Foreword

In the foreword to the 1990 College Handbook, I predicted that the amalgamation of the City Art Institute with The University of New South Wales would bring major benefits to our students, our courses and our staff. I am happy to report that my optimism was well founded.

The unreserved welcome and co-operation we have received has guaranteed a smooth transition and it is appropriate that on behalf of the College, I should record our thanks for the help and encouragement we have received.

The review of courses commenced in 1990 will continue into 1991. A number of new courses and revisions of existing courses have been approved or are currently under review. This process should be completed during the coming year.

With the completion of the major building programme commenced in 1989, the College looks forward to consolidation on a single campus by the end of 1991. Since its establishment in 1975, the College has been obliged to conduct its teaching as a multi campus enterprise with all the disadvantages that such an operation imposes.

These difficulties will disappear with the occupation of our new purpose designed premises which will increase both the size and the quality of the teaching spaces used by the College.

All academic institutions are faced with the challenge imposed by difficult economic times, nevertheless, I look forward to 1991 with optimistic anticipation based on the confidence I have in the College staff which has proved itself equal to greater challenges in the past.

Department of Design Studies

The Clement Semmler Library

The Clement Semmler Library is situated on the Selwyn Street Campus above the Ivan Dougherty Gallery. It was named after Dr. Clement Semmler O.B.E., D.Litt., M.A. distinguished writer and critic and past Chairman of the Alexander Mackie College Council. The library supports the teaching programs and information requirements of the College of Fine Arts by providing a stimulating collection of resource materials and a broad range of services.

The collection includes books, periodicals, slides, video-cassettes, prints and other non-book materials covering a comprehensive range of subjects relevant to the teaching program. As well as assistance to readers in groups or on an individual basis, the library offers reciprocal borrowing rights with the University of New South Wales Library, card operated photocopiers, typewriters and sound and video equipment for use within the library. Services to staff include inter-library loan, bibliographic searches and online data base searching.

As a member of the CLANN library network, the library is able to provide many of the benefits offered by modern technology, such as online catalogues and computerized lending, as well as reciprocal borrowing rights with other CLANN libraries. Emphasis is placed on assisting users to make the best possible use of the information resources available, with the aim of providing lasting learning skills among all users.

The Ivan Dougherty Gallery

The Ivan Dougherty Gallery was established in 1977 by the Alexander Mackie College at 200 Cumberland Street, The Rocks, Sydney. It was named after Major General Sir Ivan Dougherty, Chairman of the first college council following the establishing of the College as a College of Advanced Education in 1975.

When funds were made available to refurbish the public school built in 1894 on the Albion Avenue site, part of the ground floor was developed as the Ivan Dougherty Gallery's new premises which opened in April 1981.

The purpose of the gallery is to provide an educational and cultural resource for the students and staff of the College, the University and the general public. This involves the mounting of exhibitions, installations and performances of a high standard which can be related to the College's art courses. Consequently, the exhibitions range over a wide selection of disciplines including printmaking, sculpture, video, painting, photography and the crafts. Exhibitions are usually of thematic or survey type and include the work of those individuals who have made an outstanding contribution to art or who may be considered to be in the vanguard of developments in twentieth century visual arts.

Gallery hours: Mon-Fri 10-5; Sat 1-5.

The Works Gallery

The Works is the on-campus student gallery at the Selwyn Street campus of the College of Fine Arts.

The gallery is administered by the Student Association and run by a representative committee. The aims of the gallery are to narrow the distance between the art school and arts-related industries, to provide a professional environment for students to gain experience in gallery procedures and to create a facility for students to gain curatorial experience.

The Works provides a space for the viewing of the current and recent work of artists who are embarking on their careers in the visual arts.

The gallery calendar includes inter-college and overseas student exchange exhibitions, the hosting of major student-based art prizes and exhibitions of studio work from within the College.

Awards and Prizes

The Telecom Fine Art Scholarships
Telecom Australia sponsors two substantial scholarships to encourage and assist graduates of the College's Bachelor of Fine Arts, Bachelor of Art Education and Bachelor of Design Courses to travel, undertake further study or commence professional practice.
General Information

The Student & Staff Advisory Service

Counselling
The Counselling service is available free of charge to students and staff experiencing any personal difficulties arising inside or outside the College.

Students and staff present with a range of problems including:

* Financial, e.g. Austudy, loans;
* Administrative, e.g. withdrawal, special consideration, appeals;
* Vocational, e.g. career change, interview skills;
* Academic, e.g. essay writing, seminar presentation, teaching skills, communication;
* Interpersonal Relationships; and
* Other stresses which are affecting their ability to fulfil their potential as a student or a member of staff.

All consultations are confidential. If the counsellor is unable to assist, referrals can be made to appropriate persons or organizations.

EEO Counselling
At the College of Fine Arts human rights to work, study and gain qualifications without suffering discrimination on the grounds of sex (including sexual harassment), race, marital status or pregnancy are protected in accordance with the law.

Where a student or staff member believes that they may be experiencing unlawful discrimination they might wish to have confidential discussions with the Personnel Officer. The Personnel Officer is trained in the provisions of advice on anti-discrimination legislation and processes, counselling and conflict resolution techniques.

The Student Association
All students of the College are members of the Student Association of which the Student Representative Council is the elected executive and is a chapter of The University of New South Wales Students’ Union. The Association aims to provide to students services and facilities that deal with their political, philosophical, academic and practical needs within the College and the community.

The Student Association may advise the Director and the Governing Council on matters affecting the student body and through an ever-widening range of activities promote the development of the corporate life of the College.

The Association is involved with the organisation of activities that include an on-campus gallery, The Works; an off-campus gallery, Arthaus Too; The Palate Cafe; The Art Materials Store; lunchtime activities (movies, barbeques, bands, guest speakers, publications and other social functions). The Student Association also has representation on all College committees and boards.

The Association is financed by a compulsory fee collected by the College on behalf of the Association as part of the enrolment procedure.

Fees and Charges
In 1990 a student union fee of $155 for each full-time student and $77.50 for each part-time student was charged at the commencement of the academic year. It is anticipated that this fee will be increased for the 1991 academic year.

Higher Education Contribution Scheme
In 1989 the Commonwealth Government introduced the Higher Education Contribution Scheme (HECS). Under this scheme students are required to pay part of the cost of their higher education.

All students enrolling in 1991 will incur a liability for each semester in which they register. In 1990 the liability for 1 semester of fulltime study (24 credit points) was $941. This amount will be indexed each year.

Students registering in subjects to a credit point total greater or less than 24 credit points per semester will incur a liability greater or less than the fulltime liability amount in proportion to the credit point variation.

Students have the choice to pay up-front and receive a 15% discount or to defer their payment and pay through the taxation system. In the case of a deferred payment no payment is required until the student’s taxable income exceeds a threshold value, which in the 1989/1990 financial year was $23,583. This amount is also indexed each year.

Further details about HECS and its requirements can be obtained from the Student Administration office.

Grievance Resolution Procedures
It is inevitable that from time to time cases of conflict and grievance will arise. To provide a means by which contentious decisions or disputes may be resolved grievance resolution procedures have been established.

In many cases problems can be solved by informal discussions with the appropriate member of academic or general staff however in each school of the College a member of academic staff known as the grievance resolution officer has been appointed.

At the commencement of Autumn semester a pamphlet describing the grievance resolution procedures and listing the names of these officers will be published.

10.4 College rules will take precedence over specific program rules.

10.5 In exceptional circumstances, the Board may dispense with or suspend the provisions of any of the preceding rules.

General Rules and Procedures for Students

1. GENERAL CONDUCT

1.1 Acceptance as a member of the College requires an undertaking on the part of the student to observe the relevant Regulation, By-Law, Rules and other requirements of the College, in accordance with the declaration signed at the time of enrolment/registration.

1.2 Members of the academic staff of the College, senior administrative officers, House Officers and other persons authorised for the purpose, have authority to check and report on disorderly or improper conduct or any breach of rules occurring in the College.

2. STUDENT IDENTIFICATION CARD

2.1 All students are issued with an identification card at enrolment after payment of compulsory fees. This card must be carried during attendance at the College and must be presented on request to an authorised officer of the College, in order to protect the student and the College.

2.2 Students should note that the number on the card is their student number, which should be quoted on all correspondence with the College.

2.3 The card must be presented if requested, for example, when varying enrolment, collecting assignments, applying for travel concessions, notifying change of name/change of address and applying for a replacement Library Borrowers Card.

2.4 Loss of or damage to a Student Identification Card should be reported to the Director by completion of a Replacement of Student Card form available from the College Student Administration office. A new card will be issued on payment of the prescribed replacement charge.

2.5 The Student Identification Card must be returned to the College when a student resigns, is granted leave of absence, or is excluded.

3. PAYMENT OF FEES

3.1 As part of enrolment/registration, students are required to pay a compulsory Students' Union and Students' Association Fee. Students are required to make this payment annually at the scheduled enrolment/registration period prior to commencement of the academic year.

3.2 Scholarship holders or sponsored students who have not received an enrolment voucher or appropriate letter of authority from their sponsor at the time when they are enrolling must complete their enrolment and pay their own fees. A refund
fees will be made after the enrolment voucher or letter of authority has been lodged. Alternatively, a student may be provisionally enrolled pending receipt of the enrolment voucher or appropriate letter of authority. Provisional enrolment may be approved by an authorised member of Student Administration at the time the student attends the scheduled enrolment session.

3.3 Any student who is unable to pay the fee which is a condition of enrolment, may apply in writing to the Director through the Student Administration office for an extension of time. Such applications must clearly state the reasons why payment cannot be made by the due date. The application must be lodged before the date on which enrolment is due to be completed. Normally the maximum extension of time for the payment of fees is two weeks from the date of commencement of classes.

3.4 A fee for late enrolment shall apply. The fee is payable by any student completing enrolment after the scheduled enrolment/registration period unless the fee is waived by the Director.

3.5 It is the responsibility of the student to seek a waiver of the late fee before it becomes due.

3.6 Where a student seeks to enrol after the closing date for enrolment, and no authorisation for a waiver of the late fee can be produced, a student must pay the late fee. If a waiver is subsequently sought on any ground whatsoever, this should be presented in writing to the Director.

3.7 Authority for the waiver of late fees shall rest with the Director or nominee.

3.8 A student who has genuine conscientious objection to membership of the Students' Union/Students' Association may be granted exemption from membership by the Director. Any student seeking exemption must make written application to the Director stating the basis of the conscientious objection. Where exemption is granted, the student shall be required to pay an amount equivalent to the subscription fee, at the same time the fee is due, to a specified fund as determined by the Director from time to time.

3.9 A student who completes first enrolment and is given a numbered Student Identification Card until that student completes, resigns from, is excluded from or is deemed to have abandoned the course.

4.1 A student shall be deemed to be a registered student in the College from the time that student completes first enrolment and is given a numbered Student Identification Card until that student completes, resigns from, is excluded from or is deemed to have abandoned the course.

4.2 Students are required to attend the College to enrol and register prior to the commencement of the academic year. In exceptional circumstances a student may use a proxy. In such cases enrolment will be provisional and the student shall be required to complete registration in subjects and sign the declaration on the enrolment form within 2 weeks of the commencement of classes.

4.3 Students must enrol within a prescribed date and time as notified by the Director. Late enrolment will not normally be permitted.

4.4 Students who enrol after the prescribed enrolment date shall pay a late fee unless the fee is waived by the Director.

4.5 Students must confirm their registration in subjects when and in the manner prescribed by the College. Students who fail to confirm registration in subjects as required will not be permitted to vary subject registration prior to the next scheduled period for enrolment/registration.

4.6 Students seeking a variation to their registration in subjects must use the official form available at College Student Administration. This requirement applies to students seeking variation of registration in one or more subjects, variation from one official class list to another for the same subject, and withdrawal from one or more subject.

4.7 Variations of enrolment must be authorised by the Director or delegate and will not normally be permitted following the conclusion of the second week of semester.

4.8 Students are advised that forms are available at the College Student Administration office for notifying Leave of Absence, Withdrawal, Resignation, Change of Address and for seeking Variation of Enrolment.

4.9 Students seeking Variation of Enrolment must also consult the appropriate Head of Department or School.

5.2 Results of assessment are posted to a student's permanent home address unless the College is informed in writing of a different address.

5.3 A request for a change of name by which the student is registered on College records must be supported by appropriate documentary evidence, such as a marriage certificate, a deed poll document certified by a Justice of the Peace, or a Statutory Declaration.

5.4 The College does not accept responsibility if official communications fail to reach a student who has not notified the Director of a change of address.

8.2 Any direction to students displayed on the Official Notice Board so designated carries the full weight of individual notification and students who ignore such direction do so at their own risk.

9. RESUMPTION OF COURSE AFTER LEAVE OF ABSENCE

9.1 Students resuming their course after Leave of Absence will be advised by Student Administration of the date and time of enrolment/registration and will be required to make an appointment with the Director or delegate to obtain approval for the course of studies proposed for the semester or year.

9.2 Where students resuming their course after Leave of Absence fail to enrol and register in subjects at the scheduled time, permission to enrol and register must be obtained from the Director or delegate and the student will also be liable to pay a late fee. The Director may waive this late fee where mitigating circumstances exist.

10. CONDUCT OF ASSESSMENT PROCEDURES

10.1 Students are required to undertake an assessment schedule for each subject as printed in the subject outline provided by the lecturer or as varied formally by the lecturer following consultation with the student group and, where appropriate, the Director or delegate.

10.2 Students are subject to College requirements with regard to submission and collection of assignments. In general, determination of procedures and times for submission of assignments is the responsibility of the subject lecturer who will notify students of requirements.

10.3 Where an extension of time for the submission of an assignment is sought, students are required to make application, generally in writing, to the lecturer concerned and to furnish evidence of the reasons why an extension is necessary. Requests for extension of time to complete an assignment item should be made at the first possible opportunity, preferably no later than a week before the item is due. Where there is a reasonable explanation, an extension of time will normally be granted to students and their assignment marked as normal if submitted by the new date.

10.4 Where no extension of time has been granted and other assignments from the same set have been returned to the student group, the lecturer may refuse to mark the assignment. No assignments can be accepted after the last teaching day for the subject except where a student has sought and been granted Special Assessment under Academic Rule 4.5.

11. RETENTION OF STUDENTS’ WORK

11.1 The College reserves the right to retain at its own discretion a facsimile copy or photographic copy of any drawings, models, designs, plans and specifications, essays, theses or other work executed by students as part of their subjects, or submitted for any award conducted by the College. 12.2 Students who fail to pay charges and late charges levied by the College will not be permitted to attend classes, undertake assessments or be granted any subject grades.

12.3 Students who fail to return material borrowed from the Library by the due date may be refused further borrowing privileges at the discretion of the College Librarian or delegate.

12.4 Students who fail to return on time materials borrowed from College Media Units may be refused further borrowing privileges, at the discretion of the Director or delegate.

12.6 Students who fail to return any materials borrowed from the College, or who fail to satisfy any financial obligation to the College may incur one or more of the following penalties as determined by the Director:

(1) refusal of further borrowing privileges;
(2) withdrawal of authority to attend classes;
(3) withholding of semester assessment results;
(4) refusal of permission to enrol;
(5) withholding of the testamur for an award.

Such penalty will remain in force until materials are returned, compensation made, or other such obligations satisfied.

13. BUILDING RULES

13.1 Students are required to abide by the building closing times determined for each Campus. Opening and closing times will be determined by an Authorised College Officer from time to time and will be shown on campus official noticeboards. 14.1 The College grounds are private property and the College has the right to regulate the entry of individuals and vehicles and their behaviour and operation within the grounds. At campuses where student parking is permitted, students may not bring vehicles onto College grounds unless they accept the College Traffic and Parking Rules and the penalties for infringement of those rules.

14.2 Any vehicle brought onto the grounds is required to be driven, parked and managed in compliance with the College traffic and parking rules and signs, and in observance of the directions of Authorised College Officers.

14.9 Where vehicles commit a breach of traffic or parking rules, the following penalties for infringement of these rules will apply:

(1) for first infringement or offence, an Authorised College Officer will record vehicle registration number and issue a written 'first' parking warning notice;

(2) for second infringement or offence, an Authorised College Officer will record vehicle registration number and issue a 'second' parking notice and the driver shall be required to pay a fine of $10;

(3) for a subsequent infringement or offence (or failure to pay the fine previously levied within 14 days) an Authorised College Officer will issue a 'final' parking notice and the vehicle will be excluded from parking within the College grounds.

14.10 Students may appeal in writing to the Director against imposition of any penalty for infringement of traffic and parking rules.

14.11 A student continuing to park within the College a vehicle, which has been excluded because of infringements or offences is liable to such further penalty as may be determined.

This subject focuses on painting in France and Britain during the second half of the 19th century. Within changing cultural, political and social context, the production of painting is examined in the light of three major themes: Work, Representation of Gender and Modernity.

This subject provides students with knowledge of the history of painting from post-industrial Europe to recent times with emphasis on both the perceived mainstream and more divergent approaches such as the Northern Romantic movement, the Pre-Raphaelite Brotherhood and other regional developments.

This subject surveys contemporary activities within various fields of the fine arts for their impact on painting, together with recent developments within the discipline itself. Influences from the wide cultural and sociological background will be examined.

This subject investigates the impact of late American modernism in both European and Australian painting from World War 2 to the nineteen-seventies. These issues will be critically examined from a variety of artistic and cultural viewpoints.

This subject will examine the nature of the physical surround of the art object. While the focus will be on installation work produced since the 1960's there will also be an examination of a range of cultural context and historical periods. In every case examined there will be an emphasis on the way in which the physical surround of the art object is conceptualized. Included will be the influence of the Theatre of Cruelty, past revolutionary Russian theatre and cinema, Dada and Surrealism on the conceptualization of installation and a comparison of the Oriental and European constructions of figure/ground relationships.

STUDY COMMITMENT
It is expected that the total study commitment required for each subject is double that indicated for contact hours.

Studio Subjects

Prerequisite: The prerequisite for all studio subjects is the successful completion of the appropriate introductory or foundation subject or the preceding subject in the sequence.

Media Arts

The aim of this sequence of subjects is to enable the student, by application of theory, research and developed skills, to create works of an increasingly professional standard, using clay as a principal medium.

Through experimentation with ceramic techniques, and the use of clay as an interdisciplinary medium within contemporary art practice, sculpturally orientated expression is encouraged alongside forms based on the vessel.

The aim of this sequence of subjects is to develop in students some awareness of the combination of concepts, techniques and skills pertinent to design. Design studies encompass understandings about the nature of problem solving in visual terms.

Through exploration of a theoretical overview and development of appropriate skills students will formulate and implement a study of design principles as manifest in the visual arts.
The aim of these subjects is to enable the student, by application of theory, research, the development of skills, through a direct participation in the intellectual and physical processes relevant to the field, to create works in the area of New Art Studies of an increasingly professional standard. New Art Studies encompasses works which involve contemporary practice in the visual arts.

By exploration of a theoretical overview and the development of relevant skills the student will formulate and implement an extensive study of a field of practice in the area of New Art Studies.

Special Prerequisite: The satisfactory completion of COFA 2640 Video 1 will be accepted as a prerequisite for COFA 2421 Film 2.

The subjects seek to provide students with the opportunity to gain an awareness of the nature and variety of experiences included in the film area, to appreciate the specific qualities and potential of the film medium and to acquire the technical, intellectual and creative skills necessary for the creation of original film work.

By exploration of a theoretical overview and the development of relevant skills the student will formulate and implement an extensive study of the practices of film making.

The aim of this sequence of subjects is to develop in the student the capacity to resolve aesthetic, theoretical, technical and material considerations in the creation of sculptural works.

Through a program of theoretical and practical studies students will experiment with sculptural concepts, techniques and mediums toward the development of original works.

Special Prerequisite: The satisfactory completion of COFA 2420 Film 1 will be accepted as a prerequisite for COFA 2641 Video 2.

These subjects are designed to develop students' creative production, technical skills relevant to multi-media systems, performance, combined forms and experimental electronic media and to offer opportunities to explore areas of art activity between or beyond defined electro-media disciplines.
To gain an awareness of the nature and variety of experiences included in the television area, to appreciate the specific qualities and potential of the video and electronic media and to acquire the technical, intellectual and creative skills necessary for the creation of original video work.

By exploration of a theoretical overview and the development of relevant skills the student will formulate and implement an extensive study of a field of practice within the area of Video.

4. Bachelor of Art Education — BArtEd.

THE COURSE

The Bachelor of Art Education is a four-year full-time degree course.

It is designed to meet the community's need for art educators in secondary schools and related institutions and is organised into three segments which are studied concurrently.

Segment A: Professional Art Education Studies with the following objectives:

— To foster attitudes in the study of education and art education which lead to a continuing commitment to the study and activity of teaching.

— To ensure that students have a knowledge of pupil development and pupil needs, a knowledge of current educational practices and the foundation on which modern education is based.

— To promote students' knowledge and skills in the teaching of the visual arts and crafts, to develop their overall understanding of art education, curriculum development, organisation and implementation, and of the contribution of the visual arts to the total school curriculum.

Segment B: Specialist Studies with the following objectives:

— To involve students in a broad spectrum of the visual arts and crafts so that they can develop competencies in chosen specific fields.

— To foster attitudes in the study of the visual and allied arts which can lead to individual research in specialised areas of aesthetics, philosophy and history.

Segment C: General Studies with the following objectives:

— To provide further opportunities for the social and cultural development of students with interests and/or talents in other areas than those indicated in earlier segments.

The course incorporates flexibility in its structure in order that students may develop their individual potential as future art educators in a variety of roles, since secondary art teachers are required to fulfil many and varied responsibilities. They may function essentially as art historians, practical art producers, art education specialists or they may operate within the school situation as generalists whose interests cover the visual arts and crafts and the performing arts, as well as art theory and art history. The opportunity exists within the course for students to specialise in any of these roles.

The course also provides for students who wish to be practising art educators outside the high school area.

5. Bachelor of Design — BDes.

THE COURSE

The new four year Bachelor of Design Degree is a vocational course which, subject to approval will start in 1991.

This course will provide an education for people who wish to enter a range of different areas of the design profession, for example: design studios, advertising agencies, illustration, publications, interiors, theatre, exhibitions, festivals, display fittings and furnishings, decorative and applied design, film, television production and post-production.

In year one students will be involved in a comprehensive and intensive range of 2D, 3D and 4D (or time-based) experiences as well as the acquisition of historical, theoretical and technological skills and understandings. These include studying human individuals, society, the environment, and the application of computer skills to design.

In years two and three students will extend their work on projects integrating the following: design in graphics/media, applied design and the design of environments. Historical, theoretical and technological contexts will be applied.

In year four students' projects will integrate design studies and a one semester period of work experience into a graduation project/exhibition.

This course recognises the College of Fine Arts' particular strengths, resources and requirements to provide an undergraduate course which places emphasis on an integrated approach rather than on narrow vocational specialisations. These strengths are its technology and applied arts based and its relationship with industry, its Schools of Studio Arts, Media Arts and Arts Education and Theory providing an input of theoretical and practical subjects; the provision of new accommodation which is designed for such a program; and the ability to offer design from a creative and flexible base.

With the growth of specialisation in this century the relationship between design and the fine arts has grown more tenuous. Design has seen itself as linked to systems of industrial production and to the growth of the economy. By contrast the present cultural development and the articulation of cultural production in the character of Australia is seen through the Arts — painting, literature, music — not through design.

As the prominent economist John Kenneth Galbraith has said: 'We must cease to suppose that science and resulting technological achievement are only the edge of industrial advance. Beyond science and engineering is the artist; willing or unwillingly, he or she is vital for industrial progress in the modern world.' Reference quoted by Donald Horne (1988) Think of Perish. (Occasional paper No. 8. The Commissioner for the Future.)

The aim of this subject is to develop students' perceptual awareness through observing objects, photographing and drawing them as pattern and diagram on a flat surface. Freehand and technical drawing will be explored in the development of plan, section and elevation, together with acquiring understandings of compositional possibilities in the use of black/white, positive/negative relationships and colour theory. These understandings will be applied to graphics projects resulting in finished artwork such as is used for poster design and other advertising.

The aim of this subject is to develop students' awareness of space, scale and movement. The principles of perspective drawing are introduced and investigated through freehand and mechanically constructed drawing. The ways in which horizontal and vertical planes define and articulate space are explored through scale drawings and models of simple spaces. Students analyse and record their perception of movement through a sequence of spaces. Analysis of the conceptual and material understandings gained are then applied to integrating the aesthetic, spatial and functional aspects of connected volumes as for exhibition, theatrical or promotional events.

COURSE RULES

These rules should be read in conjunction with the Academic Rules of the College.

ADMISSION

Admission Requirements

All applicants for admission to the First Year of the course will be required to submit a portfolio of their recent work in the visual arts by a date and in a form specified by the Board. The offer of places in the course will be made in order of merit following assessment of the portfolio, Higher School Certificate Tertiary Entrance Ranking and/or its equivalents.

ASSESSMENT

Time Limit

A full-time student must complete the prescribed course for the award of the Bachelor of Design within a maximum of sixteen semesters from the date of initial enrolment inclusive of leave.

Student Progress

Student progress will be reported at the end of a semester.

Attendance

Except where leave is granted:

— students must attend all sessions of subjects for which they are registered; and

— where absences in excess of 3 sessions occur, students may be given the grade F.

THE COURSE

It is intended that students graduating from the course will be equipped with the skills necessary to solve the kinds of problems found in gallery managerial, administrative, and curatorial work. Such problems will vary from the maintenance, security and catalogue documentation of 2D and 3D art works to the unique display and facility demands created by electronic and new art study and environmental installations. Such knowledge, though disparate and far ranging, is of a very practical nature and is seen to be essential for any employee working in a contemporary gallery.

While the main thrust of the course is directed towards practical gallery management skills, curatorial studies and exhibition design and display, including art writing, a supplementary subject, 'Art Ethics and the Law', covers an increasingly significant area as it addresses the growing issues of forgery, censorship, copyright, the gallery’s ethical and legal responsibility to the artist and art work, and such questions as agent commission, insurance and corporate commissions procedure.

It is important to point out that although the course is seen to be practical in design and function, electives such as ‘Principles of Conservation’, of necessity, aim to equip the student with information concerning the range of conservation activities and expertise.

The elective units of the course provide an examination of aesthetics and criticism, detailed information of galleries and collections in Australia and the history of art writing in Australia. Guidelines for art writing which is a necessary part of a gallery function will also be available (compilation of biographies, catalogues, press releases, supervision of book publication, constant liaison with printeries, etc.)

The Course is offered for students who wish to further their artistic interests under expert guidance. Small class sizes in each discipline area allow for individual tuition, both of a theoretical and a technical nature. Seminar tutorials encourage students to see their art in the context of contemporary developments and to examine various aesthetic propositions. The Course can be seen as a "rounding out" of a student's years at Art College. Students are encouraged to develop a professional approach to their own creative endeavours at all times and the Course aims to assist in the transition from student to practising artist in the community. In order to qualify for the Graduate Diploma of Visual Arts a student must:

- acquire a minimum of 48 credit points;
- accumulate the above mentioned credit points, if a full-time student, in not less than two semesters and no more than five, or if a part-time student, in not less than four semesters or more than seven semesters.

Students will be required to select an area of study from the following: Painting, Drawing, Sculpture, Craft, New Art Studies (Conceptual Art, Project Art, etc.), Photography, Printmaking, Film Making, Video Art, Multi-Media/Performance, 3D Studies.
