OUTLINES OF COURSES

Bachelor of Science (Education) course .......... 39
Diploma in Education .......... 41
Bachelor in Hospital Administration .......... 44
Master of Hospital Administration .......... 46
Industrial Arts Degree Courses (B.Sc. and B.Sc.(Tech.)) .......... 50
Industrial Design Graduate Course .......... 56
Bachelor of Social Work .......... 57
Sheep and Wool Technology (Education Option) .......... 62

DESCRIPTIONS OF SUBJECTS AND READING LISTS .......... 66
INTRODUCTION

The Board of Vocational Studies was appointed for the purpose of supervising the teaching and examination of subjects which are primarily concerned with vocational training and which do not lend themselves to incorporation into the existing Faculty structure. The Board has similar functions to a Faculty, and reports to the Professorial Board.

The Board governs courses conducted by the School of Education (Graduate Diploma in Education course); the School of Hospital Administration (Bachelor, and Master of Hospital Administration courses); the School of Social Work (Bachelor of Social Work); the School of Wool and Pastoral Sciences (Sheep and Wool Technology (Education Option) course); the Department of Industrial Arts (course in Industrial Arts and Graduate Diploma course in Industrial Design). It is also responsible for the Bachelor of Science (Education) Course which will be introduced in 1969 for the first time.

Certain Schools have a dual responsibility e.g. the School of Education is responsible for the Master of Education course in the Faculty of Arts, and the School of Wool and Pastoral Sciences for the undergraduate and graduate courses in Wool Technology in the Faculty of Applied Science.

The present membership of the Board of Vocational Studies comprises:

Professor A. H. Willis, Pro-Vice-Chancellor (Chairman).
Head of the Departments of Industrial Arts.
Principal of the Alexander Mackie Teachers' College.
The Registrar.
Three members elected by the Professorial Board.
Such other persons as the Board may co-opt.
CALENDAR OF DATES FOR 1969

Term 1: March 3 to May 17
Term 2: June 2 to August 9
Term 3: September 1 to November 1

JANUARY
Monday, 20                                      Last day for acceptance of applications to enrol by
Tuesday, 28 to new students and students repeating first year
Saturday, Feb. 8                                Deferred examinations

FEBRUARY
Monday, 17                                      Enrolment week commences for new students and
Monday, 24                                      students repeating first year
                                                Enrolment week commences for students re-enrolling
                                                (second and later years)
                                                Dip. Ed. students enrol

MARCH
Monday, 3                                       First term lectures commence
Friday, 14                                      Last day of enrolment for new students (late fee
                                                payable)
Friday, 28                                      Last day for later year enrolments (late fee payable)

APRIL
Friday, 4 to                                    Easter
Monday, 7                                       Anzac Day—Public Holiday
Friday, 25

MAY
Saturday, 17                                    First term ends

JUNE
Monday, 2 to                                    Practice teaching (1st session)—Dip. Ed. students only
Friday, 27                                      Second term commences
Monday, 2                                       Queen's Birthday—Public Holiday
Monday, 16                                      Last day for acceptance of applications for re-
Friday, 27                                      admission after exclusion under rules governing re-
enrolment
JULY  
  Tuesday, 1  Foundation Day  
  Friday, 18 Last day for acceptance of corrected enrolment de-
              tails forms  

AUGUST  
  Saturday, 9  Second term ends, except for Dip. Ed. students  
  Saturday, 16 Second term ends—Dip. Ed. students  

SEPTEMBER  
  Monday, 1  Third terms commences, except for Dip. Ed. students  
  Monday, 8  Third term commences—Dip. Ed. students only  

OCTOBER  
  Monday, 6  Eight-Hour Day—Public Holiday  
  Friday, 31 Third term lectures cease—Dip. Ed. students only  

NOVEMBER  
  Saturday, 1 to  Examinations—Dip. Ed. students only  
           Saturday, 8 Third term lectures cease  
  Saturday, 1  
  Saturday, 8 to  Examinations (30-week courses)  
           Saturday, 29  
  Monday, 10 to  Practice teaching (2nd session)—Dip. Ed. students only  
           Wednesday, Dec. 10  

1970  
  Term 1: March 2 to May 16  
  Term 2: June 1 to August 8  
  Term 3: August 31 to October 31

Jean J. Carter, MSc Syd.
Senior Instructors
J. R. Paynter
R. E. Sallaway
Professional Officers
A. Trounson, BSc N.S.W.
G. Hayes, BAgriSc Melb.
GENERAL INFORMATION

ADMISSIONS OFFICE

The Admissions Office which is located in the Chancellery on the upper campus provides intending students (both local and overseas) with information regarding courses, admission requirements, scholarships and enrolment. Office hours are from 9.00 a.m. to 1.00 p.m. and 2.00 p.m. to 5.00 p.m. Monday to Friday and an evening service is provided during the enrolment period.

Applications for special admission, admission with advanced standing and from persons relying for admission on overseas qualifications should be lodged with the Admissions Office. The Office also receives applications from students who wish to transfer from one course to another, resume their studies after an absence of twelve months or more, or seek any concession in relation to a course in which they are enrolled. It is essential that the closing dates for lodgment of applications are adhered to, and, for further details the sections on “Rules Relating to Students” and “Enrolment Procedure for Undergraduate Courses” should be consulted.

Applications for admission to undergraduate courses from students who do not satisfy the requirements for admission (see section on “Requirements for Admission”), from students seeking admission with advanced standing, and from students who have had a record of failure at another university, are referred by the Admissions Office to the Admissions Committee of the Professorial Board.

Students seeking to register as higher degree candidates should discuss their proposals initially with the Head of the School in which they wish to register. An application is then lodged on a standard form and the Admissions Office, after obtaining a recommendation from the Head of the School, refers the application to the appropriate Faculty or Board of Studies Higher Degree Committee.

Details of the procedure to be followed by students seeking entry to first year courses at the University may be obtained from the Admissions Office or the Metropolitan Universities Admissions Centre.

Persons seeking entry to first year courses in one or more of the three Universities in the Sydney Metropolitan Area (Mac-
quarie University, The University of New South Wales and the University of Sydney) are required to lodge a single application form with the Metropolitan Universities Admissions Centre, First Floor, Crystal Palace Arcade, 590 George Street (near Town Hall), Sydney (P.O. Box 7049 G.P.O. Sydney, 2001). On the application form provision is made for applicants to indicate preferences for courses available in any of the three Universities. Students are notified individually of the result of their applications and provided with information regarding the procedures to be followed in order to accept the offer of a place at this University and complete their enrolment at the Enrolment Bureau, Unisearch House, 221 Anzac Parade, Kensington.

Bachelor of Social Work—Since personal qualities are of particular significance in the practice of social work, it has been found useful for intending students to be interviewed by a member of staff in the School of Social Work prior to final enrolment. Prospective applicants are encouraged to make an appointment for an interview as soon as possible after finishing the examination at which they hope to qualify for matriculation.

Matriculation requirements are the same as for the Faculty of Arts. There are no special age requirements, but maturity is taken into consideration before a student may undertake field work.

REQUIREMENTS FOR ADMISSION

A person who seeks to become a candidate for any degree of Bachelor of the University must first have qualified for matriculation and have satisfied the requirements for admission to the particular Faculty, course or subject chosen.

It should be noted that compliance with these conditions does not in itself entitle a candidate to enter upon a course. While it is the policy of the University to endeavour to admit all properly qualified applicants who have lodged applications by the appropriate closing date, it may be necessary at times to restrict the entry to one or more faculties because of lack of facilities.*

A candidate who has satisfied the conditions for matriculation and for admission to a course of study shall be classed as a "matriculated student" of the University, after enrolment.

* Note: Facilities available to the University are likely to cause restrictions in 1969 on entry to the Faculties of Architecture, Arts, Commerce and Medicine.
A person who has satisfactorily met the conditions for admission may be provided with a statement to that effect on the payment of the prescribed fee.

SECTION A

GENERAL MATRICULATION AND ADMISSION REQUIREMENTS
(for entry to the University in 1969 and until further notice)

1. A candidate may qualify for matriculation by attaining in recognised matriculation subjects at one New South Wales Higher School Certificate Examination or at one University of Sydney Matriculation Examination a level of performance determined by the Professorial Board from time to time.

2. The level of performance required to qualify for matriculation shall be

(a) passes in at least five recognised matriculation subjects, one of which shall be English and three of which shall be at Level 2 or higher;

and

(b) the attainment of an aggregate of marks, as specified by the Professorial Board, in not more than five recognised matriculation subjects, such marks being coordinated in a manner approved by the Board.

3. The following subjects, and such other subjects as may be approved by the Professorial Board from time to time, shall be recognised matriculation subjects:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

4. A candidate who has qualified to matriculate in accordance with the provisions of Clauses 1, 2 and 3 may be admitted to a particular Faculty, Course or Subject provided that:
(a) his qualification includes a pass at the level indicated in the subject or subjects specified in Schedule A as Faculty, Course or Subject Pre-Requisites;
or

(b) the requirements regarding these particular Faculty, Course or Subject Pre-Requisites, as specified in Schedule A, have been met at a separate Higher School Certificate or University of Sydney Matriculation Examination.

5. Notwithstanding any of the provisions of Clauses 1 to 4, the Professorial Board may grant matriculation status to any candidate at the Higher School Certificate or University of Sydney Matriculation Examination who has reached an acceptable standard and may admit him to any Faculty, Course or Subject.

NOTE

1. For the purposes of clause 2(a), Mathematics and Science BOTH PASSED at First Level or Second Level Full Course shall together count as three subjects.

2. For the purposes of clause 2(b), Mathematics and Science TAKEN either singly or together at First Level or Second Level Full Course shall each count as one and one half subjects.

ENROLMENT PROCEDURE

Before enrolling in any of the courses supervised by the Board of Vocational Studies, intending students should contact the School or Department concerned.

UNDERGRADUATE COURSES

FIRST ENROLMENTS:

Students with Overseas Entry Qualifications
Overseas students and Australian Residents relying for admission on overseas qualifications must lodge an application for enrolment prior to 1st October of the year preceding that in which admission is sought.

Local and Interstate Residents
(a) Australian Residents including students transferring from one course to another or from another University who have undertaken qualifying examinations in 1968 must lodge an application for enrolment by 20th January, 1969.

(b) Australian Residents already qualified for admission and students wishing to resume University studies must apply for enrolment by the 30th November, 1968.

First Year Repeat Students
First year students who fail all subjects at the annual examinations and who are not granted any deferred examinations must apply for re-enrolment to the Admissions Office by 20th January, 1969.

Application forms for enrolment and details of the application procedures may be obtained on application to the Registrar, P.O. Box I, Kensington 2033.

Students in the above categories whose applications for enrolment are accepted will be required to complete their enrolment at a specified appointment time before the start of first term. Fees must be paid on the day of the appointment. However, in special circumstances and provided class places are still available students may be allowed to complete their enrolment after the prescribed week subject to the payment of a late fee.
LATER YEAR ENROLMENTS
Social Work Course (B.Soc.Wk.)

Before the end of third term, each student must obtain an enrolment form UE3 and form Social Work/69 and attached instruction sheet. After notification of the annual examination results, the student should set out a proposed programme for 1969 on form Social Work/69 and forward or deliver this, together with completed enrolment form UE3 to reach the Head of the School of Social Work not later than Monday, 20th January, 1969.

All students, except those classified as First Enrolments (as noted above), must collect their enrolment form, which will contain the authorized programme for 1969, from the Seminar Room, New Social Work Hut, Western Campus, opposite High Street in accordance with the following timetable.

Students whose surnames have initial letter from “A” to “C”
Tuesday, 25th February, 9.30 a.m. to 12.30 p.m.

Students whose surnames have initial letter from “D” to “G”
Tuesday, 25th February, 2.00 p.m. to 4.30 p.m.

Students whose surnames have initial letter from “H” to “K”
Wednesday, 26th February, 9.30 a.m. to 12.30 p.m.

Students whose surnames have initial letter from “L” to “O”
Wednesday, 26th February, 2.00 p.m. to 4.30 p.m.

Students whose surnames have initial letter from “P” to “S”
Thursday, 27th February, 9.30 a.m. to 12.30 p.m.

Students whose surnames have initial letter from “T” to “Z”
Thursday, 27th February, 2.00 p.m. to 4.30 p.m.

New Students with Advanced Standing
Friday, 28th February, 2.00 p.m. to 4.00 p.m.

Industrial Arts Course (B.Sc. and B.Sc.(Tech.))

Students in the B.Sc. or B.Sc.(Tech.) degree course in Industrial Arts should attend for re-enrolment in Hut 1 on the western side of Anzac Parade, as follows:

Full-time Students all Years
Monday, 24th February, 10.00 a.m. to 12 noon; and 2.00 p.m. to 7.00 p.m.

Part-time Students all Stages
Monday, 24th February, 2.00 p.m. to 7.00 p.m.
POSTGRADUATE COURSES

Diploma in Education

The School will advise students of the re-enrolment arrangements.

Graduate Diploma in Industrial Design

Students wishing to enrol in the Graduate Diploma Course in Industrial Design are required to apply for admission on the appropriate form to the Registrar at least two full calendar months before the commencement of the course.

They will then be notified by letter whether they are eligible to enrol and will be required to complete their enrolment at Hut 1, Western Grounds Area on Friday, 28th February, 2.00 p.m. to 5.00 p.m. and 6.00 p.m. to 8.00 p.m.

Master of Hospital Administration

Students in this course enrol as follows:

Room 320, John Goodsell Building 
(Commerce) Building

Friday, 28th February,
2.00 p.m. to 5.00 p.m.

ENROLMENT IN MISCELLANEOUS SUBJECTS

Students may be accepted for enrolment in miscellaneous subjects provided the University considers that the subject/s will be of benefit to the student and there is accommodation available. Only in exceptional circumstances will subjects taken in this way count towards a degree or diploma.

Students seeking to enrol in miscellaneous subjects should obtain a letter of approval from the Head of the appropriate School or his representative permitting them to enrol in the subject concerned. The letter should be given to the enrolling officer at the time of enrolment. Where a student is under exclusion he may not be enrolled in miscellaneous subjects unless given approval by the Professorial Board.

UNIVERSITY UNION CARD

All students other than miscellaneous students are issued with a University Union membership card. This card must be carried during attendance at the University and shown on request.

The number appearing on the front of the card in the space at the top righthand corner is the student registration number used in the University’s records. This number should be quoted in all correspondence.
The card must be presented when borrowing from the University libraries, when applying for Travel Concessions and when notifying a change of address. It must also be presented when paying fees on re-enrolment each year when it will be made valid for the year and returned. Failure to present the card could result in some inconvenience in completing re-enrolment.

A student who loses a Union Card must notify the University Union as soon as possible.

New Students will be issued with University Union Cards by mail to their term address as soon as possible after fee payment. In the meantime, the fees receipt form should be carried during attendance at the University and shown on request. If the Union card is not received within three weeks of fee payment the University Union should be notified.
UNDERGRADUATE FEES

(a) Degree Courses in Industrial Arts, Sheep and Wool Technology (Education Option), and Bachelor of Science (Education) course.

For the purpose of fee determination assessment is on a term basis.

A full-time course fee will be charged for any term where more than 15 hours’ per week instruction, etc., is involved.

(i) Full-time Course Fee (more than 15 hours’ attendance per week)—$110 per term.

In courses in which the Third Term is limited to five weeks of formal studies the fee for this term is $55.

(ii) Part-time Course Fee—over 6 hours’ and up to 15 hours’ attendance per week—$55 per term.

(iii) Part-time Course Fee—6 hours’ or less attendance per week—$28 per term.

(iv) Course Continuation Fee—A fee per annum of $23 (no term payment) is payable by:

- Category (a) students who have once been enrolled for a thesis and have only that requirement outstanding, or
- Category (b) students given special permission to take annual examinations without attendance at the University. (Students in this category are not required to pay the subscriptions to the University Union, the Students’ Union, the Sports Association and the Library fee.)

(b) Degree Course in Social Work

(i) Pass—$84 per annum per subject (Social Work Practice exempt) or $28 per term per subject.

(ii) Distinction Subjects or Honours—an additional $26 per annum per subject in which distinction or honours are taken in student’s second and third years and $110 per subject per annum in the fourth year.

(c) Degree or Diploma in Hospital Administration

The fees for this course are assessed under the following schedule according to the hours shown for the subject irrespective of
whether the course is taken as an internal or external student. An external student in this course is exempt from the Student Activities Fees.

For the purpose of fee determination assessment is on a term basis.

A full-time course fee will be charged for any term where more than 11 hours' per week instruction, etc., is involved.

(i) Full-time Course Fee (more than 11 hours' attendance per week)—$92 per term.

(ii) Part-time Course Fee—over 4 hours' and up to 11 hours' attendance per week—$55 per term.

(iii) Part-time Course Fee—4 hours' or less attendance per week—$28 per term.

(iv) Course Continuation Fee—A fee per annum of $23 (no term payment) is payable by:

Category (a) students who have once been enrolled for a thesis and have only that requirement outstanding, or

Category (b) students given special permission to take annual examinations without attendance at the University.

(Students in this category are not required to pay the subscriptions to the University Union, the Students' Union, the Sports Association and the Library fee.)

(d) Miscellaneous Subjects

(i) Undergraduate subjects taken as “miscellaneous subjects” (i.e. not for a degree or diploma) or to qualify for registration as a candidate for a higher degree are assessed according to paragraph (a) above.

(ii) Students given approval to enrol in a miscellaneous subject or subjects in addition to being enrolled in a course are assessed according to the total hours of attendance as if the additional subject formed part of the course.

POSTGRADUATE FEES

Basis of Fee Assessment

Where course fees are assessed on the basis of term hours of attendance, the hours for each subject for purposes of fee assessment shall be those prescribed in the Calendar. The granting of an exemption from portion of the requirements of a subject in which a student is enrolled does not carry with it any exemption from the payment of fees.
(a) Master of Hospital Administration

(i) Registration Fee ........................................ $5
(ii) Graduation Fee .......................................... $7
(iii) Course Fee—calculated on the basis of a term's attendance at the rate of $6 per hour per week. Thus the fee for a programme requiring an attendance of 24 hours per week for the term is $144.

For the Master of Hospital Administration a special course fee per term of $46 applies in Term 3 of first year and Term 1 of second year when attendance at the University is limited.

(iv) Thesis or Project Fee—$35.

(An additional fee of $23† is payable by students who have completed their final examinations for the degree but have not completed the thesis or project for which they have been previously enrolled.)

(b) Research Degrees * *

Fees are payable from the commencement date of a candidate's registration and remain payable until the candidate's thesis is presented to the Examinations Branch.

(i) Qualifying Examination ................................ $12
(ii) Registration Fee ........................................ $5
(iii) Internal full-time student annual fee ................ $69
     Internal full-time student term fee ................... $23
(iv) Internal part-time student annual fee ............ $36
     Internal part-time student term fee ................ $12
(v) External student annual fee† ........................ $23
(vi) Final Examination including Graduation fee) ......... $35

(c) Graduate Diploma in Industrial Design

(i) Registration Fee ........................................ $5
(ii) Award of Diploma Fee ................................ $7
(iii) Course Fee—Annual Fee ............................... $225

(d) Diploma in Education

(i) Registration Fee ........................................ $5
(ii) Award of Diploma Fee ................................ $7
(iii) Course Fee—per annum $330, or $110 per term.

* * Candidates registered under the conditions governing the award of this degree without supervision will pay the following fees: Registration fee $5, Examination of thesis $69. They are not required to pay the Student Activities Fees or the Library Fee.

† Students paying this fee who are not in attendance at the University are not required to pay the Student Activities Fees or the Library Fee.
OTHER FEES

In addition to the course fees set out above, all registered students will be required to pay:

- Matriculation Fee—payable at the beginning of first year $7
- Library Fee—annual fee $12
- University Union*—entrance fee $20

Student Activities Fees
- University Union*—annual subscription $12
- Sports Association*—annual subscription $2
- Students' Union*—annual subscription $5
- Miscellaneous—annual fee $10
- Total $29

Graduation or Diploma Fee—$7 payable at the completion of the course.

Depending on the course being taken, students may also be required to pay:

- Applied Psychology Kit Hiring Charge—$2 per kit. Additional payment for breakages and losses in excess of $1 may be required.
- Biochemistry Kit Hiring Charge—$4 per kit. Additional payment for breakages and losses in excess of $1 may be required.
- Chemistry Kit Hiring Charge—$4 per kit. Additional payment for breakages and losses in excess of $1 may be required.
- Excursion Fee—$2 per subject (Botany, Zoology, Entomology).

SPECIAL EXAMINATION FEES

- Deferred examination—$5 for each subject.
- Examinations conducted under special circumstances—$7 for each subject.
- Review of examination result—$7 for each subject.

LATE FEES

First Enrolments.
- Fees paid on the late enrolment session and before commencement of term $6
- Fees paid during the 1st and 2nd weeks of term $12
- Fees paid after the commencement of the 3rd week of term with the express approval of the Registrar and Head of the School concerned $23

* Life members of these bodies are exempt from the appropriate fee/s.
Re-Enrolments.

First Term:
Failure to attend enrolment centre during enrolment week $6
Fees paid after the commencement of the 3rd week of term to 31st March $12
Fees paid after 31st March where accepted with the express approval of the Registrar $23

Second and Third Terms:
Fees paid in 3rd and 4th weeks of term $12
Fees paid thereafter $23
Late lodgement of corrected enrolment details forms (late applications will be accepted for three weeks only after the prescribed dates) $5

WITHDRAWAL FROM COURSE

Students withdrawing from a course are required to notify the Registrar in writing. Fees for the course accrue until a written notification is received.

Where notice of withdrawal from a course is received by the Registrar before the first day of First Term, a refund of all fees paid other than the matriculation fee will be made.

Where a student terminates for acceptable reasons a course of study before half a term has elapsed, one half of the term's fees may be refunded. Where a student terminates a course of study after half a term has elapsed, no refund may be made in respect of that term's fees.

The Library fee is an annual fee and is not refundable where notice of withdrawal is given after the commencement of First Term.

On notice of withdrawal, a partial refund of the Student Activities Fees is made on the following basis:

University Union—$2 in respect of each half term.
University of New South Wales Students' Union—where notice is given prior to the end of the fifth week of first term, $2; thereafter no refund.
University of New South Wales Sports Association—where notice is given prior to 30th April, a full refund is made; thereafter no refund.
Miscellaneous—where notice is given prior to 30th April, $5; thereafter no refund.
PAYMENT OF FEES

Completion of Enrolment

All students are required to attend the appropriate enrolment centre during the prescribed enrolment period* for authorization of course programme. Failure to do so will incur a late fee of $6.

First Year students (including students repeating First Year) must complete enrolment (including fee payment) before they are issued with class timetables or permitted to attend classes. A First Year student who has been offered a place in a course to which entry is restricted and fails to complete enrolment (including fee payment) at the appointed time may lose the place allocated.

Fees should be paid during the prescribed enrolment period but will be accepted during the first two weeks of First Term. (For late fees see above). No student is regarded as having completed an enrolment until fees have been paid. Fees will not be accepted (i.e. enrolment cannot be completed) from new students after the end of the second week of term (i.e. 14th March, 1969), and after 31st March from students who are re-enrolling, except with the express approval of the Registrar, which will be given in exceptional circumstances only.

Payment of Fees by Term

Students who are unable to pay their fees by the year may pay by the term, in which case they are required to pay First Term course fees and other fees for the year, within the first two weeks of First Term. Students paying under this arrangement will receive accounts from the University for Second and Third Term fees. These fees must be paid within the first two weeks of each term.

Assisted Students

Scholarship holders or Sponsored Students who have not received an enrolment voucher or appropriate letter of authority from their sponsor at the time when they are enrolling should complete their enrolment paying their own fees. A refund of fees will be made when the enrolment voucher or letter of authority is subsequently lodged with the Cashier.

*The enrolment periods for Sydney students are prescribed annually in the leaflets “Enrolment Procedure for New Students” and “Enrolment Procedure for Students Re-enrolling”.

Extension of Time

Any student who is unable to pay fees by the due date may apply in writing to the Registrar for an extension of time. Such application must give year or stage, whether full-time or part-time, and the course in which the applicant wishes to enrol, state clearly and fully the reasons why payment cannot be made and the extension sought, and must be lodged before the date on which a late fee becomes payable. Normally the maximum extension of time for the payment of fees is until 31st March for fees due in First Term and for one month from the date on which a late fee becomes payable in Second and Third Terms.

Where an extension of time is granted to a First Year student in First Term, such student is not permitted to attend classes until fees are paid, and if seeking to enrol in a restricted Faculty may risk losing the place allocated.

Failure to Pay Fees

Any student who is indebted to the University and who fails to make a satisfactory settlement of his indebtedness upon receipt of due notice ceases to be entitled to membership and privileges of the University. Such a student is not permitted to register for a further term, to attend classes or examinations, or to be granted any official credentials.

No student is eligible to attend the annual examinations in any subject where any portion of his course fees for the year is outstanding after the end of the fourth week of Third Term (26th September, 1969).

In very special cases the Registrar may grant exemption from the disqualification referred to in the two preceding paragraphs upon receipt of a written statement setting out all relevant circumstances.
Acceptance as a member of the University implies an undertaking on the part of the student to observe the regulations, by-laws and other requirements of the University, in accordance with the declaration signed at the time of the enrolment.

In addition, students are expected to conduct themselves at all times in a seemly fashion. Smoking is not permitted during lectures, in examination rooms or in the University Library. Gambling is also forbidden.

Members of the academic staff of the University, senior administrative officers, and other persons authorized for the purpose, have authority, and it is their duty, to check and report on disorderly or improper conduct or any breach of regulations occurring in the University.

Students are expected to be regular and punctual in attendance at all classes in the course or subject in which they are enrolled. All applications for exemption from attendance at lectures or practical classes must be made in writing to the Registrar.

In the case of illness or of absence for some other unavoidable cause a student may be excused by the Registrar from non-attendance at classes for a period of not more than one month, or on the recommendation of the Dean of the appropriate Faculty for any longer period.

Applications to the Registrar for exemption from re-attendance at classes, either for lectures or practical work, may only be granted on the recommendation of the Head of the appropriate School. The granting of an exemption from attendance does not carry with it exemption from payment of fees.

Application forms for exemption from lectures are available at the Admissions Office and should be lodged there (with a medical certificate where applicable). If term examinations have been missed this fact should be noted in the application.

Where a student has failed a subject at the annual examinations in any year and re-enrols in the same course in the following year, he must include in his programme of studies for that year the subject in which he has failed. This requirement will not be applicable
if the subject is not offered the following year; is not a compulsory component of a particular course; or if there is some other cause, which is acceptable to the Professorial Board, for not immediately repeating the failed subject.

Where a student has attended less than eighty per cent of the possible classes, he may be refused permission to sit for the examination in that subject.

**CHANGES IN COURSE PROGRAMMES**

Students seeking approval to substitute one subject for another or add one or more subjects to their programme must make application to the Head of the School responsible for the course on a form available from School offices. In the case of students wishing to withdraw from subjects or terminate their enrolment the application must be lodged at the Examinations and Student Records Section. The Registrar will inform students of the decision. Approval of withdrawal from subjects is not automatic, each application being determined after considering the circumstances advanced as justifying withdrawal. It is emphasised that withdrawal from subjects after Term I or failure to sit for the examinations in any subjects for which the student has enrolled is regarded as failure to pass the subjects unless written approval to withdraw has been obtained from the Registrar.

**RESTRICTION UPON STUDENTS RE-ENROLLING IN UNIVERSITY COURSES**

The University Council has adopted the following rules governing re-enrolment with the object of requiring students with a record of failure to show cause why they should be allowed to re-enrol and retain valuable class places. These rules will be applied retrospectively from January, 1962, and the attention of students is drawn to them.

(i) As from 1st January, 1962, a student shall show cause why he should be allowed to repeat a subject in which he has failed more than once. (Failure in a deferred examination as well as in the annual examination counts, for the purpose of this regulation, as one failure). Where such subject is prescribed as a part of the student’s course he shall be required to show cause why he should be allowed to continue the course. A student in the medical course shall show cause why
he should be allowed to repeat the second year of the course if he has failed more than once to qualify for entry to the third year.

(ii) Notwithstanding the provisions of Clause (i), a student shall be required to show cause why he should be allowed to continue a course which he will not be able to complete in the time set down in the following schedule:

<table>
<thead>
<tr>
<th>Number of years in course</th>
<th>Total time allowed from first enrolment to completion (Years)</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>5</td>
</tr>
<tr>
<td>4</td>
<td>6</td>
</tr>
<tr>
<td>5</td>
<td>8</td>
</tr>
<tr>
<td>6</td>
<td>9</td>
</tr>
<tr>
<td>7</td>
<td>11</td>
</tr>
<tr>
<td>8</td>
<td>12</td>
</tr>
</tbody>
</table>

(iii) No full-time student shall, without showing cause, be permitted to continue a course unless all subjects of the first year of his course are completed by the end of his second year of attendance. No student in the Faculty of Arts shall (without showing cause, be permitted to continue a course unless he completes four subjects by the end of his second year of attendance.* No part-time student shall, without showing cause, be permitted to continue a course unless all subjects of the first two stages of his course are completed by the end of his fourth year of attendance and all subjects of the third and fourth stages of his course by the end of his seventh year of attendance.

No student in the Faculty of Medicine shall, without showing cause, be permitted to continue with the medical course unless he completes the second year of the course by the end of his third year of attendance, and the third year of the course by the end of his fourth year of attendance.

(iv) A student who has a record of failure in a course at another University shall be required to show cause why he should be admitted to this University. A

* Rule (iii) in so far as it relates to students in the Faculty of Arts will apply retrospectively as from 1st January, 1967, and in so far as it relates to students in the Faculty of Medicine, will apply to students enrolling for the first time in 1967, or thereafter.
student admitted to a course at this University following a record of failure at another University shall be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations in his first year of attendance at this University.

(v) Any student excluded under any of the Clauses (i)-(iii) may apply for readmission after two academic years and such application shall be considered in the light of any evidence submitted by him.

(vi) A student wishing "to show cause" under these provisions shall do so in writing to the Registrar. Any such application shall be considered by the Professorial Board, which shall determine whether the cause shown is adequate to justify his being permitted to continue his course or re-enrol, as the case may be.

(vii) The Vice-Chancellor may on the recommendation of the Professorial Board exclude from attendance in a course or courses any student who has been excluded from attendance in any other course under the rules governing re-enrolment and whose record at the University demonstrates, in the opinion of the Board and the Vice-Chancellor, the student's lack of fitness to pursue the course nominated.

(viii) A student who has failed, under the provisions of Clause (vi) of these rules, to show cause acceptable to the Professorial Board why he should be permitted to continue in his course, and who has subsequently been permitted to re-enrol in that course or to transfer to another course, shall also be required to show cause, notwithstanding any other provisions in these rules, why he should be permitted to continue in that course if he is unsuccessful in the annual examinations immediately following the first year of resumption or transfer of enrolment as the case may be.

(ix) A student may appeal to an Appeals Committee constituted by Council for this purpose against his exclusion by the Professorial Board from any subject or course.
RE-ADMISSION AFTER EXCLUSION

Applications for re-admission must be made on the standard form and lodged with the Registrar not later than 30th June of the year prior to that for which re-admission is sought. An application should include evidence of appropriate study in the subjects (or equivalents) on account of which the applicant was excluded. In addition, evidence that circumstances which were deemed to operate against satisfactory performance at the time of exclusion are no longer operative or are reduced in intensity should be furnished. An applicant may be required to take the annual examinations in the relevant subjects as qualifying examinations in which case re-admission does not imply exemption from the subject.

It should be noted that a person under exclusion may not be enrolled in miscellaneous subjects unless he has received the approval of the Professorial Board.

Persons who intend applying for re-admission to the University at a future date may seek advice as to ways in which they may enhance their prospects of qualifying for re-admission. Enquiries should be made on a form obtainable from the Examinations Branch, and lodged with the Registrar.

ANNUAL EXAMINATIONS

The annual examinations take place in November-December for students in 30-week courses, and in September for students in 21 and 24-week courses. Timetables showing time and place at which individual examinations will be held are posted on the central notice boards. Misreading of the timetable is not an acceptable excuse for failure to attend an examination. Examination results are posted to the term addresses of students. No results will be given by telephone.

All students will receive an enrolment details form by 30th June. It is not necessary to return this form, unless any information recorded there is incorrect. Amended forms must be returned to the Examinations Branch by 19th July. Amendments notified after the closing date will not be accepted unless exceptional circumstances exist and approval is obtained from the Registrar. Where a late amendment is accepted, a late fee of $5.00 will be payable. Amended forms returned to the Registrar will be acknowledged in writing within fourteen days.
STUDENT SERVICES

THE LIBRARY

The University library is on the upper campus and adjacent to the Chancellery and the Morven Brown and John Goodsell Buildings. The Bio-Medical Library is in the Biological Sciences Building with a branch at Prince Henry Hospital (Phone: 661-0111). Library services are also available at Sydney Technical College, Wollongong University College and Broken Hill Division.

Each library provides a reference and lending service for staff and students, and is open in term during day and evening sessions.

Staff and students must register with the library or libraries from which they intend to borrow books.

THE UNIVERSITY UNION

The University Union is a common meeting ground for all students. Eating and general recreational facilities are available, as well as a shop for stationery and other student requisites, branches of several banks, a pharmacy, a branch of David Jones, and hairdressing facilities. Membership is compulsory for all registered students.

STUDENT ACCOMMODATION

Residential Colleges

Accommodation for students is provided within the complex of the Residential Colleges of the University which comprise Basser College, Goldstein College and Philip Baxter College. The College complex houses 500 men and women students, as well as staff members. Tutors in residence provide tutorial assistance in a wide range of subjects.

Board and residence fees, which are payable on a term basis, amount to $18.50 per week. Intending students should apply in writing to the Master, Box 24, Post Office, Kensington, N.S.W. 2033, from whom further information is available.

Other Accommodation

Students requiring other than Residential College accommodation may make application to the Student Amenities Service where
current lists are kept of accommodation available at recognised boarding houses, private homes, and in serviced and unserviced apartments.

STUDENT COUNSELLING AND RESEARCH UNIT

Prospective students seeking advice or guidance regarding the selection and planning of courses (particularly in relation to a career), or advice regarding their suitability for a particular course, are invited to consult the University Student Counselling and Research Unit. Appointments may be made by telephone (663-0351, extensions 2600 to 2605).

In addition to its counselling service, the Unit provides a variety of study skills programmes throughout the year, on a group or individual basis. Programmes offered in the past have included Reading Improvement, Study Methods, Written Expression, Note Taking, Studying Mathematics, Improving Listening, Preparing for Statistics.

STUDENT AMENITIES UNIT

This Service is closely associated with the Sports Association and also handles applications for student concession fares and provides a service for students requiring other than College accommodation.

STUDENT EMPLOYMENT UNIT

Assistance is offered in finding full-time employment for evening students, and permanent employment after graduation. The Service is located in the Chancellery, just near the main entrance.

STUDENT HEALTH UNIT

A student health and first aid centre, staffed by a qualified medical practitioner and a nursing sister, is provided by the University. Students are encouraged to attend the centre for advice on all matters pertaining to their health.

CHAPLAINCY SERVICE

This Service is provided for the benefit of students and staff by five Christian Churches (Anglican, Roman Catholic, Methodist, Baptist, Churches of Christ) and by the Jewish congregation. Chaplains are in attendance at the University at regular times. A Chapel is also available for use by all denominations.
STUDENT LOAN FUND

The Students' Union and the University have co-operated to provide assistance to students who are in financial difficulties which are considered likely to prejudice their progress with their studies.

Three forms of assistance are available. In the first, the University considers, in certain circumstances, deferment of the payment of fees; this scheme is not intended to replace the established procedure for granting deferment for short periods but rather to supplement it by making deferment over longer periods possible. Secondly, students in need may receive a cash loan not exceeding $200 from the Student Loan Fund established from contributions made by the Students' Union and the University.

Thirdly, a Students' Union donation of $1,000 has made possible urgent cash loans not exceeding $50 for a period of one month.

In all cases assistance is limited to students with reasonable academic records and whose financial circumstances warrant loans. Students granted assistance of either kind are required to give an undertaking to repay the loan under the conditions agreed upon.

Applications are made personally to Mr. J. B. Rowe, Deputy Registrar (Student Services).

SOCIAL WORK STUDENTS ASSISTANCE FUND

A limited fund exists which is intended to help meet the emergency needs of students, for example, illness, sudden loss of income, etc. Applications should be made to any executive member of the association or staff member of the School of Social Work. It is anticipated that the money will be repaid by recipients. Contributions towards the fund are welcomed and should be directed to the Association Treasurer c/- School of Social Work.

UNIVERSITY CO-OPERATIVE BOOKSHOP LTD.

Membership is open to all students, on payment of a fee of $5, refundable when membership is terminated. Members receive an annual rebate on purchases of books.
STUDENT ACTIVITIES

Appropriate Faculty Associations are open to students in the various courses. Full details are available in other Faculty handbooks, the following list merely indicating the range.

The Commerce Society; The Arts Faculty Society; Dramsoc; The Historical Society; The Politics Club; The French Society; Socratic Society; The Julian Society; The Wool and Pastoral Science Association.

Social Work Students' Association

This association was formed primarily to give social work students in all years an opportunity to meet each other socially; to learn about specific fields of social work and topics of social interest from professionals; to provide the students with representation on various University and external bodies, to give students an opportunity to air their disagreements and discuss questions about social work in general; and to act as a source of information, and in special cases, financial assistance, to students.

With these aims in view, social functions are arranged, regular meetings held and visits to social work agencies etc., organized. Representatives of the association attend meetings of the Australian Association of Social Workers (N.S.W. Branch) and the Council of Social Service of N.S.W., while contact with student bodies in other universities is maintained, mainly through the Federation of Australian Social Work Students' Association. A regular newsletter is produced to inform students of activities. All students in social work are automatically members of the association. An Annual general meeting is held during the first term of each year, at which the executive committee is elected. Further details may be obtained from the Social Work students notice board and the Enquiries Office of the School of Social Work.
Commonwealth University Scholarships

There are three types: OPEN ENTRANCE SCHOLARSHIPS, which are awarded on the results of the Higher School Certificate Examination to students who are under twenty-five years of age on 1st January of the year in which they begin their course and who, with their parents, are permanent residents of Australia; LATER YEAR SCHOLARSHIPS, which are available to students who have completed at least one year of a full-time or two years of a part-time course without failure, (age and residential qualifications are the same as for Open Entrance); and MATURE AGE SCHOLARSHIPS, which are available to students who are over twenty-five on 1st January of the year for which the scholarship is desired, and who have been residents of Australia for at least two years immediately preceding the award of the scholarship. Benefits include payment of all tuition fees and other compulsory fees and living allowances (these latter being subject to a means test). The closing date for applications is 30th September in the year immediately preceding that for which the scholarship is desired. Full particulars and application forms may be obtained from the Officer-in-Charge, Sydney Branch Office, Department of Education and Science, La Salle Building, 70 Castlereagh Street, Sydney, N.S.W., 2000 (Telephone 25-5447).

University Scholarships

The University annually awards up to fifteen scholarships tenable in degree courses to students who have matriculated at the Higher School Certificate Examination; ten scholarships to students who have completed certificate courses (Department of Technical Education); ten scholarships to students who have completed Trade Courses (Department of Technical Education); and ten scholarships to part-time students who have taken the Diploma Entrance course of the Department of Technical Education. The scholarships are tenable in any faculty and exempt the holder from payment of course fees during the currency of the scholarship. Scholarships will be awarded in order of merit on the Higher School Certificate Examination results. Continued tenure of the scholarships requires satisfactory progress. They may be held only by persons who do not hold another award. Applications must
be lodged after publication of the Higher School Certificate Examination results and after the announcement of the award of Commonwealth University Scholarships, but not later than 31st January.

Cadetships and Traineeships

*The Commonwealth Public Service* offers cadetships each year in a number of fields including social work. Details of vacancies at any one time may be obtained from the University's Student Employment Officer or the Inquiry Officer, Commonwealth Public Service Inspector's Office, Commonwealth Centre, Chifley Square (Cnr. Phillip and Hunter Streets). (Telephone 28-5701).

*The New South Wales Public Service* offers traineeships from time to time for various departments. Enquiries should be made to the New South Wales Public Service Board, 19 O'Connell Street, Sydney. Applications will close in October, and early application to the Board is advisable.

*The Hospitals Commission of New South Wales, Red Cross* and other voluntary agencies also offer scholarships for advanced students from time to time.

Scholarships in Industrial Arts (B.Sc. Degree)

Two scholarships, valued at $100 per annum, are offered each year by the Institute of Industrial Engineers to students entering the full-time course in Industrial Arts leading to the B.Sc. degree. The scholarships are tenable for four years, and may not be held concurrently with any award except one providing solely for the payment of compulsory University fees.

Teachers College Scholarships

Scholarships are awarded in open competition in respect of the aggregate of the five best subjects presented at the Higher School Certificate Examination provided that the candidate has a pass in English at any level.

Applicants must have reached the age of sixteen years, and, in general, should not have passed the age of thirty-five years on the date at which training is commenced.

Applications must be made on the form provided. Full-time school pupils may obtain these forms from the principal of the school of college at the end of second term. Other applications may be made by contacting: Officer-in-Charge, Teacher Training Division, N.S.W. Department of Education, Blackfriars Street, Chippendale, N.S.W., 2008 (Telephone: 211 4566).
Applications for scholarships should be made by September 30. Late applications will be considered although no attempt is made to reserve places for late applicants.

Graduates and undergraduates are reminded that later year scholarships are made available from time to time.

Further advice regarding applications for Teachers College Scholarships may be had by contacting the School of Education.

**Graduate Diploma in Industrial Design Scholarships**

In 1969 the Commonwealth Development Bank and the Rural Bank of New South Wales are making available two scholarships for students who wish to enrol in the postgraduate course in Industrial Design leading to the award of a Graduate Diploma. Applicants should have a University degree or a professional level qualification from a Technical College, or such other qualification as may be approved by the University. Past and present employment experience in industrial design is desirable. The value of each scholarship is $2,400 per annum for full-time study or $1,200 per annum for part-time study, from which fees will be deducted. Students successfully completing the course will be eligible to apply for the P & O Orient Company's travelling scholarship for further study and experience abroad.

**Scholarships in Hospital Administration**

A number of scholarships and cadetships up to the value of $2,800 plus fees and allowances are available to students enrolling in courses offered by the School of Hospital Administration. Details are available from the Head of the School.
THE BACHELOR OF SCIENCE (EDUCATION) DEGREE COURSE

The first year of a four-year Bachelor of Science (Education) degree course, B.Sc.(Ed.), will commence in 1969. The course is designed primarily for the preparation of teachers of science in New South Wales secondary schools, but will also be of interest to persons wishing to pursue careers in technical sales, administration and management in commerce, industry and public service.

An essential feature of the course is the breadth of study over a range of science subjects, and the integration of education subjects, equivalent to the present Diploma in Education, within the course. In addition, to provide balance, two stages of History and Philosophy of Science, have been included in the course structure.

In the first year students are required to undertake a programme in chemistry, physics and mathematics and either biology or geology. The major areas of study in subsequent years are chemistry, physics, biological sciences and geology, and at least one of these must be taken to at least three stages.

The structure of the B.Sc.(Ed.) degree course is as follows:—

FIRST YEAR
(30 weeks' full-time course)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours per week for 3 terms</th>
</tr>
</thead>
<tbody>
<tr>
<td>*1.011</td>
<td>Higher Physics I or</td>
<td>3 — 3</td>
</tr>
<tr>
<td>1.001</td>
<td>Physics I or</td>
<td>2 — 4</td>
</tr>
<tr>
<td>1.041</td>
<td>Physics IC</td>
<td>4 — 2</td>
</tr>
<tr>
<td>2.011</td>
<td>Higher Chemistry I or</td>
<td>2 — 4</td>
</tr>
<tr>
<td>2.001</td>
<td>Chemistry I</td>
<td>4 — 2</td>
</tr>
<tr>
<td>10.001</td>
<td>Mathematics I</td>
<td></td>
</tr>
<tr>
<td>17.001</td>
<td>General and Human Biology or</td>
<td>2 — 4</td>
</tr>
<tr>
<td>25.001</td>
<td>Geology I</td>
<td></td>
</tr>
</tbody>
</table>

*Higher Physics I covers the same syllabus as Physics I but at a higher level. Students intending to proceed to further studies of Physics in later years of the course should take 1.011 or 1.001. Students taking Physics IC, which is a terminating course, would only be able to proceed to further studies of Physics if their performance in 1.041 was above average.
### SECOND YEAR

SCHOOL OF EDUCATION

DIPLOMA IN EDUCATION

Since 1966 the Board of Vocational Studies in association with the School of Education and the Alexander Mackie Teachers' College has offered a course leading to the award of the Diploma in Education (Dip.Ed.) to graduate students from this University or from other approved universities. The School of Education also offers a course leading to the award of Master of Education (M.Ed.). Details concerning this course may be found in Section C of the University of New South Wales Calendar. The Diploma is designed to give professional training in education to postgraduate students. It is initially a one-year full-time course of studies but it is anticipated that in the near future it will be possible for this course to be taken over two years on a part-time basis. The course is directed, but not exclusively, towards the preparation of teachers for secondary schools. It includes lectures, seminars, tutorials, individual assignments and group exercises, visits, demonstrations of teaching methods and practice teaching.

Supervised Teaching Practice

Eight weeks' full-time teaching practice in term time. Two weeks' experience in classroom practice will also be arranged before the beginning of the academic year.
SCHOOL OF HOSPITAL ADMINISTRATION

BACHELOR OF HOSPITAL ADMINISTRATION

The School of Hospital Administration offers a degree course in Hospital Administration. This course is designed to meet the special needs of hospital and health service administrators and of students who cannot participate in the Master of Hospital Administration programme.

The subjects taken in the first half of the course — Accountancy, Law, Management, Statistics and Psychology — relate to administration in general, and those taken in the second half are related more directly to hospital administration.

The course may be taken in full-time attendance at the University for three years or by part-time (external) study over a period of six years or by a combination of part-time (external) and full-time study.

Students' studies will normally be complemented by practical experience in hospital or health service administration or similar administrative work.

DIPLOMA IN HOSPITAL ADMINISTRATION

This course is being progressively discontinued and therefore no new enrolments will be accepted for the Diploma.

Students who embarked in 1968 or earlier on the former diploma course will be granted advanced standing in the Bachelor of Hospital Administration degree course according to equivalent subjects passed. Those students not electing to proceed to the degree will be awarded the Diploma on the successful completion of the first four stages of the part-time degree course. They will not, however, be eligible for the Degree should they elect, at some later date, to complete the fifth and sixth stages.

MASTER OF HOSPITAL ADMINISTRATION

The School, which was founded in 1956 with a grant from the W. K. Kellogg Foundation, also provides a postgraduate formal course leading to the degree of Master of Hospital Administration. In addition, the Master's degree and the degree of Doctor of Philosophy may be taken following periods of full-time or part-time research in hospital and health service administration for which the School offers excellent facilities.
Conditions for the Award of the Degree of Bachelor of Hospital Administration

1. A candidate for the degree of Bachelor of Hospital administration shall:
   (a) comply with the requirements for admission;
   (b) follow the prescribed course of study in the School of Hospital Administration and satisfy the examiners in the necessary subjects.

2. A student who is following the prescribed course of study as a part-time (external) student shall in each year attend the residential school conducted by the School of Hospital Administration.

3. A full-time student shall be required to complete the first year of the course in not more than two years. A part-time student shall be required to complete the first two stages of his course in not more than four years. Re-enrolment thereafter will be governed by the general regulations of the Professorial Board.

4. A student may be granted advanced standing by the Professorial Board on the recommendation of the Board of Vocational Studies. A student coming from another institution must follow an approved course of study in this University for at least two years if a full-time student or at least four years if a part-time student.

MASTER OF HOSPITAL ADMINISTRATION

The conditions for the award of the degree of Master of Hospital Administration, together with an outline of the formal course are set out below.

In the formal course the students' theoretical instruction is integrated with in-service experience and practical work-training in accordance with the view that administration is a practical art in which theory and practice are complementary and equally essential to the administrator's development.
Conditions for the Award of the Degree of Master of Hospital Administration

1. An application to register as a candidate for the degree of Master of Hospital Administration shall be made on the prescribed form which shall be lodged with the Registrar at least one full calendar month before the commencement of the course.*

2. (i) An applicant for registration for the degree shall have been admitted to an appropriate degree in the University of New South Wales or other approved university.
   (ii) In exceptional cases a person may be permitted to register as a candidate for the degree if he submits evidence of such academic and professional attainments as may be approved by the Professorial Board on the recommendation of the Board of Vocational Studies (hereinafter referred to as "the Board").

3. Notwithstanding any other provisions of these conditions, the Board may require an applicant to demonstrate fitness for registration by carrying out such work and sitting for such examinations as the Board may determine.

4. In every case, before permitting an applicant to register as a candidate, the Board shall be satisfied that adequate supervision and facilities are available.

5. An approved applicant shall pay such fees as may be determined from time to time by the Council.†

6. Every candidate for the degree shall be required:—
   (a) To carry out a programme of advanced study, to take such examinations and to perform such other work as may be prescribed by the Board.
   The programme of advanced study shall include:—
   (i) attendance at the University in a prescribed course of formal work;
   (ii) attachments to hospitals and other organisations for in-service experience;
   (iii) the preparation and submission of a dissertation embodying the results of an original investigation.

   The attachments referred to in paragraph 6(a) (ii) and the investigation referred to in paragraph 6(a) (iii) shall be under the direction of supervisors appointed by the Board or under such conditions as the Board may determine.

† For details of fees, see earlier under "Fees".
* Preliminary enquiries regarding registration should be made before 31st August of the year prior to registration.
A candidate who has already had adequate and satisfactory in-service experience may, with the approval of the Board, be exempt from the attachments referred to in paragraph 6(a) (ii); 

OR

(b) To carry out a programme of advanced study and take such examinations and perform such other work as may be prescribed by the Board. The programme shall include the preparation and submission of a thesis embodying the results of an original investigation or design. The candidate may submit also for examination any work he has published, whether or not such work is related to this thesis.

7. An approved applicant shall register in one of the following categories:—

(i) Student in full-time attendance at the University.
(ii) Student in part-time attendance at the University.
(iii) Student working externally to the University.

8. The dissertation referred to in paragraph 6(a) (iii) shall be on a topic approved by the Board on the recommendation of the Head of the School before the end of the third term of Year II. Unless permission to the contrary has been granted, a candidate shall be required to submit his dissertation not earlier than nine terms, and not later than twelve terms, from the date of registration.

9. Candidates for the award under the conditions contained in paragraph 6(b) shall not be considered for the award of the degree until the lapse of six complete terms from the date from which the registration becomes effective, save that in the case of a full-time candidate who has obtained the degree of Bachelor with Honours or who has had previous research experience, this period may with the approval of the Board be reduced by not more than three terms.

10. Every candidate for the degree shall be required to submit three copies of the dissertation or thesis as the case may be. The dissertation or thesis shall be presented in a form which complies with the requirements of the University for the preparation and submission of higher degree theses.*

* See Section “C” of the University Calendar.
11. It shall be understood that the University retains the three copies of the dissertation or thesis submitted for examination, and is free to allow the dissertation or thesis to be consulted or borrowed. Subject to the provisions of the Copyright Act, 1912 (as amended) the University may issue the dissertation or thesis in whole or in part, in photostat or microfilm or other copying medium.

12. For each candidate's dissertation or thesis there shall be at least two examiners, appointed by the Professorial Board on the recommendation of the Board of Vocational Studies, one of whom shall if possible be an external examiner.

13. The award of the degree taken in accordance with paragraph 6(a) shall depend upon:

(i) the candidate's performance in his in-service attachments;
(ii) the candidate's performance in the examinations;
(iii) the quality of the candidate's dissertation.

The Department of Industrial Arts offers a B.Sc. degree available through full-time study and a B.Sc. (Tech.) degree through part-time study in the general field of Industrial Arts. The subjects required to qualify for the degree are set out elsewhere in this Handbook. At the postgraduate level, the Department offers a course in Industrial Design leading to the award of a Graduate Diploma.

The Subject Matter of Industrial Arts

The study of industrial arts is concerned, in general, with the interaction of man with his material environment. It seeks to understand those problems of human ecology which relate to the interaction of man with materials. Particular attention is paid to the manner in which man's needs, creative ideas and skills operate in society to produce manufactured commodities. Its methods aim at describing and analysing the relationship of human needs and talents, materials and work processes, and to apply the knowledge so derived. Industrial arts is therefore an interdisciplinary study drawing from free and rigorous design, the science and technology of materials and the behavioural sciences, especially psychology and sociology.

Specialization with the Study of Industrial Arts

The Department of Industrial Arts emphasises three areas in this field. Since, however, the subject matter is broad, it is considered advisable for students to select one of these areas and to study it in greater depth than the other two. The areas of study are covered in the following three strands.

Industrial Education

This strand is concerned with the educational significance of the integration of man's needs and creative ideas, materials and methods, in the production of useful articles. The subject matter is of importance for both industry and education.

When taken with the other subjects in the degree course, the industrial education strand aims to produce people qualified as secondary school teachers of industrial arts and allied subjects, training and education specialists for industry.
Study of Work Processes

This strand is concerned with the design and evaluation of human work processes, and with the manner in which these processes operate in conjunction with man’s creativity and materials to produce manufactured commodities.

The other subjects of the degree combine with this strand to produce an integrated course suitable for those people wishing to enter the field of work study in industry.

Industrial Design

This strand is concerned with the integration of man’s needs and ideas, materials and methods of work in the design of manufactured products, seeking through this study to encourage creative expression.

The content of this strand, when combined with the other subjects of the degree will form a sound basis for those people wishing to commence professional training in industrial design.

The Need for Professional Experience

This degree course provides a basic training in those areas of industrial arts outlined above. However, as is the case with most professional degrees, further specialised experience will be necessary.

With the full-time course, the Department of Education will certificate graduates as teachers and the Institute of Industrial Engineers will admit to associate membership upon the completion of suitable experience after graduation.

As part of the requirements for the degree of B.Sc. (Tech.) which is taken part-time, students will normally be asked to complete an approved programme of experience over a period of not less than three years, concurrently with attendance in the course. These conditions apply to all B.Sc. (Tech.) Degree courses offered by the University of New South Wales. The part-time degree is also recognised by the Department of Education and the Institute of Industrial Engineers.
INDUSTRIAL ARTS—FULL-TIME COURSE

INDUSTRIAL DESIGN GRADUATE COURSE
(Graduate Diploma)

The Department of Industrial Arts offers a postgraduate course in Industrial Design leading to the award of a Graduate Diploma. The course provides a broad education in industrial design for those students who hold first degrees, although it is expected that students will, in general, come from the professions of engineering and architecture. The course has been so structured that graduates with the necessary talents and interests from other disciplines are provided for. Opportunities to specialise in either product design or communication design will be provided.

According to demand, the course may be available on a full-time basis over one year or on a part-time basis over two years.

Since 1965, the Board of Vocational Studies has offered a course leading to the degree of Bachelor of Social Work (B.Soc.Wk.)

Social work is concerned with the welfare of people — individuals, families or groups — needing assistance for coping with their personal or social problems. Social workers, as well as helping people make adjustments, also help people to use their abilities to introduce social changes in the community, so that the environment itself may be improved. It is work with one of the longest human traditions, yet as a profession it is relatively new. Professional social workers share common knowledge, skills and attitudes gained from their professional education, and in particular are concerned that people in need of outside assistance are treated with understanding and respect.

There are many fields in which social workers may practice, and the methods used to help people vary considerably with the type of person needing assistance, and the circumstances in which he is placed. Social workers may work with individuals, families together, small or large groups, and community bodies.

The course is designed to provide an adequate professional training for social work, and involves a course of academic studies together with opportunities for acquiring practical experience in the form of supervised field work in a variety of government and private agencies.

The academic course involves a minimum of four years study, including a minimum of six months supervised field work training, during the second, third and fourth years of the course. The course may be taken at either pass or honours level. It is a full time day course, although some lectures are available in the evening.

Admission requirements are the same as for the Bachelor of Arts course. There is no minimum age for enrolment, but maturity is taken into consideration before a student may undertake field work.

Students taking the degree of Bachelor of Social Work will be required to qualify in certain compulsory subjects necessary for the attainment of professional status in social work. Students will be able to choose four additional courses from a range of subjects in the social sciences and humanities. At least one of the subjects
in this range must constitute a major interest. The subject of major interest must be taken in at least three consecutive courses, and the choice requires the approval of the Head of the School of Social Work.

The compulsory subjects are:

53.111 Sociology I; 53.112 Sociology II (including Social Policy)
12.001 Psychology I; 12.022 Psychology II
63.111 Social Work I
63.112 Social Work II
63.113 Social Work III
63.211 Public Health and Social Medicine
63.311 Social Work Practice I
63.312 Social Work Practice II
63.313 Social Work Practice III

Unless the Head of the School approves otherwise, Sociology I and Psychology I must be taken in the first year; Psychology II in the second year; and Social Work I, II and III in the second, third and fourth years of the course. Not more than four subjects may be taken at first year level and students may not proceed to study the subject Social Work I or Social Work Practice I until they have passed at least two first year subjects including either Psychology I or Sociology I.

The student's selection of Sociology options must be approved by the Head of the School of Social Work and the Head of the School of Sociology.

The compulsory subjects of Psychology and Sociology may be chosen as majors. Students may choose their electives (one of which may be continued as a major interest) from History, Economics, Economic History, History and Philosophy of Science, Philosophy and Political Science. Any student with a special interest in another field (for example, Mathematics or Languages) may, however, submit details of an alternative programme of electives to the Head of the School for consideration. In certain cases this may include Anthropology I and II taken at the University of Sydney.* Students wishing to take Economic History are required by the Faculty of Commerce to take Economics I as a prerequisite and a sequence of Economics I, Economic History I and Economic History II will be accepted as a major. Students who have completed Economics I might also be permitted to take a sequence including courses in Industrial Relations.

* For conditions applying to anthropology, students should consult the Head of the School.

HONOURS

Students wishing to graduate with honours must apply to the Head of the School at the end of the second year of their course.
for permission to enrol in the Honours programme. In Third Year, Honours students will be required to enrol in 63.122 Social Work II (Hons.) and in Fourth Year in 63.123 Social Work III (Hons.). Requirements for the Fourth Year will also include the submission of a thesis.

SOCIAL WORK PRACTICE

Field work, which is required of all students, provides the opportunity for students to develop necessary skills and to learn to put into practice the theory learned in classroom courses.

Field work supervisors, usually agency staff members selected by the University, offer students in their placements practice in the methods of social work in a variety of government and voluntary agencies. Some of the field work settings used are: psychiatric, medical, family and child welfare, services to the aged, parole and aborigines' welfare.

Students usually have four different agency placements during the last three years of the course; one in second year, one in third year and two in fourth year. At present two placements are for a minimum of 210 hours or 30 working days duration each, and two placements for a minimum of 350 hours or 50 working days duration each; some balance between 'block' placements in vacation and those on a part-time basis during term is usually achieved.

While the University determines students' field work placements, students' special interests and needs are among the factors considered. Emphasis is placed on providing students with experience in a variety of fields of social work rather than concentrating on one field to the exclusion of others.

Students must satisfactorily complete all prescribed field work before they will be regarded as having met all course requirements, as field work is an essential and integral part of professional social work training.

Additional Practical Work

(1) Over the four years of the course students will spend a minimum of 210 hours using closed circuit television and other modern teaching aids related to the development of interviewing techniques and skills in establishing casework relationships.

(2) In the area of community development students will spend a minimum of 210 hours during the four years engaged in the
practical application of social work methods. For example, students engage in special projects related to social problems in the community, such as housing needs for particular groups.

(3) Students will be required to undertake 105 hours practical work training in group work.

ADDITIONAL INFORMATION AND ENQUIRIES

Further information may be obtained from the Head of the School of Social Work at Western Grounds Area (Northern End opposite High Street). Telephone 663-0351, extensions 2105 or 2106.
The School of Wool and Pastoral Sciences offers a special course, the purpose of which is to provide training at the tertiary level for teachers of sheep husbandry and wool science in the Department of Technical Education and in the Agricultural High Schools and Colleges. Students who complete the course successfully will be eligible to become certificated teachers.

It is also considered that the training offered in this course may suit students seeking careers in the sheep and wool extension services of State Departments of Agriculture. Outstanding graduates would be able to undertake certain types of research.

The course is a full-time one extending over four years, and leads to the degree of Bachelor of Science (pass or honours).

The Wool Use Promotion Act of 1945 and subsequent legislation has recognised the importance of wool in Australia's economy and the need to meet competition in the traditional wool markets of the world from artificial fibres. The strength of the wool industry is clearly limited by the knowledge and skill shown by its intake of young workers; and the need for high grade teachers has been underlined by recent criticisms of classing techniques as well as by the need for increased efficiency and lowered costs of production. The aim of the new Sheep and Wool Technology course (Education Option) is to provide a pool of teachers who will have a professional training in the philosophy and techniques of education, as well as a knowledge of science and of the technology of the sheep and wool industry.

This course represents a new combination of subjects already offered by the University in the existing courses in Wool Technology and Industrial Arts. First year gives a basic training in general science, and with Psychology I, introduces the educational emphasis which is continued throughout the course. In second, third and fourth years vocational subjects essential to all branches of the wool industry are covered, and time is allotted for professional practice.
Since the new course contains only incidental Mathematics it is expected to be attractive to those students who are interested in a University approach to the pastoral industry, but who do not feel able to cope with the mathematical content of the Wool Technology degree course.

Plus one of the following subjects, the choice to be approved by the Head of the School.

- 9.534 Wool Technology IV
- 9.901 Rural Extension
- 9.602 Animal Physiology II
- 41.102 Biochemistry

* Students electing the Biochemistry option must undertake an approved project in a related field.
DESCRIPTION OF SUBJECTS

Descriptions of subjects and reading lists for subjects available to students in the Board of Vocational Studies, but omitted from this handbook, are included in other Faculty Handbooks. In addition, a separate publication is available, setting out details of subjects offered by the Department of General Studies.

SCHOOL OF WOOL AND PASTORAL SCIENCES

9.101 Livestock Production I

Anatomy, histology and introduction to the physiology of the domestic animals. Mammalian evolution and embryology.

The livestock industry and its place in the economic life of Australia. Production of livestock products and trends. The inter-relationships of the various classes of stock and the natural, economic and artificial conditions determining the stratification of types. Breeds of livestock of importance to the pastoral industry and aids to judging. Breeds of sheep, their uses and economic relationships. Sheep management and calendar of operations. Flock composition; principal sources of loss and their control.

9.122 Livestock Production II

The more important breeds of beef cattle, dairy cattle, pigs, working dogs, and their management. Production of beef, veal, pigmeats, milk and milk products, and quality concepts. Handling hides and skins. Stud breeding—record keeping.

9.123 Livestock Production III

Principles of livestock production and their application in animal industry; reproduction and fertility; milk secretion; growth and development; nutrition and breeding. Crossbreeding. Prime lamb production. Factors affecting livestock production e.g. pasture improvement.

TEXTBOOKS (9.101, 9.122, 9.123)

Hammond, (ed.). Progress in the Physiology of Farm Animals (3 vols.). Butterworth.
REFERENCE BOOKS (9.101, 9.122, 9.123)

Sutherland, J. A. *Understanding Farm Animals*. A & R.
Thomas, J. F. et al. *Sheep*.
Trautmann and Fiebeger, J. *Fundamentals of the Histology of Domestic Animals*.

9.221 Agronomy

9.231 Pastoral Agronomy
Pasture ecology. Establishment, management and utilization of pastures. Fodder and field crops associated with the sheep industry. Fodder conservation. Insect pests of pastures.

**TEXTBOOKS (9.221, 9.231)**
Burbridge, Nancy T. *Australian Grasses*. Angus & Robertson.
Donahue, R. L. *Soils*. Prentice-Hall.
Whittet, J. N. *Pastures*. N.S.W. Dept. of Agriculture.
Barnard, C. *Grasses and Grassland*. Macmillan.
9.311 Economics

The main divisions of economic theory and the basic concepts in production economic analysis: factor/product, factor/factor and product/product relationships. The nature of costs and cost analysis. Returns to scale. Planning under imperfect knowledge. Wool futures, the operation of the Australian monetary system.

Introduction to Farm Management—Its meaning, objectives and scope in different environments.

9.312 Farm Management

Land utilization in relation to farm management; climatic influences; patterns of enterprise distribution, land valuation and improvements; farm size and layout; labour and rural credit. Yield and intensity in production. Financial and production records and accounts; inventory theory; tests of economic efficiency. Farm planning and organization. Budgeting and programming. Gross margin analysis. Linear programming. Economics of pasture improvement, fertilizer use, drought and fodder conservation and irrigation.

TEXTBOOKS (9.311, 9.312)

Castle, E. N. and Becker, M. H. Farm Business Management. Macmillan.

Heady, E. O. Economics of Agricultural Production and Resource Use. Prentice-Hall.

REFERENCE BOOKS

Agriculture, Fish and Food Ministry. The Farm as a Business. H.M.S.O.

Mallyon, C. A. Principles and Practice of Farm Management Accounting. Law Book Co.

Queensland Dept. Primary Ind. Accounting & Planning for Farm Management. Pole & Co.

9.411 Agricultural Chemistry

Poisonous plants. Agricultural chemicals. Water supplies (stability, activities of enzymes, substrate requirements).

General principles of analytical methods. Trace metal analysis. Colorimetry and instrumental techniques.

Concurrent extensions in chemistry as necessary.

9.421 Animal Nutrition

While particular emphasis will be given to nutritional requirements of sheep, those of other farm livestock will be dealt with in this section.

TEXTBOOKS

REFERENCE BOOKS

Annison, F. and Lewis, D. Metabolism in the Rumen. Methuen.

National Research Council (U.S.A.). Recommended Nutrient allowances for Domestic Animals.

9.531 Wool Technology I

Wool Metrology—All common measurement techniques, yield, length, diameter, damage, fleece components, their estimation and analysis of results.

Raw Materials—This subject, taught by the School of Textile Technology, constitutes part (a) of 13.511 General Textiles. A course on origin, chemical composition, structure and properties of natural and synthetic fibres, with particular emphasis on comparative properties.

9.532 Wool Technology II

Wool Textile Manufacture—Taught by the School of Textile Technology; constitutes part (a) of 13.512 General Textiles.

Detailed instruction on function of machines involved in woollen and worsted processing from scouring to (and including) finishing. The function and general mechanism of each stage of processing are studied and comparisons are made with other types of manufacture where possible.

The following trade visits will be undertaken during Wool Technology I and II at times coincident with relevant theory and practice: worsted manufacture, woollen manufacture, scouring and carbonizing, fellmongering, carpet manufacture, repacking houses, wool brokers' stores, wool saleroom.

9.533 Wool Technology III

Wool types, appraisal of wool samples in terms of Australian Wool Board type, quality and yield.

TEXTBOOKS (9.531, 9.532, 9.533, 9.534)
Onions, W. J. Wool. Ben & Co.

REFERENCE BOOKS
9.601 Animal Physiology I

Physiological system of mammalia are treated with special attention to homeostasis and to ruminants. Cell membranes; blood and body fluids; the immune reaction. Cardiac control, functions and haemodynamics. Respiration. The endocrine system with particular emphasis upon growth reproduction, lactation and stress. The nerve impulse, its excitation and transmission. Physiology of digestion, the gastro-intestinal tract and of the kidney. Heat tolerance and climatic adaptation.

9.602 Animal Physiology II

Mammalian physiology directed towards domestic livestock production and homeostatic mechanics. Emphasis will be placed upon techniques. Active transport and allied membrane phenomena. Co-ordinator systems (neural, humoral), reproduction and lactation. Development physiology. General metabolism and its regulation—the physiology and metabolism of specific organs—heart, muscle, liver, kidney. The physiology of the mammalian digestive tract. Environmental physiology—adaptive mechanisms—especially in the newborn, and in heat tolerance; the immune reaction. Electrolyte physiology—acid-base equilibrium of the organism; use of clearance values in measuring renal and liver activity—respiration—tech-
niques of gas analysis and respirometry. Circulation, cardiac output and distribution (experimental techniques), special vascular circuits (pulmonary, cerebral, hepatic, splenic, renal, testicular). Physiology of the skin.

12.001 Psychology I

Theory — The subject-matter and methods of psychology, the biological and social determinants of behaviour, the basic processes of personality development, motivation, perception, thinking, learning, individual differences in ability patterns, the organizing of behaviour in the developing individual and adjustment. Emphasis throughout the course is placed on scientific appraisal of human behaviour. Hypotheses and experimental and other evidence are examined for their scientific validity. Practical — Group experiments and demonstrations, and experience in methods of psychological observation and statistical procedures appropriate to them.

TEXTBOOKS

Part A — Theory
Whittaker, J. O. Student's Workbook to accompany "Introduction to Psychology". Saunders, 1965.

Part B — Practical

REFERENCE BOOKS

Part A — Theory

Part B — Practical

12.022 Psychology II

The development and structure of personality, and associated practical work and statistics. In the theory lectures, attention is given to the effects of inter-personal relationships at successive stages of development; the influence of hereditary and socio-economic factors upon personality variables;
motivation theory within the framework of personality theory; and approaches to the description of personality structure. The practical work illustrates the lecture course content and extends to practice interviewing and in the administration and interpretation of personality tests.

TEXTBOOK
Part A — Personality

REFERENCE BOOKS

Part B — Psychological Statistics II.

TEXTBOOK

REFERENCE BOOKS
12.023 Psychology IIIA

Psychological Testing, theory and practice; and trends and problems in psychology. In the latter, the course will be comprised of six topic areas, such as the following, of which three are to be selected for more intensive study: Basic Theoretical Issues; Some Mathematical Developments in Psychology; Exceptional Children; The Psychology of Politics and International affairs; The study of Opinions (with special emphasis on Persuasion and Prejudice); and The Study of Fantasy.

Part A — Psychological Testing.

TEXTBOOK

REFERENCE BOOKS

Part B — Trends and Problems in Psychology.

TEXTBOOKS
and
or

Students should treat as additional text books those in the following list which deal with their three elected areas of concentration.

1. Basic Theoretical Issues

2. Some mathematical developments in psychology.

3. Exceptional Children.

4. The Psychology of Politics and International Affairs.
5. The Study of Opinions, with special emphasis on Persuasion and Prejudice.
Smith, M., Bruner, J., and White, R. Opinions and Personality.

6. The Study of Fantasy.
Freud, S. A General Introduction to Psychoanalysis.

SCHOOL OF HOSPITAL ADMINISTRATION

(i) SUBJECTS FOR DEGREE OF MASTER OF HOSPITAL ADMINISTRATION

12.671G Human and Industrial Relations

An introduction to psychological analysis of individual behaviour —
the processes of learning, motivation and adjustment. A study of group
processes — attitude formation and change, leadership-group dynamics.
Applications of psychological principles to aspects of management and
industrial relations. History and structure of relevant Australian trade
unions. Arbitration and conciliation.

TEXTBOOKS

REFERENCE BOOKS
Blum, M. Industrial Psychology and its Social Foundations.
Freud, S. Outline of Psychology.
Garret, H. Great Experiments in Psychology.
Ghiselli and Brown. Personnel and Industrial Psychology.
James, W. Textbook of Psychology.
Klineberg, O. Social Psychology.
Marriott, R. Incentive Payment Systems.
Maier, N. Frustration.
Maier, N. Psychology in Industry.
Russell, B. History of Western Philosophy.
Russell, B. Scientific Outlook.
Wootten, B. Testament for Social Science.
Wolpe, G. Behaviour Therapy.

14.031G Hospital Accounting

An introduction to generally accepted accounting principles and the
fund theory of accounting. The provision and administrative utilization
of accounting and statistical data, internal control, budgeting and cost
analysis.
PRELIMINARY READING

TEXTBOOKS

REFERENCE BOOKS

15.901 Economics (Hospital Administration)

An introductory examination of the working of a modern economic system, with some reference to Australian economic institutions and conditions.

The main topics are: consumer demand, cost analysis, market equilibrium, money and banking, pricing of factors of production, investment decisions, international trade, social accounting, social welfare, population trends and policy; and Australian economic institutions, including trade unions, arbitration system, the Tariff Board, the Reserve Bank.

TEXTBOOKS

REFERENCE BOOKS

15.914G Social and Economic Framework

Topics from the social and economic history of Britain and Australia for the period since 1750, including population change, the spread of industrialisation, business ideologies, the labour movement, the role of government and social legislation.

The structure and working of the Australian economy, including an analysis of the concept and measurement of national income, the composition and significance of social accounts, the monetary system, fiscal and monetary policy, social services, and Commonwealth-State financial relationships.

TEXTBOOKS

REFERENCE BOOKS

15.944G Statistics (Hospital Administration)

The basic elements of probability and statistics, applications of relevance to the hospital administrator, including the concept of probability and random variation, the algebra of probability, random variables and probability distributions, the binomial, normal and Poisson distributions, an introduction to queuing theory, simulation procedures, and inventory control, a review of the basic elements of hypothesis testing and estimation, decision theory, an introduction to vital statistics and demography.

TEXT BOOKS

REFERENCE BOOKS
16.621G Hospital Organization and Management

Theories of management, the administrative structure of hospitals, the nature of and inter-relationships within their departmental organization; principles of planning, organization, control and techniques of investigation; forecasting, coordination, direction and command; authority and responsibility; criteria of communication; effects of different organization forms on communication; barriers to communication.

(Includes thirty-seven weeks' in-service experience involving hospital attachments and review courses).

TEXTBOOKS

REFERENCE BOOKS
Gillam, R. General Considerations of Computers in Australian Hospitals. School of Hospital Administration, U.N.S.W., 1967.

Penfold, W. J. ed. The Role of the Hospital Board. School of Hospital Administration, U.N.S.W., 1968.

16.631G Comparative Hospital and Health Service Administration

A comparative study of the system of hospital and health service administration in Australia, the United Kingdom, the United States of America and the Union of Soviet Socialist Republics; their sources of
finance; the media through which it is disbursed; the authority and responsibilities of administrative bodies concerned; the planning of their services; methods of staffing with particular reference to medical staffing.

TEXTBOOKS
Griffith, J. (ed.). *The Australian and New Zealand Hospitals and Health Services Yearbook*. School of Hospital Administration and Hospital Administration Journal, Annual.

REFERENCE BOOKS
Commission on Hospital Care. *Hospital Care in the U.S*. Harvard, 1957.
Institute of Hospital Administrators (U.K.). *The Hospitals Year Book*. The Institute, Annual.
(ii) SUBJECTS FOR BACHELOR OF HOSPITAL ADMINISTRATION

12.681 Human Relations in Administration
The content and methods of psychology and determinants of behaviour. Some contemporary theories of social behaviour will be examined and social organisation analysed. Findings in the field of group dynamics, with emphasis on leadership behaviour, will also form part of the subject matter and there will be further studies in communication. (See Hospital Administration I.)

14.022 Hospital Fund Accounting
Introduction to the fund theory of accounting and to generally accepted accounting principles. The recording of hospital transactions in the various funds and the preparation, analysis and interpretation of historical accounting reports.

PRELIMINARY READING

TEXTBOOK

REFERENCE BOOK

14.023 Hospital Management Accounting
Introduction to the various management accounting techniques which may be used by the hospital administrator as an aid to planning, control and decision-making. The emphasis will be on internal control, budgeting and cost analysis.

TEXTBOOK

REFERENCE BOOKS
16.001 Management I

Introduction to the theory of administration and management; concepts such as responsibility, authority, supervision, organisation, delegation and control; decision-making, aids to decision-making; nature and place of communication in management.

16.002 Management II

Extends the principles introduced in Management I; the distinctions between management and administration, operations and policies; examines policy making, departmental organisation and methods of integration; relates the hospital as an organisation to administrative bodies exercising restraints on its functions.

16.003 Management III

Identification and analysis of data required to gauge efficiency and to evaluate decisions; indicators of management efficiency; introduction to data processing equipment and its demands; nature and use of computers in hospitals; the clinical audit; the management audit.

16.101 Comparative Hospital Administration

Applies the concepts derived from the study of Public Administration I, Hospital Planning I and Management II to a comparative study of health services in Australia, U.S.A. and the U.K. e.g. methods of organising health care, principal agents for delivering health care to consumer, restraints on purchase of health care, authority and responsibility of relevant administrative bodies.

16.201 Law I

Introduction to the Australian legal system; the formal sources of law, the judicial process; the nature of federalism, the division of legislative power between the Commonwealth and the States; the relationship between Commonwealth and State laws; principles of the law of contract, the sale of goods; agency, insurance, bailments and negotiable instruments; the disposition of property by will, the concept of the trust.

16.202 Law II

General principles of the law of torts; for example, principles governing liability for negligence, including vicarious liability for the acts and defaults of servants, independent contractors and others; nuisance, trespass to the person, occupier's liability, liability for breach of statutory duty and employer's liability; available defences; a general survey of Commonwealth and State industrial law; other legislation of particular significance to hospital administration.

16.301 Public Administration I

The development of the Commonwealth and States' systems of government; distribution of powers between the Commonwealth and States; functions of departments and ministers and statutory bodies such as commissions; responsibilities of the Public Service; staffing structure of the Public Service; its methods of recruitment and training; some reference to systems of public administration in other countries.
16.302 Public Administration II

A systematic review of the development and present status of selected social policy issues in Australia presented in their social, political and historic context; attitudes to government and personal responsibility in selected fields, e.g. financing health care, welfare provision, social services, provision of medical services; roles of central and local governments; the private sector in health care; comparative material from U.S.A. and Europe.

16.401 Hospital Planning I

Cultural and social influences determining the provisions, nature and use of hospital services in a developed community; the interpretation and implementation of such influences, e.g. area wide planning; methods of determining bed requirements; stages in planning and construction; preparing the architect's brief; architectural limits on hospital planning.

16.402 Hospital Planning II

Relates provision to availability of resources; function and building design; design considerations of specific areas; treatment facilities and clinical services; supply systems and mechanical services; administrative and communication facilities; specifications, estimates, contracts and cost control; site procedure and relations of client with architect, engineer and builder; variations procedures, commissioning and maintenance; planning for adaptations and additions.

16.501 Community Health Planning

The expression of social policy in the organisation, administration and integration of the following services with those of the hospital; environmental health services; provision for maternal and child care; rehabilitation services; mental health and geriatric services non-institutional health care and facilities.

16.601 The Hospital as a Social System

The hospital as a social system; goals and values of the hospital; groups within the system; their goals and values; interaction between such groups; relation of foregoing to nature and quality of patient care; interaction between groups within the hospital and groups outside; patients' attitudes to the hospital and to health care; social, ethnic and regional differences in such attitudes; informal patterns of health care in relation to the hospital.

16.701 Statistics

Part (a). Elementary methods of collecting and handling statistical data; importance of the critical evaluation of numerical data. Tabulation, diagrams, census taking, population statistics, vital statistic rates and their calculation, direct and indirect standardisation, reporting health statistics; distribution, populations and samples; mean and median; random allocation; standard deviation; probability; standard errors; chi-square test; correlation.

Part (b). A project in hospital administration including investigation and use of the techniques of Part (a).
BOARD OF VOCATIONAL STUDIES

DEPARTMENT OF INDUSTRIAL ARTS

21.011 Industrial Arts I

The nature of rigorous and structural design. The elements of creative design — design as aesthetic order — its relationship to perception theory and measurement of aesthetic judgment — the notion of value and value keys in design. The theory and nature of colour perception. A brief treat-their. Man-machine relationships as a problem in design — human qualities the nature of work and some important psychological, sociological and economic factors in man-machine relationships. Basic industrial work situations and an analysis of the methods used to classify and describe them. Man-machine relationships as a problem in design — human qualities in opposition to and in co-operation with machines — an introduction to the problems associated with the transfer of information, energy and matter between man and machine.

Laboratory and Studio—The execution of prescribed projects in various media illustrative of the principles of design. The study and practice of the principal techniques used in work measurement.

TEXTBOOKS

REFERENCE BOOKS
Brochmann, O. Good and Bad Taste. Eyre & Spottiswoode, 1955.
The principles of three-dimensional design and design analysis. Introduction to product design — visual fundamentals and visual presentation in two and three dimensions — functional and psychological aspects of product design. The theories of work factor systems, basic motion-time study, motion-time analysis, and methods-time measurement with particular reference to their human significance.

Laboratory and Studio — The execution of three-dimensional projects in various media. Projects in product design. Experimental work and directed observation involving the various methods of work analysis.

TEXTBOOKS
Books marked with an asterisk are for students taking course electives in Ceramics or Work Study. Students should consult lecturers about these books.

REFERENCE BOOKS
Brochmann, O. *Good and Bad Taste*. Eyre & Spottiswoode, 1955.

21.013 Industrial Arts III

The creative process and the factors influencing it — detailed study of and solutions to the problems associated with product design. The philosophy of comprehensive design and its relationship to work — an integrative overview of the attitudes and viewpoints of the designer and the techniques of analysis, synthesis and evaluation currently used. Industrial organization theory — the principal theories of industrial organization from the eighteenth century to the present day. The nature of management and its various functions and methods of organization in western industrial society.

Laboratory and Studio—The execution of advanced problems in product design in various media — analysis and criticism. Field work in industry involving the analysis and evaluation of methods of industrial organization.

TEXTBOOKS

Books marked with an asterisk are for students taking course electives in Ceramics, Design in Wood/Metal, or Work Study. Students should consult lecturers about these.

REFERENCE BOOKS

21.111 Education I

Two strands: (a) Fundamental theories of education. (b) A social history of education from the nineteenth century.

The theory of education will be concerned with questions relating to the fundamental purposes of education with implications of certain distinctive and influential ideas; the development of these concepts will be traced by reference to the contributions of certain outstanding educational thinkers from Plato to the twentieth century. These ideas will be related to the function of education in an age of crisis. Topics covered will include classical idealism and Christian thought — Renaissance humanism — sense realism and the ideal of universal education — the disciplinary view of education — the rise of naturalism — the psychological trend — the scientific emphasis — contemporary theories of education (conservative theories, supernatualist theories, progressive theories, education and the planned society, the ideal of individual development).

The social history of education from the nineteenth century to the present day will be centred on the development of education in Great Britain and the significance of this for the growth of educational ideas and systems in Australia and America.

TEXTBOOKS
Lester-Smith, W. O. Education. Pelican, A380.
REFERENCE BOOKS

Nunn, P. *Education: Its Data and First Principles.* Arnold, 1926.

21.112 Education II

Two strands: (a) Theories of the curriculum and curriculum development. (b) The sociology of education.

Theories of the curriculum will follow on from the fundamental theories of education discussed in Education I. The elements of this section of the course will include theories of the curriculum, the approach to curriculum construction, criteria for subject-matter selection, patterns of curriculum organizations, research and the curriculum.
The sociology of education—the nature of the field—theoretical orientation (ideological theory, role theory, basic sociological models)—the school as a social system (societal function—roles of teachers—social class and teaching—the pupil population—some general problems of teachers in society)—the family (structure, parent-child relationships—parental roles and behaviours—general stimulation of the Australian home)—the peer group—cultural objects.

Sociology of Education

TEXTBOOKS

REFERENCE BOOKS
Havighurst, R. J. and Neugarten, B. L. Society and Education. 2nd ed., Allyn & Bacon, 1962.
Textbooks

Reference Books

21.201 Freehand Drawing

Teaches the student to see and draw objects as they are, to perceive the structure of natural forms, and to appreciate the causes behind their formation. The practical work in various media, pencil, pen, brush and charcoal, is intended also to develop the ability to express ideas in a visual way. This can later form a basis for the execution of projects in industrial design.

Subjects include: drawing of single objects and groups of objects, figure drawing, drawing from memory, and quick sketching; depiction by line and by light and shade; the principles of free perspective drawing.

Reference Books

Brochmann, O. Good and Bad Taste. Eyre & Spottiswoode, 1955.

**21.211 Drawing and Design**

Advanced problems in engineering or architectural drawing and design. Assignments to be carried out in the studio, but tutorials will be given where necessary.

**TEXTBOOK**

**REFERENCE BOOKS**

**21.801, 21.802, 21.803 Educational Practice**

Undertaken in an approved institution.

**21.901 Tutorial. 21.902 Seminar. 21.903 Project.**

**Graduate Subjects**

**21.501G Industrial Design**

Will emphasize the main functions, skills and responsibilities of the designer for industry, and give a broad view of design in an industrial society, an aesthetic conviction and sensibility and the skills and methods required for the practice of industrial design. Parts of the subjects will be taken jointly by students of product design and communication design; other sections will provide for specialization.

*Historical social and aesthetic bases of industrial design.*
*Design Methodology.*
*Signs, Symbols and Communication.*
*Colour Theory.*
*Professional, Commercial and Industrial Practice.*
*Design Media.*
*Environmental Studies.*
*Visual Communications.*

* To be taken by product design students only.
† To be taken by communication design students only.
TEXTBOOKS

REFERENCE BOOKS
Rowland, K. Looking and Seeing (Parts 1, 2 and 3). Cheshire, 1964.

21.511G Design Projects

Throughout the course the students will be involved in a continuous series of design exercises and projects, graduated in scale and difficulty and with varying emphasis on particular aspects of design technology.

These projects form the central part of the course. The subjects chosen will relate to the current lecture or case study programmes, so that theory and practice can be integrated. The design projects provide an experience in which technology, design method, aesthetics and social need are synthesized and in which interrelationship must be sought and inconsistencies resolved. The student is brought to face problems involving judgment, choice and decision, some of which can be based on objective, analytical study, whilst others will be more subjective, intuitive and emotive.

The projects will be supervised by the academic staff of the Department with assistance from an appropriate practising designer and, when necessary, academic staff from other sections of the University. Tutorials as well as
discussions with individual students will arise from the projects, especially during the design development phase. Opportunity will be given for the student to act as a member of a design team.

At the commencement of each design project the students will be briefed in detail as to the intention, and object of the exercise; this brief will also include basic information, controlling factors, a time schedule and requirements for presentation.

**Product Design Option**

**REFERENCE BOOKS**

**Communication Design Option**

**REFERENCE BOOKS**

Students should also refer to recent editions of the following annuals:

*Annual of Advertising & Editorial & TV Art & Design.* Comet Press, N.Y.
*Annual of Advertising Art in Japan.* Bijutsu Suppan-sha (H. S. Waller).
*Graphic Design in Swiss Industry.* ADC Publishers, Zurich, Switz.
*Graphis Annual.* Graphis Press, Zurich, Switz.

**21.521G Seminar**

In general, seminars will be devoted to design theory and philosophy and to the presentation by students of papers on design problems. Seminars will be closely integrated with the other sections of the course work. From time to time, such matters as general design problems, current issues in design, unusual design problems and addresses by visiting designers, will also constitute the topics of seminars.

**21.531G Creative Art Elective**
53.111 Sociology I

There will be three sections of the course:

PRELIMINARY READING

TEXTBOOKS

REFERENCE BOOKS

Part B: Methods of Social Research

An introduction to the problems of social research design and the practical techniques developed by social scientists, including an introduction to descriptive statistics.

PRELIMINARY READING

TEXTBOOKS

REFERENCE BOOKS
Abrams, M. *Social Surveys and Social Action*. Heinemann, 1951.
Part C: The Social Structure of Contemporary Australia

Social trends since 1939, in the light of economic, demographic, cultural and political changes. The study of major institutional trends and their relation to society as a whole, with reference to comparative material wherever possible.

PRELIMINARY READING

TEXT BOOKS

REFERENCE BOOKS

Clark, C. M. H. Sources of Australian History. O.U.P., 1957.

Hall, H. L. *Australia and England*. Longmans & Green, 1934.

53.112 Sociology II

There will be two sections of the course:

**Part A: Methods of Social Research**

A detailed study of design in social research, with particular emphasis on the scientific basis of sampling. Field work and the use of different techniques in social research. Descriptive and inductive statistics.

**PRELIMINARY READING**

TEXTBOOKS

or

Young, P. V. *Scientific Social Surveys & Research*. Prentice-Hall.

REFERENCE BOOKS
Berelson, B. *Content Analysis in Communications Research*. Free Press, 1952.

Part B:

Students will select, subject to approval, a course-unit drawn from a variety of fields, not all of which may be available in any one year.
These include the following:

- Family and Kinship
- Small Groups
- Social Control
- Social Policy
- Social Stratification
- Sociology of Deviance

Each of these courses will be introduced by a co-ordinated course in sociological theory which will be related to the other specialized fields covered by the topics listed above.

1. SOCIOLOGICAL THEORY

A general introduction to sociological theory with particular reference to the structures and processes of socialization.

TEXTBOOK

REFERENCE BOOKS

2. FAMILY AND KINSHIP

A study of social differentiation as evidenced in family structure and kinship structure in industrial societies and non-industrial societies. The dynamics of the family; the changing role of women; breakdown within the family; changing kinship ties.

REFERENCE BOOKS

Further references will be prescribed at the commencement of the course.

3. SMALL GROUPS

The study of the small group as a small social system and as a subsystem of the larger society.

TEXTBOOKS

EITHER
OR

REFERENCE BOOKS

(i) General Reference Works:

(ii) Experimental Groups:
(a) Collected readings.
(b) Attempts at synthesis.

(iii) Spontaneous Peer Groups:

(iv) Task Groups:
(v) Resocialization Groups:

(vi) Research Methods for the Study of Small Groups:

4. SOCIAL CONTROL
A consideration of the interrelatedness of the processes of socialization, social control, and social change. Particular attention is given to social control in terms of particular areas of industrial societies in which problems of integration are manifested.

TEXTBOOK

REFERENCE BOOKS
Merton, R. *Social Theory & Social Structure*. Fr.Pr., 1957.

58.04 Selected Topics

Lectures and exercises in a number of fields including the following:—
(i) Physical Education: Achievement and maintenance of personal physical fitness at the individual level. Physical education as an aspect of the school programme and the part which may be played by teachers in the programme.
(ii) Health and Health Education: Designed to develop in students (a) self-understanding and self-knowledge in respect to physical and mental health; and (b) knowledge and understanding of school pupils and community health problems and resources. (iii) Communication Skills: Development of knowledge and skill in relation to the effective use of the English language. General problems of communication. (iv) Elective Subject: The object of this section of the course is to give to students the opportunity of devoting some time and thought to an aspect of education of particular interest to them: research, Australian literature, philosophy, history, etc.

58.041 Communication Skills

REFERENCE BOOKS
DeLeeuw, E. and M. Read Better, Read Faster.
Dickens, M. Speech: Dynamic Communication.
Flesch, R. The Art of Plain Talk.
Lee, Charlotte. Oral Interpretation.
Markert, E. E. Speech for All.
Partridge, E. Usage and Abusage.

58.042 Elective Subject

58.043 Health and Health Education

Barnes, K. He and She. Penguin Book, Harmondsworth, Middlesex.
Nemir, A. The School Health Program. W. B. Saunders Company.

58.044 Physical Education

58.050 Supervised Teaching Practice

Eight weeks’ full-time teaching practice in term time.
63.111 Social Work I

A framework is established for the analysis of human problems. Lectures illustrate the practical application of psychological and sociological concepts including role, defence mechanism, subcultural differences and group norms. Case history material is used as an aid in teaching the practical application of social science concepts. Interviewing techniques are taught with the aid of the University’s closed-circuit television facilities. Important social problems are discussed against the background of major social trends. The basic similarities and differences between social case work, social group work and community organization are examined.

TEXTBOOKS

REFERENCE BOOKS
Ackerman, N. W. *The Psychodynamics of Family Life*. Basic Books.
63.112 Social Work II

An extension of Social Work I. Throughout the course, social casework continues to be seen as one way only of helping people with social problems. Appreciation of the central role of groups in human functioning and of the potentialities which lie in group process for inducing change in individual functioning and in social living is stressed throughout. Similarly, problems are seen in their community context and the relevance of community organization to their solution is kept in mind. Social group work and community organization are studied in general terms in their relationship to social casework. Case material, practical work, during which information is sought about social problems in the local community, and field work are used in an interrelated way to help students to acquire and apply social work knowledge and skills.

TEXTBOOKS

REFERENCE BOOKS

63.122 Social Work II (Honours)

Social Work II plus an intensive study of the development of social work theory, including the works of prominent theorists. A reading list will be prescribed.

63.113 Social Work III

Seminars in which an intensive study is made of different aspects of social work, its philosophy, its contribution to prevention of social problems, professional ethics and constituents of professional competence. Students undertake advanced study in social casework, social group work and community organizations.

TEXTBOOKS

63.123 Social Work III (Honours)  
Social Work III plus an advanced course which covers major issues  
confronting social work, new treatment approaches, social work research and  

63.211 Public Health and Social Medicine  
Consists of two equal parts:  

Part A: The study of physical health and disease with particular  
attention to diseases of social significance; principles of medicine; psycho-  
chosomatic disorders and the role of the social worker in treatment.  

Part B: Various types of maladjustment, including behaviour problems,  
psychosis, neurosis, epilepsy and mental deficiency. Mental disorders and  
their causes, genetic, organic and experimental. Positive mental health. Role  
of the family, with its changing pattern and structure; the problems involved  
in maintaining the stability and prestige of the family as a social unit. Other stresses such as economic hardship.  

Part A: SUGGESTED READING  
Travis, G. Chronic Disease and Disability. U. of California, 1966.  

Part B: TEXTBOOK  

63.311 Social Work Practice I  
This subject involves a programme of prescribed field work with an agency,  
observation visits, and lectures and discussions with experienced practitioners  
in social work and other professions for a minimum of 210 hours  
or 30 working days. Reading lists for assignments are provided when necessary throughout the year.  

63.312 Social Work Practice II  
This subject involves a programme of prescribed field work with an agency  
for a minimum of 350 hours or 50 working days. Reading lists for assignments  
are provided when necessary throughout the year.  

63.313 Social Work Practice III  
This subject involves a programme of prescribed field work with approved  
agencies for a minimum of 560 hours or 80 working days. Reading lists  
for assignments are provided when necessary throughout the year.
