custody, pornography, injuries to women. Not offered in 1991. (Old No. 60.091.)

AUST2103 Australia and the South Pacific S2 3CCH C6
B. Ashcroft, G. McCall
Prerequisite: 24 Level 1 credit points in Arts.
A study of Australian attitudes and policies towards the South Pacific region from 1788 to the present. An examination of how Australians have responded to what remained until fairly recently an uncongenial geographical setting. The study will be interdisciplinary, with primary emphasis on historical and political and secondary attention to cultural issues. (Old No. 60.092.)

AUST2105 The Australian City S2 3CCH C6
D. Hambly, B. Ashcroft
Prerequisite: 24 Level 1 credit points in Arts.
This subject traces the development of urbanisation in Australia since 1788 with particular emphasis on Sydney. It will study urban development within the context of the major historical and social issues in Australian culture and explore alternatives to the rural myths which have characterised Australian identity. Themes will include issues such as colonial settlement, land use, federation, migration and modern Sydney.

Honours Entry
Admission to the Australian Studies Honours Level program is by approval of the Program Committee. Students seeking admission to the Honours program must have obtained:
1. At least 42 Upper Level credit points in prescribed Australian Studies subjects, including a) the core subjects AUST2000 and AUST2001 b) no fewer than 6, and no more than 18, credit points from each of groups A and B above.
2. A pass at Credit level or better in all core subjects.
3. Passes in all Australian Studies subjects completed at a standard which satisfies the Program Committee.

AUST4000 Australian Studies Honours (Research) Prerequisite: See above.
Students are required to undertake two seminar courses, and to prepare a thesis of 20,000 words which must be submitted before 1 November. Old subject 60.8400.
AUST4001 Australian Studies Honours (Coursework)
AUST4050 Australian Studies Honours (Research) P/T
AUST4051 Australian Studies Honours (Coursework) P/T
AUST4500 Combined Australian Studies Honours (Research)
AUST4501 Combined Australian Studies Honours (Coursework)
AUST4550 Combined Australian Studies Honours (Research) P/T
AUST4551 Combined Australian Studies Honours (Coursework) P/T
Graduate Study
An Australian Studies Program is also available at graduate level in the MA Interdisciplinary Studies degree course. See Graduate Courses later in this handbook.

Biological Science
The Year 1 course in Biology comprises subjects BIOS1011 and BIOS1021.

No more than 12 Level 1 and 12 Upper Level credit points from the subjects listed under Biological Science in the Summary of Subjects in this handbook may be counted towards the degree of Bachelor of Arts.

Requirements for Practical Work
Equipment required for practical work is set out in the Course Guide, available during enrolment time at the First Year Registration Centre (Physics Building). Students must purchase this prior to the first week of session.

Prerequisite:

- BIOS1011 (However, students without this prerequisite may seek the permission of the Director of Biology 1 to enrol). Excluded. 17.021, 17.041.

The evolution, diversity and behaviour of living things and the ways in which they have adapted to varying environments. Emphasis on the structure and function of flowering plants and vertebrate animals, and their roles in Australian ecosystems. The theory covered in lectures and tutorials is illustrated by observation and experiment in laboratory classes. (Old No. 17.041.)

Upper Level

BIOS2011 Evolutionary and Physiological Ecology

Prerequisites: BIOS1011 and BIOS1021. Excluded: 17.050.

An introduction to functional relationships between living organisms and the environments in which they live. Illustration of structural, physiological, ecological and behavioural characteristics at both cellular and organismic level as examples of adaptations or neutral traits, and the evaluation of these attributes as the outcome of ecological and evolutionary selection. Selected areas of the subject will also serve as an introduction to the process of scientific enquiry. (Old No. 17.050.)

BIOS2051 Flowering Plants

Prerequisites: BIOS1011 and BIOS1021. Excluded: 43.111, 45.111, 17.702.

The development of plants from seedling stage to maturity, the structural and environmental controls, and the close relationship between structure and function in major plant systems. Topics are: the properties of plant cells and their walls in relation to growth; differentiation and how cells are organised into different tissues; transport systems and the movement of water and photosynthetic products; seed structure, the physiology of germination and its regulation by internal and external factors; primary and secondary growth and its regulation by plant hormones; shoot systems; leaf development; arborescence; adaptation to particular environments; root systems; mineral acquisition and water uptake; root growth and development; interactions of roots with micro-organisms and the impact of symbiotic associations such as mycorrhizas on root structure and physiology; evolution of the land plants; the significance of having an enclosed carpel and the evolution of the gynoecium. Practical work provides: basic skills in plant anatomy and light microscopy; an introduction to the character states of flowering plant families in the Sydney region; how to use a key to identify a plant; growth and mineral nutrition, including collection of numerical data and a statistical approach to data handling; inoculation of plants with micro-organisms; an integrated approach to salt secretion in mangroves. (Old No. 17.702.)

BIOS3121 Taxonomy and Systematics

Prerequisite: 45.111 or 43.111 or 17.702 or BIOS2051. Excluded: 43.112, 17.703.

The assessment, analysis and presentation of data for classifying organisms both at the specific and supra-specific level. (Old No. 17.703.)

BIOS2041 Biometry

Statistical methods and their application to biological data, including introduction to probability; the binomial, Poisson, normal distributions; student's t, F and variance ratio tests of significance based on the above distributions, the analysis of variance of orthogonal and some non-orthogonal designs; linear regression and correlation. Non-linear and multiple
regression. Introductory factorial analysis. Introduction to experimental design. Non-parametric statistics, including tests based on $^2$, the Kruskal-Wallis test, Fisher’s exact probability test and rank correlation methods. Introduction to programming in BASIC. (Old No. 17.712.)

BIOS2031 Biology of Invertebrates S2 L2T4
Prerequisites: BIOS2031 and BIOS1021. Excluded: 45.201, 17.722.
A comparative study of morphology, taxonomy and functional biology of invertebrate animals. Emphasis is placed on the major groups Arthropods and Molluscs and on marine forms. Practical classes and a compulsory field camp illustrate the lecture material. The morphology and systematics of the major Phyla of invertebrate animals will be considered on a group by group basis, beginning with relatively simple animals and moving to the more complex. Within this framework the following will be considered: 1. functional biology including physiology, feeding mechanisms, reproduction and mode of life (free-living, sessile and parasitic); 2. the effect of increasing body size and complexity on physiological function (internal transport systems, excretion, gas exchange and coordination); 3. detailed coverage of the invertebrate component of zooplankton; 4. evolutionary relationships between Phyla - the Phyla covered will include Porifera, Cnidaria and Ctenophora, Platyhelminthes, Nemertina, Nematoda, Annelida, Arthropoda, Onychophora, Sipuncula, Bryozoa, Mollusca, Echinodermata, Hemichordata, Chaetognatha and non-vertebrate Chordata. (Old No. 17.722.)

BIOS2061 Vertebrate Zoology S1 L3T3
Prerequisites: BIOS1011 and BIOS1021. Excluded: 45.301, 17.732.
A comparative study of the Chordata, with particular reference to the vertebrates, including morphology, systematics, evolution and natural history, with reference to selected aspects of physiology and reproduction. Practical work to supplement the lecture course. Field excursions as arranged. (Old No. 17.732.)

Chemistry

No more than two Level 1 subjects 12 credit points and three Upper Level subjects (12 credit points) may be counted towards the degree of Bachelor of Arts.

Level I

CHEM1002 Chemistry 1 F L3T3
Prerequisites: HSC Exam Score
Range required
2 unit Mathematics* or 55-100
3 unit Mathematics or 1-50
4 unit Mathematics and 1-100

*This refers to the 2 Unit Mathematics subject which is related to the 3 Unit Mathematics subject. It does not refer to the subject 2 Unit Mathematics (Mathematics in Society).

Note: CHEM1002 is the normal prerequisite for Level 2 Chemistry.

CHEM1101 Chemistry 1A S1 L3T3
Prerequisites: HSC Exam Score
Range required
2 unit Mathematics* or 55-100
3 unit Mathematics or 1-50
4 unit Mathematics and 1-100
2 unit Chemistry or 53-100
3 unit Science or 90-150
4 unit Science or 1-50
2 unit Physics 53-100

*This refers to the 2 Unit Mathematics subject which is related to the 3 Unit Mathematics subject. It does not refer to the subject 2 Unit Mathematics (Mathematics in Society).

CHEM1201 Chemistry 1B S2 L3T3
Prerequisite: CHEM1101.
Molecular structure, valence bond theory, hybridization of orbitals, common geometries. Periodicity of physical and chemical properties of common representative elements and compounds. Chemistry of carbon compounds, alcohols, ethers, aldehydes, ketones, carboxylic acids and derivatives, amines. Polymers.

Note: The two subjects CHEM1101 and CHEM1201, taken sequentially, are equivalent to CHEM1002.
CHEM1302 Introductory Chemistry  F  L3  T3

Prerequisites:  
HSC Exam Score  
Range required  
2 unit Mathematics* or  55-100  
3 unit Mathematics or  1-50  
4 unit Mathematics  1-100  

* This refers to the 2 Unit Mathematics subject which is related to the 3 Unit Mathematics subject. It does not refer to the subject 2 Unit Mathematics (Mathematics in Society).

Note: CHEM1002 is the normal prerequisite for Level 2 Chemistry. However, students who perform very well in CHEM1302 will be permitted to continue on to Level 2 Chemistry with the permission of the Head of School of Chemistry.

CHEM1401 Introductory Chemistry A  S1  L3T3

Prerequisites:  
HSC Exam Score  
Range required  
2 unit Mathematics* or  55-100  
3 unit Mathematics or  1-50  
4 unit Mathematics  1-100  

*This refers to the 2 Unit Mathematics subject which is related to the 3 Unit Mathematics subject. It does not refer to the subject 2 Unit Mathematics (Mathematics in Society).

CHEM1501 Introductory Chemistry B  S2  L3T3

Prerequisites:  
HSC Exam Score  
Range required  
CHEM1401 Introductory Chemistry A  55-100  
2 unit Mathematics* or  55-100  
3 unit Mathematics or  1-50  
4 unit Mathematics  1-100  

Heat and light. Aromatic chemistry; aromatics, heterocycles, functional groups. Transition metal chemistry; coordination complexes, ligands, metal ions, coordination compounds. Inorganic chemistry; inorganic nomenclature, structure and bonding, physical and chemical properties of inorganic materials. Applications of inorganic chemistry to real-world problems. Thermodynamics applied to inorganic systems in solid and solution phases. (Old No. 2.102B.)

CHEM2011 Physical Chemistry  S1 or S2  L3T3

Prerequisites: 2.121 and 2.131, or 2.141; and MATH1042 or MATH1032 or MATH1011 and MATH1021. Excluded: 2.102A.

Thermodynamics: first, second and third laws of thermodynamics; statistical mechanical treatment of thermodynamic properties; applications of thermodynamics: chemical equilibria, phase equilibria, solutions of nonelectrolytes and electrolytes, electrochemical cells. Kinetics: order and molecularity; effect of temperature on reaction rates: elementary reaction rate theory. Surface chemistry and colloids: adsorption, properties of disperse systems: macromolecules and association colloids. (Old No. 2.102A.)

CHEM2021 Organic Chemistry  F or S2  L3T3

Prerequisite: 2.131 or 2.141. Excluded: 2.102B.

Discussion of the major types of organic reaction mechanisms eg addition, substitution, elimination, free-radical, molecular rearrangement within context of important functional groups eg aliphatic hydrocarbons, monocyclic aromatic hydrocarbons, halides, organometallic compounds, alcohols, phenols, aldehydes, ketones, ethers, carboxylic acids and their derivatives, nitro compounds, amines and sulfonic acids. Introduction to application of spectroscopic methods to structure determination. (Old No. 2.102B.)

CHEM2031 Inorganic Chemistry and Structure  S1 or S2  L3T3

Prerequisites: 2.121 and 2.131, or 2.141. Excluded: 2.102C.

CHEM2041 Chemical and Spectroscopic Analysis
Prerequisites: 2.121 and 2.131, or 2.141; and MATH1042 or MATH1032 or MATH1011 and MATH1021. Excluded: 2.102D.

CHIN2001 Intermediate Chinese B F 6CCH C12
Prerequisite: CHIN1001 or equivalent. Excluded: 2 or 3 unit HSC Chinese or equivalent.
The extensive development of listening, speaking, reading and writing skills in Chinese Mandarin.

CHIN3000 Advanced Chinese A F 6CCH C12
Prerequisite: CHIN2000.
The extensive development of listening, speaking, reading and writing skills of Chinese Mandarin.

Cognitive Science

Cognitive Science has recently emerged as an exciting and fruitful domain of enquiry in which there has been a convergence of interests in a number of disciplines which deal with mind, language, knowledge and intelligence. The Cognitive Science movement is based on a broad consensus that the problems and issues do not belong exclusively to any one discipline, but fall collectively to all of them.

The Cognitive Science Program is designed to complement a School-based major sequence by grouping subjects within the fields of Philosophy, Psychology, Linguistics, and Computer Science, which have special relevance to Cognitive Science. It provides the opportunity for students who undertake one or more of the Level 1 subjects in the relevant disciplines to become acquainted with the broader enterprise of Cognitive Science through participation in the core subject HPST2004 Computers, Brains and Minds, and to build upon that acquaintance in selecting further subjects from the program. Students should take the core subject in their second year of study.

Major Sequence
Entry to the program requires 12 credit points from the Level 1 prerequisite subjects listed below. A major in Cognitive Science requires not less than 24 credit points from the Upper Level subjects listed in the program, including the core subject. If you wish to major in Cognitive Science, these Upper Level subjects may not be counted toward a major sequence in a School or Department. In planning your program for the degree, you should make sure that you meet the prerequisite requirements of individual subjects, unless granted exemption by the subject authority.

Level I Prerequisites: 12 credit points obtained in any of the following subjects:
COM 1811 Computing 1 Procedural
COM 1821 Computing 2
PSYC 1002 Psychology 1
BIOS 1011 Biology A
BIOS 1021 Biology B
PHIL 1006 Introductory Philosophy A

Upper Level
CHIN2000 Intermediate Chinese A F 6CCH C12
Prerequisite: CHIN1000. Excluded: 2 or 3 unit HSC Chinese or equivalent.
The extensive development of listening, speaking, reading and writing skills in Chinese Mandarin.
PHIL1007 Introductory Philosophy B
HPST1003 Science: Good, Bad and Bogus. An Introduction to the Philosophy of Science

Upper Level

Core subject:

plus at least 18 credit points obtained in any of the following subjects:

COMP2011 Data Organisation
COMP2031 Concurrent Computing
COMP3411 Artificial Intelligence*

PSYC2001 Research Methods 2
PSYC2021 Attention, Memory and Thought
PSYC3031 Behavioural Neuroscience
PSYC3021 Perception
One of
PSYC3151 Cognition and Skill
PSYC3161 Language and Its Development
ENGL2552 Chomskyan Linguistics
ENGL2559 Psycholinguistics
ENGL2560 Semantics and Pragmatics
LING1000 Introduction to Linguistics
LING2500 Theoretical and Descriptive Linguistics
PHIL2206 Issues in the Philosophy of Psychology
PHIL2218 Philosophical Foundations of Artificial Intelligence
HPST2013 Body, Mind and Soul: The History and Philosophy of Psychology
HPST3011 Language and Mind: The Impact of Chomsky's Revolution

*Enrolment subject to the consent of the Head of Department of Computer Science.

Level 1

COMP1811 Computing 1 (Procedural) S1 L3T3
Prerequisite: As for MATH1032. Excluded: 6.600, 6.611, 6.711.

COMP1821 Computing 2 S1 or S2 L3T3

Upper Level

COMP2011 Data Organisation S1 or S2 L3T2
Prerequisite: COMP1021 or COMP1821. Excluded: 6.641.

COMP2021 Digital System Structures S1 or S2 L3T2
Prerequisite: COMP1021 or COMP1821. Excluded: 6.642.

Analysis, design, and realisation of modest digital subsystems, and the organisation and design of major subsystems in a model computer: data path, instruction decode, address generation, arithmetic algorithms, and the fetch-execute cycle of a typical computer. Timing, minimisation techniques, switch and gate logic, combinational and sequential circuits, flip-flops, hardware description techniques, circuit schematics and simulation tools. The translation of higher level programming abstractions and data structures to a real computer using a macro assembler as the target; study of the relationships between a hardware model, a programming model, and the I/O subsystem of a computer. An understanding of the inter-relationships between the fundamental layers of a modern digital computer system. (Old No. 6.722.)

COMP2031 Concurrent Computing S1 or S2 L3T2
Prerequisite: COMP1021 or COMP1821.

Distributed algorithms: detection of termination. Protocols for data transfer. (Old No. 6.723.)

COMP3111 Software Engineering S1 L3T2
Informal specification: Data flow diagram methodology, analysis, design, testing, management and documentation of software. Formal specification: set theory, logic, schema calculus, case studies. The Z specification notation. Managing the project lifecycle. CASE tools. A major group project will be undertaken.

COMP3121 Algorithms and Programming Techniques S2 L3T2

COMP3131 Parsing and Translation S2 L3T2
This subject covers some of the common theories and techniques used for syntax-directed parsing and translation. These techniques are adequate for parsing many well-structured objects encountered in computing, but are not intended for natural language parsing. Grammars: terminal symbols, non-terminal symbols, productions, phrase structure grammars, Chomsky classification, context-free grammars, finite state grammars, logic grammars. Parsing: LL(k) grammars, top-down parsing; LR(k) grammars, bottom-up parsing; parser generators. Translation: action symbols, translation grammars, syntax-directed translation, attributed-grammars, abstract syntax, unparsing. Lexical analysis: finite-state grammars, finite-state machines, regular expressions, lexical analyzer generators.

COMP3311 Database Systems S1 L3T2
The relational database model, object data bases, 4GL query languages, database design and implementation, deductive databases. Concurrency, optimism, distribution. A major project involving both design and realisation is included.

COMP3321 Business Systems Organisation S2 L3T2
Review of the organisation of accounting systems - journals, accruals, merchandising. The structure, design, development, and integration of various business systems selected from the following: general ledger; financial reporting; debtors; creditors; stock control; invoicing; purchasing and receiving; fixed assets; payroll. Systems for generating application systems and packages. User interfaces. File specifications and B-tree index files. Distributed commercial systems. The partial implementation of a business systems is undertaken as a group project.

COMP3411 Artificial Intelligence S1 L2T3
Prerequisite: COMP2011.

COMP3421 Computer Graphics S2 L3T2
Prerequisite: COMP2011.

COMP3511 Human-Computer Interaction L3T2
Prerequisite: COMP2011.
Not offered in 1991.
Communication between computing systems and their users, with an emphasis on applications related to high-level query languages and searching techniques. Cognitive issues will figure prominently in the treatment. Topics include: theories and principles of interface design, interaction styles, interactive devices, interface and language testing, the null value problem, natural language systems.

**Economic History**

Economic History as a discipline seeks to provide an understanding both of the present and the past through the study of economic development. It uses the methods of analysis of both economics and history. Students majoring in other disciplines and those concerned with area studies will find Economic History subjects that complement their major sequence. In certain circumstances Economic History subjects may also be counted towards a major sequence from another school in the Faculty of Arts. For details see under schools of History, Science and Technology Studies and Spanish and Latin American Studies.

**Major Sequence**

A major sequence consists of at least 36 credit points in subjects offered by the Department of the Economic History, of which no more than 12 credit points may be from Level 1 subjects.
Level I
Assessment in the Department of Economic History is by essays, tutorial participation and examination. The relative weight of each of these varies from subject to subject and is announced at the beginning of each session.

ECOH1301 Australia in the International Economy in the Twentieth Century S1 L2T1
Prerequisite: HSC minimum mark required
Contemporary English 60
2 unit English (General) or 60
2 unit English or 53
3 unit English 1
Excluded: 15.901, 15.101H.
The international economy at the end of the 19th century: trade, factor flows, and payment arrangement. Problems of the international economy between the wars. The impact of World War II and the international economy in the post-war era. Australian economic development and its relationship with the international economy; economic fluctuations; problems of the inter-war period; growth of manufacturing; government policy and action; the importance of the mining industry; economic development and the distribution of income and wealth. (Old No. 15.101H).

ECOH1302 Australia and the Asia-Pacific Economies S2 L2T1
Prerequisite: HSC minimum mark required
2 unit English (General) 60
2 unit English 53
3 unit English 1
Excluded: 15.102H.
Australia’s economic relations with the countries of Asia and the western Pacific since the 19th century, with particular emphasis on the period since the Second World War. Centring upon the years since 1800, traces the history of industrialisation from the emergence of the British economy, through the industrialisation of European nations to the industrial transformation of Asia and the rest of the world. The core concern is with the process of structural change during early industrialisation and the impact upon this of forces exogenous to national economies, for example: foreign trade, external organisational influence (foreign banking, transnational companies), technology transfers, human migration and foreign investment. The subject utilises ideas developed by economists and historians working in the area of economic development and structural change. (Old No. 15.104H.)

Honours students in their final year are required to prepare a thesis of not more than 20,000 words which must be submitted before the final examinations in November. The thesis topic must be approved by the Head of the Department of Economic History before the end of November in the year preceding the candidate's entry into the 7th and 8th sessions of study. (Old No. 15.426H.)

Economics

Assessment in the Department of Economics is by essays, tutorial participation and examination. The relative weight of each of these varies from subject to subject and is announced in each subject at the beginning of each session. A minimum of 60% of total assessment will be by examination.

Major Sequence
All students must complete at least 36 credit points in Economics subjects, including:
• ECON1101 and ECON1102;
• ECON2101 or ECON2121 or ECON2103;
• ECON2102 or ECON2122 or ECON2104.
They must also pass either (a) ECON2201 or ECON2202 and ECON2203; or (b) ECON2200. If they intend to take certain third year Economics subjects including ECON3101 and ECON3102, they must also take ECON3206. Students should note that only subjects offered by the Department of Economics count towards credit points in Economics.

Since the maximum credit points obtained from subjects offered by the same School is 54, the remaining credit points may be obtained from other Economics subjects, provided that prerequisites and/or co-requisites are satisfied. Students wishing to become professional economists should take ECON3101 and ECON3102.

Honours Entry
Students intending to do Honours in Economics should take during their first two years ECON1101, ECON1102, ECON2121, ECON2122, ECON2201 or ECON2202, ECON2203, ECON3206, ECON3207 and obtain at least an average of Credit or better in Upper Level subjects. They then take ECON3121 and ECON3122 in their third year and ECON4120 Economics Honours (Arts) in their fourth year.

**Education Studies**

As an area of study, Education crosses the boundaries between a number of disciplines, including aspects of philosophy, sociology and psychology, and addresses their interaction with the learning and teaching process.

A range of subjects is offered by the School of Education Studies within the BA BEd combined degree course (4055). Subjects offered in Years 1-3 of the course, each carrying 4 credit points, are also available to Arts students. For details, consult the Faculty of Professional Studies Handbook or the School of Education Studies (on the Western Campus).

**English**

English is a discipline for students with a special interest in literature and language. It is not compulsory within the Faculty of Arts: the subjects are therefore planned for students who have both a genuine interest in the subject and some special ability in it, including an ability to write good English. It is desirable that students enrolling in English should have obtained one of the following in the New South Wales Higher School Certificate Examination: 3 unit English, percentile range 1-100; 2 unit English, percentile range 31-100; 2 unit General English, percentile range 61-100.

Students who have successfully completed English at Level I may enrol in Upper Level English courses without necessarily pursuing a major in the subject.

The usual prerequisite for enrolment in an Upper Level English subject is a Pass in Level I English. It is likely, however, that a student who has not fulfilled this prerequisite will be interested in the material covered in one or more of our Upper Level subjects. Such a student may seek the special permission of the Head of School to have the prerequisite waived. In considering such requests, the School will give strong preference to a candidate with a successful year's work in another language, or a Credit or better in a related discipline. In cases where the stated prerequisites for Upper Level subjects have not been met, students should make written application to the Head of School.

Further information on sequences is set out clearly in the
School Handbook, available from the School Office, Room
145, Morven Brown Building.

Assessment: In all English subjects assessment is by one or
more of the following: essays, class tests, tutorial participation,
and examinations.

The English Society

The English Society is the University's literary society and
provides the opportunity for English students (who are
automatically members) to exchange ideas and gather
socially outside classes. The Society organises events during
session that include talks by visiting speakers, readings,
workshops and discussions. Refreshments are usually
provided at these meetings and there are occasional dinners
with distinguished guests.

For further information please contact Ms Brigitta Olubas
(School of English), extension 2303; communications may be
left in the English Society letterbox in the Morven Brown
building, near Room 120.

Level I

ENGL1000 English 1  F L3T1.5 C12
An introduction to a variety of methods and approaches to
English literature; and an introductory study of language.

1. The literature component, which combines an emphasis on
20th century literature with the study of relevant earlier texts,
consists of 4 parts. Section A introduces aspects of various
genres and the differences between them through the study
of short forms of lyric, drama, novel etc. Section B involves
the study of a literary text and the examination of various possible
theoretical approaches to it. Section C is concerned with a
literary theme - Colonialism - traced in various genres at
various times. Section D offers a choice between two periods
- the 1930s or the Jacobean - for the close study of literature
in a historical context.

2. The linguistics component offers an introduction to English
linguistics and to English medieval literature, 1 lecture a week
and 1 tutorial a fortnight. Topics include: some basic concepts
in the study of language, and their relevance to the study of
literary texts; aspects of English medieval literature illustrated
from the works of Geoffrey Chaucer; and some strategies in
prose exposition and argument. (Old No. 50.1000.)

ENGL2551 Language and Society B  S2  L1T1  C3
Peter Collins
Prerequisite: 24 Level 1 credit points in Arts. Excluded: 50.9002.
These subjects, which may be taken together or individually, examine the reflexive relationship between language and society, with special reference to the way in which language is appropriated for different purposes by different social groups. Examines the ways in which language operates to convey attitudes and values, frequently in a covert way, and how an understanding of this process increases an individual's control over life, arms us against our manipulative and exploitative verbal environment, and enriches our appreciation of the literary uses of language. Considers language as a vehicle for literature, for scientific discussion, for advertising, for political propaganda, for bureaucracy; analyses sentence structure, imagery, tone rhythm, and other aspects of language not specifically concerned with its denotative dimension. Material is taken from a variety of sources, including those familiar to the student, in order to demonstrate that the effects under discussion are everyday realities rather than abstract notions.

ENGL2550 and ENGL2551 are included in with Lists D and E because they may be taken as a component in any of the three major sequences.

Not offered in 1991.  
Bernard Martin  
Prerequisite: 50.1000 or 50.511 or 50.521, or special permission.  
An examination of topics of interest in contemporary theory. The focus in 1991 will be on Marxist literary criticism.

**ENGL2650 Topics in Literary Theory**  
S2  L1.5  C3  
Michael Hollington  
Prerequisite: ENGL1000 (CR) or 50.511 (CR) or 50.521 (CR) or special permission.  
An introduction to the study of the linguistic vectors of style in English writing, with special reference to English literature.

**ENGL2651 Deconstructions: Theory Since Structuralism**  
S2  L1.5  C3  
Bill Ashcroft  
Prerequisite: ENGL1000 (CR) or 50.511 (CR) or 50.521 (CR) or special permission.  
A study of major contemporary critical theories including Poststructuralism, Marxism, Feminism, Post-colonialism. Some emphasis will be put on the major exponents of these fields such as Foucault, Derrida, Bakhtin, Kristeva, Harris, but generally the approach will be introductory and will seek to offer students various methods of critical reading.

**ENGL2652 Structuralism and Semiotics**  
S1  L1.5  C3  
Bernard Martin  
Prerequisite: ENGL1000 (CR) or 50.511 (CR) or 50.521 (CR) or special permission.  
The subject is a required element in the English Honours course. It is concerned with aspects of literary theory and has two foci. The first focus is on structuralist theories and techniques with reference to poetry, fiction and drama. The second focus is on 'post-structuralist' developments in literary theory since about 1970 and includes reference to 'deconstruction' and to 'reader-response' theories.

**ENGL2653 Transformational Grammar in the 60s and 70s**  
S2  L1.5  C3  
Peter Collins  
Prerequisite: ENGL1000 (CR) or 50.511 (CR) or 50.521 (CR) or special permission.  

**ENGL2654 Current Issues in Linguistics**  
L1.5  C3  
Not offered in 1991.  
Peter Collins  
Prerequisite: ENGL1000 (CR) or 50.511 (CR) or 50.521 (CR) or special permission.  
Explores current topics and debates in linguistics. These may include: the comparative adequacy of formal and functional models; the relationship between semantics and pragmatics, explanations of child language acquisition; the analysis of discourse; cognitive implications of linguistic theory.

**LING2500 Theoretical and Descriptive Linguistics**  
L3  C6  
Not offered in 1991.  
Prerequisite: ENGL1000 or 50.511 or 50.521 or 50.600 or 50.6001 or special permission.  
At least one of: The study of major and representative works in prose, poetry, and drama in England from the Restoration to the mid-eighteenth century. A selection of topics in contemporary linguistics, including schools and movements, language acquisition, applied linguistics, language and machines, discourse analysis and pragmatics.

**ENGL2950 Science and Scientists in Literature and the Media**  
L1T1  C3  
Not offered in 1991.  
Prerequisite: ENGL1000 or 50.511 or 50.521 or 50.600 or 50.6001 or special permission.  
Since 1945 the power of science, and hence of scientists, over entire populations has become obvious and public attitudes to science and scientists have become more complex and intense. Those attitudes have been shaped, not only by actual events, but by the interpretation of them in literature, the press and film. The alchemist, Faustus, Frankenstein, the space-hero and Dr. Strangelove underlie many current responses to ethical problems raised by science and technology today. To understand and assess our society's attitudes to science and scientists, we need to be aware of how they arose.

**ENGL3100 English Literature of the Restoration and the Eighteenth Century**  
S2  L2T1  C6

ENGL3353 Australian Female Author - Hanrahan L1.5 C3
Not offered in 1991.
Bill Ashcroft

Prerequisite: ENGL1000 or 50.511 or 50.521.
Comprehensive reading of a single Australian female author, to be varied from time to time.

ENGL3354 Waking from the American Dream: Three Major Dramatists L1.5 C3
Not offered in 1991.
Richard Madelaine

Prerequisite: ENGL1000 or 50.511 or 50.521.
A study of the treatment by O’Neill, Williams and Miller of versions of the American Dream and their relation to what O’Neill called the “sickness of society”.

ENGL3355 Samuel Beckett’s Drama of Alienation L1.5 C3
Not offered in 1991.
Richard Madelaine

Prerequisite: ENGL1000 or 50.511 or 50.521.
A study of the verbal and theatrical means whereby Beckett dramatizes a sense of alienation in his plays; with particular reference to Absurdism, the “anti-play” and theatrical short forms, mime and clowning.

ENGL3400 The Gothic: A Genre, Its Theory and History L1.5 C3
Michael Hollington

Prerequisite: ENGL1000 or 50.511 or 50.521.
Explores two avenues of approach to the Gothic: 1. formalist, emphasising the conventions, effects and paradigmatic structure of the genre; and 2. historical, exploring what connections might be traced between the Gothic and the periods in which it flourishes. The emphasis is on prose fiction written in English, but examples from other literatures and arts, especially film, will also be discussed.

ENGL3401 Contemporary Australian Women Writers L1.5 C3
Ros Haynes

Prerequisite: ENGL1000 or 50.511 or 50.521. Excluded: 50.207.
Modern Australian women writers whose work is not studied in any other English subject.

ENGL3450 Modernism: Prose L1.5 C3
Bruce Johnson

Prerequisite: ENGL1000 or 50.511 or 50.521.
A study of significant prose written in the UK and the US in the Modernist period.

ENGL3451 Narratives of Betrayal: Spy Fiction L1.5 C3
Not offered in 1991.
Bruce Johnson

Prerequisite: ENGL1000 or 50.511 or 50.521.
An interrogation of the significance and popularity of spy fiction from the point of view both of its literary merit and its cultural significance.
The subject will be divided into four main segments: "how to read poems"; an historical approach; a thematic approach; theoretical issues.

ENGL3346 The History that Literature Makes  S2  L1.5  C3
Louise Miller
Prerequisite: ENGL1000 or 50.511 or 50.521.
A study of the relationship between literature and history, with special reference to forms of literary/historical representation, the reasons for the popularity of historical fiction in the nineteenth century and its relative decline in the twentieth century, and the status of documentary fiction or "faction".

ENGL3347 Image, Text and Performance: Form and Meaning in Contemporary Poetry  S2  L1.5  C3
Hazel Smith
Prerequisite: ENGL1000 or 50.511 or 50.521.
Experimental poetry can transform texts into visual objects or performance scores. This subject, which includes text-sound, concrete poetry and "language" poetry, reveals new concepts of meaning in experimental poetry and explores its roots in dada, cubism and surrealism.

ENGL3370 Creative Writing A  S1  L1.5  C3
Hazel Smith
Prerequisite: 24 Level 1 Credit points in Arts.
An introduction to a variety of approaches to creative writing. The seminar-workshops will be supervised by the School's Writer-in-Residence, and will be of a highly practical nature. This subject is designed to be taken with Creative Writing B, but it may be taken as a single unit. It will run in the first half of the session, and Creative Writing B will be offered in the second half.

ENGL3371 Creative Writing B  S1  L1.5  C3
Hazel Smith
Prerequisite: 24 Level 1 Credit points in Arts.
Practical seminar-workshops, supervised by the School's Writer-in-Residence, with advice on publishing and performing creative work. Creative Writing B may be taken as a separate unit, without Creative Writing A, though it is designed to be taken in conjunction with it. It will run in the second half of the session, and Creative Writing A in the first half.

ENGL3372 Creative Writing and Technology  S2  L1.5  C3
Peter Alexander
Prerequisite: 24 Level 1 Credit points in Arts.
This subject uses computers to improve students' writing skills. Students will acquire basic computing and keyboard skills and a understanding of how computer technology is changing the way writers write; and the subject will then focus on enabling students to improve their writing in a variety of forms ranging from the essay to the sonnet.

Honours Level
Students take Honours in either 1. English Literature or 2. English Language and Linguistics or 3. English Literature and English Language and Linguistics.

1. English Literature
ENGL4000 English Literature Honours  F 4CCH (Research)
Prerequisites: See Honours Entry earlier in this section.
Course work and seminars and preparation of a thesis. In the first session students are required to choose two subjects from a range of at least six, depending on student demand and staff resources. The broad range of offerings is designed to enable students to conduct more intensive study in areas relating to special interests developed during earlier years of their English programs. The choice of subjects varies from year to year. Please refer to the list under the entry for MA (Pass), or see the School Handbook.

In the second session students prepare and present a thesis of approximately 15,000 words based on research conducted on a topic to be chosen in consultation with the Head of School and other members of staff where appropriate. Students are strongly advised to begin such consultation as early as possible. Throughout both sessions students are required to participate in regular Thesis Workshops. These involve seminars on research techniques and in Session 2 provide opportunities for students to discuss specific problems arising from their individual research programs. Members of staff and postgraduate research students also contribute to these workshops.

ENGL4050 English Literature Honours  P/T (Research)
See entry for ENGL4000.

ENGL4001 English Literature Honours  F 4CCH (Course Work)
Prerequisites: See Honours Entry earlier in this section.
Course work and seminars and preparation of a mini-thesis. Students are required to choose two subjects in each session from the range available (see the list under the entry for MA (Pass), or consult the School Handbook). In the second session students prepare and present a mini-thesis of approximately 5,000 words based on research conducted on a topic to be chosen in consultation with the Head of School and other members of staff where appropriate. Throughout both sessions students are required to participate in regular Thesis Workshops.

European Studies

Like the Australian Studies Program, the European Studies Program is designed to complement a School-based major sequence by enabling students to construct an interdisciplinary 'context' from the wide variety of subjects on aspects of European society and culture offered within the BA program. It provides an excellent extension to a major in English or a European language, as well as a European focus for a major in a social science. Although all subjects are taught in English and require no previous foreign language study, students are strongly advised to include some study of a European language in their degree program. Such study is essential for progression to Combined Honours (see below).

Major Sequence

If you wish to major in European Studies, you must enrol in subjects which you are not already counting towards a major sequence in a School or Department. In planning your program for the degree, you should make sure that you include any necessary prerequisites for these subjects.

Level 1

Prerequisite/Co-requisite (from 1990):
HIST1001 The Emergence of Modern Europe c.1600-1850

Upper Level

At least 24 credit points from the subjects listed below (each carrying 6 credit points), including at least 12 credit points from the core subjects.

Core Subjects:
EURO2000 Concepts of Europe (compulsory for students wishing to complete a major sequence in European Studies who have not previously completed European Studies subjects).
EURO2003 European Modernism: The Major Movements
EURO2001 Reason and Society: The Heritage of Enlightenment
EURO2002 The Experience of the City in Modern Europe
EURO2004 Progress and Perfectibility

Electives:
EURO2101 Romanticism and Revolution
EURO2103 The Renaissance
EURO2104 World War I and the Modern Mind
EURO2201 Reading Texts
EURO2300 The German-Jewish Experience
EURO2301 The Attractions of Fascism
EURO2100 Literature, Society and Politics
EURO2102 Post-War Europe
EURO2200 Power and Desire
EURO2400 Culture and Critique

Other subjects from the European Studies listing under Subject Areas in the Faculty may be substituted with the approval of the program coordinator.

Honours Level

European Studies may be taken at Honours Level only as a Combined Honours program (see EURO4500 below).

Core Subjects: Upper Level

EURO2000 Concepts of Europe S1 3CCH C6
(Compulsory for students wishing to complete a major sequence in European Studies who have not previously completed European Studies subjects)
Prerequisite: 24 Level 1 credit points in Arts.
Co-ordinator: Martyn Lyons
Lectures/seminars will discuss various definitions of Europe, in geographical, linguistic, literary and historical terms; will consider European conceptions of the world it has dominated, and ways in which Europe is itself perceived (including the Australian perspective); and will introduce students to some key concepts in the European intellectual tradition (such as reason, individualism, modernism, left and right in politics, etc.). These topics will be approached from an explicitly interdisciplinary perspective. (Old No. 60.010.)

EURO2003 European Modernism: The Major Movements S2 3CCH C6
Prerequisite: 24 Level 1 credit points in Arts.
Peter Alexander, Lisabeth During, Michael Hollington, Anne-Marie Willis
Focuses on profound cultural changes within the period 1888-1933, when many new artistic and intellectual movements were born. Examines how four arts (literature, film, music and the visual arts) are affected by the new movements, such as Expressionism, Cubism, Futurism, Dada and Surrealism. Both theoretical and creative texts are discussed, introducing concepts such as primitivism, simultaneity, montage and the "image"; and exploring the cultural significance of modernist experiments with time and narration in the new modes. (Old No. 60.007.)

Electives: Upper Level

EURO2101 Romanticism and Revolution S2 3CCH C6
Prerequisite: 24 Level 1 credit points in Arts.
Christine Alexander, Maurice Blackman, Roslynn Haynes
The study of Romanticism as a revolutionary concept - a movement of creative renewal that co-incided with political, industrial and social revolutions and expressed itself in innovations in ideology and technique in literature, philosophy, music and visual arts. An examination of Romanticism in England, Germany and France between 1789 and 1848, the beginning of the French Revolution and the 1848 revolutions in Europe, which can be seen as marking the end of Romantic illusions. Topics include: definitions of Romanticism and their limitations; the rise of Romanticism as a reaction to Neo-classicism; the French Revolution and its implications; the German Sturm und Drang; Individualism and Romantic egotism; Inspiration and Imagination; Feeling and Religious Experience; the poet-prophet and the supernatural; external nature and aesthetic sensualism; science in Romanticism. (Old No. 60.006.)

EURO2103 The Renaissance S1 3CCH C6
Prerequisite: 24 Level 1 credit points in Arts.
Mary Chan, Conal Condren, Philip Edwards, Michael Freyne, Richard Madelaine
An examination of the idea of the "Renaissance" in reference to the period between the 14th and the 17th centuries in Europe. The development of new attitudes to classical learning and to Christian authority and morality; and the emergence of new emphases in ways of describing the human condition will be considered. Topics include: politics, literature, theatre, music and visual arts.

EURO2104 World War 1 and the Modern Mind

Prerequisite: 24 Level 1 credit points in Arts.

Bernd Huppauf, Lisabeth During

The experience of the First World War formed a decisive element in the shaping of modern consciousness of the 20th century. Particularly the events after 1916 (battles at Verdun and the Somme) were soon perceived as the abyss which most visibly separated the belle epoque, the age of security and progress from the age of modernity. The traditional image of Europe as the origin of civilization and humanity was finally shattered not by philosophical reflections but by concerted actions on the part of all European powers. The lasting contribution which the experience of modern warfare has made to individual and collective perceptions of reality and to a redefinition of public discourses about basic issues such as past and future, dimensions of life and death, technology, progress and civilization, subjectivity and the human soul will be studied on the basis of a variety of sources.

EURO2201 Reading Texts*  

Prerequisite: 24 Level 1 credit points in Arts.

Ann Game, Genevieve Lloyd, John Milfull

On the basis of debates in contemporary European cultural theory about reading as critical practice, the subject will address topics such as the death of the author, from work to text, reading and writing, inter-textuality, deconstruction, reading as cultural production and feminist reading strategies. A diversity of texts will be discussed, and how, as texts, these objects are constituted. (Old No. 60.022.)

*in conjunction with Gender Studies.

EURO2300 The German-Jewish Experience

Prerequisite: 24 Level 1 credit points in Arts.

Konrad Kwiet, John Milfull

Between their legal emancipation in the 1870s and the advent of Nazism, "Jewish Germans" made an extraordinary contribution to the social, political and cultural life of the Wilhelminian and Habsburg empires and the republics which followed them. Within a contextual study of the effects of this attempt to integrate the Jewish population the subject focuses on the reactions of a number of well-known writers, politicians and intellectuals of Jewish descent (eg Herzl, Schnitzler, Rathenau, Kafka, Buber, Feuchtwanger, Freud) to the so-called "German-Jewish symbiosis", and presents their attempts to understand their position within it as a basis for a discussion of the concepts of assimilation, acculturation, ethnicity and nationality.

Note: This subject assumes and requires no knowledge of German. It may be counted towards a major sequence in Sociology. (Old No. 60.004.)
French

Subjects offered by the School at undergraduate level are made up of studies in the following areas: Language and Linguistics (Language category), Literature and Thought (Literature category), French and Francophone Studies (Civilisation category).

Language and Linguistics. In language subjects, the emphasis is on helping students to acquire a command of modern French, and French is the language of instruction. The courses integrate the various linguistic skills of understanding, speaking, reading and writing, through programs involving techniques such as group work, role play, interactive video. Upper Level language options focus on intense practical work, corrective phonetics, or linguistics both pure and applied. All language courses also involve comparative cultural studies.

French Literature and Thought. In subjects devoted to literature and thought the language of instruction is French. Training is given from Year 1 onwards in the techniques of literary analysis and criticism through the close study of individual texts, and in various methodological approaches to literature. Periods studied range from the Renaissance to the present day. These subjects also examine the relationship between literature and social history.

French and Francophone Studies. In this section, the emphasis is on the civilization and society of France and the French speaking countries. Although literary texts are often studied, subjects in this category mostly concentrate on ideas and trends of thought pertaining to a particular socio-historical context. Some subjects also focus on French-Australian relations since the discovery of Australia. In most of the subjects belonging to this category, use is also made of non-literary and media material.

Students are invited to collect from the secretary of the School of French information sheets, course descriptions, book lists, sequence of subjects and general information about the School. Students should also consult the School noticeboards for all information relating to first meetings, prior to the commencement of the academic year.

Note
(a) Students should note that a Pass Conceded (PC) in a language subject does not allow progression to Higher Level language subjects.
(b) Some subjects are offered in English and open to all students with Upper Level status in the Faculty of Arts or equivalent. (See Upper Level, Options.)

Major Sequence
At least 39 credit points including 12 Level 1 credit points. The Major must include: FREN3020 (56.301) or 3021 (56.310) or FREN1030 (56.524), for students who started in C or D streams (FREN1020/56.523 or FREN1030/56.524); FREN2020 (56.226), for students who started in A or B streams (FREN1000/56.501 or FREN1010/56.510).

In addition C and D stream students are required to do one upper level option from each of the three categories, Language, Literature and Civilisation, and not more than three options from any one category.

B stream students are required to do at least one option from each of two of the three categories Language, Literature and Civilisation.

Students may count towards their French major a maximum of 6 credit points obtained in subjects taught in English offered either in the School or, as approved by the Head of School, in other Schools or programs.

Honours Entry
Honours: For C or D stream students: at least 51 credit points, including a major sequence, offered in the School of French: students must complete 12 Level 1 credit points, plus at least 39 Upper Level credit points (which must include FREN2900 (56.234) and FREN3900 (56.321)) at an average grade of Credit or better.

For B stream students: at least 57 credit points, including a major sequence, offered in the School of French: students must complete 12 Level 1 credit points, plus at least 45 Upper Level credit points (which must include FREN2900 (56.234) and FREN3900 (56.321)) at an average grade of Credit or better.

Combined Honours: For C and D stream students: as for single honours, but with 33 Upper Level credit points for a total of 45 credit points in the School of French.

For B stream students: as for single honours, but with 39 Upper Level credit points for a total of 51 credit points in the School of French.

Assessment
Most classes are of seminar and tutorial type and most teaching is conducted in French. In core language subjects, students are expected to attain a prescribed proficiency level, and to satisfy all other assessment required throughout the year. In other subjects, assessment is continuous and, depending on the subject, is based on some combination of class tests, written or oral exposés, essays, or weekly assignments.

The French Society
The main aim of the French Society is to afford students the opportunity of expressing their interests in French language and culture. This is done through a wide range of activities, both cultural (video club, plays, singing group, student newsletter) and social (wine and cheese gatherings, dinners, outings). Possibilities for enjoying French language and culture are endless but depend on the initiative and motivation of students of the School.

Level 1
Entry to Year 1 is available to students of all proficiency levels in French, from complete beginners to French native speakers. To accommodate such differing backgrounds at various levels, four streams are offered:

1. A stream - FREN1000 French 1A - Introductory French, designed for students with little or no knowledge of French.

2. B stream - FREN1010 French 1B - Bridging Subject, designed for students with some knowledge of French (eg HSC 2 unit French or HSC 2 unit Z French).
Subject Descriptions: French

FREN1000 French 1A - Introductory F 6CCH C12 French
Prerequisite: Nil. Excluded: Students qualified to enter FREN1010, 1020 or 1030.
Designed for students who have no knowledge of French. The most recent methods are used to

FREN2011 French 2B Advanced Reading Skills 1  
Not available to students from C or D streams.
Introduction to the reading and analysis of modern French literary texts (poetry and theatre). (Old No. 56.224.)

FREN2012 French 2B Advanced Reading Skills 2  
Not available to students from C or D streams.
Introduction to the reading and analysis of modern French literary texts (short fiction). (Old No. 56.225.)

FREN2020 French 2C Language and Culture  
Prerequisites: 56.523/FREN1020, 56.525/FREN1220 and 56.526/FREN1221 (C stream) or 56.223/FREN2010 (B stream) or, with the permission of the Head of School, 56.510/FREN1010 or 56.220 FREN2000.

Intensive study of French language in both oral and written skills; consolidation and extension of grammatical knowledge, together with further study of French civilization. (Old No. 56.226.)

Proficiency level: 4, Minimum vocational level.

FREN3020 Syntax and Stylistics A  
Prerequisites: 56.226/FREN2020 or permission of the Head of School for students coming from A or B streams. Excluded: D stream.

Intensive practice in writing skills and comparative stylistics. (Old No. 56.301.)

Proficiency level: 5, Vocational level.

FREN3021 Syntax and Stylistics B  
Prerequisite: 56.226/FREN2020 or 56.301 FREN2020. Excluded: D stream.

Intensive practice in writing skills and comparative stylistics. (Old No. 56.310.)

Proficiency level: 5, Vocational level.

Options in 1991

Upper level options are available to C stream and D stream students and, in some cases, to B stream students in Session 2. They are listed in numerical order.

See Major Sequence for conditions governing the spread of choices over the three categories (Language, Literature, Civilisation) for students wishing to major in French.

See Summary of Subjects: FREN for listing of titles by category.

Assessment is continuous and, depending on the subject, is based on some combination of class tests, written or oral exposes, or weekly assignments.

FREN2100 Language Elective 1  

Category: Language.

Intensive practice in listening comprehension, analysis of authentic video and audio documents, and oral discourse. (Old No. 56.229.)

FREN2101 Language Elective 2  
Co-requisite: FREN2020 or 3020 or 3021. Excluded D stream.

Category: Language.

Corrective phonetics. (Old No. 56.230.)

FREN2500 The French-Australian Cultural Connection  
Prerequisite: Upper Level status.

Not offered in 1991.

FREN2900 Honours Preparatory Seminar  
Prerequisite: Credit or better in 56.523/FREN1020 or 56.524/1030 and in 56.525/1220 and 56.526/1221, or Distinction or better in 56.510/1010.

Critical readings of a major French or Francophone text in each of the three categories of Language, Literature and Civilisation. Students wishing to proceed to Honours in the School of French are required to do this subject. (Old No. 56.234.)

FREN3100 Linguistics A  
Co-requisite: FREN2020 or 3020 or D stream.

Category: Language.

Not offered in 1991.

FREN3101 Linguistics B  
Co-requisite: FREN2020 or 3020 or D stream.

Not offered in 1991.
FREN3102 Advanced Language Studies A
Co-requisite: FREN2020 or 3020 or D stream.
Category: Language.
Not offered in 1991.

FREN3103 Advanced Language Studies B
Co-requisite: FREN2020 or 3020 or D stream.
Interactional analysis.
Category: Language.

FREN3200 The French Enlightenment
Co-requisites: FREN2020 or 3020, 56.232 or D stream.
Category: Literature.
Not offered in 1991.

FREN3201 Modern French Poetry
Co-requisites: FREN2010 and 2012 or 3020 or 3021 or D stream.
Detailed study of major modern French poets. (Old No. 56.318.)
Category: Literature.

FREN3202 Development of the French Novel
Co-requisites: FREN2020 or 3020 or D stream.
Category: Literature.
Not offered in 1991.

FREN3203 Modern French Theatre
Co-requisites: FREN2020 or 3020 or D stream.
Category: Literature.
Not offered in 1991.

FREN3204 French Classical Theatre
Co-requisites: FREN2010 and 2012 or 2020 or 3020 or 3021 or D stream.
A seminar on selected plays of Corneille (Le Cid) and Racine (Andromaque and Phèdre).
Category: Literature.

FREN3205 French Fiction Since 1900
Co-requisites: FREN2020 or 3020 or D stream.
A study of selected contemporary French novels with a wide general readership.
Category: Literature.

FREN3211 Special Reading Program A
Prerequisite: FREN1030 or permission from Head of School.
Reading in selected French masterpieces. Students are required to submit an in-depth analysis of work studied. (Old No. 56.250)

FREN3212 Special Reading Program B
Prerequisite: As for FREN3211.
Reading in selected French masterpieces. Students are required to submit an in-depth analysis of work studied. (Old No. 56.260.)

FREN3300 France Since World War II
Co-requisite: FREN2020 or 3020.
Category: Civilisation.
Not offered in 1991.

FREN3301 The Ancien Régime and its Aftermath
Co-requisites: FREN2020 or 3020 or D stream.
An examination of the French Ancien Régime, politically, socially, culturally, focusing successively on Louis XIV, the seeds of its self-destruction, and the French Revolution and Napoleon.
Category: Civilisation.

FREN3302 French Feminist Ideas
Co-requisites: FREN2020 or 3020 or D stream.
Category: Civilisation.
Not offered in 1991.

FREN3303 The French Media
Co-requisites: FREN2020 or 3020 or D stream.
Study of French Media (print, TV, minitel, radio, etc.), including their development, and questions of ownership, government control, sexism.
Category: Civilisation.

FREN3304 The Making of Modern France
Co-requisites: FREN2010 and 2012 or 2020 or 3020 or 3021 or D stream.
Study of the contribution of the Third Republic to the making of Modern France.
Category: Civilisation.

FREN3400 French for Special Purposes: Business and the Professions
Co-requisites: FREN2010 and FREN2012, or FREN2020 or FREN3020 or D stream or permission of the Head of School for students from other Schools or Faculties possessing a good knowledge of French.
Category: Language.
An introduction to the language and practices of the French speaking business world. (Old No. 56.340.)

FREN3600 Francophone Studies
Co-requisite: FREN2020 or 3020.
Category: Civilisation.
Not offered in 1991.
Arts

FREN3900 Introduction to Research Methods
F 1CCH C3
Prerequisite: 56.234/FREN2900 or permission from Head of School.
Students wishing to proceed to Honours in the School of French are required to do this subject.

Honours Level

FREN4000 French Honours (Research) F 3CCH
Prerequisites: See Honours Entry above.
1. Three seminars (each 2CCH for 14 weeks). 2. A Research Project of 10,000 to 12,000 words, in French, on a subject approved by the School.

FREN4050 French Honours (Research) P/T

FREN4001 French Honours (Course Work) F 6CCH
Prerequisites: As for FREN4000.
Six seminars, each 2CCH for 14 weeks.

FREN4051 French Honours (Course Work) P/T

FREN4500 Combined French Honours (Research) F 2CCH
Prerequisites: See Honours Entry above.
1. Two seminars (each 2CCH for 14 weeks). 2. A Research Project whose subject and nature have been approved by the two Schools concerned.
The exact nature of this Year 4 program and its assessment are subject to prior consultation and approval by the Heads of the two Schools concerned.

FREN4550 Combined French Honours (Research) P/T

FREN4501 Combined French Honours (Course Work) F 3CCH
Prerequisites: As for FREN4500.
Three seminars, each 2CCH for 14 weeks.
The exact details of this Year 4 program and its assessment are subject to prior consultation and approval by the Heads of the Schools concerned.

FREN4551 Combined French Honours (Course Work) P/T

Gender Studies

The program in Gender Studies is designed to encourage students to construct coherent arrangements of subjects which focus on issues of sexual difference, gender and feminist theory. There is no separate major sequence or honours level program in Gender Studies. However, some Upper Level interdisciplinary subjects are available, which focus explicitly on gender and complement subjects offered within Schools, dealing with a wide range of gender-related issues. Normal School prerequisites must be met for the completion of subjects offered within Schools.

For subjects offered within Schools see under Subject Areas in the Faculty.

Interdisciplinary Subjects: Upper Level

AUST2101 Australian Legal Issues: S2 3CCH C6
The Relevance of Gender
Prerequisite: 24 Level 1 credit points in Arts.
Genevieve Lloyd (Philosophy) and Regina Graycar (Law)
Not offered in 1991.
An interdisciplinary subject, examining some of the issues of contemporary legal significance in Australian society, and the ways in which gender is relevant to them, including: abortion, custody, pornography, injuries to women. (Old No. 60.091).

EURO2201 Reading Texts S2 3CCH C6
Prerequisite: 24 Level 1 credit points in Arts.
Ann Game (Sociology), Genevieve Lloyd (Philosophy),
John Milfull (German Studies)
On the basis of debates in contemporary European cultural theory about reading as critical practice, the subject will address topics such as the death of the author, from work to text, reading and writing, inter-textuality, deconstruction, reading as cultural production and feminist reading strategies. A diversity of texts will be discussed, and how, as texts, these objects are constituted. (Old No. 60.022)

Geography

Geography is the study of variations from place to place on the earth’s surface arising from the spatial relationships of the phenomena which make up the world of humanity. Particular emphasis in human geography is placed on the spatial organization of human activities, especially within urban systems.

Several subjects in Geography include laboratory and project work involving the use of quantitative techniques. Students may need a battery-operated calculator. Students may be required to supply some laboratory materials as indicated at the beginning of session.

Where a field tutorial is a compulsory part of a subject, students are required to meet accommodation costs (the School takes steps to keep these to a minimum) and may also be required to contribute towards fares.

Assessment in the School of Geography is normally by a combination of course work and examinations, although the procedure varies between subjects. Full details are given for all subjects by the principal lecturers concerned at the commencement of each session.
Students intending to study at Honours Level in Geography are particularly directed to enrol in GEOG2093 Geographic Methods in Year 2, enabling them to attempt GEOG2093 Geographic Methods in Year 3 and thus qualify for entrance to Year 4. Students achieving graded passes may elect to study Geography at Honours Level at the end of Year 2 with the approval of the Head of School.

Major Sequence
12 Level 1 and at least 24 Upper Level credit points including GEOG2093 Geographic Methods.

Honours (Research) Entry
Students must satisfy Faculty of Arts requirements for entry to Honours programs and must have obtained at least 54 credit points in Geography, including 12 Level 1 credit points. A minimum cumulative average at Credit grade is required for all Upper Level subjects taken which must include GEOG3221 Advanced Geographic Methods.

Combined Honours (Research) Entry
12 Level 1 and at least 30 Upper Level credit points in Geography. A minimum cumulative average at Credit level is required for all Upper Level subjects taken which must include GEOG2093 Geographic Methods.

The Geographical Society
It is hoped that students taking geography as a subject will participate in the activities organised by the Geographical Society. They are open to new ideas and to students who are interested in geography outside their formal studies. Informal seminars are organised on subjects of interest to geographers.

Social activities have always been an important part of the Society, and they have provided more than adequate opportunities for students to get to know each other and for students and staff to improve communications.

Level 1

GEOG1051 Global Environmental Problems and Processes S1 L2T1
Prerequisite: Nil. Excluded: 27.030, 27.818.

The subject outlines the principles and processes necessary to appreciate the physical background behind major global-scale environmental problems. Principles and processes include the linkages between the lithosphere, hydrosphere and biosphere, atmospheric circulation, energy and radiation balance and ecosystem function. Problems covered are the issues of desertification, deforestation, 'greenhouse', ozone depletion, energy conservation and pollution.

GEOG1062 Australia and Global Development S2 L2T1
Prerequisite: Nil. Excluded: 27.819.

The main concern is the progressive integration of Australia into global capitalism and the developmental and environmental consequences of the process in Australia and Pacific Rim countries and adjacent territories. Topics covered include colonial and dependent development in Australia and resource use; applications of development theory as applied to core-periphery relationships between world financial centres and Australia, and between Australia and Pacific Island territories; transnational organisations and technology transfer and investment in Australia and Pacific countries; the relationship between changing trade patterns, production and development in Australia and Pacific Rim countries; Australia in a future world.

Upper Level

GEOG2093 Geographic Methods S2 L2T2
Prerequisites: GEOG1012 and 1022, or 27.010 or 27.020, or 27.818 and 27.819 or GEOG1051 and 1062. Excluded: 27.050, 27.813.

Statistical procedures and field methods used in both human and physical geography. Includes: measures of dispersion; measures of spatial distribution; samples and estimates; correlation and regression; tests for distribution in space; data collection and analysis. (Old No. 27.813)

GEOG2081 Australian Environmental Problems S1 L2T2
Prerequisite: 27.818 or GEOG1051. Excluded: 27.828.

The nature of the Australian environment is outlined and selected major environmental problems are considered. The nation's landforms, soils and vegetation are described and considered in relation to the patterns of climate and land-use to appreciate how the problems of drought, bushfires, salinisation, soil acidification, loss in species diversity and land degradation arise. Options for abatement and tolerance are discussed as appropriate.

GEOG2092 Australian Social and Economic Landscapes S2 L2T2
Prerequisite: GEOG1062 or 27.819.

Not offered in 1991.

Analysis of the principal factors and forces shaping the contemporary social and economic landscapes of Australia and the problems arising. Themes include Australia's changing population profile and distribution, the changing face of Australian cities, regional disparities in social and economic well-being, changing patterns of employment and industrial location, and the declining fortunes of rural Australia. Planning and policy responses to the problems of spatial change and reorganisation are emphasised and future scenarios addressed.

GEOG2102 Environmental Issues in Australia S2 L2T1
Prerequisite: 27.818 or GEOG1051. Excluded: 27.828.

Selected issues in Australia demonstrating the impacts of economic growth and development on the natural environment including a consideration of the ways in which economic forces and political factors affect the exploitation and carrying capacity of natural systems. Case studies taken from tourist developments, forestry, agriculture and land degradation, suburbanisation, water quality and use, and power generation. Emphasis is placed on the philosophical and factual arguments for environmentally sound planning and resource management practices.

GEOG3172 Spatial Population Analysis S2 L2T2
Prerequisite: GEOG2092 or 27.829. Excluded: 27.824.

Population growth and structure in an urban and regional context. The components and processes of population
change; fertility, mortality and migration set within the framework of demographic transition theory. Theories of migration and mobility and of optimal populations. Demographic and social indicators for urban and regional analysis and their implications for disparities in living conditions, residential differentiation and regional growth. The adjustment of immigrant and migrant populations to the urban environment. (Old No. 27.824)

GEOG3181 Urban Activity Systems  S1 L2T2
Prerequisite: GEOG2092 or 27.829 or GEOG3202. Excluded: 27.825.
Focus is on trip making, movement, and activity patterns in urban areas. Topics include: the activity concept, travel behaviour and urban spatial structure; constraints to individual travel behaviour and activity pattern linkages; the urban transport disadvantaged; public transport problems and issues in Australian capital cities; travel and activity consequences of transport infrastructure developments. (Old No. 27.825)

GEOG3192 Urban and Regional Development  S2 L2T2
Prerequisite: GEOG2092 or 27.829. Excluded: 27.826.
Theories of urban and regional change leading to assessment of the role of planning. Emphasis on resource allocation, conflict resolution and evaluation techniques including cost-benefit analysis and environmental impact assessment. Lectures accompanied by seminars and workshop sessions which concentrate on methodology. (Old No. 27.826)

GEOG3202 Australian Social Environments  S1 L2T2
Prerequisite: GEOG1062 or 27.819 or GEOG2092. Excluded: 27.829.
Focus is on the interaction between human communities and the built environment in Australia: the effects of the natural environment on the evolution of settlement patterns; detailed analysis of rural and metropolitan social environments. Emphasis on inner city, suburbia, behavioural and social area approaches, and to managerial and structural theories of social change on areas and their communities. (Old No. 27.829).

GEOG3211 Australian Environment and Natural Resources  S1 L2T2
Prerequisite: GEOG1012 and 1022 or GEOG2081, or 27.828 or 27.829. Excluded: 27.862.
Continental and regional patterns of land, water and energy resources in Australia and its territorial waters, and natural factors affecting their development, including climate, soils and terrain; problems of limited surface and underground water resources and of conflicting demands, exemplified through particular basin studies; comparable reviews of energy, minerals and forest resources, human resources and development. (Old No. 27.862).

GEOG3221 Advanced Geographic Methods  S1 L2T2
Prerequisite: 27.829 or GEOG2093. Excluded: 27.050, 27.884.
Additional quantitative research techniques normally taken by Honours students in their third year. Research organisation; computer analysis; collection and organisation of data; statistical description; hypothesis testing and sampling; simple and multiple regression analysis; parametric methods. (Old No. 27.884).

GEOG2021 Introduction to Remote Sensing  S1 L2T2
Prerequisite: Successful completion of a Year 1 program in Applied Science, Science or Arts (or equivalent) as approved by the Head of School. Excluded: 27.175.
Principles and technical aspects of remote sensing. Forms of available imagery, their utility and facilities for interpretation. Basic.airphoto interpretation techniques relevant to environmental assessment. Introduction to principles of the electromagnetic spectrum, photometry and radiometry. Sensor types, image formation and end products associated with selected satellite programs, including Landsat. Land-cover and land-use interpretation procedures in visual image analysis. Basic procedures in machine-assisted image enhancement. (Old No. 27.175).

GEOG3032 Remote Sensing Applications  S2 L2T2
Prerequisite: 27.175 or GEOG2021. Excluded: 27.176.
Spectral characteristics of natural phenomena and image formation. Ground truthing, collection and calibration. Introduction to computer classification procedures. Multitemporal sampling procedures, image to image registration and map to image registration. Major applications of remote sensing in the investigation of renewable and non-renewable resources to include; soils, geology, hydrology, vegetation, agriculture, rangelands, urban analysis, regional planning, transportation and route location and hazard monitoring. (Old No. 27.176).

GEOG3042 Environment Impact Assessment  S2 L2T2
Prerequisite: GEOG1031 or 27.828 or GEOG2081. Excluded: 27.193.
Rationale and basic objectives; standardised types of environmental impact assessment (EIA), including matrix approach, adopted methods of EIA in Australia. Frequently used assessment and predictive techniques for meteorological, hydrological, biological, socio-economic impacts. Techniques of impact evaluation in terms of socio-economic criteria. Environmental decision making and planning under conditions of uncertainty. Case studies exemplifying procedures, techniques and issues. Trends, changes and possible future developments in EIA. Practical exercises representing components of typical EIAs. (Old No. 27.193).

GEOG3051 Soils and Landforms  S1 L2T2
Prerequisite: GEOG2102 or GEOG2032 or 27.133 or 27.828 or GEOG2081. Excluded: 27.213.
in residual aeolian, fluviatile and coastal deposits. (Old No. 27.213)

GEOG3062 Environmental Change

Prerequisite: Successful completion of a Year 2 Program in Applied Science, Science, or Arts or equivalent as approved by the Head of School. Excluded: 27.223.

The nature of environmental change on the land, oceans, biosphere and atmosphere. Evolution of the continents, oceans, life and atmosphere. Techniques for environmental reconstruction and chronology building. Quaternary climatic change and modelling. Human impact on the atmosphere and climatic consequences. (Old No. 27.223)

GEOG3161 Computer Mapping and Data Display

Prerequisites: Successful completion of a Year 1 program in Applied Science, Science or Arts (or equivalent) as approved by Head of School. Excluded: 27.432.

Introduction to theoretical and practical problems in displaying data graphically and constructing thematic maps by computer using the GIMMS mapping package. The emphasis is on developing skills in automated cartography through hands-on experience culminating in the preparation of a folio of maps of selected census data. No previous computing expertise is required. (Old No. 27.432)

GEOG3152 Social Welfare and Urban Development

Prerequisite: GEOG1012 or GEOG2092 or 27.829 or 27.010 Note: This prerequisite does not necessarily apply to students enrolled in the Faculty of Applied Science. Excluded: 27.753.

Offered subject to availability of staff.

A consideration of welfare aspects of urban development, including social policies and urban structure; social costs and benefits of urban renewal especially in the inner city; growth centres and new towns; distributional aspects of social services; and spatial disparities in social well-being. (Old No. 27.753)

GEOG3333 Special Topic

Prerequisite: Nil. Excluded: 27.883.

Admission by permission to suitable students with good Passes in at least four subjects at Upper Level. A course of individually supervised reading and assignments as an approved topic in Geography not otherwise offered. (Old No. 27.883)

Honours Level

GEOG4100 Honours Geography

Prerequisites: Arts students must satisfy Faculty requirements for entry to the Honours Level program and must have obtained at least 54 credit points in Geography subjects, including 12 Level 1 credit points. A minimum cumulative average at Credit level is required for all Upper Level subjects taken which must include GEOG3221.

Details of Honours Geography for science students are available from the School of Geography office.

Students are required: 1. To undertake an original piece of work extending throughout the year and to submit a thesis based upon it. 2. To participate in seminars and fieldwork as notified by the School of Geography.

GEOG4050 Honours Geography

P/T

Geology, Applied

Level 1

Field tutorials are an essential part of these subjects, and are held during weekends and/or recesses. Dates and costs are available during the first week of the subject. Attendance is compulsory.

GEOL1101 Geological Processes

Stream 1

Prerequisite: Nil. Excluded: 25.110.

Stream 2

Available only with the permission of the Head of Department.

A program of projects and independent study of selected aspects of geology. Assessment includes practical and theory examinations.

GEOL1201 Geological Environments

Prerequisites:
2 unit Mathematics* or
3 unit Mathematics or
4 unit Mathematics
and
2 unit Science (Physics) or
2 unit Science (Chemistry) or
2 unit Science (Geology) or
2 unit Science (Biology) or
4 unit Science
3 unit Science and
GEOL1101.
Excluded: 25.120.

*This refers to the 2 Unit Mathematics subject which is related to the 3 Unit Mathematics subject. It does not refer to the 2 Unit Mathematics subject, Mathematics in Society.

Geological Environments: Introductory palaeontology, including the evolution of life, invertebrates and vertebrates. Principles of stratigraphy. The stratigraphy of New South
Tectonics and tectonic analysis. Field work of up to four days and palaeomagnetism, geothermy, and seis.

GEOL 1 Earth Physics
Structural elements and analysis of simple fracture systems. Geophysical methods of exploration; seismology and earthquake prediction. Plate tectonics and continental drift. Field work of up to four days is a compulsory part of the subject. (Old No. 25.120)

Upper Level

GEOL2111 Earth Materials 1
Prerequisite: GEOL 1201. Excluded: 25.211.
Mineralogy: Principles of optical crystallography and the use of the polarising microscope. Chemical and physical properties of rock forming minerals. Mineral identification. Igneous Petrology: Occurrence, classification and origin of igneous rocks. Fractional crystallisation and differentiation. Partial melting. Simple binary melting diagrams. Igneous petrology relating to plate tectonics. Practical: Macroscopic and microscopic examination of rock forming and ore minerals and igneous rocks in the field and the laboratory. Field work of five days is a compulsory part of the subject. (Old No. 25.211)

GEOL2121 Earth Environments 1
Prerequisite: GEOL 1201. Excluded: 25.212.
Sedimentology: Flow regimes and bedding forms, sedimentary structures. Modern and ancient sedimentary environments of deposition: alluvial, nearshore, shelf and deep sea, in both terrigenous clastic and carbonate evaporite domains. The facies concept: lateral and vertical relationships between depositional environments and associated lithofacies within developing sediment wedges. Palaeontology: Morphology and stratigraphic distribution of invertebrates, including Foraminifera, Brachiopoda, Mollusca, Arthropoda, Protochordata and Echinodermata. Introductory palaeobotany. Palaeoecology. Biogeography. Trace fossils. Reef building organisms and the evolution of reefs. Field work of up to five days is a compulsory part of the subject. (Old No. 25.212)

GEOL2211 Earth Materials 2
Prerequisite: GEOL 2111. Excluded: 25.221.
Sedimentary Petrology: The influence of transportation, deposition and diagenesis on the composition, texture and structure of detrital sedimentary rocks. The non-clastic sedimentary rocks including phosphates, evaporites, ferruginous and siliceous deposits. Metamorphic Petrology: Origin and classification of metamorphic rocks as an aid in understanding common mineral assemblages. Petrographic studies of common metamorphic rocks. Field studies. Structural Geology: Origin, classification and description of structures in rocks. Techniques of stereographic projection of structural elements and analysis of simple fracture systems. Tectonics and tectonic analysis. Field work of up to four days is a compulsory part of the subject. (Old No. 25.221).

GEOL2231 Earth Physics
Prerequisite: GEOL 1101. Excluded: 25.223.

German Studies

Two distinct major sequences are offered: in (1) German Language, Literature and Civilisation, and in (2) German History, Literature and Civilisation. The first sequence is language based; texts are studied in German and seminar discussions and lectures are generally conducted in German as well. The second sequence is taught in English with texts studied in translation; it requires no knowledge of the German language. Students majoring in the former area are strongly advised to choose at least some of their supporting subjects from the "History, Literature and Civilisation" sequence to complement and deepen their work in German Studies. Both sequences can ideally be combined.

Students majoring in either sequence are encouraged to strengthen their work in German Studies by choosing complementary subjects offered by other schools/programs within the Faculty. Subjects in "German History, Literature and Civilisation" may also be taken to complement other major sequences, e.g. in European Studies, History, Political Science, Sociology, Theatre Studies. With approval of the Heads of the respective schools, some of the subjects may be counted as credit towards the major sequences offered by these schools. Students are encouraged to make use of this opportunity.

1. German Language, Literature and Civilisation

The basic aims of this sequence are: to acquire a sound knowledge of spoken and written German on the basis of practical language work that integrates the different linguistic skills; a critical understanding through the study of literature of the way in which German society has developed, and in what ways it differs from, and is similar to our own.

The two areas of study are integrated: seminars in the area of German literature and civilisation aim also at increasing
language proficiency and communicative competence; similarly, practical language work involving topics and issues of German socio-cultural history is designed to contribute to an increased awareness and understanding of the forces that have shaped the development of modern German society.

Level 1 subjects
1. GERS1000 Introductory German A is designed for students with no previous knowledge of the language;
2. GERS1001 Intermediate German A is designed for students with a good knowledge of German (eg HSC 2 or 3 Unit German or equivalent).

Students from both streams may complete a major sequence in three years or a degree at Honours level in four. Native speakers enrol in GERS1002.

Students wishing to take Year 1 German should enrol in the subject which seems appropriate to their qualifications. This enrolment is to be regarded as provisional only, and the School reserves the right to determine, on the basis of the student’s knowledge of German, the subject in which he or she may enrol.

The School also offers three specialised language subjects for business and tourist purposes, which do not form part of the major sequences.

Teaching and Assessment
All teaching in the School is carried out in small groups. Depending on the subject matter, the character of the teaching ranges from tutorial through informal lecture-tutorial to seminar. There are no formal examinations. Every effort is made to present assessment to students as part of the learning process. Assessment is continuous and ranges from informal class tests in language and in those options where information transfer is dominant, to essay, take-home test and/or oral examination in seminars. Oral participation is taken into account when determining a final grade; it is encouraged through ‘Referate’ (often linked to the essay to be submitted at the conclusion of the seminar) and less structured discussion.

2. German History, Literature and Civilisation (Taught in English)

These subjects require no knowledge of German and are open to all students with Upper Level Status in the Faculty of Arts. They are designed primarily for students who wish to gain an understanding of the history and culture of the German-speaking societies in the 20th century without undertaking a study of the language. Besides offering an ideal extension to the language-based major sequence in German Studies, the subjects offered in "German History, Literature and Civilisation" may be taken to complement other School-based major sequences offered within the Faculty of Arts, such as History, Political Science, Sociology or Theatre Studies. With the approval of the Heads of the respective Schools, some subjects may be counted as credit towards major sequences offered by these schools.

Major Sequence

At least 24 credit points gained in any of the subjects listed below together with 12 credit points gained in approved Level 1 subjects in other schools (e.g. History, Sociology). With the approval of the school, Upper Level subjects in areas related to "German History, Literature and Civilisation" offered by other schools may also be counted towards a major sequence; however, a minimum of 18 credit points must be gained in subjects offered by the School of German Studies.

Honours Entry

The School does not offer an Honours program in "German History, Literature and Civilisation". However, a student who has completed a major sequence at an acceptable standard may be admitted to a combined Honours program with the agreement of the other school concerned.

Note: All students enrolling in German History, Literature and Civilisation subjects must first register with the School.
Upper Level

Excluded: 64.640, 64.2302.
A description and analysis of the fate of European Jewry under Fascist rule. The history of Antisemitism, the individual phases and aims of the persecution of the Jews under the Nazis in Germany and in German occupied countries. An analysis of the causes, development, function and consequences of the policy of genocide. A consideration of the reactions of the Jewish minority and the attitude of society in general.
Assessment: 1 research essay and tutorial paper. (Old No. 64.2302)

GERS2801 Emancipation, Antisemitism and Zionism in Central Europe 1750-1945
Not offered in 1991. (Old No. 64.2104)

GERS2802 Fascism and Antifascism
Not offered in 1991. (Old No. 64.2107)

GERS2810 Contemporary Germany
Main topics: the war aims of the Allies and the breakdown of German Fascism (1941-45); the period of occupation, the Cold War, the Berlin crisis, the division of Germany (1945-49); the founding and development of the Federal Republic of Germany and the German Democratic Republic (1949-1980) – a comparative analysis of their political, socio-cultural and economic systems; the events of 1989 and their background.
Assessment: Research essays and tutorial paper. (Old No. 64.2102)

GERS2811 Germany between the Wars
Not offered in 1991. (Old No. 64.2109)

GERS2812 Bridging the Distance: Current Social and Political Issues in Germany and Australia
Prerequisite: Upper Level status.
An introduction to general issues of post-war German history and civilisation combined with a comparison of major institutions and trends of the German societies with those of Australia.
Assessment: 1 essay, 1 tutorial paper. (Old No. 64.7000)

GERS2820 Art, Society and Politics in the Weimar Republic 1918-1933
Not offered in 1991. (Old No. 64.2112)

GERS2823 Theatre for Children and Young People
Not offered in 1991. (Old No. 64.2108)

GERS2824 Kafka in Translation
Not offered in 1991. (Old No. 64.2116)

GERS2825 Film and Theory
Not offered in 1991. (Old No. 64.2114)

GERS2826 From Literature to Film
Not offered in 1991. (Old No. 64.2115)

GERS2828 Expressionism in Art, Film and Literature
Expressionism is the first of the truly "modern" movements in the history of European art. Born out of a profound feeling of crisis shared by many intellectuals and artists at the beginning of the 20th century, the expressionists developed an innovative and provocative style that came to exercise a powerful influence on all subsequent avant-garde movements, in the visual arts as well as in film and literature. Expressionism is also seen as a decidedly revolutionary movement that aimed at radically questioning the relationship between art/aesthetics and society. The subject will give a historical survey of the movement, examine the theoretical statements made by some of the participants and study some of their works in painting (from Kirchner to Grosz), in sculpture (Barlach), film (the early films of Fritz Lang and William Murnau), and literature (poetry and drama; in English translation).
The subject will be team-taught by staff from the School of German Studies and the College of Fine Arts.
Assessment: Essay, tutorial paper and participation.

GERS2850 After the Holocaust
Not offered in 1991. (Old No. 64.2301)
Greek (Modern)

Modern Greek was offered for the first time by the University of New South Wales in 1989.

The basic aims of the subjects offered are to help students to acquire a sound reading knowledge of Greek, a command of basic conversational and written Greek, and an understanding, through the study of Greek literature and history, of the way in which Greek society has developed.

Teaching and Assessment

Students in each of the above Modern Greek subjects attend six hours of classes a week. All teaching in Modern Greek Studies is carried out in small groups except for the Greek Literature and Greek History sections.

Assessment is continuous and ranges from informal class tests to literature and history essays and class oral and written presentations. Oral participation in all classes is also taken into account when determining the final mark.

Language of Instruction

Whenever possible, language courses are conducted in Greek. Literature lectures are mostly given in Greek with English explanations of difficult terms and points. The history lectures, however, are mainly given in English.

Level 1 Subjects offered:

1. GREK1000 Introductory Modern Greek A is designed for students who have no prior knowledge, or a very limited knowledge of the language.

2. GREK1100 Intermediate Modern Greek B is designed for students with a moderate knowledge of the language, i.e., who can read, write and speak Greek at a reasonable level.

3. GREK1200 Intermediate Modern Greek C is designed for students who have done Modern Greek at HSC level and have achieved a satisfactory result. Students who have attended High School in either Greece or Cyprus will be expected to enrol in this subject.

Note: Students who wish to take Modern Greek should enrol in the subject that seems most appropriate to them. However, the subject co-ordinator reserves the right to alter the enrolment, according to the student's knowledge of the language.

Upper Level

GREK2000 Intermediate Modern Greek A

Prerequisite: GREK1000.

This subject is divided into two sections: Language (4 h.p.w.) and Reading and Literature (2 h.p.w.). The chief aim of the subject is to help students systematise and develop their knowledge of Modern Greek. Thus, emphasis will be placed on helping students to speak and write Greek accurately on active skills. At the same time, the skills of listening and reading or the more theoretical knowledge of the language's patterns and structures will not be neglected.

Assessment: Class work, assignments and an essay.
History

The School of History offers a variety of Level 1 and Upper Level subjects, giving students a wide range of options at all levels. Subjects are mainly concerned with aspects of modern history and related to periods and themes in Australian, Asian, European and American history. General theories and problems of historical explanation are also studied, and the techniques of researching and writing history.

Class contact in most subjects offered is three hours per week. (Details of lectures, seminars, tutorials, etc, are available from the School of History; lecture timetables may be consulted at the Faculty of Arts office, Room G1, Arts Building). Most of a history student’s working time, however, is spent in the University library or in private study, preparing papers to be read at tutorials and seminars, and writing the required essays.

Assessment in all full-year and some session-length subjects involves one or two essays per session and an unseen examination. In some subjects student participation in tutorials and/or seminars is also assessed. For details of assessment in particular subjects, consult the School of History.

Details of a major in History, and of the requirements for entry to Year 4 Honours, are listed below. It should be noted that under Faculty rules a student may complete only one Level 1 History subject (12 Level 1 credit points) and that 2. all Upper Level History subjects have prerequisites.

Level 1 and Upper Level subjects provide training through the discipline of History in the skills of social research, the interpretation and evaluation of historical evidence and writing, the formation of discriminating judgements, and the effective communication of information and ideas. Honours and postgraduate students develop these skills to a high level through further course work and research.

Major Sequence

12 Level 1 and 24 Upper Level credit points in subjects offered by the School of History.

Honours Entry

Students must satisfy Faculty of Arts requirements for entry to Honours programs, and must have obtained, at Credit level or better, at least 54 credit points in the School of History, including six credit points in HIST3000 to HIST3004 and not more than 12 Level 1 credit points. (The School may grant permission to count 6 credit points obtained in History subjects offered by other schools or departments.)

History Students Association

The History Students Association was formed to assist students of History to develop an interest in the subject outside their formal studies.

In pursuit of this objective the Association presents guest speakers, holds film showings, wine and cheese functions and arranges other activities. It is hoped this year to expand the program to include as wide a variety of activities as possible to cater for the interests of as many students as possible.

All students in the School of History are members of the History Students Association.

Please address all enquiries to the School of History, or to: The Secretary, UNSW History Students Association, School of History, The University of New South Wales, PO Box 1, Kensington, NSW 2033.

Upper Level
The following are Upper Level subjects, with credit point values as nominated.

Full Year subjects

HIST2001 The Dynamics of Modern Southeast Asia
J. Ingleson
Prerequisite: Completion of 36 credit points, unless otherwise approved by the School. Excluded: 51.562, 51.524.

Analyses the reasons for the diversity of social, political and religious structures and development levels in three or four of: Burma, Cambodia, Indonesia, Malaysia (and Singapore), the Philippines, Thailand. (Old No. 51.524)

HIST2005 “Race”, Slavery and Immigration: Comparative History
R. Bell

An introduction to the comparative historical study of a range of European-settler societies in which ‘race’, slavery, immigration and ethnicity have been central issues. Examines: (1) relations between indigenous peoples and European settlers; (2) involuntary migration, especially slavery and indentured labour; (3) relationships between colour, class, power and status; (4) voluntary immigration and settlement patterns; and (5) the responses of host societies to immigrants and their descendants. Historical examples and evidence will be drawn from a number of heterogeneous societies; notably the USA, Australia, New Zealand, Brazil and South Africa. Consideration will be given to historiographical questions raised by comparative study. (Old No. 51.553)

HIST2008 South Asia: Mohenjodaro to Rajiv Gandhi
M. Harcourt

Surveys one of the major world civilisations over 5 millennia. In first session the emphasis is on the evolution of state and society during this period. In second session students examine specific themes: women's history; the history of subaltern groups (eg tribal and outcast populations); leisure and popular culture history; religious history; and economic-industrial history in South Asian context. Vernacular and English literature will be utilised in investigating these themes as well as primary source documents and secondary historical works. (Old No. 51.563)

HIST2009 Modern Europe: Society, Politics and Ideology in the 20th Century
J. Tampke

Approaches the course of 20th century European history from a contemporary perspective. The current changes occurring in Eastern and Central Europe will be analyzed, in the context of the political, ideological and socio-economic forces which have determined our century. How are we to explain the violent and disastrous events which marked the first half of this century? Why, for the next 40 years, did Europe remain relatively stable, although deeply divided? How do we account for the sudden trend toward German reunification, and the demise of Eastern Europe socialism? (Old No. 51.593)

HIST2010 England between Civil Wars 1460-1660
P. Edwards

Some of the main political, religious, economic and social issues during the period of the Yorkist, Tudor and early Stuart monarchs, ie between the Wars of the Roses and the Great Civil War. K.K. Shum
Not offered in 1991. (Old No. 51.903)

HIST2013 Prophets and Millenarian Movements in World History
M. Harcourt

Most religions have some sort of chiliastic vision of the end of the
world and the coming of a Messiah. Similarly most societies
have at some stage experienced millenarian movements in
which groups of people expect the imminent realisation of their
vision and act upon that expectation. Such movements are
examined across different historical eras and in diverse
cultural areas. Movements surveyed include the Taborites,
Anabaptists and Fifth Monarchy Men in Reformation Europe;
Cargo Cults in 20th century Melanesia; Mahdist movements in
Sudan and Pakistan; 'Spirit' churches in sub-Saharan Africa;
Ghost Dance Cults amongst Amer-Indians in 19th century
North America and the Taiping movement in late Ching China.
Theories explaining millenarian phenomena and the
relationship between millenarian religion and orthodoxy. The
propensity of millenarian adherents to oscillate between extremes of puritanism and permisiveness.

Assessment: 1 tutorial presentation, 1 optional examination
and 1 research essay. In certain cases an oral history project
can be substituted for the latter.

Note: This subject may be counted towards a major sequence in the School of Science and Technology Studies. (Old No. 51.905)

HIST2015 Women in the Modern World  S2  L1T2  C6
I. Tyrrell
Prerequisite: As for HIST201. Excluded: 51.914.

History of women in the western world since the French and
American revolutions. Stress on relating the role and position
of women to questions of social change over long periods of
time. Topics include: changing family structures, sexual
attitudes and practices, women's work, the role of women in
feminist politics and reform movements, the position of women
in contemporary western society. Covers the United States,
Europe and Australia. (Old No. 51.914)

HIST2016 Film in History  S1  T3  C6
M. Harcourt
Assesses the significance, for the discipline of History, of film
as a major communications medium. Issues include: the
industrial archaeology of the film; the political-economic
history of the film; national and transnational film industries, the
impact of film upon perceptions of the past, and its uses in
teaching history: film as a primary historical source material (ie
documentaries, pedagogic films, advertising commercials
and propaganda films, and home movies); reading film "texts"
from the standpoint of the historian. (Old No. 51.909)

HIST2017 Europe since 1914  SS  L2T1  C6
J. Tampke
Prerequisite: As for HIST2001. Excluded: 51.593, HIST2009,
51.910.
Not offered in 1991. (Old No. 51.910)

HIST2019 Ireland and Australia in the Twentieth Century
P. O'Farrell
Not offered in 1991. (Old No. 51.920)

HIST2021 Irish History from 1800  S1  L2T1  C6
P. O'Farrell
Prerequisite: As for HIST2001. Excluded: 51.920.
Major developments in Irish history 1800-1973. Emphasis on
social and economic history and emigration in the 19th
century, and on political problems in the 20th century.

HIST2025 Slave Republic to Industrial Nation: United States History 1790-1880
I. Tyrrell
A social history of the expansion and consolidation of the new
republic, with special attention to slavery, American Indians,
Jacksonian democracy, reform, the Civil War and its aftermath.
The central concern is how a social system based on physical
corection and paternalistic social relations came to be
replaced by a free labour system based on principles of
individual morality and self-restraint.

Note: This subject may be counted towards a major sequence in the School of Science and Technology Studies. (Old No. 51.930)

HIST2026 Tradition and Society in South Asia on the Eve of the Industrial Age (1500-1750)
M. Harcourt
Not offered in 1991. (Old No. 51.939)

HIST2027 Australia, 1901-1949  S1  L1T2  C6
F. Farrell
Prerequisite: As for HIST2001. Excluded: 51.542, HIST2028,
51.941.
Major developments in Australian History in the period from
Federation to the beginning of the cold war. Topics include:
defence, federal-state relations, labor, World War 1 and its
impact on society, the Bruce-Page Government, the politics of
the Great Depression, the impact of World War II, Post-War reconstruction in the 1940s and change and continuity in immigration, policies towards aborigines, media and film history, and the commonwealth and the constitution. (Old No. 51.941)

HIST2028 Australia since World War II
A. McGrath
A survey of developments in Australian society since the second world war, such as immigration, religion, culture, government, external relations, women's experiences and struggles, Aboriginal culture and politics and the impact of the Vietnam war. (Old No. 51.942)

HIST2029 Australian Perceptions of Asia: An Historical Perspective
J. Ingleson
Not offered in 1991. (Old No. 51.944)

HIST2030 History of the Arab-Israeli Conflict
I. Bickerton
The historical background and present state of the Arab-Israeli dispute. Topics include: early Zionism; the Balfour declaration; Jewish settlement before and after World War I; the Mandate period; the Holocaust; creation of Israel; several topics in Arab-Israeli relations since 1948. (Old No. 51.946)

HIST2031 Britain 1714-1848: The Making of the First Industrial Society
J. Gascoigne
Not offered in 1991. (Old No. 51.953)

HIST2032 Vive La Republique: A Bicentenary Subject
M. Lyons
Prerequisite: As for HIST2001, or FREN1000 or FREN1010. Excluded: 51.954.
Not offered in 1991. (Old No. 51.954)

HIST2033 Consensus and Conflict in Modern Australia
F. Farrell
Examines the forces for consensus and division in Australia since about 1890 in such areas as class, politics, religion and ethnic or cultural origin and assesses the degree of ideological consensus which has emerged in modern Australia. (Old No. 51.959)

HIST2034 Gender and Frontier
A. McGrath
Explores the relations between Aboriginal and European Australians in the context of the landscape and colonial power relations. Gender will be highlighted as a key dynamic in the workings of Australian social history. Case studies will enable a regional emphasis, and include the early Port Jackson settlement, selected frontiers of the nineteenth century, Western Australia and the Northern Territory from 1900 to 1940. Key themes are nationalism, "race", class, work, culture and gender, the bush legend, human/land relationships and land rights. Varied historical sources will be used, including diaries of 'first fleet' writers, novels and autobiographies. (Old No. 51.936)

HIST2036 Documentary Film and History
R. Bell
The mission of the documentary film-maker, like that of the historian, is to order and interpret complex data and issues. All non-fiction films confront problems which derive from the demands of interpreting and validating sources; all are ultimately products of a range of subjective choices in such obvious areas as selecting a subject to editorial techniques and decisions; all are in part the product of the social, economic and political framework in which they are produced; and all are constructed to educate, expose, explore or propagate, albeit in more or less overt ways. Analysis of such film texts raises important historiographical questions which are often avoided by historians. This subject provides a critical introduction to the history of documentary films as vehicles for understanding the past. (Old No. 51.960)

HIST2038 The Modern Arab World
M. Pearson
Prerequisite: As for HIST2001.
This subject provides a political, social and economic history of the Arab world in the nineteenth and twentieth centuries. The approach will be thematic and topical, rather than narrative. The history of the Arab-Israeli dispute, and of Iran, will not be covered, except to the extent they impinged on internal developments in the Arab world. Topics include: Orientalism and western view of the Muslim world; the rise of Islam; the nineteenth century as a time of troubles; moves to autonomy in various Arab countries; Islamic reassertion in the late twentieth century; oil and politics; Islamic society and the role of women.

HIST2039 Environmental History
I. Tyrrell
Prerequisite: As for HIST2001.
An introduction to the global history of the environment and mankind's relationship to it from pre-industrial times. Emphasis upon the influence of changes in the natural world; concepts of the environment; political economy, economic growth and the measurement environmental damage; the impact of population change and the industrial revolution; the effects of
settler societies such as the United States and Australia; modern environmental movements.

HIST2040 Global Inequality: From Expansion to Domination 1500-1800

M. Pearson and J. Levy
Prerequisite: As for HIST2001. Excluded: SPAN2428.

An investigation into the history and causes of unequal distribution of wealth within and between Europe, Asia, Africa and America. The subject begins with the expansion of Europe in the 16th century and traces the different responses to that expansion in Asia, America, Africa and Europe, up to the beginnings of the Industrial Revolution. The course will stress interaction. It is not a matter of a dynamic West impacting on a static Asia and America. Rather, the nature and degree of penetration achieved by the Europeans in these areas depended on both their own economies and societies and on the responses to their presence in these areas.

HIST2041 The Rise of Organised Sport and Mass Culture

R. Cashman
Prerequisite: As for HIST2001.

Urbanisation transformed the shape of sport and popular culture and created an industry of mass entertainment. This subject will explore how and why this transition took place in 19th century Australia and England and what it all meant in personal, familial, regional and national terms. Topics will include: historiography of sport and mass culture, the leisure revolution in 18th century Britain, the rise of organised sport and mass culture in Australia and the social and political implications of new leisure institutions.

HIST2042 The Media: Past and Present

R. Cashman and D. Shaw

The first session focuses on media in preindustrial society, chiefly England, and explores issues related to the rise of mass media and communications. Second session: Consideration is given to the relationship between systems of production, the issues of domination and control and the creation of mass audiences in Australia. The issues are considered via the study of newspapers, magazines, radio, television and video, documentary and film, music, alternative media and computer-based communications.

HIST2043 Modern China From Opium War to 1911

K.K. Shum

A brief introduction to the social and institutional setup of traditional China followed by detailed discussions of modern Chinese political, social and intellectual developments under the western impact from the mid 19th century to the 1911 Revolution.

HIST2044 Modern China From 1911 to Liberation

K.K. Shum

An analysis of the 20th century Chinese Revolution focussing on the struggle for power between the CCP and KMT, followed by a brief discussion of post-1949 developments in China.

HIST2045 Modern America

I. Bickerton

The history of the United States from the 1880s to 1980s. Several major themes in modern America including immigration and ethnicity; labour history; US foreign relations; and the emergence of modern American popular culture. Students are encouraged to pursue their own interests in aspects of the history of the US in the 20th century from a wide a range of sources as possible. (Old No. 51.931)

HIST2046 "Race", Immigration and Ethnicity

R. Bell
Prerequisite: As for HIST2001.

Comparative studies of a number of European settler-societies in which "race", immigration and ethnicity have been important historical issues. Major themes: (1) Indigenous - European relations; (2) involuntary migration and un-free labour; (3) voluntary migration and community formation. Examples and evidence will be drawn from a number of heterogeneous societies - Australia, USA, South Africa, Brazil, New Zealand and Hawaii. Theoretical perspectives employed in the study of "race" and "ethnicity" will also be considered.

HIST3000 Pre-Honours Seminars

I. Tyrrell

These subjects are available to all students who meet the above prerequisite. Students intending to proceed to Honours must take at least one of these seminars. They deal with questions of the theory and practice of the discipline of History and/or the devising and implementation of research in History.

HIST3000 Gender and Colonialism

A. McGrath
Prerequisite: 12 credit points in History at Credit level or better.

Examines the impact of colonialism on indigenous and settler societies in Southern Africa from 1880-1950 with some Australian comparisons. Contemporary racial and sexual ideologies and their relation to state actions are analysed.

HIST3001 Politics and Practice of History
Deals with issues in the production and dissemination of historical knowledge in the era of professional historiography. Topics will include: the rise of history as a profession; the ideal of scientific historiography; the development of specialisations such as economic history and the involvement of historians in government and other policy-making.

**HIST3002 Researching and Writing History**  S1 2CCH  C6

B. Kingston

Prerequisite: 12 credit points in History at credit level or better.

A weekly seminar in which students are introduced to a variety of research methods and styles of writing, eg. biography, family history, use of land titles, newspapers, parliamentary papers. Other members of the School will contribute from their professional experience.

**HIST3003 Oral History**  S2 2CCH  C6

M. Lyons

Prerequisite: 12 credit points in History at Credit level or better.

This subject emphasises the need for thorough preparation, scholarly analysis and sensitive interpretation in collecting and using oral evidence. It will offer a combination of methodological reflection and practical advice, and students will conduct their own oral history interviews under staff supervision.

**HIST3004 Immigration and Ethnicity: USA**  S2 2CCH  C6

I. Bickerton

Prerequisite: 12 credit points in History at Credit level or better.

Consists of a series of seminars exploring the nature of immigration to the United States and its impact upon American Society during the period 1880-1930. Particular emphasis is placed upon an analysis of ethnicity and its implications in United States history. I would like each student to choose a particular ethnic group, or aspect of the immigrant experience, and follow it up throughout the year. In this way, hopefully, the seminars will develop into genuine research seminars.

**Honours Level**

**Note**: Students are strongly advised to consult the Head of School or the Year 4 Co-ordinator on their eligibility to enter Honours programs. (Old No. 51.999)

**HIST4000 History Honours (Research)**  F

Prerequisite: At least 54 credit points at Credit Level or better in School of History subjects, including 51.999 and not more than 12 Level 1 credit points.

Honours (Research) students are required to prepare a thesis of between 15/20,000 words which must be submitted by a date specified by the School and to complete two 4th year seminar subjects. One of these must be taken in the first session of enrolment. For details, consult the School. (Old No. 51.4000)

**HIST4050 History Honours (Research)**  P/T

**HIST4500 Combined History Honours**  F

Prerequisite: To be determined on application to the Head of School.

This program is undertaken in two schools, eg History and Political Science, History and German Studies. Students are required to complete a research and seminar program acceptable to both schools. (Old No. 51.4050)

**HIST4550 Combined History Honours**  P/T

**HIST4551 Combined History Honours**  P/T

**History and Philosophy of Science and Technology**

Subjects in the History and Philosophy of Science and Technology (HPST) examine the history of scientific and technological development, the nature and philosophical implications of the knowledge and methods involved in this development, and the historical dynamics of scientific and technological change. These subjects, together with those in Science, Technology and Society (STC), are offered by the School of Science and Technology Studies in the Faculty of Arts. They employ the methods of the humanities and social science disciplines to understand the cultural and social role of science and technology. No previous study of mathematics or contemporary science is required.

HPST subjects make an ideal complement to subjects in intellectual and social history and in philosophy taught elsewhere in the Faculty. They may also be taken, either alone or in combination with SCTS subjects, to complete a major sequence in the School of Science and Technology Studies (see below). HPST subjects with numbers in the 1000 range are Level 1 subjects. Those in the 2000 and 3000 range are Upper Level subjects and may be taken in any order provided that individual subject prerequisites are met.
Major Sequence

A major sequence in the School of Science and Technology Studies consists of at least 36 credit points in HPST and/or SCTS subjects, of which no more than 12 credit points may be from Level 1 subjects. A major sequence may therefore consist of 12 Level 1 plus 24 Upper Level credit points, or of 6 Level 1 plus 30 Upper Level credit points, or of 36 Upper Level credit points. By permission of the Head of School, up to 6 credit points obtained in certain Upper Level subjects offered in other Schools may be counted towards a major sequence in the School of Science and Technology Studies.

Honours Entry

The prerequisite for entry to Honours in the History and Philosophy of Science and Technology is the completion (with an average grade of Credit or better) of at least 8 subjects offered by the School of Science and Technology Studies (HPST and/or SCTS) carrying at least 48 credit points, including not more than two Level 1 subjects offered by the School; or by permission of the Head of School.

The prerequisites for entry to Combined Honours in the History and Philosophy of Science and Technology and another discipline is the completion (with an average grade of Credit or better) of at least 6 subjects offered by the School of Science and Technology Studies (HPST and/or SCTS) carrying at least 36 credit points, including not more than two Level 1 subjects offered by the School; or by permission of the Head of School.

Philosophy of Science

For information on the interdisciplinary Philosophy of Science Program, taught in association with the School of Philosophy, see the relevant entry in Subject Descriptions.

Level 1

The following are Level 1 subjects, with a credit point value as nominated.

HPST1001 Myth, Megalith and Cosmos S1 L2T1 C6
Prerequisite: Nil. Excluded: 62.111, 62.219U, 62.102L.

The first of a two part study of Humanity and the Cosmos constituting a general introduction to the history and philosophy of science and technology. Provides a background to HPST1002 From the Closed World to the Infinite Universe but is a self-contained subject in its own right presupposing no prior knowledge of science and mathematics. Examines the evidence for scientific knowledge in prehistoric cultures (with special reference to the Western European megalithic cultures), the astronomy and cosmology of the ancient Near Eastern civilizations, and the development in earlier Greek geometry, astronomy, cosmology and method which provided the foundations for medieval and modern Western science. Topics: naked-eye astronomy, archaeoastronomy; ley lines and 'fringe' archaeology; dating and the development of archaeological theory; Pacific Islands' navigation; Australian Aboriginal cosmology and astronomy; the interpretation of mythologv; the astronomy and cosmology of Mesopotamia and Egypt; an assessment of astrology; Aristotle's cosmology; the origins and development of geometry to Euclid; patterns of reasoning and the foundations of scientific method; the mystery of the Dogons and the Von Daniken phenomenon.
Assessment: 2 short essays, 2 tests, tutorials.

HPST1002 From the Closed World to the Infinite Universe S2 L2T1 C6
Prerequisite: Nil. Excluded: 62.211, 62.219U, 62.104L.

The second of a two part study of Humanity and the Cosmos which aims to provide a general introduction to the history and philosophy of science and technology. Follows on from HPST1001 Myth, Megalith and Cosmos but constitutes a self-contained subject in its own right without prerequisites. Examines the momentous transition from the ancient/medieval model of a closed world to modern cosmological theory. Topics: the ancient tradition and the medieval conception of the cosmos; the labyrinth and the mappamundi; the Ptolemaic system; cultural and cognitive change during the Renaissance; Terra Australis and the expansion of the known world; Copernicus and the Copernican Revolution; the development of scientific methodology; the astronomy and cosmology of Kepler, Galileo and Descartes; Newton and the clockwise universe; the Scientific Revolution and the Church; humanity as microcosm; galaxies and nebulae; Relativity theory; big bangs and black holes; "fringe" and "New Age" cosmologies; science fiction and little green men.
Assessment: 2 short essays, 2 tests, tutorials.

HPST1003 Science: Good, Bad and Bogus: An Introduction to the Philosophy of Science S2 L2T1 C6
Prerequisite: Nil. Excluded: 62.115L.

What is science? What are its distinctive characteristics as a form of inquiry? Why are astrology and 'creationism' widely considered to be pseudosciences? A critical consideration of the claims of astrology, psychoanalysis, parapsychology and creation-science provides a vehicle for raising central questions concerning the nature of science, involving issues such as the nature of observation and evidence, theories and laws, explanation and prediction, etc. Central concerns throughout the history of philosophy have been the nature of knowledge and justified belief, and the demarcation between science and pseudoscience. These questions are placed in an historical context: from the Pre-Socratics, to Hume, Kant and the twentieth-century philosophers Wittgenstein, Popper and the 'Logical Positivists'.
Assessment: Essay, tutorials, class tests.

Upper Level

The following are Upper Level subjects with a credit point value as nominated.

HPST2001 The Scientific Theory S2 L2T1 C6

A critical examination of the scientific theory - its origins, nature and nurture. With particular reference to selected historical examples chosen from both the physical and biological sciences, a number of philosophically interesting problems relating to scientific theories are subjected to analysis. Topics include: the principles of theory construction; perception and observation; the structure of scientific revolutions; scientific explanation; the status of laws and theoretical terms; the 'existence' of theoretical entities; relationships between theory
and observation; the functions of models; the principles of theory establishment and rejection.

Assessment: One essay, tests, tutorials.

HPST2002 The Darwinian Revolution S1 L1T1 C6

Assessment: Examination, tutorial exercises, essay.

HPST2003 History of Medicine S1 L2T1 C6
Development of theory and practice in Western medicine from the time of Hippocrates to the 20th century. Material covered in four sections: 1. 'bedside' medicine from antiquity to the French Revolution; 2. 'hospital' medicine in the early 19th century; 3. 'laboratory' medicine in the late 19th century; and 4. 'technological' medicine in the 20th century, with particular emphasis on the social role of modern medicine.

Assessment: Essays, tutorial work and examination.

HPST2004 Computers, Brains and Minds: Foundations of Cognitive Science S2 L2T1 C6
Prerequisite: As for HPST2001. Excluded: 62.554, 52.564, 62.217U.
Introduction to contemporary discussions of the mind, thought, intelligence and consciousness. Focus on the issues which arise in connection with the so-called 'cognitive sciences' - the disciplines which include such fields as computer science, the various neuro-sciences, cognitive psychology, linguistics and the philosophy of mind. Stress on the recent revolutionary developments in the computer simulation of thought or 'artiﬁcial intelligence' and linguistics, since both these areas shed new light on traditional questions concerning the mind. Questions are: Can computers think? and is the brain a machine? Exploration of the theories, methods and philosophical issues which arise from the 'computational' or 'information processing approach' to the mind.

Assessment: Essay, class tests, tutorials.

HPST2011 History of the Philosophy and Methodology of Science S1 L2T1 C6
A survey of the history of ideas about the nature and method of science, considering such issues as Aristotelianism, Galileo's mathematisation of nature, rationalism and empiricism, Kantianism, positivism, pragmatism,

conventionalism, logicism, falsificationism, the realist/instrumentalist debate, and 'sociologism'.

Assessment: Essays, tutorials.

HPST2012 Technology and Society S2 L2T1 C6
Not offered in 1991.
The history of technology in its social and cultural context, with special emphasis on the Industrial Revolution. This Revolution, which has been described as the most significant event in human history since the Agricultural Revolution of the New Stone Age, is examined in some detail, and concentrates on technology and its effects on human beings. Considers the professionalisation of engineering, the spread of industrialisation in Britain, in Europe and the USA, and examines the Second Industrial Revolution. Emphasis on the social and economic effects of the interactions of technology and society.

Assessment: Tutorial papers, participation in class, examination.

HPST2013 Body, Mind and Soul: The History and Philosophy of Psychology S1 L2T1 C6
The development of scientiﬁc ideas concerning the nature of life, mind and behaviour. While the subject includes both a brief treatment of early ideas and reference to issues in contemporary biological and behavioural sciences, the main focus is on the period from the Proto-Scientific Revolution of the 16th century to the advent of the general purpose computer. Topics include: Vesalius and the School of Padua; the biological thought of William Harvey; machines and the mechanical philosophy; Cartesianism and the mechanization of biology; classical theories of the relationship between mind and body; neurophysiology from the 19th to the early 20th century; the mechanist-vitalist disputes; Wundt, Fechner and the rise of experimental psychology; the Freudian revolution; Pavlov and the conditioned reflex; behaviourism and its critics; mind, brain, life and the computer.

Assessment: Essay, tutorial assessment, tests.

HPST3001 The Discovery of Time S2 L2T1 C6
The history of time, from the Ancient World through the Twentieth Century. The principal strands studied are: clocks and other instruments for the measurement of time, civil and religious calendars, concepts of time, philosophy and theology of time, conceptions of history and of progress, the cognition of time, the age of the Earth and the antiquity of humanity, time and the development of modern science. Throughout, attention will be paid to the historical context within which specific episodes and developments occurred and to cultural consequences of changes in the cognition of time.

Assessment: Essay, tutorials, 2 class tests.
HPST3002 Relations Between Science and the Arts  
S1 L2T1  C6

Not offered in 1991.

Assessment: Tutorial exercises, essay, examination.

HPST3003 Man, Woman and Deity  
S2 L2T1  C6

Conceptions of deity, from earliest times to the present, in relation to changing notions of sexuality and generation; the place of human beings in relation to their environment and the cosmos; the roles of the sexes within different cultures. Topics: archaeological evidence for early ideas concerning generation and for the relations of humans to the cosmos; the Earth Mother Goddess; biology, religion and mythology; feng-shui and geomancy; the symbolism of city, temple and dwelling; religion, sexuality and generation in ancient civilisations and primitive societies, with special reference to the Australian Aborigines; the Medieval and Renaissance world views; the tyranny of the machine; conservation and stewardship in the Middle Ages; the cultus of the Virgin Mary in relation to scientific and social change; theories of biological generation; concepts of Deity and Nature in relation to science and the environmentalist movement; the Gaia hypothesis.

Assessment: 1 essay, 2 class tests, tutorials.

HPST3004 Issues in the Philosophy of Science  
S1 L2T1  C6

Prerequisite: Completion of Arts or other approved subjects, carrying at least 72 credit points, including at least 12 credit points in HPST subjects. Excluded: 62.3005, 62.305U.

Not offered in 1991.

Selected topics in contemporary philosophy of science chosen from among the following: scientific laws, theories and explanations, observation, evidence, confirmation, induction, models and metaphors, realism and instrumentalism, verification and falsification, scientific discovery and scientific revolutions, theoretical reduction, methodological problems of social sciences, teleological and purposive explanation, rationality and scientific method, science and pseudo-science demarcation.

HPST3011 Language and Mind: The Impact of Chomsky's Revolution  
S1 L2T1  C6

Prerequisite: As for HPST2001. Excluded: 62.570, 62.218U.

Chomsky's theories of language and mind which have revolutionised linguistics, psychology and philosophy. History of linguistics and psychology, especially the Behaviourist approach of Skinner. Chomsky's impact on traditional philosophical debate between Rationalists and Empiricists concerning innate ideas.

Assessment: Essay, tutorials, class tests.

HPST3012 Philosophical Problems in Evolutionary Biology  
S2 L2T1  C6

Prerequisite: Completion of Arts or other approved subjects, carrying at least 72 credit points. Co-requisite: HPST2001 or HPST2002. Excluded: 62.3001, 62.301U.

Current controversies in evolutionary theory, with consideration of topics such as essentialism and population thinking, falsifiability of the principle of natural selection, the group selection controversy, sociobiology, problems in classification and cladism, the neutral theory of evolution and the role of chance, punctuated equilibrium theory, the origin of life, creation 'science'.

Honours Level

Students who are considering the possibility of studying for an Honours degree in History and Philosophy of Science and Technology should, if possible, consult the School of Science and Technology Studies by the end of their 3rd session of study for further information and guidance, and a program of study will be worked out for each student according to his or her needs and interests. It is, however, possible to move into the Honours stream at a later stage, and students wishing to do this should contact the School.

HPST4000 HPST Honours (Research)

In the Combined Honours (Coursework) program, candidates are required to complete a program of coursework as approved by the Heads of the two participating Schools.

Indonesian

Subjects in Indonesian language are offered both for students with no prior knowledge of the language and for those with HSC Indonesian.

In order to count Indonesian as a major sequence towards the Bachelor of Arts degree, students must complete 36 credit points in Indonesian language subjects plus 12 credit points in Asia-related subjects as defined in the Bachelor of Arts (Asian Studies) entry in this Handbook.

The Indonesian Study Society
The main aims of the Indonesian Study Society are to look after the needs and interests of students learning Bahasa Indonesia; and to promote amongst university students an awareness and understanding of Indonesia, its peoples, cultures, government and commerce. Activities include dinners and cultural evenings, and the wide interaction of language students with Indonesian students on campus.

Level 1

INDO1000 Introductory Indonesian  F 6CCH  C12
Excluded: 2 or 3 unit HSC Indonesian or equivalent.

An integrated program for beginners, which combines listening, speaking, reading and writing. Speaking and listening skills are emphasised, through communicative activities in class. Students will learn some 1500 vocabulary items, and will be able to communicate in practical situations across a wide range of topics. (Old No. 60.320)

INDO1100 Intermediate Indonesian A  F 6CCH  C12
Prerequisite: 2 or 3 unit HSC Indonesian or equivalent.
Excluded: HSC BIM or equivalent.

Extensive development of skills already acquired in listening, speaking, reading and writing. The subject places special emphasis on communicative activities in class. Students will be expected to develop their preferred skills in areas of their own personal interest and future careers. (Old No. 60.321)

Upper Level

INDO2000 Intermediate Indonesian B  F 6CCH  C12
Prerequisite: INDO1000 or equivalent. Excluded: INDO1100 or HSC BIM.

The extensive development of aural, oral and written skills in Indonesian language. (Old No. 60.322)

INDO3001 Advanced Indonesian A  S1 5CCH  C6
Prerequisite: INDO1100 or INDO2000. Excluded: HSC BIM.

Advanced learning in the Indonesian language, with special emphasis on professional communication skills, and the analytical discussion of Australian and Indonesian societies.

INDO3002 Advanced Indonesian B  S2 5CCH  C6
Prerequisite: INDO3001. Excluded: HSC BIM.

Extends and consolidates advanced learning in the Indonesian language, with emphasis on professional skills and analytical discussion. High level speaking and listening skills are combined with advanced reading and writing.

INDO3500 Contemporary Indonesian F 2CCH  C6

Society
Prerequisite: INDO1100 or INDO2000 or equivalent.

This subject is taught in Indonesian, and is based on reading from major 20th century Indonesian thinkers. Themes include: 'East and West', nationalism, Islam, Marxism, traditionalism, democratic socialism, 'accelerated modernisation', development and 'economic take-off'.

Industrial Relations

Assessment in the School of Industrial Relations and Organizational Behaviour is by essays, tutorial participation and an end of session examination. The relative weight of each of these varies from subject to subject and is announced in each subject at the beginning of each session.

Major Sequence
36 credit points obtained in the subjects: IROB1501, IROB1502, IROB2503, IROB2504, IROB3505 and IROB3506.

Honours Entry
A total of 48 credit points gained in respect of IROB1501, IROB1502, IROB2503, IROB2504, IROB3505, IROB3506, IROB3507 and one other industrial relations subject approved by the Head of the School of Industrial Relations and
Organizational Behaviour is required to progress to Year 4 Honours level.

**Level 1**

**IROB1501 Industrial Relations 1A**  S1 or S2  L2T1.5  C6

*Prerequisite:* HSC minimum mark required

- Contemporary English: 60
- 2 unit English (General): 60
- 2 unit English: 53
- 3 unit English: 1

Multi-disciplinary introduction to a range of important concepts and issues in industrial relations. Political, social, economic, legal, historical and psychological aspects of the evolution and operation of modern employer employee relations with material drawn from both Australian and overseas experience. The nature and implications of: strikes, lockouts and other forms of industrial conflict and alienation; the structure and policies of State and Federal trade unions, the State labor councils and such peak organisations as the Australian Council of Trade Unions; the employer industrial relations function and the structure and policies of employer associations; processes of work rule determination, such as collective bargaining, mediation, conciliation and compulsory arbitration; labour movements; and the role of the various arbitration tribunals and government instrumentalities with respect to industrial relations. (Old No. 30.701)

**IROB1502 Industrial Relations 1B**  S2  L2T1.5  C6

*Prerequisite:* As for IROB1501.

Formation and development of Australian unions. Analysis of economic, legal, political and social framework within which unions operate; the role of unions, the structure and government of unions, union strategies and unions and the 'balance of power'. The subject will discuss the policies and operation of unions generally, and of State Labour Councils and the Australian Council of Trade Unions. (Old No. 30.702)

**Upper Level**

**IROB2503 Industrial Relations 2A**  S1  L2T1.5  C6

*Prerequisite:* IROB1501.

The development of industrial relations systems overseas paying special attention to collective bargaining systems. Topics include: the role of trade unions, employer bodies and government labour policies; the nature of industrial conflict and procedures utilised for its resolution; and evaluation of alternative systems of labour-management relations at the plant, industry and national level. (Old No. 30.703)

**IROB2504 Industrial Relations 2B**  S2  L2T1.5  C6

*Prerequisite:* IROB2503.

Introduction to social theory and concepts by reference to the work of Marx, Weber and Durkheim. Sociological analysis of industrialisation. Social structure of Australia including the political-economic context of industrial relations institutions and processes. Corporate structure and managerial strategies. Workers' orientations and responses. Role of the State in industrial relations. (Old No. 30.704)

**IROB3505 Industrial Relations 3A**  S2  L2T1.5  C6

*Prerequisite:* IROB2504.

The nature and role of management behaviour and strategy in industrial relations, particularly vis-a-vis trade unions and unionism, but with attention also to several of the following: Theories of management behaviour and strategy; employer associations; plant level activity in pursuit of influence and control; national policies and strategies; the personnel function; international influences on industrial relations practice in Australian organisations. (Old No. 30.705)

**IROB3506 Industrial Relations 3B**  S2  L2T1.5  C6

*Prerequisite:* IROB3505.

Institutional structures; policies and procedures in industrial relations conflict resolution under arbitration and bargaining method. Topics include: theoretical aspects problems and issues in arbitration and bargaining; models of bargaining and arbitration; compulsory arbitration in the context of collective bargaining and the relative merits of the two methods under varying standards for evaluation. Case studies and simulation exercise material may be used. (Old No. 30.704)

**IROB3507 Research Methods and Thesis Workshop**  S2  L2T1  C6

*Prerequisite:* IROB3505 plus permission of Head of School.

Principles, procedures, techniques and data sources used for research in the field of industrial relations. Thesis writing methods and techniques. (Old No. 30.730)

**IROB2511 Labour Market Economics**  S1  L2T1  C6

*Prerequisite:* IROB1501 or ECON1102.

Economics of the labour market. Theory of labour market operations and an evaluation of it in the light of a range of research evidence from Australia and overseas. Supply of labour, including work-leisure trade offs, hours of work, occupational choice and participation rates; demand for labour by the firm and industry with evaluation of the marginal productivity doctrine; unemployment, including the identification problem, Phillips Curve and manpower policy issues; under-employment in developed and less developed countries; labour mobility and migration; theory and structure of wages including the economic philosophy, history, and machinery of Australian wage determination, wage differentials, minimum wages and earnings drift; wages and incomes policies; and the economic theory and impact of trade unions including influence on GNP shares, relative wages, hours of work, employment and resource allocation. (Old No. 30.720)

**IROB2512 Labour Market Policy**  SS  L2T1  C6

*Prerequisite:* IROB1501 or ECON1102.

This subject is not offered every year.

Origins, evolution and operation of Australian labour market policy, compared and contrasted with policies overseas. A range of issues in the development and deployment of human
resources, including: human capital theory and its application; training, retraining and work assistance schemes; mobility programmes, covering industrial, geographical and vocational labour mobility; occupational choice, theory and practice; the nature and human resource implications of various forms of unemployment, including structural, frictional, seasonal and disguised or hidden unemployment; redundancy, labour market projection and labour market planning at the national level; labour market discrimination, equal opportunity and anti-discrimination measures. (Old No. 30.721)

IROB2513 Industrial Sociology S2 L2T1 C6
Prerequisite: IROB1501 or equivalent.
This subject is not offered every year.
Sociological aspects of employer-employee relations and industrial work, referring to major sociological views and theories to examine a range of industrial relations issues, including job satisfaction, dissatisfaction and worker alienation; the role of money as a motivator in the job context; the nature and impact of bureaucracies in industrial relations; social aspects of occupation and retirement; work group identification and affiliation; social aspects of labour market operations, wages and unemployment; and attitudes to work. (Old No. 30.722)

IROB3522 Wages and Incomes Policy S2 L2T1 C6
Prerequisite: IROB1501 or ECON 1102.
This subject is not offered every year.
The relationship between movements in wage and salary incomes to desired economic objectives. Formulation and administration of wages and incomes policies, and the role of trade unions, employers and government institutions. Overseas experience and its implications for Australian practices, institutions and policies. The evolution of wage concepts and standards; wage structure, relativities and differentials; trade union pushfulness and product pricing decisions; earnings drift; and principles and criteria for wage fixation, including capacity to pay, 'needs' elements, productivity gearing, minimum and social wage levels and manpower issues. (Old No. 30.731)

IROB2516 Industrial Conflict S2 L2T1 C6
Prerequisite: IROB1501 or equivalent.
This subject is not offered every year.

IROB2517 Social Aspects of Work and Unionism S1 L2T1 C6
Prerequisite: IROB1501 or equivalent.
This subject is not offered every year.
Application of sociological principles to the study of trade unions and to the examination of the changing nature of work in industrial society. Authority structures in work situations; job re-design and enrichment; occupational structures; bureaucracty and democracy in trade unions; professionalism and the growth of white collar unionism, the social role of trade unions; worker and management attitudes to industrial relations issues; and discrimination and prejudice in the work context. (Old No. 30.728)

IROB3519 Industrial Relations Theory S1 L2T1 C6
Prerequisite: IROB2503 or equivalent.
This subject is not offered every year.
Major theoretical developments within academic industrial relations. Theories of the labour movement, in particular the work of the Webbs, Lenin, Commons, Perelman and Hoxie. Developments within the tradition of grand theory, including Dunlop's systems model, Kockan's refinements, pluralism, Marxism, corporatism and theories of regulation. Australian works are examined and analysed to relate discussion to the Australian scene. (Old No. 30.723)

IROB2514 Industrial Democracy S1 L2T1 C6
Prerequisite: IROB1501 or equivalent.
Different forms of worker involvement in management decision-making in Australia, Western Europe, Yugoslavia and North America. Concepts of industrial democracy, such as joint consultation, worker participation in management; industrial co-determination and worker self-management; contemporary theories of industrial democracy; West Germany's co-determination system; Sweden's model of 'disciplinary' democracy in industry; joint consultation in British industry; worker self-management in industrial enterprises in Yugoslavia; and Scanlon Plans and other forms of union-management co-operation in the United States and Canada; and collective bargaining as an exercise in industrial democracy in the United Kingdom and the United States. (Old No. 30.724)

IROB3521 Industrial Relations Methods S2 L2T1 C6
Prerequisite: IROB1501.
Methods and skills utilised in industrial relations practice. Content and character of industrial awards and agreements: preparation of logs of claims: industrial advocacy; tactics and techniques of negotiating and bargaining; data sources for wage, employment, productivity and other material important in industrial relations practice; and conciliation and arbitration procedures. (Old No. 30.732)

IROB3523 Industrial Relations Research Methodology S2 L2T1 C6
Prerequisite: IROB3505 plus permission of Head of School. Excluded: IROB3507.
A range of principles, procedures, techniques and data sources used for research in the field of industrial relations. (Old No. 30.733)

IROB2515 Labour History S2 L2T1 C6
Prerequisite: IROB1501 or any other approved Level 1 subject.
This subject is not offered every year.
The evolution of working class life in Australia from the arrival of the convicts to the present day, emphasising the growth of trade unions, political parties and state regulation of the labour market. The development of class consciousness, segmentation of the labour market and changes in work processes and workers’ control of production. The impact of immigration, technological change and the role of women in paid employment. (Old No. 30.725)

IROB3520 Industrial Law S1 L2T1 C6
Prerequisite: IROB1501 or equivalent.
Nature and purposes of the legal system and industrial law, the law concerning the contract of employment. Trade unions. Industrial law powers of Government. The Commonwealth Conciliation and Arbitration Systems, awards, penal sanctions for industrial law, industrial torts, topics and issues of importance in the industrial law field. (Old No. 30.726)

IROB2518 Human Resource Management S2 L2T1 C6
Prerequisite: IROB1501 or equivalent.
Context of working in Australia. Contemporary management thinking. Issues in managing people - problem solving, leadership, power, communications. Managing in an organization - group dynamics and supervision, setting goals and performance appraisal, developing individual and organisational resources, career planning. (Old No. 30.729)

Honours Level

IROB4536 Industrial Relations 4 F 6CCH (Honours)
Prerequisites: A total of 48 credit points in respect of IROB1501, IROB1502, IROB2503, IROB2504, IROB3505, IROB3506, IROB3507 and one other industrial relations subject approved by the Head of School of Industrial Relations and Organizational Behaviour is required to progress to Year 4 Honours level.
For students in the Industrial Relations Honours program.
A thesis of 20,000 words, IROB4533 Industrial Relations Seminar both sessions, IROB4531 Industrial Relations Case Studies A and IROB4532 Industrial Relations Case Studies B.

Japanese

A sequence of subjects in Japanese is offered by the Asian Studies Unit in the Faculty of Commerce and Economics. These subjects are available to students in the Faculty of Arts and are not considered as Commerce and Economic subjects in terms of the degree regulations.
To complete a major sequence in Japanese, which will be regarded as satisfying the requirement for a home-based major, students must complete 36 credit points in Japanese language subjects plus 12 credit points in Asia-related subjects as defined under the Bachelor of Arts (Asian Studies) entry in the Handbook.

Level 1

JAPN1000 Japanese 1A (Core) S1 L1T4 C6
Prerequisite: Nil. Excluded: 28.809.
Introduction to modern Japanese speaking, listening, reading and writing using communicative methods. Hiragana, Katakana and 100 Kanji are introduced and developed through progressive practice.

JAPN1001 Japanese 1B (Core) S2 L1T4 C6
Prerequisite: JAPN1000 or equivalent. Excluded: 28.810.
Further acquisition of communication skills in basic Japanese, regarding everyday non-technical topics. A further 100 Kanji are introduced and developed through progressive practice.

JAPN1100 Japanese 1A (Intermediate) S1 L1T4 C6
Prerequisite: 70% + in 2-unit NSW HSC Japanese; 80% + in 2-unit Z NSW HSC Japanese, or equivalent (subject to a placement test). Excluded: 28.809.
This subject develops students' fundamental knowledge of spoken/written Japanese. Students are introduced to authentic Japanese through tapes and readings in order to refine communication skills. 150 Kanji are progressively introduced.

JAPN1101 Japanese 1B (Intermediate) S2 L1T4 C6
Prerequisite: JAPN1100 or equivalent. Excluded: 28.810.
This subject further develops students' communication skills in modern Japanese. Students use Japanese in a wider context, thereby increasing vocabulary and grammatical structures. A further 150 Kanji are progressively introduced.

JAPN1200 Japanese 1A (Advanced) S1 L1T4 C6
Prerequisite: 35/50 + in 3-unit NSW HSC Japanese. Those students who have acquired competence in Japanese by being exchange students in Japan or by some other means (both subject to placement test). Excluded: 28.809.
This subject builds upon students' knowledge of Japanese language. Skills are improved through communicative (both written and spoken) activities. 150 Kanji are introduced progressively.

JAPN1201 Japanese 1B (Advanced) S2 L1T4 C6
Prerequisite: JAPN1200 or equivalent (subject to a placement test). Excluded: 28.810.
This subject looks at Japanese usage, both written and spoken, for those who have acquired a high level of competency in Japanese. A further 200 Kanji are introduced.

Upper Level

JAPN2000 Japanese 2A S1 T5 C6
Prerequisite: 28.810 or equivalent. Excluded: 28.811, 28.821.
Core language subjects designed for students who have acquired a sound knowledge of basic Japanese. Consolidates oral/aural skills and builds and develops reading/writing skills.
JAPN2001 Japanese 2B S2 T5 C6
Core language subjects designed for students who have acquired a sound knowledge of basic Japanese. Consolidates oral/aural skills and builds and develops reading/writing skills.

JAPN3000 Japanese 3A S1 T5 C6
Advanced instruction in the Japanese language for the purpose of business and other related areas of communication.

JAPN3001 Japanese 3B S2 T5 C6
Course material emphasises the rapid acquisition of advanced reading and writing skills, high level listening, comprehension and oral presentation in Japanese.

JAPN4000 Professional Japanese A S1 T5 C6
Prerequisite: JAPN3001 or 28.814 at credit level or above, or equivalent.
This subject concentrates on advanced language and communication skills needed to function in professional and business settings including public speaking, formal correspondence and intensive reading of publications in the business, technical and social science fields.

JAPN4001 Professional Japanese B S2 T5 C6
Prerequisite: JAPN4000.
Further development of skills attained in Professional Japanese A.

Linguistics

Linguistics - the study of human language - shares areas of interest with a number of other disciplines. Thus not only theoretical and descriptive linguists but also psychologists, philosophers, educators, sociologists, language teachers, neurologists and computer scientists address questions such as: What is the biological basis for language? Is language unique to the human species? How and why do languages change? How do children learn language? What is the meaning of 'meaning'? Can machines talk? As well, linguistics provides a basis for a variety of practical applications, including the teaching and learning of foreign languages, diagnosing and treating language disorders such as aphasia and dyslexia, developing language curricula in schools, improving literacy skills, generating speech by computer, producing 'plain English' documents, and so on. It is the distinction between Theoretical/Descriptive Linguistics and Applied Linguistics that is the basis for the choice of areas in which students may specialise in the linguistics program.
The linguistics program is designed to complement a School-based major sequence. Subjects may not be counted towards more than one major. Entry to the linguistics program requires 24 Level 1 credit points in Arts, including either 6 credit points from LING1000 Introduction to Linguistics or 12 credit points from ENGL1000 English 1. A major in linguistics requires not less than 24 credit points from the Upper Level subjects listed below. If you elect to specialise in Theoretical/Descriptive Linguistics, your 24 Upper Level credit points must include ENGL2500 Foundations of Language and LING2500 Theoretical and Descriptive Linguistics (LING2000 Applied Linguistics may be taken as an elective). If you elect to specialise in Applied Linguistics, your 24 Upper Level credit points must include ENGL2500 Foundations of Language and LING2000 Applied Linguistics (LING2500 Theoretical and Descriptive Linguistics may be taken as an elective). Make sure that you include in your degree program any necessary prerequisites for subjects you wish to take, unless granted exemption by the subject authority.

Major Sequence

Level 1
Prerequisite: 24 Level 1 credit points in Arts, including: either 6 credit points from LING1000 Introduction to Linguistics or 12 credit points from ENGL1000 English 1.

Upper Level
Core Subjects:
ENGL2500 Foundations of Language and either
LING2500 Theoretical and Descriptive Linguistics or LING2000 Applied Linguistics, plus at least 12 credit points obtained in any of the following subjects:
ENGL2552 Chomskyan Linguistics
ENGL2558 Systemic-Functional Linguistics
ENGL2553 Sociolinguistics in Australia
ENGL2559 Psycholinguistics

Law

A very limited number of places in subjects offered by the Faculty of Law may be available to Arts students in 1991. Detailed information and timetables are available from the Faculty of Arts office. Students in the Faculty of Arts who are interested in taking a law subject are asked to complete a separate application form as part of their re-enrolment procedures and are then notified by mail of the outcome of their application.

Law subjects are valued at 4 or 6 Upper Level Arts credit points.

In the case of students enrolled in the combined Arts Law course (4750), such subjects will be counted as Law subjects and not as part of the normal BA degree course sequence.
Mathematics

While Mathematics as a major study is usually taken in the Science and Mathematics course, it may also be taken in the Faculty of Arts.

First Year Mathematics
MATH1032 is the standard subject and is generally selected by students who intend to pursue further studies in mathematics.

MATH1042 is aimed at the more mathematically able students, including those who may wish to take a degree at Honours level in Mathematics. It covers all the material in MATH1032, plus other topics, at greater depth and sophistication.

While it is expected that students aiming at Honours level in Mathematics will take this subject, it is equally valuable for any mathematically able students whose course requires a considerable amount of mathematics.

MATH1011 and MATH1021 is the usual course for students who do not intend studying Mathematics beyond Year 1 but whose studies require a considerable amount of mathematics.

Upper Level

Core Subjects:

LING1000 Introduction to Linguistics S2 3CCH C6
Co-ordinator: Peter Collins
An introduction to general linguistics, examining the nature, structure and use of language. Topics include phonetics, grammar, semantics, language change, language and mind, and language and society.

LING2000 Applied Linguistics S2 3CCH C6
Co-ordinator: Alan Chamberlain
Not offered in 1991.

Prerequisite: 50.1000 or 50.511 or 50.521 or ENGL1000 or 50.600 or LING1000 or FREN3100, or special permission.

The application of linguistics to language teaching. Topics will include structural and functional analyses of language, the concept of authenticity, oral and written codes, the selection of syllabus content (e.g. which registers?) and the ordering of syllabus items.

LING2500 Theoretical and Descriptive Linguistics S2 3CCH C6
Co-ordinator: Peter Collins
Not offered in 1991.

Prerequisite: 50.1000 or 50.511 or ENGL1000 or 50.600 or LING1000 or special permission. Excluded: 50.601, 50.6002.

A selection of topics in contemporary linguistics, including schools and movements, language acquisition, applied linguistics, language and machines, discourse analysis and pragmatics.

Higher Level Mathematics

Many subjects in the School are offered at two levels. The higher level caters for students with superior mathematical ability.

Students with Low Mathematical Qualifications
The School of Mathematics arranges a Bridging Course in Mathematics for those students intending to enrol in Mathematics 1 and who have inadequate mathematical background. The Bridging Course covers the gap between 2 unit and 3 unit Mathematics and is a very useful refresher course generally. The course is held at the university during the period January to February each year.

Attention is also directed to the Calculus Bridging Course given over the University of NSW Radio Station VL2UV. The radio course, which is also available on cassette, explains the ideas of calculus and assumes no previous knowledge of the subject.

Mathematics Prizes
There are prizes available for certain courses in the School of Mathematics. They are open to all students proceeding to an undergraduate degree or diploma at the University but are not awarded if there is no candidate of sufficient merit.

Details of these prizes may be found in the section Scholarships and Prizes later in this handbook.

Major Sequences in Mathematics
It is possible to do a major sequence in Mathematics (general) or in each of the Departments of Pure Mathematics, Applied...
Mathematics and Statistics. In all cases students must take the subject Mathematics 1 (MATH1032) or Higher Mathematics 1 (MATH1042) in Year 1 and it is also strongly recommended that they include the Level I subjects COMP1811 and MATH1081 in Year 1. The subjects required in Years 1 and 2 for the various major sequences are listed below. It should be noted that because of the close inter-relations of subjects in the different departments some Level II subjects not in a particular major sequence may nevertheless be essential prerequisites for Level III subjects in the major sequence and so must be included in the student's program. Such essential prerequisites are noted below.

Mathematics (general)

In Year 2 of their course students must take the subjects MATH2501, MATH2510, MATH2520, MATH2100 and MATH2120 (or the Higher equivalents MATH2601, MATH2610, MATH2620, MATH2110 and MATH2130).

In Year 3 of their course students must take Level III Mathematics units with a total credit point value of at least 16.

Pure Mathematics

In Year 2 of their course students must take the Pure Mathematics subjects MATH2501, MATH2510 and MATH2520 (or the Higher equivalents of MATH2601, MATH2610 and MATH2620).

In Year 3, they must take Pure Mathematics subjects MATH3500, MATH3510, MATH3520 and MATH3570 (or the Higher equivalents MATH3601 and MATH3710 or MATH3610), and in addition further Level III Pure Mathematics subjects with a total credit point value of at least 8.

Note: Applied Mathematics subjects MATH2100 and MATH2120 (or the Higher equivalents MATH2110 and MATH2130) are essential prerequisites for the Level III Pure Mathematics subjects and so should be included in Year 2 of the course although not part of the major sequence.

Applied Mathematics

In Year 2 of their courses students must take the Applied Mathematics subjects MATH2100, MATH2120 (or their Higher equivalents MATH2110, MATH2130) and at least two of MATH2160, MATH2200 and MATH2120.

In Year 3 they must take at least four of the Applied Mathematics subjects MATH3101, MATH3241, MATH3301, MATH3121, MATH3161, MATH3181, MATH3201.

Note: Pure Mathematics subjects MATH2501, MATH2510 and MATH2520 (or their Higher equivalents MATH2601, MATH2610 and MATH2620) are essential prerequisites for the Level III Pure Mathematics subjects and so should be included in Year 2 of the course although not part of the major sequence.

Statistics

In Year 2 of their course students must take the Statistics subjects MATH2801, MATH2821, MATH2810 and MATH2830 (or their Higher equivalents MATH2901, MATH2921, MATH2910 and MATH2930).

In Year 3 they must take Statistics subjects to a total value of at least 16 credit points, chosen from MATH3801, MATH3811, MATH3820, MATH3830, MATH3840, MATH3850 (or their higher equivalents MATH3901, MATH3911, MATH3920, MATH3930, MATH3940, MATH3950) and also from MATH3860, MATH3970.

Note: MATH3860 has no higher equivalent; MATH3970 is a higher subject with no ordinary level equivalent.

Note: Pure and Applied Mathematics subjects MATH2501, MATH2510 and MATH2120 (or their Higher equivalents MATH2601, MATH2610 and MATH2130) are essential prerequisites for the Level III Statistics subjects and so should be included in the Year 2 of the course although not part of the major sequence.

Honours Level Programs in Mathematics

There are three separate Year 4 Honours level programs: MATH4603 Pure Mathematics 4, MATH4103 Applied Mathematics 4 and MATH4903 Theory of Statistics 4.

The four-year program for a degree at Honours level is intended primarily for professional pure mathematicians, statisticians or applied mathematicians, but is of interest also to intending specialists in mathematical areas of social sciences, physical, sciences and engineering.

For entry to these Honours Level programs students should complete a major sequence (as indicated above) in the appropriate department with most subjects of the major sequence taken at Higher Level. It is also desirable that most of the additional Year 2 subjects noted as essential prerequisites should also be taken at Higher Level.

Students seeking a degree at Honours level in Mathematics are advised to choose mathematics subjects according to their individual interests in consultation with senior members of staff in the School. In particular, since entry to Year 4 is only with approval of the Head of School, students should at the beginning of their Year 3* discuss their Year 3 programs with a professor of the Department in which they intend to take Honours. In special circumstances additional prerequisites may be required or some of those listed may be waived.

Special Note for Pure Mathematics Honours

Since there are no clear Higher equivalents to many Pure Mathematics subjects, students intending to do Honours in Pure Mathematics should note that they should take the Higher Pure Mathematics subjects MATH2601, MATH2610 and MATH2620 in Year 2 and MATH3601 and either MATH3710, MATH3720, MATH3630, MATH3740, MATH3750 and MATH3760, or MATH3610, MATH3620, MATH3730, MATH3640, MATH3650 and MATH3660 in Year 3.

**Students wishing to do Honours in Applied Mathematics are advised to discuss their second and third year programs at the start of Year 2.

MATH1081 Discrete Mathematics
Co-requisites: MATH1032 or MATH1042. Excluded: 10.081.

Role of proof in mathematics, logical reasoning and implication, different types of proofs. Sets, algebras of sets, operations on sets. Mathematical logic, truth tables, syntax, induction. Graphs and directed graphs, basic graph algorithms. Counting, combinatorial identities, binomial and multinomial theorems. Binary operations and their properties, groups and semigroups, ordered structures. Recursion relations. Application to network theory, assignment problems and population growth. (Old No. 10.081)

Level II

MATH2100 Applied Mathematics 2 - Vector Calculus
Prerequisite: MATH1032. Excluded: MATH2110, 10.2111, 10.2211.

Properties of vectors and vector fields; divergence, gradient, curl of a vector; line, surface, and volume integrals. Gauss’ and Stokes’ theorems. Curvilinear co-ordinates. (Old No. 10.2111)

MATH2110 Higher Applied Mathematics 2 - Vector Analysis
Prerequisite: MATH1042 or MATH1032 (CR). Excluded: MATH2100, 10.2211, 10.2111.

As for MATH2100 but in greater depth. (Old No. 10.2211)

MATH2120 Applied Mathematics 2 - Mathematical Methods for Differential Equations
Prerequisite: MATH1032. Excluded: MATH2130, 10.2112, 10.2212.

MATH2130 Higher Applied Mathematics 2 - Mathematical Methods for Differential Equations
Prerequisite: MATH1042 or MATH1032 (CR). Excluded: MATH2120, 10.2212, 10.2112.

As for MATH2120 but in greater depth. (Old No. 10.2212)

MATH2160 Applied Mathematics 2 - Linear Programming

A first course in mathematical modelling and solution techniques for linear organization problems. The revised simplex and dual simplex methods, theory and applications of sensitivity analysis, duality theory. Networks, transportation and assignment problems. Examples, applications and computing methods are prominent features.

MATH2180 Applied Mathematics 2 - Operations Research
Prerequisite: MATH2160.

Modelling and solution techniques for optimization problems of interest to business and industry. Topics will be selected from linear programming, integer programming, (discrete) dynamic programming, project scheduling, game theory, queuing theory, inventory theory and simulation. Software packages will be used to solve realistic problems.

MATH2200 Applied Mathematics 2 - Discrete Dynamical Systems

The study of dynamical systems whose states change at discrete points in time. Difference equations, general properties. Linear systems, stability, oscillations, z-transforms. Nonlinear systems, critical points, periodic cycles, chaotic behaviour. Applications selected from engineering, biological, social, and economic systems. (Old No. 10.2115)
MATH2220  Applied Mathematics 2 - S2 L1.5T.5  C2
Continuous-Dynamical Systems
Prerequisite: MATH1032. Excluded: 10.2116, 10.2216.
The study of continuous dynamical systems. One-dimensional
dynamical systems, kinematic waves, applications include traffic flow
and waves in fluids. An introduction to the modelling of physical,
biological and ecological systems, stability, oscillations and
resonance. (Old No. 10.2116)

MATH2301  Applied Mathematics 2 - S1 L3 T1  C4
Mathematical Computing A
Prerequisite: MATH1032. Excluded: 10.261 A.
The development of efficient and reliable software for
mathematical applications using FORTRAN. Topics covered
are: structured programming in FORTRAN, errors in
mathematical applications using FORTRAN. Topics covered
are: structured programming in FORTRAN, errors in
representing real numbers and their effect on calculations, and
mathematical algorithms based on polynomial approximations. (Old No. 10.261 A)

MATH2400  Pure Mathematics 2 - S1 L1.5T.5  C2
Finite Mathematics
Prerequisite: MATH1032 or MATH1042 (MATH1081
recommended). Excluded: MATH2400, 10.1115.
Positional number systems, floating-point arithmetic, rational
arithmetic, congruences. Euclid's algorithm, continued fractions,
Chinese remainder theorem. Elements of number theory. Modular
arithmetic, polynomial division, complex numbers. Codes, error-correcting
codes, public-key cryptography. (Old No. 10.1115)

MATH2410  Pure Mathematics 2 - S2 L1.5T.5  C2
Automata and Algorithms
Prerequisite: MATH1032 or MATH1042 (MATH1081
recommended). Excluded: 10.1116.
Finite automata, regular languages and Kleene's theorem.
Analysis of fast algorithms for matrix, integer and polynomial
manipulation, sorting etc. Discrete and Fast Fourier
Transform and applications. (Old No. 10.1116)

MATH2501  Pure Mathematics 2 - F L1.5T.5  C4
Linear Algebra or S1 or S2 L3 T2
Prerequisite: MATH1032 or MATH1042. Excluded: MATH2501, 10.121 A, 10.111 A.
Vector spaces, linear transformations and matrices, change of
basis. Eigenvalues and eigenvectors, generalised
eigenvectors. Functions of matrices. Linear systems of
differential equations including the use of Laplace transform.
Inner products, orthogonalisation, projections: Unitary
and self-adjoint transformations. Quadratic and Hermitian forms. (Old No. 10.111 A)

MATH2520  Pure Mathematics 2 - S1 or S2 L1.5T1  C2
Complex Analysis
Prerequisite: MATH1032 or MATH1042. Excluded:
MATH2620, MATH2520, 10.1214, 10.1114.
Analytic functions, Taylor and Laurent series, integrals.
Cauchy's theorem, residues, evaluation of certain real
integrals. (Old No. 10.1114)

MATH2601  Higher Pure Mathematics 2 - Algebra
Prerequisite: MATH1042 or MATH1032 (CR). Excluded:
MATH3500, 10.111 A, 10.121 A, 10.1111.
Linear algebra: vector spaces, commutative rings,
polynomial rings, modules, linear transformations, eigenvalues,
eigenvectors, invariant subspaces, canonical forms, linear functions, bilinear
and multi-linear algebra. Group theory; subgroups, quotient
groups, isomorphisms. Lagrange's theorem, Sylow's theorem. (Old No. 10.111 A)

MATH2610  Higher Pure Mathematics 2 - Real Analysis
Prerequisite: MATH1042 or MATH1032 (CR). Excluded:
MATH2510, 10.1213, 10.1113.
As for MATH2510 Pure Mathematics 2 - Multivariable Calculus
but in greater depth. (Old No. 10.1213)

MATH2620  Higher Pure Mathematics 2 - Complex Analysis
Co-requisite: MATH2610. Excluded: MATH2520, 10.1214, 10.1114.
As for MATH2520 Pure Mathematics 2 - Complex Analysis, but
in greater depth. (Old No. 10.1214)

Level III

MATH3101  Applied Mathematics 3 - S1 L3 T1  C4
Numerical Analysis
Prerequisites: At least two level II Mathematics units,
including any subject prerequisites. Excluded: MATH3141,
10.212 A, 10.222 A.
Analysis of some common numerical methods. Iterative
methods for solving nonlinear equations; interpolation using
polynomials, splines and trigonometric functions;
least-squares approximation and orthogonal functions;
numerical differentiation and integration; extrapolation; finite
difference methods for initial value problems for ordinary
differential equations; iterative techniques for large systems of
linear equations. (Old No. 10.212 A)

MATH3121  Applied Mathematics 3 - S1 L3 T1  C4
Mathematical Methods
Prerequisites: MATH2120, MATH2501, MATH2510,
MATH2520.
Excluded: MATH2280, 10.033, 10.0331, 10.212 D, 10.222 D,
10.412 D, 10.422 D, 10.4331, 10.2921.
Fundamental methods for solution of problems in applied
mathematics, physics and engineering. Functions of a
complex variable, contour integration, asymptotic methods.
Fourier and Laplace transforms, complex inversion theorems. Orthogonal polynomials and functions, Sturm-Liouville theory, eigenfunction expansions, generalised Fourier series. Applications to the solution of boundary value problems for ordinary and partial differential equations is given for all methods. (Old No. 10.212D)

MATH3150 Applied Mathematics 3 - S2 L1.5T.5C2
Transform Methods

Prerequisites: MATH2520, MATH2100. Excluded: 10.0331, 10.033, 10.2921.

MATH3161 Applied Mathematics 3 - S1 L3T1 C4
Optimisation Methods

Prerequisite: MATH2501 and MATH2510 or MATH2100. Excluded: 10.212L, 10.222L.
Development, analysis and application of methods for optimisation problems. Theory of multivariable optimisation; including necessary and sufficient optimality conditions, stationary points, Lagrange multipliers, Kuhn-Tucker conditions, convexity and duality. Numerical methods for one dimensional minimisation, unconstrained multivariable minimisation (including steepest descent, Newton, quasi-Newton and conjugate gradient methods) and constrained multi-variable minimisation (including linear programming and quadratic programming). (Old No. 10.212L)

MATH3181 Applied Mathematics 3 - S1 L3T1 C4
Optimal Control

Prerequisites: A total of 8 level II mathematics credit points which must include either MATH2100 or MATH2510. Excluded: 10.212L, 10.222L.
An introduction to the optimal control of dynamical systems. Mathematical description of dynamical systems. Stability, controllability, and observability. Optimal control. Calculus of variations. Dynamic reprogramming. Examples and applications are selected from biological, economic and physical systems. (Old No. 10.212L)

MATH3201 Applied Mathematics 3 - S1 L3T1 C4
Dynamical Systems and Chaos

Prerequisites: MATH2501 and MATH2120 or MATH3540. Excluded: 10.212N, 10.222M.
Regular and irregular behaviour of nonlinear dynamical systems. A selection from topics developing the theory of nonlinear differential and difference equations, with applications to physical, biological and ecological systems. Topics will be selected from stability and bifurcation theory, Floquet theory, perturbation methods, Hamiltonian dynamics, resonant oscillations, chaotic systems, Lyapunov exponents, Poincare maps, homoclinic tangencies.

MATH3241 Higher Applied Mathematics 3 - S1 L3T1 C4
Transform Methods

Prerequisite: MATH2100, MATH2120. Excluded: 10.212B, 10.222B, 10.422A.
The mathematical modelling and theory of problems arising in the flow of fluids. Cartesian tensors, kinematics, mass conservation, vorticity, Navier-Stokes equation. Topics from inviscid and viscous fluid flow, gas dynamics, sound waves, water waves. (Old No. 10.212B)

MATH3301 Applied Mathematics 3 - S2 L3T1 C4
Optimisation Methods

Prerequisites: MATH2501, MATH2120, MATH2301. Excluded: 10.262A, 10.612.
The design and use of computer programs to solve practical mathematical problems. Matrix computations and use of existing mathematical software packages, plus case studies from applications involving numerical integration, differential equations, symbolic algebra, and vector and parallel computers. (Old No. 10.262A)

MATH3400 Pure Mathematics 3 - SS L1.5T.5 C2
Logic and Computability

Prerequisites: **. Excluded: 10.1123.
The propositional calculus - its completeness and consistency: Turing machines; unsolvable problems; computability and Church's thesis; Godel's incompleteness theorems. (Old No. 10.1123)

MATH3410 Pure Mathematics 3 - SS L1.5T.5 C2
Combinatorial Structures and Applications

Prerequisites: **. Excluded: 10.1521.
Theory of combinatorial designs (including Bruck-Ryser-Chowla theorem), Latin squares, projective and affine planes, application to the design of experiments. (Old No. 10.1521)

MATH3420 Pure Mathematics 3 - SS L1.5 T.5 C2
Communications, Codes and Ciphers

Prerequisites: ** (MATH1081 Discrete Mathematics is also advised). Excluded: 10.1524.
Introduction to discrete information theory (including Shannon's theorems), error-correcting codes and cryptography. (Old No. 10.1524)

MATH3500 Pure Mathematics 3 - S1 L1.5T.5 C2
Group Theory

Prerequisites: ** Excluded: MATH2601, 10.1111, 10.121A.
Mathematical systems, groups, determination of small groups, homomorphisms and normal subgroups. (Old No. 10.1111)

MATH3510 Pure Mathematics 3 - Geometry
Prerequisites: *** Excluded: MATH3640, 10.1112, 10.1424.
Elementary concepts of Euclidean, affine and projective geometries. (Old No. 10.1112)

MATH3520 Pure Mathematics 3 - Number Theory
Prerequisites: *** Excluded: MATH3610, 10.1112, 10.1421.
Introduction to algebraic structures. Euclidean domains, prime and irreducibles, factorization. Diophantine equations, polynomial congruences, arithmetic functions. Primitive roots, quadratic residues, quadratic reciprocity, sum of squares. (Old No. 10.1121)

MATH3530 Pure Mathematics 3 - Combinatorial Topology
Prerequisites: MATH2501. Excluded: MATH3510, 10.1125, 10.1425.
Elementary combinatorial topology of surfaces. (Old No. 10.1124)

MATH3540 Pure Mathematics 3 - Ordinary Differential Equations
Prerequisites: MATH2501. Excluded: MATH3550, 10.1125, 10.1425.
Systems of ordinary differential equations: variations of constants formula; stability; Poincare space; Lyapunov's direct method. (Old No. 10.1125)

MATH3550 Pure Mathematics 3 - Partial Differential Equations
Prerequisites: MATH2510, MATH2520. *** Co-requisite: MATH3540.
Excluded: MATH3660, 10.1126, 10.1426.

MATH3560 Pure Mathematics 3 - History of Mathematics
Prerequisites: ***. Excluded: 10.1127.
Topics from the history of mathematics, with emphasis on the development of those ideas and techniques used in undergraduate courses. Students are expected to read widely and to present written material based on their readings. (Old No. 10.1127)

MATH3570 Pure Mathematics 3 - Foundations of Calculus

MATH3580 Pure Mathematics 3 - Differential Geometry
Prerequisites: MATH2510 ***. Excluded: MATH3750, 10.1522, 10.1325.
Curves and surfaces in space. Gaussian curvature, Gauss theorem. Gauss Bonnet theorem. (Old No. 10.1522)

MATH3601 Higher Pure Mathematics 3 - Real Analysis and Functional Analysis
Prerequisites: MATH2601 or MATH2501 (CR), MATH2610 or MATH2510 (CR). Excluded: MATH3570, 10.1128, 10.1523.
The limit processes of analysis; introduction to Lebesgue integration; introduction to metric spaces. Hilbert spaces; linear operators; Fourier series. (Old No. 10.122B)

MATH3610 Higher Pure Mathematics 3 - Number Theory
Prerequisite: ††. Excluded: MATH3520, 10.1421, 10.1121.
Prime numbers; number theoretic functions; Dirichlet series; partitions. Continued fractions, diophantine approximation; p-adic numbers. (Old No. 10.1421)

MATH3620 Higher Pure Mathematics 3 - Groups and Representations
Prerequisites: MATH2601 or MATH2501 (CR) and MATH3500 (CR). Excluded: 10.1422.
Abelian groups, composition series; nilpotent groups; soluble groups. Representations and characters of finite groups; induced representations. (Old No. 10.1422)

MATH3630 Higher Pure Mathematics 3 - Complex Analysis
Prerequisites: MATH2620 or MATH2520 (CR) ††. Co-requisite: MATH3601 (strongly recommended). Excluded: 10.1323.
Topics in advanced complex function theory chosen from the following: Conformal mapping. Analytic continuation. Entire and meromorphic functions. Elliptic functions. Asymptotic methods. Integral formulae. Harmonic functions. (Old No. 10.1323)

MATH3640 Higher Pure Mathematics 3 - Geometry
Prerequisites: MATH2601 or both MATH2501 (CR) and MATH3500 (CR), ††. Excluded: MATH3510, 10.1424, 10.1112.
Axioms for a geometry; affine geometry, Desargues' theorem; projective geometry. (Old No. 10.1424)

MATH3650 Higher Pure Mathematics 3 - Ordinary Differential Equations
Prerequisites: MATH2601 or MATH2501 (CR) ††. Co-requisite: MATH3601 (strongly recommended). Excluded: MATH3540, 10.1425, 10.1125.
Honours Level

MATH4103 Applied Mathematics 4

An honours program consisting of the preparation of an undergraduate thesis together with advanced lecture courses. Lecture topics include selections from: advanced mathematical methods for applied mathematics, advanced optimisation, numerical analysis, theory of linear and non-linear dynamical systems, optimal control, operations research, functional analysis and applications, mathematics of economic models and of economic prediction, fluid mechanics, oceanography, microhydrodynamics, and analytical and numerical solution of partial differential equations. With permission of the Head of Department, the subject may also include advanced lecture courses given by other Departments or Schools. (Old No. 10.223)

MATH4603 Pure Mathematics 4

An honours program consisting of the preparation of an undergraduate thesis together with advanced lectures on topics chosen from fields of current interest in Pure Mathematics. With the permission of the Head of Department, the subject may also include advanced lecture courses given by other Departments or Schools. (Old No. 10.123)

Statistics

Upper Level

MATH2801 Theory of Statistics 2 - Probability and Random Variables

Prerequisite: MATH1032 or MATH1042 or MATH1021 (CR) BIOS2041. Excluded: MATH2901, MATH2819, MATH2841, 10.311A, 10.321A, 10.301, 10.331, 45.101.

Probability, random variables, standard discrete and continuous distributions, multivariate distributions, transformations, random sampling, sampling distributions, limit theorems. (Old No. 10.311A)

MATH2810 Theory of Statistics 2 - Statistical Computing and Simulation

Prerequisite: MATH1032 or MATH1042 or MATH1021 (CR). Co-requisite: MATH2801. Excluded: 10.311A.

Introduction to APL, random variables, univariate transformation, simulation of random variables, APL programming, integer value random variables, random walks - theory and simulation; introduction to Markov chains. (Old No. 10.3111)
MATH2819, MATH2901, MATH2921, MATH2930, MATH3801, MATH3811, MATH3820, MATH3830, MATH3840

MATH2819 Theory of Statistics 2 - S1 L1.5T.5 C4

Order statistics, exact and approximate distributions, multinomial distributions, goodness of fit, contingency tables, one-sample and two-sample estimation and inference problems. (Old No. 10.331)

MATH2820 Theory of Statistics 2 - S1 L1.5T.5 C2
Prerequisite: MATH2801. Excluded: MATH2821, MATH3940, 10.3123, 10.3223.

MATH2821 Theory of Statistics 2 - S2 L3T1 C4
Prerequisite: MATH2801. Excluded: MATH2821, MATH2819, MATH2841, BIOS2041, 10.311B, 10.321B, 10.301, 10.331, 45.101.

Point estimation: general theory, estimation by moments, maximum likelihood, interval estimation with general theory and application, hypothesis testing using Neyman Pearson theory, linear regression and prediction, analysis of variance. (Old No. 10.311B)

MATH2830 Theory of Statistics 2 - S1 L1.5T.5 C2

Point estimation: general theory, estimation by moments, maximum likelihood (including sampling distributions, including those of chi^2, t and F). Estimation by including sampling variance formulae, and regression): confidence interval estimation and hypothesis testing. (Old No. 10.3112)

MATH2840 Theory of Statistics 3 - S2 L1.5T.5 C2
Prerequisite: MATH2821. Excluded: MATH3940, 10.3123, 10.3223.

Unbiased tests. Generalised likelihood ratio test, exact test and uniformly most powerful unbiased tests. Generalised likelihood ratio test, exact test and large samples tests. Bayesian point estimation, interval estimation and hypothesis testing. (Old No. MATH3840)
MATH3850 Theory of Statistics 3  S2 L1.5T1.5  C2 - Nonparametric Methods

Prerequisite: MATH2821, MATH2830. Excluded: MATH3950, 10.3124, 10.3224.

One sample and two sample problems. Tests for association. Contingency tables. Nonparametric analysis of variance and regression. (Old No. 10.2134)

MATH3860 Theory of Statistics 3 - Statistical Computation

Prerequisites: MATH2821 or MATH2921, MATH2810 or MATH2910. Excluded: 10.312F.

Array and sequential processing in APL. Standard statistical operations and their efficient coding. Simulation of random variables and stochastic processes. Efficient coding of survey data. Modular package construction, and the use of packages (eg STATAPL, IDAP, INSTAPAK, SPSS, GLIM, GENSTAT, MINITAB, SAS, BMD). A project, to construct a small package consistent with general specifications and with safeguards against common errors. (Old No. 10.312F)

MATH3870 Regression Analysis and S1 L1.5T.5  C2 Experimental Design

Prerequisite: MATH2841 or MATH2821 or approved equivalent. Excluded: MATH3830, MATH3930, MATH3811, MATH3911, 10.3321, 10.3222, 10.3122, 10.322C, 10.312C.

A revision of linear regression with extension to multiple and stepwise linear regression. Analysis of block designs, Latin squares, factorial designs, variance component and mixed model analyses. Bioassay, logit models. Contingency tables. (Old No. 10.3321)

MATH3880 Applied Stochastic Processes S2 L1.5T.5  C2

Prerequisite: MATH2841 or MATH2801 or MATH2901 or approved equivalent. Excluded: MATH3801, MATH3901, MATH3880, MATH3911, 10.3321, 10.322A, 10.322A.

An introduction to processes in discrete and continuous time Markov chains and Markov processes, branching processes, time series with moving average models. (Old No. 10.3322)

MATH3901 Higher Theory of Statistics 3 - Stochastic Processes

Prerequisites: MATH2901, MATH2501, MATH2510. Excluded: MATH3801, MATH3901, MATH3880, 10.322A, 10.312A, 10.3322.

As for MATH3801 but in greater depth. (Old No. 10.322A)

MATH3911 Higher Theory of Statistics 3 - Linear Models

Prerequisites: MATH2921, MATH2501, MATH2510. Excluded: MATH3811, MATH3870, 10.322C, 10.312C, 10.3321.

As for MATH3811 but in greater depth. (Old No. 10.322C)

MATH3920 Higher Theory of Statistics 3 - Sample Survey Theory

Prerequisite: MATH2921. Excluded: MATH3820, 10.3221, 10.3121.

As for MATH3820 but in greater depth. (Old No. 10.3221)

MATH3930 Higher Theory of Statistics 3 - Design and Analysis of Experiments

Prerequisites: MATH2921, MATH3911. Excluded: MATH3830, MATH3870, 10.3222, 10.3122, 10.3321.

As for MATH3830 but in greater depth. (Old No. 10.3222)

MATH3940 Higher Theory of Statistics 3 - Statistical Inference

Prerequisite: MATH2921. Excluded: MATH3840, 10.3223, 10.3123.

As for MATH3840 but in greater depth. (Old No. 10.3223)

MATH3950 Higher Theory of Statistics 3 - Nonparametric Methods

Prerequisites: MATH2921, MATH2930. Excluded: MATH3850, 10.3224, 10.3124.

As for MATH3850 but in greater depth. (Old No. 10.3224)

MATH3971 Higher Theory of Statistics 3 - Probability Theory

Prerequisites: MATH2901, MATH2501, MATH2510. Excluded: 10.322D.

Probability spaces, generating functions. Weak convergence, convergence in probability, weak law of large numbers, central limit theorem. Extreme value distributions. Borel-Cantelli lemma, almost sure convergence, strong law of large numbers. Stable and infinitely divisible distributions. (Old No. 10.322D)

MATH3980 Higher Theory of Statistics 3 - Statistics Project

Prerequisites: MATH2901, MATH2921. Co-requisites: At least four subjects from MATH3901, MATH3911, MATH3920, MATH3930, MATH3940, MATH3950, MATH3971, MATH3860. (Old No. 10.3225). Excluded: 10.3223.

Music

Students taking degree courses in Music at The University of New South Wales (see list below) are encouraged to develop both their theoretical knowledge and their practical abilities. Some Upper Level options not included in the Arts music major sequence (Music 1C, 2C, etc) do not require previous musical training. Music 1A and Music 1B are first year subjects open to students with little previous musical training. From both Music 1A and Music 1B students may progress to a major sequence in music, providing they pass Music 1B at credit level or higher.

Students wishing to transfer from the BA to BMus degree program (See 3. Bachelor of Music under How to Structure Your Degree Program, earlier in this Handbook) should consult the Department of Music during their first year of study.

The Music Department offers the following degrees and courses of study: (1) A Music Major within the Bachelor of Arts degree; (2) the Bachelor of Music degree (BMus), a three-year degree course, with provision for honours in a fourth year. (3) the combined Bachelor of Music Bachelor of Education (BMus BEd) degree, a four year course run in conjunction with the School of Education Studies within the Faculty of Professional Studies; (4) the combined Bachelor of Arts Bachelor or Education (BA BEd) with a major in Music is also a four year course; (5) the Postgraduate Master of Music (MMus), MA or PhD degrees, for which the undergraduate degrees listed above are suitable preparation; (6) Music 1A, an introductory survey course of the history of Western music, and (7) Music 1B, an introductory course in musicianship and musical techniques. Both (6) and (7) are open to all undergraduates and do not have a musical prerequisite; (8) Upper level undergraduate subjects in music which are open to all interested students who have reached an appropriate stage of general university study; (9) General Education music subjects specially designed for the Centre for Liberal and General Studies.

Music studies in the Faculty concentrate on the texts or contexts of music, involve the active development of the student’s musicianship and encourage the development of practical abilities. Performance groups run by the Music Department include: The Collegium Musicum Choir, The University of New South Wales Orchestra, instrumental chamber groups, a vocal chamber group (The Burgundian Consort), an Early Music Group, a Bush Band and a Hand Bell Ensemble. Practical guidance in the making of electronic music and studies of music in a social and ethnic context (ethnomusicology) are essential parts of the degree courses.

The Collegium Musicum Choir of the University of New South Wales, founded in 1975, is open to all students and staff of the University interested in choral singing. The choir rehearses each Wednesday evening from 4.30 - 7.30 pm and gives several public concerts each year, often with the Collegium Musicum Orchestra based on the Australia Ensemble, resident at the University of New South Wales. For further details, please phone the Music Department on extension 4871 or 4870.

The University of New South Wales Orchestra was founded in 1989 and is open to students and staff of the University with the necessary instrumental performance standards. The orchestra rehearses each Tuesday evening from 6.30 - 9.00 pm and gives several public concerts each year. For further details, please phone the Music Department on extension 4872 or 4871.

First Year

MUSI1000 Music 1A  F 3CCH  C6
Excluded: 61.1000.
Designed to provide students with an interest in music history with a means of surveying significant periods in Western music in their social and general historical contexts and of acquiring principles for exploring the social history of many kinds of music, Western and non-Western. (Old No. 61.1000)

MUSI1001 Music 1B  F 3CCH  C6
Excluded: 61.1001.
Provides students who wish to pursue further musical study in a sequential way, but who lack the musical training necessary for entry to Music 1C, with an opportunity for bringing their technical knowledge and standards of general musicianship up to satisfactory levels for such entry. A credit in Music 1B in conjunciton with a pass in Music 1A permits progression to Music 1B. (Old No. 61.1001)

MUSI1002 Music 1C  F 6CCH  C12
Prerequisite: Satisfactory standard in 3 unit or 2 unit related HSC Music or equivalent. Excluded: 61.1002.
An introduction to a wide range of musical styles, techniques and circumstances. The subject is designed to develop musicianship and the ability to listen to, read, discuss and analyse music purposefully and accurately. Enables students to acquire insight into compositional processes and the place music occupies in different societies. Includes studies in music history (Baroque and twentieth century), musicianship and vocal and instrumental repertoire and performance. (Old No. 61.1002)

Upper Level

MUSI2001 Music 2B  F 6CCH  C12
As for MUSI1002. (Old No. 61.2001)

MUSI2002 Music 2C  F 6CCH  C12
Follows up the survey of Baroque and 20th century music provided in Music 1C with a survey of Renaissance and Classical-Romantic music, in which (as in Music 1C) the works discussed in music history lectures are given further attention in musicianship, analysis, notation, sight-singing and study performance sessions. An examination of Australian aboriginal and some other non-Western musics is included and students are also introduced to the practice and composition of electronic music. (Old No. 61.2002)

MUSI3001 Music 3B  F 6CCH  C12
Follows up Music 2B (MUSI2001) in the same manner as MUSI2002 follows up Music 1C (MUSI1002). (Old No. 61.3001)
MUSI3002 Music 3C F 6CCH C12
Prerequisite: MUSI2002 or MUSI3001. Excluded: 61.3002.
Comprises lectures and tutorials in the history of medieval and 20th century music (the latter at a considerably more advanced level than the 20th century music component of Music 1C), a series of sessions in ethnomusicology, a weekly tutorial in musicianship and general music skills, and a full-year series of sessions in orchestration, instrumental arrangement and electronic music.

Subjects available to students who have not studied Music at Level 1:

MUSI2201 Social and Dramatic Theory in Wagner's Music Dramas
R.D. Covell
Prerequisite: 24 Level 1 credit points in Arts.
Not offered in 1991.
Wagner's life and works have given rise to published discussion to an unusual degree. His own theories and those of his interpreters cover diverse topics, of which the most significant appear to be those relating to the social context and dramatic purpose of his works, and have had an influence beyond the domain of Wagner's creative practice. Theme: Wagner's theories and those of his principal interpreters as they relate to his musical-dramatic works for the theatre. (Old No. 61.100)

MUSI2202 Verdi and Opera in 19th Century Italy
P. Brown
Prerequisite: As for MUSI2201.
Not offered in 1991.
An introduction to the works of Giuseppe Verdi, one of the greatest operatic composers in the history of that form, examined within the political and cultural contrasts of 19th century Italy. Topics: The contexts and conventions which supported opera in early 19th century Italy; important formative influences on Verdi's constantly evolving and vast music-dramatic output, including his collaboration with prominent librettists and poets of his day, his reshaping of plays by Shakespeare, Schiller, etc., the influence of the Risorgimento and intellectual groups of his day on his artistic output, the study of key elements of Verdi's dramaturgy, the influences and results of Verdi's evolving vocal, instrumental, conducting and staging ideas and techniques on 19th century opera and his absorption of French operatic techniques. (Old No. 61.110)

MUSI2203 Vienna's Music during the Eighteenth and Nineteenth Centuries
C. Logan
Prerequisite: As for MUSI2201.
An introduction to the music of Haydn, Mozart, Beethoven and Schubert in the context of an investigation of the social, political, economic, intellectual and artistic climate in Vienna from c. 1750-1830. A cross-section of instrumental and vocal sacred and secular works by the four composers is studied aurally and compared. Topics include: Why did Vienna attract so many leading composers during the 18th and 19th centuries? musical patronage; how was the contrasting experience of artistic circumstances reflected in the music of Haydn and Mozart? Freemasonry and music; the collapse of the ancien régime, the French Revolution and music in Vienna 1789-1814; to what extent are the political and artistic circumstances of Vienna reflected in the music of Beethoven and Schubert? (Old No. 61.120)

MUSI2204 Australian Aboriginal Music
J. Stubington
Prerequisite: As for MUSI2201.
Not offered in 1991.
Traditional Australian Aboriginal music is vocal with accompanying instruments. The words of songs provide the immediate nexus between music and fundamental concepts and attitudes which underlie ritual, social organisation and relationship to land. Examines Aboriginal music in its various forms as a process to be accounted for by the confluence of historical, social and individual factors. (Old No. 61.130)

MUSI2205 Music in Renaissance Society
R. D. Covell
Prerequisite: As for MUSI2201.
Not offered in 1991.
The Renaissance, though a contentious word in its historical application, is a useful collective term for the period of the 15th and 16th centuries in Europe - a period characterised in music by conspicuous patronage, significant developments in the groupings and resources of court, ecclesiastical and domestic music-making, standardisation of instrumental families, new developments in solo and concerted song, and an increasing preoccupation with the appropriate relationship of words and music. Sub-topics include: the nature and influence of patronage; instrumental symbolism and use; ideals and organisation of professional and domestic music-making. (Old No. 61.200)

MUSI2206 The Baroque in Music: Characteristic Gestures of a Period
R.D. Covell
Prerequisite: As for MUSI2201.
Not offered in 1991.
Characteristic gestures, tactics and procedures of music in the baroque period (defined as being from c1570 to c1750) related to the temper of the time, more specifically to social and intellectual assumptions of the period and to other arts, including painting, architecture, literature, drama and dance. The beginnings and early development of opera and the expansion of instrumental forms of a concerted type. The relationship between social, political and philosophical factors and artistic practice, including parallels (or lack of them) between representative examples of a number of different arts. Topics include: Artistic theories and their part in introducing new genres or procedures in music; the increasing musicalisation of the theatre in 17th century Europe; the origins...
and development of the concerto principle; the use of music and theatre in the Counter-Reformation; virtuosity and illusion as an artistic principle in music and architecture. (Old No. 61.210)

MUSI2207 Australian Traditional Music

J. Stubington

Prerequisite: As for MUSI2201.

Not offered in 1991.

An introduction to ethnomusicological theory and method through an examination of traditional music in Australia. Ethnomusicology is often defined by referring to particular kinds of music which are considered to come within its province and there are two major traditions in Australia, traditional Australian Aboriginal music, and traditional Australian folk music, which fall clearly within its compass. These two musical traditions provide severe contrasts in sound sources and structures used, and in beliefs, behaviour and social organisation associated with musical performances. Together they provide a range of Australian music experience and material of sufficient diversity to explore and test the ethnomusicological approach. (Old No. 61.300)

MUSI2208 Australian Steps Towards Musical Self-Recognition 1840-1982

R.D. Covell

Prerequisite: As for MUSI2201.

Not offered in 1991.

An introduction to the notion of the deliberate cultivation of an Australian identity in music; designed to follow, in a complementary way, MUSI2207 Australian Traditional Music. The choices made by composers in colonial times of subject matter of recognisably Australian kinds. Influential ideas of how musical 'Australianism' might be developed or recognised, including the theories of Percy Grainger, Henry Tate and others and the practice of composers as diverse as Peter Sculthorpe and George Dreyfus. The opinions of those Australian composers who reject the search for musical 'Australianism' as irrelevant are also taken into account. The use made in Western-style composition of Australian traditional songs and dances and of material evocative of Australian Aboriginal music. Extensive comparisons are made with parallel preoccupations and developments in other countries, notably in the United States. (Old No. 61.310)

MUSI2209 Music in its Social Contexts

R.D. Covell, J. Stubington

Not offered in 1991.

How the occasions and purposes of music differ from one society to another and the ways in which music can give us an insight into social and religious ideals, economic organisation and technology in specific places and periods of time. Topics include the nature and context of folk music, the background to the special renown of Western concert-hall music and some simple strategies for the organisation of sound.

MUSI2210 Florence, Ferrara and Mantua: Music's Place in the Italian Renaissance

P. Brown

Prerequisite: As for MUSI2201.

The subject provides a cultural map of the Italian Renaissance with particular concentration on the context of music in leading cities of northern Italy. The origins of Renaissance culture in these three cities, systems and strategies of Medicean, d'Estean and Gonzagan patronage, the position and function of composers, music theorists and performers within the society, genres of secular and sacred music cultivated (including various kinds of music theatre), the political and social functions of music and music's relationship with other sciences and arts are among the topics designed to illuminate the central, often complex roles of music in Italian Renaissance society. (Old No. 61.331)

Subjects available to students who are proceeding to the BMus degree

MUSI2101 History of Performance Conventions

An historical introduction to the issues of performance practice. The ways in which research contributes to the making of an informed scholarly performance are examined through investigation of the evidence in historical documents, recent scholarship, scores, recorded performances, practical demonstration and student participation in performance and analysis. (Old No. 61.3003)

*Or with the permission of the Head of Department.

MUSI3101 BMus Seminar in Musicology

Prerequisite: MUSI2002 or MUSI3001. Co-requisite: MUSI3002, MUSI3102.

Requires active and regular participation in a seminar devoted to a series of specific issues in musicology. (Old No. 61.3004)

MUSI3102 BMus Special Project

Prerequisite: MUSI2002 or MUSI3001. Co-requisites: MUSI3002, MUSI3101.

Takes the form of a musicological research paper or an annotated recital (requires special approval) or another approved project. (Old No. 61.3005)

MUSI2102 Orchestration and Arrangement

Prerequisite: MUSI1002 or MUSI2001. Co-requisites: MUSI2002 or MUSI3001, MUSI2101.

The subject provides an introduction to the skills of arranging orchestration and music copying. Topics include: the resources of orchestral instruments, scoring for string orchestra and small orchestra, arranging for brass, analysis of orchestration from the literature, problems in orchestration and notational conventions in preparing a score. (Old No. 61.3006)

*Or with the permission of the Head of Department.
Honours Level,

MUSI4000 Bachelor of Music Honours F
Prerequisite: Completion of all requirements for the Pass degree with an average of at least Credit level in Music subjects.

Seminars on research methods in musicology, music theatre, music supervision and Tonmeister skills; further development of performance skills and musical leadership, together with a thesis of 20-25,000 words on a musicological topic or an extended recital or other approved special project. (Old No. 61.4000)

Philosophy

Philosophy is a wide-ranging discipline, the scope of which is indicated by the subjects listed below. Apart from providing considerable choices for students majoring in Philosophy, the diversity of Upper Level subjects makes it possible for students majoring in other disciplines to select subjects complementing their main interest.

Level I
There are two Level I subjects:
PHIL1006 Introductory Philosophy A (Session 1)
PHIL1007 Introductory Philosophy B (Session 2)
each with a value of 6 credit points. They can be taken separately, but new students, especially those intending to major in Philosophy, will normally enrol in both. However, a student can gain Upper Level status in Philosophy (quality to enrol in Upper Level subjects) by passing in only one.

Upper Level Study
Students must be in at least Year 2 of study in the Faculty of Arts in order to take Upper Level work in Philosophy. All Upper Level subjects are completed in a single session. Each consists of 3 hours of lectures a week and is worth 6 credit points. Except where special prerequisites are prescribed, subjects can be taken in any sequence. Each subject is designed to be self-contained, but particular groupings of subjects will enable students to pursue sustained treatments of particular areas or of historical developments in the treatment of issues.

In certain circumstances the prerequisites specified for subjects within this list may be waived, for example, in the case of students who have already studied similar material in other schools, or who wish to take isolated subjects relevant to another discipline without counting them as part of a Philosophy sequence. Students who feel they have a case for a concession of this kind should consult the School.

Major Sequence
A major sequence in Philosophy is a sequence of subjects offered by the School carrying at least 36 credit points including no more than 12 credit points in Level I subjects.

Subject to the approval of the School, which considers the individual subjects nominated by a student and the student’s overall program in Philosophy, a student may be permitted to count up to 6 points offered outside the School toward a major sequence in Philosophy. For example, the School has, on occasion, allowed students to count particular subjects from the Schools of Science and Technology Studies, Political Science, and Law towards a major sequence in Philosophy. Students who have some interest in counting a subject from outside the School of Philosophy toward a major sequence in Philosophy should consult the School.

Some Philosophy subjects may be counted towards a major sequence in the School of Science and Technology Studies.

Selection of Subjects
Although students at Upper Level have a wide choice of subjects, they are advised to plan a sequence of mutually relevant ones, taking into account the prerequisites of those they may wish to take later. Information and School recommendations are available from the School and students needing assistance are encouraged to consult the School personally.

Honours Entry
From 1991, for entry to Philosophy Honours (Research), students must normally have completed 54 credit points in Philosophy, consisting of 6 or 12 points at Level I and the remainder at Upper Level, including PHIL3106 (Pre-Honours Seminar). Students who will have completed only 52 credit points are encouraged to seek the approval of the School for admission.

For Combined Honours (Research) the requirement is normally 42 credit points consisting of 6 or 12 points at Level I, and the remainder at Upper Level, including the Pre-Honours Seminar. This may be varied in consultation with the other School involved.

For both Honours programs, students may be permitted to count up to 6 points offered outside the School, where these are relevant to the program.

Students contemplating Honours are urged to seek advice from the School early in their course.

Socratic Society
The Socratic Society is a student-run society which is associated with the School of Philosophy and meets on a regular basis. Its purpose is to promote discussion on topics of philosophical interest.

Level I
The following are Level I subjects with a credit point value as nominated.

PHIL1006 Introductory Philosophy A S1 L2T1 C6
Stephen Cohen, Philip Cam, Phillip Staines
Prerequisite: Nil. Excluded: 52.103.
An introduction to philosophical thought and issues. Topic areas: the nature of argument; philosophy of mind; ethics and political philosophy. (Old No. 52.103)
PHIL1007  Introductory Philosophy B  S2 L2T1 C6
San MacColl, Stephen Hetherington, Neil Harpley
Prerequisite: Nil. Excluded: 52.104.
A further introduction to philosophy through a study of traditional and contemporary discussions of three topic areas: epistemology, science and religion, perception. (Old No. 52.104)

Upper Level

For some subjects, a prerequisite is Upper Level status in Philosophy. This consists in 1. being in Year 2 or later of university study, and 2. having taken and passed at least one Level I Philosophy subject (6 credit points). Students who studied Level I Philosophy subjects prior to 1978 should have gained Passes in two half-units in the same session. The prerequisite may be waived in certain cases by the School.

The following are Upper Level subjects with a credit point value as nominated.

PHIL2106  Logic  S1 3CCH  C6
Prerequisite: Any Level 1 subject. Excluded: 52.2030 and 52.2031, 52.220.
This subject is about deductive logic (in particular, propositional logic and predicate logic). The aim will be to construct - and to understand - a precise, unambiguous, formal language. Many important parts of English will be translatable into it, hence many arguments of English will be translated into it too. It will be a language with which we can better understand the concept of deductive proof. (Old No. 52.220)

PHIL2107  Advanced Philosophy of Science  S1 3CCH  C6
Prerequisite: PHIL2106 or HPST2001. Excluded: 52.304.
A seminar subject, to which several members of staff from the schools of Philosophy and Science and Technology Studies contribute. Topics include: the role of experiment in science; the cognitive status of theories; explanation; confirmation; intertheoretical reduction; reductionism; models and metaphors; the logic of theory generation; the revival of realism; problems of classification; theories of measurement; order and entropy; current issues in the philosophy of the physical sciences. (Old No. 52.304)

PHIL2108  Ways of Reasoning  S2 3CCH  C6
San MacColl
Prerequisite: Any Level I subject. Excluded: 52.233, 52.2010.
The material for this subject will be drawn from everyday sources, such as newspapers, books and advertisements, and including television. It will deal with the nature of argument, fallacies, reasoning and the role of reasoning. From studying the structure of arguments students will be able to improve their critical skills and the presentation of their own arguments. (Old No. 52.2010)

PHIL2109  Metaphysics (Realisms)  S2 3CCH  C6
Stephen Hetherington
Prerequisite: Upper Level status in Philosophy.
Examines several classic metaphysical questions, each of which concerns some kind of realism. (i) Realism in general:

PHIL2206  Contemporary Philosophy of Mind  S1 3CCH  C6
Philip Cam
Prerequisite: Upper Level status in Philosophy. Excluded: 52.2002, 52.250.
The subject is an introduction to some major issues in the field. There are four topics with lectures and tutorials as follows: (1) On relating the Mental to the Physical: The Theory of Intentional Systems (6 lectures, 3 tutorials); (2) Alternative Approaches to the Psychology of Belief and Desire (6 lectures, 3 tutorials); (3) The Psychology of Experience and Consciousness (8 lectures, 4 tutorials); and (4) Mechanism, Freedom and Responsibility (4 lectures, 2 tutorials). (Old No. 52.250)

PHIL2207  Issues in the Philosophy of Psychology  S2 3CCH  C6
Philip Cam
Prerequisite: Either PHIL2206 or PSYC1002 (Psychology 1). Excluded: 52.2003, 52.251.
Philosophical issues in theoretical psychology, drawn from philosophical and psychological writings on personal identity, consciousness, intentionality, perception, mental imagery, psychology and the brain sciences, psychology and artificial intelligence. (Old No. 52.251)

PHIL2208  Epistemology (Scepticisms)  S1 3CHC6
Philip Cam
Prerequisite: Upper Level status in Philosophy.
All of us acknowledge that there are things we do not know. But such humility can turn into perplexity when we encounter epistemological sceptics. A sceptic typically denies us either vast amounts of knowledge or justification of some select, but extremely everyday, sorts of apparent knowledge or justification. In short, sceptics argue for surprising denials of knowledge or justification. This subject examines some prominent sceptical arguments - ones of less, and ones of more, recent vintage. They will attack knowledge of, or justified belief in, such areas as these: the external world, the unobserved, linguistic meaning, everything.

PHIL2209  Epistemology: Belief and Knowledge  3CH  C6
Prerequisite: Upper Level status in Philosophy.
Not offered in 1991.

PHIL2216  Human Nature and Human Understanding: the Empiricist Approach  S1 3CCH  C6
Neil Harpley
Prerequisite: Upper Level status in Philosophy. Excluded: 52.2130, 52.2170, 52.231.
The traditional empiricists - Locke, Berkeley and Hume - developed a substantial framework for theories concerning human nature and particularly for the consideration of issues arising in the attempt to explain our perception and knowledge of the world. The empiricist approach to these matters was revivified and became dominant in the first half of this century. Notable figures in recent empiricism include Russell and Quine and the leaders of the Logical Positivist movement. The subject will involve a study of the major concerns of traditional and modern empiricists.

Assessment: Exercises and essays or examination. (Old No. 52.231)

PHIL2217 Personal Identity
Neil Harpley
Prerequisite: Upper Level status in Philosophy. Excluded: 52.2180, 52.232.

Controversy about the criteria for personal identity has usually centred on the question of whether the criteria are physical or psychological. Philosophers have frequently ignored the social dimension of personal identity or, at best, given it only a peripheral place in the discussion. (Old No. 52.232)

PHIL2218 Philosophical Foundations of Artificial Intelligence
Phillip Staines
Prerequisite: Upper Level status in Philosophy. Excluded: 52.2026.

An examination of the assumptions, achievements and prospects for artificial intelligence through consideration of problems in understanding and designing natural and artificial minds. Some of the design requirements for building intelligent systems are discussed, as is the nature and scope of computation and its role in artificial intelligence. Some work on artificial intelligence has been described as 'philosophical explication turned into computer programs'. The idea that it can make a direct contribution to philosophy will be explored. (Old No. 52.2026)

PHIL2308 Reason and the Passions: Descartes, Spinoza and Hume
Genevieve Lloyd
Prerequisite: Upper Level status in Philosophy. Excluded: 52.2021, 52.2024, 52.215.

Not offered in 1991.

Philosophical distinctions between reason and the passions, and the role that philosophers have given - or denied - reason in understanding and controlling the passions. The reason-passion distinction will be discussed in relation to other distinctions - between mind and body, theoretical and practical reason, interests and passions, male and female; and also in relation to contemporary attitudes to rationality.

Assessment: To be decided in consultation with students. (Old No. 52.215)

PHIL2309 The Heritage of Hegel
Lisabeth During
Prerequisite: Upper Level status in Philosophy. Excluded: 52.221.

Not offered in 1991.

Many of the ruling ideas of contemporary European philosophy were first given form by Hegel. These include: the constitution of subjectivity; the problem of reflection; the possibility of a dialectical reasoning; the role of negativity; and the relationship of philosophy to history. Beginning with a close reading of the Preface and Introduction to the Phenomenology of Spirit, we will examine responses to Hegel in theorists ranging from Gadamer to Derrida. (Old No. 52.221)

PHIL2316 Philosophy of Religion
Lisabeth During
Prerequisite: Upper Level status in Philosophy.
Not offered in 1991.

Philosophy's relation to religion - to religious belief, religious language and practices, is an old and often troubled one. In this subject we will look at some very different interpretations of the phenomenon of religion, from the traditional theistic (Augustine, Anselm, Genesis), to the mystical (Underhill, Julian of Norwich, Bataille), and also at some critical attempts to define the 'essence' of religious experience (Rudolf Otto, William James, Freud, Ludwig Feuerbach), and also at some critical attempts to define the 'essence' of religious experience (Rudolf Otto, William James, Freud, Ludwig Feuerbach). The second half of the subject will address the most persistent problem for the religious view of life: the enigma of Evil. Using as a foundation Paul Ricoeur's seminal book, The Symbolism of Evil, it will trace the evolution of 'myths of fault', from notions of pollution in ancient Greece to more modern conceptions of shame, anxiety, guilt and sin.

PHIL2407 Culture and Critique: Trends in Contemporary European Philosophy
Lisabeth During
Prerequisite: Upper Level status is Philosophy. Excluded: 60.014.
Not offered in 1991.

A study of influential texts of 20th century European philosophy, which finds its rationale in a project which is common to contemporary French and German theory: questioning philosophy as Cultural Criticism. Authors to be discussed include Freud, Nietzsche, Benjamin, Adorno, Horkheimer, Marcuse, Bloch, Mauss, Bataille, Artaud, Foucault, Deleuze, Kristeva and Derrida. (Old No. 60.014)

PHIL2409 Speaking through the Body: Feminism, Psychoanalysis, Literature
Lisabeth During
Prerequisite: Upper Level status in Philosophy.

Explores the metaphorical relationship between femininity and language in recent French philosophy. Topics discussed include: femininity, transgression and jouissance; transvestitism and gender ambivalence; Woman versus Truth; and Kristeva's treatment of the 'maternal' and the 'hysterical' woman. Readings will be taken from the work of Freud, Lacan, Marguerite Duras, Irigaray, Deleuze and Guattari, Djuna Barnes, Nietzsche, Virginia Woolf and Kristeva.
PHIL2416  Power, Knowledge and Freedom  S1 3CCH  C6
San MacColl
Prerequisite: Upper Level status in Philosophy.
Covers the work of Foucault, with attention to his continuation of a tradition founded in Nietzsche, and his view of the role of philosophy in contemporary life. Begins with the analysis of discourse ("Orders of Discourse"), the account of thought in the classical age (The Order of Things), the shift from archaeology to genealogy, the inseparability of power/knowledge (e.g. Discipline and Punishment) and finishes with the way a subject is socially and ethically constituted at different times (The History of Sexuality).

PHIL2506  Classical Political Philosophy  S1 3CCH  C6
Stephen Cohen
Prerequisite: Upper Level status in Philosophy. Excluded: 52.203, 52.2050, 52.240.
Examination of the work of some central figures in the history of political philosophy, with regard to the basis of political society, its various functions, and its relation to the individuals in it. Topics include the idea of a state of nature, theory of social contract, the establishment of political rights and obligations, and the relation of moral and political concerns within a political society.
Assessment: Essays and an examination. (Old No. 52.240)

PHIL2507  The Ethics of Plato and Aristotle  S1 3CCH  C6
Stephen Cohen
Prerequisite: Upper Level status in Philosophy. Excluded: 52.523, 52.2220, 52.5231, 52.242.
Not offered in 1991.
A systematic investigation of the moral theories of Plato and Aristotle, and some discussion of the difference between the approaches, concerns, and general aims of classical Greek ethics compared with modern moral theorising. Beginning with the apparently immoral and subsequent amoral position of Thrasymachus and his question in Book 1 of "The Republic", "Why should I be just?", the subject investigates the ways in which Plato and Aristotle each sets out the problems of the nature of morality and why a person should be moral, their approaches to the solutions to these problems, and their positive moral theories. (Old No. 52.242)

PHIL2508  Theories in Moral Philosophy  S2 3CCH  C6
Stephen Cohen
Prerequisite: Upper Level status in Philosophy. Excluded: 52.523, 52.2230, 52.5232, 52.243.
Examination of three moral theories central in the history and development of moral philosophy. Hume, Kant, and Mill offer differing kinds of moral theories, differing approaches to arriving at a moral theory, and specific theories which are markedly different from each other. Each moral theory is investigated in itself and in comparison with the other two.
Assessment: Essays and an examination. (Old No. 52.243)

PHIL2509  Philosophy of Law  S2 3CCH  C6
Stephen Cohen
Prerequisite: Upper Level status in Philosophy. Excluded: 52.105, 52.2150, 52.241.
Selected conceptual and normative issues in the philosophy of law, centring around the broad areas of law (eg, its nature, validity, bindingness, and relation to morality), liberty, justice, responsibility (including strict, vicarious, and collective liability), and punishment.
Assessment: Essays, possibly an examination. (Old No. 52.241)

PHIL2516  Philosophical Foundations of Marx's Thought  S2 3CCH  C6
San MacColl
Prerequisite: Upper Level status in Philosophy. Excluded: 52.373, 52.219.
May not be offered in 1991.
A discussion of the basics of Marx's historical materialism and dialectical materialism.
Assessment: Exercises and essays. (Old No. 52.219)

PHIL2517  Philosophy and Gender  S1 3CCH  C6
San MacColl
Prerequisite: Upper Level status in Philosophy. Excluded: 52.216.
The subject will consider the nature of sexuality and ideas about the role of sexual difference in the constitution of the bodily subject. The social significance of the connection between gender and such distinctions as culture/nature, reason/passion and public/private will be examined in the light of feminist critiques. It will also raise questions about philosophy and feminism with respect to issues of argument, advocacy and style.
Assessment: To be decided in consultation with students. (Old No. 52.216)

PHIL2606  Aesthetics  S1 3CCH  C6
Prerequisite: Upper Level status in Philosophy. Excluded: 52.273, 52.2260.
In this subject, emphasis will be placed on the visual arts, although it will also deal with literature and film. Topics will include: subjectivity and objectivity in aesthetics; with special reference to Kant; concepts of tradition and genre; concepts of representation and 'expression'. The subject will also address issues of the modern and the post-modern. It will include a case study, discussing the history of the female nude in European painting.
Assessment: Exercises or essay and examination. (Old No. 52.2260)

PHIL2607  Philosophy and Literature  S2 3CCH  C6
Prerequisite: Upper Level status in Philosophy.
Explores philosophical aspects of the concept of representation in relation to literature, discussing theories of the differences between philosophy and literature, and of the nature and role of the metaphor. It will study some central texts of Greek philosophy in conjunction with some contemporary philosophical discussions of literature which make use of them.
Topics will include: Plato’s criticism of the poets in the Republic; Iris Murdoch on the “true” and the “good” and the ethical significance of literature; Ricoeur on mimesis and narrative; Richard Rorty on philosophy as a “kind of writing”.

PHIL2706 Seminar A S1 3CCH C6
Admission by permission, based on a student’s performance in Upper Level subjects. Topics vary and are influenced by student requests. (Old No. 52.2980)

PHIL2707 Seminar B S2 3CCH C6
As for PHIL2706 Seminar A. (Old No. 52.3010)

PHIL2708 Reading Option S1 or S2 3CCH C6
Students wishing to do work in an area not covered by an existing subject or seminar may apply to the School to take a reading option. Not more than one such subject may be counted towards a degree. Approval of a program for a reading option depends on its suitability and on the availability of a member of staff to undertake supervision. (Old No. 52.2990)

PHIL3106 Pre-Honsours Seminar S2 3CCH C6
Prerequisite: 30 credit points in Philosophy with overall standard of Credit or higher.
A subject for students intending to take Honours in Philosophy; designed to form skills in philosophical research and writing through seminar discussion of readings illustrating a range of philosophical approaches, styles and techniques. (Old No. 52.395)

Philosophy of Science

For information on the interdisciplinary Philosophy of Science program, taught in association with the School of Science and Technology Studies, see the relevant entry in Subject Descriptions.

Honours Level

Note: The School does not offer Honours programs by course work alone.

PHIL4000 Philosophy Honours (Research) F/T T4
Prerequisite: In addition to general Faculty requirements, admission is subject to completion of a qualifying program containing at least 54 credit points in Philosophy, consisting of 6 or 12 points at Level 1 and the remaining points at Upper Level, including PHIL3106 (Pre-Honsours Seminar), completed with a good overall Credit record and with indication of ability at Distinction level or better. Students who will have completed only 52 credit points are encouraged to seek the approval of the School for admission.
The Honours year consists of writing a research thesis under supervision and two seminar courses. (Old No. 52.4000)

PHIL4050 Philosophy Honours (Research) P/T
PHIL4500 Combined Philosophy Honours (Research)
Prerequisite: For Combined Honours (Research) the requirement is normally 42 credit points consisting of 6 or 12 points at Level 1 and the remainder at Upper Level, including the Pre-Honsours Seminar. This may be varied in consultation with the other School involved. The prerequisite subjects should be completed with Credit average and some indication of ability at Distinction level or better.

For both Honours programs, students may be permitted to count up to 6 points offered outside the School, where these are relevant to the program.

PHIL4550 Combined Philosophy Honours (Research)
Students contemplating Honours are urged to seek advice from the School on their program early in their course.

Philosophy of Science

The Philosophy of Science program is designed to provide a coherent sequence of subjects for students who wish to prepare themselves for undertaking advanced study within the areas of logic, methodology and philosophy of science, or who merely wish to deepen their comprehension of the subject matter of a major in another field. The program leads towards a core subject, Advanced Philosophy of Science, in the third year. While a second major may be taken in any discipline available, the program is designed in such a way that students can pursue a second major in either Philosophy or Science and Technology Studies.

A major sequence is made up of not less than 36 credit points. Students should note, however, that they may not ‘double-count’ subjects towards a second major and they must satisfy general Faculty regulations. Students must also meet certain prerequisite requirements within the program. While the program given below is to be taken as normative, variations may be approved by the Co-ordinator. In particular, students otherwise deemed suitably prepared may be permitted to enter the program in second year, without being required to complete the usual first-year subject, provided they complete either HPST2001 The Scientific Theory, or PHIL2116 Scientific Method.

Suitably qualified students may proceed from the program to a fourth-year honours program in Philosophy or in Science and Technology Studies, or to a joint-honours program in the Schools of Philosophy and Science and Technology Studies. For details, see the school entries under Subject Descriptions.
Level I

6 credit points obtained in one of the following subjects:

HPST1001 Myth, Megalith and Cosmos
HPST1002 From the Closed World to the Infinite Universe
HPST1003 Science: Good, Bad and Bogus
PHIL1006 Introductory Philosophy A
PHIL1007 Introductory Philosophy B

Upper Level

12 credit points obtained in the following two subjects:

PHIL2106 Logic
PHIL2107 Advanced Philosophy of Science

18 credit points obtained in three of the following:

HPST2011 History of the Philosophy and Methodology of Science
HPST3001 The Discovery of Time
HPST3012 Philosophical Problems in Evolutionary Biology
PHIL2116 Scientific Method or HPST2001 The Scientific Theory
PHIL2109 Metaphysics: Realisms
PHIL2207 Issues in the Philosophy of Psychology
PHIL2208 Epistemology: Scepticisms
PHIL2209 Epistemology: Belief and Knowledge

Students should consult the Program Co-ordinator before enrolment, for advice on the most suitable choice of subjects within the program to meet their needs.

Physics

Level I

PHYS1002 Physics 1 F L3T3 C12

Prerequisites: HSC Exam Score

2 unit Mathematics or 67-100
3 unit Mathematics or 1-50
4 unit Mathematics or 1-100

for PHYS1002 only 10.021B and

2 unit Science Physics or 57-100
2 unit Science Chemistry or 60-100
3 unit Science or 90-150
4 unit Science or 1-50

Co-requisite: MATH1021 or MATH1032.

*This refers to the 2 Unit Mathematics subject which is related to the 3 Unit Mathematics subject. It does not refer to the subject 2 Unit Mathematics (Mathematics in Society).

Aims and nature of physics and the study of motion of particles under the influence of mechanical, electrical, magnetic and gravitational forces. Concepts of force, inertial mass, energy, momentum, charge, potential, fields. Application of the conservation principles to solution of problems involving charge, energy and momentum. Electrical circuit theory, application of Kirchhoff's laws to AC and DC circuits. Uniform circular motion, Kepler's laws and rotational mechanics. Properties of matter: solids, liquids, gases. The wave theories of physics, transfer of energy by waves, properties of waves. Application of wave theories to optical and acoustical phenomena such as interference, diffraction and polarisation. (Old No. 1.001)

PHYS1909 Astronomy S1 or S2 L2T2 C6

Excluded: 1.901.

Involves an overview of astronomy, the relationships of the planets to the galaxies. Includes an exploration of the solar system, to indicate the advances that have been made, particularly and most recently with space probes, in our understanding of planetary systems. The characteristics of stars discussed along with their use in establishing an understanding of stellar evolution. The treatment of galaxies includes consideration of the nature of our galaxy and its relation to other external systems, concluding with a brief discussion of aspects of observational cosmology. Discussion of such recent topics as black holes, pulsars, quasars. (Old No. 1.901)

Level II

PHYS2001 Mechanics and Computational Physics S1 L3T1 C4

Prerequisites: PHYS1002 and MATH1032 or MATH1042.

Harmonic motion, systems of particles, central force problems, Lagrange's equations, coupled oscillations, travelling waves, pulses, energy and momentum transfer, computer operating systems, introduction to FORTRAN, libraries and software packages, use of computers to solve problems in physics. (Old No. 1.002)

PHYS2011 Electromagnetism and Thermal Physics S2 L3T1 C4

Prerequisites: PHYS1002, MATH1032 or MATH1042.

Electric field strength and potential, Gauss' law, Poisson's and Laplace's equations, capacitance, dielectrics and polarisation, magnetism, electromagnetic induction. Maxwell's equations, electromagnetic waves. Laws of thermodynamics, kinetic theory, microscopic processes, entropy, solid state defects, Helmholtz and Gibbs functions, Maxwell's relations, phase diagrams, chemical and electrochemical potential. (Old No. 1.012)

PHYS2021 Quantum Physics and Relativity F L1.5 T.5 C4

Prerequisites: PHYS1002, MATH1032 or MATH1042. Excluded: 1.982, 1.022, PHYS2999.

Special theory of relativity: time dilation, length contraction, simultaneity, Lorentz transformations, energy and mass. Photon properties, de Broglie relations, Uncertainty principle,
operators in quantum mechanics, postulates of quantum mechanics, potential wells, steps and barriers, harmonic oscillator, H atom, angular momentum, magnetic moment, electron spin, nuclear spin. Atomic and molecular spectra, lasers, quantum statistics, free electron model of a metal, band theory; nuclear size, density, mass; nuclear models, fission and fusion, nuclear forces. (Old No. 1.022)

PHYS2031 Laboratory F T3 C4
Prerequisites: PHYS1002, MATH1032. Excluded: PHYS2920, 1.032, 1.9222.
Alternating current circuits, complex impedance, resonance, mutual inductance, introductory electronics, diode and characteristics and circuits, power supplies, transistor characteristics, single stage and coupled amplifiers, experiments using AC circuits. Experimental investigations in a choice of areas including radioactivity, spectroscopy, properties of materials, Hall effect, nuclear magnetic resonance, photography, vacuum systems. (Old No. 1.032)

Political Science

The School of Political Science is concerned with the study of political ideas, institutions and activity. These areas of study are investigated in different ways - historically, logically, empirically and morally. Political Science seeks to encourage a fuller understanding of the problems and processes of political systems in different times and places. To achieve this, emphasis is placed not only upon the study of institutions, but also upon the analysis of a range of theories. These theories may equally underlie and reinforce, or oppose and seek to change, existing structures.

Major Sequence

Any student who wishes to pursue a major sequence in Political Science must obtain at least 12 Level I and at least 24 Upper Level credit points in Political Science subjects.

Part Time (Evening) Study

The School of Political Science has organised its subjects to permit students to undertake a Major through part-time study in the evenings (after 5 pm). In special circumstances the Honours program may be undertaken over a period of eighteen months.

In 1991, 6 Level I credit points and at least one Upper Level subject worth 6 credit points will be available in the evenings in each session.

Students wishing to study in the evenings should be aware that their choice of subjects is, naturally, restricted.

Honours Entry

Any student seeking admission to Honours programs in Political Science must obtain a minimum of 54 credit points in Political Science subjects. This total must include 12 Level I credit points and at least 12 credit points from Upper Level subjects entry to which is governed by the prerequisite of Credit or better performance at Level I. A minimum cumulative average of an Upper Credit is required for all Political Science Upper Level subjects taken.

Level I

The following are Level I subjects, with credit points as nominated. Normally students may take only one Level I subject in each session. Students should confirm with the School the Level I offerings as there may be additional subjects or subjects may not be available.

Co-ordinator R. Lucy

POLS1003 Australian Political Institutions S2 3CCH C6
J. Paul
Excluded: POLS1001, POLS1002 and POLS1006.
The nature and history of Australian political institutions in depth. The Australian constitution and federal structure and the role of the High Court in helping determine the nature of the power relationships in Australian politics. The political parties, their history, successes and failures, strengths and weaknesses both in and out of government. The formal institutions of government: parliament, cabinet, the bureaucracy and both Labor and Liberal prime ministers. Elections and voting in Australia and pressure groups. (Old No. 54.1003)

POLS1004 Government in the Modern World SS 3CCH C6
A. Chan
Excluded: POLS1001.
Not offered in 1991. (Old No. 54.1004)

POLS1005 A History of Political Thought SS 3CCH C6
C. Condren
Excluded: 54.1001.
Not offered in 1991. (Old No. 54.1005)

POLS1006 The Australian Political System S2 3CCH C6
R. Lucy
Excluded: POLS1001, POLS1002, POLS1003.
Basic concepts in political science such as power, influence and authority. Models of the Australian political system. The subsequent examination of the Australian political system is designed to illustrate these concepts and to test these models. The Australian political system is understood as the formal governmental institutions, political parties, and political culture. Australian political issues are studied to illustrate the Australian political culture. (Old No. 54.1006)

POLS1008 Politics of Soviet-Type Systems S2 3CCH C6
S. Fortescue
Excluded: POLS1001.
Examines political concepts and phenomena in Soviet-type systems, with the emphasis on Eastern Europe. Includes legitimacy and authority, economic reform and political
pluralism, the party in communist systems, political participation, and others. The approach is strongly comparative, with an effort being made to discern and explain differences within the Eastern bloc, and between that bloc and the Western and developing worlds. (Old No. 54.1008)

**POLS1009 Australian Political Culture**

R. Smith

*Excluded: POLS1001, POLS1002.*

Key concepts, methods and theories of political culture. Focuses particularly on those commonly used to explain Australia’s political culture. Topics include: democracy; nationalism; egalitarianism; political socialisation; class, gender, ethnicity, religion; regionalism and political culture. (Old No. 54.1009)

**POLS1010 State and Society: An Introduction to Political Sociology**

E. Nimni

*Excluded: POLS1001.*

A basic introduction to diverse and influential explanations of the social origin of political power focusing on the works of Karl Marx and Max Weber. The subject not only examines the intellectual development of the Marxist and Weberian traditions, but will also investigate whether political sociology has adequate explanations to the impact of the new social movements for ethnic, sexual and ecological emancipation in the political lifestyle of advanced industrial societies. (Old No. 54.1010)

**POLS1011 Contemporary Chinese Politics**

A. Chan

*Excluded: POLS1001.*

Examines the first success of Marxism into the non-European world and the acceptance of an alien world view by an ancient culture. Apart from examining the fate of this process of mutual accommodation, emphasis will also be given to the values, structure, behaviour patterns and methods of political practices in contemporary China. (Old No. 54.1011)

**POLS1012 The Political Economy of Japan**

R. Steven

Not offered in 1991.

An introduction to the concept of Political Economy as an analytical tool, using Japan as a case study. (Old No. 54.1012)

**POLS1013 Thinking About Politics**

H. Pringle

*Excluded: POLS1001.*

Introduces students to some central questions, texts and thinkers of politics in the West. Topics include the nature of political obligation, the foundations of authority and legitimacy, the relations between politics and ethics, inequality and toleration.

**Upper Level**

Subjects commencing with the numbers POLS2... are worth 6 Upper Level credit points; subjects commencing with the numbers POLS3... are worth 4 Upper Level credit points. Students should confirm the availability of subjects with the School. There may be additions and/or deletions.

**Co-ordinator C. Condren**

**POLS2000 The Israeli Society and Palestinian People**

E. Nimni

*Prerequisite: 12 Level I credit points in Political Science. Excluded: HIST2030.*

**POLS2001 Politics of USSR**

S. FOrtescue

*Prerequisite: Upper Level Status in Arts.*

A survey of developments in the Soviet political system since 1917. The pre-revolutionary situation is dealt with only as an introduction. Roughly equal emphasis is given to historical, institutional and theoretical issues. Students' attention is drawn to the debates and differing views of the Soviet Union that exist within the Soviet studies discipline. (Old No. 54.2001)

**POLS2002 Politics of the United States**

F. Mediansky

*Prerequisite: 12 Level I credit points in Political Science, or HIST2025.*

A general view of US politics with particular emphasis on major institutions and long-term issues. (Old No. 54.2002)

**POLS2003 Politics of China 1**

A. Chan

*Prerequisite: 12 Level I credit points in Political Science.*

An introductory study of Chinese politics with special attention to political issues, values, and the conflicts of interests in policy-making. Includes the development and nature of communism in China, economic and development strategy, education and culture, defence and foreign policy. (Old No. 54.2003)

**POLS2004 British Government**

J. Paul

*Prerequisite: 12 Level I credit points in Political Science.*

The structure of politics and decision-making in Britain. (Old No. 54.2004)
POLS2005 International Relations  S2 3CCH  C6
A. C. Palfreeman
Prerequisite: 12 Level I credit points in Political Science.
The nature of the international political system, the problem of conflict and war between nations, and the more important ways in which this conflict has been, and may be, contained. (Old No. 54.2005)

POLS2008 Public Policy Making  S2 3CCH  C6
E. Thompson
Prerequisite: 18 credit points in Political Science.
The problems of administering government and the problems of decision-making. Models of decision-making are discussed, as are problems in implementation. Areas of public policy in Australia, such as poverty and education. (Old No. 54.2008)

POLS2014 The Politics of Southeast Asia  S2 3CCH  C6
F. Mediansky
Prerequisite: 12 Level I credit points in Political Science or HIST2001.
Focus on international politics in Southeast Asia with emphasis on: the politico-strategic interests of the great powers in the region; the foreign policies of the regional powers; regional organisations and the problems of regional stability. (Old No. 54.2014)

POLS2015 Political Language: Rhetoric, Metaphor and Change in Political Argument  S1 3CCH  C6
C. Condren
Prerequisite: 12 Level I credit points in Political Science.
Excluded: POLS3016, POLS3036.
The tactics and strategies of political argument in different societies and groups within societies. The stability and transformation of political vocabularies. Main topics: ideology and rhetoric; rhetoric and philosophy; figurative language and conceptualisation; rhetorical strategies and political change; metaphor and literality in politics. (Old No. 54.2015)

POLS2016 Concepts in Comparative Political Culture  SS 3CCH  C6
R. Smith
Prerequisite: 12 Level I credit points in Political Science.
Not offered in 1991.

POLS2018 Marxism and Democracy  SS 3CCH  C6
E. Nimni
Prerequisite: 12 Level I credit points in Political Science.
Not offered in 1991.

POLS2019 The Political Economy of Peasants  S2 3CCH  C6
G. Kitching
Prerequisite: 12 Level I credit points in Political Science.
An examination of the changing of societies primarily based on "peasants" into "workers". The necessary "disappearance of the peasantry" in the process of economic development has been an idea endorsed by conventional thought. This subject considers those theories and alternative ideas with special attention paid to Indian and Chinese peasantries in the final part of this subject.

POLS2020 Liberal Democracy and Sexuality  S1 3CCH  C6
Prerequisite: 12 Level I credit points in Political Science.
Examines liberal democratic thought and practice in connection to questions of human sexuality. Liberal democratic conceptions of tolerance, equality, autonomy and freedom of the person, freedom of contract and citizenship will be examined, in particular as set out in some classic expositions of liberal thought. These conceptions will be considered in the light of problems such as pornography, prostitution, sexual violence and rape, reproductive technology, marriage and the family. (Old No. 54.2020)

POLS2021 British Political Theory from the Reformation to the French Revolution (1500-1800)  S2 3CCH  C6
C. Condren
Prerequisite: 12 Level I credit points in Political Science.
Covers the rise of state theory and international law; the development of the vocabulary of politics; European consciousness and national identity; and the secularization of politics.

POLS2022 Approaches to the Study of Peace and Conflict  SS 3CCH  C6
D Phillips
Prerequisite: 12 Level I credit points in Political Science.
Not offered in 1991.

POLS2023 Politics of Development  S1 3CCH  C6
G. Kitching
Prerequisite: 12 Level I credit points in Political Science.
The different ways various countries have pursued economic development. The relationship between economic development and industrialisation; industrialisation and political ideology; varieties of industrialisation.

POLS2024 Theories and Concepts of International Relations  S1 3CCH  C6
J. Pemberton
Prerequisite: 12 Level I credit points in Political Science.
For details and availability please contact the School of Political Science.

POLS2025 Contemporary German Politics  S2 3CCH  C6
K. Kwiet
Prerequisite: 12 Level I credit points in Political Science.
For details and availability please contact the School of Political Science.
POLS2026 Fascism and Anti-Fascism  
K. Kwiet  
Prerequisite: 12 Level I credit points in Political Science.  
For details and availability please contact the School of Political Science.

POLS3005 Advanced Quantitative Methods in Political Science  
Rodney Smith  
Prerequisite: SLSP2001 and at least 12 credit points in Political Science.  
Not offered in 1991.

POLS3020 State and Society in Contemporary Europe  
E. Nimni  
Prerequisite: 12 Level I credit points in Political Science at Credit level or better and POLS2018 or POLS2018(CR) or better.

This subject is concerned with the relationship between social change and political power in post Cold War Europe divided. Some of the topics to be discussed are: corporatism, neo-liberalism, the critique of the welfare state, Eurocommunism, the collapse of Marxist-Leninism, the impact of the ‘new social movements’ (ecology, feminism, nuclear disarmament, ‘Solidarity’, ‘New Forum’) and an evaluation of the challenge of internal dissent for Eastern Europe’s ‘Real Socialism’. (Old No. 54.3020)

POLS3023 International Security  
A. C. Palfreeman  
Prerequisites: 12 Level I credit points in Political Science at Credit level or better and POLS2005 (or equivalent). Excluded: POLS3003.

* May also be taken as a co-requisite.

The nature and meaning of ‘security’ in the international context. The more important avenues or areas of endeavour currently being canvassed to strengthen national and international security. (Old No. 54.3023)

POLS3024 Australian Foreign Policy  
F. Mediansky  
Prerequisite: 12 Level I credit points in Political Science at Credit level or better and POLS2005 or equivalent. Excluded: POLS3004.

An examination of the foreign policy making and implementing processes in Australia; traditions, assumptions and perceptions; actors and audiences; interests and issues; incentives and constraints. (Old No. 54.3024)

POLS3025 Methodology and the History of Political Thought  
C. Condren  
Prerequisite: 12 Level I credit point in Political Science at Credit level or better.

Not offered in 1991. (Old No. 54.3025)

POLS3027 Theories of Liberal Democracy  
E. Thompson  
Prerequisite: POLS2002 (CR); or POLS2002 and 12 Level I credit points in Political Science at Credit level or better. Excluded: POLS3008.

Not offered in 1991. (Old No. 54.3028)

POLS3029 Chinese Political Thought  
A. Chan  
Prerequisite: 12 Level I credit points in Political Science at Credit level or better. Excluded: POLS3009.

Not offered in 1991. (Old No. 54.3029)

POLS3031 Political Thought in Italy and England: 1150-1550  
C. Condren  
Prerequisite: 12 Level I credit points in Political Science at Credit level or better. Excluded: POLS3011.

Not offered in 1991. (Old No. 54.3031)

POLS3032 The Party System in Australia  
J. Paul  
Prerequisite: 12 Level I credit points in Political Science at Credit level or better, including either POLS1003 or POLS1006 or POLS1009; or by special permission of the Head of School and subject director.

A study of Australian political parties. (Old No. 54.3032)

POLS3033 Federalism: An Australian Perspective  
R. Lucy  
Prerequisite: 12 Level I credit points in Political Science at Credit level or better.

Theories of federalism. The making of the Australian federation. Constitutional amendment and judicial review. Responsibility sharing and buck passing. The loan council. Section 96 grants. The Australian Labor Party and Australian federalism. The impact of Australian federalism on Aboriginal and the environment. Fraser’s federalism. The high court and the new right. (Old No. 54.3033)
POLS3037 Revolutions and Republic: English Political Theory from 1640 to 1690

C. Condren

Prerequisite: 12 Level I credit points in Political Science at Credit level or better or HIST2010.

Not offered in 1991. (Old No. 54.3037)

POLS3039 Politics of China 2: The Politics of Readjustment

A. Chan

Prerequisite: POLS2003 and 12 Level I credit points in Political Science at Credit level or better. Excluded: POLS3019.

Not offered in 1991. (Old No. 54.3039)

POLS3040 Early Political Texts

C. Condren

Prerequisite: 12 Level I credit points in Political Science at Credit level or better.

Not offered in 1991. (Old No. 54.3040)

POLS3041 USSR: Problems and Prospects

S. Fortescue

Prerequisite: POLS2001 (CR).

A detailed study of the contemporary Soviet Union, including political, economic, demographic and social issues. An awareness of long-term trends is combined with analysis of day-to-day changes. (Old No. 54.3041)

POLS3042 Strategic Studies

R. Lucy

Prerequisite: 12 Level I credit points in Political Science at Credit level or better and POLS2005, or POLS2005 (CR).

The relationship between diplomacy, national interest, political ideology and war. Models of the outbreak, conduct and termination of war. (Old No. 54.3042)

POLS3044 Electoral Studies

R. Smith

Prerequisite: 12 Level I credit points in Political Science at Credit level or better.

Not offered in 1991. (Old No. 54.3044)

POLS3045 Policy and Politics: Theory and Practice

E. Thompson

Prerequisite: 18 credit points in Political Science at CR or better.

An introduction to the workings of parliament and policy making in Australia. Work centres on external internships with parliamentarians, local government and lobbies. (Old No. 54.3045)

This subject does not count towards the 12 credit points, drawn from subjects with credit prerequisites that are required for honours eligibility.

POLS3046 Japan's New Imperialism

Prerequisite: 12 Level I credit points in Political Science at CR or better.

Not offered in 1991. (Old No. 54.3046)

Honours Level

Political Science (Honours)

C. Condren (Co-ordinator)

Prerequisites: Any student seeking admission to Honours programs in Political Science must obtain a minimum of 54 credit points in Political Science subjects. This total must include 12 Level I credit points in Political Science and at least 12 credit points in Upper Level Political Science subjects, entry to which is governed by the prerequisite of Credit or better grade at Level I. A minimum cumulative average at Credit level is required for all Upper Level subjects taken in Political Science.

POLS4000 Political Science Honours (Research)

Students are required: 1. To undertake an original piece of work extending throughout the year and to submit a thesis based upon it. 2. To complete two coursework subjects offered during the year, one of which may, under special circumstances, be replaced with an equivalent reading course. (Old No. 54.4000)

POLS4050 Political Science Honours P/T (Research)

POLS4001 Political Science Honours F (Coursework)

Not offered in 1991.

As for POLS4000, with coursework substituted for the thesis component. (Old No. 54.4001)

POLS4051 Political Science Honours P/T (Coursework)

Not offered in 1991.

POLS4500 Combined Political Science Honours (Research)

Students who have also qualified to read for a degree at Honours level in another School may seek, with the permission of both Schools, to read for a Combined Honours degree. The program, developed by the relevant Schools in consultation with the students concerned, is usually arranged around a jointly supervised and jointly examined thesis with required course work being divided between the Schools. (Old No. 54.4050)

POLS4550 Combined Political Science P/T Honours (Research)

POLS4501 Combined Political Science F Honours (Coursework)

In this program, coursework leading to the award of the degree is divided between Political Science and another School. (Old No. 54.4051)
Ancillary Subjects

Students interested in further study of politics should be aware that there are subjects offered by other Schools in the Faculty on political matters. However, such subjects cannot be counted towards a major in Political Science, but up to 6 credit points may, in special circumstances, be counted towards Honours prerequisites, with the permission of the Head of School.

Psychology

Modern psychology is both a basic discipline and a field of professional practice. As a science, psychology is concerned with the study of both the more complex forms of behaviour, and associated mental processes. It seeks to understand the basic psychological processes such as learning, memory, perception and motivation; the biological basis of behaviour: the development and decline of behavioural capacities from infancy to old age; individual differences in behaviour; social influences on behaviour; and the collective behaviour of social groups. In addition, disorders of behaviour form an important part of the subject matter of psychology.

In the Bachelor of Arts degree course psychology may be taken as a major sequence and as an Honours program. Psychology may be combined with Social Science and Policy in the Bachelor of Social Science degree course (see Subject Descriptions: Social Science and Policy SLSP).

Students who wish to obtain qualifications that will allow them to practise psychology need to complete the four-year Honours program in Psychology. The present minimum qualifications for registration in New South Wales as a psychologist and for membership of the Australian Psychological Society (the professional body of Australian psychologists) are a degree (with a major in Psychology) and a fourth year of study of psychology, followed either by further graduate study or two years of supervised experience in some practical field of psychology.

Major Sequence

A major in Psychology is obtained by the completion of 40 credit points which consist of PSYC1002 Psychology 1 (12 credit points), 12 Psychology Upper Level II credit points including PSYC2001 Research Methods 2, and 16 Psychology Upper Level III credit points.

Honours Entry

The prerequisite for entry to either the thesis (PSYC4023) or the group research project (PSYC4033) Psychology Honours program is completion of 60 credit points with an average of at least 68% and at the discretion of the Head of School. The 60 credit points consist of:

1. PSYC1002 (12 credit points), and
2. PSYC2001, PSYC2011, PSYC2021 and PSYC2031 (16 credit points), and

*3. 8 Psychology Upper Level III subjects including PSYC3001, PSYC3021 and PSYC3031 (a total of 32 credit points) for entry to PSYC4033 Psychology 4. Additionally, PSYC3011 must be included in the 8 subjects for entry to PSYC4023 Psychology 4 (Thesis).

* To meet the degree course requirement of a major sequence in a "home-based" discipline (see Rule 11(3) of the Rules Governing the Award of the Degree of Bachelor of Arts) students will need to spread their eight Psychology Upper Level 3 subjects across Years 2 and 3, taking any of the Level 3 subjects for which they have met the prerequisites in Session 1 of Year 2 during Session 2 of Year 2. Students should also consider taking more of their "home-based" major sequence subjects in Year 2 and if the subject prerequisites allow it, to complete that major sequence in Year 2.

The Psychological Society

The Psychological Society aims to provide activities both educational and social for students of psychology and, more generally, to act as an intermediary body between students of different years, and staff.

The Society organises a variety of activities including staff-student functions, informal discussions, film showings, and occasional talks and seminars. An activities fee enables the society to meet any of the finances needed to support its functions.

Excluded: GENS4620 and GENS5050.
An introduction to the content and methods of psychology as a basic science, with emphasis on the biological and social bases of behaviour, relationship to the environment, and individual differences. Training in the methods of psychological enquiry, and in the use of elementary statistical procedures. (Old No. 12.100)

Upper Level II

PSYC2001 Research Methods 2 S1 L2T2 C4
Prerequisite: PSYC1002.
General introduction to the analysis of data by means of inferential statistics (z, t and chi square). Consideration of issues in the use of statistics (power, robustness, multiple tests). General features of research methodology. Laboratory and statistical traditions affecting design and control procedures. The implications of the use of inferential statistics for research methodology generally. (Old No. 12.206)

PSYC2011 Psychological Assessment S2 L2T1 C4
Prerequisite: PSYC2001.
Principles and techniques of psychological measurement. Types of tests and issues relevant to their construction, administration and interpretation in decisions about selection and classification. (Old No. 12.207)
PSYC2021 Attention, Memory and Thought
Prerequisite: PSYC1002.
Introduction to the fundamental principles of human cognition, underlying pattern recognition, selective attention, memory storage and retrieval, and reasoning and problem-solving. Applications are considered. (Old No. 12.208)

PSYC2031 Personality and Social Psychology
Prerequisite: PSYC1002.
This subject consists of two components. One focuses on models of personality and their method of study, personality development and links with social behaviour. The other deals with social behaviour and the processes of verbal and nonverbal communication, person perception and interpersonal relationships in particular. (Old No. 12.209)

PSYC2051 Human Development
Prerequisite: PSYC1002. Excluded: PSYC3111.
The physical, perceptual, cognitive and psychosocial development of the human from genetic and pre-natal influences through to old age. (Old No. 12.210)

Upper Level III

PSYC3001 Research Methods 3A
Prerequisite: PSYC2001.
Analysis of variance for single factor and multifactor designs. Test procedures for planned and post-hoc contrasts defined on parameters of fixed and mixed models. General principles of experimental design. (Old No. 12.300)

PSYC3011 Research Methods 3B
Prerequisite: PSYC3001.
Multivariate statistics and computing. Data analysis using the SPSS and PSY computer programs; their statistical basis. (Old No. 12.301)

PSYC3021 Perception
Prerequisites: PSYC2001 and either PSYC2021 or PSYC2031.
The study of the sensory basis of perception; the study of perception as an adaptive process by which individuals are able to correctly apprehend the external environment and localise themselves within it; the study of perceptual development in infants and young children. (Old No. 12.341)

PSYC3031 Behavioural Neuroscience
Prerequisites: PSYC2001 and either PSYC2021 or PSYC2031.
An examination of brain-behaviour relationships with emphasis on contemporary models of the neural bases of learning, memory and motivation. Topics may include classical and operant conditioning, neuropharmacology, the neural basis of feeding and its disorders, invertebrate and vertebrate models of learning, amnesias and theories of normal memory. (Old No. 12.342)

PSYC3041 Learning
Prerequisite: PSYC3031.
The conditions which promote learning, the contents of learning and the mechanisms by which learning is deployed in action. The course emphasises the distinction between specialised and general-purpose learning abilities. (Old No. 12.348)

PSYC3051 Physiological Psychology
Prerequisite: PSYC3031.
An examination of the neural control of behaviour with special emphasis on cerebral localisation of function in humans. Clinical conditions will be considered to the extent that they illustrate mechanisms of brain control or they relate to theorising about brain function. (Old No. 12.349)

PSYC3061 Perceptual Theory
Prerequisite: PSYC3021.
Not offered in 1991.
Some of the major theoretical influences in perception, beginning with a historical view and then considering the different perspectives represented by Helmholtz, Gestalt psychology, and Gibson, and finally the influence of computer vision (especially Marr) and the modern revolution in knowledge of the physiology of the visual system. (Old No. 12.350)

PSYC3071 Abnormal Psychology
Prerequisite: PSYC2001.
Descriptive psychopathology; symptomatology and diagnostic features of schizophrenia, organic brain syndromes, affective disorders, psychopath, sexual aberrations, and addictions. (Old No. 12.322)

PSYC3081 Experimental Psychopathology
Prerequisite: PSYC3071.
An examination of the aetiology and mechanisms of behavioural disorders in the light of experimental research and theory construction. Major topics include: aetiology and mechanisms of schizophrenia, affective disorders; psychophysiological disorders, anxiety, depression, addictive behaviours, and amnesia. (Old No. 12.324)

PSYC3091 Counselling and Evaluation
Theory and practice of counselling in a variety of contexts. Emphasis will be placed on major theoretical orientations, counselling skills development and the evaluation of counselling effectiveness through behavioural and other assessments. (Old No. 12.343)

PSYC3101 Individual Differences
Prerequisites: PSYC2011 and PSYC2031.
Measurement and assessment of intelligence, psychometric assessment of personality, cognitive and affective aspects of
personality, the authoritarian personality, achievement motivation, socio-biological models and critique. (Old No. 12.344)

**PSYC3111 Developmental Psychology**

**Prerequisites:** PSYC2001 and either PSYC2021 or PSYC2031. Excluded: PSYC2051.

Issues, methods, and theories in developmental psychology; the development of infants, toddlers, school children, and adolescents with reference to significant cognitive and social events in each of these periods. (Old No. 12.321)

**PSYC3121 Social Psychology**

**Prerequisites:** PSYC2001 and PSYC2031. Excluded: PSYC3131 and PSYC3141.

Human sociability, affiliation and attraction, the development of interpersonal relationships, social influence processes, conformity, obedience, leadership, interaction in groups, affective influences on social cognition and behaviour. (Old No. 12.320)

**PSYC3131 Cross-Cultural Social Behaviour**

**Prerequisites:** PSYC2001 and PSYC2031. Excluded: PSYC3121 and PSYC3141.

Not offered in 1991.

The social psychology of intergroup relations or contact between culturally diverse individuals and groups. Particular aspects to be covered will include inter-cultural communication, inter-group conflict and its resolution, culture learning and orientation programs, and cross-cultural social skills training. These processes will be illustrated with studies of overseas students, migrants, international business persons, and other individuals exposed to second-culture influences. (Old No. 12.353)

**PSYC3141 Behaviour in Organizations**

**Prerequisites:** PSYC2001 and PSYC2031. Excluded: PSYC3121 and PSYC3131.

Industrial and organisational psychology, job analysis, selection, motivation, management strategies, job design and a systems analytic approach to organisations, training, selection, work satisfaction and organisational climate. (Old No. 12.334)

**PSYC3151 Cognition and Skill**

**Prerequisites:** PSYC2001 and PSYC2021. Excluded: PSYC3161.

An examination of the cognitive processes underlying skilled behaviour. Topics include detection and discrimination, the representation of knowledge, artificial intelligence, and the basis of expertise in skilled performance. (Old No. 12.345)

**PSYC3161 Language and Its Development**

**Prerequisites:** PSYC2001 and PSYC2021. Excluded: PSYC3151.

How language is acquired and used in reading, writing, speech comprehension and speech production. Language dysfunction and bilingualism will also be considered. (Old No. 12.346)

**PSYC3171 Recent Developments in Experimental Psychology**

**Prerequisites:** PSYC2001 and PSYC2021.

Not offered in 1991.

An occasional elective dealing with recent developments in experimental psychology. (Old No. 12.351)

**PSYC3181 Issues in Applied Psychology**

**Prerequisites:** PSYC2001 and PSYC2021.

Not offered in 1991.

An occasional elective dealing with issues in applied psychology. Topics may include psychology and the law, career choice and development, stress, forensic psychology and field versus laboratory research. (Old No. 12.352)

---

**Honours Level IV**

**PSYC4023 Psychology 4 (Thesis) Honours**

**Prerequisites:** See Honours Entry earlier.

Psychology 4 in the Arts, and Science and Mathematics degree courses. A supervised research thesis and course work to be determined in consultation with the Head of School. (Old No. 12.403)

**PSYC4033 Psychology 4 Honours**

**Prerequisites:** See Honours Entry earlier.

Psychology 4 in the Arts, and Science and Mathematics degree courses. Course work and a supervised group research project to be determined in consultation with the Head of School. (Old No. 12.404)

**Russian Studies**

The Department of Russian Studies offers a range of subjects designed to develop an informed understanding of the world's largest country, the Soviet Union, through the study of Russian language, literature, civilisation and history. Russian language subjects cater both for complete beginners and also for advanced speakers of Russian. Although language study is required for a major sequence in Russian Studies, several of the Upper Level subjects require no knowledge of the Russian language and can be taken by students from other schools interested in learning about Russian and Soviet literature, society and history. Apart from its own major sequences, the Department of Russian Studies, in cooperation with other units in the Arts Faculty, offers subjects which can be counted towards a major sequence in Soviet Studies. These major sequences are listed later in this handbook.
Major Sequences

1. For students entering the Department with no prior knowledge of Russian (non-native speakers). Major sequence of 44 credit points obtained in the following subjects, usually taken over three years:

<table>
<thead>
<tr>
<th>Year</th>
<th>Credit Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>RUSS1000</td>
</tr>
<tr>
<td>Year 2</td>
<td>RUSS2000, RUSS2020, RUSS2100</td>
</tr>
<tr>
<td>Year 3</td>
<td>RUSS3000, RUSS3020, RUSS2101</td>
</tr>
<tr>
<td>Total</td>
<td></td>
</tr>
</tbody>
</table>

2. For native speakers or equivalent. Major sequence of 36 credit points obtained in the following subjects, usually taken over three years:

<table>
<thead>
<tr>
<th>Year</th>
<th>Credit Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>RUSS1100, RUSS1101</td>
</tr>
<tr>

<td>RUSS2101, RUSS3400, RUSS3401 (12 credit points)</td>
</tr>
<tr>
<td>and 3</td>
<td>plus a further 12 credit points*</td>
</tr>
<tr>
<td>Total</td>
<td></td>
</tr>
</tbody>
</table>

*The additional 12 credit points must be selected from the following subjects: RUSS3402, RUSS3403, RUSS2300, RUSS2301, ECOH2314, POLS2001, POLS3041.

Honours Entry

For non-native speakers the minimum prerequisite for entry to Year 4 Honours programs is 50 credit points in an approved sequence, at an average of Credit level or above, for Single Honours in Russian; 47 credit points in an approved sequence, at an average of Credit level or above, for entry to Combined Honours (in Russian and another discipline).

Approved sequences are:

Single Honours
Major sequence 1 (see above) plus RUSS3400 (3 credit points) and 3 credit points obtained in one of the following subjects: RUSS3401, RUSS2300, RUSS2301.

Combined Honours
Major sequence 1 (see above) plus RUSS3400 or RUSS3401. For native speakers the minimum prerequisite for entry to Year 4 Honours is: 45 credit points in an approved sequence, at Credit level or above, for entry to Single Honours in Russian; 42 credit points in an approved sequence, at Credit level or above, for entry to Combined Honours.

Approved sequences are:

Single Honours
Major sequence 2 (see above) plus a further 9 credit points from the subjects listed under Major sequence 2.

Combined Honours
Major sequence 2 (see above) plus a further 6 credit points from the list of subjects under Major sequence 2.

Level I

RUSS1000 Russian for Beginners F 6CCH C12
Prerequisites: Nil. Excluded: Native speakers or those qualified to enter RUSS1100.

Intended for complete beginners, this subject provides a basic introductory knowledge of spoken and written Russian.

Assessment: Weekly assignments, tests, examination. (Old No. 59.1000)

RUSS1100 Russian Language F 3CCH C6
(Native Speakers)
Prerequisite: Knowledge of Russian at a level deemed acceptable by the Head of Department. Excluded: 59.1100.

A first-year language course of 3 hours per week for advanced speakers of Russian (native speakers may be offered an alternative program of 2 hours per week). Practical language work (grammar, translation, conversation).

Assessment: Weekly assignments, test, examination. (Old No. 59.1100)

RUSS1101 Russian Literature S1 3CCH C6
(Native Speakers)
Prerequisite: As for RUSS1100. Excluded: 59.1120.

Introduction to 19th-century Russian literature and society as listed under RUSS2100 plus extra work on Russian texts.

Assessment: 2-3 assignments, essay. (Old No. 59.1120)

Upper Level

RUSS2000 Intermediate Russian F 4CCH C8

A continuation of Level I Russian language for beginners: consolidation and extension of written and oral proficiency in Russian.

Assessment: Weekly assignments, tests, examination. (Old No. 59.2000)

RUSS2020 Russian Texts A S2 1CCH C2

Literary analysis and translation of selected Russian short stories by Chekhov, Pushkin, Tolstoy.

Assessment: Weekly assignments and commentaries. (Old No. 59.2020)

RUSS3000 Advanced Russian F 4CCH C8

Advanced grammatical structures, translation into Russian, essay-writing and advanced oral work.

Assessment: Weekly assignments, grammar test, examination. (Old No. 59.3000)

RUSS3020 Russian Texts B S1 1CCH C2

Literary analysis of selected Russian prose and poetry.
RUSS2100 19th Century S1 3CCH C6 Russian Literature and Society
Prerequisite: Upper Level status. Excluded: 59.3603.
No knowledge of the Russian language is required for this survey of Russian literature and society in the 19th century. Representative works from 7 major writers (Pushkin, Gogol, Lermontov, Turgenev, Tolstoi, Dostoevsky, Chekhov) are studied both as literature and as a reflection of the society which produced them.
Assessment: 2 assignments, essay. (Old No. 59.3603)

RUSS2101 20th Century S2 3CCH C6 Russian Literature and Society
Prerequisite: Upper Level status. Excluded: 59.3604.
Assessment: 2 assignments, essay. (Old No. 59.3604)

RUSS2300 The Great Terror S1 1.5CCH C3
Prerequisite: Upper Level status. Excluded: 59.3602.
An analysis of Stalinism, the purges and show-trials of the 1930s. The growth of state organs of oppression, forced collectivisation, the Gulag system.
Assessment: 2 short essays or equivalent. (Old No. 59.3602)

RUSS2301 Russian Revolution 1.5CCH C3
Prerequisite: Upper Level status.
Not offered in 1991. (Old No. 59.3601)

RUSS3400 Russian Option A F 1CCH C3
Prerequisite: RUSS2000 or RUSS1101. Excluded: 59.3022.
One option from the list of Upper Level and Honours Options.
Assessment: 2 essays or equivalent. (Old No. 59.3022)

RUSS3401 Russian Option B F 1CCH C3
Prerequisite: As for RUSS3400. Excluded: 59.3023.
One option from the list of Upper Level and Honours Options.
Assessment: 2 essays or equivalent. (Old No. 59.3023)

RUSS3402 Russian Option C F 1CCH C3
Prerequisite: As for RUSS3400. Excluded: 59.3024.
One option from the list of Upper Level and Honours Options.
Assessment: 2 essays or equivalent. (Old No. 59.3024)

RUSS3403 Russian Option D F 1CCH C3
Prerequisite: As for RUSS3400.
One option from the list of Upper Level and Honours Options.
Assessment: 2 essays or equivalent.

RUSS4000 Russian Honours (Research) F 5CCH
Prerequisites: At least 50 credit points (45 credit points for native speakers) in an approved sequence of subjects at Credit level or above, or with permission of the Head of Department.
Advanced Language (2 hours), plus three options (see below) and a 10,000 word sub-thesis on a topic to be approved by the Head of Department. (Old No. 59.4000)

RUSS4050 Russian Honours (Research) P/T
As for RUSS4000.

RUSS4001 Russian Honours (Coursework) F 7CCH
Prerequisite: As for RUSS4000.
Advanced Language (2 hours), plus 5 options. (Old No. 59.4001)

RUSS4051 Russian Honours (Coursework) P/T
As for RUSS4000.

RUSS4500 Combined Russian Honours (Research) F 4CCH
Prerequisites: At least 47 credit points (42 for native speakers) in an approved sequence of subjects at Credit level or above, or with permission of the Head of Department.
Advanced Language (2 hours), plus 2 options (see below) and a 10,000 word sub-thesis on a topic to be approved by the Heads of the participating Schools/Departments. (Old No. 59.4050)

RUSS4550 Combined Russian Honours (Research) P/T
As for RUSS4500.

RUSS4501 Combined Russian Honours (Coursework) F 5CCH
Prerequisite: As for RUSS4500.
Advanced Language (2 hours), plus 3 options (see below). (Old No. 59.4051)

RUSS4551 Combined Russian Honours (Coursework) P/T
As for RUSS4500.

Options for Upper Level and Honours Subjects
1. Modern Russian poetry.
2. Tolstoi.
3. Pushkin.
4. Solzhenitsyn.
5. Russian film.

Honours Level
Students should consult the Department for assessment details for Honours Level subjects.
6. 18th Century literature.
7. Old Russian Language.
8. The Ethnic and National Structure of the USSR.
9. Contemporary Russian Drama.
10. Dostoevsky and Gogol.

Assessment: 2 essays or equivalent per option.
Note: The Department reserves the right to limit or increase the number of options available.

Science, Technology and Society

Subjects in Science, Technology and Society (SCTS) examine the social, economic and political dimensions of scientific and technological change, especially in the twentieth century. These subjects, together with those in the History and Philosophy of Science and Technology (HPST), are offered by the School of Science and Technology Studies in the Faculty of Arts. They employ the methods of the social science and humanities disciplines to understand the social and cultural role of science and technology. No previous study of mathematics or contemporary science is required.

SCTS subjects make an ideal complement to subjects in sociology, political science and public policy taught elsewhere in the Faculty. They may also be taken, either alone or in combination with HPST subjects, to complete a major sequence in the School of Science and Technology Studies (see below). SCTS subjects with numbers in the 1000 range are Level 1 subjects. Those in the 2000 and 3000 range are Upper Level subjects and may be taken in any order provided that individual subject prerequisites are met.

Major Sequence

A major sequence in the School of Science and Technology Studies consists of at least 36 credit points in SCTS and/or HPST subjects, of which no more than 12 credit points may be from Level 1 subjects. A major sequence may therefore consist of 12 Level 1 plus 24 Upper Level credit points, or of 6 Level 1 plus 30 Upper Level credit points, or of 36 Upper Level credit points. By permission of the Head of School, up to 6 credit points obtained in certain Upper Level subjects in other Schools may be counted towards a major sequence in the School of Science and Technology Studies.

Honours Entry

The prerequisite for entry to Honours in Science, Technology and Society is the completion (with an average grade of Credit or better) of at least 8 subjects offered by the School of Science and Technology Studies (SCTS and/or HPST) carrying at least 48 credit points, including not more than two Level 1 subjects offered by the School; or by permission of the Head of School.

The prerequisite for entry to Combined Honours in Science, Technology and Society and another discipline is the completion (with an average grade of Credit or better) of at least 6 subjects offered by the School of Science and Technology Studies (SCTS and/or HPST) carrying at least 36 credit points, including not more than two Level 1 subjects offered by the School; or by permission of the Head of School.

Level I

The following are Level 1 subjects, with a credit point value as nominated.

SCTS1001 Science, Technology and Social Change

Prerequisite: Nil. Excluded: 62.110, 62.1011.

Relations between science, technology and society as they have evolved in the 20th century. Theories on the nature of technological design andchange. An examination of controversies in areas including: pollution and environmental protection; nuclear energy and alternative energy sources; information/communications technologies; genetic engineering. The control of technology. Technology assessment and the nature of public involvement in decisions about scientific and technological developments.

Assessment: Essay; tutorials; class tests.

Upper Level

The following are Upper Level subjects with a credit point value as nominated.

SCTS2001 Scientific Knowledge and Political Power

Prerequisite: Completion of Arts subjects carrying at least 24 credit points. Excluded: 62.052, 62.252, 62.203U.

An introduction to the political dimensions of 20th century science. Topics include: growth of expenditure on science in the 20th century; attempts to define the social function of science in the inter-war years; the radical scientists' movement of the 1930s - the freedom versus planning debate; science and politics in the Second World War; government patronage and political expectations in the post-war period; science and economic growth; the science-technology relationship; the rejection of laissez-faire in the 1960s; approaches to science policy; critiques of the role of science in contemporary society; scientists as experts; the question of social responsibility in science.

Assessment: Essays, tutorials.
SCTS2002 The Sociology of Science and Technology
An examination of the communal nature of scientific and technological activities which will include: an historical survey of the development of scientific and engineering sub-cultures and professions; theories on the internal workings of scientific communities - scientific communication, norms, the reward system, fraud; disciplines and specialties in science and engineering; a critical examination of the notion of 'communities' and their relationship with the wider social order; the 'constructivist' reunification of social systems and knowledge systems and consequences for the sociology of expertise.
Assessment: Essays; tutorials.

SCTS2003 Information Technology, Politics and Policies
Prerequisite: SCTS1001 or 62.1011 or completion of Arts subjects carrying at least 24 credit points. Excluded: 62.221U.
Not offered in 1991.
Key topics for an 'info-tech' society including: social policies and the future of work and education; mass media and telecommunications in the electronic age; commercialisation and shifting patterns of trade in the world economy; deregulation and the role of 'info-tech' in global restructuring.
Assessment: Essay and tutorial participation.

SCTS2004 The New Biotechnologies and their Social Context
Prerequisite: SCTS1001 or 62.1011. Excluded: 62.245, 62.212U.
Not offered in 1991.
The social implications of the new biotechnologies, including recombinant DNA techniques, genetic manipulation of animals, and test tube babies. The present achievements and likely future developments of the new genetic and reproductive technologies, together with detailed discussions of the social, ethical and political implications of these developments. Topics include: the debate on the safety of genetic engineering; in vitro fertilisation and related reproductive technologies; the ethics of human genetic engineering; university-industry interactions in biotechnology; the release into the environment of engineered organisms; mechanisms for public participation in the control of biotechnology.
Assessment: Essay; tutorials; class test.

SCTS3001 Science, Technology and Developing Countries
The disparities between the scientific and technical capabilities of industrialised and developing societies. The reasons for these disparities and their economic and social consequences. Aspects include: the problems of dependency; the product cycle and its impact on location of production; concepts of the 'learning curve'; aspects of technology choice; bargaining processes; transnational corporations and the 'truncation' of the industrial sector; efforts to define 'appropriate' technologies; modes of technology transfer; alternate models and policies for scientific and technological development; the role of traditional technology; the impact of modern technology on international relations. Issues: the consequences of modern science and technology for the role of the military in developing countries; food and population problems; energy use; environmental impacts; class structure, etc. The social role and function of scientific communities in less developed countries and the process of diffusion of science from the centre to the periphery and the evolution of national scientific communities and institutions are addressed through the use of case studies.
Assessment: Essay; tutorials.

SCTS3003 Technological Development in 20th Century Australia
Prerequisite: SCTS1001 or 62.1011. Excluded: 62.246, 62.213U.
Not offered in 1991.
The historical development of technology in Australia during the 20th century, with an analytic focus on three key dimensions: linkages between scientific research, industrial development and economic growth; technological change and its impact on Australian society; the distinctive features of Australia's geopolitical situation. Topics include: the origin, expansion and transformation of the CSIRO, the maturation and professionalisation of the Australian research community; the politicisation of science and the post-war legacy; the failure of Australian research to serve an industrialised economy; science policy and technological change in the 1970s and 1980s; comparison with the Canadian situation and the experience of newly industrialising countries.
Assessment: Project; tutorial work.

SCTS3004 Technology, Environment and Risk
Prerequisite: As for SCTS2003. Excluded: 62.220U.
The growth of concern in advanced industrial societies over the risks associated with the development of resource-based and other technological and environmental degradation. The relationships between perceived risk and social trust and institutional arrangements. The basis of much of the present concern in anxieties over social control and in changing perceptions of the relationships between ethics and politics. Case studies examine nuclear energy, hazardous wastes and information technology.
Assessment: Essays and tutorial participation.

SCTS3011 The Politics of Energy
Prerequisite: As for SCTS2003. Excluded: 62.222U.
The fundamentals of energy, force, work and power; the social construction of energy use; resources and reserves; the 'energy crisis'; the nuclear energy process; solar and alternative sources; political economy of energy use - coal, oil, nuclear; institutional power; market arrangements and the role of the State; energy in the 1980s and 1990s. Case studies include N.S.W. and Victorian power inquiries; coal vs oil vs gas; the nuclear industry today; the future of solar power.
Assessment: Essay, tutorial participation and class tests.
SCATS3012 Technology, Globalisation S2 L2T1 C6 and the Role of the State

Prerequisite: Arts or other approved subjects carrying at least 72 credit points, including at least 12 credit points in SCATS subjects. Excluded: 62.3003, 62.303U.

Not offered 1991.

An analysis of the interaction between technology, economic growth and the internationalisation of industry; the growing pressure on the state to adopt an increasingly interventionist role.

Honours Level

Students who are considering the possibility of studying for an Honours degree in Science, Technology and Society should, if possible, consult the School of Science and Technology Studies by the end of their 3rd session of study for further information and guidance, and a program of study will be worked out for each student according to his or her needs and interests. It is, however, possible to move into the Honours stream at a later stage, and students wishing to do this should contact the School.

SCATS4000 SCATS Honours (Research) F/T

SCATS4050 SCATS Honours (Research) P/T

Prerequisite: Completion (with an average grade of Credit or better) of at least 8 subjects offered by the School of Science and Technology Studies (SCATS and/or HPST) carrying at least 48 credit points, including not more than two Level 1 subjects offered by the School; or by permission of the Head of School.

In the Honours (Research) program, candidates are required to present a thesis and to complete coursework as approved by the Head of School.

SCATS4001 SCATS Honours (Coursework) F/T

SCATS4051 SCATS Honours (Coursework) P/T

Prerequisite: Completion (with an average grade of Credit or better) of at least 6 subjects offered by the School of Science and Technology Studies (SCATS and/or HPST) carrying at least 36 credit points, including not more than two Level 1 subjects offered by the School; or by permission of the Head of School.

In the Honours (Coursework) program, candidates are required to complete a program of coursework as approved by the Heads of the two participating Schools.

SCATS4501 Combined SCATS Honours (Coursework) F/T

SCATS4551 Combined SCATS Honours (Coursework) P/T

Prerequisite: Completion (with an average grade of Credit or better) of at least 6 subjects offered by the School of Science and Technology Studies (SCATS and/or HPST) carrying at least 36 credit points, including not more than two Level 1 subjects offered by the School; or by permission of the Head of School.

In the Combined Honours (Coursework) program, candidates are required to complete a program of coursework as approved by the Heads of the two participating Schools.

Social Science and Policy

The Department of Social Science and Policy is an interdisciplinary unit which provides a site for training and research in the social sciences with an emphasis on policy analysis and policy making.

Policy analysis is concerned with "finding out what organisations (whether government, private or community) do, why they do it, and what difference it makes". Policy making involves solving problems "through a process of creativity, imagination and craftsmanship". The Department of Social Science and Policy seeks to link the various social sciences (ie. economics, political science, sociology, history, etc.) to the policy process. It encourages and cultivates creativity and imagination, and develops craftsmanship in areas such as written or oral communication, skills in quantitative and qualitative research methods, computing skills, etc.

Special emphasis is placed on combining theory and practice through the use of case studies, simulations, participation of external professionals in the teaching program and, for the best students, internships in policy units of public or private organisations. The ethical problems associated with decision-making are carefully considered at all levels of study. The environment created in the Department is one of intense student involvement which challenges a wide range of abilities and produces graduates with disciplined and critical minds.

The Department is responsible for the Bachelor of Social Science Degree. The BSocSc provides an undergraduate interdisciplinary Core Program in the theory, methods and practical skills common to all social sciences, and has a policy-making focus. In addition to the Core Program, students complete a major concentration in a social science discipline or related area. The BSocSc is available as a three year Pass degree. Exceptional students may undertake an Honours Year.

Students studying in the BA program may count the Core Curriculum as a Major concentration. In addition, the Department offers a Major concentration in Research Methods, Statistics and Computing for students who wish to combine study in a discipline with a research-skills based second major.
The Department also offers a graduate diploma in Policy Studies (Grad.Dip.), and two higher degrees: the Master of Policy Studies (MPS) and the PhD.

Many graduates will proceed to careers in Commonwealth, state or local government. Others will contribute to the policy-making process in unions or community organisations. Career opportunities exist in private corporations, consulting groups or international organisations. Some graduates will work directly in the service of electoral politics. Those interested in proceeding to the PhD may go on to academic employment.

**Major Sequence in Social Science**

The Major Sequence in Social Science is designed to provide students in the BA degree program the opportunity to study the core curriculum of the Bachelor of Social Science Degree.

All students must complete:
- SLSP1000 Introduction to Social Science and Policy
- SLSP1001 Introduction to Computer Applications and Quantitative Methods
- SLSP2001 Research Methods and Statistical Applications
- SLSP2002 Social Science and Policy Case Studies
- SLSP3000 Advanced Research Methods
- SLSP3001 Advanced Statistics and Computing
- SLSP3002 Social Science and Policy Project

**Major Sequence in Research Methods, Statistics and Computing**

The Research Methods, Statistics and Computing program is designed to complement a School-based major sequence where students wish to acquire a broad familiarity with a variety of research techniques, and a substantial level of competence in quantitative methods and computer applications.

The requirement for a Major in Research Methods, Statistics and Computing is completion of a program of at least 40 credit points. This major is only available as a second major. Students must also complete a major sequence in another area of study.

All students must complete:
- SLSP1001 Introduction to Social Science and Policy
- SLSP1001 Introduction to Computer Applications and Quantitative Methods
- SLSP2001 Research Methods and Statistical Applications
- SLSP3000 Advanced Research Methods
- SLSP3001 Advanced Statistics and Computing
- SLSP2301 Information Systems and Policy Analysis

At least one subject in a discipline-related area:
- POLS3005 Advanced Quantitative Methods 4 credit points in Political Science
- or
- SOCI3407 Evaluation Theory and Methods 6 credit points

**Honours Level**

Note: Students who are considering the possibility of studying for an Honours degree should consult with the relevant academic advisers.

The BSocSc Honours Degree may be taken in three ways. All programs require completion of 4th year seminars and a substantial research project:

1. **Social Science and Policy Honours, with a Major in an approved area.**

   **Prerequisites:** Completion of the minimum requirements for a BSocSc Pass Degree including the 48 credit BSocSc Core program and a Major concentration in an approved area, both with a good Credit average.

2. **Combined Social Science and Policy Honours (Research)**

   **Prerequisites:** Completion of the minimum requirements for a BSocSc Pass Degree including the 48 credit BSocSc Core program and the prerequisites for Combined Honours in the school/department in which the student has taken an approved Major concentration, both at a level of performance determined by the relevant subject authorities.

   For details concerning requirements, see Undergraduate Study: 3420 Bachelor of Social Science Degree Course, and the appropriate entries of schools/departments offering Combined Honours.

3. **BSocSc - Honours in Psychology**

   The prerequisite for entry to either the thesis (SLSP4008) or the group research project (SLSP4009) Bachelor of Social Science - Honours in Psychology program is completion of 60 credit points in Psychology and 36 credit points in Social Science and Policy, with an average of at least 68% and at the discretion of the Head of the School of Psychology and the Head of the Department of Social Sciences and Policy:

   1. The BSocSc and Psychology core programs in Years 1, 2 and 3.

   **Year 1**

   **Psychology**

   Psychology 1 PSYC1002 (12 credit points)
   BSocSc Introduction to Social Science and Policy SLSP1000 (6 credit points)
   Introduction to Computer Applications & Quantitative Methods SLSP1001 (6 credit points)

   **Year 2**

   **Psychology**

   Research Methods 2 PSYC2001 (4 credit points)
   Psychological Assessment PSYC2011 (4 credit points)
   Attention, Memory and Thought PSYC2021 (4 credit points)
   Personality and Social PSYC2031 (4 credit points)
   Psychology PSYC3000 (6 credit points)
   BSocSc Social and Economic Theory and Policy SLSP2000 (6 credit points)
   Research Methods and Statistical Applications SLSP2001 (6 credit points)
   Social Science and Policy Case Studies SLSP20002 (6 credit points)

   **Year 3**

   **Psychology**

   8 Psychology Upper Level III subjects totalling 32 credit points, including:
   - Research Methods 3A PSYC3001 (4 credit points)
   - Perception PSYC3021 (4 credit points)
   - Behavioural Neuroscience PSYC3031 (4 credit points),
for entry to SLSP4009 Social Science and Policy - Honours Psychology (Group Project). Additionally, PSYC3011 Research Methods 3B, must be included in the 8 subjects for entry to SLSP4008 Social Science and Policy - Honours Psychology (Thesis).

BSoSc

Social Science and Policy Project SLSP3002 (6 credit points)
The Social Science Policy Project may be submitted by the end of January in the year after the third year.

Social Science and Policy Internship SLSP3003 (non credit)
The BSoSc Internship Program may be undertaken either in the summer vacation before the third year, or during that year’s mid-semester break.

2. Students who wish to enrol in:
BSoSc - Honours Psychology
must complete in their fourth year:

Social Science and Policy - Honours Psychology (Thesis)
SLSP4008
or
Social Science and Policy - Honours Psychology (Group Project) SLSP4009

These include:
Social Science and Policy:
(a) the Advanced Social Science and Policy Seminar,
(b) the BSoSc Internship Workshop,
(c) the BSoSc Thesis Workshop.

Psychology:
two psychology electives and a thesis, or four Psychology electives and a group project.

Year 1

SLSP1000 Introduction to Social Science and Policy
S1 4CCH C6
Excluded: 60.1000, SLSP1000.

Theoretical and methodological considerations fundamental to all social sciences. Social science disciplines are considered in terms of major research orientations and methods, using, wherever possible, examples from studies of the Australian institutional environment.

SLSP1001 Introduction to Computer Applications and Quantitative Methods
S2 4CCH C6
Prerequisite: (Course 3420 only): 60.1000 or SLSP1000. Excluded: 60.1001, 34.1001.

Students are introduced to micro-computer applications, with emphasis on providing usable skills and ‘hands on’ experience in essay and report writing with the aid of computers. (Old No. 34.1001)

SLSP2000 Social and Economic Theory and Policy
S1 3CCH C6
Prerequisite: 60.1000 or SLSP1000. Excluded: 60.2000, 60.2001, 34.2000.

Interdisciplinary overview of the relationship between social and economic theory and policy development. The subject considers how theory informs and legitimates policy choices, and how social, political and economic policies are dependent on historical, social and economic contexts. Consideration is given to the implementation and evaluation of policy in both the public and private sectors in Australia. (Old No. 34.2000)

SLSP2001 Research Methods and Statistical Applications
S1 3CCH C6
Prerequisite: 60.1001 or SLSP1001. Excluded: 60.2001, 34.2001.

Introduction to statistics and computing. A survey of descriptive statistics, including basic inferential statistical reasoning and elementary non-parametric techniques. Use of appropriate statistical data packages, and acquisition of advanced skills in the use of micro-computers. (Old No. 34.2001)

SLSP2002 Social Science and Policy Case Studies
S2 3CCH C6

Simulations, workshops and case-studies in research and policy analysis. Use is made of practising professionals from various private and public agencies. (Old No. 34.2002)

SLSP2101 Contemporary Social and Economic Theory
S2 3CCH C6
Prerequisite: SLSP2000, or permission of the Head of Department.

Not offered in every year.
This is an interdisciplinary subject which seeks to bring students in contact with some of the most significant current debates in social and economic theory, and to encourage critical reflection on the implications of these debates on contemporary policy-analysis.

SLSP2201 Social Research and Policy Analysis
3CCH C6
Prerequisite: SLSP2001, or permission of the Head of Department.

Not offered in every year.

An examination of ways in which organised knowledge influences decision-making. Various concepts of policy-making as well as the variety of roles, strategies and analytical approaches policy analysts assume in relation to decision-makers. The use and abuse of social science in the public, private and non-profit sectors. Students will be directly exposed to professional policy research through visits to research centres, and participation of policy analysts from outside the university in the classroom discussions.

SLSP2301 Information Systems and Policy Analysis
3CCH C6
Prerequisite: SLSP2001 or permission of the Head of Department.

Not offered in every year.
This subject is aimed at expanding the analytic skills of students through further hands-on experience with computer-aided policy analysis. The focus will be on the development and utilisation of information systems for decision support, policy development and program evaluation. Topics to be covered include: The role of
information systems in policy analysis; Practical problems of information collection and maintenance; Design and implementation of a database information system; Use of graphical and other presentation tools; Use of desktop publishing facilities. This subject should be of interest to all students who would like to gain practical skills in the design and use of information systems for policy-related work.

SLSP2401 Australian Economic Policy S2 3CCH C6
and the Asia-Pacific Rim
Prerequisite: SLSP2000 or permission of the Head of Department.
Not offered in every year.

Study centres on the impact of Asia-Pacific economic development on policy formation in Australia, especially in the areas of industrial policy, research and development, public-private sector interrelationships, institutional reform and migration. Following an introduction to Australian economic policy issues, the first section concerns Asia-Pacific development, with special emphasis on Japanese economic and industrial development, technology policy and transfer mechanisms, external economic relations; the development of the Asian NICs (newly industrialising countries) and economic change in modern China, with particular focus on industry, technology and public-private sector relations; the Pacific versus the Atlantic. The second section of the subject focuses on how such developments together represent a fundamental alteration in the external context within which Australian economic and industrial policy is debated and formalised: Australia and Britain; Australia and the USA; Australian-Japanese economic relationships and policy implications; Australian industrial policy in the Asia-Pacific Context; Asia-Pacific and the Australian immigration debate. The subject closes with a two-week Special Study Topic - for 1991 and 1992. This will be The Multifunctional Polis.

SLSP2501 The Public Sector in the Modern Economy
Prerequisite: SLSP2000 or permission of the Head of Department.
Not offered in every year.

This subject deals with the roles of governments in the management of the macro economic environment, including balance of payments; balance of trade; interest rates; infrastructure development; development and transfer of technology; bi-lateral and multilateral economic agreements; etc.. Consideration of welfare economics; the social wage; redistributive implications of macro-economic policies.

SLSP2601 Social Policy 3CCH C6
Prerequisite: SLSP1000 or permission of the Head of Department.
Not offered in every year.

This subject is an interdisciplinary examination of the theoretical and practical issues associated with the formulation and implementation of social policy.

SLSP2701 Development Policy S2 3CCH C6
Prerequisite: SLSP1000 or permission of the Head of Department.
Not offered in every year.

Examines the special problems, and promises, of policy-making for developing countries. Emphasis is placed on establishing the similarities and differences of the policy context for different LDCs. The management of cash poor economies; questions of priorities; "appropriate" development strategies; roles of local elites and metropolitan influence; etc.

SLSP3000 Advanced Research Methods

Qualitative and quantitative research strategies such as surveys, case studies, content-analysis and sampling techniques. Quality-control of research is emphasised; reliability and validity are located in the practices of defining variables, specifying indicators and operationalising measurement and observation procedures. (Old No. 34.3000)

SLSP3001 Advanced Statistics and Computing

A continuation and development of the Year 2 Research Laboratory. Students are encouraged to utilise research and technical skills acquired during their earlier course to solve problems and write reports. (Old No. 34.3001)

SLSP3002 Social Science and Policy Project
Prerequisites: SLSP3000, SLSP3001. Excluded: 60.3002, 34.3002.

Analysis of a case study (or studies) where students can experience in greater depth a variety of research and problem-solving exercises. (Old No. 34.3002)

SLSP4000 Social Science and Policy - Honours (Research) F/T
Prerequisites: The 48 credit BSocSc Core Program, and a Major concentration in an approved area, both with a good credit average.

A research project must be approved and commenced no later than Session I of the final year of study. Participation in prescribed seminars of at least four hours' duration per week is also required of each student in the fourth (final) year of study.

SLSP4050 Social Science and Policy - Honours (Research) P/T
Prerequisites: The 48 credit BSocSc Core Program, and a Major concentration in an approved area, both with a good credit average.

Requirements are the same as for SLSP4000.

SLSP4500 Combined Social Science and Policy - Honours (Research) F/T
Prerequisites: The 48 credit BSocSc Core Program with a good credit average. Students must also satisfy the prerequisites for Combined Honours in the other school/department concerned.
This program is undertaken in combination with Social Science and Policy and a school or department offering an approved major concentration in the BSocSc Degree, in which the other school/department also offers a Combined Honours (Research). Students are required to complete a research and seminar program acceptable to both Social Science and Policy and the other school/department.

SLSP4550 Combined Social Science and Policy P/T - Honours
Prerequisites: The 48 credit BSocSc Core Program with a good credit average. Students must also satisfy the prerequisites for Combined Honours in the other school/department concerned.
Requirements are the same as for SLSP4500.

SLSP4008 Social Science and Policy - Honours F/T Psychology (Thesis)
Prerequisites: A 36 credit BSocSc Core Program, the required 60 credit point Psychology program, both with an average of 68%.
For requirements, see BSocSc - Honours Psychology rules above.

SLSP4009 Social Science and Policy - Honours F/T Psychology (Project)
Prerequisites: A 36 credit BSocSc Core Program, the required 60 credit point Psychology program, both with an average of 68%.
For requirements, see BSocSc - Honours Psychology rules above.

Sociology

The major aim of sociology as taught by the School, is to impart a critical understanding of society. In particular, this involves three teaching objectives:

1. Developing a critical sense towards social reality and human behaviour. 2. Developing skills for the collection and interpretation of social data. 3. Developing a "sociological imagination", ie sensitivity to the relations between social phenomena and human action.

Major Sequence
Basic Major: 12 Level 1 credit points and at least 24 Upper Level credit points, including at least two of SOCI2401, SOCI2501, SOCI2601, SOCI2701 or SOCI2811 or equivalent.

Honours Entry
To qualify for entry to SOCI4000 students must have completed 12 Level I credit points in Sociology and three of SOCI2401, SOCI2501, SOCI2601, SOCI2701, SOCI2811 or equivalent and a further 24 Upper Level credit points in Sociology, 6 of which should be in courses nominated by the School, as advanced level or equivalent. Admission to the Honours program depends on satisfactory progress as determined by the School.

Combined Honours Entry
At least 48 credit points in a sequence approved by the Head of School, including 12 Level I credit points at an average grade of Credit or better.

Level I

SOCI130 Society and the Individual F 3CCH C12
Excluded: SOCI1230, SOCI1330.
Approaches the study of society from the standpoint of its members and their experience of social life. Critical examination of this experience and some of its determinants introduces some key concepts of Sociology. Explicit references are made to classical theoretical formulations of enduring significance and, at the same time, the dynamic and changing nature of social interaction is emphasised through the consideration of representative sociological material from the last three decades.

Assessment: On the basis of performance in essays, written assignments, and tutorial classes. (Old No. 53.005)

SOCI1230 Introduction to Australian Society F 3CCH C12
Excluded: SOCI1130, SOCI1330.
Develops a critical understanding of Australian society and introduces students to sociological concepts, theories and methodologies. Key focus is on inequalities (class, gender, ethnicity, race) as they are reflected in areas of social life such as work, family, community, welfare, media and social control. (Old No. 53.003)

SOCI1330 Introduction to the Study of Culture and Society F 3CCH C12
Excluded: SOCI1230, SOCI1330.
Social anthropology and comparative sociology form the basis of this introductory subject, drawing upon materials ranging from small scale subsistence to advanced industrial societies, including Australia. We take 'Australian society' to include Aboriginal along with the migrant populations that have arrived over the last two centuries. The lecture and reading materials feature also ethnographic areas such as the South Pacific and Southeast Asia. We divide each session into two main sections. Session 1 begins with an introduction to the history and methods of social anthropology, especially in the context of the development of social science in Australia, before taking up the central topic of "Socialisation and Identity". Films supplement the lecture programme. (Old No. 53.002)

Upper Level
Students taking a major in Sociology must enrol in one of the following Core subjects as a prerequisite or co-requisite before enrolling in other Upper Level Sociology options.

Core Subjects

SOCI2401 Sociological Research Methods S1 or S2 3CCH C6
Prerequisite: Level I Sociology. Excluded: 53.241.
A critical introduction to the basic principles underlying the art and craft of professional social investigation with primary
emphasis on technical and practical considerations of social research. (Old No. 53.241)

SOCI2501 Classical Sociological Theory
S1 3CCH C6
Prerequisite: Level I Sociology. Excluded: 53.242.
The development and diversity of the sociological tradition. A critical analysis of the basic assumptions of various theories. The impact and influence of the main ideas of the major nineteenth century theories upon modern and contemporary theoretical debates. (Old No. 53.242)

SOCI2601 Advanced Industrial Societies
S1 3CCH C6
Prerequisite: Level I Sociology. Excluded: 53.243.
Study of industrial societies: development of industrial society, division of labour, labour and industrial organisation, sexual divisions in society, class relationships, ideology, the growth of the state, the international division of labour, theories of post-industrial society, corporatism, and work and technical change. (Old No. 53.243)

SOCI2701 Theories of Culture
S1 3CCH C6
Prerequisite: Level I Sociology. Excluded: 53.244.
A critical introduction to the concept of "culture" and to a variety of approaches - including the sociological, anthropological, structuralist, and poststructuralist - that have been adopted within sociology to the study of cultural phenomena and process. (Old No. 53.244)

SOCI2811 Theories of Mass Media
S2 3CCH C6
Prerequisite: Level I Sociology plus SOCI2601 or SOCI2701. Excluded: 53.246.
This subject provides a theoretical basis for sociological analysis of the media. A range of approaches will be introduced which relate to variants of the longstanding issue of media "influence". These will include empirical content analysis, ideology critique, semiotic and "postmodernist" perspectives. (Old No. 53.246).

Special Topics in Sociology and Anthropology

Note: Certain options offered by other schools in the Faculty of Arts can be taken by students enrolled in any of the following options, and can be credited towards degree requirements, with the approval of the Head of the School of Sociology.

Assessment for all options: Essays, written assignments and seminar classes. In some cases research work or special projects may be required.

For final details of options to be offered, students should consult the school at the beginning of the year.

SOCI3301 Special Topic in Sociology and Anthropology A
S1 3CCH C6
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.303R.
Topics available in 1991 will vary according to staff availability. For further details consult the School. (Old No. 53.303R)

SOCI3302 Special Topic in Sociology and Anthropology B
S1 3CCH C6
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.303S.
As for SOCI3301 Special Topic in Sociology and Anthropology A. (Old No. 53.303S)

SOCI3303 Special Topic in Sociology and Anthropology C
S2 3CCH C6
Prerequisite/Co-requisite: SOCI3404. Excluded: 53.304R.
As for SOCI3301 Special Topic in Sociology and Anthropology A. (Old No. 53.304R)

SOCI3304 Special Topic in Sociology and Anthropology D
S2 3CCH C6
Prerequisite/Co-requisite: SOCI3404. Excluded: 53.304S.
As for SOCI3301 Special Topic in Sociology and Anthropology A. (Old No. 53.304S)

SOCI3401 Computer Analysis of Social Data (SPSSX)
S1 3CCH C6
Frances Lovejoy
Prerequisite: 12 credit points in Sociology 1. Excluded: 53.303Q.
Useful to persons wishing to engage in quantitative social research, based on a widely available and internationally known collection of programs for analysing social data - SPSS. Includes training in the use of this package and in the interpretation of some common inferential statistics. (Old No. 53.303Q)

SOCI3402 Studying "Migrant" Experiences
S2 3CCH C6
Alex Kondos
Prerequisite: SOCI2401. Excluded: 53.323D.
Not offered in 1991.
An introduction to the major theoretical and research models used in sociological studies of migrant experiences in industrial societies with particular emphasis on equipping students with a set of research skills pertaining to the unstructured interview and content analysis. (Old No. 53.323D)

SOCI3403 Researching Organisations
S2 3CCH C6
Michael Cass
Prerequisite: SOCI2401. Excluded: 53.323H.
The broad area of investigation is work and its structuring within complex organisations, while the specific issue which provides the focus for the development of research skills is inequalities in employment within Australian public and private sector organisations. (Old No. 53.323H)

SOCI3404 Researching Work
S3 CCH C6
Ann Daniel
Prerequisite/Co-requisite: 12 credit points in Sociology plus one Core subject. Excluded: 53.313D.
Not offered in 1991. (Old No. 53.313D)
SOCI3405 Deviant Fieldwork - Data Collection and Analysis 3CCH C6
Prerequisite: 12 credit points in Sociology. Excluded: 53.303U.
Not offered in 1991. (Old No. 53.303U)

SOCI3406 Researching Racism S1 3CCH C6
Alex Kondos
Prerequisite: SOCI2401. Excluded: 53.323F.
A critical examination of the major theories and research models used in sociological studies of the phenomena of racism in contemporary industrial societies with particular emphasis on the application of 'qualitative' research methods in the Australian context. (Old No. 53.323F)

SOCI3407 Evaluation Theory and Methods S1 3CCH C6
Frances Lovejoy
Prerequisite: As for SOCI3404.
Since World War II, the accountability movement has led to increasing pressure on non-profit organisations such as the government instrumentalities to explicate their goals and evaluate to what extend these have been reached. The subject sets the formalization of EVALUATION procedures in social context and reviews major theoretical developments and practical applications. Both internal and external evaluations and qualitative and quantitative approaches may be covered.

SOCI3502 Modern Sociological Theory S2 3CCH C6
Maria Markus
Prerequisite: SOCI2501. Excluded: 53.323J.
On the basis of classical sociological theory this subject proceeds to an in-depth elaboration of some of the most significant theoretical trends (eg, phenomenology, structuralism, psychoanalysis, critical theory) and their place in the study of society. (Old No. 53.323J)

SOCI3503 Feminist Theory 3CCH C6
Ann Game
Prerequisite: SOCI2701 or SOCI2501 or EURO2200. Excluded: 53.304W.
Not offered in 1991. (Old No. 53.304W)

SOCI3504 Studies in Sociology: Social Power S1 3CCH C6
Seminars are expected to include: Critical Theory; Australian Social Thought; Culture and Experience; Theories and issues of the Welfare State; Intellectuals and Power; Violence and Terrorism in Contemporary Society.
Students should check with the School about final details at the beginning of the year.
Assessment: Essays, written assignments, and seminar classes. In some cases, research work of various kinds may be required. (Old No. 53.514)

SOCI3505 State Bureaucracy and Higher Administration S1 3CCH C6
Michael Pusey
Prerequisite: As for SOCI3404. Excluded: 53.543.

The aim is to achieve a sociologically informed understanding of contemporary problems facing Australia today by joining appropriately grounded concepts of state and society with empirical material in a way that will provide a secure framework for a broad range of topics. These include the culture and structure of Canberra's Senior Executive Service; the changing role of the state in Australian society; and the social construction and impact of the Hawke government's policies in the fields of welfare, industry development, industrial relations, and fiscal and macroeconomic policy. (Old No. 53.543)

SOCI3601 Sociology of Law S2 3CCH C6
Ann Daniel
Prerequisite/Co-requisite: As for SOCI3404.
Not offered in 1991.
Law as a social institution. Topics may include: rule formation and enforcement in various societies, the interaction between law and social or technological change, social inequality and social justice. (Old No. 53.303D)

SOCI3602 Investigating the Modern Family S1 or S2 3CCH C6
Michael Bittman
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.303F.
Not only concerned with some of the most important contemporary debates about the family but also an opportunity for first hand experience of research procedures for investigating the modern family. Issues: what is the distinctive form of the modern family? In what ways has it changed and is it still changing? What is the relation between family forms and the subordination of women? and what are the social-psychological outcomes of the patterns of relations and communications which characterise the contemporary family? Methods and evidence on which the theories are based are also examined and opportunity for fieldwork is provided. (Old No. 53.303F)

SOCI3603 Gender and Work S2 3CCH C6
Judy Wajcman
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.303P.
Key theoretical and research issues that have been raised in recent feminist writings through an analysis of paid and unpaid work. Areas covered include: the gender dynamic in the workplace and forms of control of the labour process; the construction of gender identity through work; technological change and the sexual division of labour; industrial organisation and unorganised forms of resistance; the work/nonwork distinction; the future work. (Old No. 53.303P)

SOCI3604 Sociology of Medicine S2 3CCH C6
Mira Crouch
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.304B.
The relation between medicine and society. The function of medicine, its social and cultural connotations and its historical development. Emphasis on examination of the relations between the sick person and the state and between the health system...
and the state: differential access to health care in respect of class, age, race, sex and other criteria for mediating health services. Division of labour within medicine: the hierarchical government of the occupational territories and the strategies for domination, exclusion and limitation. (Old No. 53.304B)

SOC3605 Urban Sociology 3CCH C6
Alex Kondos
Prerequisite: As for SOCI3404. Excluded: 53.304H, 53.303A.
Not offered in 1991.
A consideration of the major 'modern' theoretical and research models currently applied to the study of the city with particular emphasis on Australian material. (Old No. 53.304H)

SOC3606 The Political Economy of Australian Society 3CCH C6
Andrew Metcalfe
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.304Y.
Not offered in 1991.
This subject is about those social relations of politics that are mediated through the social sphere normally designated as economic. It offers the opportunity to study the characteristics and modi operandi of some of the major players in Australian history and Australian politics. We will hunt the elusive ruling class and, dissect the AMA and find out why John Elliot took the red out of tomatoes. All this and more. (Old No. 53.304Y)

SOC3607 Social Movements and Society - Current Debates S1 3CCH C6
Jocelyn Pixley
Prerequisite: As for SOCI3404. Excluded: 53.313F.
Examines social movements in Australia - Environmental, Feminist, Peace, Land Rights and Labour Movements, as well as "Fundamentalists" and/or various reactionary movements. What is their significance and how can we understand their relation to the state and to social change? A selection of social movements (depending on students preferences), will be considered in the light of current theoretical approaches. How can we say whether some movements are progressive, and/or defensive, while others may be regressive and reactionary? The post-modern perspective emphasises the plurality of movements and a declining labour movement. Can we look for new fields of conflict or, according to other perspectives, just more of the same? (Old No. 53.313F)

SOC3608 Women and the Welfare State 3CCH C6
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.303W.
Not offered in 1991. (Old No. 53.303W)

SOC3609 Historical Sociology S2 3CCH C6
Richard Kennedy
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.313B.
An exploration of attempts to synthesise the sociological concepts of structure and theory, and the historical concepts of agency and narrative, in an historical sociology which analyses the process of structuring over historical time. Works by major sociologists, historians and historical sociologists are studied. (Old No. 53.313B)

SOC3610 Technology, Social Change and Working Life 3CCH C6
Prerequisite: As for SOCI3404. Excluded: 53.323L.
Not offered in 1991. (Old No. 53.323L)

SOC3611 Classes and Cultures S2 3CCH C6
Andrew Metcalfe
Prerequisite: As for SOCI3404. Excluded: 53.323K.
Examines how culture shapes and is shaped by class and class struggle, focusing particularly on Australia. It includes consideration of hegemony, class consciousness, political myth, mass and popular culture, political rituals of both incorporation and resistance, sub-cultures and counter-cultures. Looks at particular topics ranging from good manners and language usage to schooling and the ideology of law. (Old No. 53.323K)

SOC3701 Aborigines in Contemporary Australia S1 3CCH C6
John von Sturmer
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.303J.
The position of Aboriginal people in Australian society. Focusing on developments in the economic and political fields. Substantive issues include land rights, resource development, law reform, government policy, protest movements. Theoretical issues include: articulation of modes of production; internal colonialism; decolonisation; pluralism. (Old No. 53.303J)

SOC3702 Social Anthropology of the South Pacific S1 3CCH C6
Grant McCall
Prerequisite: 24 Level I credit points in Arts. Excluded: 53.303Y.
Analyses the traditional cultures of the island South Pacific, focusing mainly on Polynesia, but using data from Micronesia and Melanesia where appropriate. Provides students with the historical and intellectual context of the study of the South Pacific, including the conceptual and theoretical tools needed to comprehend the more than one thousand societies and cultures there. The broad outlines of the waves of human settlers in the region are explored, followed by discussions of specific topics, in selected locales, that best represent the rich diversity of the region. Topics include religion and sorcery, chieftainship, relations with the environment and how islanders see themselves in their worlds. (Old No. 53.303Y)

SOC3703 Aboriginal Society - Traditional Economies S2 3CCH C6
John von Sturmer
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.304E.
Aboriginal modes of production in different ecological settings. An assessment of the utility of comparison across

Prerequisite Co-requisite: As for SOCI3404. Excluded: 53.304U.
Not offered in 1991. (Old No. 53.304U)

SOCI3705 Culture/Psychoanalytic Theory 3CCH C6

Ann Game, John von Stumner.
Prerequisite/Co-requisite: SOCI2701. Excluded: 53.304X.
A close reading of classic Freudian texts against relevant anthropological, sociological, philosophical and feminist writings. (Old No. 53.304X)

SOCI3706 Social Anthropology of Pacific Development 3CCH C6

Grant McCall
Prerequisite: 24 credit points in Arts. Excluded: 53.323C.
Surveys the immense expanse of the Pacific Ocean and the contemporary peoples and cultures that live on its rim and in its basin, exploring their cultural and theoretical contributions to contemporary social science. Social anthropological materials on contemporary issues in development and change from the insular South Pacific are contrasted with comparable data from selected Pacific rim locales, such as South America, the Philippines and Japan to derive an understanding of the common problems and complex issues of the region, and Australia's role in those affairs. Topics covered include land tenure, environmental degradation, underdevelopment, cargo cults, cultural adaptation and commercial and military colonialism. (Old No. 53.323C)

SOCI3707 Islamic Society and Civilisation 3CCH C6

Clive Kessler
Prerequisite: As for SOCI3404. Excluded: 53.313E.
Not offered in 1991. (Old No. 53.313E)

SOCI3708 Society and Culture of Contemporary Southeast Asia 3CCH C6

Raul Pertierra
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.304D.
This subject is concerned with both mainland and insular Southeast Asia. It deals with specific communities as presented in ethnographies and with regional and historical perspectives associated with the colonial and post-colonial experiences, the rise of market economies and the modern state. (Old No. 53.304D)

SOCI3709 Social Anthropology 3CCH C6

Raul Pertierra
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.323.
This subject introduces the major theoretical and ethnographic issues in Social Anthropology. It begins with an assessment of the contributions of Boas, Durkheim, Malinowski and Radcliffe-Brown to the establishment of anthropology and then deals with the more recent theoretical debates, including the contributions of ethnography. (Old No. 53.323)

SOCI3710 Readings of Australian Society 3CCH C6

Ann Game
Prerequisite: SOCI2701. Excluded: 53.313C.
This subject is on the semiotics of Australian society and culture. A semiotic approach will be applied and a diversity of seminal texts, with an emphasis on the development of student's analytic skills. While there will be considerable scope for students to choose their own 'objects' of analysis, particular attention will be paid to photography and the specificity of this signifying system. (Old No. 53.313C)

SOCI3711 Religion and Society 3CCH C6

Clive Kessler
Prerequisite/Co-requisite: As for SOCI3404. Excluded: 53.303N.
Not offered in 1991. (Old No. 53.303N)

Soviet Studies

In addition to the sequences offered by the Department of Russian Studies, the Faculty of Arts offers two major sequences in Soviet Studies which combine subjects taught by the Department, with other subjects in the Soviet Studies area. These sequences are designed to introduce students to the politics and culture of the Soviet Union, to give them an understanding of the origins and development of the Soviet system, and to offer them the opportunity of learning the Russian language, which is essential for Honours and postgraduate research in the field. Major Sequence A, which requires no study of the language, must be taken together with a School-based major sequence; students who wish to specialise in the area are advised to combine it with a major sequence in Russian Studies. There is no Honours Level program in Soviet Studies as such, but students who have satisfied the necessary prerequisites may proceed to a Combined Honours Degree in Russian Studies and Political Science.

Major Sequence A (non-language-based)

Spanish and Latin American Studies

Subjects in Spanish and Latin American Studies are available in language, literature, film, history and linguistics. Major sequences may be followed in language and literature and/or history. In the case of language, entry to one of three streams depends on whether a student has no knowledge, some knowledge or advanced knowledge of the Spanish language. Intensive oral and written language work is an essential element for the elementary and intermediate streams and classes for these, as for the advanced stream, are conducted wherever possible in Spanish. A major in Spanish and Latin American history may be completed with no knowledge of Spanish but a reading knowledge of the language is a prerequisite for entry to the Honours year.

The Hispania Society

All students in the School of Spanish and Latin American Studies (SLAS) are automatically members of the Hispania Society and membership is free. The Society is organised and run by the students of SLAS. All years are represented on the executive committee, which is elected at the Annual General Meeting at the beginning of each academic year.

Room 218 of the Arts building is open as a Common Room to the students of the School and is used as the headquarters of the Society. Here students can practise Spanish conversation with native speakers or with other students. Notices about Hispania's activities are posted in the Common Room and on noticeboards around the Arts building.

Events last year included wine and cheese evenings, dinners at Spanish restaurants and visits to Spanish films.

SPAN2418 Amazonia S1 and S2 3CCH C6
P. Ross
Prerequisite: As for SPAN2401. Excluded: GENS4529 (Rainforest stream).
The geography of the region examined with the object of delineating its natural ecosystems which include its indigenous people and their cultures. The impact of the west from the early explorations, through the exploitation of natural resources to contemporary development programs. The effects of this development of indigenes and world ecology. (Old No. 65.2434)

SPAN2419 Australia, Argentina, New Zealand and South Africa: Studies in Historical Development in the Southern Hemisphere 3CCH C6
J. Levy
Prerequisite: As for SPAN2401.
This subject is concerned with economic and social development of countries in the southern hemisphere since the nineteenth century. It presents an analysis of European expansion into Australia, New Zealand, Chile, Argentina and South Africa and concentrates attention on the following topics: the indigenous response to the coming of the European patterns of land settlement, labour systems, race relations, political institutions, integration into the world economy, industrialization, the role of the state, social conflict, and the crisis of settler capitalism.

SPAN2427 Women and Change in Latin America  S1 3CCH C6
P. Ross
Prerequisite: As for SPAN2401.
Through the study of diverse experiences of women in indigenous, colonial and post-colonial societies, this subject examines the interaction of caste, class and gender in the formation of contemporary theory and practice of women's liberation in Latin America.

SPAN2428 Global Inequality: From Expansion to Domination: 1500-1800  S1 3CCH C6
J. Levy
Prerequisite: As for SPAN2401. Excluded: HIST2040.
An investigation into the history and causes of unequal distribution of wealth within and between Europe, Asia, Africa and America. The subject begins with the expansion of Europe
in the sixteenth century and traces the different responses to that expansion in Asia, America, Africa and Europe, up to the beginnings of the Industrial Revolution. The subject will stress interaction. It is not a matter of a dynamic West impacting on a static Asia and America; rather, the nature and degree of penetration achieved by the Europeans in these areas depended on both their own economies and societies, and on the responses to their presence in these areas.

SPAN2421 Special Topic in Latin American History 1
J. R. Levy, P. Ross
Prerequisite: As for SPAN2401.

In unusual circumstances a special topic in Latin American history may be chosen by the student, in close consultation with the lecturer, to pursue a particular area of interest. Weekly tutorials and written work. (Old No. 65.2461)

Theatre Studies

Theatre Studies courses offered within the Faculty of Arts are not primarily intended to equip a student for the profession of theatre.

The Department of Theatre Studies is therefore concerned with the history and evaluation of the theatre arts including film and television. Practical work is undertaken, not in order that students may achieve proficiency as actors or directors, but in order that they may acquire a fuller understanding of the theatre.

Major Sequence
This will consist of no less than 39 credit points and must include THST1000, THST2000, THST2001 and one of the Production Exercises (THST2010 to THST2012).

Students are advised that with the permission of the Department they may credit (one and only) one of the following subjects towards a major in Theatre Studies:
GERS2826 From Literature to Film; GERS2823 Theatre for Children and Young People; GERS2821 The Theatre of Bertolt Brecht; GERS2822 Contemporary German Drama and Theatre; MUSI2201 Social and Dramatic Theory in Wagner's Music Dramas; MUSI2202 Verdi and Opera in 19th Century Italy; SPAN3310 The Theatre of Garcia Lorca C.
Honours Entry
Qualifications for entry to Year 4 are determined by the Department. The minimum requirements, however, are that students must have obtained 60 credit points in the Department of Theatre Studies and have passed all subjects in the Department together with their components at Credit level or better. The following subjects should be included in the program: THST1000, THST2000, THST2001, one of the Production Exercises (THST2010 to THST2012), and, for Honours (Research), THST3090.

3400 Bachelor of Arts Degree Course

Rules Governing the Award of the Degree of Bachelor of Arts

General

1. The degree of Bachelor of Arts may be awarded as a Pass Degree, or as an Honours Degree in one or in two schools. Three classes of Honours are awarded: Class 1, Class 2 in two Divisions, and Class 3.

2. No student may enrol in any subject to be counted towards the degree of Bachelor of Arts at the same time as he/she is enrolled in any other degree or diploma course at this University or elsewhere, except in the case of recognised concurrent courses.

3. In the first year of study, students may not enrol in subjects offered by the Faculty of Commerce and Economics carrying a total of more than 24 credit points. In each of the first and second sessions of study, they must enrol in subjects carrying no fewer than 12 and no more than 24 credit points. In subsequent sessions, they may not enrol in subjects carrying more than 24 credit points.

4. A student enrolling in a subject must satisfy the prerequisite and co-requisite requirements in that subject.

5. In order to obtain credit points for a subject, a student must in that subject:
   (1) attend the prescribed lectures, seminars, tutorials and laboratory classes,
   (2) complete satisfactorily any assignments prescribed,
   (3) pass any prescribed examination.

6. A student may be permitted to enrol in subjects carrying an equivalent of up to 36 credit points at another university and to count these subjects as part of the degree program, except in the case of subjects offered at The University of New South Wales or taken by external study. A student wishing to take subjects at another university must submit in writing to the Faculty a statement of the subjects concerned and the remaining subjects he/she wishes to complete within the Faculty. Faculty shall then determine the subjects which the applicant may study at another university, the number of credit points (if any) to be granted, and the remainder of the applicant’s program within the Faculty which shall include an approved major sequence in subjects offered by the Faculty.

7. An applicant from another faculty or university seeking advanced standing in the BA degree course must submit in writing to the Faculty a statement of the subjects concerned and the remaining subjects he/she wishes to complete within the Faculty. Permission to enrol in Upper Level subjects for such applicants requires the agreement of the appropriate Head(s) of School(s) that equivalent prerequisites have been completed. Faculty shall then determine the number of credit points (if any) to be granted and the remainder of the applicant’s program within the Faculty. Advanced standing will not be granted for subjects completed more than 10 years before the date of admission of the applicant.

8. A student enrolled in the combined Arts/Law course who passes all subjects prescribed for the first three years of the course (including the correct sequence of Arts subjects) shall be eligible for the award of the Bachelor of Arts at Pass level. Any such student who wishes to proceed to the award of the Bachelor of Arts degree at Honours level must complete such additional work as may be prescribed by the Head(s) of School(s) concerned and approved by Faculty.

9. In special circumstances, Faculty may vary the requirements of any of these rules in a particular case.

*In these rules the term 'school' shall also be taken to mean 'department independent of a school.'
**Pass Degree**

10. To qualify for the award of the degree at Pass level, a student must obtain over no fewer than three years of study a minimum of 108 credit points in subjects listed in the Summary of Subjects.

11. The 108 credit points shall include:

   (1) no fewer than 36 and no more than 48 credit points obtained in Level I subjects, including no more than 24 credit points obtained in Level I subjects offered by the Faculty of Commerce and Economics

   (2) no more than 12 Level I credit points obtained in any one school or department

   (3) an approved major sequence in one of the following schools/departments: Chinese, English, French, German Studies, History, Indonesian, Japanese, Music, Philosophy, Political Science, Russian Studies, Science and Technology Studies, Social Science and Policy, Sociology, Spanish and Latin American Studies, Theatre Studies

   (4) either

      an additional approved major sequence offered by any other school, department or program within the Bachelor of Arts degree program

      or

      at least 54 credit points obtained in schools, departments or programs other than the school/department in which the major sequence specified in Rule 11 (3) is taken.

12. Subjects offered by other faculties may, with the permission of Faculty, also be counted as part of the degree program. Faculty shall determine equivalent credit point ratings for such subjects.

**Honours Degree**

13. A student who wishes to enter the Honours level program in a school or schools must have obtained no fewer than 108 credit points in accordance with Rules 1.-12. above, and have satisfied the relevant prerequisites for Honours level in the school or schools concerned.

14. In Year 4 of study, the student shall complete an Honours level program in the school or schools concerned. Honours level programs in two schools require the joint approval of the Heads of Schools concerned.

15. The degree of Bachelor of Arts at Honours level may be awarded in one or in two school(s) either as an Honours (Research) degree or as an Honours (Course Work) degree. The term "Honours (Research)" shall indicate that the Honours level program contains a substantial research project.

16. In special circumstances students who have been awarded the degree of Bachelor of Arts at Pass level from The University of New South Wales, or a comparable degree from another university, as determined by the Faculty, may be admitted by Faculty to candidature for the award of the degree of Bachelor of Arts at Honours level with credit for all subjects completed if, during their studies for the Pass degree, they have satisfied the prerequisites for entry to the Honours level program of the school or schools concerned or subjects considered equivalent by the school or schools concerned. Such permission will not normally be granted if more than three years have elapsed since the awarding of the Pass degree.

17. If a candidate for the award of the degree at Honours level fails to obtain one of the classes of honours specified in Rule 1., he/she may proceed to graduation for the award of a Pass degree.
3420 Bachelor of Social Science Degree Course

Rules Governing the Award of the Degree of Bachelor of Social Science

1. The degree of Bachelor of Social Science may be awarded as a Pass degree or as an Honours degree. Two classes of Honours are awarded: Class 1 and Class 2 in two Divisions.

2. No student may enrol in the Bachelor of Social Science degree course at the same time as he/she is enrolled in any other degree or diploma course at this University or elsewhere.

3. A student may not enrol in any one session in subjects carrying more than 24 credit points. In the first year of study, students may not enrol in subjects offered by the Faculty of Commerce and Economics carrying more than 24 credit points.

4. A student enrolling in a subject must satisfy the prerequisite and co-requisite requirements in that subject.

5. In order to obtain credit points for a subject, a student must in that subject:
   (1) attend the prescribed lectures, seminars, tutorials and laboratory classes.
   (2) complete satisfactorily any assignments prescribed.
   (3) pass any prescribed examinations.

6. Subjects offered by other faculties may, with the permission of the subject authority, also be counted towards the degree. Faculty shall determine equivalent credit point ratings for such subjects.

7. An applicant from another faculty or university seeking advanced standing in the BSocSc degree course must submit in writing to the Faculty a statement of the subjects concerned and the remaining subjects he/she wishes to complete for the degree. Permission to enrol in Upper Level subjects for such applicants requires the agreement of the appropriate subject authority that equivalent prerequisites have been completed. Faculty shall then determine the number of credit points (if any) to be granted and the remainder of the applicant's program for the degree. Advanced standing will not be granted for subjects completed more than ten years before the date of admission of the applicant.

8. In special circumstances, Faculty, on the recommendation of the subject authority, may vary the requirements of any of these rules in a particular case.

Pass Degree

9. Over at least three years of study, a student must obtain at least 108 credit points in subjects offered by the Faculty, including:
   (1) at least 36 and no more than 48 Level 1 credit points. Of these, 12 must be obtained in the subjects SLSP1000 Introduction to Social Science and Policy and SLSP1001 Introduction to Computer Applications and Quantitative Methods. A further 12 (or in the case of Computer Science 6) shall be obtained in one of the following: Computer Science, Economic History, Economics, Geography, History, Industrial Relations, Mathematics, Philosophy, Political Science, Psychology, Science and Technology Studies, Sociology, Spanish and Latin American Studies (History stream), Statistics, or any other major sequence offered by the Faculty and approved by the subject authority;
(2) 36 credit points obtained by completing the following subjects:

- SLSP2001 Research Methods and Statistical Applications
- SLSP2002 Social Science and Policy Case Studies
- SLSP3000 Advanced Research Methods
- SLSP3001 Advanced Statistics and Computing
- SLSP3002 Social Science and Policy Project

(3) no fewer than 24 Upper Level credit points obtained by completing the major sequence commenced under Rule 9. (1) above.

10. Faculty may consider the award of the degree of Bachelor of Arts to a student who does not wish to proceed to the degree of BSocSc, but has satisfied the requirements for the Bachelor of Arts as set out in the regulations for that degree.

**Honours Degree**

11. A student who has obtained at least 108 credit points in accordance with Rule 9, and has obtained a good credit average in the BSocSc core program and a good credit average in the approved major discipline may be admitted to the Honours level program on the recommendation of the subject authority.

12. The Honours level program shall be completed in the fourth year of study and shall consist of the Honours subject SLSP4000 Social Science and Policy, together with such other work as the subject authority may prescribe.

13. Students may also be admitted to a Combined Honours level in SLSP4500 Social Science and Policy and a school/department of the Faculty if they have:

   (1) obtained at least 108 credit points in accordance with Rule 9;
   
   (2) obtained a good credit point average in the BSocSc core program;
   
   (3) satisfied the requirements for admission to Combined Honours in the School/Department.

14. If a candidate for the award of the degree at Honours level fails to obtain one of the classes of honours specified in Rule 1., he/she may proceed to graduation for the award of a Pass degree.

15. In special circumstances students who have been awarded the degree of Bachelor of Social Science at Pass level from The University of New South Wales, or a comparable degree from another university, as determined by the Faculty, may be admitted by Faculty to candidature for the award of the degree of Bachelor of Social Science at Honours level with credit for all subjects completed if, during their studies for the Pass degree, they have satisfied the prerequisites for entry to the Honours level program of the school or schools concerned or subjects considered equivalent by the school or schools concerned. Such permission will not normally be granted if more than three years have elapsed since the awarding of the Pass degree.
3425 Bachelor of Music Degree Course

Rules Governing the Award of the Degree of Bachelor of Music

1. The degree of Bachelor of Music may be awarded as a Pass degree or as an Honours degree. Two classes of Honours are awarded: Class 1 and Class 2 in two Divisions.

2. To qualify for the award of the degree, students must complete subjects to the value of at least 108 credit points in accordance with the Rules for the Award of the Degree of Bachelor of Arts, including the relevant sequence in Music prescribed by the Department of Music for the Bachelor of Music degree.

3. Students must complete the prescribed Music subjects for the first two years of study at a standard acceptable to the Department of Music, normally Credit level or better. Students who fail to attain this standard may transfer to the Bachelor of Arts Degree course with credit for all subjects completed.

4. Students who have satisfied the requirements for the Pass degree with an average of at least Credit level in Music subjects may be admitted to the Honours level program on the recommendation of the Head of the Department of Music.

5. In special circumstances, Faculty, on the recommendation of the Head of the Department of Music, may vary the requirements of any of these rules in a particular case.
Bachelor of Arts (Asian Studies) Degree Course

Rules Governing the Award of the Degree of Bachelor of Arts (Asian Studies)

1. The degree of Bachelor of Arts (Asian Studies) may be awarded as a Pass degree or as an Honours degree. Two classes of Honours are awarded: Class 1 and Class 2 in two Divisions.

2. To qualify for the award of the degree, students must complete subjects to the value of at least 108 credit points in accordance with Rules for the Award of the Degree of Bachelor of Arts, including a major sequence in Economics, Economic History, History, Industrial Relations, Political Science, Science and Technology Studies or Sociology, and Program A or B in Asian Studies as prescribed by the course authority.

3. Students who have satisfied the prerequisites for admission to Honours level in the School/Department of their major discipline may be admitted to an Honours level program consisting of a research thesis, a research seminar in their major discipline and a further seminar chosen in consultation with the course co-ordinator.

4. In special circumstances, Faculty, on the recommendation of the course co-ordinator, may vary the requirements of any of these rules in a particular case.

Bachelor of Social Science (Asian Studies) Degree Course

Rules Governing the Award of the Degree of Bachelor of Social Science (Asian Studies)

1. The degree of Bachelor of Social Science (Asian Studies) may be awarded as a Pass degree or as an Honours Degree. Two classes of Honours are awarded: Class 1 and Class 2 in two Divisions.

2. To qualify for the award of the degree, students must complete subjects to the value of at least 108 credit points in accordance with Rules for the Award of the Degree of Bachelor of Arts (Asian Studies) but must include the Bachelor of Social Science core program in place of the major sequence required under Rule 2 of the Rules Governing the Award of the Degree of Bachelor of Arts (Asian Studies).
Graduate Courses

Degrees Offered

At the graduate level the degrees of Doctor of Philosophy, Master of Arts, Master of Cognitive Science, Master of Music, Master of Policy Studies and Master of Science and Society are offered. Graduate diplomas in Policy Studies and Science and Society are also available.

The Faculty of Arts offers two kinds of graduate work leading to the award of the degree of Master of Arts: the MA at Honours level, which is primarily awarded for a written thesis, is intended chiefly for graduates engaged in research; while the MA at Pass level, in which there is more emphasis upon course work and formal instruction, is intended for graduates who wish to expand and extend their undergraduate knowledge by further intensive training with less emphasis upon original research work.

The degrees of Master of Music and Master of Policy Studies are offered at Pass level by course work; the degrees of Master of Science and Society and Master of Cognitive Science are offered at both Pass and Honours levels.

Applicants seeking to gain admission to a graduate course of study within the Faculty of Arts should contact initially the Postgraduate Section of the Registrar’s Department to obtain the appropriate application form.

The Conditions for the Award of Higher Degrees are set out at the end of this section of the handbook.

Master of Arts Degree in Interdisciplinary Studies

The degree of Master of Arts in Interdisciplinary Studies is offered

1. at Honours level by research (course 2336), or by coursework and research (course 2335).
2. at Pass level by coursework (courses 8240, 8242, 8244, 8246, 8247).

Candidates for the Honours degree by coursework and research must complete:

1. All requirements for the Award of the Master of Arts (Interdisciplinary Studies) degree in the MA (Pass) program at a level acceptable to the MA Interdisciplinary Studies Committee; and
2. A research project of approximately 25,000 words on a topic approved by the program convenor and Chairperson of the MA Interdisciplinary Studies Committee.
The usual period of completion for the Honours program is two years full-time or three years part-time.

Candidates for the award of the Pass degree may, subject to the approval of the program convenor concerned, substitute a supervised reading program for one session-length subject. A research project of not more than 15,000 words may also be substituted for two session-length subjects. (Subject numbers for these are listed under the individual programs below.)

Programs available are: Asian Studies, Australian Studies, Studies in United States Civilization, Women's Studies.

**Master of Cognitive Science Degree**

**Master of Cognitive Science Degree by Research and Coursework**

The Master of Cognitive Science (MCogSc) degree course is an interdisciplinary program of study administered by the Centre for Cognitive Science, and involves the contribution of subjects by a wide range of schools and faculties across the University.

The MCogSc degree is offered at the Pass level by coursework (8155) and at Honours level by coursework and research (2410).

The program is intended to provide graduates in any of the relevant fields (e.g., Psychology, Linguistics, Philosophy, Computer Science, Neuroscience) with an exposure to the concepts and theories of related disciplines outside their particular specialty. In addition, there are core subjects and seminars designed to provide a broad integrating and unifying perspective on cognitive science.

**Master of Music Degree**

**Master of Music by Coursework**

**Master of Music Degree at Pass Level**

**Master of Music**

**MMus**

The course (8245) is designed to give the student insight into current techniques and theories in historical musicology and ethnomusicology, with special reference to opera and its many related genres, Australian Aboriginal and non-Aboriginal traditional music, analysis of musical procedures and the social and philosophical contexts of music. The presentation of the course will seek to keep in balance the habit of musicianly scrutiny and a thorough awareness of the resources of scholarship. A seminar in research method will form a central component of the course. Options (not more than two at any one time) will be available to allow a student to cover four major topics for the degree through a schedule of lectures, seminars, and assignments. Tutorials will increase students' confidence in using skills and techniques for the purposes of musical investigation, comparison, and understanding.

**Master of Policy Studies Degree**

**Graduate Diploma in Policy Studies**

**Master of Policy Studies Degree by Coursework**

**Graduate Diploma in Policy Studies by Coursework**

The Master of Policy Studies Degree (MPS (course 8248)), is offered by the Department of Social Science and Policy. It is designed to prepare students for effective participation and leadership in problem solving and policy making in a variety of organisational contexts, and for work which requires analytical skills and a practical appreciation of the processes of policy making and implementation. In addition to a common core curriculum, students complete an Area of Concentration. Areas currently available are:

MPS - Asian Studies
MPS - Australian Public Policy
MPS - Scientific Research and Technological Innovation Policy

The degree is open to graduates in any field who have significant work experience in an area appropriate to the degree program. In exceptional circumstances applicants may be admitted without a first degree but with general and professional attainments acceptable to the Department.

The Graduate Diploma in Policy Studies (course 5280) is also offered. For details, see Subject Descriptions.

**Master of Science and Society Degree**

**Graduate Diploma in Science and Society**

**Master of Science and Society Degree by Research and Coursework**

**Graduate Diploma in Science and Society by Coursework**

The Master of Science and Society (MScSoc) degree course and the Graduate Diploma in Science and Society, are interdisciplinary programs of study administered by the
School of Science and Technology Studies within the Faculty of Arts, and involve the contribution of subjects by a wide range of schools and faculties across the University.

The MA in Applied Linguistics (course 8175) is a qualification intended to provide Australian and overseas students with the information and skills relevant to a range of professions concerned with applications of language. These include EFL/ESL teaching, mother tongue teaching, translation, language testing and evaluation, language planning and curriculum design. Students will be given a common foundation in the principles of descriptive grammar, psycholinguistics, second language acquisition and syllabus design. In addition there will be an opportunity to specialise in two further areas of linguistics. Finally, all students must complete a special project with a practical emphasis. In the project students will be encouraged to apply the knowledge gained from the course to a situation they are likely to meet in their immediate future career.

Program requirements. Candidates must complete, over a period of at least two sessions (full-time) or four sessions (part-time), the four core subjects, two electives from those available (not all of which will necessarily be available in any one year), and the special project.

Core Subjects

**ENGL5501 Contemporary English Grammar**

Contemporary approaches to the grammatical description of English, associated with the work of some of the major theorists in the field, both British and American. Attention will be paid to both structural and functional methodologies as applied to the analysis and classification of samples of present-day English.

**ENGL5502 Language and Gender**

The sexual differentiation of language from both a linguistic and social perspective. Questions include: Does language...
help to enact and transmit inequality between the sexes? How extensive are the differences, and what are they? Does women's speech contain more 'prestige' forms? How is sex-typed language learned? Can language be 'de-sexed'?

TESLS006 Testing and Evaluation
The theoretical background to testing and evaluation of language teaching programs. Principal statistical procedures relevant to language testing. Useful and reliable instruments for classroom teachers. Classes include considerable practical work in constructing tests and analysing test results.

Asian Studies

Co-ordinator
Professor John Ingleson (History)
Asian Studies (course 8247) is one of the programs available within the MA in Interdisciplinary Studies
Program requirements: candidates must complete over a period of at least two sessions (full-time) or four sessions (part-time) the full-year core subject, three session-length subjects from the options available and a research project of no more than 15,000 words on a topic approved by the co-ordinator.

Core Subject

ASIA5000 Approaches to Asia F 2CCH
An introduction to a range of interdisciplinary approaches to the study of Asia. The seminar topics look at the concept of Asia itself and consider some of the disciplinary, methodological and theoretical problems involved in studying Asia. Students will be introduced to some of the more influential writings from disciplines such as anthropology, history, political science and literary studies. (Old No. 60.110G)

Optional Subjects

Session 1

POLS5101 China: Politics of Economic Management
Adrian Chan
An examination of the various theories of economic development and the politics of decision-making in contemporary China, with emphasis on the post-Mao period. (Old No. 54.500G)

HIST5204 Politics and Society in Indonesia
John Ingleson
The Indonesian response to colonial domination in the 20th century: the impact of the Japanese occupation; the Indonesian Revolution which culminated in the defeat of the Dutch in 1949; and the search for a new political order. The 'coup' of 1965. Emphasis on the communists, the Muslims and the populists, and attempts to create political linkages between the elites and the masses. Analysis of those forces for and against and economic and social revolution in Indonesia and of the emergence of the military and a dominant force in Indonesian society. (Old No. 51.503G)

HIST5223 The Modern Middle East
Michael Pearson
Studies in the history of the Arab middle east. Topics include: the concept of orientalism; formal and informal colonialism; paths to 'independence'; the politics of oil; social issues in modern Islam; 'resurgent' Islam.

HIST5202 Vietnam at War 1945 – 1975
Tom Cantwell
In 1945 France returned to Asia intent on re-establishing its colonial grip over Vietnam, Laos and Cambodia. Part 1 of this subject examines the problems France experienced in attempting to eliminate the Viet Minh, a resistance group determined to achieve national re-unification. Part 2 focuses on South Vietnam's twenty year bid for survival under United States patronage. During the 1950's, Washington's pre-occupation with global strategic considerations, not South Vietnam's local needs, determined the development and training of the Republic of Vietnam's armed forces. The role of US allies in the recent Indochina conflict – especially Australia – will also be evaluated. The subject concludes by analysing the collapse of South Vietnam in 1975. Was it caused by faulty US and South Vietnamese policies, or North Vietnam's refusal to compromise from its original objective? (Old No. 51.004G)

Session 2

ENGL5020 The Fiction of Modern India
Janet Walker
A study of ideas and attitudes to society as reflected in (i) modern Indian writing in English, 1930-1985 and (ii) modern English novels about India, with emphasis on colonial interpretation of Indian culture. (Old No. 50.117G)

IROB5514 Japanese Employment and Productivity
David Plowman
Japanese organisational studies relevant to the inter-relationship of employment and productivity and their influence in Australia. Key issues discussed include adaption to change, organisational concepts and concerns, contributions to dynamic comparative advantage, skill formation and work organisation, organisational participation and learning and the processes of barriers to the transfer of technocultures. Also offered in Session 1.

HIST5216 Intellectual Trends and the Rise of Communism in China
K.K. Shum
This subject is a study of the main currents of Chinese political thought from late 19th century to early 20th century. Its
purpose is to enhance one’s understanding of modern China by examining the thinking of some prominent intellectual and political leaders whose ideas helped to shape China’s destiny. From these analyses, it is envisaged that the reason why Mao Tse-tung Thought emerged as the most dynamic and popular ideology in the the pre-1949 period will become apparent. (Old No. 51.539G)

HIST5217 Thailand and Cambodia: Development and Devastation
Ian Black
Why have two neighbouring countries of Southeast Asia, with many similarities of social tradition and frequently interlocking histories, undergone wholly divergent experiences in the 1970s and 1980s? Thailand has adopted a form of parliamentary democracy and is undergoing rapid capitalist development. Cambodia, after civil war and the ultra-radicalism of the Pol Pot regime, has still to establish a stable government and recover from economic devastation. This subject explores the historical factors behind the contrasting experiences. (Old No. 51.539G)

LIBS0845 Information Technology in Asia
Helen Jarvis
The subject will focus on the uneven and combined development of information technology in Asia. Issues to be examined include: the tremendous disparities in adoption of various information technologies; the impact of oral versus literate traditions, roman versus non-roman script languages, and other historical and cultural variables; different governmental approaches to the introduction and indigenous development of technology; and different models employed in information technology education, innovation and social experimentation. (Old No. 55.845G)

SCTS5112 Technology and Power in East Asia
John Merson and Gavan McDonell
This subject reviews the history of cultural and economic change in East Asia (China, Japan, Korea, Taiwan, etc.). It will also review the approaches to technological and industrial development which has allowed first Japan and now Korea, Taiwan and China to achieve rapid economic growth. Finally, the subject will examine Australia’s reorientation towards East Asia and the impact of knowledge-intensive high technology industries, information technology and global economic pressures on this relationship.

SOCI5318 Religion and Popular Protest in Modern Asian Societies
Clive Kessler
Based on the consideration of detailed case studies, this subject examines the interplay between religious ideology and organization, social structure, popular sentiment and culture, and social change. (Old No. 53.020G)

ASIA5100 Research Project (Old No. 60.111G)

ASIA5200 Reading Program
Students may enrol in a Reading Program as a substitute for one of the optional subjects. Reading programs are individually determined. Approval must be obtained from the course co-ordinator.

Australian Studies

Co-ordinator
Dr. W. Ashcroft (English)

Australian Studies (course 8242) is one of the programs available within the MA in Interdisciplinary Studies. In addition to the MA degree course at Pass level, it is also possible to undertake an Australian Studies program in the MA degree in Interdisciplinary Studies at Honours level, either by research only (course 2336) or by research plus course work (course 2335). See under MA Degree in Interdisciplinary Studies earlier in this section.

Program requirements: candidates for the award of the MA degree in Interdisciplinary Studies at Pass level must complete over a period of at least two sessions (full-time) or four sessions (part-time) six session-length two-hour seminars, in a program approved by the convenor. Arts

to the award of the degree of Master of Arts at Pass level (8170). The degree may be taken in English Literature or English Linguistics, or in English Literature and Linguistics.

1. MA (Pass) course in English Literature

This course consists of six session-length subjects: two core subjects and four electives from a large range (not all of which are available in any one year). The subjects may be taken together as a full time course over one year or as a part-time course over two years. One Linguistics elective or core subject may be substituted for one Literature elective.

Following discussions with and subject to the approval of the Head of School, a student may, under special circumstances, undertake part of her/his MA through ENGL5000. In specific circumstances, a student may be permitted to take a Research component instead of one elective.

Core Subjects

ENGL5001 Critical Approaches of the Twentieth Century S1 2CCH
Bruce Johnson
This subject attempts to offer an introduction to a number of current approaches to literature.

ENGL5002 Critical Approaches Prior to the Twentieth Century S2 2CCH
The beginnings of modern English literary criticism, with special reference to Romantic and nineteenth century critical ideas.
Consult the School for further details.

Electives

ENGL5003 Menace and Manipulation in Modern British Drama and Fiction 2CCH
Not offered in 1991.
Richard Madelaine
The 'manipulative' techniques of major British dramatists and writers will be studied in relation to their themes, including, inter alia, the nature of evil, menace and the absurd, the struggle for power.

ENGL5004 Landscape and Literature in the Eighteenth Century S2 2CCH
Christine Alexander
'The Landscape' in England has been a potent cultural weapon; used in conjunction with literature and painting as it was in the 18th century it assumed enormous ethical importance. Landscape became an analogue for the human condition. Using selected material from a wide variety of poets, painters, landscape theorists and novelists, this subject traces the development of aesthetic ideas in the 18th century and examines the way in which they affected the close relationship between landscape and literature in the period.

ENGL5005 Reflections of Nineteenth Century Thought in Prose S1 2CCH
Ros Haynes
A study of the major currents of thought in the nineteenth century as expounded in prose texts which greatly influenced English writers of the time and which also have intrinsic literary merit. Reference is also made to fiction of the period which reflects on the concepts under discussion. Areas to be examined are literary criticism, utilitarianism, religion, art, education and science.

ENGL5006 Twentieth Century Women Prose Writers 2CCH
Not offered in 1991.
Margaret Bradstock
Concentrates on the influences on and development of the novel and short story forms, and the nexus between practice and critical theory. In the texts considered, the female author is seen as consciously rewriting her own environment.

ENGL5007 The Presentation of Science in Literature 2CCH
Ros Haynes
The subject is designed to explore some of the ways in which the ideas, values and point of view of science have been integrated into literature, how modified for literary and propagandist purposes and how they have, in turn, modified literary forms and conventions. Covers the following sub-sections: Science as Ideas, Scientists and Characters, Science as Sociological Propaganda, Science Fiction.

ENGL5008 Postcolonial Women Writers S1 2CCH
Brigitta Olubas
A study of writing by women from a range of postcolonial countries, focusing on ways in which they have confronted issues of sexual and geographical marginality and the problems associated with writing in foreign or imported language and forms.

ENGL5009 Revenge and Dramatic Form in the Sixteenth and Seventeenth Centuries S2 2CCH
Richard Madelaine
Examines contemporary attitudes to revenge, justice, and Providence, and the search by leading dramatists for appropriate forms in which to express these attitudes.

ENGL5010 Twentieth Century Women's Poetry 2CCH
Not offered in 1991.
Margaret Bradstock
The subject provides an overview of twentieth century women's poetry. In particular, it concentrates on the beginnings and influence of the poetic movement, and the directions it has taken.
ENGL5011 Moral Dilemma in Victorian and Edwardian Literature 2CCH
Louise Miller
A study of major Victorian and Edwardian works that focus on individual moral dilemma and reflect challenges to traditional values and ways of thinking. Aspects of poetic form and narrative strategy are considered in some detail.

ENGL5012 Modernism in Poetry S2 2CCH
Peter Alexander
Focuses on the roots, rise, triumph and decline of Modernism in the poetry of the twentieth century. In addition to providing an opportunity to study the philosophical origins of the most influential movement in modern literature, the subject provides by way of illustration detailed examination of poets rarely dealt with in other contexts.

ENGL5013 Shakespeare S1 2CCH
Mary Chan
Studies the development of Shakespeare's work in its historical, social and theatrical context. The work is based on set texts chosen from the major genres (including the poems) and representative of the various 'periods' of his writing, but will include discussion of critical and bibliographical issues and contemporary staging.

ENGL5014 Criticism and Compliment: the Theatre of Ben Jonson 2CCH
Not offered in 1991.
Mary Chan
Jonson (1572-1637), a contemporary of Shakespeare, was best known in his own time as a playwright and writer of masques for the court of James I. He was also a poet. This subject examines Johnson's oeuvre in its historical and philosophical context, looking at examples of his contribution to various genres.

ENGL5015 Seventeenth Century Prose, Intellectual Revolution, and the Rise of the Scientific Consciousness 2CCH
Not offered in 1991.
Bruce Johnson
The intellectual revolutions of the seventeenth century in England established the foundations for the basic assumptions of our age and also determined our view of the functions and capacities of language. The opposing intellectual methodologies - faith vs. reason, knowledge as a means to virtue rather than power, the Bible vs. Nature - went to war in prose, which was itself conditioned by these forces. This subject traces the gradual appropriation of English prose by scientific attitudes.

ENGL5016 The Rise of the Woman Writer: From Aphra Behn to Jane Austen S2 2CCH
Christine Alexander
Using material from seventeenth and eighteenth century letters, periodicals, poems, plays and novels, this course considers attitudes to women's writing and the women writers' search for acceptance within their society. Special attention is focussed on the work of Mary Wollstonecraft as a detailed example of the historical relationship between women's writing and the demand for women's rights.

ENGL5017 Post-colonialism and Australian Literature S2 2CCH
Bill Ashcroft
An exploration of Australian literature as postcolonial discourse with particular emphasis on the writing of marginalised groups.

ENGL5018 Women in the Medieval Period 2CCH
Not offered in 1991.
Margaret Bradstock
This subject looks at the roles and expectations of women in medieval society. The structure of medieval society is investigated, especially the hierarchies of Church and State, and the function of medieval women within the system. English students will go on to an analysis of the major works of a medieval woman writer for their essays, or of a medieval male writer's depiction of female characters. Texts may be studied in translation.

ENGL5019 The Brontës S2 2CCH
Christine Alexander
A study of the writings of Charlotte, Emily and Anne Brontë. Their novels, poems and juvenilia will be read for their individual achievement and discussed in their historical and social context as statements on the women question.

ENGL5020 The Fiction of Modern India S2 2CCH
Janet Walker
A study of ideas and attitudes to society as reflected in (i) modern Indian writing in English, 1930-1985 and (ii) modern English novels about India, with emphasis on colonial interpretation of Indian culture.

ENGL5021 ‘A Woman’s Place’ in Nineteenth Century Literature S2 2CCH
Christine Alexander
A study of woman as a subject of Victorian literary discourse, focussing on the work of specific women writers, their struggle for acceptance, and the way their situation affected their writing. A variety of works will be introduced at the beginning to illustrate the strategies adopted by both female and male writers to deal with the increasing debate over the position and role of women in this period.

ENGL5022 Opening the Field: Radical Innovation in American Poetry in the 50’s and 60’s 2CCH
Not offered in 1991.
Hazel Smith
This subject explores three movements in post-war American poetry: the New York Poets, the Beats and The Black Mountain School. It focuses on how these different movements challenged traditional conceptions of what poetry was and how it might be written and links the poetry to other innovative
American art movements of the time, such as experimental music and Abstract Expressionist painting.

ENGL5023 Contemporary Australian Literature S1 2CCH
Bill Ashcroft
Examines Australian writing of the last decade. A major object will be to investigate some of the more recent trends in contemporary literature.

ENGL5024 Dickens and the City S2 2CCH
Michael Hollington
Considers the city in Dickens from two angles: (1) as the essential topic of Dickens's novels and (2) as one of the determinants of their formal properties. A capacity to read 2 1/2 long novels is required, as the subject examines early, middle and late work.

ENGL5000 Individual Reading Program
Designed to accommodate, where possible, students with particular interests not served elsewhere. (The Program is designed in consultation with the Head of School and may be taken, by special permission, instead of one elective. Students who have completed three MA (Pass) subjects with a Distinction average may be permitted to undertake a research component under this subject number. Students taking a research component must familiarise themselves with the School's document 'Research projects and theses and their supervision'.)

2. MA (Pass) in English Literature and Linguistics
This consists of six session-length subjects, which may be taken together as a full-time course over one year, or as a part-time course over two years. Students must take one core subject from the Literature course, and one from the Linguistics course, and two electives from the Literature range (this may include the other core subject if desired) and two from the Linguistics range (this also may include the other core subject if desired). Following discussion with and subject to the approval of the Head of School, a student may, under special circumstances, undertake part of her/his MA through ENGL5200. In specific circumstances, a student may be permitted to take a Research Component instead of one elective.

History

In addition to the degree of Master of Arts at Honours level by research and thesis, the School of History offers courses leading to the award of the degree of Master of Arts at Pass level (course GERS5002). For qualified candidates, who must possess a four year bachelor degree or its equivalent, a Master of Arts at Honours level by course work and thesis is also offered. Candidates for the award of the degree of Master of Arts at Pass level must complete over a period of at least two sessions (full-time) or four sessions (part-time) one of the two optional programs of study.

Either
1. Complete four session-length seminars chosen from the available options and submit a thesis of not more than 20,000 words on a topic suitable to the School.

or
2. Complete six session-length subjects chosen from the available options.

In either program a student may, subject to the approval of the Head of the School of History, substitute a reading program, under the supervision of a member of the School of History, for one of the session-length seminars.

Candidates for the award of the Master of Arts at Honours level by course work and thesis must complete four session-length
Arts subjects and a thesis of no more than 25,000 words on a topic acceptable to the School. Attainment in the four subjects must be at a level acceptable to the Head of the School of History before permission will be given for registration for the thesis requirement.

The subjects on offer vary from year to year but are drawn from the wide teaching interests of members of the School. Subjects on offer may cover aspects of Australian, Asian or European history or be thematic or cross-cultural. For the current list of subjects see the MA booklet available from the School office.

Interdisciplinary Studies

Co-ordinator

The relationship between modes of thought and social structure. The links between thought and knowledge and their relationship to culture and structure. Examples are drawn from preliterate, traditional and industrial societies. Questions for discussion: are there features of thought common to all cultures? how are modes of thought related to systems of knowledge? is science radically different from magic or witchcraft and if so does the difference lie in the mode of thinking or in the nature of the objects known? how are culture and social structure related to modalities of thinking and knowing? is a sociology of knowledge possible? (Old No. 53.567G)

SOCI5313 Social Research  
Ann Daniel

The collection, analysis and interpretation of social data constitutes an important aspect of sociological activity. After a brief historical introduction to empirical sociology, students study various ways to collect social data, including bibliographic search, content analysis, ethnomethodology, structured and unstructured observation, questionnaire design and administration, single and group interviews, and community study. Both quantitative and qualitative methods of analysis and interpretation are used. Some important ethical issues are studied. Students are expected to examine the research process reflectively. (Old No. 53.568G)

SOCI5314 Field Techniques  
Judy Wajcman

Provides a background in qualitative field research. Discussions centre on implications of the research process for data reliability. A practical project in a common venue provides students with a setting for testing and evaluating primarily observational techniques of data gathering, though use is made of Australian Bureau of Statistics materials. (Old No. 53.569G)

SOCI5306 Technology, Gender and Working Life  
Judy Wajcman

Technology as a social and political phenomenon. Responses to technology both in the present (eg the microprocessor, nuclear energy debates) and in the past (eg Luddism). The way particular schools of social theory have conceived of technology: Marx, Weber, Frankfurt school and other relevant theoretical perspectives. Other topics include: micro-electronic technology and the labour process; nuclear energy; technology and sexism; weapons technology; and alternative technology. (Old No. 53.571G)
SOC15315 Medicine in Contemporary Australia
Ann Daniel
See under Australian Studies earlier in this section. (Old No. 53.572G)

SOC15316 Urban Studies
Alex Kondos
Sociological theories and research of the pre-industrial and contemporary city provide competing and sometimes contradictory accounts and explanations of the way the city is organised, by whom and for whose benefit. This subject examines critically the principal approaches to the study of the city with particular emphasis on the Australian context. (Old No. 53.573G)

SOC15307 State Bureaucracy and Higher Administration
Michael Pusey
The way in which culture and social structure continue to define structures and processes of organization. Higher administration work from the perspective of modern analyses of social change, of ideology and power, and of the role of intellectuals and experts in modern industrial societies. Liberal and marxist analyses of changes in the nature and functions of the state in late capitalist societies and the consequences of these changes for higher administrative work and policy formation. (Old No. 53.574G)

SOC15308 Applied Sociology and Social Anthropology
John von Sturmer
There has been a growth of government sponsored “impact” studies but without a comparative and holistic appreciation of the history of such endeavour, as well as an understanding of the theoretical issues involved. Focuses upon such work primarily in the Aboriginal field in Australia. Issues of mineral exploitation as well as community development will figure in the discussions. Professional and ethical issues will also be explored. (Old No. 53.575G)

SOC15317 Media Studies
Diana Shaw
The various forms of mass communication, their relations of production, the relationship between the media and control of the media and power structures in society, and the dialectical relationship between the media and their respective audiences. Emphasis on the ideological and cultural role of mass media within the context of whole societies via the study of newspapers, magazines and books; radio, television and video; documentary and film; music; alternative media and computer-based communications. (Old No. 53.576G)

SOC15309 Culture and History in the South Pacific
Grant McCall
Analyses the Island cultures of the South Pacific focussing mainly on Polynesia, but using research materials from Micronesia and Melanesia. Social anthropological exploration of the relationship between history and culture. (Old No. 53.577G)

SOC15310 Survey Sampling and Computer Applications
Frances Lovejoy
General principles of sampling design, questionnaire design and survey analysis. Elementary statistical analysis with emphasis on nonparametric statistics, Introduction to computer analysis using SPSSX package. (Old No. 53.578G)

SOC15319 Directed Study (Old No. 53.552G)
SOC15330 Thesis (Pass) (Old No. 53.550G)
SOC15331 Thesis (Honours) (Old No. 53.551G)

Spanish and Latin American Studies
In addition to the degrees of Masters of Arts in Spanish and Latin American Studies at Honours level by research (course 2390) and Doctor of Philosophy (course 1310), the School also offers programs leading to the award of the degree of Master of Arts in Latin American Studies at Pass level, part-time, by course work (course 8235) and the degree of Master of Arts in Latin American Studies at Honours level by course work and research, part-time (course 2391).

Candidates for the award of the degree of Master of Arts in Latin American Studies at Pass level by course work shall complete over at least four sessions (part-time) four session-length three-hour subjects and a research project.

Candidates for the award of the degree of Master of Arts in Latin American Studies at Honours level by course work and research shall complete over a minimum of five sessions (part-time) four session-length three-hour subjects, a research project and a thesis of no less than 25,000 words on a topic acceptable to the School. Attainment in the four subjects must be at a level acceptable to the Head of School before permission will be given for registration for the thesis requirement.

The degree Master of Arts in Latin American Studies at Pass level by course work and a research project is intended for: 1. Pass graduates with a major in Spanish and Latin American Studies or its equivalent (at credit level or better); and 2. Honours or Pass graduates with a major in a cognate discipline (at credit level or better).

The degree of Master of Arts in Latin American Studies at Honours level by course work and research is intended for 1. Honours graduates with a major in Spanish and Latin American Studies or its equivalent; and 2. Candidates who have attained a high level of performance in the required subjects and who wish to transfer to this course.

Students whose knowledge of Latin America is deemed to be inadequate may be required to undertake a reading program prior to commencing their studies. Candidates for the degree of Master of Arts at Honours level (course work and research) must demonstrate a reading knowledge of Spanish.

Subjects are as follows. For further details please contact the School of Spanish and Latin American Studies.
SPAN5001 Cultural Imperialism in Latin America
Considers the various theories and meanings of the concepts "culture" and "imperialism" so as to provide working definitions of each for application to Latin America. Includes a historical survey of interventions in the continent by major foreign powers (Spain, Portugal, Great Britain, USA) and examines the media of cultural imperialism (cultural impact of direct foreign investment, advertising and the manipulation of the mass media, effects on literature, the arts, sport, etc) and the attempts made to neutralise or resist these cultural imperialist strategies. (Old No. 65.501G)

SPAN5002 Religion and Power in Latin America
Moving from pre-Columbian creation myths to liberation theology and the advance of Protestantism, this subject examines the interplay of religion and power in the context of the relative importance of hierarchic and egalitarian belief systems. (Old No. 65.502G)

SPAN5003 Authoritarianism in Latin America
Begins with a statement of the theoretical considerations involved in the study of authoritarianism and looks at the origins of Latin American authoritarianism in Spanish, European and pre-Columbian societies. Through a series of case studies from different historical periods, the subject views authoritarianism in Latin America both as a phenomenon of political culture as well as a product of specific social and economic circumstances, and traces its development up to its more recent manifestations. Analyses the different ways in which authoritarianism is and has been perceived, including its projection into modern imaginative literature. (Old No. 65.504G)

SPAN5004 Revolution In Latin America
An examination of revolution in Latin America beginning with problems of definition. Other topics include: the theories of various Latin American revolutionaries including Fidel Castro and Che Guevara; the history of revolution in Latin America both as event and process from independence, including the coup d'etat, the popular revolt and contemporary revolutions; the Mexican, Cuban, Chilean and Nicaraguan revolutions in some detail; and the problem of mythologies of revolution. (Old No. 65.505G)

SPAN5006 Research Project (Latin American Studies)
The preparation of a research project under the supervision of a member of staff, and the presentation of the project to a staff student seminar. (Old No. 65.503G)

SPAN5007 Thesis (Honours)
A thesis of no less than 25,000 words on a topic approved by the School. (Old No. 65.506G)

Studies in United States Civilization

Co-ordinator
Associate Professor Roger Bell (History)

Studies in United States Civilization (course 8246) is one of the programs available within the MA in Interdisciplinary Studies at Pass level. It is designed to accommodate the interests of candidates who wish to pursue the study of the United States at an advanced level without necessarily undertaking extensive thesis work. The subjects have been designed to form a coherent and co-ordinated program in the study of the history, politics, literature, economics, music and society of modern United States. All seminars are offered in the late afternoon or early evening to make part-time participation possible and are of two hours duration.

Program requirements: candidates for the award of the MA degree in Interdisciplinary Studies at Pass level must complete over a period of at least two sessions (full-time) or four sessions (part-time) six session-length, two-hour seminars, in a program approved by the convenor. There is a core seminar to be attended by all students, and a number of electives. All electives are not necessarily available in any one year.

In addition to the MA degree course at Pass level it is also possible to undertake a US Civilization program in the MA degree in Interdisciplinary Studies at Honours level, either by research only (course 2336) or by research plus course work (course 2335). See under MA Degree in Interdisciplinary Studies earlier in this section.

Core Seminar

HIST5900 Major Themes in United States Studies
Significant elements in American culture through the perspectives of various disciplines. The central literature in American Studies. (Old No. 60.550G)

Electives
For details of electives offered during 1991-1992, consult Associate Professor Roger Bell or Dr Ian Bickerton, School of History.

Teaching of English to Speakers of Other Languages (TESOL)

Co-ordinator
Dr Alan Chamberlain (French)

Not offered in 1991.

The program comprises seven required subjects and a major materials project in English for Specific Purposes in an area chosen by the student in consultation with course directors. Candidates must be trained teachers with TESOL qualifications and teaching experience. Where degrees have
not been obtained in English speaking universities, applicants must demonstrate an adequate level of proficiency in spoken and written English.

**TESL5001 Linguistics and Language Teaching**

Nature and function of language. Application to second and foreign language teaching. Phonetics, phonology, morpheme, syntax and semantics. Writing systems, non-linguistic codes, languages in contact and cross-cultural differences. (Old No. 60.301G)

**TESL5002 The Grammar of Contemporary English**

Structural and functional approaches to language analysis. Development of capacity to explain principles to students and other teachers. Analysis and classification of samples of contemporary English. Pedagogical grammar and its role in methodology. (Old No. 60.302G)

**TESL5003 Language and Psychology**

Current research in the fields of first and second language acquisition, bilingualism and the psychology of reading. Application of principles to the design and implementation of language programs. (Old No. 60.303G)

**TESL5004 Language Teaching Methodology**

Overview of the range of methodological approaches to language teaching, both past and present. Practical training in current approaches (particularly the communicative approach) through demonstration lessons, observations, video-recorded micro-teaching sessions. Teaching the four macro-skills (listening, speaking, reading and writing) at various levels. Group work, drama techniques, language teaching technology and alternative methodologies (CLL, SGAV, Total Physical Response, etc). (Old No. 60.304G)

**TESL5005 Language and Society**

Sociolinguistics. Topics include: language varieties (social and geographical); sociolinguistic measurement; language and nation; language and ethnic group; language shift and maintenance; language planning; interactional sociolinguistics; cross-cultural communication. (Old No. 60.305G)

**TESL5006 Testing and Evaluation**

The theoretical background to testing and evaluation of language teaching programs. Principal statistical procedures relevant to language testing. Useful and reliable instruments for classroom teachers. Classes include considerable practical work in constructing tests and analysing test results. (Old No. 60.306G)

**TESL5007 Preparation and Evaluation of Teaching Materials**

**TESL5008 Materials Development Project in English for Specific Purposes (ESP)**

As a final requirement for the MA degree in TESOL students write a major materials project (8,000-10,000 words) which involves the planning of a course, for a selected target group, of around 100 hours.

Aims to given students the opportunity to apply the knowledge gained on the course to a situation they are likely to meet in their immediate future career. The capacity to apply this knowledge will be a major criterion for assessment of the exercise. (Old No. 60.308G)

**Theatre Studies**

In addition to the degree of Masters of Arts by research offered at Honours level (course 2251), the Department of Theatre Studies also offers the degree of Master of Arts at Pass level by course work (course 8231).

The Master of Arts at Pass level degree course is intended: 1. for Pass graduates with a major (at credit grade or better) in Theatre Studies; 2. for Honours or Pass graduates with little or no Theatre Studies component in their undergraduate degree but with a major (at Credit level or better) in a cognate discipline and or work experience in the field of drama or film (eg as professional actors, television production staff, teachers offering drama components in their school's curriculum).

The Pass degree course may be taken full-time in one year or part-time in a minimum of two years. It will normally consist of six session-length subjects. However, under special circumstances and with the permission of the School, a student may be permitted to undertake a research project in lieu of two subjects. A student whose qualifications are deemed to be weak in an area may also be required to undertake some concurrent work.

For a part-time student who is not required to take any concurrent work there is a commitment of one evening per week for attendance at classes in the one-session subjects. The research project is done in the student's own time. Scheduled subjects are listed below. For further details please contact the Department of Theatre Studies.

**THST5101 Aspects of Modern Theatre**

**THST5102 Performance Theory**

**THST5103 The Performance Arts in Australia since 1950**

**THST5104 Drama in Film and the Electronic Media**

**THST5105 Drama for School and the Community**

**THST5106 Research Project**

**THST5107 Reading Program**

**THST5108 Dramaturgy**

**THST5109 Theatre and Society**

**THST5110 Women and Theatre**

**THST5111 Popular Theatre**

**THST5112 Shakespeare in the 20th Century**
Women's Studies

Co-ordinator
Ms Frances Lovejoy (Sociology)

Women's Studies (course 8244) is one of the programs available within the MA in Interdisciplinary Studies.

In addition to the MA degree course at Pass level it is also possible to undertake a Women's Studies program in the MA degree in Interdisciplinary Studies at Honours level, either by research only (course 2336) or by research plus course work (course 2335). See under MA Degree in Interdisciplinary Studies earlier in this section.

Program requirements for the degree course at Pass level: candidates should complete the program over a period of at least two sessions (full-time) or four sessions (part-time). They are required to study six electives in a program approved by the Women's Studies co-ordinator. Electives from which students may choose are listed below.

Each subject lasts for one session and consists of weekly two-hour seminars. All electives are not necessarily available in any one year.

Electives

WOMSS901 Researching Women
A methodological basis for doing research in the general area of women's studies. Theoretical critiques of mainstream methodologies from a feminist perspective. Readings drawn from a number of sources in both the humanities and social sciences, however the topic is grounded within the discipline of sociology. (Old No. 60.901G)

WOMSS902 Women and Welfare Practice
Theory, experience and practice are linked in an examination of women's position in advanced industrial society as reflected in welfare. Women's role as consumers and providers of welfare. Application of feminist theory to welfare research, policy and practice. (Old No. 60.902G)

WOMSS903 Women and Technology
Historical background including education tendencies towards arts rather than sciences and a brief theoretical study of gender as a factor in social inequality. The position of woman in an advanced industrial society. Women in professions such as medicine, engineering, agriculture, computing in Australia and the developing countries. Women in trades, eg motor industry. Attitudes of establishments in employment of women in jobs formerly considered to be male oriented. (Old No. 60.903G)

WOMSS904 Women and Girls in the Australian Education System
1. The education of girls and women in Australian society. Data indicates the kinds and levels of schooling of girls compared with boys. The curriculum and the 'hidden' curriculum for sexist assumptions which may underlie them. Topics: vocational advice given to girls, co-education vs single sex schools, the work of the Non-Sexist Resource Centre. 2. The female teacher in the School system. Topics: promotion, Teacher's Federation and teaching as an 'appropriate' career for women. (Old No. 60.904G)

WOMSS905 Women and Development
The integration of women in development in third world countries. The role of women in economic life in traditional and developing societies, drawing from demographic, anthropological, and sociological data in particular. The impact of economic and political change on women. (Old No. 60.905G)

WOMSS906 The Problems of Women's History
The general theoretical and methodological questions which have arisen around the concepts 'women and history', 'women's history' and 'feminist history' drawing on American and British literature and linked to a practical investigation of these questions in Australian history. (Old No. 60.906G)

WOMSS907 Women in the Medieval Period
The roles and expectations of women in medieval society. The structure of medieval society, especially the hierarchies of Church and State, and its relationship to: the quality of life experienced by women; attitudes towards women; their function within the system; vocational and recreational opportunities. Issues: life-expectancy, education, marriage, child-bearing, healing, witchcraft, anti-feminism, religion, war, inheritance, law, work, culture and the arts. (Old No. 60.907G)

WOMSS908 Language and Sex
The sexual differentiation of language from two perspectives: linguistic (focusing on the intersection of language, gender and society) and social (focusing on the relationship between sex differences in language and the social differentiation of the sexes, the structure of male dominance and the division of labour by sex). (Old No. 60.908G)

WOMSS909 The Physical World of Contemporary Women
The analysis of the physical nature of, and the problems associated with, selected aspects of the environment that are of particular relevance to women's studies. Topics include: physical processes of home technology; physical bases of communication processes; energy sources and alternatives; composition and technology of products produced for consumption by women. (Old No. 60.909G)

WOMSS910 'A Woman's Place' in Nineteenth Century Literature
A study of woman as a subject of Victorian literary discourse, focusing on the work of specific women writers, their struggle for acceptance, and the way their situation affected their writing. A variety of works will be introduced at the beginning to illustrate the strategies adopted by both female and male
writers to deal with the increasing debate over the position and role of women in this period. (Old No. 60.910G)

WOMS5911 Women and Health
The role of women as health care producers: as lay healers and midwives, as pioneers in the nursing and medical professions and in present day traditional and alternative women’s health services. Women’s experiences as consumers of health care in both the conventional and the feminist alternative health services. Reference to issues of mental and physical health, including fertility control, pregnancy, birth, depression, occupational health and health of older women. (Old No. 60.911G)

WOMS5912 Looking at Writing Looking at Women
A study of 20th century women writers who have concerned themselves with the articulation of female experience. The contributions of individual women writers are studied and assessed in both a literary and a social context. Inevitably, the subject will deal with the idea of a female, literary sub-culture and with the impact of the current women’s movement on literature and society. (Old No. 60.912G)

WOMS5913 Feminist Theorists
Tradition of intellectual thought among women from the 17th century until the present day. Women from England, the United States and Australia who have written with different emphases on philosophy, sociology, anthropology, history, economics and literature. The major contributions that women have made to the now substantial body of feminist theory. (Old No. 60.913G)

WOMS5914 Power, Knowledge and Women’s Education
An examination of power in society and the ways in which power has been used to maintain the sexual status quo in education. The relationship of power to knowledge in terms of what constitutes knowledge and curriculum in schools and universities. The initiatives in Australia concerning Non-Sexist Education and Women’s Studies and the ways in which power has been used to impede or promulgate these issues. (Old No. 60.914G)

WOMS5915 Theory: Feminist and Patriarchal
Prerequisite: WOMS5913 or equivalent.
An examination of a number of feminist theories and critiques of patriarchal theories. Works of de Beauvoir, Kristeva, Irigaray, Hintikka, Freud, Hegel, Sartre and others will be discussed. (Old No. 60.915G)

WOMS5916 Australian Women’s Issues
Past and contemporary issues raised by Australian women, including Aborigines, other Australian born, and immigrants. The response of Aboriginal women to white settlement and contact. Reaction of non-Aboriginal Australian women to the convict era, rural expansion, and urbanization. Issues of concern to successive waves of migrant women including maintenance of family ties, transmission of culture, and work conditions. Interaction between these groups on contemporary issues such as sexuality, family formation and dissolution, multiculturalism, political and economic issues. (Old No. 60.916G)

WOMS5917 Feminism in Contemporary Western Europe
Contemporary political and literary responses by women about feminist issues, with emphasis on the Federal Republic of Germany and on post-1945 French developments. (Old No. 60.917G)

WOMS5918 Women and Theatre
Women’s participation in (or exclusion from) traditional theatre, including the Restoration and Victorian periods; the rise of the feminist theatre movement; twentieth century women’s theatre developments in Britain, USA and Europe; Australian women writers, directors and performers. (Old No. 60.918G)

WOMS5919 Twentieth Century Women’s Poetry
An overview of twentieth century women’s poetry. Concentrates on the beginnings and influence of the poetic movement and the directions it has taken. (Old No. 60.919G)

WOMS5921 Reading Program A (Women’s Studies)
(Old No. 60.921G)

WOMS5922 Twentieth Century Women Prose Writers
An overview of twentieth century women’s prose fiction. In particular influences on and development of the novel and short story forms. Nexus between practice and critical theory. (Old No. 60.922G)

WOMS5923 Reading Program B (Women’s Studies)
(Old No. 60.923G)

WOMS5924 Women and Alcohol
The historical development since 1788 of an ‘alcoholic society’ in Australia, and its consequences for women and gender. A sociological analysis of the meanings of alcohol use and misuse in contemporary culture. (Old No. 60.924G)

WOMS5925 Women in Latin America
The structure of societies in contemporary Latin America, examining the role of women in indigenous, colonial and post-colonial societies. Topics include: the economic power of women in Latin America; the participation of women in the workforce; women as a target of cultural imperialism; social welfare as it has related to women and the family; the participation of women in revolutionary movements in Latin America; and the feminist movement in Latin America. (Old No. 60.925G)

WOMS5926 Men and Women in Organizations
Using “Equal Employment Opportunity” and “Affirmative Action” as foci, familiarizes students with a range of skills required by social planners in the investigation of social issues and the subsequent development of social policy. (Old No. 60.926G)

WOMS5927 The Brontës
A study of the writings of Charlotte, Emily and Anne Brontë. Their novels, poems and juvenilia will be read for their individual achievement and discussed in their historical and
social context as statements on 'the women question'. (Old No. 60.927G)

**WOMS5928 The Rise of the Women Writer**
- From Aphra Behn to Jane Austen

Using material from 17th and 18th century letters, periodicals, poems, plays and novels, this subject considers attitudes to women's writing and the women writers' search for acceptance within their society. Special attention is focused on the work of Mary Wollstonecraft as a detailed example of the historical relationship between women's writing and the demand for women's rights. (Old No. 60.928G)

**WOMS5929 Introduction to Women's Studies**
Development of Women's Studies as an area of research and teaching in Australia overseas. Major theoretical and methodological concerns. Introduction to organizing concepts in interdisciplinary approaches to the study of women and women's issues. (Old No. 60.929G)

**WOMS5930 Feminist Analysis and Computer Applications**
Introduction to quantitative social analysis with particular attention to feminist critiques. Use of SPSSX package. Elementary statistics. (Old No. 60.930G)

**WOMS5931 Post-colonial Women's Literature**
Novels in English by women from post-colonial countries, focusing on the ways in which they have confronted issues of sexual and geographic marginality, and the problems associated with writing in languages and forms that do not adequately express their situation. (Old No. 60.931G)

**WOMS5932 Investigating Women's Health**
Critical analysis and evaluation of recent social, behavioural science, public health and primary health care literature. Case studies in specific health care areas, including social and environmental determinants of women's health, women and health care systems, women's health promotion and disability. (Old No. 60.932G)

**WOMS5933 Images of Women in Indian Literature**
Portrayal of women in Indian epics (in translation) and modern English language novels by men and women. Particular emphasis on perceptions of women in novels by women. (Old No. 60.933G)

**WOMS5934 Women and Ageing in Australian Society**
Examines in an Australian context current beliefs about ageing, independence, and the responsibilities of State and Kin to the elderly. Social consequences of ageing for women and the impact of changes in women's roles on the aged. (Old No. 60.934G)

**WOMS5935 Contemporary Australian Women Novelists**
Selected works by contemporary Australian women novelists. The novels will be considered in terms of their themes and the way these are expressed, and related to contemporary events and ideas. (Old No. 60.935G)

**WOMS5990 Project Report**
(F/T)

**WOMS5995 Project Report**
(P/T)

**WOMS5997 Research Project A (Women's Studies)**
(Old No. 60.920G)

**WOMS5998 Research Project B (Women's Studies)**

**Master of Cognitive Science Degree**

Co-ordinator
Dr Peter Slezak (Science and Technology Studies)

The graduate program in cognitive science at the University of New South Wales is the first of its kind in Australia and reflects the significant developments which have occurred in the range of disciplines which have coalesced into a coherent unified domain of inquiry under the heading 'Cognitive Science'.

Central to this new field are the converging and overlapping concerns of a variety of disciplines broadly dealing with mind, thought and knowledge. These include artificial intelligence, psychology, linguistics, neuroscience, logic and philosophy. This convergence has made it clear that the central issues and problems of cognition do not belong to any one of the disciplinary areas, but rather fall equally well into all of them and are fruitfully approached by a variety of methods.

Accordingly, the program is specifically designed to provide graduates with an exposure to the concepts and theories of related disciplines outside their particular specialty. It offers an integrated program of study through core subjects and electives in a broad range of areas including: artificial intelligence and expert systems, neuroscience, psychology, linguistics and philosophy.

The MCogSc degree course is offered at both the Pass and Honours levels. The Pass degree course (8155) comprises course work only and is available on a part-time basis over a period of two years or full-time over one year.

Candidates who complete the course work requirements of the Pass degree course at a high standard may be eligible for transfer into the Honours program which requires the completion of a research project or thesis. The Honours degree course (2410) may be completed on a part-time basis over four years or full-time over two years.

**Entry Requirements**

Eligibility for admission to the degree program will normally be based on the candidate having completed an appropriate undergraduate degree in one of the following areas: psychology, philosophy, computer science, linguistics, neuroscience, history and philosophy of science.

For admission to the program an undergraduate degree at Honours level is normally required. However, where appropriate a suitable qualifying program of study may be prescribed for an applicant with a good pass degree.

The availability of optional subjects may vary from year to year. Please check with the Centre for Cognitive Science before enrolment.
HPST5100 Cognitive Science Core
Introduction to contemporary discussions of the mind, thought and consciousness in the interdisciplinary field of cognitive science.

The introductory core unit is intended to introduce the range of philosophical and metatheoretical issues which arise in connection with contemporary research in cognitive science and to place these issues in their historical context.

Topics covered include: philosophy of mind and psychology from Descartes to present; neural nets, finite automata and Turing machines; Gödel's theorem, mechanism and the mind; history and theoretical foundations of computing; historical and philosophical perspectives on neuroscience; Chomsky's revolution: from behaviourism to mentalism; artificial intelligence, psychology and philosophy. (Old No. 62.722G)

PSYC7300 Psychology 1: Experimental Psychology In Cognitive Science
Theory of experimental psychology pertinent to cognitive science. Specific topics include learning, memory, decision making, problem solving, perception and language comprehension. (Old No. 12.710G)

PSYC7301 Behavioural Neuroscience
The neurophysiological substrates of learning, memory, perception and cognition. Specific topics include an introduction to the basic structure and physiology of the nervous system. (Old No. 12.711G)

HPST5102 Philosophy 1
Introductory topics in the philosophy of mind, psychology and cognitive science. Issues covered include: the problems of intentionality; mental representation and content; folk psychology and 'propositional attitudes'; methodology and implications of artificial intelligence and the computational view of mind; methodological issues in linguistics (competence theories, psychological reality of formal models); psychological explanation and the problem of theoretical reduction of psychology to neuroscience. (Old No. 62.723G)

HPST5103 Linguistics 1
Language and Mind: an introduction to issues in current linguistic theory, with particular attention to transformational models, their historical development, methodology and philosophical and psychological implications. (Old No. 62.724G)

PHIL5206 AI and Computer Science
Computers and Thought: an introduction to logic, artificial intelligence concepts and programming. Computer models of mind. Introduction to PROLOG: AI and expert system teaching environment. (Old No. 52.600G)

HPST5101 Cognitive Science Core Seminar I
Seminar series in conjunction with material covered in Introductory Core unit lectures. (Old No. 62.725G)

HPST5201 Cognitive Science Core Seminar II
Social and economic impact of computers, information processing and artificial intelligence; moral, philosophical and intellectual implications of the information revolution. (Old No. 62.726G)

EDST2001 Psychology Ila: Cognitive Factors in Acquisition of Intellectual Skills
The nature of perceptual, memorising, thinking, reasoning and problem solving skills. Difference between experts and novices with respect to these skills and techniques which facilitate skill acquisition. The application of these skills to tasks commonly encountered in educational institutions and the workplace. Research techniques which are used to study cognition including experimental design, collection of verbal protocols and construction of computational models using artificial intelligence techniques. (Old No. 58.705G)

ANAT6411 Neuroanatomy
The neurons, neuronal satellite cells; functional anatomy of the central nervous system; blood supply of central nervous system; organs of special sense; endocrine glands; principles of peripheral nerve distribution, together with such additional advanced work as may be required by the instructor. (Old No. 70.012G)

ENGL5506 Linguistics Ila
Language in use: selected topics in pragmatics and semantics, discourse analysis and text linguistics. (Old No. 50.581G)

PHIL5207 AI and Computer Science Ila
Knowledge representation systems, their nature and adequacy. Production systems, search strategies, predicate calculus and Prolog, non-standard logics, networks, frames. (Old No. 52.511G)

PHIL5106 Philosophy Ila
A philosophical investigation of some major issues confronting cognitive science, including: approaches to the theory of intentional systems, the conceptual and physical basis of computational models, accounting for 'program resistant' features of mentality, understanding freedom and responsibility in a mechanistic world. (Old No. 52.512G)

INFS5991 Decision Support Systems
Background to the development and implementation of decision support systems. Use task specification, database specification, inter-active processing. An evolutionary methodology for DSS design. DSS project management, interfaces with management science techniques. (Old No. 19.991G)
management policies. Selection of computing equipment and Implications of centralised and decentralised data socio-technical issues. Data as a corporate resource, the management techniques, project estimation, project control, systems and the organisation, the need for information for consideration of the information systems administration field.

**INFS5953 Advanced Systems Management**

Consideration of the information systems administration field with emphasis on implications for management. Information systems and the organization; the need for information for decision support purposes; organization of the data processing and information systems administration. Project management techniques; project estimation; project control; EDP audit; security implications of privacy legislation; socio-technical issues. Data as a corporate resource, the implications of centralised and decentralised data management policies. Selection of computing equipment and associated software, turn-key systems, contract negotiation. An introduction to computer programming and elementary systems design concepts (for those who have not completed other Information Systems units). *(Old No. 19.953G)*

**Master of Music Degree**

The character of the topics offered by the Department of Music within the course for the award of the degree of Master of Music at Pass level by course work *(course 8245)* incorporates interests developed by the Department over a number of years and is also intended to draw on specialist knowledge from visiting scholars. The course work will require a combination of exact technical data and a consistent awareness of music's place in social and historical contexts. It is designed to stimulate the critical approach of graduate students to a number of important musical considerations while equipping them with an overview of music of considerable breadth. The program places special emphasis on opera and other genres in which music and drama are combined.

The course comprises eight units, which should normally be completed over four sessions of part-time study. The eight units consist of: 1. Research and Critical Method in Music: Year 1, 2 hour seminar plus related 2 hour tutorial per week. Year 2, weekly 2 hour seminar (2 units) 2. Research project (2 units) 3. Four electives each of 3 hours per week for 1 session (1 unit each).

The course is open to graduates who have majored in music or who have equivalent qualifications. Candidates may be required to undertake tutorials and tests in musicianship (particularly in the correlation of ear and eye for the purpose of effective study of primary sources).

**Core Subjects**

The following core subjects each equivalent to two units are common to the programs of all candidates:

- **MUSI5101** Research and Critical Method in Music 1 *(Old No. 61.801G)*
- **MUSI5201** Research and Critical Method in Music 2 (Old No. 61.802G)
- **MUSI5202** Research Project

The research project should be related to one of the units taken earlier in the course and cannot be expanded to an extent that makes it equivalent to four units without the approval of the Head of the Department. Some research projects may require competence in reading at least one other language. In such cases, attainment of this competence will be a requirement of the course. *(Old No. 61.820G)*

**Electives**

Four further units are made up from the study of subjects selected from the following list of electives (all of single unit value).

In addition to contributions to these subjects from full-time and part-time members of staff, visiting scholars from other institutions will take seminars for limited periods.
Graduate Courses

MUSI5102 Music’s Functions in Opera and Drama (Including Films)
Governing factors in the adaptation of spoken dramas as operas or musicals; modes of articulation of drama through a dominant musical element; music and mime; changes of style and emphasis in music for films and their technical bases; inventory and comparison of the purposes of incidental music for plays and films. (Old No. 61.803G)

MUSI5103 American and Australian Responses to Colonial Environments in Music
Racial and religious attitudes reflected in the music of specific migrant groups; archaisms and divergences in style and technique resulting from relative isolation; theories of national or local identity in music and attempts to implement them; ancestry and characteristics of various kinds of traditional music; parlour, touring and concert-hall repertory; the growth of social, industrial and educational structures for music. (Old No. 61.804G)

MUSI5104 Traditional Songs and Dances of Post-1788 Immigrants to Australia
19th century ballads and bush songs - convicts, settlers, bushrangers, gold diggers; the musical characteristics, social functions and stylistic origins of songs and dances; 20th century immigrants and the folk song revival; bibliographic, discographic (audiographic) and archival sources. (Old No. 61.805G)

MUSI5105 Ethnomusicological Theory and Method
19th and early 20th century comparative musicology; the anthropologically-based reaction which led to ethnomusicology; the field method of participant observation; the collection, documentation and analysis of field recordings; the theoretical development from music in culture to music as culture. (Old No. 61.806G)

MUSI5106 Critical Theories and Philosophies in Music
Zarlino’s synthesis; Monteverdi’s ‘seconda pratica’; Roger North’s English view of late 17th and early 18th century theory and practice; pioneering historians (Burney, Hawkins) and their criteria; the 18th century French Encyclopaedists and music; 18th and 19th century published criticism of music in Germany; Herder and folk music; editorial doctrines of consistency; the philosophic assumptions of Schenkerian analysis. (Old No. 61.807G)

MUSI5107 Area Studies 1: Aboriginal Australia and Oceania
Musical and linguistic bases for the concept of music areas as applied to Aboriginal Australia and Oceania; the distribution of vocal and instrumental styles; the function of music in Australian Aboriginal and Oceanic cultures; the relationship between music, art and dance in ceremonial contexts. (Old No. 61.808G)

MUSI5108 Area Studies 2: India and Indonesia
Historical sources of Indian music and music theory; literary and archaeological; classical Indian music ensembles; ragas and tala; Indian and other sources of Indonesian music; the structure of the Javanese gamelan and the musical functions of the subdivisions of the gamelan; music ensembles in Bali and Sumatra. (Old No. 61.809G)

MUSI5109 The Wagnerian Synthesis in Music-Drama
Wagner’s theories of music-drama; their derivations, development, implementation and influence; social, musical and dramatic implications of the design of the Festival Theatre at Bayreuth; the Wagnerian treatment of myth; allegorical and structural theories of The Ring of the Nibelung; purpose and use of the Wagnerian orchestra. (Old No. 61.810G)

MUSI5110 Instrumental Form in the 18th, 19th and 20th Centuries
Comparative study of theories of sonata form; the changing nature of solo-tutti dialogue in concertos; monothematic structures in music, ‘cyclic’ principles and changing functions of variation technique; the responses of instrumental music to Romantic and other literature; tonality and its denial; serial organization and randomness. (Old No. 61.811G)

MUSI5111 The Foundations of Baroque Opera
Theories of declamation and of the relationship of text and setting in late 16th century Europe; immediate antecedents in the theatrical use of music, particularly in dynastic festivities; the Orpheus myth and its dramatic application from Poliziano to Monteverdi; the uses, relative status and dramatic significance of recitative and aria in the 17th century; the contribution of commedia dell’arte and the continuing influence of the pastoral; critical reactions against, and national limitations placed on, sung drama; operatic heroes of myth and ‘history’ and their changing relationship with their audiences. (Old No. 61.812G)

MUSI5112 Renaissance Society in Its Music
Ecclesiastical and political functions of Renaissance music and the role of the patron; the diffusion of vocal and instrumental genres; Bembo and the relationship of text and music in the Italian madrigal; the achievement of Josquin; scientific, experimental and mathematical elements in Renaissance music; nature and function of music in dynastic festivities; changes in Renaissance musical theory; functions of music in theatrical genres; symbolism of musical iconography; differing theories of word-setting; effects of technological change on music and its distribution; religious movements and related musical legacies; twentieth century views of Renaissance performance practice. (Old No. 61.813G)

MUSI5113 Medieval Society in Its Music
Early Christian views of music and its place in the liturgy; Western European traditions of sacred chant; principal musicos-liturgical forms; the importance of music in medieval philosophy; modal systems and forms of Gregorian chant; accretions to the liturgy and their musical results (hymn, sequence, trope, conductus); secular monody, including Latin songs, music of the Jongleurs, Troubadours, Trouvères
and Minnesinger; central concerns of medieval musical theory; early sacred and secular polyphony; the school of Notre Dame; French and Italian Ars Nova; changes in the notation of medieval music, liturgical music drama; the role of institutions in the late medieval cultivation of polyphony. (Old No. 61.814G)

MUSI5114 Sound Recordings as a Chronicle of Vocal Style

Provides the opportunity to study stylistic changes in several Western vocal genres including opera, oratorio, solo song and some more recent kinds of music theatre. This involves analysing and transcribing from sound recordings from the early acoustic era, from the electric and long-playing recording decades and from the digital processes and compact discs of today. Directed towards how and why vocal changes have come about since the introduction of sound recording (approximately the last 100 years) and includes making music transcriptions from the recordings in an attempt to chronicle stylistic changes such as are found in vocal ornamentation, rhythmic interpretation, phrasing, use of portamento, voice production, choice of specific vocal register, type, etc. A detailed study of the vocal genres themselves and also of representative musical examples. (Old No. 61.815G)

MUSI5115 Opera of the late Baroque

By the early 18th century two of the greatest theatrical genres of the Baroque period had stabilised themselves as opera seria and opera buffa. Opera seria, in particular, was the genre which offered a composer the greatest opportunity for fame and for furthering a career and was the vehicle in which singers established international celebrity. The works of Alessandro Scarlatti, Hasse, Handel, Vinci, Leo, Porpora, Pergolesi, Vivaldi, Jommelli, Traetta, Galuppi and others offer a multitude of musical and dramatic comparisons and stylistic interrelationships, while Rameau is the greatest figure of the rival French tradition of lyric tragedy. This is also the period in which one librettist, Metastasio, provided composers of serious opera with a common literary source and a shared subject matter and technique of dramatic exposition such as was available in no other period. (Old No. 61.816G)

MUSI5116 French Opera from the Franco-Prussian War to World War I

The disastrous outcome of the Franco-Prussian War helped generate a new attitude to French music and to opera: the growth of nationalistic feeling was accompanied, paradoxically, by an extraordinary allegiance to Wagnerian ideals in music drama. French composers looked for epic subjects in the legendary or medieval past of their country while the best-known works of the period, such as Bizet's Carmen or most of the operas of Massenet, were sometimes held up as the antithesis of Wagner's practice. Apart from Carmen and Debussy's Pelléas et Mélisande, two very different masterpieces, the period is rich in operatic scores of outstanding interest by such composers as Fauré, Dukas, Ravel, Saint-Saëns, Chabrier, Chausson, D'Indy, Delibes, Lalo, Franck, Reyer, Bruneau and Charpentier, with Massenet providing the leading example of a regular and successful professional dedication to opera. (Old No. 61.817G)

MUSI5117 Analytic Techniques

An examination of the principle theories and techniques which are the foundation of current analytical research in Western music. Topics include: Schenker and his followers - principles of Schenkerian analysis and graphing techniques; recent developments in tonal analysis; pre-serial atonality; analysis of serial music; atonal music analysis. (Old No. 61.818G)

MUSI5118 The Rossinian Revolution

Not offered in 1991.

Master of Policy Studies Degree

Department of Social Science and Policy

The MPS Degree at the University of New South Wales is designed to prepare students for effective participation and leadership in problem solving and policy making in a variety of organisational contexts. The issues and managerial challenges of the public and private sectors are multi-dimensional and dynamic, and require professionals who can combine a variety of disciplinary approaches, and who are familiar with the varied roles of government, commercial and community interests in the development and execution of policy.

The degree prepares students for work which requires analytical skills and a practical appreciation of the processes of policy-making and implementation. There is an emphasis placed on developing the skills and perspectives necessary for proficient assessment and evaluation. Sensitivity to the effectiveness of programs in terms of the impact they have of the public, clients or customers is central to effective policy making.

Many graduates will proceed to careers in Commonwealth, state or local government. Others will contribute to the policy-making process in unions or community organisations. Career opportunities exist in private corporation, consulting groups or international organisations. Some graduates will work directly in the service of electoral politics.

Duration

The MPS is a one year full-time coursework degree (course 8248). It may also be taken over a two year period as a part-time program.

Eligibility for Admission

Applicants will be considered who hold a bachelor's degree in any field from an approved university or college of advanced education and who have significant work experience in an area appropriate to the degree program.
Applicants who have completed at least one year (or equivalent) of appropriate study beyond the first degree, may be admitted with a lesser work experience requirement.

In exceptional circumstances applicants may be admitted without a first degree but with general and professional attainments acceptable to the Department.

**MPS Degree Requirements**

Eleven subjects make up the coursework component:

1. **Common Core Subjects**:
   - Seven Common Core subjects studied by all candidates:
     1. SLSP5001 Policy Analysis
     2. SLSP5002 Empirical Analysis
     3. SLSP5003 Decision Making: Theory, Practice and Ethics
     4. SLSP5004 Management in Organisations
     5. SLSP5005 Policy Workshop
     6. SLSP5006 Major Policy Exercise
     7. SLSP5007 Course Review Program

2. **Optional Core Subject**:
   - SLSP5008 Advanced Social Science and Policy

The program presumes a basic level of competence on the part of all participants in areas such as general social, political and economic literacy, statistical knowledge and computer applications. Applicants who can demonstrate to the satisfaction of the Department that they have sufficient background in all of these areas will be permitted to waive this requirement. Those needing additional preparation in one or more of the areas may be required to take the subject SLSP5008 - Advanced Social Science and Policy.

3. **Area Concentration Subjects**:
   - At least four subjects in an Area of Concentration approved by the Department and the Higher Degree Committee of the Faculty of Arts.

   The Areas of Concentration currently available are:
   - MPS - Asian Studies
   - MPS - Australian Public Policy
   - MPS - Scientific Research and Technological Innovation Policy

**Subject Descriptions**

**Common Core Subjects**

**SLSP5001 Policy Analysis**

What is policy? The nature and means by which organizations mobilise and utilise the concept of policy. The relationships between government policy and the policies of non-government organizations. The structure and function of government is examined in relation to those economic, social and political forces and interests which shape, and are in turn affected by public policy. The impact of decisions on those who implement policies, and on the clients, public or customers affected by policies.

**SLSP5002 Empirical Analysis**

A critical and practical subject in the science and art of making use of quantitative information stressing application in policy-making and implementation. Emphasis is placed on assessment and evaluation of programs from the perspective of both the manager and client. The use of such techniques as data collection, probability theory, hypothesis testing, statistical inference, regression analysis.

**SLSP5003 Decision Making: Theory, Practice and Ethics**

**SLSP5004 Management in Organizations**

This subject emphasizes the processes associated with the development of institutional strategies for achieving long-term goals. The combined roles of analytical policy researcher, entrepreneurial policy 'champion', and program manager are developed as necessary components of any effective process.
of developing the operational capabilities of an organization. Importance is attached to understanding the responsibility the policy maker and manager has to the members of the organization, the community, clients or customers. Students achieve an understanding of the mechanisms of managerial influence such as budgeting, information systems, industrial practices, etc.

SLS5005 Policy Workshop
The Policy Workshop involves students in a number of short case studies in which senior policy-makers from the public, union, private or community sectors contribute to the definition of the problem, and the assessment of performance. The Policy Workshop is designed to encourage team-work, interdisciplinary interaction, and the application of the knowledge and skills acquired in the coursework sessions.

SLS5006 Major Policy Exercise
Students undertake individual and/or group policy research in consultation with senior policy-makers from the public, union, private or community sectors. A Major Policy Paper is presented to the client, and is assessed by both the client and academic staff. The process of preparing the report may involve writing of memoranda, briefing documents, etc. The Major Policy Paper will normally include recommendations, including implementation strategies.

SLS5007 Course Review Program
This subject is designed to provide students an opportunity in the final stage of the program to intergrate the diverse elements of the course. The course review program includes written and oral components. It covers all the material included in the core program, the concentration program, the policy exercise, and an additional program of reading agreed on after consultation between the Department and the student.

SLS5008 Advanced Social Science and Policy
A number of modules in areas such as social, political and economic literacy, statistical knowledge and computer applications. Students are required to take those modules which cover areas in which they have need of additional preparation.

Area Concentrations

Asian Studies
MPS with an Area Concentration in Asian Studies.
In addition to the seven MPS Common Core Subjects, Candidates must complete the following program.
The Common Subject:
ASIA5000 Approaches to Asia
Two Subjects chosen from the following:
POLS5101 China: Politics of Economic Management
HIST5204 Politics and Society in Indonesia
HIST5223 The Modern Middle East
HIST5202 Vietnam at War 1945-1975
ENGL5020 The Fiction of Modern India

SOCL5318 Religion and Popular Protest in Modern Asian Societies
HIST5216 Intellectual Trends and the Rise of Communism in China
HIST5217 Thailand and Cambodia: Development and Devastation
LIBS0845 Information Technology in Asia

Australian Public Policy
MPS with an Area Concentration in Australian Public Policy.
In addition to the seven MPS Common Core Subjects, Candidates must complete the following program.
The Common Subject:
POLS5100 Issues in Australian Public Policy
Three Subjects chosen from the following:
POLS5102 Australia and the World
POLS5104 Aspects of Australian Government and Politics
POLS5106 Foreign and Defence Policy Studies
POLS5111 Post War Australian Political Culture
SOC15301 Power, Privilege and Culture in Australia
SOC15307 State Bureaucracy and Higher Administration
SCTS5107 Technology, Innovation and Industry Policy: An Australian Perspective

Scientific Research & Technological Innovative Policy
MPS with an Area Concentration in Scientific Research and Technological Innovation Policy
In addition to the seven MPS Common Core Subjects, Candidates must complete the following program.
Four Subjects chosen from the following:
ECOH5365 Science, Technology and Economic Development
SCTS5103 Knowledge, Power and Public Policy
SCTS5105 Science Policy: The International Dimension
SCTS5107 Technology, Innovation and Industry Policy: An Australian Perspective
SCTS5109 The Nature of Technological Controversies
SOC15306 Technology and Working Life
Applicants must satisfy the Co-Ordinator of the Master of Science and Society Degree Committee that he/she is sufficiently prepared to undertake the course of study. In some cases candidates may, in addition to the four subjects from the above list, be required to complete one or more modules from the subject:
SCTS5100 Science and Society in the 20th Century

Master of Science and Society Graduate Diploma in Science and Society
The Science and Society program was established at the University in 1977. It is the largest program of its kind in Australia. Organized by the School of Science and Technology Studies, it is taught by a team of lecturers drawn from a number of different schools and faculties in the University.
Entry Requirements

The normal qualification for entry is a four-year degree, or its equivalent, in Science, Engineering, Medicine, Law, Computing, or the Social Sciences. In some cases other professional qualifications or experience may be considered.

Graduate Diploma

The requirements for the Graduate Diploma in Science and Society are: the completion of the core subject (double unit) SCTS5100 together with two additional elective subjects. The Graduate Diploma program should normally be completed over 2 sessions of part-time (evening) study. Candidates who complete the Graduate Diploma at an acceptable level will have the option of transferring to the MScSoc degree course.

Degree Structure

The MScSoc degree course (8185) comprises 8 units which should normally be completed over 4 sessions of part-time (evening) study. A unit requires 28 hours of seminar classwork and additional private study.

The 8 units are made up of: 1. SCTS5100 (Core*) 2. SCTS5200 (Field Seminar*) 3. Four elective subjects.

Selected candidates may undertake a third-year MScSoc Honours degree course (2331) of advanced study which includes a dissertation based on supervised research into particular aspects of the relationships between science, technology and social institutions.

* double unit.

Core Seminar

SCTS5100 Science and Society in the 20th Century

The key issues raised by the interaction between science and society in the 20th century. The subject consists of six topic modules drawn from the following list, each presented over a period of four weeks.

1. The Social and Economic Relations of Technology. Fundamental concepts concerning the imperatives of technology, the technostructure, the political dimensions of technological change, technological determinism, the technological fix, the ideology of industrialization, alternative technology. 2. Theories of Social Change. A comparative analysis of leading theories of social change, including Marxism and theories of industrial and post-industrial society, stressing the role of science and technology. 3. Technology and Social Change. A case study of the social impact of (1) energy technologies on Australia and/or the developing world; or (2) the microelectronics revolution on commerce and industry. 4. Historical Dimensions of Scientific Change. A case study of a major conceptual advance in 20th century science (eg the development of relativistic physics or of genetics and molecular biology) as an introduction to problems of (1) scientific change and progress; (2) scientific community relations, and (3) science, ideology and responsibility. 5. The Philosophy of Science. Contemporary issues in the philosophical analysis of science. Stress on (1) the dynamics of conceptual change; (2) theories of progress; (3) models of scientific reasoning and method; and (4) external relations of scientific theory and practice. 6. Science as a Social Enterprise. Scientific institutions, patterns of communication, norms and values; social determinants of conformity and innovation; the internal and external politics of science. 7. Social Responsibility in Science. A history of the 'Social Responsibility movement'; ethical and political dimensions of the problem of responsibility in science.

Electives

ECOH5365 Science, Technology and Economic Development

The several functions of science and technology in development, past, present and possible future. Development in economics and sociology; case studies, ranging from nineteenth century Japan to China since 1950. The place of technology in contemporary development and the role of international institutions (eg multinational corporations) in transfers of scientific and technical knowledge. The 'appropriateness' of introduced technique and the concept of alternative technology and alternative development patterns.

IROB5507 New Technology and Employment

The characteristics and diffusion of new technology. Ideologies associated with technological change. The role of the state in regulating the impact of new technology. Education and training for the information society. Managing new technology in a variety of organizational settings. New technology in relation to work design, skills and the work environment. Stress and job satisfaction in relation to new technology. Emerging forms of work organization and authority associated with flexible specialisation in regulating technological change. New technology as a critical factor shaping a new type of society.

SCTS5101 The Scientific Community

A sociological analysis of the science community, which establishes the characteristics of this subgroup of society by examining its internal and external social relations. The internal relations refer to cognitive and behavioural factors within the community itself that promote (or retard) the advancement of science. The external relations refer to the political, ideological, economic and bureaucratic forces in society that shape and control the scientific community and the knowledge it produces.

SCTS5102 Science, Philosophy and Social Values

Exposition and appraisal of some of the classical ethical theories. Examination of the claims of science to be able to provide a basis for moral judgements. Attempts at establishment of an ethical framework which may serve as a basis for decision-making when problems of an ethical nature arise in science. Selected case studies, in which decisions as to the most appropriate form of action are evaluated in the light of the ethical framework previously established. The social responsibility in science movement and its problems.

SCTS5103 Knowledge, Power and Public Policy

An introduction to the relationship between science and politics in the 20th century; the nature and consequences of government support for research and development; the freedom vs planning debate in science policy decision-making frameworks and the attempts to establish
criteria of choice in a no-growth situation; science and technology policy - international perspectives.

SCTS5104 Science in National Cultures: Comparative Historical Perspective
Historical and contemporary aspects of the comparative development of scientific institutions and research styles in different national contexts. Other themes: the modes of interaction and mutual perceptions of scientific communities in Western industrializing nations from the 19th century, the question of convergence in systems of scientific organization in East and West.

SCTS5105 Science Policy: The International Dimension
A detailed consideration of the justification for, and the arguments against government intervention in systems of research and development. Theoretical discussions of this problem are given concrete focus by appraisals of the policy machinery evolved in various developed countries, including the United States, Great Britain, Australia, Canada, France, West Germany, The Netherlands and Israel.

SCTS5106 Science, Politics and the Media
The role of electronic and print media in debate about the social impact of science and technology. The historical and contemporary role of the media in disseminating scientific information and its effect on social attitudes and behaviour; the difficulties of handling scientific issues in the media and their consequences; the media as ‘reporting’ vs. the media as a forum for management of public debate by particular interest groups. Case studies of the presentation of scientific and technological issues in the media.

SCTS5107 Technology, Innovation and Industry Policy: An Australian Perspective
An introduction to the economics of industrial research and development. Key focus: historical influences on Australia's innovative performance. Topics include: the nature of linkages between science research, technology capability, innovation acumen and economic growth; economic effects of the patent system; modes of technology transfer and foreign investment in the manufacturing sector; the policies of industry assistance and dependent development strategy; technological change and the role of the state; structural adjustment and industry policy; high-technology strategy and international competitiveness; labour market productivity in peripheral economies.

SCTS5108 Public Health in Australia, 1850-1950
The historical relationship of medicine and the state, particularly in eastern Australia. The role of the medical profession in the planning and implementation of public health policies in NSW, Victoria and Queensland will be examined and compared with similar developments in Britain and North America. Such issues as medical and public health legislation, the place of the medical officer of health, the influence of changing disease patterns and societal attitudes, medical theories and practice, the growth of specialties and the professionalization of medicine will be considered.

SCTS5109 The Nature of Technological Controversies
Technological controversies, for example, over environmental issues, chemical uses and biotechnologies, are increasingly the subject of public debate. This subject considers how such debates are formed and conducted, how agendas are constructed, the relative power and resources available to those involved in such disputes, and the means by which controversies are finally closed. Students will be able to choose a particular subject on which to focus. Social construction of technology, paradigm formation, the politics of objectivity, political legitimacy, the role of expertise, public participation and the media.

SCTS5110 Supervised Reading Program
Prerequisites: SCTS5100 and permission of the MScSoc Co-ordinator.
A session-length program of supervised reading on an approved topic not catered for elsewhere in subjects offered for the Graduate Diploma in Science and Society or the MScSoc degree.

SCTS5111 Philosophy of Science and the Sociology of Knowledge
Recent philosophical and sociological theories concerning the nature of scientific knowledge and the role which social conditions play in its production and acceptance. Topics include: post-Kuhnian philosophies of science; the 'strong program' for the sociology of knowledge; 'field' theories and the analysis of power relations in science; and epistemological problems raised by commercial and governmental direction of scientific research.

SCTS5112 Technology and Power in East Asia
The history of cultural and economic change in East Asia, with a focus on the approaches to technological and industrial development which have allowed first Japan and now Korea, Taiwan and mainland China to achieve rapid economic growth. Australia's orientation towards East Asia will also be examined, together with the impact which knowledge intensive high-technology industries, information technology and global economic pressures have had on this relationship.

SOCIS06 Technology and Working Life
Technology as a social and political phenomenon. Responses to technology both in the present (eg the microprocessor, nuclear energy debates) and in the past (eg Luddism). The way particular schools of social theory have conceived of technology: Marx, Weber, Frankfurt school and other relevant theoretical perspectives. Other topics include: micro-electronic technology and the labour process; nuclear energy; technology and sexism; weapon technology; and alternative technology.

Field Seminar

SCTS5200 Field Seminar
Prerequisites: SCTS5100 and permission of the MScSoc Co-ordinator.
Students in the Field Seminar select one of the following fields of concentration: (1) history, philosophy and social studies of science and technology; (2) contemporary issues in the philosophy, politics and economics of the life sciences and advanced technologies; (3) contemporary issues in the social, political and economic aspects of science, technology and environmental policy and management. Students must complete a course of directed readings, an examination and an essay of approximately 10,000 words in their field of concentration.
Graduate Study

Conditions for the Award of Higher Degrees

Rules, regulations and conditions for the award of first degrees are set out in the appropriate Faculty Handbooks. For the list of undergraduate courses and degrees offered see Table of Courses by Faculty (Undergraduate Study).

The following is the list of higher degrees and graduate diplomas of the University, together with the publication in which the conditions for the award appear. For the list of graduate degrees by research and course work, arranged in faculty order, see Table of Courses (by faculty): Graduate Study in the Calendar.

For the statements Preparation and Submission of Project Reports and Theses for Higher Degrees and Policy with respect to the Use of Higher Degree Theses see later in this section.

The degree of Doctor of Philosophy may be awarded by the Council on the recommendation of the Higher Degree Committee of the appropriate faculty or board (hereinafter referred to as the Committee) to a candidate who has made an original and significant contribution to knowledge.

1. A candidate for the degree shall have been awarded an appropriate degree of Bachelor with Honours from the University of New South Wales or a qualification considered equivalent from another university or tertiary institution at a level acceptable to the Committee.

2. In exceptional cases an applicant who submits evidence of such other academic and professional qualifications as may be approved by the Committee may be permitted to enrol for the degree.

3. If the Committee is not satisfied with the qualifications submitted by an applicant the Committee may require the applicant to undergo such assessment or carry out such work as the Committee may prescribe, before permitting enrolment as a candidate for the degree.

4. An application to enrol as a candidate for the degree shall be lodged with the Registrar at least one month prior to the date at which enrolment is to begin.

5. In every case before making the offer of a place the Committee shall be satisfied that agreement has been reached between the School and the applicant on the topic area, supervision arrangements, provision of adequate facilities and any coursework to be prescribed and that these are in accordance with the provisions of the Bill of Rights for postgraduate research students.

6. The candidate shall be enrolled either as a full-time or a part-time student.

7. A full-time candidate will present the thesis for examination no earlier than three years and no later than five years from the date of enrolment and a part-time candidate will present the thesis for examination no earlier than four years and no later than six years from the date of enrolment, except with the approval of the Committee.
The candidate may undertake the research as an internal student, i.e., at a campus, teaching hospital, or other research facility with which the University is associated, or as an external student not in attendance at the University except for periods as may be prescribed by the Committee.

An internal candidate will normally carry out the research on a campus, at a teaching facility, or at another research facility of the University except that the Committee may permit a candidate to spend a period in the field, within another institution, or elsewhere away from the University provided that the work can be supervised in a manner satisfactory to the Committee. In such instances, the Committee shall be satisfied that the location and period of time away from the University are necessary to the research program.

The research shall be supervised by a supervisor or supervisors or under other appropriate supervision arrangements approved by the Committee. Normally, an external candidate within another organisation or institution will have a co-supervisor at that institution.

### Progression

The progress of the candidate shall be considered by the Committee following the report from the School in accordance with the procedures established within the School and previously noted by the Committee.

(i) The research proposal will be reviewed as soon as feasible after enrolment. For a full-time student, this will normally be during the first year of study, or immediately following a period of prescribed coursework. This review will focus on the viability of the research proposal.

(ii) Progress in the course will be reviewed within twelve months of the first review. As a result of either review, the Committee may cancel enrolment or take such other action as it considers appropriate. Thereafter, the progress of the candidate will be reviewed annually.

### Thesis

1. On completing the program of study, a candidate shall submit a thesis embodying the results of the investigation.

2. The candidate shall give in writing to the Registrar two months' notice of intention to submit the thesis.

3. The thesis shall comply with the following requirements:
   
   (a) It must be an original and significant contribution to knowledge of the subject;
   
   (b) The greater proportion of the work described must have been completed subsequent to enrolment for the degree;
   
   (c) It must be written in English except that a candidate in the Faculty of Arts may be required by the Committee to write a thesis in an appropriate foreign language;
   
   (d) It must reach a satisfactory standard of expression and presentation;
   
   (e) It must consist of an account of the candidate's own research but in special cases work done conjointly with other persons may be accepted provided the Committee is satisfied about the extent of the candidate's part in the joint research.
   
4. The candidate may not submit as the main content of the thesis any work or material which has previously been submitted for a university degree or other similar award but may submit any work previously published whether or not such work is related to the thesis.

5. Four copies of the thesis shall be presented in a form which complies with the requirements of the University for the preparation and submission of theses for higher degrees.

6. It shall be understood that the University retains the four copies of the thesis submitted for examination and is free to allow the thesis to be consulted or borrowed. Subject to the provisions of the Copyright Act, 1968, the University may issue the thesis in whole or in part, in photostat or microfilm or other copying medium.

### Examination

1. There shall be no fewer than three examiners of the thesis, appointed by the Committee, at least two of whom shall be external to the University.

2. At the conclusion of the examination, each examiner shall submit to the Committee a concise report on the thesis and shall recommend to the Committee that:

   (a) The thesis merits the award of the degree.
   
   (b) The thesis merits the award of the degree subject to minor corrections as listed being made to the satisfaction of the head of school.
   
   (c) The thesis requires further work on matters detailed in my report. Should performance in this further work be to the satisfaction of the higher degree Committee, the thesis would merit the award of the degree.
   
   (d) The thesis does not merit the award of the degree in its present form and further work as described in my report is required. The revised thesis should be subject to re-examination.
(e) The thesis does not merit the award of the degree and does not demonstrate that resubmission would be likely to achieve that merit.

(3) If the performance at the further work recommended under (2)(c) above is not to the satisfaction of the Committee, the Committee may permit the candidate to re-present the same thesis and submit to further examination as determined by the Committee within a period specified by it but not exceeding eighteen months.

(4) The Committee shall, after consideration of the examiners' reports and the results of any further work, recommend whether or not the candidate may be awarded the degree. If it is decided that the candidate be not awarded the degree the Committee shall determine whether or not the candidate be permitted to resubmit the thesis after a further period of study and/or research.

7. A candidate shall pay such fees as may be determined from time to time by the Council.

1. The degree of Master of Arts at Honours level may be awarded by the Council on the recommendation of the Higher Degree Committee of the Faculty of Arts (hereinafter referred to as the Committee) to a candidate who has satisfactorily completed a program of advanced study. The degree shall be awarded either with the grade of Honours Class 1 or with the grade of Honours Class 2. A candidate for the award of the degree at Honours level shall not be awarded the degree at Pass level.

2. (1) A candidate for the degree shall have been awarded an appropriate degree of Bachelor from the University of New South Wales or a qualification considered equivalent from another university or tertiary institution at a standard not below Honours Class 2.

(2) In exceptional cases an applicant who submits evidence of such other academic and professional qualifications as may be approved by the Committee may be permitted to enrol for the degree.

(3) If the Committee is not satisfied with the qualifications submitted by an applicant to undergo such assessment or carry out such work as the Committee may prescribe, before permitting enrolment.

3. (1) An application to enrol as a candidate for the degree shall be made on the prescribed form which shall be lodged with the Registrar at least one calendar month before the commencement of the session in which enrolment is to begin.

(2) In every case, before permitting a candidate to enrol, the head of the school* in which the candidate intends to enrol shall be satisfied that adequate supervision and facilities are available.

(3) An approved candidate shall be enrolled in one of the following categories:

(a) full-time attendance at the University;
(b) part-time attendance at the University;
(c) external - not in regular attendance at the University and using research facilities external to the University.

(4) A candidate shall:

(a) undertake such formal subjects and pass such assessment as prescribed, and shall submit a project report on an approved topic, or
(b) demonstrate ability to undertake research by the submission of a thesis embodying the results of an original investigation on an approved topic.

(5) A candidate who has been admitted to the degree of Master of Arts at pass level in a field of study will not be admitted to a program of coursework and research honours level in the same field as indicated in 3 (4) (a) above but may be admitted to a research program in that field as indicated in 3 (4) (b) above.

(6) A candidate may also be required to undergo such assessment and perform such other work as may be prescribed by the Committee.

(7) The work on the topic shall be carried out under the direction of a supervisor appointed from the full-time academic members of the University staff.

(8) The progress of a candidate shall be reviewed annually by the Committee following a report by the candidate, the supervisor and the head of the school* in which the candidate is enrolled and as a result of such review the Committee may cancel enrolment or take such other action as it considers appropriate.

* Or department where a department is not within a school or schools or departments where the research is being undertaken in more than one school or department.
(9) (a) No candidate shall be awarded the degree of Master of Arts at honours level, undertaken by thesis, until the lapse of three academic sessions from the date of enrolment in the case of a full-time candidate or four academic sessions in the case of a part-time or external candidate. In the case of a candidate who has had previous research experience the Committee may approve remission of up to one session for a full-time candidate and two sessions for a part-time or external candidate.

(b) No candidate shall be awarded the degree of Master of Arts at honours level, undertaken by coursework and project report, until the lapse of four academic sessions from the date of enrolment in the case of a full-time candidate or five academic sessions in the case of a part-time candidate or external candidate. In the case of a candidate who has had previous research experience the Committee may approve a remission of up to two sessions for a full-time candidate and three sessions for a part-time or external candidate.

(10) The maximum period of candidature shall be six academic sessions from the date of enrolment for a full-time candidate and eight academic sessions from the date of enrolment for a part-time or external candidate. In special cases an extension of these times may be granted by the Committee.
(b) the candidate be awarded the degree either with Honours Class 1 or with Honours Class 2 without further examination subject to minor corrections as listed being made to the satisfaction of the head of the school; or

c) the candidate be awarded the degree either with Honours Class 1 or with Honours Class 2 subject to a further examination on questions posed in the report, performance in this further examination being to the satisfaction of the Committee; or

d) the candidate be not awarded the degree but be permitted to resubmit the thesis in a revised form after a further period of study and/or research; or

e) the candidate be not awarded the degree and be not permitted to resubmit the thesis.

(3) If the performance at the further examination recommended under (2) (c) above is not to the satisfaction of the Committee, the Committee may permit the candidate to re-present the same thesis and submit to further examination as determined by the Committee within a period specified by it but not exceeding eighteen months.

(4) The Committee shall, after consideration of the examiners' reports and the results of any further examination or prescribed course of study, recommend whether or not the candidate may be awarded the degree.

7. A candidate shall pay such fees as may be determined from time to time by the Council.

1. The degree of Master of Cognitive Science at Honours level may be awarded by the Council on the recommendation of the Higher Degree Committee of the Faculty of Arts (hereinafter referred to as the Committee) to a candidate who has demonstrated ability to undertake research by the submission of a thesis embodying the results of an original investigation. The degree shall be awarded either with the grade of Honours Class 1 or with the grade of Honours Class 2.

2. (1) A candidate for the degree shall:

(a) have been awarded an appropriate degree of Bachelor with Honours from the University of New South Wales or a qualification considered equivalent from another university or tertiary institution at a level acceptable to the Committee, and

(b) have completed the requirements for the award of the degree at Pass level.

(2) In exceptional cases an applicant who submits evidence of such other academic and professional qualifications as may be approved by the Committee may be permitted to enrol for the degree.

(3) If the Committee is not satisfied with the qualifications submitted by an applicant the Committee may require the applicant to undergo such assessment to carry out such work as it may prescribe, before permitting enrolment.

3. (1) An application to enrol as a candidate for the degree shall be made on the prescribed form which shall be lodged with the Registrar at least one calendar month before the commencement of the session in which enrolment is to begin.

(2) In every case, before permitting a candidate to enrol, the Chair of the Master of Cognitive Science Management Committee (hereinafter referred to as the Chair of the Management Committee) shall be satisfied that adequate supervision and facilities are available.

(3) An approved candidate shall be enrolled in one of the following categories:

(a) full-time attendance at the University;

(b) part-time attendance at the University;

(c) external - not in regular attendance at the University and using research facilities external to the University.

(4) A candidate shall be required to undertake an original investigation on an approved topic. The candidate may also be required to undergo such assessment and perform such other work as may be prescribed by the Committee.

(5) The work shall be carried out under the direction of a supervisor appointed from the full-time academic members of the University staff.

(6) The progress of a candidate shall be reviewed annually by the Committee following a report by the candidate, the supervisor and the Chair of the Management Committee and as a result of such review the Committee may cancel enrolment or take such other action as it considers appropriate.

*Or department where a department is not within a school; or in the case of an interdisciplinary program the Chairperson of the MA Committee in Interdisciplinary Studies; or heads of schools or departments where the research is being undertaken in more than one school or department.
(7) No candidate shall be awarded the degree until the lapse of two academic sessions from the date of enrolment in the case of a full-time candidate or four sessions in the case of a part-time or external candidate. In the case of a candidate who has been awarded the degree of Bachelor with Honours or who has had previous research experience, the Committee may approve remission of up to one session for a full-time candidate and two sessions for a part-time or external candidate.

(8) A full-time candidate for the degree shall present for examination not later than four academic sessions from the date of enrolment. A part-time or external candidate for the degree shall present for examination not later than eight academic sessions from the date of enrolment. In special cases an extension of these times may be granted by the Committee.

Thesis

4. (1) On completing the program of study a candidate shall submit a thesis embodying the results of the investigation.

(2) The candidate shall give in writing to the Registrar two months notice of intention to submit the thesis.

(3) The thesis shall present an account of the candidate's own research. In special cases work done conjointly with other persons may be accepted, provided the Committee is satisfied on the candidate's part in the joint research.

(4) The candidate may also submit any work previously published whether or not such work is related to the thesis.

(5) Three copies of the thesis shall be presented in a form which complies with the requirements of the University for the preparation and submission of theses or higher degrees.

(6) It shall be understood that the University retains the three copies of the thesis submitted for examination and is free to allow the thesis to be consulted or borrowed. Subject to the provisions of the Copyright Act, 1968, the University may issue the thesis in whole or in part, in photostat or microfilm or other copying medium.

Examination

5. (1) There shall be not fewer than two examiners of the thesis, appointed by the Academic Board on the recommendation of the Committee, at least one of whom shall be external to the University unless the Committee is satisfied that this is not practicable.

(2) At the conclusion of the examination each examiner shall submit to the Committee a concise report on the thesis and shall recommend to the Committee that:

(a) the candidate be awarded the degree either with Honours Class 1 or with Honours Class 2 without further examination; or

(b) the candidate be awarded the degree either with Honours Class 1 or with Honours Class 2 without further examination subject to minor corrections as listed being made to the satisfaction of the head of the school; or

(c) the candidate be awarded the degree either with Honours Class 1 or with Honours Class 2 subject to a further examination on questions posed in the report, performance in this further examination being to the satisfaction of the Committee; or

(d) the candidate be not awarded the degree but be permitted to resubmit the thesis in a revised form after a further period of study and/or research; or

(e) the candidate be not awarded the degree and be not permitted to resubmit the thesis.

(3) If the performance at the further examination recommended under (2) (c) above is not to the satisfaction of the Committee, the Committee may permit the candidate to re-present the same thesis and submit to further examination as determined by the Committee within a period specified by it but not exceeding eighteen months.

(4) The Committee shall, after consideration of the examiners' reports and the results of any further examination, recommend whether or not the candidate may be awarded the degree. If it is decided that the candidate be not awarded the degree the Committee shall determine whether or not the candidate may resubmit the thesis after a further period of study and/or research.

Fees

6. A candidate shall pay such fees as may be determined from time to time by the Council.

This Handbook has been specifically designed as a source of reference for you and will prove useful for consultation throughout the year.

For fuller details about the University – its organization, staff membership, description of disciplines, scholarships, prizes, and so on, you should consult the Calendar.

The Calendar and Handbooks also contain a summary list of higher degrees as well as the conditions for their award applicable to each volume.

For detailed information about courses, subjects and requirements of a particular faculty you should consult the relevant Faculty Handbook.

Separate Handbooks are published for the Faculties of Applied Science, Architecture, Arts, Commerce and Economics, Engineering, Law, Medicine, Professional Studies, Science (including Biological and Behavioural Sciences and the Board of Studies in Science and Mathematics), and the Australian Graduate School of Management (AGSM).

The Calendar and Handbooks, which vary in cost, are available from the Cashier's Office.
