Foreword

This year, the buildings designed to house the Schools of Media and Studio Art will be commissioned and the College of Fine Arts will, for the first time in its history, be located on a single campus.

Since 1975 the College has been obliged to offer its courses in a procession of temporary buildings and it is to the credit of both students and staff that, despite the difficulties of operating in separated and inadequate buildings, the College has prospered and achieved the standing we now enjoy.

Credit for this substantial improvement in teaching facilities must go to the Commonwealth Government, but it should also be noted that the high quality of the spaces provided with the funds at our disposal, is due to the working partnership established between the architects, Smith Pratt and Ma, the builders, Gledhill Constructions and the College staff. I take this opportunity to register my thanks to all those who have worked so effectively on this project over the past two years.

Since its amalgamation with the University in 1990, the College has been engaged in the review and expansion of its academic profile.

The Bachelor of Design and Bachelor of Art Theory Courses were successfully introduced in 1991 and will enrol second year students this year. Both courses have been successful in attracting high quality students and in establishing growing reputations for academic excellence and relevance to the needs of the community.

Revisions of the Bachelor of Fine Arts, Bachelor of Art Education, Master of Art and Master of Art Administration Courses are now complete. These revisions have been designed to meet the changing circumstances of the relationship between the College, its clients and the community.

With these developments complete, 1992 will be devoted to the development and fine tuning of these academic programs.

It would be foolish to suggest that, with the consolidation of the College on a single campus, the problems imposed by difficult economic times have disappeared; nevertheless, I am confident that the optimism engendered by our new circumstances will help us to devise new and creative ways to serve our students by providing academic programs of the highest quality.

The Schools of the College of Fine Arts
The University of New South Wales

The College of Fine Arts consists of four schools, divided into a number of related subject study areas through which the subjects and courses of the College are offered.

The School of Studio Art

The School of Studio Art consists of the studies of Painting, Drawing, Printmaking (including etching, lithography, relief and silk screen printing).

The School of Media Art

The School of Media Art is comprised of the studies of Photography, Four Dimensional Studies (including film, multimedia computing, sound performance and installation and video), Three Dimensional Studies (including clay, construction, installation and spaces and jewellery and sculpture).

The School of Art Education

This school comprises studies in Art Education.

The School of Art Theory

This school includes studies in art history and theory and art administration.

The Department of Design Studies

The Clement Semmler Library

The Clement Semmler Library is situated on the City Art Campus above the Ivan Dougherty Gallery. It was named after Dr. Clement Semmler O.B.E., D.Litt., M.A., distinguished writer and critic and past Chairman of the Alexander Mackie College of Advanced Education Council.

The library supports and complements the teaching programs of the College of Fine Arts by providing resource materials and services designed to stimulate the learning process as well as satisfying the information requirements of staff and students.

The collection includes books, periodicals and an extensive range of audio-visual resources including slides, video cassettes, sound recordings and art prints. Services provided include CD-ROM and online database searching as well as in-house indexing of periodicals and audio-visual material which enhances access to this material. A friendly reference service is offered and emphasis is placed on assisting users to make best use of the information services available and to gain lasting learning skills.

As a member of the UNILINC (formerly CLANN) library network, the library is able to provide the benefits offered by modern technology, such as online and CD-ROM catalogues and computerized lending, as well as reciprocal borrowing rights with other UNILINC libraries. Reciprocal borrowing with the university's library at Kensington is also available to students and staff of the College.

The Ivan Dougherty Gallery

The Ivan Dougherty Gallery was established in 1977 by the Alexander Mackie College of Advanced Education at 200 Cumberland Street, The Rocks and was named after Major General Sir Ivan Dougherty, Chairman of the first College Council.

When funds were made available to refurbish the Albion Avenue Public School built in 1894, part of the ground floor was developed as the Ivan Dougherty Gallery's new premises. These were opened on 16 June 1981. In 1991 the Gallery celebrated its 10th anniversary in Paddington.

The purpose of the Gallery is to provide an educational and cultural resource for the students and staff of the College of Fine Arts, The University of New South Wales and the general public. This involves the mounting of exhibitions, installations and performances of a professional standard which can be related to the College's art programs. Consequently, the exhibitions range over a wide selection of disciplines including photography, printmaking, sculpture, painting, video, film, architecture and design and the crafts. Exhibitions are usually of thematic or survey type and include the work of those individuals who have made an outstanding contribution to art or who may be considered to be in the vanguard of art practice and development.

Gallery hours: Mon-Fri 10.00 am – 5.00 pm; Sat 1.00 pm – 5.00 pm. Closed public holidays.

The Works Gallery

The Works is the on-campus student gallery of the College of Fine Arts.

The aims of the Gallery are to provide an environment where students can gain professional experience in gallery procedures as exhibitors and where Art Administration students can develop their curatorial and management skills.
The Gallery provides a public space for viewing recent works by students currently undertaking studies in the broad range of studio based courses offered within the College.

Awards and Prizes

The Telecom Fine Art Scholarships

Telecom Australia sponsors two substantial scholarships to encourage and assist graduates of the College’s Bachelor of Fine Arts, Bachelor of Art Education and Bachelor of Design courses to travel, undertake further study or commence professional practice.

General Information

The Student & Staff Advisory Service

Counselling

The Counselling service is available free of charge to students and staff experiencing any personal difficulties arising inside or outside the College.

Students and staff present with a range of problems including:

- Financial, e.g. Austudy, loans;
- Administrative, e.g. withdrawal, special consideration, appeals;
- Vocational, e.g. career change, interview skills;
- Academic, e.g. essay writing, seminar presentation, teaching skills, communication;
- Interpersonal Relationships; and
- Other stresses which are affecting their ability to fulfil their potential as a student or a member of staff.

All consultations are confidential. If the counsellor is unable to assist, referrals can be made to appropriate persons or organizations.

EEO Counselling

At the College of Fine Arts human rights to work, study and gain qualifications without suffering discrimination on the grounds of sex (including sexual harassment), race, marital status, pregnancy, impairment, homosexuality, political affiliations, views or beliefs or religious affiliations, views or beliefs are protected in accordance with the law.

Where a student or staff member believes that they may be experiencing unlawful discrimination they might wish to have confidential discussions with the Personnel Officer. The Personnel Officer is trained in the provisions of advice on anti-discrimination legislation and processes, counselling and conflict resolution techniques.

The Student Association

All students of the College are members of the Student’s Association of which the Student Representative Council is the elected executive and is a chapter of The University of New South Wales Student’s Union. The aims of the Association are to provide students with services and facilities that will assist them in dealing with their political, philosophical, academic and practical needs within the College community.

The Association is financed by a compulsory fee collected by the College on behalf of the Association as part of the enrolment procedure and is administered by the Executive and staff.

The Association is involved with the organisation of activities that include an on-campus Art Materials Store; an off-campus gallery, Arthaus, lunch time activities (barbeques, films, bands, guest speakers). It supports clubs and societies such as The Temporal Visual Arts Society and the Christian Fellowship and encourages students to involve themselves in interest groups on and off campus.

Through representations on College boards and committees the Association may communicate with the Director on matters affecting the student body and plays an active role in the decision making process of the College.

Fees and Charges

In 1992 a Student Association fee of $248 for each full-time student and $238 for each part-time student will be charged at the commencement of the academic year.

Higher Education Contribution Scheme

In 1989 the Commonwealth Government introduced the Higher Education Contribution Scheme (HECS). Under this scheme students are required to pay part of the cost of their higher education.

All students enrolling in 1992 will incur a liability for each semester in which they register. In 1992 the liability for one semester of full-time study (i.e. standard load) will be $1125. This amount is indexed each year.

Students registering in subjects to a credit point total greater or less than the standard load per semester will incur a liability greater or less than the full-time liability amount in proportion to the credit point variation.
Students have the choice to pay up-front at enrolment and receive a 15% discount or to defer their payment and pay through the taxation system. In the case of a deferred payment, no payment is required until the student's taxable income exceeds a threshold value, which is determined by the Australian Taxation Office. The threshold for the 1990/1991 financial year was $25,469. This amount is also indexed each year.

Further details about HECS and its requirements can be obtained from the Student Administration office.

**Grievance Resolution Procedures**

It is inevitable that from time to time cases of conflict and grievance will arise. To provide a means by which contentious decisions or disputes may be resolved grievance resolution procedures have been established.

In many cases problems can be solved by informal discussions with the appropriate member of academic or general staff however in each school of the College a member of academic staff known as the grievance resolution officer has been appointed.

At the commencement of Autumn semester a pamphlet describing the grievance resolution procedures and listing the names of these officers will be published.

An aggrieved student may initiate a preliminary meeting to outline the grievance, first with a staff member concerned (who may, in the case of a research student be the student's supervisor). If not resolved, then

An approach should be made to the Grievance Resolution Officer for the school who will attempt to resolve the matter. If not resolved, then

The aggrieved party may approach the head of school but only on the basis of a written submission by the complainant. The head of school will ensure that the parties involved in the complaint are consulted and will attempt to resolve the matter. The head of school may seek the advice of an appropriate school committee. The decision of the head of school will be made in writing and will set out the reasons for the decision.

If a postgraduate student is still aggrieved, he or she may approach the Presiding Member of the Faculty (or Presiding Member of the Higher Degree Committee) who will undertake the same procedures as outlined for the head of school.

A student who remains aggrieved may request in writing that the matter be considered by the Dean and Director who will contact the aggrieved parties to ensure that all reasonable solutions to the problem have been evaluated.

Any student may approach the Appeals Committee of Council if it can be determined that all other stages in the grievance resolution procedures outlined above have failed to provide resolution of the complainant's problems.

It is expected that a student would not approach someone higher in the grievance resolution hierarchy unless a serious attempt had been made to resolve the matter at the lower level or an approach to a particular person in the hierarchy was clearly inappropriate in the circumstances.

10.3 Students are required to notify the Director, in writing, of any change of name or address. The College will accept no responsibility if official communications do not reach a student who has failed to notify a change of name or address.

10.4 College rules will take precedence over specific program rules.

10.5 In exceptional circumstances, the Board may dispense with or suspend the provisions of any of the preceding rules.

General Rules and Procedures for Students

1. GENERAL CONDUCT

1.1 Acceptance as a member of the College requires an undertaking on the part of the student to observe the relevant Regulation, By-Law, Rules and other requirements of the College, in accordance with the declaration signed at the time of enrolment/registration.

1.2 Members of the academic staff of the College, senior administrative officers, House Officers and other persons authorised for the purpose, have authority to check and report on disorderly or improper conduct or any breach of rules occurring in the College.

2. STUDENT IDENTIFICATION CARD

2.1 All students are issued with an identification card at enrolment after payment of compulsory fees. This card must be carried during attendance at the College and must be presented on request to an authorised officer of the College, in order to protect the student and the College.

2.2 Students should note that the number on the card is their student number, which should be quoted on all correspondence with the College.

2.3 The card must be presented if requested, for example, when varying enrolment, collecting assignments, applying for travel concessions, notifying change of name/change of address and applying for a replacement Library Borrowers Card.

2.4 Loss of or damage to a Student Identification Card should be reported to the Director by completion of a Replacement of Student Card form available from the College Student Administration office. A new card will be issued on payment of the prescribed replacement charge.

2.5 The Student Identification Card must be returned to the College when a student resigns, is granted leave of absence, or is excluded.

3. PAYMENT OF FEES

3.1 As part of enrolment/registration, students are required to pay a compulsory Students' Union and Students' Association Fee. Students are required to make this payment annually at the scheduled enrolment/registration period prior to commencement of the academic year.

3.2 Scholarship holders or sponsored students who have not received an enrolment voucher or appropriate letter of authority from their sponsor at the time when they are enrolling must complete their enrolment and pay their own fees. A refund of fees will be made after the enrolment voucher or letter of authority has been lodged. Alternatively, a student may be provisionally enrolled pending receipt of the enrolment voucher or appropriate letter of authority. Provisional enrolment may be approved by an authorised member of Student Administration at the time the student attends the scheduled enrolment session.

3.3 Any student who is unable to pay the fee which is a condition of enrolment, may apply in writing to the Director through the Student Administration office for an extension of time. Such applications must clearly state the reasons why payment cannot be made by the due date. The application must be lodged before the date on which enrolment is due to be completed. Normally the maximum extension of time for the payment of fees is two weeks from the date of commencement of classes.

3.4 A fee for late enrolment shall apply. The fee is payable by any student completing enrolment after the scheduled enrolment/registration period unless the fee is waived by the Director.
3.5 It is the responsibility of the student to seek a waiver of the late fee before it becomes due.

3.6 Where a student seeks to enrol after the closing date for enrolment, and no authorisation for a waiver of the late fee can be produced, a student must pay the late fee. If a waiver is subsequently sought on any ground whatsoever, this should be presented in writing to the Director.

3.7 Authority for the waiver of late fees shall rest with the Director or nominee.

3.8 A student who has genuine conscientious objection to membership of the Students’ Union/Students’ Association may be granted exemption from membership by the Director. Any student seeking exemption must make written application to the Director stating the basis of the conscientious objection. Where exemption is granted, the student shall be required to pay an amount equivalent to the subscription fee, at the same time the fee is due, to a specified fund as determined by the Director from time to time.

4. CONFIRMATION OF STUDENT STATUS

4.1 A student shall be deemed to be a registered student in the College from the time that student completes first enrolment and is given a numbered Student Identification Card until that student completes, resigns from, is excluded from or is deemed to have abandoned the course.

4.2 Students are required to attend the College to enrol and register prior to the commencement of the academic year. In exceptional circumstances a student may use a proxy. In such cases enrolment will be provisional and the student shall be required to complete registration in subjects and sign the declaration on the enrolment form within 2 weeks of the commencement of classes.

4.3 Students must enrol within a prescribed date and time as notified by the Director. Late enrolment will not normally be permitted.

4.4 Students who enrol after the prescribed enrolment date shall pay a late fee unless the fee is waived by the Director.

4.5 Students must confirm their registration in subjects when and in the manner prescribed by the College. Students who fail to confirm registration in subjects as required will not be permitted to vary subject registration prior to the next scheduled period for enrolment/registration.

4.6 Students seeking a variation to their registration in subjects must use the official form available at College Student Administration. This requirement applies to students seeking variation of registration in one or more subjects, variation from one official class list to another for the same subject, and withdrawal from one or more subject.

4.7 Variations of Enrolment must be authorised by the Director or delegate and will not normally be permitted following the conclusion of the second week of semester.

4.8 Students are advised that forms are available at the College Student Administration office for notifying Leave of Absence, Withdrawal, Resignation, Change of Address and for seeking Variation of Enrolment.

4.9 Students seeking Variation of Enrolment must also consult the appropriate Head of Studies or School.

5.2 Results of assessment are posted to a student's permanent home address unless the College is informed in writing of a different address.

5.3 A request for a change of name by which the student is registered on College records must be supported by appropriate documentary evidence, such as a marriage certificate, a deed poll document certified by a Justice of the Peace, or a Statutory Declaration.

5.4 The College does not accept responsibility if official communications fail to reach a student who has not notified the Director of a change of address.

6. CORRESPONDENCE

Any official correspondence that students have with the College should be addressed to the Director and should quote the student's number. If delivered by hand, such official correspondence should be given to Student Administration of the College.
7. CONFIDENTIALITY OF STUDENT RECORDS AND INFORMATION

Information about a student's academic record, attendance, enrolment, progress, etc., will not be made available outside the College unless the student has given prior consent.

8. OFFICIAL NOTICES

8.1 It is the responsibility of all students to be acquainted with the contents of those announcements which concern them.

8.2 Any direction to students displayed on the Official Notice Board so designated carries the full weight of individual notification and students who ignore such direction do so at their own risk.

9. RESUMPTION OF COURSE AFTER LEAVE OF ABSENCE

9.1 Students resuming their course after Leave of Absence will be advised by Student Administration of the date and time of enrolment/registration and will be required to make an appointment with the Director or delegate to obtain approval for the course of studies proposed for the semester or year.

9.2 Where students resuming their course after Leave of Absence fail to enrol and register in subjects at the scheduled time, permission to enrol and register must be obtained from the Director or delegate and the student will also be liable to pay a late fee. The Director may waive this late fee where mitigating circumstances exist.

10. CONDUCT OF ASSESSMENT PROCEDURES

10.1 Students are required to undertake an assessment schedule for each subject as printed in the subject outline provided by the lecturer or as varied formally by the lecturer following consultation with the student group and, where appropriate, the Director or delegate.

10.2 Students are subject to College requirements with regard to submission and collection of assignments. In general, determination of procedures and times for submission of assignments is the responsibility of the subject lecturer who will notify students of requirements.

10.3 Where an extension of time for the submission of an assignment is sought, students are required to make application, generally in writing, to the lecturer concerned and to furnish evidence of the reasons why an extension is necessary. Requests for extension of time to complete an assignment item should be made at the first possible opportunity, preferably no later than a week before the item is due. Where there is a reasonable explanation, an extension of time will normally be granted to students and their assignment marked as normal if submitted by the new date.

10.4 Where no extension of time has been granted and other assignments from the same set have been returned to the student group, the lecturer may refuse to mark the assignment. No assignments can be accepted after the last teaching day for the subject except where a student has sought and been granted Special Assessment under Academic Rule 4.5.

11. RETENTION OF STUDENTS' WORK

11.1 The College reserves the right to retain for its use and at its discretion a facsimile copy or photographic copy of any drawings, models, designs, plans and specifications, essays, theses or other work executed by students as part of their subjects, or submitted for any award conducted by the College.

11.2 A student has the right to retain the originals of all work including art, craft or media projects.

11.3 The College may make multiple photographic copies, or photocopies, of students' work for use within the College, subject to gaining a copyright waiver from the student.

12. INDEBTEDNESS TO THE COLLEGE

12.1 A student becomes indebted to the College by non-payment of any fee or charge and by non-return of any College items. A student who is indebted to the College and who fails to make a satisfactory settlement of the indebtedness upon receipt of due notice will be penalised.

12.2 Students who fail to pay charges and late charges levied by the College will not be permitted to attend classes, undertake assessments or be granted any subject grades.
12.3 Students who fail to return material borrowed from the Library by the due date may be refused further borrowing privileges at the discretion of the College Librarian or delegate.

12.4 Students who fail to return on time materials borrowed from College Media Units may be refused further borrowing privileges, at the discretion of the Director or delegate.

12.5 Students unable to return Library or Media items borrowed from the College are required to pay the cost of their replacement. The minimum charge per item will be determined by the College.

12.6 Students who fail to return any materials borrowed from the College, or who fail to satisfy any financial obligation to the College may incur one or more of the following penalties as determined by the Director:

(1) refusal of further borrowing privileges;
(2) withdrawal of authority to attend classes;
(3) withholding of semester assessment results;
(4) refusal of permission to enrol;
(5) withholding of the testamur for an award.

Such penalty will remain in force until materials are returned, compensation made, or other such obligations satisfied.

12.7 In exceptional circumstances, the Director may waive the loss of privileges, penalties and disqualifications referred to in these rules, upon receipt of a written statement setting out relevant, mitigating circumstances.

13. BUILDING RULES

13.1 Students are required to abide by the building closing times determined for the Campus. Opening and closing times will be determined by an Authorised College Officer from time to time and will be shown on campus official noticeboards. Buildings and other campus premises or grounds are to be vacated at any time when required by an Authorised Officer of the College.

13.2 In the interests of safety and student welfare persons under the age of 18 years are not permitted on campus unless expressly authorised by the Director.

13.5 Students who fail to comply with these rules may be required to show cause why they should not lose their entitlement to membership and privileges of the College, and subsequently may be subject to such penalty as may be determined by the Director.

14. TRAFFIC AND PARKING RULES

14.1 The College grounds are private property and the College has the right to regulate the entry of individuals and vehicles and their behaviour and operation within the grounds. Students may not bring vehicles onto College grounds unless they have the express permission of the College Secretary and accept the College Traffic and Parking Rules and the penalties for infringement of those rules.

14.2 Any vehicle brought onto the grounds is required to be driven, parked and managed in compliance with the College traffic and parking rules and signs, and in observance of the directions of Authorised College Officers.

14.3 The College accepts no responsibility for any damage caused to vehicles while travelling, standing or parked in the grounds, nor for damage to or loss of accessories or contents.

14.4 The bringing and driving of vehicles, cycles or scooters on paths, grassed areas, or elsewhere on any College site, save for roads and car parks, is prohibited except with the permission of an Authorised College Officer.

14.5 Subject to the above, the provisions of the Motor Traffic Act and the regulations made under it shall be observed in the College site so far as these can be applied to the circumstances.

14.6 Notwithstanding any of the following provisions, the bringing and management of any vehicles, conveyance or animal onto, and while on the College site shall be subject to the directions of any Authorised College Officer.

14.7 Animals are not permitted on campus except with the permission of an Authorised College Officer.

14.8 Parking is permitted only in established parking areas and not on campus roads, or any loading zones or areas marked for the use of authorised vehicles only.
14.9 Where vehicles commit a breach of traffic or parking rules, the following penalties for infringement of these rules will apply:

(1) for first infringement or offence, an Authorised College Officer will record vehicle registration number and issue a written ‘first’ parking warning notice;

(2) for second infringement or offence, an Authorised College Officer will record vehicle registration number and issue a ‘second’ parking notice and the driver shall be required to pay a fine of $20;

(3) for a subsequent infringement or offence (or failure to pay the fine previously levied within 14 days) an Authorised College Officer will issue a ‘final’ parking notice and the vehicle will be excluded from parking within the College grounds.

14.10 Students may appeal in writing to the Director against imposition of any penalty for infringement of traffic and parking rules.

14.11 A student continuing to park within the College a vehicle, which has been excluded because of infringements or offences is liable to such further penalty as may be determined.

15. GRADUATION

15.1 A Graduation Ceremony is held each year for students eligible to receive an award having satisfied all requirements specified in University, College and Course Academic Rules. *EXISTING COFA SUBJECTS

TOTAL = 360 CREDIT POINTS
Ideas tackled might therefore emerge in the form of moving imagery such as film/video and animated or kinetic work in two or three dimensions, along with performance, work based on or involving the use of sound, and other processes such as drawing, writing or photography in which time is an active element.

Students are encouraged to develop a working-practice founded upon their own ideas and experiences, supported by an inventive attitude to a wide spectrum of media.

Media Art

COFA 1101  Media Art IA  S1 L3 C10
Corequisites: COFA 1102, COFA 1103, COFA 1104, COFA 2001

This subject focuses upon the imaginative translation of thought and experience into two-dimensional and other 'image' forms, and upon the generation of imagery from a wide range of stimuli.

One of the main emphases will be upon working photographically and with associated processes. Broader methods of image-making such as drawing, three dimensional and time-based approaches will also be addressed, as will questions of intent, content and context, and the development of personal visual languages.

COFA 1102  Media Art IB  S1 L3 C10
Corequisites: COFA 1101, COFA 1103, COFA 1104, COFA 2001

This subject forms an introduction to the imaginative and personal fabrication of form, as well as to the perception and articulation of space, both as a medium in its own right and as the medium in which all perception and plastic experience takes place.

A wide range of media and processes will be explored, not simply those that are explicitly sculptural and three-dimensional, but also, where appropriate two-dimensional or time-based ones.

Issues will be explored related to perceptual and other experience, symbolism and metaphor, narrative and scale, function and identity. This subject will focus on current sculptural and related practices, including installation, work sited on, or deriving from the body, and work devolving from an awareness of materials and process.

COFA 1103  Media Art IC  S1 L3 C10
Corequisites: COFA 1101, COFA 1102, COFA 1104, COFA 2001

This course provides an introduction to the broad range of ways of working that may be described as time-based, or that actively explore time as a plastic medium in its own right.
Photographic Studies (image technologies/image manipulation), 4D (film, video art, sound/installation/performance), sculpture (object/installation, jewellery/bodyworks, clay).

While each of these may be considered as a self-contained area of study, it is also possible to opt for an interdisciplinary synthesis of the above. In this subject there will be an emphasis on an analysis of the students’ conceptual development, the generation of ideas, visual language, acquisition and application of skills, manipulation of materials and interaction with context.

COFA 1107 Media Art 2C
Prerequisite: COFA 1103
Corequisites: COFA 1105, COFA 1106, COFA 1108, COFA 2002

This subject consists of a series of workshops based across the School of Media Art, which are designed to extend from and expand upon the basis technical inductions encountered during the first semester. Specific and adaptable methodologies and processes will be explored, enabling a more resolved synthesis from the conceptual beginnings of a work to its realisation.

COFA 1108 Media Art 2D
Prerequisite: COFA 1104
Corequisites: COFA 1105, COFA 1106, COFA 1107, COFA 2002

This subject provides a continuing arena for tutorial, contextual and personal support. Attention will be paid to a continuing breadth of stimulus and thought, and to specific advice appropriate to the confirmation of students’ future directions.

There will be a continuing program of visiting artists and other practitioners, plus projects designed to stimulate awareness and debate.

4. Bachelor of Art Education – BArtEd

THE COURSE

The Bachelor of Art Education is a four-year full-time degree course.

It is designed to meet the community's need for art educators in secondary schools and related institutions and is organised into three segments which are studied concurrently.

Segment A: Professional Art Education Studies with the following objectives:

- To foster attitudes in the study of education and art education which lead to a continuing commitment to the study and activity of teaching.

- To ensure that students have a knowledge of pupil development and pupil needs, a knowledge of current educational practices and the foundation on which modern education is based.

- To promote students' knowledge and skills in the teaching of the visual arts and crafts, to develop their overall understanding of art education, curriculum development, organisation and implementation, and of the contribution of the visual arts to the total school curriculum.

Segment B: Specialist Studies with the following objectives:

- To involve students in a broad spectrum of the visual arts and crafts so that they can develop competencies in chosen specific fields.

- To foster attitudes in the study of the visual and allied arts which can lead to individual research in specialised areas of aesthetics, philosophy and history.

Segment C: General Studies with the following objectives:

- To provide further opportunities for the social and cultural development of students with interests and/or talents in other areas than those indicated in earlier segments.

The course incorporates flexibility in its structure in order that students may develop their individual potential as future art educators in a variety of roles, since secondary art teachers are required to fulfil many and varied responsibilities. They may function essentially as art historians, practical art producers, art education specialists or they may operate within the school situation as generalists whose interests cover the visual arts and crafts and the performing arts, as well as art theory and art history. The opportunity exists within the course for students to specialise in any of these roles.

The course also provides for students who wish to be practising art educators outside the high school area.

5. Bachelor of Art Theory – BArtTh

THE COURSE

The Bachelor of Art Theory is a three year Degree course. The course has been constructed to provide intensive study of art histories and theories, as well as to address the nexus between art theory, art practice and ‘the art industry’. It will provide an education for those wishing to find employment as gallery curators, art administrators, art consultants, art project officers, art writers and critics, as well as for those who wish to ‘freelance’ as artist/theorists.

The Bachelor of Art Theory Degree is constructed around three integrated strands of study comprising Core Subjects, Contextual Studies and Core Options.

CORE

The Core Subjects provide intensive study in art histories, theories and philosophies. These subjects consist of The Modern and The Postmodern, Theories of the Image, as well as Theories of Art History and Culture in the first year. In the second year, students would undertake Narratives of Western Art, as well as Images of Non-Western Art. These Core Subjects are complemented by Mythologies of the Artist and Art and Cultural Difference. In the final year, Core Subjects are Art and the Culture of ‘Everyday Life’, Art in Focus and Philsophies of History.

CONTEXTUAL STUDIES

Contextual Studies consist of subjects such as Audiences for Art, The Production of Art and Genres of Art Writing. This strand aims at integrating theoretical and historical understandings with the practices by which art is exhibited, catalogued, published and promoted. It includes an internship in which students are placed in specific institutional frameworks such as galleries, museums, libraries and publishing houses.

CORE OPTIONS

In Core Options, students choose studio/media subjects such as Photography, Film, Video, Design, Painting, Drawing or Sculpture. Students must also choose Art History and Theory electives which closely explore such issues as Aboriginal Cultures, Community Arts, the relationship between Art and the Mass Media, and studies in art historical topics such as The Renaissance to Mannerism, Early Christian and Medieval Art, Art of the Nineteenth Century and Art of the Twentieth Century. Over the course of six semesters students do a minimum of six studio/media electives, but these may be increased to nine by substitution of Studio/Media electives for up to three History/Theory electives.

Subjects

COFA 6005  Theories of the Image  S1 L3 C12

This subject introduces students to a range of theories which have constituted the visual image as an object of analysis. It draws upon knowledges from philosophy, semiotics and post-structuralism in an attempt to address substantial and perennial questions about the visual image. Areas covered are the image and 'the real', theories of reflection, duplication, correspondence and non-correspondence; the original and the reproduction; theories of the visual as language; the image as materiality, as commodity; the image and its maker, theories of intention, authorship; the image and the viewer, theories of reception, affect and effect, theories of interpretation and inter-textuality.

COFA 6010  Theories of Art  History and Culture  S2 L3 C12

This subject charts different ways in which art history and culture have been historically constructed as fields of knowledge. It draws upon methodologies concerned with connoisseurship, periodization, formalism, iconography and iconology, historicism and historical materialism, social history, semiotics, high culture and popular culture, religiousism and feminism. Through analysis of these methodologies, it identifies the processes of selectivity and exclusion involved in the interpretation and writing of history. These methodologies will be examined by reference to such historians as Burkhardt, Wolfflin, Panofsky, Gombrich, Roger Fry, Frederick Antal, T.J. Clark, Bernard Smith and Griselda Pollock. This subject also identifies ways in which relationship of culture to society has been theorized through philosophers such as Hegel and Nietzsche.

COFA 6015  Narratives of Western Art  S1 L3 C12

This subject is designed to cut across a wide historical field to critically examine how 'grand narratives' are formed in western art and its histories. It will focus upon the nature of historical material constituted as evidence for 'grand narratives' such as 'classicism' mimesis, allegory and symbol, images of the body, representations of the environment, as well as period and style classifications. This subject will also critically examine historical material excluded from narratives, through such issues as power relations, patronage, gender, race, popular cultures and regionalism (as distinct from the 'internationalism' assumed by the notion of 'total' history).

COFA 6020  Mythologies of the Artist: A Social History  S1 L3 C12

This subject examines the historical and social constructions of the 'artist as subject' within Western culture. Shifts that took place between circa 1400 to 1900 from the artist as craftperson to inspired creator to alienated genius are examined in relation to social, cultural and political contexts. A range of positions within Modernism are then considered, including artist as innovator, visionary, custodian of cultural values, provocateur, social engineer, some of which can be seen as transformations of earlier conceptualisations.

These historical explorations will be underpinned by an enquiry into the limits and potentialities of independent creative activity in the context of contemporary cultural situations.

COFA 6025  Images and Issues in Non-Western Art  S2 L3 C12

Non-western art forms have come to form a distinct but changing category within the historical trajectory of western art and culture especially since the development of capitalism and imperialism in the European Renaissance. This subject investigates that category from two vantage points; first, the way in which the category of nonwestern art was constructed and changed in the course of western developments, and second, the way in which certain non-western cultural systems incorporate art practices.

Topics covered include: The categorizations of non-western art in European conceptual systems, such as the 'Artificial Curiosities' of 18th century England and Scotland, the 'Primitive Art' of the 20th century, the French l'art negre, and the 16th century Portuguese feitico. Policies of acquisition of non-western art by governments and private dealers, including the post-colonial repatriation policies developed by UNESCO are also examined as well as the development of institutions for the housing and display of nonwestern art.

The Aztec conceptualization of architecture and sacrifice and the Navah Indian incorporation of painting in shamanistic healing are among non-western cultural systems to be examined.

COFA 6030  Art and Cultural Difference  S2 L3 C12

The conceptualization and evaluation of cultural difference has occupied a central position in Western art and culture, particularly since the period of colonization began. In this subject cultural difference is seen as being constructed in a series of narratives and counter-narratives about the nature of cultural difference. Topics covered include the construction of cultural difference in different periods in western painting, the way in which cultural difference has been addressed in art and literature by colonized subjects, the place of art in anti-colonial liberation movements of the
20th century, the role of art and culture in sub-altern studies, French constructions of the Orient in texture and painting and Surrealist conceptions of the child-like and the 'primitive'.

The ways in which art and cultural difference are theorized by writers addressing issues of colonial struggle, will also be examined.

**COFA 6035  Art and the Culture of 'Everyday Life'**

This subject looks at the changing position of art in relation to the proliferation and complexity of mass culture. This includes both the aestheticization of everyday life as well as the ways in which art's communicative role has been altered by the pervasiveness of mass media. The subject gives an account of social and technological development of mass culture over the last one hundred and fifty years including the arrival of photography, film, television, computer imaging, the popular press and advertising. It examines ways in which the relationship between art and mass culture has been conceptualised by such seminal thinkers as Walter Benjamin and Theodor Adorno, as well as such theorists of 'the spectacle' as Guy Debord, Jean Baudrillard and Paul Virilio.

**COFA 6040  The Philosophy of Taste**

This subject explores ways in which the popularization of the notion of 'taste' in Europe represents a turning point in the history of Western subjectivity. The thesis that modernity corresponds to a 'subjectivization' of the world is developed chronologically. The principal moments of this history are explored to demonstrate how the birth of aesthetics as a special branch of philosophy cannot be separated from the notion of 'taste' which, towards the middle of the 18th century, came to be viewed as the faculty representing the essence of human subjectivity.

**COFA 6045  Art in Focus**

This subject provides the framework within which particular theoretical positions (examined elsewhere in the course) can be employed in the detailed examination of a period or artist or issue. The content and orientation of the subject is intended to reflect the different interests of staff, and will vary from semester to semester. The following are examples of subjects that might be offered:

* Cultural Imperialism, Nationalism and Regionalism
* Australian Art and Social Commitment in the 1930s
* Western Desert Painting
* Black Art in Soweto

The following is a description of one of these subjects:

**Modern Paintings, Modern Life: Impressionism and Parisian Society.** This subject looks critically at cliched views of Impressionism. The paintings are situated in their socio-political context and the relationships between the two are explored. Attention is drawn to Haussmann's modernization of Paris under the Second Empire and concomitant social dislocation. The increasing significance in modern urban culture of institutionalised forms of leisure -- cafes, theatres, racetracks and regattas, is discussed. Both the inclusions and omissions of impressionist imagery are considered. Such issues as work and leisure, class and gender, city and country are examined in relation to works by artists including Manet, Caillebotte, Morisot, Cassatt, Degas, Monet and Renoir.

**COFA 6050  Philosophies of History**

This subject introduces the different ways of conceiving the domain, methods, functions and definition of history. Beginning with an examination of historicism, empiricism and hermeneutics, the subject proceeds to look at various formulations of history in terms of myth, narrative, archeology and finality. Each of these topics is illuminated by a discussion of theorists including Reid, Comte, Dilthey, Sartre, Barthes, Foucault and Baudrillard. The relevance of their writings to art values is explored.

**COFA 6060  Research Project**

This subject provides an opportunity for students to bring the range of art knowledge acquired over the previous five semesters, together into a sustained piece of research.

Students can choose to research a topic concerned with either a particular artist, art writer, art historian or philosopher, an institution or particular issues during a defined historical period, such as modernity, nationalism, orientalism or gender. Students must then, in consultation with a supervisor, conduct archival and field research. From this, a 6,000 word paper must be developed, demonstrating a cohesive methodology, critical evaluation and classification of research material, valid argumentation and writing skills, together with speculation and a clear delineation of ideas.

**CONTEXTUAL STUDIES**

**COFA 6105  Audiences for Art**

The subject exposes students to the different types of contemporary art exhibited locally -- in the Art Gallery of New South Wales, dealer galleries, Contemporary Art Spaces, Artist Run Initiatives, shopping malls and other 'non-art' spaces. Designed to reflect the diversity both of art and the institutions through which it is viewed, this subject is structured around an examination of works 'in situ'. Students are encouraged to engage with work in relation to specific contexts, to consider issues of taste and value and how these are mediated by place and modes of display.
COFA 6110  The Production of Art  S2 L2 C8

The subject is designed to follow on from Contexts for Practice I: Audiences for Art. The emphasis here is on a 'behind the scenes' exposition of art. It looks critically at processes by which visual art is made available to viewing publics. These processes take into account a range of concerns (practical, strategic, ideological) that vary widely between institutions. Students are introduced to various professional art practices, through the processes of curating, managing, catalogue writing and production, exhibition display and handling of works. The infrastructure of the 'art industry', including the administration of State Museums and other art organizations, such as funding bodies, are presented as a subject for practical purposes, as well as critical consideration.

COFA 6115  Genres of Art Writing  S1 L2 C8

This subject examines different genres of writing on the visual arts, with an emphasis on contemporary practices. Newspaper reviews, journal criticism, scholarly catalogue essays, 'in house' catalogue notes, 'coffee table' art books and collaborative works between artists and writers are studied in terms of their connections to other genres of writing (for example 'journalese', fictional narrative, descriptive prose). The subject looks at the working of these writings within specific cultural fields and their assumed sets of values. It also demonstrates how such categories play an active role in the shaping and production of meanings in art.

COFA 6120  Methods of Research and Writing on Art  S2 L2 C8

This subject is primarily concerned with the teaching of skills necessary to conduct specific research projects. The focus is on methods of researching primary material as well as locating archival documentation, in order to evaluate and effectively utilise different forms of visual and theoretical 'evidence' for research projects. Topics include field work methods, such as interviewing techniques, together with knowledge of indexing procedures, statistical analysis and the utilization of computer resources, and critical methodologies for appraising research material. The subject also includes addresses the logical construction of 'a valid argument', the rhetorical promises of different genres of writing and the delineation of ideas.

COFA 6125  Internships  S1 CCH2 C8

This subject is designed to place students into specific institutional frameworks for the duration of the semester. Students will nominate one such institution at the beginning of the semester and work for a specific period of time at the institution, which could be an art gallery, museum, art institution, journal, artist studio, library or Fine Art

6. Bachelor of Design – BDes

THE COURSE

This course will provide an education for people who wish to enter a range of different areas of the design profession, for example: design studios, advertising agencies, illustration, publications, interiors, theatre, exhibitions, festivals, display fittings and furnishings, decorative and applied design, film, television production and post-production.

In year one students will be involved in a comprehensive and intensive range of 2D, 3D and 4D (or time based) experiences as well as the acquisition of historical, theoretical and technological skills and understandings. These include studying human individuals, society, the environment, and the application of computer skills to design.

In years two and three students will extend their work on projects integrating the following: design in graphics/media, applied design and the design of environments. Historical, theoretical and technological contexts will be applied.

In year four students' projects will integrate design studies and a one semester period of work experience into a graduation project/exhibition.

This course recognises the College of Fine Arts' particular strengths, resources and requirements to provide an undergraduate course which places emphasis on an integrated approach rather than on narrow vocational specialisations. These strengths are its technology and applied arts based and its relationship with industry, its Schools of Studio Arts, Media Arts and Arts Education and Theory providing an input of theoretical and practical subjects; the provision of new accommodation which is designed for such a program; and the ability to offer design from a creative and flexible base.

With the growth of specialisation in this century the relationship between design and the fine arts has grown more tenuous. Design has seen itself as linked to systems of industrial production and to the growth of the economy. By contrast the present cultural development and the articulation of cultural production in the character of Australia is seen through the Arts – painting, literature, music – not through design.

As the prominent economist John Kenneth Galbraith has said: 'We must cease to suppose that science and resulting technological achievement are only the edge of industrial advance. Beyond science and engineering is the artist; willing or unwillingly, he or she is vital for industrial progress in the modern world.' Reference quoted by Donald Horne (1988) Think or Perish. (Occasional paper No. 8. The Commission for the Future.)

7. Master of Art Administration
   - by Coursework - MArtAdm

THE COURSE

It is intended that students graduating from the course will be equipped with the skills necessary to solve the kinds of problems found in gallery managerial, administrative, and curatorial work. Such problems will vary from the maintenance, security and catalogue documentation of 2D and 3D art works to the unique display and facility demands created by electronic and new art study and environmental installations. Such knowledge, though disparate and far ranging, is of a very practical nature and is seen to be essential for any employee working in a contemporary gallery.

While the main thrust of the course is directed towards practical gallery management skills, curatorial studies and exhibition design and display, including art writing, a supplementary subject, 'Art Ethics and the Law', covers an increasingly significant area as it addresses the growing issues of forgery, censorship, copyright, the gallery’s ethical and legal responsibility to the artist and art work, and such questions as agent commission, insurance and corporate commissions procedure.

It is important to point out that although the course is seen to be practical in design and function, electives such as 'Principles of Conservation', of necessity, aim to equip the student with information concerning the range of conservation activities and expertise.

The elective units of the course provide an examination of aesthetics and criticism, detailed information of galleries and collections in Australia and the history of art writing in Australia. Guidelines for art writing which is a necessary part of a gallery function will also be available (compilation of biographies, catalogues, press releases, supervision of book publication, constant liaison with printeries, etc.)

8. Master of Art
- by Coursework
- MArt
• Media Art Strand
• Studio Art Strand

THE COURSE

The Course is postgraduate in level and requires either full-time attendance of one year (two semesters) or part-time attendance of two years (four semesters). Students should hold a degree or a diploma in the visual arts craft/art education areas.

The academic award of the Course is Master of Art (PG 1). The abbreviation for the award is MArt.

The Course is offered for students who wish to further their artistic interests under expert guidance. Small class sizes in each discipline area allow for individual tuition, both of a theoretical and a technical nature. Students are encouraged to see their art in the context of contemporary developments and to examine various aesthetic propositions. The Course can be seen as a "rounding out" of a student's years at Art College. Students are encouraged to develop a professional approach to their own creative endeavours at all times and the Course aims to assist in the transition from student to practising artist in the community.
STRUCTURE OF THE COURSE

Full-Time Study - two semesters - one year

- Tutorial/Critique or Seminar = 12 C.P.
- Graduate Lecture = 12 C.P.
- Studio Classes = 36 C.P.

(Minimum unsupervised studio practice (on Campus)) (16 Hours per week)

Part-Time Study - four semesters - two years

- Tutorial/Critique or Seminar or Graduate Lecture = 12 C.P.
- Studio Class = 18 C.P.

(Minimum unsupervised studio practice) 8 hours per week

(Note: Part-time students must undertake a total of two seminars and two graduate lectures during the four semesters of the course.)

EXHIBITION REQUIREMENT

Participation in the annual Graduating Exhibition is a requirement for graduation.

Media Art Strand

The patterns of seminars, tutorials and critiques offered by the School of Media Art are constructed on a pattern to extend over a full calendar year.

Attendance and participation is required in the fortnightly programme of presentations by MFA (Research) candidates, known as the "MFA SEMINARS." Similarly, the specific critiques and seminars asked of MArt candidates.

A discrete programme of lecture/seminars by visiting specialists will be offered during the inter-semester period to MArt candidates. Attendance is required.

Participation is also required in an exhibition/presentation of works in progress within the inter-semester period. Critiques, discussions and tutorials will be ancillary to this presentation.

During the semesters a programme of tutorials will be conducted every third week, in the place of a studio class.

Assessment during the semester session is progressive and is the responsibility of the class lecturer/s.

Final assessment will be on work produced during the course and shall be presented at an exhibition or showing and assessed by a panel. This panel will consist of the lecturer or lecturers within the subject area or areas, plus an assessor external to the College, plus another expert appropriate to the field of study, either from within or outside the School or College.

This Final Presentation will take place at the end of the February of the year following registration on the final semester of the course. The exhibition will be public and held on campus. The final presentation shall include a substantial written (and/or other) component which should be an annotated record of working process and areas of concern.

Studio Art Strand

Students will be required to undertake two units of the Graduate Lecture and of Tutorial/Critique or Seminar and a sequence of four subjects in their Core Elective.

Students will be required to participate in an approved concluding Presentation/Exhibition. The work should be presented in a manner, place and for a duration determined by the Higher Degree Committee on the recommendation of the School of Studio Art Committee.

The final presentation shall include a substantial written and appropriately illustrated component, being an annotated record of the working process and areas of concern.

As this course is considered to be intensive and rigorous in involvement, students are expected to maintain their unsupervised Studio Practice during mid-semester and inter-semester periods, although not necessarily on campus.

The graduate lecture introduces students to a range of ideas, attitudes and philosophies by exposing them to the views of a variety of distinguished artists, critics and art administrators, often from overseas.

Assessment is based on attendance, participation and satisfying of project requirements.

PROJECT REQUIREMENTS FOR THE GRADUATE LECTURE

(4) A full-time candidate will present the thesis for examination no earlier than three years and no later than five years from the date of enrolment and a part-time candidate will present the thesis for examination no earlier than four years and no later than six years from the date of enrolment, except with the approval of the Committee.

(5) The candidate may undertake the research as an internal student i.e. at a campus, teaching hospital, or other research facility with which the University is associated, or as an external student not in attendance at the University except for periods as may be prescribed by the Committee.

(6) The candidate will normally carry out the research on a campus or at a teaching or research facility of the University except that the Committee may permit a candidate to spend a period in the field, within another institution or elsewhere away from the University provided that the work can be supervised in a manner satisfactory to the Committee. In such instances the Committee shall be satisfied that the location and period of time away from the University are necessary to the research program.

(7) The research shall be supervised by a supervisor and where possible a co-supervisor who are members of the academic staff of the School, or under other appropriate supervision arrangements approved by the Committee. An external candidate within another organisation or institution will have a co-supervisor at that institution.

   (e) it must consist of an account of the candidate’s own research but in special cases work done conjointly with other persons may be accepted provided the Committee is satisfied about the extent of the candidate’s part in the joint research.

(4) The candidate may not submit as the main content of the thesis any work or material which has previously been submitted for a university degree or other similar award but may submit any work previously published whether or not such work is related to the thesis.

(5) Four copies of the thesis shall be presented in a form which complies with the requirements of the University for the preparation and submission of theses for higher degrees.

(b) the thesis merits the award of the degree subject to minor corrections as listed being made to the satisfaction of the head of school;

(c) the thesis requires further work on matters detailed in my report. Should performance in this further work be to the satisfaction of the Higher Degree Committee, the thesis would merit the award of the degree;

(e) the thesis does not merit the award of the degree and does not demonstrate that resubmission would be likely to achieve that merit.

(3) If the performance in the further work recommended under (2)(c) above is not to the satisfaction of the Committee, the Committee may permit the candidate to re-present the same thesis and submit to further examination as determined by the Committee within a period specified by it but not exceeding eighteen months.

(4) The Committee shall, after consideration of the examiners' reports and the results of any further examination, recommend whether or not the candidate may be awarded the degree. If it is decided that the candidate be not awarded the degree the Committee shall determine whether or not the candidate be permitted to resubmit the thesis after a further period of study and/or research.

7. Fees

A candidate shall pay such fees as may be determined from time to time by the Council.

* School is used here and elsewhere in these conditions to mean any teaching unit authorised to enrol research students and includes a department where that department is not within a school; a centre given approval by the Academic Board to enrol students and an interdisciplinary unit within a faculty and under the control of the Dean of the Faculty.
