General Information

To obtain the maximum benefit from your studies you should make an effort to learn what facilities the University offers, to investigate the best methods of study and to discover as much as possible about the course for which you are enrolled.

This Handbook has been specially designed as a detailed source of reference for you in all matters related to your Faculty. This General Information Section is intended to help you put the Faculty into perspective with the University as a whole, to introduce you to some of the services available to students and to note some of the most important rules and procedures.

For fuller details about some aspects of the University and its activities you might need to consult the University Calendar.

Some people who can help you

If you are experiencing difficulties in adjusting to the requirements of the University you will probably need advice. The best people to talk to on matters relating to progress in studies are your tutors and lecturers. If your problem lies outside this area there are many other people with specialized knowledge and skills who may be able to help you.

The Student Services staff, located on the ground floor of the Chancellery, will help those students who need advice and who have problems but who do not seem to be provided for by the other organizations and services mentioned. As well as dealing with general enquiries the staff is especially concerned with the problems of overseas, Aboriginal, and physically handicapped and disabled students. Enquire at Room G19, phone 3114.

The Senior Assistant Registrar (Student Administration), Ms Judith Tonkin, is located on the ground floor of the Chancellery. For particular enquiries regarding illness and other matters affecting performance in examinations and assessment, graduation ceremonies, release of examination results and variations to enrolment programs, phone 3102 or 3097.

The Senior Administrative Officer (Admissions), Mr John Beauchamp, is located on the ground floor of the Chancellery. General inquiries should be directed to 3095.

Note: All phone numbers below are University extension numbers. If you are outside the University, dial 697 2222 and ask for the extension. Alternatively you may dial 697 and then the extension number. This prefix should only be used when you are certain of the extension that you require as callers using 697 cannot be transferred to any other number.

Organization of the University

The University of New South Wales was first incorporated by an Act of Parliament in 1949, under the name of the New South Wales University of Technology.

In 1985 the University had 18,350 students and over 3,600 staff who worked in more than eighty buildings.

Arms of the University of New South Wales

The arms of the University are reproduced on the front cover of this handbook. The arms were granted by the College of Heralds in London, on 3 March 1952, and the heraldic description is as follows:

'Argent on a Cross Gules a Lion passant guardant between four Mulletts of eight points Or a Chief Sable charged with an open Book proper thereon the word SCIENTIA in letters also Sable.

'The lion and the four stars of the Southern Cross on the Cross of St George have reference to the State of New South Wales which brought the University into being; the open book with SCIENTIA across its page reminds us of its original purpose. Beneath the shield is the motto 'Manu et Mente', ('with Hand and Mind') which is the motto of the Sydney Technical College, from which the University has developed. The motto is not an integral part of the Grant of Arms and could be changed at will; but it was the opinion of the University Council that the relationship with the parent institution should in some way be recorded'.

The University Colours

The colours of the University are black and gold.

The Council

The chief governing body of the University is the Council which has the responsibility of making all major decisions regarding its policy, conduct and welfare.

The Council consists of 29 members including parliamentary and ex officio members, members elected by the staff, students and graduates of the University and some appointed by the Minister for Education.

The Council meets at least five times per year and its members also serve on special committees dealing with, for example, academic matters, finance, buildings and equipment, personnel matters, student affairs and public relations.

The Chairman of the Council is the Chancellor, the Hon. Mr Justice Samuels.

The Professorial Board

The Professorial Board is one of the two chief academic bodies within the University and includes all the professors from the various faculties, non-professorial Heads of Schools and Chairmen of Faculty, and several ex-officio and appointed members. It deliberates on all questions such as matriculation requirements, the content of courses, the arrangement of syllabuses, the appointment of examiners and the conditions for graduate degrees. Its recommendations on matters of major policy are presented to Council for its consideration and adoption.

The Faculties/Boards of Studies

The executive head of a faculty or board of studies is the dean, with the exception of the Australian Graduate School of Management, where the executive head is the director. Members of each faculty or board meet regularly to consider matters pertaining to their own areas of teaching and research, the result of their deliberations being then submitted to the Professorial Board.

The term 'faculty' is used in two distinct senses in the University. Sometimes it is used to refer to the group of schools comprising the faculty, and at others to the deliberative body of academic members of the Schools within the faculty.

The ten faculties are Applied Science, Architecture, Arts, Biological Sciences, Commerce, Engineering, Law, Medicine, Professional Studies and Science. In addition, the Board of Studies of the Australian Graduate School of Management (AGSM), the Board of Studies in General Education and the Academic Board of the University College, Australian Defence Force Academy fulfil a function similar to that of the faculties. The Board of Studies in Science and Mathematics, which was established to facilitate the joint academic administration of the Science and Mathematics degree course by the faculties of Biological Sciences and Science, considers and reports to the Professorial Board on all matters relating to studies, lectures and examinations in the Science and Mathematics degree course.

The Schools

Subjects come under the control of the individual schools (e.g. the School of Chemistry, the School of Accountancy). The head of the school in which you are studying is the person in this academic structure with whom you will be most directly concerned.

Executive Officers

As chief executive officer of the University, the Vice-Chancellor and Principal, Professor Michael Birt, is charged with managing and supervising the administrative, financial and other activities of the University.

He is assisted in this task by three Pro-Vice-Chancellors, together with the Deans and the two heads of the administrative divisions.

General Administration

The administrative work of the University is divided between the Deputy Principal (Administration) who is responsible for registrarial, property and staffing matters and the Deputy Principal (Planning and Information) who is responsible for planning information and analysis, finance and the provision of computing services.
Student Representation on Council and Faculties/Boards
Three members of the University Council may be students elected by students. All students who are not full-time members of staff are eligible to stand for a two-year term of office. The students who are elected to the Council are eligible for election to the committees of Council.

Students proceeding to a degree or a graduate diploma may elect members for appointment by the Council to their faculty or board of studies. Elections are for a one-year term of office.

Open Faculty/Board Meetings
If you wish you may attend a faculty or board meeting. You should seek advice at the office of the faculty whose meeting you wish to attend.

Award of the University Medal
The University may award a bronze medal to undergraduate students who have achieved highly distinguished merit throughout their degree course.

Identification of Subjects by Numbers
For information concerning the identifying number of each subject taught in each faculty as well as the full list of identifying numbers and subjects taught in the University, turn to the first page of the section Subject Descriptions. This list is also published in the Calendar.

Textbook Lists
Textbook lists are issued early in the year and are available from School and Faculty offices for re-enrolling students and from the Unisearch House Enrolment Centre for first year students.

Textbook Costs and Course-Related Costs
Students should allow quite a substantial sum for textbooks. This can vary from $250 to $600 per year depending on the course taken. These figures are based on the cost of new books. The Students' Union operates a secondhand bookshop.

Information about special equipment costs, accommodation charges and cost of subsistence on excursions, field work, etc, and for hospital residence (medical students) is available from individual schools.

Co-operative Bookshop
Membership is open to all members of the community, on initial payment of a fee of $12, refundable after 2 years.

General Studies Program
Almost all undergraduates in faculties other than Arts and Law are required to complete a General Studies program. The Department of General Studies within the Board of Studies in General Education publishes its own Handbook, which is available free of charge. All enquiries about General Studies should be made to the General Studies Office, Room G56, Morven Brown Building, phone 2436.

Student Services and Activities

Accommodation

Residential Colleges
There are seven residential colleges on campus. Each college offers accommodation in a distinctive environment which varies from college to college, as do facilities and fees. A brief description of each college is given below, and further information may be obtained directly from the individual colleges. In addition to basic residence fees, most colleges make minor additional charges for such items as registration fees, caution money or power charges. Intending students should lodge applications before the end of October in the year prior to the one in which they seek admission. Most colleges require a personal interview as part of the application procedure.

The Kensington Colleges
The Kensington Colleges comprise Basser College, Goldstein College and Philip Baxter College. They house 416 men and women students, as well as tutorial and administrative staff members. Some aspects of traditional College life are maintained in an atmosphere which emphasises co-operation and mutual respect. Apply in writing to the Master, PO Box 24, Kensington, NSW 2033.

International House
International House accommodates 154 male and female students from Australia and up to thirty other countries. Generally about 25 disciplines are represented. College life is multicultural and multidisciplinary. Eight tutors are available to help students. Apply in writing to the Warden, International House, PO Box 1, Kensington, NSW 2033.

New College
New College is an Anglican college and it provides accommodation (with all meals) for 220 graduates and undergraduates, without regard to race, religion, or sex. The College has its own resident tutors, and a Senior Resident Academic Fellow, who sponsors a wide range of activities and encourages inter-disciplinary discussion. Apply to the Master, New College, Anzac Parade, Kensington 2033 (telephone 662 6066)

Shalom College
Shalom College is a Jewish residential college. It provides accommodation for 86 men and women students. Non-resident membership is available to students who wish to avail themselves of the Kosher dining room and tutorial facilities.
The Sports Association

The Sports Association is a student organization within the University which caters for a variety of sports for both men and women. In December 1952 the University Council approved the establishment of the Sports Association, which then consisted of five clubs. As the University has grown the Association has expanded, and it now includes thirty-seven clubs.

Associations, Clubs and Societies

Warrane College

Warrane College provides accommodation for 190 men and is open to students of all ages, backgrounds and beliefs. The College offers a comprehensive tutorial program along with a wide range of activities, professional orientation and opportunities to meet members of the University staff informally. Non-resident membership is available to those students who wish to participate in College activities and to make use of its facilities. The general spiritual care of the College has been entrusted to Opus Dei, a personal prelature of the Catholic Church. Enquiries: The Master, Warrane College, PO Box 123, Kensington 2033. Telephone (02) 662 6199.

Creston Residence

Creston Residence offers accommodation to 25 undergraduate and graduate women students. Activities and tutorials are open to non-resident students. The spiritual activities offered at Creston are entrusted to the Women’s Section of Opus Dei. Enquiries: 36 High Street, Randwick 2031. Telephone (02) 398 5693.

Other Accommodation

Off-campus Accommodation

Students requiring other than College accommodation may seek assistance in Room G19, the Chancellery, in obtaining suitable accommodation in the way of rooms with cooking facilities, flats, houses, share flats, etc. Extensive listings of all varieties of housing are kept up-to-date throughout the year and during vacations. Accommodation in the immediate vicinity of the University is not usually easy to find at short notice, and is expensive.

No appointment is necessary but there may be some delay in February and March. The Housing staff are always happy to discuss any aspect of accommodation.

Special pamphlets on accommodation, lists of estate agents and hints on house-hunting are available on request.

Australian Armed Services

The University maintains links with the Royal Australian Navy, the Australian Army Reserve and the Royal Australian Air Force, and opportunities exist for student participation in their activities.

Chaplaincy Centre

The University Chapel

The University provides a small chapel for the use of all faiths. In its temporary housing it is located in Hut E15a near the Chemistry Building. The chapel is available for services of worship by arrangement with the full-time chaplains. At other times it is available for private meditation to all members of the University.

Chaplaincy Service

A Chaplaincy Service is available within the University of New South Wales for the benefit of students and staff.

The service offers fellowship, personal counselling and guidance, together with leadership and biblical and doctrinal studies and in worship. The chaplains maintain close liaison with student religious societies.

The chaplains are located in Hut E15a at the foot of Basser steps, which also contains the temporary chapel.
Student Services

The Student Services staff, located on the ground floor of the Chancellery, will help those students who have problems and need advice but who do not seem to be provided for by the other organizations and services mentioned. As well as dealing with those enquiries and with off-campus housing and student loan matters, they are especially concerned with the problems of physically handicapped and disabled students, overseas students, and aboriginal students.

All enquiries should be made either at Room G19 or by telephoning 697 3111.

Sport and Recreation Section

The Sport and Recreation Section seeks ways to encourage students and staff to include exercise as an essential part of their daily lives. It does this through Sports Clubs on a competitive basis and by offering physical recreation on a more casual basis to the University community.

The Section serves the Sports Association and its thirty-seven constituent clubs and is responsible for the continuing management of the Physical Education and Recreation Centre at which recreational programs are available for both students and staff.

It makes bookings for use of sporting facilities including tennis courts and playing fields. This section is located on the 3rd Floor, Squarehouse, E4, lower campus. The various services may be contacted by telephoning Recreation Program 697 4884; Grounds Bookings 697 4878; Tennis Bookings 697 4877; Sports Association 697 4880.

Physical Education and Recreation Centre

The Sport and Recreation Section provides a recreational program for students and staff at the Physical Education and Recreation Centre. The Centre consists of eight squash courts, seven tennis courts, a main building, and a 50-metre indoor heated swimming pool. The main building has a large gymnasium and practice rooms for fencing, table tennis, judo, weight-lifting, karate and jazz ballet, also a physical fitness testing room. A new three-storey 'Link Building' will be completed by mid-1986 between the gymnasium and squash courts. It provides three additional training rooms on the upper floors and administrative and control functions at ground floor level. The recreational program includes intramurals, teaching/coaching, camps. The Centre is located on the lower campus adjacent to High Street. The Supervisor at PERC may be contacted by telephoning 697 4884.

The Student Counselling and Research Unit provides counselling services to students, prospective students, parents and other concerned persons.

Together with the Careers and Employment Section, the unit is located in the huts near the foot of Basser Steps (access from College Road or Engineering Road).

Appointments are offered throughout the academic year and during recesses between 8 am to 5 pm on week days (up to 7 pm on some evenings). A 'walk-in' service for short interviews is available between 9 am and 5 pm. Appointments may be made by telephoning 697 5418 between 8.30 am and 5.30 pm.

Counsellors offer assistance in planning, decision-making, problem solving, social and emotional development, and dealing with grievances. Group programs on such topics as study, tutorial and examination skills, stress management, communicating, and self-confidence are offered each session. Brochures are available from the receptionist.

Careers and Employment Section

The Careers and Employment Section provides careers advice and assistance in finding employment.

Assistance with careers and permanent employment opportunities includes: the regular mailing of a Job Vacancy Bulletin to registered students and graduates, a Library, and a Campus Interview Program in which final year students have the opportunity to speak to employers regarding employment prospects.

Assistance is also provided in obtaining course-related employment during long vacations as required by undergraduates in Engineering and Applied Science.

Together with the Student Counselling and Research Unit, this section is located in the huts near the foot of Basser Steps (access from College Road or Engineering Road).

For further information, telephone 697 5470.

Student Health Unit

A student health clinic and first aid centre is situated within the University. The medical service although therapeutic is not intended to replace private or community health services. Thus, where chronic or continuing conditions are revealed or suspected the student may be referred to a private practitioner or to an appropriate hospital. The health service is not responsible for fees incurred in these instances. The service is confidential and students are encouraged to attend for advice on matters pertaining to health.
The service is available to all enrolled students by appointment, free of charge, between 9 am and 5 pm Mondays to Fridays. For staff members, immunizations are available, and first aid service in the case of injury or illness on the campus.

The centre is located in Hut E15b on the northern side of the campus in College Road at the foot of the Basser Steps. Appointments may be made by calling at the centre or by telephoning 697 5425, 697 5426 or 697 5427 during the above hours.

The Family Planning Association of NSW conducts clinics at the Student Health Unit and at the adjacent Prince of Wales Hospital which are available for both staff and students. Appointments may be made for the Student Health Unit clinic by telephoning 588 2833 or for the Prince of Wales Hospital clinics by telephoning 399 0111.

The Students' Union

The Students' Union was formed in 1952 as an organization, duty recognized by the University Council, to represent the student body and to provide a central organization for the administration of student activities, in the words of its constitution 'The Students' Union is formed for the purpose of advancing the interests of University men and women, facilitating their general scientific and technical education, and fostering a University spirit among them.'

The Students' Union affords a recognized means of communication between the student body and the University administration, and represents its members in all matters affecting their interests. It aims to promote the cultural, educational and recreational life of the University and to encourage a permanent interest among graduates in the life and progress of student activities within the University. The Students' Union also makes representations to government and other bodies outside the University on behalf of its members.

Membership of the Students' Union is compulsory for all registered students of the University; the annual subscription for full-time and part-time students is set out later, in Rules and Procedures, Enrolment and Procedures and Fees Schedules, section 15. Fees. Only those persons who were enrolled as Life Members prior to January 1 1985, shall retain such membership.

The Students' Union is governed by a Council consisting in the main of elected student representatives from the various faculties of the University. There are also representatives of the University Council, Life Members, the Staff Association and the Sports Association. The Council is elected annually in May-June.

The Students' Union has three full-time officers who are elected each year by popular ballot. They are the President, who is mainly the political figure-head of the Union; the Secretary/Treasurer, who organizes the smooth operation of the SU offices, keeps the membership rolls up to date, and oversees the financial operations; and the Women's Officer who represents women on campus and formulates, maintains and co-ordinates the Students' Union policy on women's affairs.

Other officers are the Education Vice-President, who works towards the implementation of Students' Union education policy; the Education Officer concerned with helping students with problems relating to TEAS, Show-Cause and other matters relevant to their courses; the Vice-President who ensures the efficient running of CASOC; and the Director of Overseas Students who deals with specific problems these students may encounter while in Australia.

The activities in which the Students' Union is involved include:

1. Publication of the Student Paper Tharunka.
2. Production of the student video program Campuswide.
3. A free legal service run by a qualified lawyer employed by the Students' Union Council.
4. The Secondhand Bookshop for cheap texts.
5. A child care centre, House at Pooh Corner.
6. CASOC (Clubs and Societies on Campus) which provides money from the SU for affiliated clubs and societies on campus.
7. A video service with access for students to equipment and advice.
8. A noticeboard for casual job vacancies.
9. Organization of orientation for new students.

The SU has two offices on campus. One is located at the back of the Library Lawn (between the Chancellery and the Morven Brown Building), where the SU President, Education Vice-President, Education Officer, Clubs and Societies Secretary and Postgraduate Officer are available to discuss student problems. The other is on the Second Floor of the Squarehouse (above the bar) at the bottom end of campus, where the Secretary/Treasurer, Women's Officer, Overseas Student Director, the full-time Solicitor, Tharunka and Campuswide provide information and student services.

The University Library

The University libraries are mostly situated on the upper campus. The library buildings house the Social Sciences and Humanities Library on Level 4, the Physical Sciences Library on Level 7 and the Law Library on Level 8. The undergraduate collection is on Levels 3 and 4. The Biomedical Library is in the western end of the Mathews Building and is closely associated with libraries in the teaching hospitals of the University.

For details consult Faculty Information in the relevant Faculty Handbook.

There are also library services at other centres:

- The Water Reference Library situated at Manly Vale (telephone 948 0261) which is closely associated with the Physical Sciences Library.
- The library at the Australian Defence Force Academy, ACT, serving the Faculty of Military Studies.
Each library provides reference and lending services to staff and students and each of the libraries on the Kensington campus is open throughout the year during the day and evening periods. The exact hours of opening vary during the course of the academic year. For recorded hours of opening telephone 6972687.

Staff and students normally use a machine-readable identification card to borrow from the University libraries.

The University Union

The University Union provides the amenities which students, staff and graduates require in their daily University life and thus facilitates their knowing and understanding one another through associations outside the lecture room, the library and other places of work.

The Union is housed in a range of buildings across the campus, principal among which are the Roundhouse, the Blockhouse and the Squarehouse located near the Anzac Parade entrance to the University. Membership of the Union is compulsory for all registered students and is open to all members of staff and graduates of the University.

The control of the Union is vested in the Board of Management whose Chief Executive Officer is the Warden.

The Union operates a licensed Bar and twelve Food Service points on the campus, providing services ranging from takeaway snacks and cafeteria-type meals to à la carte restaurant operation.

Shops run directly by the Union are the Logo Shop (University-crested gifts, mementos and clothing), two newsagency/stationery shops, one stationery shop specializing in architecture requisites and an ice cream/confectionery shop. Other facilities operating within buildings occupied by the Union are banks, a credit union agency, hairdressers and a beauty salon, barber, delicatessen, casual clothing shop, pharmacy, dentist, optical dispensing and travel services.

Showers, meeting, games, music practice, reading, craft and dark rooms are provided as well as a Student Resource Area where photocopying, screen printing, stencil cutting and typewriter services and equipment hire are available.

The Union’s cultural activities program encompasses creative leisure classes, lunch hour concerts and films, market days and exhibitions.

Further information on Union programs, activities and services is provided in the Annual Union Handbook and in the Creative Leisure Classes and Activities brochures published each session.

Financial Assistance to Students

Tertiary Education Assistance Scheme

Under this scheme, which is financed by the Commonwealth Government, assistance is available for full-time study in approved courses; to students who are not bonded and who are permanent residents of Australia, subject to a means test on a non-competitive basis. The allowances paid are unlikely to be sufficient, even at the maximum rate, for all the living expenses of a student. Family help and/or income from vacation or spare-time work would also be needed.

Students in the following types of university courses are eligible for assistance:

- Undergraduate and graduate bachelor degree courses;
- Graduate diplomas;
- Approved combined bachelor degree courses;
- Masters qualifying courses (one year).

The rates of allowance and conditions for eligibility are set out in a booklet obtainable from the Commonwealth Department of Education.

It is most important that students advise the TEAS office if at any time they change or discontinue their study programs, as their eligibility for benefits might be affected.

Other Financial Assistance

In addition to the Tertiary Education Assistance Scheme financed by the Australian Government the following forms of assistance are available:

1. Deferment of Payment of Fees

   Deferments may be granted for a short period, usually one month, without the imposition of a late fee penalty, provided the deferment is requested prior to the due date for fee payments.

2. Short Term Cash Loans

   Donations from various sources have made funds available for urgent cash loans not exceeding $100. These loans are normally repayable within one month.

3. The Commonwealth Government has made funds available to the University to provide loans to students in financial difficulty. The loans are to provide for living allowances and other approved expenses associated with attendance at the University. Students are required to enter into a formal agreement with the University to repay the loan. The University is unable to provide from the fund amounts large enough for all or even a major part of the living expenses of a student.

   Students who are in extremely difficult financial circumstances may apply for assistance by way of a grant. In order to qualify for a grant a student must generally show that the financial difficulty has arisen from exceptional misfortune. Grants are rarely made.

   The University has also been the recipient of donations from the Arthur T. George Foundation, started by Sir Arthur George and his family, for the endowment of a student loan fund.
In all cases assistance is limited to students with reasonable academic records and whose financial circumstances warrant assistance.

Enquiries about all forms of financial assistance should be made at the office of Student Services, Room G19, the Chancellery.

Financial Assistance to Aboriginal Students

Financial assistance is available to help Aboriginal students from the Commonwealth Government's Aboriginal Study Grant Scheme. Furthermore, Aboriginal students may apply for loans from the Student Loan Funds.

The University has also received a generous bequest from the estate of the late Alice Brooks Gange for the education of Australian aborigines within the University. Under the terms of this Bequest the Vice-Chancellor approved the establishment of a Centre for Aboriginal Students. This Centre, which began operating in 1985, provides support for Aboriginal students who are enrolled in the University and who wish to use the Centre and its resources. The Centre has a Resident Supervisor.

All enquiries relating to these matters should be made at the office of Student Services, Room G19, the Chancellery.

Rules and Procedures

The University, in common with other large organizations, has established rules and procedures which are designed for the benefit of all members of the University. In some cases there are penalties (eg fines or exclusion from examinations) for non-compliance. Any student who, after carefully reading the rules set out in the following pages, requires further information on their application should seek further advice, in the first instance, at the Enquiry Counter in the North Wing of the Chancellery Building.

General Conduct

The University has not considered it necessary to formulate a detailed code of rules relating to the general conduct of students. Enrolment as a student of the University, however, involves an undertaking to observe the regulations, by-laws and rules of the University, and to pay due regard to any instructions given by any officer of the University.

Appeals

Section 5(c) of Chapter III of the By-laws provides that 'Any person affected by a decision of any member of the Professorial Board (other than the Vice-Chancellor) in respect of breach of discipline or misconduct may appeal to the Vice-Chancellor, and in the case of disciplinary action by the Vice-Chancellor, whether on appeal or otherwise, to the Council.'

Admission and Enrolment

The Student Enquiry Counter, located near the Cashier in the Chancellery on the upper campus, provides information for students on admission requirements, undergraduate and graduate courses and enrolment procedures. Faculty handbooks and the Calendar may be purchased from the Cashier. The Enquiry Counter is open from 9 am to 1 pm and 2 pm to 5 pm, Monday to Friday. During enrolment it is also open on some evenings.

Information may be obtained here about admission to first year undergraduate courses, special admission, admission with advanced standing and admission on overseas qualifications. Applications are also received from students who wish to transfer from one course to another, resume their studies after an absence of twelve months or more, or seek any concession in relation to a course in which they are enrolled.

Applications for admission to undergraduate courses from students who do not satisfy the requirements for admission (see section on Admission Requirements) are referred by the Admissions Section to the Admissions Committee of the Professorial Board.

It is essential that the closing dates for lodgement of applications are adhered to. For further details see the section on Enrolment Procedures and Fees.

Students wishing to enrol as higher degree candidates should first consult the Head of the School in which they wish to study. An application is then lodged on a standard form and the Postgraduate Section, after obtaining a recommendation from the Head of School, refers the application to the appropriate Faculty or Board of Studies Higher Degree Committee.

An Adviser for Prospective Students, Mrs Fay Lindsay, is located in the huts near the foot of Basser Steps (access from Engineering Road), and is available for personal interview with those who require additional information about the University.

First Year Entry

Those seeking entry to first year courses in one or more of twenty-two tertiary institutions in the State including all universities are required to lodge a single application form with the Universities and Colleges Admissions Centre (GPO Box 7049, Sydney 2001). On the application form provision is made for applicants to indicate preferences for courses available in any one of the seven universities and the other tertiary institutions. Students are notified individually of the result of their applications and provided with information
regarding the procedures to be followed in order to accept the offer of a place at this university. Enrolment is completed at the Enrolment Bureau, Unisearch House, 221 Anzac Parade, Kensington.

**Deterior of First Year Enrolment**

Students proceeding directly from school to University who have received an offer of a place may request deferment of enrolment for one year and will usually receive permission providing they do not enrol at another tertiary institution in that year.

**Enrolment Procedures and Fees**

**Schedules 1986**

---

**1. Introduction**

All students, except those enrolling in graduate research degree courses (see sections 5. and 6. below), must lodge an authorized enrolment form with the Cashier either on the day the enrolling officer signs the form or on the day any required General Studies electives are approved.

All students, except those enrolling in graduate research degree courses and those exempted as set out in section 17. below, should on that day also either pay the required fees or lodge an enrolment voucher or other appropriate authority.

Such vouchers and authorities are generally issued by the NSW Department of Education and the NSW Public Service. They are not always issued in time and students who expect to receive an enrolment voucher or other appropriate authority but have not done so should pay the student activities fees and arrange a refund later. Such vouchers and authorities are not the responsibility of the University and their late receipt is not to be assumed as automatically exempting a student from the requirements of enrolling and paying fees.

If a student is unable to pay the fees the enrolment form must still be lodged with the Cashier and the student will be issued with a 'nil' receipt. The student is then indebted to the University and must pay the fees by the end of the second week of the session for which enrolment is being effected.

Penalties apply if fees are paid after the time allowed (see section 18. below) unless the student has obtained an extension of time (see section 13. below) in which to pay fees from the Student Enquiry Counter, the Chancellery. Such an application must be made before the fee is due. Payment may be made through the mail, in which case it is important that the student number be given accurately. Cash should not be sent through the mail.

**2. New Undergraduate Enrolments**

Persons who are applying for entry in 1986 must lodge an application for selection with the Universities and Colleges Admissions Centre, GPO Box 7049, Sydney 2001, by 1 October 1985.

Those who are selected will be required to complete enrolment at a specified time before the start of Session 1. Compulsory student activities fees should be paid on the day.

In special circumstances, however, and provided class places are still available, students may be allowed to complete enrolment after the prescribed time.

Application forms and details of the application procedures may be obtained from the Student Enquiry Counter, Ground Floor, North Wing of the Chancellery Building.

**3. Re-enrolment**

See also sections 4., 6. and 7. below.

Students who are continuing courses (or returning after approved leave of absence) should enrol through the appropriate school in accordance with the procedures set out in the current Enrolment Procedures booklet, available from the Student Enquiry Counter in the Chancellery and from School offices. Undergraduate students who have completed part of a course and have been absent without leave need to apply for entry through the Universities and Colleges Admissions Centre, GPO Box 7049, Sydney 2001, by 1 October 1985.

**4. Restrictions Upon Re-enrolling**

Students who in 1985 have infringed the rules governing re-enrolment should not attempt to re-enrol in 1986 but should follow the written instructions they will receive from the Registrar in December 1985.

**5. New Research Students**

Students enrolling for the first time in graduate research degree courses will be advised by letter concerning the method of enrolment. Enrolment other than in accordance with the procedure set out in this letter will incur a penalty (see section 18. below).

**6. Re-enrolling Research Students**

Students undertaking research degree courses (course codes 0-2999) will be re-enrolled automatically each year and sent an account for any fees due.

**7. Submission of Project Report**

Students registered for formal masters degree courses (course codes 8000-9999) who at the commencement of Session 1 have completed all the work for a degree or diploma except for the submission of the relevant project report are required to re-enrol by the end of the second week.
of Session 1. Completion of enrolment after then will incur a penalty (see section 16. below).

Information about possible student activities fees exemption is set out in section 17. (10) below.

8. Enrolments by Miscellaneous Students

Enrolments by Miscellaneous students are governed by the following rules:

(1) Enrolment in a particular subject or subjects as a miscellaneous student — ie as a student not proceeding to a degree or diploma — may be permitted provided that in every case the Head of School offering the subject considers that the student will benefit from the enrolment and provided also that accommodation is available and that the enrolment does not prevent a place in that subject being available to a student proceeding to a degree or diploma.

(2) A student who is under exclusion from any subject in the University may not enrol as a miscellaneous student in that subject.

(3) A student who is under exclusion from any course in the University may not enrol in any subject which forms a compulsory component of the course from which the student is excluded.

(4) A student who is subsequently admitted to a course of the University for which any subjects completed as a miscellaneous student form a part may receive standing for those subjects.

(5) There are quota restrictions on the number of students allowed to enrol as miscellaneous, irrespective of whether they have approval from the Head of School. Applicants with written Head of School approval may be permitted to enrol providing there are places available in the quotas.

(6) As a general rule the University does not permit miscellaneous students to enrol in first year undergraduate subjects. Enquiries concerning eligibility for enrolment may be made at the Student Enquiry Counter, the Chancellery (telephone 697 3095).

9. Final Dates for Completion of Enrolment

No enrolments for courses extending over the whole year or for Session 1 only will be accepted from new students after the end of the second week of Session 1 (14 March 1986) except with the express approval of the Registrar and the Heads of the Schools concerned; no later year enrolments for courses extending over the whole year or for Session 1 only will be accepted after the end of the fourth week of Session 1 (28 March 1986) except with the express approval of the Registrar and the Heads of the Schools concerned. No enrolments for courses in Session 2 only will be accepted after the end of the second week of Session 2 (8 August 1986) except with the express approval of the Registrar and the Heads of the Schools concerned.

10. Student Card — Conditions of Issue

All students enrolled in degree or diploma courses or as miscellaneous students are issued with a University of New South Wales Student Card. All students are issued with cards on their initial enrolment.

The number appearing on the card below the student's name is the student registration number used in the University's records. This number should be quoted in all correspondence.

(1) The card must be carried at the University and shown on request. It must be presented when borrowing from the University libraries, when using Library facilities and when applying for concessions.

(2) The card is not transferable.

(3) The student to whom the card has been issued must notify the Circulation Department of the Library of its loss or theft. Failure to do so may result in the cardholder being held responsible for items issued on the card after its loss or theft.

(4) The card is valid only for the period of enrolment as indicated on the receipt issued by the Cashier at enrolment each year.

(5) The cardholder accepts responsibility for all Library books issued on his/her card and agrees to return books by the due date.

(6) If the card is damaged or becomes otherwise unusable, it is the cardholder's responsibility to seek replacement.

(7) The card always remains the property of the University and must be returned to it when the holder leaves the University.

11. Payment of Fees

The fees and charges which are payable include those charges raised to finance the expenses incurred in operating activities such as the University Union, the Students' Union, the Sports Association, and the Physical Education and Recreation Centre. Penalty payments are also incurred if a student fails to complete procedures as required. Charges may also be payable, sometimes in the form of a deposit, for the hiring of kits of equipment in certain subjects. Accommodation charges, costs of subsistence on excursions, field work etc., and for hospital residence (medical students) are payable in appropriate circumstances.

12. Assisted Students

Scholarship holders and sponsored students who have not received an enrolment voucher or appropriate letter of authority from their sponsor at the time when they are enrolling should pay their own fees and a refund will be made when the enrolment voucher or letter of authority is subsequently lodged with the Cashier.

Those unable to pay their own fees in these circumstances can apply for an extension of time (see section 13. below) in which to pay. Such an application must be made before the fees are due.

13. Extension of Time

Students who are unable to pay fees by the due date may apply for an extension of time, which may be granted in extenuating circumstances. Such applications must be made, in writing, before the due date and lodged at the student Enquiry Counter, the Chancellery.
14. Failure to Pay Fees and Other Debts

Students who fail to pay prescribed fees or charges or are otherwise indebted to the University and who fail either to make a satisfactory settlement of indebtedness upon receipt of due notice or to receive a special exemption cease to be entitled to the use of University facilities. Such students are not permitted to enrol for a further session, to attend classes or examinations, or to be granted any official credentials. In the case of students enrolled for Session 1 only or for both Sessions 1 and 2 this disbarment applies if any portion of fees is outstanding after the end of the eighth week of Session 1 (25 April 1986). In the case of students enrolled for Session 2 only this disbarment applies if any portion of fees is outstanding after the end of the sixth week of Session 2 (5 September 1986).

In special cases the Registrar may grant exemption from the disqualification referred to in the preceding paragraph upon receipt of a written statement setting out all relevant circumstances.

15. Fees

Fees and penalties quoted are current at the time of publication but may be amended by the University without notice.

**University Union Entrance Fee**
Payable on first enrolment $40

Students enrolling for only one session must pay the full University Union entrance fee.

**Student Activities Fees**

All students (with the exceptions set out in section 17, below) are required to pay the following fees if enrolling for a program involving two sessions. Those enrolling for only one session will pay the full University Union Entrance Fee, if applicable, and one-half of any other fees due.

Students who consider themselves eligible for life membership of the University Union, the Sports Association, or the Students' Union, should make enquiries about the matter at the offices of those bodies.

Students often seek exemption from some or all of the student activities fees for reasons other than those set out in section 17, below. It is stressed that the fees charged are a contribution by students towards services and amenities for the University community (both now and in the future) and exemption from them cannot be claimed because a student is unable or unwilling to make use of some of those services or amenities.

Student Activities Fees are adjusted annually by a system of indexation and those set out below have been approved for 1986.

- **University Union** annual subscription $115
- **Sports Association** annual subscription $25
- **Students' Union Annual Subscription**
  - Students enrolling in full-time courses $34
  - Students enrolling in part-time courses or as miscellaneous students $28

**Miscellaneous Fund annual fee** $40

This fee is used to finance expenses generally of a capital nature relating to student activities and amenities. Funds are allocated for projects recommended by the Student Affairs Committee and approved by the University Council.

**Special Examination Fees**

- Examinations conducted in special circumstances for each subject $20
- Review of examination results for each subject $20

**Other Charges**

In addition to the fees outlined above and depending on the subject being taken, students may be required to make a payment for equipment; money so paid is, in general, refunded if the equipment is returned in satisfactory condition.

16. Penalties

(1) Failure to lodge enrolment form according to enrolment procedure $20
(2) Payment of fees after end of second week of session $20
(3) Payment of fees after end of fourth week of session $40

Penalties (1) and (2) or (1) and (3) may accumulate.

17. Exemptions — fees

Students often seek exemption from the fees for reasons other than those set out below. It is stressed that the fees charged are a contribution by students towards services and amenities for the University community (both now and in the future) and exemption from them cannot be claimed because a student is unable or unwilling to make use of some of those services or amenities.

(1) Life members of the University Union, the Sports Association, and Students' Union are exempt from the relevant fee or fees.

Students who consider themselves eligible for life membership of the University Union, the Sports Association, or the Students' Union, should make enquiries about the matter at the offices of those bodies.

(2) Students enrolled in courses classified as External are exempt from all Student Activities Fees and the University Union Entrance Fee.

(3) Students enrolled in courses at the University College (Australian Defence Force Academy) are exempt from the Student Activities Fees and the University Union Entrance Fee in section 15, above but shall pay such other fees and charges as the Council may from time to time determine.

(4) University Union fees and subscriptions may be waived by the Registrar for students enrolled in graduate courses in which the formal academic requirements are undertaken at a part of the University away from the Kensington campus.

(5) Students who while enrolled at and attending another university (or other tertiary institution as approved by the Vice-Chancellor) in a degree or diploma course are given
approval to enrol at the University of New South Wales but only as miscellaneous students for subjects to be credited towards the degrees or diplomas for which they are enrolled elsewhere are exempt from all Student Activities Fees and the University Union Entrance Fee.

Institutions approved are: Australian Film and Television School, New South Wales Institute of Technology, Sydney College of Advanced Education and Sydney College of Chiropractic.

(6) Undergraduate students of a recognized university outside Australia who attend the University of New South Wales with the permission of the head of the appropriate school or department to take part as miscellaneous students in an academic program relevant to their regular studies and approved by the authorities of their own institution are exempt from all Student Activities Fees and the University Union Entrance Fee.

(7) Graduate students not in attendance at the University and who are enrolling in a project only other than for the first time, are exempt from all Student Activities Fees.

(8) Graduate students resubmitting a thesis or project only are exempt from all Student Activities Fees.

(9) All Student Activities Fees, for one or more sessions, may be waived by the Registrar for students who are given formal permission to pursue their studies at another institution for one or more sessions.

(10) Graduate students who have completed all the work for a qualification at the commencement of session, except for the submission of the relevant thesis or project report, may be exempted from the payment of Student Activities Fees by the Registrar on production of an appropriate statement signed by the relevant Supervisor or Head of School.

(11) Students enrolled in a session or sessions devoted entirely to training or experience away from the campus and its associated laboratories, hospitals, centres, institutes and field stations are exempt from all Student Activities Fees for that session or sessions.

(12) Students whose registration is cancelled or suspended by the University shall receive refunds of fees paid in accordance with the provisions of section 18, (5) below except that a refund of one-half of the fees shall be made if such cancellation or suspension takes place between the end of the fourth week of Session 1 and the end of the fourth week of Session 2.

18. Variations in Enrolment (including Withdrawal)

(1) Students wishing to vary an enrolment program must make application on the Variation of Enrolment form available from the appropriate Course Authority and the Student Enquiry Counter.

(2) Students withdrawing from courses (and see also information about withdrawal from subjects below) are required to notify the Registrar in writing or complete the withdrawal form available from the Student Enquiry Counter. In some cases such students will be entitled to fee refunds (see (5) below).

(3) Enrolment in additional subjects

Applications for enrolment in additional subjects must be submitted by:
- 28 March 1986 for Session 1 only and whole year subjects;
- 22 August 1986 for Session 2 only subjects.

(4) Withdrawal from subjects

Applications to withdraw from subjects may be submitted throughout the year but applications lodged after the following dates will result in students being regarded as having failed the subjects concerned, except in special circumstances:
- (a) for one session subjects, the end of the seventh week of that session (18 April or 19 September).
- (b) for whole year subjects, the end of the second week of Session 2 (8 August).

(5) Withdrawal from Course – Refunds – Student Activities Fees

Whether or not a student's withdrawal entails academic penalties (covered in item (4) above) there are rules governing Student Activities Fees refunds in the case of complete withdrawal from a course as follows:
- (a) If notice of withdrawal from a course is received before the first day of Session 1, a refund of all Student Activities Fees paid will be made.
- (b) If notice of withdrawal is received on or after the first day of Session 1, a partial refund of the University Union Entrance Fee will be made on the following basis: any person who has paid the entrance fee in any year and who withdraws from membership of the University Union after the commencement of Session 1 in the same year, or who does not renew membership in the immediately succeeding year may on written application to the Warden receive a refund of half the entrance fee paid.
- (c) If the notice of withdrawal is given before the end of the fourth week of Session 1 (28 March 1986) a full refund of Student Activities Fees paid will be made; if notice is given before the end of the seventh week of Session 1 (18 April 1986) a refund of three-quarters of the Student Activities Fees paid will be made; if notice is given before the beginning of Session 2 (28 July 1986) a refund of one-half of the Student Activities Fees paid will be made; if notice is given before the end of the seventh week of Session 2 (19 September 1986) a refund of one-quarter of Student Activities Fees paid will be made; thereafter no refund will be made except that provided for in (d) below.
- (d) If a student's enrolment in any year is for one session only and the student gives notice of withdrawal prior to the end of the fourth week of that session (28 March or 22 August 1986) a full refund of Student Activities Fees paid will be made; if notice is given before the end of the seventh week of that session (18 April or 19 September 1986) a refund of one-half of the Student Activities Fees paid will be made; thereafter no refund will be made.
- (e) The refunds mentioned in (c) and (d) above may be granted by the Registrar to a student unable to notify the Registrar in writing by the times required provided evidence is supplied that the student has ceased attendance by those times.
6) Acknowledgements
The Registrar will acknowledge each application for a variation in enrolment (including withdrawals from subjects) as follows:

(a) variations lodged before the Friday of the seventh week of each session (18 April or 19 September) will be incorporated in the Confirmation of Enrolment Program notice forwarded to students on 29 April or 30 September as appropriate.

(b) variations lodged after those dates will be acknowledged by letter.

(c) withdrawals from a course are acknowledged individually whenever they are lodged.

(7) It is emphasized that failure to attend for any assessment procedure, or to lodge any material stipulated as part of an assessment procedure, in any subject in which a student is enrolled will be regarded as failure in that assessment procedure unless written approval to withdraw from the subject without failure has been obtained from the Registrar.

19. Exemption – Membership
The Registrar is empowered to grant exemption from membership of any or all of the University Union, the Students' Union and the Sports Association to students who have a genuine conscientious objection to such membership, subject to payment of the prescribed fees to the Miscellaneous Fund.

Leave of Absence

Leave of absence from an undergraduate course of study may be granted to students other than those in the first year of a course. Leave of absence has generally been restricted to one year but in special circumstances two years have been granted.

To apply for such leave of absence, a letter should be submitted to the Registrar immediately following the release of annual examination results and must include the student's full name, registration number, the course and stage in which enrolled in the previous year and, most important, the reason why leave is being sought. The letter advising the result of the application will provide details about how to re-enrol.

Higher degree and graduate diploma candidates may apply for suspension of enrolment under similar conditions.

Undergraduate Course Transfers

Students wishing to transfer from one course to another must complete and submit an application form, obtainable from the Student Enquiry Counter, the Chancellery, by Friday 10 January 1986.

Students whose applications to transfer are successful, and who are transferring from one school to another are required to comply with the enrolment procedure laid down for new students with advanced standing. Students transferring from one course to another within the same school are required to attend the appropriate enrolment session for the course to which they have approval to transfer.

Students must present the approval to transfer to the offending officer, and those who have not received advice regarding their application to transfer before the date on which they are required to enrol should check with the office of the Admissions Section.

Students should also advise the enrolling officer in the school in which they were enrolled in 1985 of their intention to transfer.

Admission with Advanced Standing

Any persons who make application to register as a candidate for any degree or other award granted by the University may be admitted to the course of study leading to such degree or award with such standing on the basis of previous attainments as may be determined by the Professorial Board provided that:

1. the Board shall not grant such standing under these rules as is inconsistent with the rules governing progression to such degree or award as are operative at the time the application is determined;

2. where students transfer from another university such students shall not in general be granted standing in this University which is superior to what they have in the University from which they transfer;

3. the standing granted by the Board in the case of any application based on any degree/s or other awards already held by the applicants, shall not be such as will permit them to qualify for the degree or award for which they seek to register without completing the courses of instruction and passing the examinations in at least those subjects comprising the later half of the course, save that where such a program of studies would involve them repeating courses of instruction in which the Board deems them to have already qualified, the Board may prescribe an alternative program of studies in lieu thereof;

4. the standing granted by the Board in the case of any application based on partial completion of the requirements for any degree or other award of another institution shall not be such as will permit the applicants to qualify for the degree or award for which they seek to register by satisfactory completion of a program of study deemed by the Board to be less than that required of students in full-time attendance in the final year of the course in which the applicants seek to register;

5. the standing granted by the Board in the case of any application based on the partial completion of the requirements for any degree or other award of the University may be such as to give full credit in the course to which the applicants
seek to transfer for work done in the course from which they transfer.

Where the identity between the requirements for any award of the University already held and that of any other award of the University is such that the requirements outstanding for the second award are less than half the requirements of that award, students who merely complete such outstanding requirements shall not thereby be entitled to receive the second award but shall be entitled to receive a statement over the hand of the Registrar in appropriate terms.

Resumption of Courses

Students who have had a leave of absence for twelve months and wish to resume their course should follow the instructions about re-enrolling given in the letter granting leave of absence. If these instructions are not fully understood or have been lost, students should contact the office of the Admissions Section before November in the year preceding the one in which they wish to resume their course.

If students have not obtained leave of absence from their course and have not been enrolled in the course over the past twelve months or more, they should apply for admission to the course through the Universities and Colleges Admissions Centre before 1 October in the year preceding that in which they wish to resume studies.

Examinations

Examinations are held in June/July and in November/December.

Timetables

Provisional timetables indicating the dates and times of examinations are posted on the University noticeboards in May and October. Students must advise the Examinations Section (the Chancellery) of any clash in examinations.

Final timetables indicating the dates, times, locations, and authorized materials are available for students two weeks before the end of each session.

Misreading of the timetable is not an acceptable excuse for failure to attend any examination.

Assessment of Course Progress

In the assessment of a student's progress in a course, consideration may be given to work in laboratory and class exercises and to any term or other tests given throughout the year as well as to the results of written examinations.

Examination Results

Grading of Passes

Passes are graded as follows:

- High Distinction: an outstanding performance
- Distinction: a superior performance
- Credit: a good performance
- Pass: an acceptable level of performance
- Satisfactory: satisfactory completion of a subject for which graded passes are not available

Pass Conceded

A pass conceded may be granted provided that the overall performance is considered to warrant such a concession. A pass conceded in a subject will allow progression to another subject for which the former subject is a prerequisite.

Pass Terminating

A pass terminating may be granted provided that the overall performance is considered to warrant such a concession. A pass terminating does not allow progression to another subject for which the former subject is a prerequisite.

Availability of Results

Final examination results will be posted to a student's term address, or vacation address if requested. Forms requesting that results be posted to a vacation address and change of address forms are obtainable at the Student Enquiry Counter, the Chancellery. Forms can be accepted up to Friday 4 July for Session 1 results and Friday 5 December for Session 2 and whole year results. Results are also posted on School noticeboards and in the University Library. Results on noticeboards are listed by Student Registration Number.

No examination results are given by telephone.

Review of Results

A student may make application to the Registrar for the review of a result. The application form, accompanied by an appropriate fee, must be submitted not later than fifteen working days after the date of issue of the Notification of Result of Assessment form.

In reviewing a result, the subject authorities shall ensure that all components of the assessment have been assessed and a mark assigned.

A review of a result is not a detailed reassessment of a student's standard of knowledge and understanding of, and skills in, the subject. It is rather a search for arithmetic error in arriving at the composite mark and for gross and obvious error in assignment of marks in components of the final composite mark.

When a change in grade is recommended, the application fee will be refunded by the Registrar.

Special Consideration

Students who believe that their performance in a subject, either during session or in an examination, has been adversely affected by sickness or any other reason should inform the Registrar and ask for special consideration in the determination of their standing.
Such requests should be made as soon as practicable after the occurrence and in any event no more than seven days after the final examination in a subject.

When submitting a request for special consideration students should provide all possible supporting evidence (e.g., medical certificates) together with their registration number and enrolment details.

Physical Disabilities
Students suffering from a physical disability which puts them at a disadvantage in written examinations should advise the Examinations Section (Ground Floor, the Chancellery) immediately their disability is known. If necessary, special arrangements will be made to meet the student's requirements.

Students who are permanently disabled and need to make special arrangements for their examinations, should contact the Examinations Section as soon as the final timetable becomes available.

Use of Computers and Electronic Calculators
The use of computers or electronic calculators may be permitted in examinations conducted within the University. Computers and electronic calculators which are authorized by the University for this purpose must be hand-held, internally powered, and silent. Computers are distinguished from electronic calculators for this purpose by the existence of a full alphabetic keyboard on them. Computers are not permitted in examinations for which an electronic calculator has been specified. When an electronic calculator is permitted in an examination, any programmable memory on it must be cleared prior to entering an examination room.

The University does not provide computers or electronic calculators of the kind described in this rule for use in examinations although some schools may make them available in special circumstances.

Examinations Held Away from the Campus
Except in the case of students enrolled on external courses, examinations will not be permitted away from the campus unless the candidate is engaged on compulsory industrial training. Candidates must advise the Officer-in-charge, Examinations Section, immediately the details of the industrial training are known. Special forms for this purpose are available at the Student Enquiry Counter in the north wing of the Chancellery.

Arrival at Examinations
Examination Rooms will be open to students twenty-five minutes before the commencement of the examination. Candidates are requested to be in their places at least fifteen minutes before the commencement to hear announcements.

Reading the Examination Paper
The examination paper will be available for reading ten minutes before the instruction is given to commence writing.

Use of Linguistic Dictionaries
The answers in all examinations and in all work submitted must be in English unless otherwise directed. Students may apply for permission to use standard linguistic dictionaries in the presentation of written work for assessment. Such applications should be made in writing to the Officer-in-charge, Examinations Section not later than 14 days prior to the need to use the linguistic dictionary.

Academic Misconduct
Students are reminded that the University regards academic misconduct as a very serious matter. Students found guilty of academic misconduct are usually excluded from the University for two years. Because of the circumstances in individual cases the period of exclusion can range from one session to permanent exclusion from the University.

The following are some of the actions which have resulted in students being found guilty of academic misconduct in recent years: taking unauthorized materials into an examination; submitting work for assessment knowing it to be the work of another person; improperly obtaining prior knowledge of an examination paper and using that knowledge in the examination; failing to acknowledge the source of material in an assignment.

Conduct of Examinations
Examinations are conducted in accordance with the following rules and procedure:

1. Candidates are required to obey any instruction given by an examination supervisor for the proper conduct of the examination.

2. Candidates are required to be in their places in the examination room not less than fifteen minutes before the time for commencement.

3. No bag, writing paper, blotting paper, manuscript or book other than a specified aid, is to be brought into the examination room.

4. Candidates shall not be admitted to an examination after thirty minutes from the time of commencement of the examination.

5. Candidates shall not be permitted to leave the examination room before the expiry of thirty minutes from the time the examination commences.

6. Candidates shall not be re-admitted to the examination room after they have left it unless, during the full period of their absence, they have been under approved supervision.

7. Candidates shall not by any improper means obtain, or endeavour to obtain, assistance in their work, give, or endeavour to give, assistance to any other candidate, or commit any breach of good order.

8. All answers must be in English unless otherwise stated. Foreign students who have the written approval of the Registrar may use standard linguistic dictionaries.

9. Smoking is not permitted during the course of examinations.

10. A candidate who commits any infringement of the rules governing examinations is liable to disqualification at the particular examination, to immediate expulsion from the examination room and to such further penalty as may be determined in accordance with the By-laws.
Writing in Examinations
Candidates are permitted to take pens, pencils and erasers into the examination room but are advised that all answers must be written in ink. Except where expressly required, pencils may be used only for drawing, sketching or graphical work.

Acknowledgement of Sources
Students are expected to acknowledge the source of ideas and expressions used in submitted work. To provide adequate documentation is not only an indication of academic honesty but also a courtesy enabling the marker to consult sources with ease. Failure to do so may constitute plagiarism, which is subject to a charge of academic misconduct.

Further Assessment
In special circumstances further assessment including assessment or further assessment on medical or compassionate grounds may be granted.

Further assessment may be given by the subject authority at his or her discretion at any time prior to the meeting of the relevant faculty assessment committee (normally the fourth week of the Midyear Recess and the second week of December). Further assessment may also be awarded at the faculty assessment committee and students affected may need to be free to undertake that further assessment in the last week in the Midyear Recess and in the period up to the end of the second week in January; students should consult their subject authority for details of further assessment immediately their results are known.

Restrictions upon Student Re-enrolling
The University Council has adopted the following rules governing re-enrolment with the object of requiring students with a record of failure to show cause why they should be allowed to re-enrol and retain valuable class places.

First Year Rule
1. Students enrolled in the first year of any undergraduate course of study in the University shall be required to show cause why they should be allowed to continue the course if they do not pass the minimum number of subjects, units or credits prescribed for this purpose by the relevant faculty or board of studies.

The prescribed minimum for each undergraduate course may be found in Schedule A below, the schedule may be varied from time to time by the Professorial Board.

Repeated Failure Rule
2. Students shall be required to show cause why they should be allowed to repeat a subject which they have failed more than once. Where the subject is prescribed as part of the course they shall also be required to show cause why they should be allowed to continue that course.

General Rule
3. (1) Students shall be required to show cause why they should be allowed to repeat a subject they have failed if the assessment committee of the faculty or board of studies so decides on the basis of previous failures in that subject or in a related subject. Where the subject is prescribed as part of the course they shall also be required to show cause why they should be allowed to continue that course.

(2) Students shall be required to show cause why they should be allowed to continue their course if the assessment committee of the faculty or board of studies so decides on the basis of their academic record.

The Session-Unit System
4. (1) Students who infringe the provisions of Rules 1 or 2, at the end of Session 1 of any year will be allowed to repeat the subject(s) (if offered) and/or continue the course in Session 2 of that year, subject to the rules of progression in the course.

(2) Such students will be required to show cause at the end of the year, except that students who infringe Rule 2, at the end of Session 1, and repeat the subjects in question in Session 2, and pass them, will not be required to show cause on account of any such subjects.

Exemption from Rules by Faculties
5. (1) A faculty or board of studies assessment committee may, in special circumstances, exempt students from some or all of the provisions of Rules 1 and 2.

(2) Such students will not be required to show cause under such provisions and will be notified accordingly by the Registrar.

Showing Cause
6. (1) Students wishing to show cause must apply for special permission to re-enrol. Application should be made on the form available from the Registrar and must be lodged with the Registrar by the dates published annually by the Registrar. A late application may be accepted at the discretion of the University.

(2) Each application shall be considered by the Admissions and Re-enrolment Committee of the relevant faculty or board of studies which shall determine whether the cause shown is adequate to justify the granting of permission to re-enrol.

Appeal
7. (1) Students who are excluded by the Admissions and Re-enrolment Committee from a course and/or subject under the provisions of the Rules will have their applications to re-enrol reconsidered automatically by the Re-enrolment Committee of the Professorial Board.

(2) Students whose exclusion is upheld by the Re-enrolment Committee may appeal to an Appeal Committee constituted by Council for this purpose with the following membership:

A Pro-Vice-Chancellor, nominated by the Vice-Chancellor who shall be Chairman.

The Chairman of the Professorial Board, or if its Chairman is unable to serve, a member of the Professorial Board, nominated by the Chairman of the Professorial Board, or when the
Chairman of the Professorial Board is unable to make a nomination, nominated by the Vice-Chairman.

One of the category of members of the Council elected by the graduates of the University, nominated by the Vice-Chancellor.

The decision of the Committee shall be final.

(3) The notification to students of a decision which has been upheld by the Re-enrolment Committee of the Professorial Board to exclude them from re-enrolling in a course and/or subject shall indicate that they may appeal against that decision to the Appeal Committee. The appeal must be lodged with the Registrar within fourteen days of the date of notification of exclusion; in special circumstances a late appeal may be accepted at the discretion of the chairman of the Appeal Committee. In lodging such an appeal with the Registrar students should provide a complete statement of all grounds on which the appeal is based.

(4) The Appeal Committee shall determine appeals after consideration of each appellant's academic record, application for special permission to re-enrol, and stated grounds of appeal. In particular circumstances, the Appeal Committee may require students to appear in person.

Exclusion

8. (1) Students who are required to show cause under the provisions of Rules 1, or 3, and either do not attempt to show cause or do not receive special permission to re-enrol from the Admissions and Re-enrolment Committee (or the Re-enrolment Committee on appeal) shall be excluded, for a period not in excess of two years, from re-enrolling in the subjects and courses on account of which they were required to show cause. Where the subjects failed are prescribed as part of any other course (or courses) they shall not be allowed to enrol in any such course.

(2) Students required to show cause under the provisions of Rule 2, who either do not attempt to show cause or do not receive special permission to re-enrol from the Admissions and Re-enrolment Committee (or the Re-enrolment Committee on appeal) shall be excluded, for a period not in excess of two years, from re-enrolling in any subject they have failed twice. Where the subjects failed are prescribed as part of a course they shall also be excluded from that course. Where the subjects failed are prescribed as part of any other course (or courses) they shall not be allowed to enrol in any such course.

Re-admission after Exclusion

9. (1) Excluded students may apply for re-admission after the period of exclusion has expired.

(2) (a) Applications for re-admission to a course should be made to the Universities and Colleges Admissions Centre before the closing date for normal applications in the year prior to that in which re-admission is sought. Such applications will be considered by the Admissions and Re-enrolment Committee of the relevant faculty or board of studies.

(b) Applications for re-admission to a subject should be made to the Registrar before 30 November in the year prior to that in which re-admission is sought. Such applications will be considered by the relevant subject authority.

(3) Applications should include evidence that the circumstances which were deemed to operate against satisfactory performance at the time of exclusion are no longer operative or are reduced in intensity and/or evidence of action taken (including enrolment in course/s) to improve capacity to resume studies.

(4) Students whose applications for re-admission to a course or subject are unsatisfactory (see 9. (2) (a), (b) respectively) will be invited to appeal to the Re-Enrolment Committee of the Professorial Board. The decision of the Re-Enrolment Committee will be final.

10. Students who fail a subject at the examinations in any year or session and re-enrol in the same course in the following year or session must include in their programs of studies for that year or session the subject which they failed. This requirement will not be applicable if the subject is not offered the following year or session, is not a compulsory component of a particular course, or if there is some other cause which is acceptable to the Professorial Board, for not immediately repeating the failed subject.

Restrictions and Definitions

11. (1) These rules do not apply to students enrolled in programs leading to a higher degree or graduate diploma.

(2) A subject is defined as a unit of instruction identified by a distinctive subject number.

Schedule A

(See First Year Rule 1. above)

Where the minimum requirement is half the program, this is defined as half the sum of the unit values of all the subjects in a student's program.

Admission to Degree or Diploma

Students whose current program will enable them to complete all requirements for the degree or diploma, including industrial training where necessary, should lodge with the Registrar the form Application for Admission to Degree/Diploma and return it to the Registrar by the second Monday in May for the October ceremonies, and the second Friday in October for all other ceremonies. The forms are available from the Student Enquiry Counter in the north wing of the Chancellery.

Students who have indicated on their enrolment form that they are potential graduands are forwarded an application form with their Confirmation of Enrolment Program notice in September (or, in the case of students who expect to satisfy requirements at the end of Session 1, with the form issued in April). Students who do not complete an application form will not graduate; students who do not return their application form by the due date will graduate at a later series of ceremonies.

Students enrolled in courses 3400, 3910 and 3970 who have completed an application form to graduate at the pass level and who then decide to proceed to an honours year should advise the Registrar, in writing before 1 September for those completing requirements at the end of Session 1, or before 28 February for those completing requirements at the end of Session 2.

A list of graduands in Medicine who have applied for their degree is published in *The Sydney Morning Herald* in January.

A list of graduands other than Medicine who have applied for their degree/diploma and who expect to graduate in October is published in *The Sydney Morning Herald* on the first Wednesday in September.

A list of graduands other than Medicine who have applied for their degree/diploma and who expect to graduate in April/May the following year is published in *The Sydney Morning Herald* on the first Wednesday in March.

Students who are potential graduands and who wish to notify the Registrar of a change of address should submit an additional form Final Year Students’ Graduation: Change of Address.
Attendance at Classes

Students are expected to be regular and punctual in attendance at all classes in the subjects in which they are enrolled. All applications for exemption from attendance at classes of any kind must be made in writing to the Registrar.

In the case of illness or of absence for some other unavoidable cause students may be excused by the Registrar for non-attendance at classes for a period of not more than one month or, on the recommendation of the Dean of the appropriate faculty, for a longer period.

Absence from Classes

Explanations of absences from classes, or requests for permission to be absent from forthcoming classes, should be addressed to the Registrar and, where applicable, should be accompanied by a medical certificate. If examinations or other forms of assessment have been missed, this should be stated in the application.

If students attend less than eighty per cent of their possible classes they may be refused final assessment.

Student Records

Confirmation of Enrolment Program notices are sent to all students on 28 April and 29 September. It is not necessary to return these forms unless any of the information recorded is incorrect. If amendments need to be made, students should contact the appropriate course office.

Release of Information to Third Parties

The University treats results of assessment and information it receives from a student as confidential and will not reveal such information to third parties without the permission of the student except at the discretion of senior officers in circumstances considered of benefit to the student and when it is either impossible or impracticable to gain the student’s prior permission. This happens rarely. This policy is considered so important that it often involves officers of the University in very difficult situations; for example, when they must refuse to reveal the address of a student to parents or other relatives.

In spite of the policy, all students should be aware that students' addresses are eagerly sought by various commercial agents and that subterfuges of various kinds can be used to obtain them. From time to time, for example, people claiming to be from the University telephone students or their families and ask for information (usually another student's address) which is often given, unsuspectingly. There is evidence that this is a technique used by some commercial agents.

Ownership of Students' Work

The University reserves the right to retain at its own discretion the original or one copy of any drawings, models, designs, plans and specifications, essays, theses or other work executed by students as part of their courses, or submitted for any award or competition conducted by the University.

Notices

Official University notices are displayed on the noticeboards and students are expected to be acquainted with the notices which concern them. These boards are in the Biological Sciences Building, the Mathews Building, the Chancellery (lower ground floor), Central Lecture Block, Dalton Building (Chemistry), Main Building (Physics and Mining) and in the Western Grounds Area.
Parking within the University Grounds

A limited amount of parking is available on campus. Copies of the University's parking rules may be obtained on application to Room 240, the Chancellery.

Academic Dress

Information about the University's academic dress requirements may be obtained from the Ceremonials Section, Room LG2, the Chancellery (phone extension 3112).

Lost Property

All enquiries concerning lost property should be made to the Superintendent (Patrol and Cleaning Services) on extension 3460 or to the Lost Property Office at the Union.

Dean's Letter to New Students

Most of the information in this Handbook is set out in a formal manner, as is required by the Faculty. However, I would like, on behalf of the staff, to extend a warm welcome to the students of 1986 and to express the hope that you will find the Law School a friendly as well as intellectually stimulating environment.

The Law School enrolled its first students in 1971 and held its first graduation ceremony in 1976. Although still relatively young by international standards, it has become firmly established with a sound and growing reputation in several directions. In the time since its establishment, important changes have taken place. We have grown from a small group of staff and students, all of whom knew each other, to a school with over 1000 students and 50 academic members of staff. During this time the economic climate has changed significantly, with consequences both for the resources available to universities and employment opportunities for law graduates.

These developments, and particularly the transition from a small school to a large one, have required the Law School to adapt in a variety of ways. Nevertheless the values established in the early days remain of paramount importance to us. These include an emphasis on effective teaching to groups which are as small as resources permit, carefully constructed methods of assessment, and an effort to develop links with disciplines other than law. Student representatives are actively involved in the deliberations of the School and Faculty. There is genuine concern for our students and special efforts have been made to assist particular groups, such as Aboriginal students and mature age entrants.

A curriculum with a wide range of optional subjects has been developed in response to the diverse range of interests of staff and students in many areas of the law. The fact that a large proportion of our students choose the Commerce/Law course is reflected in the substantial program of business law electives which are offered. There are many electives which reflect concern about the welfare of various groups in the community.

New approaches to legal education in recent years continue the innovative approach of the Law School's founders. These are reflected in efforts to incorporate clinical legal training into the curriculum, in a scheme to bring distinguished practitioners into the Law School as teachers for six-month periods and in experiments with computer uses in the law. At the same time the output of legal scholarship and research into more theoretical areas has increased. There is an active program of moots and mock trials, backed with new court facilities.

Our graduates have been well received in the legal profession and in other areas, such as accounting. We have developed a placement program to help students find summer employment prior to graduation and employment on graduation. Employment in traditional areas of
private practice is certainly tight at present and students are advised to remain flexible in their career intentions.

The Law School has also built a reputation for concern about the adequacy of the law to meet social and economic needs within the community. The Kingsford Legal Centre, although designed primarily for teaching purposes, also meets pressing needs for legal aid in the local area. Our staff, students and graduates have been actively involved in a range of areas where there is concern about the welfare of underprivileged groups within the community, or doubts about the objectives or effectiveness of regulatory action and the court system. These activities are consistent with the responsibility of a Law School within a University to question the adequacy of existing arrangements and goals within the community, in addition to discharging its obligations with respect to teaching and basic research.

We are conscious that the reputation of our Law School depends upon the performance of both academic staff and students within the University and outside. We are aware of the problems associated with a large and busy Law School but are determined to maintain high standards of teaching and close contacts between staff and students. The Law Library occupies a crucial place in the work of all staff and students. Its dedicated staff are willing at all times to help you and thereby share in the teaching function of the Law School.

If you have any problems you will always find someone in the Law School very willing to assist you. There is a special panel of teachers available to counsel you on personal or other problems. We wish you every success and we look forward to working with you.

Some People Who Can Help You

If you require advice about enrolment, degree requirements, progression within courses, career advice or any other general faculty matters contact one of the following: Susan Armstrong, Sub-Dean (Room 1008); Stephen Cavanagh, Sub-Dean (Room 1011); Pamela Monk, Senior Administrative Officer (Room 1008); Jane Trethewey, Administrative Officer (Room 1010).

Important: As changes may be made to information provided in this handbook, students should frequently consult the noticeboards of the school and the official noticeboards of the University.

Law Library

The Law Library is situated on the eighth and ninth levels of the Library Tower and contains approximately 120,000 volumes. Rob Brian is the Law Librarian, assisted by Librarians Donald Goodsell, Cheryl White and Judith Bonner.

During Orientation Week and the first weeks of session, guided tours of the Law Library are conducted. Since the various courses provided in the Law School require extensive use of the Library and its materials, all students are urged to attend one of these tours. Legal Research and Writing classes assume that students have attended the orientation tour.

The Librarians and the other staff members are always ready to assist readers to make the best use of the Library's collection. Further useful information may be found in the Library Guide, which is available from the Library.

Professional Associates

In addition to full-time teaching staff in the Faculty of Law, each year there is a small number of distinguished members of the legal profession in New South Wales who work in close association with full-time teachers. They participate in all aspects of the presentation of courses covered by their professional specialization. The following practitioners are currently associated with the Faculty in the areas indicated.

Enrolment Photographs

In order to assist the staff to get to know individual students, new students are required to present a passport-sized photograph when enrolling.

Assessment of Student Progress

Formal examinations are not the only method the Law School will use to assess students, and other methods will be announced from time to time. The staff are always interested to hear what students think are fair methods of assessment.

Full-time Status

Students are reminded that a full-time course program is intended for students who devote the principal part of their available time to their course. Any additional commitment, in the form of paid work, training for sport at a significant level of achievement or voluntary work in community organizations, is bound to have an effect on a student’s work. Past experience shows that commitment beyond 10-15 hours per week almost invariably has an adverse effect on student performance and in some cases has led directly to failure.

Students are strongly advised that, if outside commitment of this order is likely to be maintained consistently over a session, the commitment should be discussed in advance with the Sub-Dean or the Senior Administrative Officer and teachers should also be made aware of the circumstances in advance. Failure to do this may prejudice the possibility that the outside commitment is taken into account in relation to such matters as extensions of time for written work. It should be noted, however, that it is the individual teachers who determine whether outside commitments should constitute grounds for consideration in meeting the requirements of particular subjects.

Guidelines for Maximum Workload

The sequence of study for each course is set out in the Faculty handbook. Any student wishing to enrol in extra subjects (law or non-law), in a reduced program or in subjects which do not conform to the normal sequence, must seek prior approval from either the Sub-Dean or the Senior Administrative Officer. Permission is given only in exceptional circumstances and on the basis of a written application submitted in advance of the relevant session or sessions outlining all the circumstances.

Student Clubs and Societies

Students have the opportunity of joining a wide range of clubs and societies. Many of these are affiliated with the Students’ Union. There are numerous religious, social and cultural clubs and also many sporting clubs which are affiliated with the Sports Association.

Clubs and societies seeking to use the name of the University in their title, or seeking University recognition, must submit their constitutions either to the Students’ Union or the Sports Association if they wish to be affiliated with either of these bodies, or to the Registrar for approval by the University Council.

The University of New South Wales Law Society

The UNSW Law Society was formed early in 1971 and all law students are automatically members. The committee of the UNSW Law Society organizes academic, social and sporting activities and represents the law students in student affairs. The committee takes office on 1 November each year after an election.

Law students are welcome to contact the Law Society direct or through the pigeon-holes and noticeboard which are located near the Faculty office.

The Law Society Executive in 1986 is:

President
Anne Elizabeth Crooks
Vice-President
Graham David Metcalf
Treasurer
Susan Mary Mahony
Secretary
Stephen Mark Gorry

Student Members of Faculty

Each year in October up to six students are elected to membership of Faculty for the following year. All students enrolled in the Faculty are eligible to stand for election and to vote.

Student Members attend Faculty meetings and sit on various Faculty and School Committees.

Student Members of Faculty in 1986 are:
Simeon Beckett
Lindsay Raymond Dick
Undergraduate Study

The Faculty of Law enrolled its first students in 1971. The Faculty offers two undergraduate degrees: Bachelor of Laws (LLB) and Bachelor of Jurisprudence (BJuris). The LLB degree is designed as a professional degree which will satisfy the academic requirements for admission to practice. It is offered as part of four undergraduate combined courses involving five years of full-time study, and leading to the award of two degrees. The LLB degree is offered to students who already possess a first degree as a three-year full-time course. It is also offered as a part-time course which requires six years’ study.

The BJuris degree is not designed to provide a professional qualification and is now offered as a separate degree, though previously it was only available as part of the combined Jurisprudence/Law course.

The Law School is situated on the main university campus and seeks to take full advantage of the opportunities this provides for interdisciplinary study. Law is a system of authority and regulation in society, and must respond to social needs and changes. The rapidly changing and highly sophisticated society of the next half century will call for lawyers who are not merely competent but who are broadly educated. The aim is to keep formal lecturing to a minimum, with students learning from the beginning to find the law for themselves. The main purpose of class contact is to develop the student's capacity to deal with the law after finding it—to interpret it, analyze it, criticize it, see the possibilities of distinction and development, relate it to real problems and use it efficiently and creatively. This requires the active participation of students in sufficiently small groups to allow interaction between the minds of students and teacher, and student and student. A class is normally scheduled over a continuous period of two hours.

Subjects taught in the Law Faculty extend over one or two sessions each of 14 weeks; in either case there is usually some form of examination at the end of a session. However, examinations are only one method of assessing students, as other work undertaken during the year is also taken into account.

On the completion of each law subject a student is allotted a specified number of credit points. To obtain the degree each student must build up at least the required total number, and also satisfy other requirements.

Bachelor of Laws

The Bachelor of Laws degree (whether taken as part of a combined course or separately) is designed to give a student a sound knowledge of a number of areas of law that are fundamental to legal work, a broad conspectus of the legal system as a whole, the experience of working in depth or specializing in a significant number of areas of choice, and an opportunity to develop certain specific legal skills.

These objectives are reflected in the various elements of the course; but the real development of the student's potential as a lawyer depends as much on the learning situation, as on what is learnt. The aim is to keep formal lecturing to a minimum, with students learning from the beginning to find the law for themselves. The main purpose of class contact is to develop the student's capacity to deal with the law after finding it—to interpret it, analyze it, criticize it, see the possibilities of distinction and development, relate it to real problems and use it efficiently and creatively. This requires the active participation of students in sufficiently small groups to allow interaction between the minds of students and teacher, and student and student. A class is normally scheduled over a continuous period of two hours.

Subjects taught in the Law Faculty extend over one or two sessions each of 14 weeks; in either case there is usually some form of examination at the end of a session. However, examinations are only one method of assessing students, as other work undertaken during the year is also taken into account.

On the completion of each law subject a student is allotted a specified number of credit points. To obtain the degree each student must build up at least the required total number, and also satisfy other requirements.
If the combined Commerce/Law, Science/Law or Arts/Law courses are taken the required total of credit points for Law subjects is 81; in the combined Jurisprudence/Law course (where there are fewer non-Law subjects), it is 93; in the LLB course for graduates or the part-time LLB course, it is 75. In each case compulsory subjects total 45 points, leaving the balance to be made up from elective subjects.

Students who have attended and satisfactorily completed subjects in a Law School at another recognized university may, on application, receive standing for those subjects provided that their application falls within the University and Faculty rules on advanced standing. Students already enrolled in the Faculty of Law who wish to intercalate a period of study overseas, and who wish to seek advanced standing for law subjects studied, are strongly advised to seek advice from the Sub-Dean well before arrangements for entry to the overseas Law School are finalized.

The relevant Rules are set out separately, and compulsory and elective subjects are listed in Rule 5, appearing later under Rules for Award of Degrees.

**Bachelor of Jurisprudence**

The Bachelor of Jurisprudence (BJuris), unlike the LLB degree, is not designed to provide a qualification for the professional practice of law. It provides a basic knowledge of law, an opportunity to study selected legal subjects of special interest, and significant study in other faculties of subjects relevant to an understanding of the working of the law. Various combinations of Law subjects and non-Law subjects are possible and a course may be moulded to meet various vocational ends, eg for industrial officers or advocates, public servants, business executives, law librarians.

Teaching methods in law subjects are the same as in the LLB degree course.

The BJuris degree is available as a pass degree in the Jurisprudence/Law course, which combines the most extensive legal education with the study of important related subjects in other faculties. It is also available as a separate course.

**Qualification as Barrister or Solicitor**

Admission to practise as a barrister or solicitor in New South Wales is controlled by the Supreme Court of New South Wales and is regulated by Rules of Court. Certain information is set out hereunder as background information, but each student desiring to qualify as a barrister or solicitor should make personal inquiries to the Secretary of the Barristers and Solicitors Admission Boards, Supreme Court, Queens Square, Sydney — telephone 230 8111, extension 8703. This officer will be in a position to advise authoritatively as to the requirements relative to a particular case, and supply the relevant forms and information.

The following requirements are particularly drawn to the notice of students. A student desiring to become a barrister must meet certain examination requirements and be admitted as a student-at-law not less than two years before seeking admission to the bar. The examination requirements will be satisfied by possession of the LLB degree of the University and the completion of the course in Trust Accounts and Legal Ethics run by the Barristers and Solicitors Admission Boards.

A student wishing to become a solicitor must meet certain examination requirements, be admitted as a student-at-law not more than six months after the date of commencement of the law course, and attend a six-month full-time practical skills course at the College of Law. The examination requirements will be satisfied by the possession of the LLB degree of the University. After successful completion of the College of Law course students are admitted as solicitors but are required to complete three years of restricted practice, of which the first twelve months at least must be as an employee solicitor, and to undertake a Continuing Legal Education Office Management Course before being entitled to practise on their own account.

**The College of Law**

The College of Law was established by the Law Society of New South Wales in 1974 at St Leonards. The College is not an alternative to University education in law, ie it does not offer courses satisfying the academic requirements for admission to the bar. The College does, however, mark a significant change in the system of professional training of prospective solicitors. Previously the practical component of legal education for student clerks was service under Articles of Clerkship in a legal office; alternatively a graduate in law from the Australian National University, University of Sydney, or the University of New South Wales could serve a twelve-month period of full-time graduate articles. The College of Law course, which was introduced in January 1974, is a six-month full-time course which is designed to provide the practical training which would otherwise be obtained in practice.

The whole course is related to actual practice as far as possible and covers basic areas of work encountered in legal practice. Students are grouped into 'firms' and work within up-to-date well-equipped 'offices'. They are provided with a variety of practice experiences in a series of legal situations. Each student will proceed to study the material and act on instructions as a member of the firm under supervision of a tutor who will combine the roles of senior partner and what was formerly called 'master solicitor'. During the course students also attend solicitors' offices, barristers' chambers, government departments, courts of all jurisdictions, registries, and professional offices of all types in order to obtain maximum contact with a lawyer's work outside the office.

Enquiries regarding the College of Law should be addressed to The Director, The College of Law, PO Box 2, St Leonards, NSW 2065.
Each year, a course of professional training for the practice of law is conducted at the Australian National University. The course, which was introduced for the first time in 1972, is a six-month full-time course, conducted by the Legal Workshop of the Faculty of Law. Under reciprocal arrangements, graduates of the Legal Workshop will be entitled to be admitted to practise in New South Wales, but they will at first be given only restricted practising certificates in a manner analogous to students completing the course at the College of Law.

Graduates of the University of New South Wales are eligible to apply for admission to courses run by the Workshop.

Combined Jurisprudence/Law Course

4780
Bachelor of Jurisprudence/Bachelor of Laws
BJuris LLB

This course offers the most extensive legal education. Non-law subjects make up approximately one sixth of the combined course and are selected with regard to their relevance to legal studies.

The main features of the combined Jurisprudence/Law course are as follows:

1. The course is a five-year full-time combined course leading to the award of the two degrees of Bachelor of Jurisprudence and Bachelor of Laws (BJuris LLB).
2. The first three years of the course include non-Law subjects together with Law subjects totalling 45 credit points.
3. Students are required to obtain the approval of the Faculty of Law for their proposed program of non-Law subjects, with an indication of Law electives they intend to study.

Non-Law requirements

(1) The non-Law subjects contribute to the development of the student's capacity as a lawyer and to a more complete understanding of the law. Subjects which have been approved for this purpose are Economics, Economic History, Political Science, Sociology, Philosophy, History, Accountancy, Psychology and Industrial Relations. A student may apply for special approval for another subject.
(2) One sequence of subjects is studied through to third-year level and another for one year.

4. Students must satisfy any subject prerequisites (but not general Faculty prerequisites) for subjects studied in other faculties. There are no general Faculty prerequisites to courses offered by the Faculty of Law but students must study Law subjects in a sequence approved by the Faculty of Law.

5. The whole of the final two years of the course, as well as part of the first three years, consists of Law subjects.

6. The degree of Bachelor of Jurisprudence may be awarded after successful completion of all subjects and units prescribed for the first three years of the course.

A typical structure of a Jurisprudence/Law course is set out below. The subjects listed are compulsory for students who begin their course in 1986. Students who began their course before 1986 should consult the handbook of the year in which they commenced their law studies for the compulsory subjects which apply to them.

Subject A represents a major sequence of three years’ study in one of the subjects listed in para 3.11 above; subject B represents a subject studied at first year level only from these subjects. Students are strongly advised to consult the Arts and Commerce Faculty Handbooks before completing enrolment or re-enrolment details.

### Years 4 and 5

Elective law subjects to complete LLB degree requirements.

**Combined Arts/Law Course**

### 4760 Bachelor of Arts/Bachelor of Laws

**BA LLB**

This course gives students the maximum freedom to follow their interests in the Faculty of Arts. The Law subjects, while fewer in number than in the Jurisprudence/Law course, satisfy the requirements for the award of the professional LLB degree.

The main features of the combined Arts/Law course are as follows:

1. The course is a five-year full-time combined course leading to the award of the two degrees of Bachelor of Arts and Bachelor of Laws (BA LLB).

2. The first three years of the course include (1) Law subjects totalling at least 32 Law credit points and (2) studies in at least three schools offering Arts subjects, to the value of 72 Arts credit points or more, of which at least 36 must be obtained by the completion of an approved major sequence (some Arts schools require more than 36 credit points) in one school, and at least 12 must be Upper Level credit points obtained in another school or schools. For details of approved major sequences in Arts subjects, see each discipline entry in Undergraduate Study: Subject Descriptions in the Faculty of Arts Handbook. Where an Arts/Law student completes a Law subject offered to both Arts and Law students the subject is counted as a Law subject.

3. Students must satisfy the normal prerequisites for entry to the Arts Faculty and to individual subjects in that Faculty. (Arts Faculty subject prerequisites may be checked from Undergraduate Study: Summary of Subjects in the current Faculty of Arts Handbook). There are no general Faculty prerequisites to courses offered by the Faculty of Law but students must study Law subjects in a sequence approved by the Faculty of Law.

4. A student wishing to take the BA degree course at Honours level is required to assume a heavier workload than that required for the study of the BA degree course at Pass level, and approval for his or her program must be obtained from the relevant Arts school and the Head of the School of Law. At least one and possibly two additional years of study are required. Alternatively a student may consider first completing the BA degree course at Honours level (4 years) and then seeking admission to the three-year LLB degree course for graduates.

5. The degree of Bachelor of Arts may be awarded where a student has successfully completed all requirements in Law and in Arts for the first three years of the course, or where a student has obtained 108 Law and Arts credit points, provided that the student has obtained at least 72 Arts credit points and satisfies the requirements for the award of the Bachelor of Arts degree.
The main features of the combined Commerce/Law courses are as follows:

1. The courses are of five years’ full-time study leading to the award of the two degrees of Bachelor of Commerce (Accounting, Economics, Industrial Relations, or Marketing) and Bachelor of Laws (BCom LLB).

2. The student must elect to take one of the four courses at the beginning of Year 1. Changes from one Commerce course to another before the beginning of Year 2 may be arranged; enquiries should be made in the first instance to the Senior Administrative Officer, Faculty of Law.

3. Students must satisfy the normal prerequisites for entry to the Commerce Faculty and to individual subjects in that Faculty. There are no general Faculty prerequisites to courses offered by the Faculty of Law but students must study Law subjects in a sequence approved by the Faculty of Law.

4. The requirements relating to Honours in the BCom degree course are noted at the end of the program for each specialization.

5. Under certain circumstances the degree of Bachelor of Commerce may be awarded before the completion of the full five-year program, but in any event not before the successful completion of the first three years of the combined course. Full details of these conditions may be obtained from the Commerce Faculty Office or the Commerce Faculty Handbook. Any student who fails to complete the full combined course program may apply for advanced standing in the Faculty of Commerce.

Notwithstanding the above regulations, students undertaking the combined Bachelor of Commerce at Honours level/Bachelor of Laws course may be awarded the degree of Bachelor of Commerce at Honours level once they have completed the Honours year and the Commerce and Law requirements of the first three years of the combined BCom at Honours level/LLB course.

6. The whole of the final two years of the course, as well as part of the first three years, consists of Law subjects. The Law subjects listed below are compulsory for students who begin their course in 1986. Students who began their course before 1986 should consult the handbook of the year in which they commenced their law studies for the compulsory subjects which apply to them.

### Combined Science/Law Course

#### 4770 Bachelor of Science/Bachelor of Laws

**BSc LLB**

This course gives the students the maximum freedom to follow their interests in the subjects controlled by the Board of Studies in Science and Mathematics. The Law ingredient is the same as for the combined Arts/Law course although the overall course is probably somewhat heavier, particularly in Years 2 and 3.

The main features of the combined Science/Law course are as follows:

1. The course is a five-year full-time combined course leading to the award of the two degrees of Bachelor of Science and Bachelor of Laws (BSc LLB).
2. The first three years of the course include at least 18 units in the Science course together with Law subjects totalling at least 32 credit points. The remaining two years of the course comprise Law subjects totalling at least 49 credit points.
3. The 18 Science course units must contain no more than 8 Level I units of which 2 must be Mathematics 1 and at least 4 Level III units which must be chosen from related disciplines.
4. Students must satisfy the normal prerequisites for entry to the Board of Studies in Science and Mathematics and to individual subjects there.

There are no general Faculty prerequisites to courses offered by the Faculty of Law but students must study Law subjects in a sequence approved by the Faculty of Law.

5. Students desiring to enrol in the BSc degree course at Honours level are not able to complete the course in five years and must obtain approval from the Faculty of Law and the Board of Studies in Science and Mathematics for their programs. With the approval of the relevant school and of the Head of the School of Law, a student may follow a special program which can be completed by two additional years of study. Alternatively the student may consider first completing a BSc degree course at Honours level (4 years) and then seeking admission to the three-year LLB degree course for graduates.
6. The degree of Bachelor of Science is not awarded until the completion of the full five-year program, but any student who fails to complete the full program may apply for advanced standing in the Board of Studies in Science and Mathematics.

Students contemplating enrolling in this course should consult fully with the Board of Studies in Science and Mathematics and with the School of Law before enrolment.

A typical structure of a combined Science/Law course is set out below. Approved programs for Years 1, 2 and 3 are set out in the Combined Sciences Handbook and other sequences of subjects may be approved by the Board of Studies in Science and Mathematics and the Faculty of Law. The Law subjects listed below are compulsory for students who begin their course in 1986. Students who began their course before 1986 should consult the handbook of the year in which they commenced their law studies for the compulsory subjects which apply to them.

Bachelor of Laws Degree Course
(Part-time)

4790
Bachelor of Laws
LLB

While it considers that full-time study of law is to be encouraged wherever possible, the University provides a part-time course for students unable to undertake full-time attendance. The course is only available to graduates and people over 23 who have achieved professional maturity of roughly equivalent nature. The course is not available to people who proceed direct from the Higher School Certificate. The course is of six years' duration and is for the LLB degree course only. It involves attendance at the Kensington campus on two afternoons a week from 2 pm during the academic year.

The subjects of the LLB degree course are set out in Rule 5, appearing later under Rules for Award of Degrees. However, it will not be possible to provide the full range of electives at times convenient to part-time students.

Students must complete law subjects (including compulsory subjects) carrying 75 credit points. A typical structure for the part-time course is set out below.

The subjects listed are compulsory for students who begin their course in 1986. Students who began their course before 1986 should consult the handbook of the year in which they commenced their law studies for the compulsory subjects which apply to them.

Years 5 and 6

Elective law subjects to complete LLB requirements.

The course satisfies academic requirements for admission to practice. The course is not intended as an alternative for students in a position to undertake full-time study. Students may be admitted to the part-time course only if they have been able to satisfy the Faculty that their special circumstances preclude full-time study and that their previous experience and/or study make it appropriate to admit them to part-time study.

The number of students who can be accepted in the course will be limited. In selecting students for admission, the Faculty will have regard to all relevant circumstances, including academic performance, reasons for selecting this form of study, employment, circumstances of hardship, reason for seeking degree, and facilities for library work and study.

Bachelor of Jurisprudence Degree Course

4720
Bachelor of Jurisprudence
BJuris

The Bachelor of Jurisprudence (BJuris) degree course, unlike the LLB degree course, is not designed to provide a qualification for the professional practice of law. It provides a basic knowledge of law, an opportunity to study selected legal subjects of special interest, and significant study in other faculties of subjects relevant to an understanding of the working of the law. Various combinations of Law subjects and non-Law subjects are possible and a course may be moulded to meet various vocational ends, eg for industrial officers or advocates, public servants, business executives, law librarians.

Non-Law subjects make up approximately one-third of the course and are selected with regard to their relevance to legal studies.

The main features of the course are as follows:

1. The course is a three-year full-time course leading to the award of the degree of Bachelor of Jurisprudence (BJuris).

2. The law subjects must include 90.112 Legal System — Torts, 90.741 Legal Research and Writing 1, 90.141 Criminal Law, 90.216 Administrative Law, 90.161 Contracts, 90.742 Legal Research and Writing 2, 90.743 Research Component and 90.832 Legal Theory or 90.882 Law and Social Theory.*

3. Students are required to obtain the approval of the Faculty of Law for their proposed program of non-Law subjects. The program should provide an integrated pattern of legal and non-legal studies.

*The subjects listed are compulsory for students who begin their course in 1986. Students who begin their course before 1986 should consult the handbook of the year in which they commenced their law studies for the compulsory subjects which apply to them.
4. The non-law subjects shall include, unless otherwise approved, a major sequence of three years' study.

5. Students must satisfy any subject prerequisites (but not general faculty prerequisites) for subjects studied in other faculties. There are no general Faculty prerequisites to courses offered by the Faculty of Law but students must study Law subjects in a sequence approved by the Faculty of Law.
Undergraduate Study

Subject Descriptions

Identification of Subjects by Number

A subject is defined by the Professorial Board as 'a unit of instruction approved by the University as being a discrete part of the requirements for a course offered by the University'.

Each approved subject of the University is identifiable both by number and by name as this is a check against nomination of subject other than the one intended.

Subject numbers are allocated by the Registrar and the system of allocation is based on the following guidelines:

1. The authority offering the subject, normally a School of the University, is indicated by the number before the decimal point.

2. Each subject number is unique and is not used for more than one subject title.

3. Subject numbers which have previously been used are not used for new subject titles.

4. Graduate subjects are indicated by a suffix 'G' to a number with three digits after the decimal point. In other subjects three or four digits are used after the decimal point.

Subjects taught are listed in full in the handbook of the faculty or board of studies responsible for the particular course within which the subjects are taken. Subject descriptions are contained in the appropriate section in the handbooks.

The identifying numerical prefixes for each subject authority are set out on the following page.

Servicing Subjects are those taught by a school or department outside its own faculty. Their subject descriptions are published in the handbook of the faculty which originates the subject and are also published in the handbook of the faculty in which the subject is taught.

HSC Exam Prerequisites

Subjects which require prerequisites for enrolment in terms of the HSC Examination percentile range, refer to the 1978 and subsequent Examinations.

Candidates for enrolment who obtained the HSC in previous years or hold other high school matriculation should check with the appropriate school on what matriculation status is required for admission to a subject.

Information Key

The following is the key to the information which may be supplied about each subject:

- S1 (Session 1); S2 (Session 2)
- F (Session 1 plus Session 2, ie full year)
- S1 or S2 (Session 1 or Session 2, ie choice of either session)
- SS (single session, but which session taught is not known at time of publication)
- CCH class contact hours
- L (Lecture, followed by hours per week)
- T (Laboratory/Tutorial, followed by hours per week)
- hpw (hours per week)
- C (Credit or Credit units)
- CR (Credit Level)
- DN (Distinction)

90.743 Research Component

This assessment of the quality of the research will be made in addition to a separate assessment, in the normal fashion, of the standard of an essay or moot performance for the purposes of awarding a mark in the subject as a whole. The subject to which this requirement applies will be chosen by the student, except that where the program of assessment in a subject has no provision for a suitable essay or moot, the teacher of the subject may ask the student to select another subject. There is no formal teaching in 90.743 Research Component and no credit points are awarded for it. Electives*

Prerequisites for Elective Subjects

The Faculty has decided not to impose an elaborate set of subject prerequisites and co-requisites. The Faculty in effect prefers to maintain a flexible attitude towards admission to particular subjects and to the variety of pre-law study backgrounds of its many students.

As the elective program is of its nature an advanced stage of the various courses, teachers plan their subjects and their teaching and assessment strategies on the general assumption that students entering any particular elective have completed 90.112 Legal System — Torts, 90.741 Legal Research and Writing 1, 90.161 Criminal Law, 90.141 Contracts, 90.216 Administrative Law and 90.301 Property and Equity**

*At the time of publication detailed planning for 1986 has not been completed. Students should note that it may not be possible to offer all electives as indicated. Up-date information is contained in enrolment details issued to each student at the end of 1985 and in timetables published several weeks before the academic year begins in 1986. It may be necessary to limit the numbers of students which can be taken into a particular elective.

**These are the appropriate subjects for students who begin their courses in 1986 and thereafter. Students who began their courses before 1986 should consult the handbook of the year in which they commenced their law studies for the compulsory subjects which apply to them.
Undergraduate Study: Subject Descriptions

90.151 Family Law

Prerequisite: 90.151.

The legislative and constitutional background to family law in Australia, the structure of the Family Court of Australia, including the place of counselling within the court, the establishment of formal family relationships including the regulation of marriage and the approach of the law to informal family relationships; adoption, State intervention into the family relationship including the withdrawal of children from parental custody and the protection of family members against violence.

The problems created by the breakdown of marriage and other family relationships require close reference to the principles established by the Family Law Act concerning divorce, custody and the settlement of financial disputes. A study of the Act includes an examination of the role of lawyers and others in the process of dissolution and reorganization of families. The subject encourages students to assess the actual impact of the law, and to work with interdisciplinary materials.

90.162 Families and Finances

Prerequisite: 90.151.

A foundation for legal practice and a critical examination of the operation of the legal system in a particular area. There is room for some variation in topics according to the interests of the teacher and students, but in general the topics covered are:

1. Matrimonial property and maintenance disputes concentrating on issues not explored in depth in Family Law, eg problems of enforcement, crafting maintenance agreements, involvement of third parties in family disputes.
2. Social security arrangements in so far as they relate to the family, eg widows’ pensions, supporting parents’ benefits, relationship of these to Family Law Act proceedings.
3. Taxation issues, specifically related to breakdown of the family, but including some analysis of taxation policy in relation to the family.

5. Bankruptcy in so far as it relates to a competition between the creditors and the bankrupt’s family.
6. The legal framework for the public and private support of children.
7. Superannuation arrangements affecting families.

Relationship between the systems of family law, taxation, social security and testator’s family maintenance. Broader policy questions, such as those identified in the Finer Report (UK), the Henderson Report (Australia) and other studies including an analysis of community property regimes and an assessment of their suitability for Australia.

Students who have completed 90.152 Families and Finances are not permitted to take this subject for credit.

90.163 Children and the Law

Prerequisite: Children and the Law.

Aspects of children’s law not dealt with in 90.151 Family Law and aspects of practice relating to children, such as the role of children’s legal representatives in children’s courts and in other courts and tribunals. The present law in Australia is considered as well as the historical development of the law relating to children, proposed reforms, and comparative material from other countries. The materials draw on disciplines other than law (such as sociology, child development theory) so that legal developments can be related to the position of children in society and different perspectives on their rights and interests. The subject is intended both for students who are interested in legal practice relating to children, and those who wish to broaden their understanding of the legal system by a critical examination of how it operates in what is a controversial and rapidly changing area.
There may be some variation in the topics to be covered, according to the interests of the particular teacher and students, but in general the subject deals with guardianship and the rights and responsibilities of parents; the concept of children's rights; child welfare laws; the application of the criminal law to children and the jurisdiction and procedures in a child's court; education, foster care, and other forms of alternative care.

Students who have completed 90.1532 Children and the Law are not permitted to take this subject for credit.

90.656 Welfare Rights Centre

These electives permit selected students to obtain credit for approved research projects undertaken individually or in groups. No student shall be permitted to obtain more than 6 credit points in any combination of the subjects 90.651, 90.652, 90.653, 90.6552, 90.6562.
Housing policy, tenancy law and practice, the provision of government housing and legal problems concerning the occupation of land with particular emphasis on the financially disadvantaged in the community. Residential tenancy problems, tenancy tactics, Housing Commission lettings, dealing with rent-controlled premises, tenancy reform and government regulation of sub-standard housing.

Discrimination in its legal, social, economic and political aspects. The philosophical foundations of anti-discrimination policies, discriminatory patterns in society, and the way the law helps to perpetuate such patterns. Legal mechanisms and agencies, particularly those in Australia, which seek to end or control discrimination, and in particular the principles and doctrines which are applicable in this area of law, with attention to the relevance of statistics as a means of proving discrimination. For purposes of illustration, discrimination on the ground of sex is stressed, but other grounds also considered (race, age, sexual preference, marital status, religion, political opinion, family status, national origin, intellectual and physical handicap, colour).

Legal issues that have particular application to Aboriginal people. Topics include: questions of definition and identity, sovereignty, land rights, legislative power, recognition of customary law, criminal justice issues, Aboriginal legal aid, the use of civil law, aspects of anti-discrimination and human rights legislation, relevant principles and procedures in international law, and proposals for a Makarrata or Treaty. Reference is made to comparative law materials from comparable countries such as Canada, USA, New Zealand. Reference is also made to anthropological and other non-legal material.

Clinical legal education takes students out of the classroom and places them in a legal practice. Students are required to attend the Faculty's clinic, the Kingsford Legal Centre, one day per week, where they participate in the lawyer/client relationship under the close supervision of experienced practitioners. Students gain experience and teaching in such matters as the interviewing and counselling of clients, the factual investigations necessary in litigation, interviewing of witnesses, drafting pleadings and other documents, preparation for trial, the negotiation of agreements and settlements, and the conduct of a trial.

As well as attendance at the Kingsford Legal Centre the subject involves classroom teaching in which the work undertaken by students for particular clients is discussed and analysed and an introduction given to many basic areas of practice. Introduction to the pressures and responsibilities of legal practice and an opportunity to assess the adequacy of the law as an instrument of social control.

The subject is offered in both teaching sessions and over the summer vacation.

Differences between logical analysis and legal analysis in appellate judicial decision-making and the relation of these to common law growth. The role of language, of categories of illogical reference and of the ratio decidendi of a case in permitting such growth. Selected materials, additional to the textbook, embrace appellate decisions apparently following 'binding' precedents, as well as decisions purporting to 'depart' from these, mainly in the context of recent case law of the High Court of Australia, the Privy Council and the House of Lords.

Characteristic legal developments in the West in their contemporary social, economic, political and psychological contexts. Retrospective view of the relevant correlations. The pressures bearing down on 20th century law and legal institutions, as manifest in leading modern statutes and cases in various fields. Theories about interaction of claims, associations, power, socio-ethical conviction and law, as these influence stability, change, revolution and breakdown in legal ordering.

The use of concepts of economics as a means of evaluating the appropriateness of legal rules. The concepts drawn from micro-economic theory (dealt with at a comparatively elementary level) and used to analyse existing and hypothetical legal rules within selected areas of law, such as property, tort, contract and crime. Prior training in economics is not essential for students taking the course.

The play in Western legal orders of historically given criteria of justice, involving identification of the principal criteria-types and the socio-economic contexts in which each has tended to be influential in the creation or transformation of legal precepts. The subject is concerned with intellectual demonstrability as well as social effectiveness of criteria, but it is not an objective to demonstrate any particular criterion as the 'correct' criterion.

For details, see 90.832 Legal Theory earlier in this section.
have interacted with the others, and with each other; 2. a more detailed study of the Civil Law system, through the medium of criminal law and administrative law in Europe, especially France, against the background of the common law; 3. student-led seminars examining, comparatively, topics of world-wide concern, eg consumer protection, the role of the corporation in modern society, protection of civil liberties, judicial review of administrative action, and environmental protection.

90.842 Law in Developing Societies S2 HpW4 C3

Change, conflict and continuity in indigenous legal systems of the Pacific Islands (as well as other parts of the Third World) against the background of colonialism, modernization, and economic under-development. Topics include: the political status of Pacific Island entities and their constitutional development — theories relating to legal 'development', the role of law courts and the legal profession in changing society, the nature of traditional society, colonialism, and social and economic change, the nature of customary law and dispute settlement and its integration with imported Western law and legal institutions; changing family law, land law and notions of criminal responsibility; theories of economic under-development, international law problems facing Pacific Island nations, issues of ideology and gender. By developing an appreciation of the theoretical and practical problems arising from the attempted imposition, or adoption, of Western legal concepts and institutions in non-Western countries, it is hoped that students will develop a more flexible, enquiring and critical attitude towards the legal institutions of their own society.

90.853 Public International Law S1 S2 HpW4 C3

Principles of public international law. The nature and sources of international law, the relationship between international law and domestic law, international agreements, territorial and maritime jurisdiction, recognition of states and governments, immunities, international litigation, the use of force, and the role of the United Nations in international law.

Students who have completed 90.851 International Law 1 are not permitted to take this subject for credit.

90.8572 International Humanitarian Law S2 HpW2 C2

The inter-relationship and operation of certain provisions of international human rights and the humanitarian laws of war. Existing international law relating to the protection of refugees and displaced persons. In these rapidly evolving areas of international law and practice, a rare opportunity is provided to study law in the making.

Topics: the four 1949 Geneva Conventions and their historical antecedents; the role of the Red Cross; the protecting powers system; problems of enforcement of humanitarian law; extension of humanitarian law to guerrilla warfare; 1977 Protocols additional to the Geneva Convention; manufacture, stockpiling and employment of chemical bacteriological and biological weapons; the role of the UN. Refugee topics: problems of definition and eligibility status; admission and asylum; expulsion and non-refoulement; the role of UNHCR; rescue of refugees at sea; principles of international solidarity and burden-sharing and the large-scale influx of refugees; comparative approaches of ASEAN countries, the OAU and Europe.

90.861 Conflict of Laws S2 HpW4 C3

The Conflict of Laws or Private International Law is a species of private law which deals with problems involving a foreign or an interstate element. The introduction of that foreign or interstate element necessitates an examination by a New South Wales court of three main issues: 1. Whether or not the court has jurisdiction to deal with the problem, and even if it does, whether or not it will assume jurisdiction.

2. If it has assumed jurisdiction the court must then ask itself what is the most appropriate law to apply to the problem before it. 3. Or, the court may have to decide whether or not to recognize and enforce a judgment of a foreign court or the court of another state. These problems which involve interstate elements may be affected by provisions of the Commonwealth Constitution or by some federal legislation. Failing that, the solution to these interstate problems may call for an approach that is different to the solution of international problems simply on the basis that we are dealing with States of the same Commonwealth.

For the purposes of this subject, the solutions that courts and legislatures have offered to such problems are examined in a few selected areas such as family law, contracts, torts and property. Wherever possible, emphasis is placed on the development of more appropriate solutions to these problems.

90.881 Society and the Law HpW4 C3

Not offered in 1986.

An interdisciplinary subject run in conjunction with the School of Sociology for combined groups of Law and Sociology students. It is conducted through once-weekly student-led seminars. It aims to bring to bear the perspectives of two quite different disciplines (law and sociology) on the particular subject-matter of law and to show how this can result in quite different perceptions and analyses. The Law students are required to distance themselves from the 'distinctively legal' and to view legal institutions as but one type of social institution, legal rules as but one kind of social norm, and legal procedures as but one method of attempting to resolve disputes. Assumptions traditionally made by lawyers are scrutinized.

The different perspectives of the lawyer and the sociologist are considered by focusing on specific topics. These vary from year to year. In recent years they have included the family, property, issues relating to the distribution of wealth, the nature of conflict and dispute resolution techniques, and legal regulation of corporations.
